Symbolic Grammar

Grammar out of fashion.

But M says:—

Necessity For

This classification (for that is what Grammer boils down to) is not strictly necessary for writing speaking well. — but without doubt to think rationally of language is a great help. But "if you manage it all to points of speech — as you shake. You would become dumb! Many good writers have been ignorant of Grammar.

But a man of average intelligence can be helped by ~~Grammar~~^{by} a certain amount of G — if the ~~fact~~ knowledge is given in to mind in much to structure of language leads to fix itself. But even if this was no practical benefit advantage of this kind it would be necessary none the less to teach G.

This may not seem logical — but life grows larger. We must give Grammar because the child has need of it to assist his post mental development

The child takes in language — for his inst. — the complicated construction. at ch. takes in to details with person — — in the trend when he penetrates by himself into the final constructions of language

The Method

We do ~~not~~ give theoretical explanations
lessons with abstract definitions.

Eg An adjective qualifies a noun.
But give An activity

a) For muscles

~~but not only for muscles~~

"in such a manner that the inner activity of
his reasoning powers (peculiar to the human
organism) may discover for himself the
~~definitions~~ functions,
definitions
rules."

We give aids. &

Child does actual work in determining
the construction of language.

~~Thus~~ The Teacher must have interest Presentation

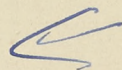

She knows a lot more - as an adult -
a vast store of ideas -

In all these Ex in Grammar there is a great
part for her to play. She must give this
knowledge in a unifying manner, which
corresponds to the trust in her's soul for
an elevated thing.

She must give a spirit to the word,
a philosophy of Grammar - as a
revelation of something great & powerful
in language.

Angel Gabriel.

His name shall be called

Language

In the universe we see around us
rivers flow, sun shines, dogs bark
winds blow, man eats, thinks
birds fly, water melts.

What does it amount to?

Matter ← Energy.

All things are altered down to this (matter)

Matter is the thing that remains, something
we can take our stand on. (the solid earth)

Energy moves always -

a) Static Energy

~~man sleeps~~ Sun shines

b) Dynamic

Sun melts the ice

Grammar Reflects Reality

The words is

- 1) ~~Matter is noun - static - remains~~
reflection of our inner world representing
things. The universe has gathered together
impressions; and in creating language
man has followed to some direction as
he has marched with his universe.
So words + this organization reflect in
a way the nature of the external world
