Honorary Degrees

At this convocation for the Commencement Exercises of 1971, the faculty of Seattle University and its administrative officers, together with the members of the graduating class, their parents, families and friends, join in academic tribute to a man whose varied and significant achievements have enriched the time and society in which we live.

Seattle University is proud on this occasion to confer an honorary degree upon the following eminent person:

VERY REVEREND MICHAEL FEENEY, O.S.B., M.A.

Upon a Benedictine priest prominent for his contributions to higher education in the Northwest, especially to Saint Martin's College; a president of that College since 1964 and a dedicated force in behalf of the independent colleges of Washington State.

Born in Bremerton, Washington, Father Feeney was reared in West Seattle and graduated from O'Dea High School in 1937. He entered the Benedictine novitiate in 1939; following collegiate and seminary studies, he was ordained a priest in 1946. Graduate work took him to the campuses of Seattle University, Notre Dame University, and the University of Washington, where, in 1952, he received a Master's degree in Education, minoring in sociology.

Under his leadership at Saint Martin's, imaginative academic programs have flourished, two major facilities have reached completion, and a significant corps of graduates have entered society.

Though Father Feeney enrolled at Seattle University as an undergraduate in 1937, circumstances took him to Saint Martin's. While lamenting its loss, this University wishes to honor him and the College which has been his home and life, where the motto of his Order: *Ut in Omnibus Glorificetur Deus* is so well served by him and his brothers.

Upon Michael Feeney, O.S.B., outstanding priest and educator, contributor to the well-being of his community and country, President of Saint Martin's College, the degree of Doctor of Laws, honoris causa.

PATRICIA MARIE SMITH, LL.D.

On November 9, 1970, Seattle University conferred the degree Doctor of Laws, honoris causa, upon Patricia Marie Smith for her outstanding and selfless dedication to the people of Vietnam.

Academic Costume

The caps, gowns and hoods universally worn by faculties and candidates for degrees at graduating exercises are a costume dating back to the Twelfth Century. In medieval days the scholars were clerics; the buildings were cold; capes and hoods were required for warmth, and robes of scholars were similar to the cassocks of the clerics.

In the course of years of development, caps with tassels have replaced capes for the head covering, the hooded cape has been modified into the present hood, and the gowns with long flowing sleeves have been redesigned to indicate the character of the degree of the wearer. In 1893, a student movement in the United States endorsed academic apparel as overcoming awkwardness and difference in dress at graduation exercises and resulted in a standardization of academic costume in this country.

The Intercollegiate Code, adopted in 1895, recognizes three styles of gowns: a bachelor's gown, a master's gown, and a doctor's gown. The differences in these gowns are mainly in the cut and shape of the sleeves and in the trimming. Hoods are also recognized for each of the above degrees and vary in shape, size and length. The shell of the hood matches the black material of the gown, and is lined with the color or colors of the institution conferring the degree. The velvet bordering of the hood is of a color indicative of the field of learning to which the degree pertains. The Oxford cap, proper for all degrees, is worn both indoors and outdoors with academic costume. The tassel, worn over the left eye once the degree is conferred, is also symbolic of the degree and conforms to the code of colors for hood trimming. Prior to the actual conferring of the degree the tassel is worn over the right eye. Holders of doctor's degrees are entitled to wear a gold tassel. The tassel of a bachelor's degree indicates the field in which the degree is granted. The color for each field of learning follows:

Arts, Letters and Humanities	White	Laws	Purple
Business	Olive Drab	Library Science	Lemon
Dentistry	Lilac	Medicine	Green
Economics	Copper	Music	Pink
Education	Ice Blue	Nursing	Apricot
Engineering	Orange	Philosophy	Dark Blue
Fine Arts	Brown	Physical Education	Sage Green
Journalism	Crimson	Science	Golden Yellow
		Theology and Divinity	Scarlet
