Annual 2024 Convention hosted by the Association for Psychological Science (APS)

From May 23<sup>rd</sup> to May 26<sup>th</sup>, I traveled to San Francisco to present in the Annual 2024 Convention hosted by the Association for Psychological Science (APS). Along with Professor Hopton, we presented our studies on leadership and followership theories relating to the bamboo ceiling. It was an eye opening experience to be able to speak with like-minded individuals, and I highly encourage any and all students to jump at the opportunity if given a chance to attend an academic conference!
