Information concerning graduate and summer school programs may be obtained in supplementary bulletins.

The University reserves the right to change the fees, rules and calendar regulating admission and registration, instruction in, and graduation from the University and its various divisions and to change any other regulations affecting the student body. Changes go into effect whenever the proper authorities so determine and apply not only to prospective students but also to those who at that time are matriculated in the University. The University also reserves the right to discontinue courses at any time.

As a general rule, students follow the academic programs contained in the Bulletin of Information in effect at the time of their matriculation.

Seattle University is an affirmative action, equal opportunity employer. The University does not discriminate on the basis of race, color, religion, sex, age, handicap or national origin, in admission or access to its programs and activities, or in its employment policies or practices.

Seattle University Bulletin of Information USPS 487-780

Published Quarterly by Seattle University Seattle, Washington 98122 Second class postage paid at Seattle, Washington

### STATEMENT OF OWNERSHIP MANAGEMENT AND CIRCULATION

1. Title of publication: Seattle University Bulletin of Information. 1A. Publication No. USPS 487-780. 2. Date of filing: October, 1979. 3. Frequency of issue: quarterly. 3A. Number of issues published annually: 4. 3B. Annual subscription price: none. 4. Location of known office of publication: Publications Office, Seattle University, Seattle, WA 98122. 5. Location of the headquarters or general business offices of the publishers: Seattle University Publications Office. 6. Names and complete addresses of publisher, editor, and managing editor: Publisher: Seattle University, Seattle, WA 98122. Editor: Jean Merlino, Publications Director, Seattle University. Managing Editor: none. 7. Owner: Seattle University, Seattle, WA 98122. 8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages or other securities: none. 9. The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes have not changed during preceding 12 months. 10. Average number of copies each issue during preceding 12 months: A. Total number of copies printed: 9,000. B. Paid circulation: 1. Sales through dealers and carriers, street vendors and counter sales: none. 2. Mail subscription: none. C. Total paid circulation: none. D. Free distributions by mail, carrier or other means, samples, complimentary, and other free copies: 6,500. E. Total distribution: 6,500. F. Copies not distributed: 1. Office use, left over, unaccounted, spoiled after printing: 2,500. 2. Returns from news agents: none. G. Total: 9,000. 11. I certify that the statements made by me above are correct and complete: Jean Merlino, Publications Director.

### Purpose and Scope

Seattle University, an institution of higher learning, has for its object and purpose:

the conservation, interpretation and transmission of knowledge, ideas and values;

 the extension of the frontiers of knowledge by critical and exhaustive investigation or experimentation;

 the preparation for some of the professions by thorough and intelligent training in the theory and principles underlying those professions.

As a University, it attains its end not only through the sciences and humanities, including philosophy and theology, but also through its professional schools.

As a University conducted under the auspices of the Jesuits:

it affirms its belief in a support of Christian ideals and values;

 it affirms its belief in the unity and totality of all human knowledge, whether experimental, speculative, or divinely revealed;

 it seeks, by a faculty inspired with the Spirit of Christ and by the creation of a liberal atmosphere inside and outside the classroom, to develop an unbiased, truly liberated and enlightened intelligence in its faculty and student body.

#### History

Seattle University's development as one of the Pacific Northwest's leading universities is closely interwoven with the history of Seattle and the Pacific Northwest. It is the story of a continuing effort on the part of the University to help meet the educational demands of a burgeoning area.

In 1890, concerned with the problem of providing adequate educational opportunity for the young men of the area, the Rt. Rev. Aegidius Junger bishop of the then Nesqually diocese, asked the Jesuit fathers to establish a school in Seattle. Two pioneer priests, the Rev. Victor Garrand, S.J., and the Rev. Adrian Sweere, S.J., were sent by the Rev. Joseph Cataldo, S.J., superior of the Rocky Mountain Missions, to answer the bishop's request.

They arrived in Seattle early in 1891 and immediately set about choosing a site for the new school. Upon the advice of some of the area's leading figures, they purchased several lots in the Broadway addition on the eastern edge of the young city. Pending construction of their new building, the fathers were asked to begin classes in St. Francis Hall, at what is now Sixth and Spring Streets in downtown Seattle. They assumed administration of the church and school on September 23, 1891, changing the name of the latter to the School of the Immaculate Conception.

In 1893, the cornerstone of the first building on the present campus at Broadway and Madison Streets was laid. The building, now the Garrand Building, served both as a school and as the first Immaculate Conception Church in Seattle. The following year, under the direction of the Rev. Conrad Brusten, S.J., and the Rev. Patrick Mahony, S.J., students were first enrolled in an "Academic" course of studies at the high school level. Four years later, the school received its Articles of Incorporation as an institution of higher learning under the corporate title, Seattle College.

The years that followed were years of struggle for the young institution. The frontier atmosphere of the time was not especially conducive to its growth and it was not until 1900 that the collegiate program was begun with a course in "The Humanities," the forerunner of today's College of Arts and Sciences. In 1907, at the request of former students, evening courses were first offered. The University granted its first bachelors' degrees in the spring of 1909 and its first graduate degree in 1910.

Conditions during the First World War led to the suspension of classes from 1918 until 1922. The latter year they were resumed on a seven-acre campus on Interlaken Boulevard which, with two buildings, had been presented to the college by Mr. and Mrs. Thomas C. McHugh. Both college and high school classes were held on the new campus until 1931 when the college returned to its former Broadway and Madison site.

The first women students were admitted to credit courses in 1933. Seattle University's second academic unit, the School of Education, was added in 1935. In 1937, full accreditation was granted by the Northwest Association of Secondary and Higher Schools. The School of Nursing was established in 1940 and the School of Engineering added in 1941. A fifth major academic unit, the School of Commerce and Finance was initiated in 1945.

On May 28, 1948, full university status was granted by the State of Washington and Seattle College assumed its present title, Seattle University.

#### Organization

Seattle University is an independent, coeducational institution of higher learning incorporated under the laws of the State of Washington. It is operated by its own Board of Trustees and administration under the auspices of the Society of Jesus. Its faculty and students are drawn from all races and denominations. One of 28 Jesuit institutions of higher education in the United States, it derives its tradition and objectives from the academic experience and educational ideals of the Society of Jesus and the Christian tradition.

The University is composed of eight major academic units:

The College of Arts and Sciences comprises 12 departments. These are English, fine arts, foreign languages, history, journalism, military science, philosophy, political science, psychology, rehabilitation, sociology and theology and religious studies. Program divisions are: community services, criminal justice/police science, general studies, honors, prelaw and speech.

The Albers School of Business offers programs in accounting, economics, finance, general business, management and marketing.

The School of Education offers programs which qualify its students for teaching certificates and principals' credentials issued by the State Department of Public Instruction.

The Institute of Public Service offers a baccalaureate program in Human Resources.

Matteo Ricci College is a six year combined high school college program leading to a baccalaureate degree.

The School of Nursing offers a baccalaureate program in professional nursing which qualifies students for registration through state licensure.

The School of Science and Engineering is composed of the departments of biology, chemistry, mathematics, physics and civil, electrical and mechanical engineering. Program divisions are: allied health technology, general science, health information, predental and premedical studies.

The Graduate School has programs leading to masters' degrees in business, education, philosophy, public service, rehabilitation, religious education, software engineering and transportation engineering. A Doctor of Education degree with a major in Educational Leadership is offered.

#### Accreditation

Seattle University enjoys the highest accreditation and its students are accepted for graduate and advanced study by leading colleges and universities in all parts of the country.

The University is accredited by:

Northwest Association of Schools and Colleges National League For Nursing American Chemical Society Engineering Council for Professional Development American Assembly of Collegiate Schools of **Business** National Council for Accreditation of Teacher Education

is approved by:

Washington State Board of Education American Medical Association American Society of Clinical Pathologists American Medical Record Association Washington State Board of Nursing

#### The University is a member of:

American Association of Colleges for Teacher Education, American Association of Collegiate Registrars and Admissions Officers, American Council on Education, Association of Higher Education, Association of Jesuit Colleges and Universities, Independent Colleges of Washington, National Commission on Accrediting, Northwest Association of Colleges, Western Interstate Commission for Higher Education.

#### Campus and the City

Seattle University is located on a 41-acre campus on Seattle's historic First Hill. Within short walking distance are the city's major education, cultural and recreational facilities, business and shopping centers and the Puget Sound waterfront.

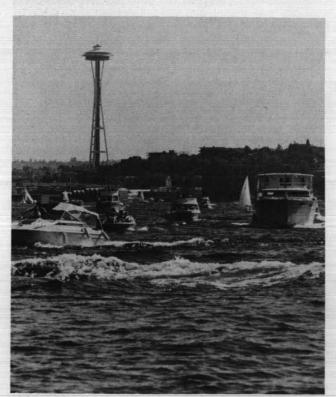

The University's physical facilities serve a current student enrollment of 4,100. Presently, the campus contains 24 buildings, including modern classrooms, student and faculty residences and service units.

The housing facilities available on campus are Bellarmine Hall, Xavier Hall and Campion Tower. Residence halls are coed.

On campus facilities include the A.A. Lemieux Library (1967), the major study and resource center, with seating for 1,100 students. A variety of study areas, including individual carrells, study lounges and conference rooms, are available for the student's comfort and convenience.

The Connolly Center (1969) is the physical education teaching facility. In addition to classroom areas, recreational facilities include two swimming pools, basketball, badminton, tennis and handball courts and a gymnastics and dance area.

The Student Union Building (1953), the Chieftain houses the office of the Vice President for Student Life, student offices, dining, lounge and meeting areas. A selection of auditoriums are available in the A.A. Lemieux Library, the William Pigott (1957) and Thomas J. Bannan (1961) Buildings for films, lectures, meetings and musical presentations.

The McGoldrick Student Development Center, opened in 1976, includes the Career Planning and Placement Center, Counseling and Testing, the Minority Student Affairs office, International Student Services and the Campus Ministry office.

Other major campus structures include the Liberal Arts Building (1945); Bookstore Building (1964); Loyola hall, the Jesuit faculty residence and the School of Nursing (1979).

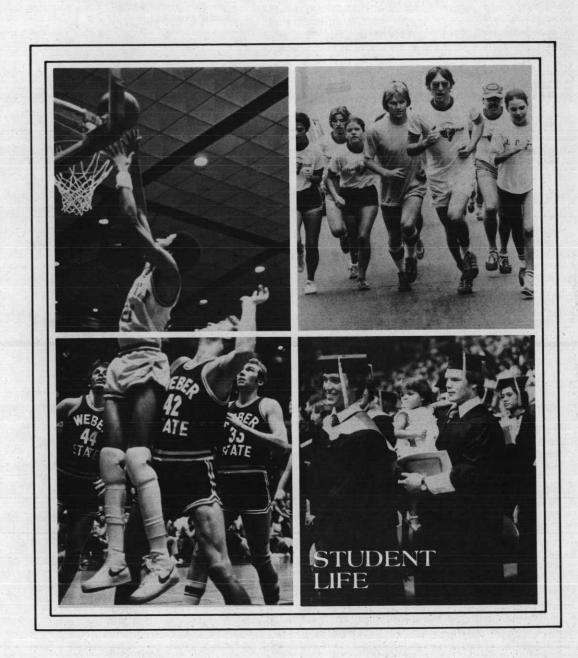

Seattle University is located in a seaport city surrounded by unsurpassed natural beauty. Seattle, the largest city in the Pacific Northwest and one of the 25 largest in the United States, has all the scenic and cultural variety of a metropolitan city with the unique advantage of mountains and water at its back door.

Within city boundaries, Lake Union and Lake Washington provide the opportunity for sailing, boating, water skiing and swimming.

Ski areas are within an hour's drive of the city, with night and weekend skiing during winter months. Easy hikes, with trails marked and guide books available, are popular in the spring and summer months, as well as more difficult hikes for seasoned enthusiasts.

Bicycling has become increasingly popular and trails are set aside in various areas of the city.

Golf Courses, tennis courts, and indoor and outdoor pools for year-round swimming are available in addition to fishing and hunting opportunities.

#### COSTS—GENERAL INFORMATION

All charges are due and payable at the time of advanced registration or on registration day. Registration is a coordinated process involving the Registrar, the Controller and the Director of Financial Aid. For further information about financial aid see pages 11-13. Seattle University reserves the right to change its charges without notice prior to the beginning of any quarter or summer session.

A student who has not met his/her financial obligations following registration will have his/her registration cancelled unless allowed to continue under conditions agreed to by the Controller.

#### **Tuition Rates 1980-81**

Undergraduate courses: Fall, Wint	er
Spring\$ Military Science 301, 302, 303.	79.00 per credit hour
401, 402, 403\$ Masters degree programs	
Business\$	109.00 per credit hour
Public Administration\$	94.00 per credit hour
Henabilitation\$	94.00 per credit hour
Education\$	84.00 per credit hour
CORPUS Masters\$	84.00 per credit hour
Transportation Engineering\$	94.00 per credit hour
Software Engineering\$	98.00 per credit hour
Doctor of Education\$	112.00 per credit hour

#### **Certificate Programs**

Alcohol Studies	79.00 per credit hour 84.00 per credit hour 94.00 per credit hour
Human Resources Development	28.00 per credit hour

#### **Family Tuition Plan**

Two or more members of a family living in the same household and dependent upon a common support and attending the University concurrently may apply for a tuition discount. Further information on the Family Tuition Plan can be obtained from the Financial Aid Office.

#### Refunds

Wi	thdrawals (full or	pa	ar	rt	ia	11)	)						
	2-10 class days												80 percent
	11-15 class days	٠,											60 percent
	16-20 class days												40 percent
	Thereafter												.No refund

Refunds are based on the number of consecutive Monday through Friday days from the first day of classes until the official date of withdrawal according to the above schedule. At least 10 class days must elapse between date of withdrawal and date of refund.

Refunds for tuition and residence hall charges to students on financial aid will be applied first to financial aid source and the balance, if any, will be remitted to the student.

#### **Residence Charges**

Room and Board (per academic year)	\$1,980.00*
Deposit (refundable)	\$85.00
(Private room, additional \$220 per quar	ter) \$220.00

\*Based upon 21 meals per week. Other options are also available. Further information can be obtained through the office of the Director of Resident Student Services.

#### **Student Life**

One of the primary aims of the educational mission at Seattle University is the total development of students. This holistic growth process is enhanced by integrating opportunities for social, emotional, cultural, physical and spiritual development, in addition to intellectual growth. The Division for Student Life is committed to providing programs and services conducive to fostering an educational environment which will assist students in achieving their full potential.

Located in the McGoldrick Student Development Center, the Student Union, the Connolly Center, the Child Care Center, and the three University residence halls, the professionals who comprise the Student Life staff are committed to meeting the developmental needs of Seattle University's diverse student population.

The Office of the Dean for Students provides many support and administrative services for students. Student Orientation, Student Union services and programs, leadership training and special programs for women and non-traditional students are all coordinated through the Dean's office.

The Director of Student Activities coordinates all Student Union programs and supervises the Game Room and Tabard Inn. The Director is also the administrative adviser to the student government (ASSU) and the student senate, and coordinates advisement and activities of the over 50 clubs and organizations on campus.

The Counseling and Testing Center offers opportunities for personal counseling for students focused on developing self-awareness, improving individual communication skills and interpersonal relationships. Vocational counseling is available on a personal basis, using interest inventory testing as a guide for individual planning. The Center also sponsors various workshops offered throughout the school year on subjects such as stress, shyness, dreams, and test anxiety. The PACE Program is also made available through this office.

The Career Planning and Placement office makes available career counseling, job referral services, and workshops on resume writing, interviewing, and job-seeking skills to students. Coordination of the part-time work-study student employment program is also accomplished through this office.

The International Student Adviser is the campus liaison for all students from abroad, including those who transfer to Seattle University from other American colleges. It provides a "home base" for these students, facilitating the assimilation of the international students into the University community.

The Minority Student Affairs office serves the personal, academic and cultural needs of the ethnic minority students attending the University, coordinating activities of such student groups as the Native American Club, the Black Student Union, Kapatiran and the Rainbow Coalition. The scope of the Minority Student Affairs office is not limited to the campus perimeter, as it serves as liaison between the University and the many minority communities in Seattle.

The Campus Ministry team is committed to developing the spiritual life of the university community. Besides providing sacramental and liturgical celebrations for Catholics, the team is concerned with nurturing the values of Christian Humanism. Retreats, Searches, Faculty-Staff Renewals, Reach Out program and individual spiritual direction enable members of the community to enrich and share their spiritual values and religious traditions.

The Child Care Center is open to children from families of students and employees of Seattle University, and supplements the University's community program by also serving children from families within the surrounding Central City community.

The Bookstore sells all required textbooks and courserelated supplies. In addition, it offers complete selections of reference books and general paperbacks, gifts, greeting cards, snack foods, and sundries. The store features clothing and gifts with Seattle University imprinting. Books not in stock may be special-ordered, film may be left for processing, and, at the end of each quarter, used books may be sold back for cash.

The Learning Skills Center was instituted at Seattle University with the assistance of a federal funding program to identify and remedy special learning problems for disadvantaged students. Tutorial assistance, self-paced courses in English and mathematics, an academic skills laboratory and career guidance seminars are offered. Disabled student assistance and counseling is also a vital part of the Center's program.

The Student Union Building is considered the hub of campus activities. It offers two eating establishments, the Chieftain Dining Room and the Tabard Inn; weekly entertainment in the Tabard Inn; a Game Room; a ticket booth and information center; a commuter ride board; and student lounges. Student Life administrative offices, the Student Government (ASSU), the Spectator, student newspaper, and various club and organization offices are also located in the Student Union.

**Orientation** programs are sponsored each fall through the Office of the Dean for Students to facilitate social and academic adjustment of new freshmen and transfer students. A transfer student orientation is also held during winter and spring quarters.

PACE (Peer Advising for the Collegiate Experience) is a unique program sponsored by the Counseling and Testing Center designed to facilitate freshman students' social and academic transition to University life. PACE provides practical "survival" information and serves as a source of interpersonal support. Teams of upper class students are trained as peer advisers and meet with small groups of freshmen during Fall quarter to discuss student concerns, provide useful academic advice, relate practical study skills information, and participate in social activities.

Student Clubs and Organizations provide Seattle University students with opportunities to develop leadership skills, broaden their social and professional backgrounds, and make a significant contribution to both the University and the community. Student government (ASSU), student publications, preprofessional organizations, service clubs, scholastic honoraries, and community outreach are among the varied groups in which students may choose to participate.

#### **Other Student Services**

**Academic Advisement** is coordinated through the various schools within the University by the deans and department chairpersons in a student's major area. Adviser assignments are normally made during the fall Orientation period.

#### Athletics

Seattle University is a member of the National Collegiate Athletic Association, the Association of Intercollegiate Sports for Women and the West Coast Athletic Conference. Its intercollegiate athletic policies are governed by the constitution and by-laws of these associations, and the athletic director administers the intercollegiate and intramural athletic program. Seattle University competes on the intercollegiate level in men's basketball, baseball, golf, tennis, soccer and cross country. The women's intercollegiate sports program includes competition in basketball, gymnastics, tennis and cross country. A comprehensive intramural program is also offered to all students in several formal and informal sports activities. The primary athletic facility on campus is the Connolly Center, a recreation and physical education complex built in 1968. A three-acre intramural athletic field containing two softball fields, a jogging track, and three soccer fields is currently under development adjacent to the campus.

#### Housing

Seattle University requires all full-time freshman students under 21 years of age to live in University housing unless they are married, living with parents or have been granted an advance waiver by the Director for Resident Student Services.

#### Residence Halls

Three coeducational residence halls offer convenient living accommodations, lounges and facilities for study and recreation. Bellarmine Hall, a seven-story dormitory housing over 400 students, also provides the main dining room for resident students. The largest residence hall is twelve-story Campion Tower. Xavier Hall, the third campus residence, has a 200 student capacity. Residence halls are supervised by resident directors, floor moderators and student resident assistants.

The Student Health Center is open to all regularlyenrolled students. Full-time students and their dependents are also eligible to participate in the University's health insurance program.

#### University Food Service

Food service is provided in the Bellarmine Dining Hall, Chieftain Dining Room and Tabard Inn.

Resident students are required to purchase a meal ticket and may select from several meal plans offered by SAGA Food Service. Off-campus students may also purchase meal tickets. Further information may be obtained from the SAGA business office, Bellarmine Hall.

#### **Application for Housing**

Requests for on campus student housing are made through the Director for Resident Student Services. A seventy-dollar (\$70.00) deposit is required for reservations. See page 8 for housing cost information. Cancellation of reservations must be received by the Director for Resident Student Services no later than August 1, or the deposit will be forfeited. Residents who terminate their stay in University residence halls before the end of the quarter will be subject to a penalty fee before a refund can be issued.

#### FINANCIAL AID

#### **Meeting College Costs**

The financial aid program at Seattle University assists academically competent and needy students in meeting the expenses of their college education. This assistance offered to both new and continuing students, may be used for normal educational expenses as well as living expenses, and is available to students without racial or religious discrimination.

Seattle University expects its students and their families to make a reasonable contribution toward the expense of a college education. This expected contribution is determined by the financial need analysis of the College Scholarship Service (CSS). Financial need is the difference between the cost of attending college and the amount the student and family is expected to contribute toward that cost. Once the expected student and family contribution is determined, the University will attempt to supplement that contribution with an award of financial aid which may consist of a combination of grants, loans, and/or part-time employment. The Financial Aid Office will determine the student's eligibility for all types of aid and, hopefully, the total cost of attending Seattle University can be met from three sources—student, family, and financial aid.

Students are expected to arrive on registration day with sufficient funds to pay tuition, room and board and all fees. Those students who because of late application for federal loan funds or for other reasons foresee that they will not have the required funds at the time of registration should make arrangements to secure a short-term loan from a relative, employer, credit union, bank or other funding source.

#### Types of Financial Aid

Eligible students are likely to receive a combination of three types of aid, commonly called a financial aid "package".

- GRANT and SCHOLARSHIP An outright award that does not require repayment.
- LOAN College loan programs allow liberal repayment periods and low interest rates. Repayment normally begins after graduation.
- EMPLOYMENT An opportunity to work at a campus job or in a Seattle area business.

Seattle University reserves the right to change its financial aid policy without notice.

#### How to Apply for Financial Aid

- Apply for admission to Seattle University. A student must be ACCEPTED to Seattle University before being considered for financial aid.
- 2) Submit by mail the Financial Aid Form with the required fee to CSS offices in Berkeley, California or Princeton, New Jersey. Be sure to indicate Seattle University as a recipient of the need analysis which will be calculated from the information you provide on the statement you mail to CSS.
- Submit a notarized copy of the Seattle University Application for Aid to the Seattle University Financial Aid Office.

- 4) Submit all three copies of the Basic Educational Opportunity Grant Student Eligibility Report (SER) to the SU Financial Aid Office. A SER will be generated from the information supplied on the Financial Aid Form.
- All transfer students are required to submit a Financial Aid Transcript from each institution that they have attended prior to Seattle University.

To ensure maximum consideration for financial aid, an applicant's file must be ready for consideration by March 1. An applicant's file will be ready for consideration when it contains all the necessary documents and, in the case of a new student, the student has been admitted to the University by the Admissions Office.

It is the applicant's responsibility to see that the file contains all necessary documents. Applicants who submit documents after the March 1 deadline will be evaluated for need and offered aid on a funds available basis.

Currently enrolled students, new students and transfer students who are enrolling for Fall quarter must observe the March 1 deadline. All applicants for other than Fall quarter should contact the Financial Aid Office to determine the deadline. Continuing students must reapply for financial aid each year. Summer quarter requires a separate application.

Applicants are advised to make and retain copies of all documents submitted.

#### **GRANTS**

A limited number of grants are awarded annually to entering new students, transfer students and currently enrolled students. Awards are based on scholastic achievement, financial need, participation in school and community activities and leadership potential. Applicants need not prepare, except as indicated below a separate application for grants. Grant awards range from partial to full tuition. Other financial aid may apply to living expenses.

These grants are funded by Seattle University when offered. Subsequently the grant may be designated as funded by a donation to the University.

#### **Honors Program Grants**

Partial tuition grants are offered for one year and are renewable on a performance basis. Applicants should contact the Honors Program chairperson for complete information.

#### **Donated Grants**

These are grants made available each year to Seattle University through the generosity of the organization and individuals listed. In addition to the qualifications indicated, academic achievement and financial need are major considerations in selecting recipients.

#### The Blume Family

#### The Boeing Company

A grant to students in engineering or business. Renewable.

### Alphonse & Mary Brenner and John Brenner Grant Fund

A grant to a deserving Catholic student from the Yakima diocese.

John F. Byrne Memorial Scholarship

Ben B. Cheney Foundation

**Louella Cook Foundation** 

Bing Crosby Youth Scholarship Fund

**Farmers Insurance Group** 

Renewable grants to University students in business or mathematics.

Alice Fisher Scholarship Fund

A partial grant award to junior and senior Nursing students.

Seattle University Guild Endowment Scholarship Fund

Scholarship fund available to all students.

**Agnes Handley Memorial Grant** 

Henry T. Ivers Memorial Scholarship

Richard and Kathie Ann Jones Charitable Trust
Partial grants to upperclass students.

**Harry Kinerk Memorial Grant** 

A partial grant award in memory of the late Professor Harry Kinerk.

Elizabeth and Rhoady Lee Scholarship

**Edmund Maxwell Scholarship** 

**Rosemary McCone Memorial** 

Merrill Trust Scholarships

**John and Margaret Nelson Trust** 

**Paul Pigott Memorial** 

H.H. Thibeau Memorial Scholarships
For juniors or seniors in Marketing

Albert A. Schafer Memorial

Seattle First National Bank Minority Scholarship

A scholarship for a minority student enrolled in the Albers School of Business.

Ellen B. Stephenson Scholarship Fund

Washington Congress of Parents, Teachers and Students Financial Grant

A grant to an incoming first year new student with deep need. Renewable.

**Western Gear Foundation** 

Awarded to students in engineering in honor of the late Phillip L. Bannan, Sr. These grants are renewable if the student maintains a high scholastic standing.

William R. Woods Business Grant

A \$1000 award to a deserving upperclass or graduate student. Contact the Dean of the Albers School of Business

**Wyman Youth Trust** 

#### Loans

Loans are an integral part of the financial aid award "package" offered to students. Some loans do not require payment of principal or interest until the student graduates or leaves school. At that time low interest payments, which may extend over a long period, begin. Loans are an excellent means for the student to assume, but delay, at least a part of the cost of education. This allows the student's family to assume a portion of the education cost without utilizing current income or savings. Students must be United States citizens, a resident of a Trust Territory or have Immigration Department approved permanent status to be eligible for loans which involve federal funds.

#### National Direct Student Loan (NDSL)

A long-term loan based on financial need. Eligible students may borrow a total of \$5,000 for their undergraduate education or \$10,000 for combined undergraduate and graduate education. Repayment begins nine months after the student graduates or leaves school. The annual interest rate is three percent and repayment may extend ten years, but payments may not be less than \$30 per month. The NDSL repayment program also includes limited deferment provisions and cancellation features.

#### **Guaranteed Student Loan (GSL)**

A long term loan arranged by the student from a lender selected by the student. GSL is guaranteed by the Washington Student Loan Guaranty Association. This means that the Washington Student Loan Guaranty Association will repay the loan to the lender in the event of a student loan default. A commercial bank, credit union or savings and loan association are possible lenders. Students may borrow up to \$7500 for all undergraduate years combined or \$15,000 for combined undergraduate and graduate education. Repayment begins nine months after the student graduates or leaves school. The annual interest rate is 7 per cent and repayment may extend to ten years at not less than \$360 per year. The GSL is not governed by the Federal Need Test and is available to students who are not eligible for other type of financial aid. The federal government will pay the interest on the loan while the student is enrolled in school. Early application is advised since processing may take from three to four weeks.

#### **Law Enforcement Education Loan**

A long term loan for full time employees of police, corrections agencies, or courts who are also full time students enrolled in a graduate or undergraduate program related to law enforcement. A LEEP loan will provide funds to cover tuition and fees. The Criminal Justice/Police Science and Community Services programs have been approved for this loan. The annual interest rate is seven per cent with a liberal cancellation policy.

#### **Government Grants**

Several forms of grants are offered as part of the financial aid award package which might also include loans and employment. These are non-repayable federal and state grants as well as Seattle University tuition grants which provide partial tuition. Need rather than grade point average is the primary consideration.

## Supplemental Educational Opportunity Grant (SEOG)

The Supplemental Educational Opportunity Grant is a federally funded grant awarded to students with exceptional financial need. SEOG awards usually range from \$200 to \$1,000 in the initial year and may continue in the subsequent years. SEOG awards do not require repayment. Students with baccalaureate degrees are not eligible for SEOG funds.

#### **Basic Educational Opportunity Grant (BEOG)**

Students considering Seattle University are encouraged to use either the BEOG application form or the CSS financial aid form to apply. In approximately four weeks the federal government will return to the student a Student Eligibility Report (SER) and, regardless of the reported eligibility, it is necessary for the student to forward all three copies of that SER to the Seattle University Financial Aid Office which will determine the BEOG amount, all of which is non-repayable. Up to \$1,800 per year may be available. Students currently enrolled at Seattle University and receiving financial aid are required to file a BEOG application and submit the Student Eligibility Report. Students with baccalaureate degrees are not eligible for BEOG funds.

#### **Nursing Scholarship Grant**

Federal non-repayable grants of up to \$2,000 per year are available to nursing students with exceptional financial need.

#### **Washington State Need Grant**

A grant designed to assist needy and/or disadvantaged Washington state residents in obtaining post-secondary education. Selection is made by the Council for Postsecondary Education from nominations submitted by the University. Students with baccalaureate degrees are not eligible for Washington State Need Grant Funds.

#### **Law Enforcement Education Grants**

Grants of up to \$250 per quarter are available for full time employees of police, corrections agencies, or the courts who are full or part-time students in a program related to law enforcement.

#### **ROTC Grants Army/Air Force**

United States Army awards to selected high school seniors and college freshmen, sophomores and juniors who enroll in the Army Reserve Officer Training Corps program at Seattle University. Expenses for tuition, books and fees are paid for one, two, three or four years and each student receives an additional \$100 per month allowance during the school year. Write to the Seattle University Professor of Military Science for information on application procedures.

The United States Air Force awards scholarships to selected students enrolled in the Air Force ROTC programs. Write to Professor of Aerospace Studies, University of Washington, Seattle, Washington 98105.

### Veterans, Widows & War Orphans Educational Assistance

Veterans (or spouses of deceased veterans) may receive up to 45 months of educational assistance under terms of the GI Bill. War orphans and dependents of disabled veterans may also receive up to 45 months of educational assistance. Contact the Seattle University Veterans Office.

#### **Social Security Assistance**

Students may be eligible for Social Security assistance if one of their parents currently receives or had received social security benefits. Eligible students must be between 18-22 years of age, unmarried and attending full time. Information and forms may be obtained from a Social Security office.

#### Student Employment

The financial aid award frequently includes work-study along with the loan and grant elements. Work-study eligible students may earn funds by being employed under the work-study program. This earned income may be used to pay either tuition or living costs. It is important to note that funds earned during the academic year under the work-study program will not be available at the time of Fall quarter registration and students must plan accordingly.

Work-study eligible students are not required to work nor is employment guaranteed. The Seattle University Career Planning and Placement Office assists the student in obtaining employment on or off campus.

#### Federal College Work-Study Program

Students with established financial need are eligible for part time employment either in on or off campus positions.

#### **Washington State Work-Study Program**

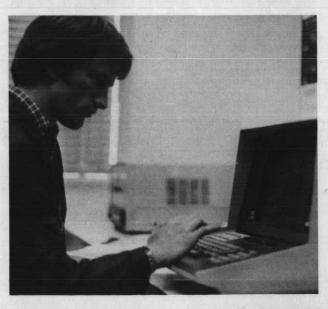

Students who qualify under a state established need formula are eligible for part time employment in positions with employers other than Seattle University.

#### **Army ROTC Subsistence**

\$100 per month is paid to all students enrolled in the Army ROTC program during their junior and senior years. Write to Seattle University Professor of Military Science for information.

#### **Student Placement Center**

The Career Planning and Placement Office maintains a listing of employment available on campus and with Seattle area employers. Literature and instruction in jobseeking skills are provided for students and alumni.

#### **Admission Policy**

Seattle University selects for admission those students who have demonstrated in their prior studies an ability to achieve a level of academic performance necessary to earn a degree. University admission policy is established by the Academic Council. It is administered by the Academic Vice President through the Director of Admissions and Registrar. All records submitted by applicants become the property of Seattle University. In addition to the requirements for admission set forth in this section of the Bulletin, reference must be made to additional or distinctive requisites in the individual Colleges or Schools of the University. This information will be found in the section of the Bulletin dealing with the specific College or School.

Seattle University offers the opportunities and experiences of higher education to all students equally without regard to race, religion, age, sex, handicap or national origin. It does so in keeping with the guidelines and requirements of laws and regulations as promulgated by state and federal agencies.

Seattle University does not discriminate on the basis of handicap in conformity with section 504 of the Rehabilitation Act of 1973 in admission or access to its programs and activities, or in its employment policies or practices.

Dr. Ekkehard Petring is the responsible employee designated by Seattle University to coordinate its effort to comply with section 504 of the Rehabilitation Act of 1973.

This constitutes the official notice called for in Section 504, No. 84.8, Paragraph a.

Admission may be granted to qualified applicants for any of the four quarters of the academic year. All applicants, for undergraduate or graduate admission, must remit the \$15 application fee to the University. Applicants for transient status will be charged a \$10 application fee. Inquiries concerning admission should be addressed to the DIRECTOR OF ADMISSIONS, SEATTLE UNIVERSITY, SEATTLE, WASHINGTON 98122.

#### From Secondary Schools

To be considered for admission to the University as a regular student an applicant must meet the following entrance requirements:

Have graduated or will graduate from an accredited high school.

Have a high school grade point average of 2.50 or above as measured on the 4.00 scale or rank in the upper 50 per cent of the senior class.

Have completed 16 units of college preparatory courses.

Have submitted scores from one (1) of the following examinations: Washington Pre-College Test (WPCT) or Scholastic Aptitude Test (SAT) or American College Test (ACT).

Applicants with a grade point average below 2.50 as computed by the University Admissions Office will be reviewed by a special board. Applicants with a grade point average below 2.00 will not be admitted to the University on either a regular or probationary status.

#### **Unit Requirements**

Admission is granted subject to graduation from an accredited high school and the applicant must present as part of his/her school record successful completion of a minimum of 16 academic units. One unit equals one year. These 16 units must be distributed as follows:

English 3
Mathematics (Algebra, Geometry)
History1
Laboratory Science 1
Academic Electives (approved) 9

If the student lacks one of the above required units, he/she may be permitted in some cases, by way of exception, to enter with provisional standing.

Two courses of three or more quarter hours each will be considered equal to one high school unit.

#### **Application**

In the State of Washington, application blanks for those wishing to enter as freshmen may be obtained by writing Director of Admissions, Seattle University, Seattle, Washington 98122 or from any high school counseling office in the state. Out of state applicants may obtain forms by writing to the Director of Admissions. To be considered official, records must be forwarded to Seattle University directly by the high school or registrar of a previous school.

In making application for admission the candidate must complete the following procedures after completion of at least the sixth semester:

- Complete page one of the application for admission and leave the entire form with high school counselor to have the back of the page completed and forwarded directly to the Office of Admissions.
- Submit a non-refundable application fee of \$15 to the Office of Admissions. Make remittances payable to Seattle University.
- Follow carefully any other instructions which are received with the letter of acceptance.
- Immediately upon receipt of housing material submit an advance room deposit of \$70. This deposit is not refundable after August 1.

Requests for housing for men and women should be addressed to the Director of Resident Student Services

de la villa

Notification of acceptance or refusal will begin December 1 and continue as files are completed. However, students whose records do not give sufficient evidence of the ability to pursue college level work will be notified that a final decision will not be made until the receipt of specified information.

High school students are encouraged to apply before May 1. All applications for admission should be received no later than one month before the beginning of each quarter.

#### **Early Admission**

High school students with a grade point average of 3.3 or above on the 4.0 scale and who are recommended by their high school principal and their high school counselor may be considered for enrollment after their junior year at high school.

#### **Early Decision Plan**

Students who select Seattle University as their first-choice college and who have clearly demonstrated a high level of scholastic ability are eligible to apply for admission under this plan. Complete admission credentials should be submitted as soon as possible after the close of the sixth semester, but no later than November 1 of the senior year. Notification will be sent as soon as all credentials are received.

#### Probation

Students admitted on probation will be placed in the General Studies Program under the guidance of the General Studies Director. Probation students must gain regular status by the end of the freshman year or be subject to dismissal from the University.

#### **Placement Examinations**

Placement tests in chemistry, mathematics and foreign languages are administered by these departments during Orientation and offer entering freshmen the opportunity to show the extent of their preparation in these areas and enable their department head or adviser to determine the level at which they are ready to begin college work. For additional mathematics placement information, consult the departmental section of this Bulletin.

#### **Entrance Examination**

In addition to the high school record, candidates for admission to the Freshman class must submit scores from one of the following examinations: the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board or the test of the American College Testing Program (ACT) or the Washington Pre-College Test (WPCT).

Test application forms and information concerning testing centers and test dates may be obtained from high school counselors and principals. Applicants planning to take the SAT may also write directly to the Educational Testing Service, P.O. Box 1025, Berkeley, California 94701, or P.O. Box 592, Princeton, New Jersey 08540. Students living in the eastern half of the United States should write to the latter address. Applicants planning to take the ACT may write directly to American College Testing Program, Inc., Iowa City, Iowa. The Washington Pre-College Test will be made available to juniors in all Washington High Schools.

#### **Advanced Placement**

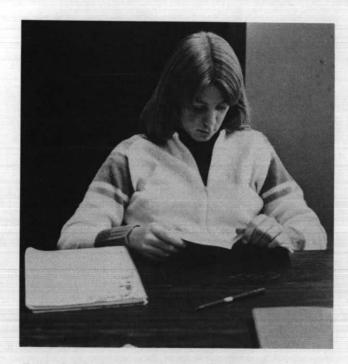

Entering students interested in receiving advanced placement in subject matter other than as set forth above should plan to take the Advanced Placement Tests of the College Entrance Examination Board. Information concerning these tests may be obtained from high school guidance personnel or by writing to Educational Testing Service. The Educational Testing Service will forward test results directly to Seattle University. At the discretion of the dean of the school and the head of the department, a student who has been given advanced placement on the basis of the CEEB Advanced Placement Tests may also be granted college credit. Advanced Placement or credit may also be granted on the basis of the subject examinations of the College Level Examination Program (CLEP) of the College Entrance Examination Board. To receive course credit through CLEP, students must submit the test results one month prior to the quarter they wish to

#### **Special Consideration**

Mature students who give exceptional promise may be admitted without rigid adherence to minimum unit requirements even if they have not graduated from high school or have graduated from a non-accredited high school. Decision as to admission in these cases is reserved to the Academic Vice President and the Board of Admissions.

#### Auditor

Admission as an auditor must be approved by the instructor of the course. An auditor will not be required to participate in class discussion or laboratory work. Assignments may be made at the discretion of the instructor.

#### From Other Postsecondary Institutions

A student who has established a satisfactory record in another accredited college or university may apply for admission with advanced standings at Seattle University. An applicant for transfer must:

- 1. Submit to the Director of Admissions at Seattle University an application for admission, a \$15 application fee (make remittances payable to Seattle University) and one (1) official copy of a transcript from each post-secondary institution previously attended. Failure to furnish previous postsecondary records when applying for freshman standing, or to supply complete post-secondary credentials when applying for advanced standing, places students under penalty of immediate dismissal. The University has the option to declare all credit not presented at the time of application as non-transferable.
- Present a minimum 2.00 academic grade point average for postsecondary work attempted prior to transfer. Courses completed at the lowest passing grade are acceptable for transfer, but the dean or department chairman may require that such courses in the major field be repeated. No transfer applicant will be admitted with a grade point average below 2.00.
- Transfer applicants who have completed less than one full year (45 quarter or 30 semester hours of transferable credit) at another postsecondary institution must fulfill secondary school unit requirements for admission to the Freshman class. In such cases an official copy of the high school transcript must be submitted.

Students applying from other postsecondary institutions who have been placed on probation, suspended, or dismissed will not be considered for admission to Seattle University until at least one calendar year has elapsed since the dismissal, suspension or probation. At the end of this period, admission may be granted only by the Board of Admissions. In such cases two letters of recommendation are required.

In assessing the student's record for admission, grades in non-credit courses will not be counted. For work done in postsecondary institutions whose academic standing is unknown or for work with private teachers, admission and advanced credit will be granted only upon examination. Examination to establish credit for such work may be taken after completion of 15 credits in residence. This credit is granted according to conditions set down under Credit by Examination.

#### **Advanced Standing**

For the purpose of guidance and registration, the Academic Evaluation Unit will make tentative evaluation of transfer credits. All evaluations are subject to the approval of the Academic Vice President and the Dean of the appropriate school.

The following conditions apply to transfer students in granting credits acceptable to Seattle University:

- Credit transferred from two-year colleges may be applied to University freshmen and sophomore years only. Transfer of such credit may not exceed 90 quarter credits.
- 2. For admission with advanced standing no more than 135 quarter credits in academic subjects will be accepted toward a bachelor's degree requiring four years of college study. All transfer students must take at least two courses in their major field of study at Seattle University and meet philosophy and theology requirements. Consult page 18 for a listing of required courses in philosophy and theology.
- 3. Credit earned through extension courses may be accepted if the institution offering such work is a member of the National University Extension Association. Not more than 45 quarter credits of extension credit will be accepted. Credit earned through correspondence shall not exceed 12 quarter credits and must be included in the extension credit total of 45 quarter credits.
- Credits over 10 years old will be reviewed to determine transferability.

#### **International Students**

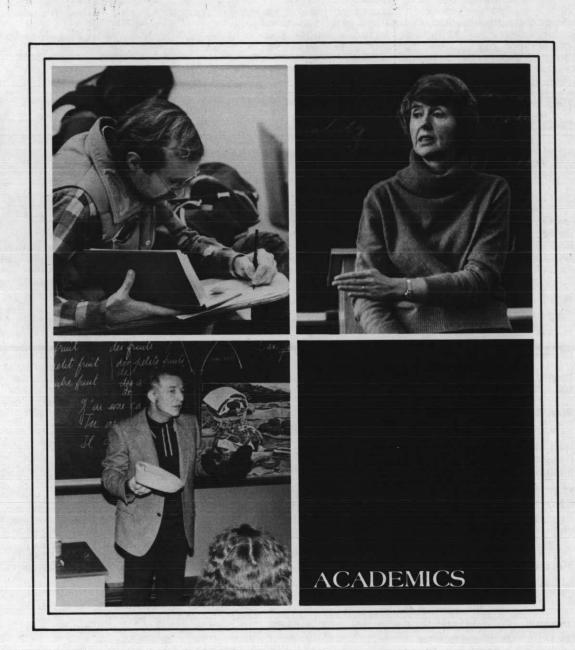

Specific admission requirements and procedures for all international students are listed on the official international student application form. These criteria vary from those applied to United States citizens and international student applicants should read the application form carefully.

#### **Special Students**

A special student may take such undergraduate courses as the Dean of his/her school may determine. A special student is not eligible for a degree until he/she fulfills the requirements for admission to the College in which he/she is enrolled. He/she may then become a regular student.

#### **Transient Students**

Admission as a transient student is granted to a student in good standing in any recognized college who meets Seattle University's admission standards and who is taking work to be transferred to his/her college. By special arrangement superior high school students may be admitted to specific courses in a transient status. University credit will be awarded for successful completion of the course to be applied toward a degree after the student enrolls in a college of the University.

#### The CORE CURRICULUM

Students at Seattle University take a basic program of liberal studies courses called the core curriculum. Additional requirements, exceptions and stipulated courses are established by the schools and departments of the University and those sections of this bulletin should be consulted before choosing core courses. Check course descriptions in the respective departmental sections for prerequisites.

#### **Required Sequences**

ENGLISH	SEQUENCE	10 credits
En 110	Freshman English	_ 5 credits
and any or	ne of the following:	
En 132	Masterpieces of	
	American Literature	_ 5 credits
En 133	Masterpieces of	
	World Literature	_ 5 credits
En 175	Introduction to Literature	5 credits
En 220	Introduction to Poetry	_ 5 credits
En 230	Introduction to Fiction	_ 5 credits
En 240	Introduction to Drama	_ 5 credits
En 283	Masterpieces of	
	Black Literature	_ 5 credits
HISTORY	SEQUENCE	10 credits

Students have the option to select one of the following:

#### Plan 1

Hs 104: Western Civilization I and Hs 105: Western Civilization II

#### Plan 2

Hs 100: Origins of the Modern World and Hs 105

#### Plan 3

Hs 100 and any one of the following: Hs 231: Survey of the United States, Hs 251: Survey of Latin America, Hs 261: Survey of African Cultures, Hs 271: Survey of Russian History, Hs 281: Survey of the Far East since 1900, Hs 349: Afro-American History

#### MATHEMATICS/SCIENCE SEQUENCE

Man

Any two 5-credit courses in mathematics, biology, chemistry or physics, which the student is qualified to take, will fulfill the mathematics/science requirement. The following courses are recommended for non-majors in mathematics and the sciences:

BI 101 Ch 100	Life Science	5 credits
CII 100	Science, Technology and the Quality of Life	5 credits
Ch 110	Fundamentals of Chemistry	5 credits
Mt 175	Mathematics for Liberal Arts Students	5 credits
Ph 101	Energy Sources and Uses	5 credits
Ph 110	Introduction to Astronomy of the	
	Solar System	5 credits

Business, mathematics, engineering and science majors should consult their departmental programs for mathematics/science requirements.

PHILOS	SOPHY SEQUENCE	15 credits
PI 110	Philosophical Problems —	
PI 220	The World Philosophical Problems —	_ 5 credits

5 credits

and any other 5-credit course in philosophy which the student is qualified to take. Consult the course listing in the Philosophy department section of this bulletin for third course options.

Transfer students with junior or senior standing (90 or more credits) are usually required to take two philosophy courses after transferring. Transfer students with freshman or sophomore standing (89 or fewer credits) are usually required to take three philosophy courses.

#### SOCIAL SCIENCE SEQUENCE \_\_\_\_\_\_ 10 credits

Any two 5-credit courses in economics, political science, psychology and/or sociology for which the student is qualified. The following are recommended:

dent is q	jualified. The following are recomm	nended:
Cs 321	Asian-American Experience	5 credits
Ec 100	Nature of Economic Society	5 credits
Ec 271	Principles of Economics I	5 credits
Ec 272	Principles of Economics II	5 credits
Ec 273	American Economic History	5 credits
Ec 371	History of Economic Thought	5 credits
Pls 160	American National	
	Government	5 credits
Pls 200	Comparative European	
	Democracies	5 credits
Pls 214	Government and	
	the Economy	5 credits
Pls 242	American Political

Psy 210	Personality Adjustment	5 credits
Psy 315	Abnormal Psychology	5 credits
Psy 322	Psychology of Growth	
	and Development	5 credits

Sc 101	Fundamentals of	
	Sociology I	5 credits
Sc 200	Perspectives in	
	Social Psychology	_ 5 credits
Sc 266	Interracial and	
	Interethnic Relations	5 credits
Sc 302	The Black People's	
	Social Movement	_ 5 credits

(Students in the School of Education substitute Ed 322 for Psy 322.)

## THEOLOGY AND RELIGIOUS STUDIES SEQUENCE \_\_\_\_\_\_\_\_ 10 credits

Students should choose one 5-credit course from each of the two theology and religious studies areas listed below:

AREA 1		
Rs 200	Judaeo Christian Origins	5 credits
Rs 210	Synoptic Gospels	5 credits
Rs 215	Johannine Theology	5 credits
Rs 220	Pauline Theology	
Rs 240	Pauline Theology Prophetic and Wisdom Literature	o or canto
NS 240	of the Old Testament	5 credits
Rs 289	Comparative Religion	5 credits
Rs 290	Religious Experience,	3 Credita
ns 290	East and West	5 credits
	East and west	3 Credits
AREA 2		
Rs 320	Fundamental Themes in	
	Theology	5 credits
Rs 330	The Problem of God	5 credits
Rs 335	Christ and Modern Man	5 credits
Rs 340	Theology of Man	5 credits
Rs 344	Church as Community	5 credits
Rs 347	Black Religious Experience	5 credits
Rs 350	Perspective of Christian Hope	5 credits
Rs 420	Christian Sacraments	5 credits
Rs 433	Theology of Human Sexuality	
	and of Marriage	5 credits
Rs 450	Theology of Liberation	5 credits
Rs 475	Contemporary Christian	
113 473	Morality	5 credits
Rs 476	Social Theology	5 credits
Rs 477	Christian Response to Some	
119 4//	Socio-Legal Problems	5 credits
Rs 490	Special Topics - Core	3-5 credits
113 430	openial replies one	

Students should begin their theology sequence in the Sophomore Year or later and should have taken some philosophy courses.

Transfer students with junior or senior standing (90 or more credits) must take one theology course. Transfer students with freshman or sophomore standing (89 or fewer credits) must take two theology courses.

### Core Exceptions for Science, Engineering and Business

Science and engineering students should consult the section of the bulletin giving their programs of studies for their history and social science requirements.

Students in the Albers School of Business must consult that section of this bulletin for required courses.

#### **Academic Regulations**

Each student is responsible for informing himself/herself of the academic regulations and requirements set forth in this Bulletin of Information and for revisions of same as posted on campus bulletin boards or in other official publications of the University. Failure to meet the requirements or comply with regulations because of lack of knowledge thereof does not excuse the student from being subject to them.

A student's program of study must be approved by a member of the faculty, usually the adviser, at registration. However, such approval does not give official sanction to any failure to meet University requirements nor does it free the student of that responsibility necessary to intelligent personal choice.

The Academic Council has discretionary powers for all cases not covered by the rules and regulations listed in this section. The University reserves the right to cancel any class which does not meet the required minimum enrollment. The enrollment and graduation of each student, the awarding of academic credits, and the granting of any award or degree are strictly subject to the disciplinary power of the University. The University reserves the right to change any requirement and to ask a student to withdraw at any time. No person is allowed to attend class unless officially enrolled with appropriate fees paid.

Regulations in this bulletin are supplemented by policy memoranda which set forth policy in greater detail.

The policy of Seattle University on the right of student access to his/her educational record and on confidentiality of information conforms to current public law. The full statement of policy is available for inspection in the Office of the Registrar.

#### **Academic Terms**

**ACADEMIC AVERAGE** — Computed by the University for each applicant to determine the quality of high school work in academic subjects such as English, algebra, history, and laboratory sciences. Non-academic high school subjects such as music, physical education, and typewriting are excluded when this average is computed.

**ACCREDITED** — Certified as fulfilling standards set up by regional accrediting agencies. Indicates that course work is acceptable to other colleges or universities.

**ADVANCED PLACEMENT** — Admission of freshmen to courses beyond the beginning level. Granted to students who pass designated advanced placement tests.

**ADVANCED STANDING** — Granted to transfer students who have previous college work which is acceptable to Seattle University.

**ADVISER** — A member of the faculty designated to assist the student in planning a program of study.

**AUDITOR** — A student who is permitted to register for courses without obtaining college credit.

**BACCALAUREATE MASS** — Official academic function of Commencement Week for those graduating.

CEU - CONTINUING EDUCATION UNIT — A type of credit assigned for courses not a part of a regular degree program; one CEU equals ten hours of formal classroom instruction.

CHANGE OF MAJOR — Procedure whereby student declares his intention to change from one subject field into another within the same division (school or college) of the University.

**CHANGE OF SCHOOL** — Procedure whereby student obtains permission to change from one school of the University into another.

**COLLEGE** — One of the eight academic divisions of Seattle University.

**CORE CURRICULUM** — That body of subject matter common to programs of study and the foundation of Seattle University's liberal education.

**COMPREHENSIVE EXAMINATION** — An examination covering the entire scope of the student's major area of study.

**COREQUISITE** — A course which must be taken in the same quarter with another specified course.

**COURSE OF INSTRUCTION** — A complete set of lectures, quizzes, recitations, student exercises, laboratory periods, and examinations on a given subject.

COURSE OF STUDY — See program of study.

**CREDIT BY EXAMINATION** — Procedure to obtain credit for work done in private study or for work not otherwise acceptable to the University.

**CREDIT HOUR** — The unit of instruction used in computing University graduation requirements.

**CUMULATIVE GRADE POINT AVERAGE** — The quality measurement of each student's university work computed by dividing total quality points by total credits attempted.

**CURRICULUM** — An established program of study leading toward a degree in a particular subject field.

**DEFICIENCY** — Lack of credit in a course required for graduation, or lack of credit in subject matter required for entrance.

**DEGREE** — Awarded by the University upon successful completion of a specific program of study.

**DEPARTMENT** — A division of a school or college of the University consisting of those faculty members who are actively engaged in instruction, administrative or research work in a specific subject field under the direction of a chairman.

**ELECTIVE** — A subject chosen by the student not demanded by his/her program of study.

FIFTH YEAR — Status of those with bachelor's degree taking additional college work in any undergraduate area of study with no specific degree objective; may be seeking teacher certification.

FULL-TIME — For academic reporting purposes, 12 credits is considered full-time for undergraduate students and nine credits full-time for graduate students.

**GENERAL STUDIES** — Program for students who have a wide range of interest and want a broad liberal arts education, as well as students who have not yet decided upon a traditional major.

**GRADE POINT AVERAGE** — An average computed on the basis of numerical values assigned to the letter grades received by students.

**GRADUATE STUDENT** — One who has been admitted to Graduate School to pursue a specific advanced degree program or post master's program.

**HUMANITIES** — Cultural subjects as distinguished from social sciences (history, psychology, or sociology) and physical sciences.

I-20 FORM — United States immigration Form No. 20 issued by the University to students from foreign countries who have been accepted for admission.

**INTERNSHIP** — A period of one quarter or one year during which a student gains experience in an actual work situation. The length of internship and type of agency to which a student is assigned are determined by his/her major or some special interest within the major field.

LOW SCHOLARSHIP LIST — A warning list circulated to deans each term showing students whose poor academic work in one quarter if not immediately improved will result in probation or dismissal.

MAJOR — The specific field of study selected by a student.

MATRICULATE — Enrollment at the University for the first time as a regular student to pursue a degree or professional program.

MINOR — The secondary field of concentration selected by a student.

PART-TIME — For academic reporting purposes, less than 12 credits is considered part-time for undergraduate students and less than nine credits part-time for graduate students.

PERMANENT RECORD — The University record (transcript) of all courses for which a student registers.

PLACEMENT TESTS — Tests in a specific field administered to entering students to determine the level of achievement before assigning college courses.

PREREQUISITE — A course which must be complete before a student is permitted to register for a more advanced course.

**PROBATION** — Status resulting from academic performance below the minimum university level.

**PROVISIONAL STUDENT** — One who is admitted with an entrance requirement unsatisfied.

**PROGRAM OF STUDY** — The curriculum in a given subject matter field. A series of courses assigned by schools and departments of the University which must be completed by the student before a degree is awarded.

QUARTER — Term of instruction during which a student completes a series of courses. There are three quarters in a regular academic year, Fall, Winter and Spring. The summer quarter extends from June to August.

**READMISSION** — Procedure whereby a student who has not been in attendance for one or more quarters registers for continued course work.

**REGISTRATION** — Official enrollment in the University. Process in which student selects courses each quarter. Student is considered officially registered when tuition is paid.

**REGULAR STUDENT** — A fully matriculated student pursuing a degree program.

**SPECIAL STUDENT** — A student taking course work is not applicable toward a degree until regular standing is achieved.

SCHOOL - See College.

**SPECIFIC CURRICULUM** — In addition to the core curriculum required of all students, each individual student selects a specific curriculum or field of concentration. These curricula are offered by the schools of the University according to degree requirements.

TRANSCRIPT — A copy of the student's permanent record.

**TRANSFER CREDIT** — Credit awarded to a student for work completed at another college or university.

**TRANSFER STUDENT** — One who is admitted to Seattle University having previously completed work at another college or university.

**WITHDRAWAL** — Procedure whereby student notifies the University that he/she will not complete course(s) for which he/she is registered.

#### **Attendance Requirement**

Attendance may be an essential and intrinsic element of the educative process. In any course in which attendance is necessary to the achievement of a clearly defined set of course objectives, it may be a valid consideration in determining the student's grade. While there is no all-University regulation requiring class attendance, it is the responsibility of the instructor to state the relevance of attendance at the beginning of each course.

#### Classification of Students

Regular undergraduate students are classified as follows:

Freshmen— 0-44 credits completed
Sophomore— 45-89 credits completed
Junior— 90-134 credits completed
Senior— 135 or more credits completed

Other students are classified as follows:

5th year— post baccalaureate students not seeking an advanced degree

Graduate post baccalaureate students admitted

to Graduate School for a master's or

doctorate degree program

Special— an undergraduate student awaiting

approval for regular status

Transients— non-matriculated students registering

for one or two quarters only

Auditors— non-matriculated students registered for audit only not for regularly graded

credit

#### **Concurrent Enrollment at Two Colleges**

University regulations require students to seek written permission to be enrolled at another institution simultaneously with enrollment here. Credits completed at a second institution are not transferable unless prior to enrolling elsewhere a faculty action authorizing dual enrollment is approved by the Dean and Registrar.

#### **Course Numbering System**

The course numbering system at Seattle University is as follows:

100 to 199 are freshman courses

200 to 299 are sophomore courses

300 to 399 are junior courses

400 to 499 are senior courses

500 and above are graduate courses — graduate standing required to register for courses numbered 500 or above.

#### Credit by Examination

Examinations for advanced credit in courses offered by the University may be taken by a student for work done in private study or on subject matter taken at a nonaccredited college or university, with the following restrictions:

 Student must be currently registered at Seattle University.

No student may take an advanced credit examination in a course in which he/she has already been registered.

 The maximum number of credits obtainable by advanced credit examination is 30, not more than 15 of which may be obtained in one subject matter field. All credits obtained by examination will be counted as extension credit and included in the maximum 45 extension credits allowed.

 No credit will be granted unless the applicant has earned a minimum of 15 resident credits with a minimum grade point average of 2.50.

 No student within a given field of study may receive advanced credit in subject matter more elementary than that for which he has previously received credit.

No student will be permitted to repeat an examination for advanced credit.

No student may take examinations for more than 15 advanced credits in any one quarter.

 No student may receive advanced credit by examination for lower division foreign language courses in his/her native language or from earlier schooling.

 Students who wish to qualify for credit by examination must apply to the Dean, Registrar and Controller for approval.

10. No graduate credit is to be given by examination.11. No credit by examination may be given for phy-

sical education activity courses.

#### Credit Load

The normal load for undergraduates is 15 credits per quarter. No student may carry excess credit hours without permission from the dean of the school.

Students on academic probation may be required by the dean of their school to carry less than the normal credit load.

#### Dismissal

Students who have three quarters at Seattle University with a cumulative grade point average below 2.0 or who fail to maintain standards in a professional school, or those who receive failing grades in 10 or more credits in one quarter, or those with an excessive number of I or NC grades, are subject to dismissal. If dismissed for academic reasons, request for reconsideration must be filed in writing with the dean in accordance with the policy of the individual college.

A student withdrawing voluntarily from the University is entitled to a statement of honorable dismissal if he/she is not liable to dismissal on account of scholarship, absence, breach of discipline, or financial indebtedness to the University.

#### **Examinations**

Examinations in all courses are regularly held at the middle and end of each quarter, and at such other

times as the instructor may determine. Absence from an announced written examination is excusable at the discretion of the instructor and subject to review by the dean. Students absenting themselves from a scheduled examination without justifiable cause will receive a failing grade for the examination.

#### **Forgiveness Policy**

A forgiveness policy making it possible for former SU students with poor academic records to resume their studies as adults without the encumbrance of poor grades earned previously became effective Fall Quarter, 1977. After being absent from school for at least 8 years, former SU students in undergraduate programs may apply for forgiveness only upon readmission or during the first quarter resumed at SU. For further information consult the Registrar.

#### **Grade Changes**

Once a grade is recorded it can be changed only by the Academic Vice President on the written faculty action sheet completed by the instructor and countersigned by the department chairman and dean of the school. Errors in grades must be reported within six months of date of issue of grade reports.

#### **Grade Point**

The University uses a letter grade to indicate the level of individual student achievement. Each letter grade has a quality point value assigned for the grade achieved. The quality point value is assigned to each letter grade as follows:

A	 4 quality points
В	 3 quality points
C	 2 quality points
D	 1 quality point
E	 0 quality points

The grades of CR, NC, I, W, S, N, Y, or YW have no negative quality point value.

Each student is required to maintain a C average, which is equivalent to a 2.00 grade point average. The grade point average is computed by dividing the total number of quality points achieved in one quarter by the total number of credit hours attempted in which the student earns a letter grade A, B, C, D or E.

#### **Grade Reports**

Student quarterly grade reports are mailed at the end of each quarter. The University does not hold itself responsible for grade report errors unless the Registrar is notified of the error within six months after the date of issue of a grade report.

#### **Grading System**

Grade

CR

NC

level.

The University follows the letter grading system shown below.

**Descriptive Value** 

A	Superior student — shows ability to use factual knowledge in reaching independent conclusions and can synthesize facts into a logical and coherent pattern; shows interest in relating collateral reading to the principles developed in course work; scholarship exceeds requirements.
В	<b>Above average student</b> — knowledge is very good, scholarship meets all requirements, information is complete but not detailed.
С	Average student — knowledge is good; scholarship meets assignments, but information is incomplete.
D	<b>Below average student</b> — knowledge is fair, scholarship does not meet assignments; essential information is lacking or false information given.
E	Failing student.
w	Withdrawal — official withdrawal.

No Credit — grade assigned under credit/no credit option if work is below minimum passing level, or grade assigned by Registrar when student registers, does not withdraw yet does not complete the course.

Credit - grade assigned under credit/no credit op-

tion if work meets or is above minimum passing

Incomplete - A temporary grade assigned at the discretion of the instructor in case a student has been in attendance and has done satisfactory work until within two weeks of the end of the guarter. provided the student has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other serious circumstances beyond the student's control. When the instructor assigns an I grade, a Notice of Incomplete Grade Form must be filed with the Dean, Registrar, student and instructor. This form will state what work remains to be completed to obtain a final grade or, if this further work is not completed, what grade is to be placed on the permanent record. The student has until six weeks after the beginning of the next quarter, regardless of whether the student is enrolled, to complete the specified work. If no further work is completed, the I grade will be converted to a letter grade, in accord with the instructor's directions on the Notice of Incomplete Grade Form previously filed. If the specified work has been completed, the student must file an official Incomplete Removal Form and pay the required fee to have the final grade posted to the transcript. However, if the grade is an E the final grade will be posted without student payment. I grades assigned spring quarter must be removed by six weeks after the beginning of the fall quarter. Prior to the end of

the I-removal period, the Dean may notify the Registrar of serious reasons that require an extension of this deadline to a time certain, but under no circumstances may this be extended beyond one calendar year from the date of initial posting of the I. While on the transcript, I grades will carry no penalty; i.e., they will not be counted in credit or grade point average computations.

This supersedes the regulations on I grades appearing on Page 24 of the 1977-78 Bulletin of Information.

No Grade—a suspended grade for courses in which work is not scheduled for completion until after the quarter closes, i.e. thesis or research courses at the graduate level. It is the responsibility of the student to arrange with the supervising instructor to remove the N within one calendar year of the quarter the grade is assigned, per the schedule given below. Once the closing date has passed, re-registration and payment of regular tuition is required in order to obtain credit for the work completed.

N Grades Received Summer term	Must be Removed Before August of the following
	calendar year
Fall term	December 1 of the following calendar year
Winter term	March 1 of the following calendar year
Spring term	May 1 of the following calendar year

- Satisfactory a satisfactory grade which may be given for thesis, research, independent study, offcampus courses, field experience type courses and in non-credit courses.
- Y Audit course for which no credit is given.
- YW Audit Withdrawal registered but did not attend through end of course.
- M Missing symbol used on grade reports to inform student that grade has not been received from instructor.

#### Credit/No Credit Option

Undergraduate students may elect a credit/no credit option in elective courses under the following conditions:

- Student must declare desire for credit/no credit during registration; student may change to or from credit/no credit only during the five-day drop/add period.
- Eight courses (except those mentioned in 6 below) regardless of credit hours per course, is the maximum number of credit/no credit classes acceptable toward a bachelor's degree. Transfer students will be allowed the following number of credit/no credit courses at Seattle University:

Transfer Credits	0-44	courses
	45-896	
	90-1344	courses
	135 and above0	courses

- Credit/no credit may apply to a maximum of two courses in the major or departmental requirements outside the University core; students may not select this CR/NC option for any courses in the University's core.
- Students who elect a credit/no credit option are eligible for quarter honor roll only if credit for graded courses totals 12 or more.
- Only one credit/no credit course may be taken in a given quarter, except those in item No. 6 below.
- All one credit P.E. activity courses numbered 100-499 and music practice courses shall be credit/no credit.
- No graduate courses may be graded CR/NC. CR (credit)—PASS NC (no credit)—NO/PASS
- All courses elected as credit/no credit will appear on the student's permanent record and will be graded: CR (credit)—PASS NC (no credit)—NO/PASS
- Ninety (90) credits graded A, B, C, D, must be completed at Seattle University to qualify for honors. Courses graded CR/NC do not count toward this total of 90.

CR and NC courses will not be computed in credits attempted and therefore will be excluded from computations of grade point averages. Courses in which a CR grade is given will be counted as completed credits. When student selects the CR/NC option this becomes a matter of record with the Registrar, but it is not reported to instructors.

#### Probation

If a student falls below the standard he/she must maintain in order to graduate, he/she may be placed on probation and given the opportunity to improve the quality of work before final dismissal. A student will be placed on probation if the cumulative grade point average falls below 2.00.

At the discretion of the dean a student on academic probation may be required to reduce the number of credits carried per quarter. Probation may extend for two quarters after the initial warning before dismissal is warranted.

#### Readmission

Students who have been absent from Seattle University for one or more quarters and students who have attended another school since withdrawing from Seattle University are required to fill out an application for readmission form. A re-entering student who has attended another school since withdrawal from Seattle University must arrange for two copies of his/her transcript to be submitted to the Registrar before application for admission can be considered.

Credit for courses completed elsewhere is considered not transferable unless an official transcript is filed with the Registrar at time of readmission. Credit from a two-year community college does not transfer once a student has a total of 90 quarter credits (junior status). Records of summer work must be on file by December 1 for credit to transfer.

#### Records

As required by federal legislation, Seattle University has a policy on the rights of students to privacy of their educational records and access to the information on file. This policy is published annually in the student newspaper. Student directory information will be published by the University unless a student requests it not be released in writing to the Registrar by the fifth day of any term. Records policy includes the right of the University to place a hold against the transcript of a student with a financial obligation and to deny re-registration until all debts owed the University have been paid. The full policy statement including right of appeal may be obtained from the Registrar.

#### Registration

Newly admitted students and returning students must present themselves at the University for registration on the date specified in the calendar or elsewhere. No registrations are permitted after the fifth class day. Payment of the late registration is required. Students registering late are held responsible for absences thus incurred.

Registration is completed only when fees are paid and approved registration cards are turned in to the Controller's office. No person may attend any University course for which he/she has not registered.

#### **Registration Changes**

Students are held accountable for completion of every course for which they register. If it is necessary to drop or add a course or to otherwise change a program of study, the student must obtain a change of course card from the Registrar's office and present it to the adviser or dean for approval. This card must be returned to the Registrar within the specified time limit. No course may be added or changed after the fifth day of class. A student who drops or changes courses without following this procedure is ineligible for tuition refund and will be assigned a grade of NC.

#### Repeating a Course

Students who receive a grade of D or E may repeat the course. In such cases the grade received the second time shall be the one counted in computing the grade point average required for graduation. The grade earned the second time cannot be higher than a C. In determining University graduation honors only the grade received the first time will be counted.

#### **Transcripts**

Students may obtain official transcripts from the Registrar's office. No official transcript will be sent for students with a financial obligation to the University.

Seattle University will not issue a transcript to any third party unless the student or graduate files a written request with the Registrar and supplies the name and address

Letters of recommendation or copies of transcripts should be requested at least one week before they are required. Transcripts cannot be issued during the period of registration, examinations, or commencement.

The University does not hold itself responsible for any error on a transcript which is not brought to the attention of the Registrar within six months of the closing date of the quarter in which the error occurred.

#### Transfer within the University

To transfer from one school of the University to another or from one department to another (change of major) the student must follow this procedure:

Obtain a form from the Registrar and present it to the dean of the school from which withdrawal is sought. When the form is approved by this dean it is presented to the dean of the school in which the student wishes to enroll. If approved by the new dean the form is returned to the Registrar and the student's record is altered accordingly.

#### Withdrawal

The Registrar's office must be officially notified when a student withdraws from one or more of his courses. The withdrawal card is obtained from the Registrar and presented to the adviser, instructor, dean and Registrar in that order for approval and signature. In an emergency, notification of withdrawal may be made by telephoning the dean of the school or Registrar.

The official withdrawal is completed only when the approved card is presented to the Registrar within the specified time limit. A grade of W will be allowed until the eighth last class day of the quarter.

#### **Degrees**

Official Commencement Exercises are held once a year in June. Students completing course requirements at the close of summer, fall or winter quarter will receive diplomas at the succeeding Commencement. All responsibility for fulfilling the requirements for graduation rests with the individual student.

#### Application for a Degree

Application for a degree must be made at the Office of the Registrar within the period indicated in the University calendar or other official publications. Candidates for a degree normally file applications during the quarter preceding their final registration. A receipt for the graduation fee must be presented before the Registrar may issue the application forms.

#### **Application For a Certificate**

Application for a certificate must be made at the office of the Registrar within the first four weeks of the student's last quarter in a certificate program. A receipt for the certificate fee must be presented before the Registrar may issue the application forms.

#### Degree Requirements—Bachelor's

As a general rule, students are required to meet degree program requirements in effect at the time of their matriculation.

Candidates for an undergraduate degree must meet the requirements listed below.

- Core curriculum requirements and specific requirements of the college or school from which the student expects to graduate must be fulfilled;
   A minimum overall grade point average of 2.00 must be achieved and a gpa of 2.00 is required in the student's major.
- 2. A minimum of 180 credits is required for the baccalaureate degree except for graduates of Matteo Ricci where 135 credits is the minimum. However, only students matriculating as freshmen beginning September 1963 or later and transfer students matriculating January 1966 or later are eligible to graduate with 180 credits. Students who matriculated before these dates will be required to meet minimum requirements in effect at the time they were last enrolled as full time students.

In the case of Seattle University students enrolled in AFROTC at the University of Washington this requirement may be waived for Aerospace studies.

- A minimum of 15 credits in philosophy and 10 credits in theology and religious studies are required in all degree programs. See page 18 for specific requirements.
- 4. The senior year must be spent in residence at the University, which shall be understood to mean the final 45 credits of degree requirements, and the work is to be taken in the University under the direction of members of the faculty.
- Completion of all degree requirements within 10 years of the date on which the college work was begun.
- Satisfaction of financial obligations toward the University.
- 7. While attendance at commencement is not compulsory, diplomas will be routinely mailed only to those graduates who declare their intention to graduate in absentia at least two weeks in advance of the commencement date. Diplomas are issued only once a year in June regardless of when student completes degree work.
- 8. Students working for a second baccalaureate degree, either consecutively or concurrently, must complete a minimum of 45 credits beyond the requirements of the first baccalaureate degree. These 45 credits must be completed in residence at Seattle University. A minimum of one course (5 credits) in philosophy and one course in theology and religious studies (5 credits) is required.

Students completing this minimum of 10 credits in philosophy and theology and religious studies at Seattle University or elsewhere as part of a first bachelor's degree will be considered as having fulfilled this requirement. Minimum academic and administrative requirements listed above must also be met.

Requirements for advanced degrees are given in the Graduate Bulletin.

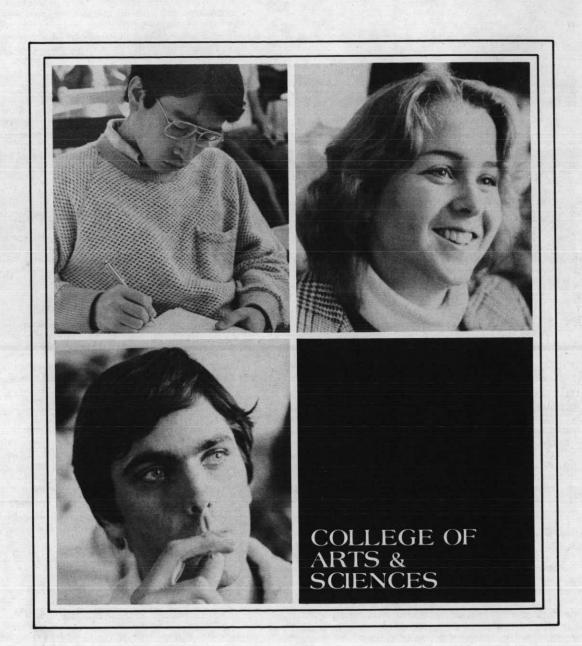

#### **Honors at Graduation**

Graduation with honors requires completion of at least 90 credits in residence at Seattle University; the minimum of 90 credits must be earned in regularly graded courses (courses in which grades of A, B, C, or D are given). Should a student elect the CR/NC option for any one course as part of his 90 credit minimum, he loses his honors eligibility. In programs where CR/NC grades are mandatory for field experience courses, a student with these as a part of his minimum 90 units also loses his eligibility for automatic honors on the scale shown below. However, such students may apply for honors by filing a petition with their Dean. The petition must be received by May 1 and will be reviewed by the Deans, with notification of the decision on honors issued to the student by May 20.

Cum Laude 3.40 Magna Cum Laude 3.65 Summa Cum Laude 3.90

#### **Special Awards**

The President's Award — Awarded to the graduating senior who has maintained the highest scholarship throughout the four years of college work, as determined by grades and the judgment of the academic deans.

## College of Arts and Sciences

William F. LeRoux, S.J., S.T.D., Dean

#### **Objectives**

The College of Arts and Sciences, the largest undergraduate division of Seattle University, is dedicated to the ideal that a liberal education in the arts and sciences best prepares a student for a rich and fruitful life. The philosophy upon which the College is based is one which recognizes not only that its students must be prepared to make a living, but to live fully, in a rapidly moving and complex world. All undergraduate students in the University take core courses in the College, for in them are found the intellectual, social, cultural and spiritual riches of Western civilization.

The College aims at developing not only depth in some one area of knowledge, but also the breadth of learning, understanding and truth which is essential to a rich human life. The student is led, by means of the various academic disciplines, to see the world in its major aspects of reality. Students are helped to discover the interrelationships of the physical, social, and artistic dimensions of the world, along with their own relationship to the world—especially their power and responsibility to shape it for their future.

#### Organization

The College comprises 18 administrative subdivisions, of which 12 are departments in a specific academic subject. The departments are English, Fine Arts, Foreign Languages, History, Journalism, Military Science, Philosophy, Political Science, Psychology, Rehabilitation, Sociology, Theology and Religious Studies.

The program divisions are Community Services, Criminal Justice/Police Science, General Studies, Honors, Prelaw and Speech.

Certificate programs are offered in Alcohol Studies, Rehabilitation and CORPUS (Pastoral Ministry). Each department chairperson or program director, in collaboration with proper or assigned faculty, arranges study programs and counsels individual students. All programs are coordinated and supervised by the Dean of the College. Students wishing to inquire about programs in detail should consult either the Dean or the respective department chairperson or program director.

#### **Admission Requirements**

Students entering the College must satisfy all entrance requirements for the University as outlined in the Admission section in this bulletin. In addition, some departments list further requirements for admission into certain major programs. Concerning these the respective departmental sections in this bulletin should be consulted.

#### **Bachelor of Arts**

with a major in: Art, Community Services, Criminal Justice/Police Science, Drama, English, Foreign Languages, General Studies, History, Humanities, Journalism, Music, Philosophy, Political Science, Psychology, Rehabilitation, Social Sciences, Sociology and Theology and Religious Studies.

#### **General Program Requirements**

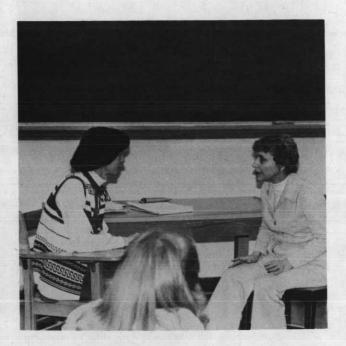

Students in the College of Arts and Sciences must satisfy the core curriculum requirements of the University given on page 18 of this bulletin.

Additional specific requirements are set by the department or program division in which the student's major program is pursued. For these requirements consult the respective sections in this bulletin.

#### **Subject Majors**

In all programs having a specific subject major, the number of required courses and hours varies according to the department or program division. The minimal number required in any subject major is 40 hours; majors in departments having core sequences must consist of 35 hours beyond the core sequence.

#### **Alcohol Studies Program**

James E. Royce, SJ, Ph.D., Director

#### **Objectives**

This program is designed to provide a strong background for work in alcoholism treatment and rehabilitation, in education and prevention, in social service agencies, in industry or in referral centers.

It also supplements the training of degreed professionals as well as students preparing to work in psychiatry or psychology, nursing, social work, rehabilitation, criminal justice, community services or allied fields.

#### **Degree Programs**

The B.A. in Social Science with a Specialty in Alcohol Studies includes both the Basic and Advanced Certificates (minimum 36 credits of the 65 beyond the core, as in General Studies Program, p. 45). The Basic Certificate may also be a part of the B.A. in Community Services, Rehabilitation, Psychology, or Criminal Justice Master's degrees with a Specialty in Alcohol Studies may be earned in Rehabilitation, Adult Education, or Counseling and Guidance; field experiences must be done under the appropriate graduate programs instead of ALC 407-408, but will also count for the Certificate.

#### **Basic Certificate**

A certificate in Alcohol Studies will be granted upon successful completion of 20 credits, which must include the following courses: Alc 400 (or Psy 490), 401, 402, 403, 405, 407-8 with a 2.50 minimum g.p.a. Certificate candidates may register as transient students. Basic Certificate program is a combination of classroom instruction (14 credits) and supervised field experience (6 credits) under experienced counselors. Evening classes will permit in-service training. A certificate program should be completed within three years.

#### **Advanced Certificate**

Admission to the advanced certificate program requires completion of the basic certificate with a gpa of 3.00. The advanced certificate requires completion of 16 credits in approved alcohol-related courses with a minimum gpa of 3.00 (B), beyond the 20 credits applied to the basic certificate.

Courses taken in the basic program may not be repeated, and none of the course work credits may count toward both the Basic and the Advanced Certificate. If ALC 405 "The Law and Alcohol" was not taken in the basic program, it will be an additional required course within the total 16 credits.

#### **Required Courses**

Alc 404	Agency Administration	2 credits
Alc 414	Interview & Diagnosis in	
	Alcoholism Treatment	2 credits
Alc 418	Alcoholism and The Family	2 credits
		6 credits
Electives	s in Alcohol Studies	10 credits
		Total 16 credits

CS 420 "Survey of Drug Abuse" may also apply as 2 credits toward the Advanced Certificate, and with the permission of the Director other selected courses from Community Services, Psychology, Rehabilitation and Education.

#### **Alcoholism Courses**

Alc 400 Survey of Alcoholism (Symposium) 3 credits (Psy 490) History and scope of problems arising from addictive abuse of alcohol. Definitions, stereotypes, myths, conflicting religious views. Patterns of progression. Symptoms and diagnosis, types of alcoholics. Theories of etiology; the disease concept. (Psy 490 may substitute.) Pre or corequisite to Alc 401 through 413.

Alc 401 Pharmacology and
Physiology of Alcohol 2 credits
Ingestion, absorption, metabolism. Effects of
different blood/Alcohol levels. Psychiatric complications: damage to brain, liver and other organs.
Evaluation of results. Prerequisite: Alc 400.

Alc 402 Counseling Principles and Techniques 3 credits
Interview techniques. Intake and intervention vs.
long-range therapy. Supportive, motivational, directive vs. non-directive counseling. Confrontation, role-playing, video-tape playback. Prerequisite: Alc 400.

Alc 403 Personal and Social Rehabilitation 2 credits

Motivation and personality reconstruction in the
recovering alcoholic. Post-detoxication, long-range
sobriety; relapses, dry drunk. Spiritual aspects.
Family and social adjustments. Prerequisite: Alc 400.

Alc 404 Agency Administration 2 credits
Personnel policies, budgeting, financing, office
management, public relations, ethics. Informational
and educational policies. Relations with school
systems, courts, professions and agencies, clergy.

- Alc 405 The Law and Alcohol 2 credits

  Legal implications and consequences of alcohol-related offenses. Deferred prosecution. Uniform Alcoholism and Intoxication Act. Impaired driving laws.

  Court structure and jurisdictions. Prerequisite:
  Alc 400.
- Alc 406 Cross-Cultural Counseling: Alcoholism 2 credits
  Special problems and techniques, understanding of
  cultural background and instruction by members of
  minority groups. Prerequisite: Alc 400 and 402.
- Alc 407 Field Experience I in Alcoholism 3 credits
  Supervised work in an agency, clinic, rehabilitation center referral center. Oral and written reports by student required. Prerequisite: Alc 400 and 402.
  Mandatory CR/NC
- Alc 408 Field Experience II in Alcoholism 3 credits
  Prerequisite: Alc 407. Mandatory CR/NC
- Alc 409 Special Topics

  Courses taught by a particular expert or on a certain aspect.
- Alc 410 Individual Research

  Open only to students with sufficient academic background to pursue independent study. Permission of director required.
- Alc 411 Advanced Counseling Alcoholism 2 credits
  Instruction and supervised practice in counseling
  techniques of special value in counseling alcoholics. Playback video tape equipment used. Two
  and one-half hours per week. Prerequisite: Alc 402.
- Alc 412 Group Dynamics in
  Alcoholism Treatment
  Role playing as a means to development of self awareness; dynamics of group interaction; introduction to psychodrama. Two and one-half hours per week. Prerequisites: Alc 402, 411 or permission.
- Alc 413 Alcoholism Schools Workshop 2 credits
  Goals, methods, and skills in teaching Alcohol Information Schools (AIS) and follow-up classes, and court referral schools for those driving while intoxicated (DWI). Problems with defensive and hostile clients. Prerequisite: Alc 400 or equivalent.
- Alc 414 Interview and Diagnosis in
  Alcoholism Treatment 2 credits
  Procedures and skills used in alcoholism referral
  and treatment agencies. Intake interview, client
  evaluation, case-writing, pre-sentence report,
  record-keeping and confidentiality. Prerequisite:
  ALC 402.
- Alc 415 Modes of Therapy in
  Alcoholism Treatment 2 credits
  Overview of various therapies commonly used with
  recovered alcoholics and their spouses. Theory,
  principles and application of techniques. Individual
  and group practice. Prerequisites: ALC 403 and ALC

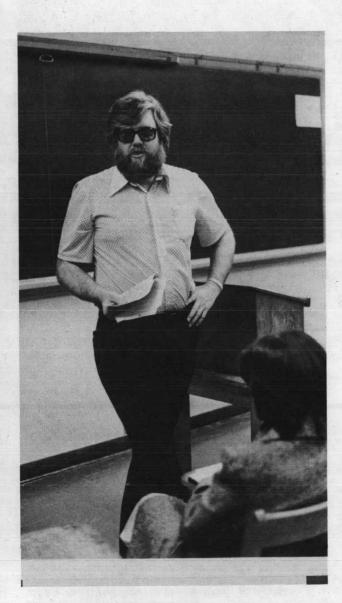

- Alc 416 Alcohol and Youth: Education,
  Problems, Prevention 2 credits
  Alcohol-related problems among young people,
  stressing education and prevention. Teen-age alco
  - holics, children of alcoholics, polydrug abuse and the young drinking driver.
- Alc 417 Alcohol Problems in Business
  and Industry 2 credits
  Scope and cost of alcohol-related problems in
  American business and industry. Company policy,
  implementation of occupational alcoholism programs, training of supervisors.
- Alc 418 Alcoholism and The Family 2 credits
  Alcohol-related problems in the family, including
  alcoholic, spouse, children and significant others. Individual and group counseling. Married couples and
  team approach as alternatives. Prerequisite: ALC
  402 and 403.
  - Alc 419 Advanced Physiology and Pharmacology of Alcohol 2 credits

    Current research and thought regarding the effects of alcohol on all body tissues, with implications for treatment. Fetal alcohol syndrome, brain, liver, endocrine and other damage. Prerequisite: ALC 401.
- Alc 420 Alcoholism Seminar 2 credits

  An advanced seminar on selected current topics in alcoholism and alcohol-related problems. Prerequisite: 10 credits in Alcohol Studies, and permission of Director.
- Alc 421 Advanced Project or Research
  in Alcoholism 2-5 credits
  Replication, original research, or scholarly investigation which demonstrates mastery of basic factfinding, experimental design, evaluation and presentation of results. A graduate project or master's
  thesis will substitute. Prerequisite: Basic Certificate

407.

**Community Services** 

Herbert M. Kagi, Ph.D., Director

#### **Objectives**

Community Services is a program primarily involving social work courses and field experience supported by the study of economics, political science, psychology and sociology. The primary objective is to prepare students for work in the field of social services or community organization immediately after the bachelor's degree. Other objectives are to contribute to the liberal education of all students, and to prepare students for admission to graduate schools of social work. The program assists students in deciding on a career choice by making known the nature of the social service field, the dynamics of community action and understanding of these fields for students preparing for advanced training in the related professions.

Supervised field experience in agencies, institutions or related organizations is a unique and vital part of the program. This experience is provided in such areas as probation and parole, public assistance, mental health facilities, youth and children's services, employment

counseling and economic opportunity programs. The Community Services program is not an apprenticeship system but rather a basic program with courses and supervised field practice aimed at giving those principles, skills, knowledge and attitudes necessary for workers in the above fields. Coordinating seminars, concurrent with two required field experiences, provide each student opportunity to understand himself/herself more deeply and acquire a broad perspective of community services.

#### **Degree Offered**

Bachelor of Arts in Community Services

#### **General Program Requirements**

Candidates must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. A minimum of two field experiences is required, with which the coordinating seminars must be taken concurrently. The required experiences must be in diverse areas.

#### **Degree Requirements**

Bachelor of Arts — 110 credits which must include CS 300, 374, 378, 379, 478 and 479; 15 credits in sociology; 15 credits in psychology; 10 credits in political science; 10 credits in economics; 5 credits in statistics or research methods courses.

CS 291	Special Topics	1-5 credits
CS 292	Special Topics	1-5 credits
CS 293	Special Topics	1-5 credits

# (Sc 300) Introduction to Community Services 5 credits (Sc 300) Historical development, structure and function of social welfare services and institutions; emphasis on philosophy and methods utilized by professional social work in meeting human needs. (fall, winter)

- CS 305 Introduction to Community Action 5 credits
  Studies methods by which community groups and organizers can intervene in the political and social processes of a community on the neighborhood, city, county and state levels, to initiate social change.
- CS 310 Dynamics of the Family 5 credits
  Behavioral dynamics of interpersonal relationships
  in the family; reciprocal nature of relationships; conceptual frameworks for individual and family therapy
  through study of treatment modalities. (spring)
- CS 315 Working with Children 2 credits

  Theories of child development which direct the modes of service to children. Study of laws which control agency services to children. Examination of selected agency case records.
- CS 321 Asian-American Experience 5 credits
  From a Historical perspective of period beginning
  with the Asian immigrants to America, the problems
  faced, and how they laid the groundwork for the present generation of Asian-Americans. (spring)
- CS 330 Citizen and the Law 3 credits
  Discussion of poverty law; family law, the contractual
  relationship, consumer law, landlord-tenant laws,
  and personal liability. (spring)
- CS 360 Society and Justice 5 credits

  Examination of the sanctions and processes of criminal law as related to the ethical implementations of social justice. Prerequisite: Upper division standing.
- CS 374 Intervention Skills

  Provides students with the basic principles and processes involved in giving help to individuals, groups and communities in the human services field; focus on some of the basic methods, techniques and strategies. (fall)
- CS 376 Factors of Interviewing 5 credits
  (Sc 376) The interview as one of the major methods of helping people; study of factors of knowledge and method in proficient interviewing to provide a basis for future development. Prerequisite: CS 300 or permission. (winter, spring)
- CS 377 Field Experience 5 credits (Sc 377) For Sociology majors only. Mandatory CR/NC (spring)

CS 378 Field Experience I

CS 379 Field Experience II

- CS 380 Field Experience III

  Direct observation, supervised practice experience in a social welfare agency with the agency's clientele, services and functions in the community. Prerequisites: CS 376 or permission for 378; 378 for 379; 379 for 380. Mandatory CR/NC (fall, winter, spr-
- CS 400 Grantsmanship

  Trains students to write federal and foundation grants using government and foundation application kits. Examines grant components and grants management.

ing)

- CS 405 Group Theory and Process 5 credits

  This course covers the historical development of groups, style or types of groups, and how groups are used in business, therapy, training or personal life situations.
- CS 410 Counseling in Human Services 5 credits

  Focus is on the student development of skills to work with people through exploring growth stages a person may experience and how that process affects behavior. Counseling use of this knowledge will be emphasized.
- CS 412 Adolescence and Crises

  A seminar on the social dynamics of the young in this turbulent stage of development, with the major focus on maintaining/restoring the balance in his life system. (Self—family—friends—community).
- CS 415 Law of Family Conflict 2 credits
  A discussion of the legal aspects in family conflicts to include credit contracts, marriage and dissolution, children, family crimes and Juvenile Courts.
- CS 420 History and Survey of Drug Abuse 5 credits
  Scope of problems arising from drug abuse.
  Psychology of drug addiction; patterns of progression, early symptoms and diagnosis; types of drug addicts. Theories of etiology.
- CS 440 Crisis Intervention 5 credits
  Theory and practice of crisis intervention strategies.
  Schools, criminal justice agencies, family service agencies, public welfare agencies and crisis centers.
- CS 478 Coordinating Seminar I 3 credits
  CS 479 Coordinating Seminar II 3 credits
  Discussion and analysis of practices, programs, objectives, policies and procedures of various agencies, organizations and institutions. Corequisites: CS 378 with 478; 379 with 479.
- CS 480 Social Research Methods 5 credits
  A course designed to provide the student with an understanding of select research concepts, models and methods in Social Work Research. Emphasis includes the importance and application of research findings to the Social Work field.

#### **Criminal Justice/Police Science**

Herbert M. Kagi, Ph.D., Director

#### **Objectives**

The Criminal Justice/Police Science degree program seeks to offer academic preparation for professional performance in expanding law enforcement roles requiring a new scope of involvement and a spirit of inquiry; to provide an educational background in operational and managerial concepts and techniques in preparation for future positions of increasing responsibility in the management of police services; to provide students with a liberal arts education; to contribute significantly to the improvement of the quality of law enforcement services; and to assist a student in gaining a broad but incisive view of the theories, practices, and problems of criminal justice systems to include research techniques and strategies.

Graduates of the program may qualify for careers in public and private law enforcement, criminal investigation, crime prevention, law enforcement training, education and planning, and other components of the criminal justice system including law school and the subsequent practice of law.

#### **Degree Offered**

Bachelor of Criminal Justice/Police Science

#### **General Program Requirements**

Candidates must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Because of the interdisciplinary nature of the degree program, majors are required to take 15 credits in sociology; 15 in political science; 15 credits in psychology; and 10 credits in economics.

#### **Degree Requirements**

Bachelor of Criminal Justice/Police Science — 55 credits in CJP, or approved related courses.

<b>CJP 293</b>	Special Topics	1-5 credits

## CJP 310 Law Enforcement Public Policies 5 credits Discussion of public policy analytic models and application to Federal, state and local law enforcement agencies.

## CJP 325 Criminal Law and Procedure 5 credits Study of the criminal law processes from detention to appeal; State and Federal rules of criminal procedure. Understanding of policies underlying those rules.

## CJP 350 Police and the Community 5 credits (Sc 351) The role of police in the community; relationships with individuals, groups and community organizations. Analysis of ethnic, cultural and economic differences as factors in the administration of justice.

# CJP 352 Comparative Police Systems 5 credits Comparative analysis of police systems in the United States and selected foreign countries; emphasis on the organizational aspects, functions and process at work in foreign police systems.

# CJP 355 Crime Prevention 5 credits Nature and causes of crime and deviant behavior; analysis of theory and methods of prevention; planning for elimination of conditions conducive to crime including demographic and ecological factors.

CJP 360 Society and Justice 5 credits
(Sc 352) Survey of criminal justice process from arrest through release; the relationships of the police, the prosecutor, the defense, the courts, the prisons and corrections, as each integrates into a system.

CJP 362 Deviant Behavior 5 credits
(Sc 362) An overview of what American society generally regards as deviant behavior. Emphasis is placed on the results of stigmatization and the acceptance of low self-esteem.

CJP 365 Probation and Parole 5 credits (Sc 365) Examination of current trends and issues in probation, parole, supervision, the legal aspects, research, prediction and personnel.

CJP 366 Corrections 5 credits
(Sc 366) Analysis of post-arrest treatment methods applied to offenders; the correctional institution and community-based corrections. Prerequisite: Upper division standing or permission.

CJP 378 Field Experience I

CJP 379 Field Experience II

Direct observation, supervised practical experience and academic study in a selected law enforcement agency of organization in the criminal justice system.

CJP 410 Juvenile Justice Systems 3 credits
(Sc 412) Examination and study of contemporary police-juvenile operations. Theory and examination of the Juvenile Justice System. Relationship between the juvenile-officer, crime prevention and community relations.

CJP 412 Professional Criminal 5 credits

Analysis of professional crime from the viewpoint of the sociology of work; the professional criminal's utilization of technological change and Criminal Justice System responses.

CJP 415 Victimology 5 credits
(Sc 415) Survey of the victim-offender relationship; including the origin and scope of victimology, a victim and society, the victim and the administration of justice and the social reaction to victimization.

CJP 418 Sexual Deviance and The Law 2-5 credits
Analysis of definition problems, formal, legal and social constraints, and the Criminal Justice System's reaction to deviants.

CJP 420 The Politics of Civil Liberties 5 credits
Introduction to the "Politics" of civil liberties. The
focus will be upon three major libertarian values:
Freedom of expression; equality; and due process in
criminal procedure.

CJP 425 Problems of Public Service
Bureaucracies 5 credits
Descriptive analysis of the administrative side of large scale post-industrial governments. Emphasis upon coordination and conflict resolution through the budgeting and planning processes.

CJP 450 Politics of the Criminal Justice System 5 credits
The relationship of political values and partisan influence in the criminal justice system including
courts, prosecutors, attorneys and pressure groups.

CJP 455 Criminal Justice System Planning 5 credits

Methodology of systems planning, theories of analysis and problems of program evaluation with special attention to the criminal justice system.

CJP 460 Organization Theory 5 credits

Tracing the development of large Bureaucracy and analysis of controlling theories. Problems in Criminal Justice Systems as functions of bureaucracy and bureaucratic conflict.

# **English**

Alexander McDonald, S.J., M.A. (Oxon.), Chairman

#### **Objectives**

The English department offers courses which are designed to develop in the student an understanding and appreciation of the literature which comprises our cultural heritage, to give the student a knowledge of the language and its effective use in communication, and to prepare graduates for those professions which require a broad background in language, rhetoric and literature

#### **Degree Offered**

Bachelor of Arts

#### **General Program Requirements**

Students in English must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. A Fine Arts sequence, FA 101, 102, 103, is recommended. For English majors the second core course requirement is met by En 264, 265 or 266. Those students who plan to go to graduate school, unless they have already achieved reading proficiency in French or German, are strongly advised to take 10 credits of one of those languages.

## **Departmental Requirements**

Bachelor of Arts (English concentration)—60 credits of English which must include the following courses: En 110, 250, 264, 265, 266, 310, 314, 315 and 330. The remaining credits must be taken in courses in the 300 and 400 series. The nature of the courses is to be determined by the student in consultation with an adviser.

Bachelor of Arts (Comparative Literature Concentration)—60 credits of English and Comparative Literature which must include the following courses: En 110, 250, 264, 265, 266, 314, 315, 414 and 416. The remaining credits must be taken in the 300 and 400 series. Recommended are En 382 and 415. The student must take one five-hour course of a foreign literature in the original language when a reading competency in that language has been demonstrated.

Teaching Major (School of Education) — 60 credits of English which must include En 110, 175 (or 220 or 230 or 240); 250, 264, 265, 301, 330, either 266, 382, 482 or 484; and either 310 or 407. The remaining 15 credits must be taken in courses in the 300 and 400 series. En 314 and 315 are strongly recommended.

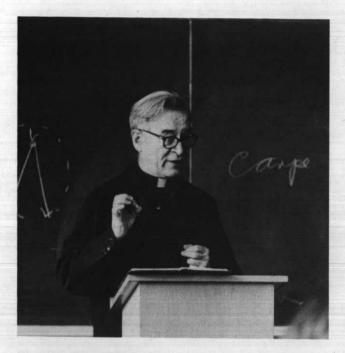

Undergraduate Minor — 20 credits of English beyond En 110 and either 264, 265 or 266. These courses should be taken in the 300 and 400 series, as specified by the department. For the Journalism — English Interdisciplinary Program, see the section on Journalism.

# Fine Arts J. Kevin Waters, S.J., D. Mus. Arts, Chairman

# **Objectives**

The Fine Arts Department offers programs and courses designed for all students as well as for those who wish to major in Art, Drama, and Music. There are opportunities for everyone to participate in performances and exhibits, or to study voice or an instrument privately. A program in dance is also offered. Moreover, every student may pursue courses which examine changing styles, attitudes, and social conditions in the arts from an historical perspective.

Though the Fine Arts major will concentrate in either Drama, Music, or the Visual Arts, that student will have ample opportunity to study and obtain practical experience in the other related art forms as well. Then, too, in conjunction with the School of Education, students may take courses in the fine arts which will enable them to be certified as Elementary Art, Drama, or Music teachers.

## **Departmental Requirements**

Bachelor of Arts — Major in Art — 79 credits which must include Art 221, 222, 223, 231, 232, 233, 311, 312, 334, 346, 351; 21 elective credits in art. Fifteen credits of Fine Arts courses are required, FA 101, 102, and 103. In addition, fifteen credits of cross-field study must be taken in Drama and Music.

Bachelor of Arts — Major in Drama — 65 credits which must include Dr 100, 210, 221, 222, 264, 265, 267, 320, 420, 455, 480 and FA 101, 102, and 103. In addition, fifteen credits of cross-field study must be taken in Art and Music.

Bachelor of Arts — Major in Music — 100 credits which must include MU 115, 116, 117, 215, 216, 217, 315, 370, 371, 372, 373, 415, 416, 417, 418; 6 credits of ensemble and 6 credits of vocal or instrumental lessons. Music majors must pass a proficiency test in piano at the end of their first year in residence, be a member of a performing ensemble (choral or instrumental) each quarter in residence (either for credit or no credit). Ten credits of Fine Arts courses are required, FA 101 and 102. In addition, fifteen credits of cross-field study must be taken in Drama and Art.

Teaching Subject, Elementary, Art (School of Education) — 25 credits which must include Art 221, 231, 311, 312, 334, 346, 351, 370.

Teaching Subject, Elementary, Drama (School of Education) — 25 credits which must include Dr 100, 210, 221, 264, 420, 421, plus 7 additional credits in Drama (electives).

Teaching Subject, Elementary, Music (School of Education) — 24 credits which must include FA 103, Mu 115, 116, 117, 2 credits of Mu 110 and 2 credits of Mu 130, Music 114 is required by the School of Education.

# **Foreign Languages**

R. Maxime Marinoni, Ph.D., Chairman

#### **Objectives**

The foreign language programs in French, German, Spanish, Latin and Greek all recognize academic, cultural and practical purposes.

Academic — These goals aim at broadening the scope of the student's intellectual formation by affording facility in one or more languages and a background in other cultures. This end is achieved through a major-minor in foreign languages; or a double major, coupling proficiency in a foreign language with a major in another field.

Cultural — Learning about another culture and civilization. its history, geography, literature and arts through the medium of its language leads to better understanding one's self and the world. To achieve this goal all foreign language courses are taught in their cultural context. Courses in French, German and Spanish are taught in the vernacular with the exception of the following: Fr 105, Fr 106, Fr 390; Gr 105, Gr 106, Gr 390; Sp 105, Sp 106 and Sp 390.

Practical — Career opportunities involving foreign languages are good. For the university student trained in a particular field with the extra asset, proficiency in foreign languages, openings exist in the following fields: teaching, government, military, social and foreign service; professions such as international law, engineering, librarianship, foreign trade and international management.

To meet these objectives, the Foreign Languages department offers regular, intensive, specialized and multi-discipline courses and programs.

#### **Degrees Offered**

Bachelor of Arts

Master of Education — F/L Teaching (French) — See
Graduate Bulletin

Master of Arts in Education — F/L Teaching (French)
See Graduate Bulletin

#### **General Program Requirements**

Students majoring in a foreign language must satisfy the core curriculum requirements of the University, as given on page 18 of this bulletin.

# **Departmental Requirements**

Bachelor of Arts (modern languages) — 40 credits beyond the elementary language courses 115, 125 and 135. These 40 credits must include 215, 225, 235, 315, 325 and any three courses at the 400 level.

Teaching Major (School of Education) — 40 credits beyond elementary courses 115, 125, 135. The 40 credits must include courses 215, 225, 235, 315, and 325. French, German and Spanish only.

Undergraduate Minor (modern languages) — 20 credits beyond elementary language courses 115, 125 and 135. Those 20 credits must be earned in 215, 225, 235 and 315.

# **Programs Abroad**

The French-in-France Program in Grenoble, France offers a full academic year of study (45 credits) of French language, culture and civilization under the direction of regular faculty. The program is open to all students of the University, with no prerequisites.

The German-in-Austria program in Graz, Austria offers one full academic year of study under the direction of regular faculty. There are no language prerequisites and the program is open to all students.

Reading Programs (sequence of two courses: 105, 106) prepare the student to translate the written text with accuracy and comprehension for scholarly purposes. They fulfill the foreign language requirements and help the student gain the facility needed to pass the graduate language examination.

The reading language requirements may not be satisfied by examination in a student's native language, since the intent of such a requirement is mastery of a language new to the student.

Intensive programs are offered during the summer quarter, in which one year's work in a language can be done, earning 15 credits.

Credit by examination and waiver — The Foreign Languages department, reserves the right to waive all or part of the degree requirements for students who demonstrate, by examination, achievement at the college level. Courses may be waived, allowing substitution of electives, or credit may be obtained by meeting the University's requirements for credit by examination.

Independent Study Independent Study

# **General Studies Program**

Mary Margaret Ridge, B.A., Director

#### **Objectives**

Students who have a wide range of interests and want a broad liberal arts education, AS WELL AS THOSE WHO HAVE NOT YET DECIDED UPON A MAJOR, may enroll in the General Studies Program. Such students begin their University work by taking core curriculum subjects required for all majors. They may then select courses from two or three related fields, and formulate a program that will best suit the needs of their long-range goals.

The thrust of the program looks to constructing indepth combinations of a variety of disciplines such as fine arts, humanities, social sciences, or any other atypical interdisciplinary synthesis.

A student admitted to the General Studies Program may also transfer to one of the traditional majors of the College of Arts and Sciences, or to one of the professional schools, such as Business, Education, Nursing, Science and Engineering. A student may change at any time as long as academic qualifications for the intended program are met.

#### **Degrees Offered**

Bachelor of Arts in Humanities Bachelor of Arts in Social Science

#### **General Program Requirements**

Requirements of a General Studies degree are 65 credits beyond the core, of which 45 credits must be taken in courses designated 300 or 400 level.

Suggested combinations are: 45 hours in one subject and 20 in another; or 35 hours in one, 15 in a second, and 15 in a third; or 25, 20 and 20. THE SELECTION OF SUBJECTS AND THEIR MEANINGFUL COMBINATION IS THE RESPONSIBILITY OF THE STUDENTS IN CONSULTATION WITH THE PROGRAM DIRECTOR OR AN ASSIGNED ACADEMIC ADVISER.

# History

Robert D. Saltvig, Ph.D., Chairman

#### **Objectives**

Defying classification as either humanity or social science, history functions as both. It focuses on the values as well as the ideas, personalities and institutions that existed in the past and shaped the present. As concerned with perceptions of reality as with historic reality itself, it attempts to exploit all forms of information concerning the past—myth, folklore, legend and works of art, as well as conventional manuscript and published sources. And, while the department attempts to assist all students in acquiring that knowledge of the past which is essential to the educated person, it is especially concerned with developing the methods and techniques unique to historical inquiry. By consistently raising questions regarding "how we know" as well as "what we know" the department aims at the development of fundamental intellectual skills that will be of lifelong utility.

#### **Degrees Offered**

Bachelor of Arts

#### **General Program Requirements**

Students in history must satisfy the core curriculum requirements of the University as given on pages 18 and 19 of this bulletin. Required sequences are 15 credits of philosophy and 10 credits each of English, theology, social science and mathematics/science.

#### **Departmental Requirements**

Bachelor of Arts — 60 credits including Hs 104 and 105, 200, 400, 499. Of the remaining 35 credits, 20 are to be taken in a general area (Western Europe, United States, Russia-China-Japan). Study of a modern foreign language is highly recommended.

Undergraduate Minor — 35 credits of history of which Hs 104 and 105 are required.

Teaching Major (School of Education) — 55 credits of history, including Hs 104, 105, 231, 341 and seven upper-division courses.

Hs 291	Special Topics	1-5 credits
Hs 292	Special Topics	1-5 credits
Hs 293	Special Topics	1-5 credits

- Hs 303 Foundations of European Civilization 5 credits The emergence of the Carolingian Empire and Anglo-Saxon England. Western European relations with the Byzantine and Arab-Mohammedan states.
- Europe of the High Middle Ages Hs 306 Analysis of the cultural, political and social institutions of Medieval Europe.
- Hs 307 Europe in the Age of the Renaissance Europe of the 14th through the 16th centuries. An analysis of the concept of Renaissance and the historical reality in both southern and northern Europe.
- Early Modern Europe Hs 309 5 credits Analysis of specific problems of the Protestant Reformation and the Catholic Counter-Reformation, as arising from Renaissance humanism, and in relationship to modern institutionalization.
- Hs 311 Europe of the 18th Century Cultural and political ferment of Western civilization in the century of the Enlightenment and the French Revolution.
- Europe of the 19th Century Hs 313 5 credits The era of revolutions in ideas and societies, from the Napoleonic wars to the beginning of World War I.
- Hs 315 Europe of the 20th Century 5 credits Contemporary movements and institutions.
- Hs 321 **Modern France** 5 credits Development of cultural and political France from the 17th century to the present.
- Hs 325 Modern Western Culture 5 credits Reading in interpretive and secondary literature investigating the relationship of Christianity to 19th and 20th century Western culture.
- Hs 331 **Colonial North America** 5 credits European discoveries, explorations and settlements from the 16th through the late 18th centuries.

Hs 281

- Hs 333 The Beginnings of the United States

  The Revolution, Confederation and Constitution.

  Continental expansion; domestic and international development to the Age of Jackson.
- Hs 335 Expansion and the Crisis of the Union 5 credits
  The Age of Jackson, territorial expansion, slavery
  and abolition, civil war and reconstruction.
- Hs 337 The United States in the Progressive Era 5 credits
  Industrialization, immigration, urbanization and their effects on American society and politics.
- Hs 339 Recent United States 5 credits
  The culture of the 1920's, the Great Depression, the
  Second World War, contemporary American society.
- Hs 341 The Pacific Northwest 5 credits

  Past development and present problems of the states comprising the Pacific Northwest with emphasis on Washington state.
- Hs 343 American Society and Culture 5 credits
  Social and intellectual history of the United States,
  with emphasis on the 19th and 20th centuries.
- Hs 345 American Urban History 5 credits
  The rise of the American city, its role in American culture, and reactions to it.
- Hs 349 Afro-American History 5 credits
  African origins, the slave trade, the Afro-American
  experience; the contributions of Afro-Americans to
  American culture.
- Hs 364 England (to 1715) 5 credits

  The transformation of a traditional society, the crisis of revolution, and the emergence of the first modern state.
- Hs 365 Modern Britain 5 credits

  The growth of England as a democratic, industrial state with the subsequent growth of imperialism and its decline. The crisis of wars and the emergence of socialism in the twentieth century.

- Hs 381 Chinese Civilization 5 credits
  The development of Chinese culture, thought, and institutions down to the late 19th century.
- Hs 383 China-20th Century 5 credits
  The western impact and the Chinese revolutions from the Opium War to the People's Republic.
- Hs 385 Traditional Japan 5 credits
  The development of Japanese culture, thought and institutions to 1867.
- Hs 387 Modern Japan 5 credits
  The transformation of Japan from feudalism to imperial power and industrial giant, 1867 to present.
- Hs 389 History of Hawaii 5 credits
  Cultural and political history of Hawaii and an introduction to Hawaii's place in Pacific developments in the modern world.
- Hs 391 Special Topics 1-5 credits
  Hs 392 Special Topics 1-5 credits
  Hs 393 Special Topics 1-5 credits
  Private work by arrangement, with the approval of department chairman.
- Hs 400 Historiography 5 credits
  Historical study and writing and the philosophy of
  history from the earliest times to the present.
- Hs 412 The French Revolution and Napoleon 5 credits
  Studies in the institutions and events which led to the fall of old France.
- Hs 414 Modern Germany 5 credits
  Studies in German history and culture.
- Hs 431 The Westward Movement 5 credits

  American frontier history from colonial times to the end of the 19th century.
- Hs 434 American Revolution and
  Confederation 5 credits
  Events and interpretations in the history of the Atlantic seaboard provinces from the end of the Great
  War for Empire through independence and Confederated United States.
- Hs 435 American Civil War and Reconstruction 5 credits
  Political, social and economic aspects of the American civil war and reconstruction.
- Hs 463

  Social and Intellectual Change in
  Tudor England

  Study of the relationships between thought and a
  late medieval society in transition.
- Hs 481 Modern Asian Revolutions 5 credits
  Problems and forces in selected examples of Asian
  nations in the 20th century, especially of circumstances, leaders, tactics, and doctrines of revolutionary groups in China, Viet Nam and Indonesia.

# **Honors Program**

Rosaleen Trainor, CSJ, Ph.D., Director

#### **Objectives**

The Honors Program is a two-year program designed to develop students who can think, read, write and speak integratively across various university disciplines. The courses are historically arranged, beginning with the Ancient Near East and proceeding through the civilizations of the Hebrews, Greeks, Romans and Medieval Europeans to modern and contemporary times. The various disciplines—literature, thought, history, fine arts and science—are correlated to provide the student with the greatest possible depth in each period under examination. The program is conducted according to the dialogue method in seminars. In addition, each quarter the student must write at least one paper in each course and be prepared to defend this written work in a tutorial session of five or six students and the instructor. Examinations are normally oral and are given at the end of each quarter.

#### Scholarships/Applications

Scholarships are granted on a one-year basis, renewable on proof of competence. Applicants are chosen on the basis of their previous record and evidence that they are willing to make the effort necessary to achieve genuine superiority in the intellectual pursuits. In addition to application to Seattle University, candidates must apply directly to the Honors Program.

#### **Program Requirements**

When accepted in the Program, students complete each of the course sequences numbered Hu 101 through 243. Completion of the Honors Program satisfies University core requirements in philosophy, science, English, history and theology/religious studies. Students may elect to take Hu 398 or 499 while completing their major.

#### **Degree Major**

Honors students, on completion of their two-year program, transfer into one of the departments of the University to fulfill the requirements for their major. Degree majors are usually completed in two years.

#### **Honors Program Courses**

Hu 101	Humanities Seminar - Thought	5 credits

<sup>\*</sup> Not an Honors Program course

# **Journalism**

John R. Talevich, M.A., Chairman

#### **Objectives**

To the University's basic liberal studies program, journalism adds courses designed to give the student an awareness of the role of mass communications in a free society and the special knowledge and skills required for effective communication.

The journalism program is specifically directed toward editorial competence, the basis for careers in all areas of mass communications. It seeks to produce graduates who can become responsible professional journalists or who can undertake graduate study in specialized areas.

#### **Degree Offered**

Bachelor of Arts

#### **General Program Requirements**

Students in journalism must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Journalism students must receive a minimum grade of C in any journalism course to be applied toward major requirements. A student must have a minimum typing average of 40 words per minute to enroll in journalism writing courses.

During the freshman year the journalism student will be asked to specify an area of interest such as print or broadcast journalism, advertising or public relations, or graduate study. With an adviser he/she will then plan a sequence of courses, in journalism and in related areas, to meet individual requirements.

Practical experience is an essential complement to the journalism student's course work. This experience should be gained through part-time work on off-campus media, as a staff member of a student publication or in internships.

# **Departmental Requirements**

Bachelor of Arts — 50 credits in journalism which must include Jr 100, 200, 210, 250, 330 and 25 credits in courses numbered 300 and above; 10 credits of English beyond core requirements numbered 200 or above; 5 additional credits of social science; 10 credits of upper division United States history courses (or approved substitutes); 10 credits of language or fine arts and/or speech and drama courses.

Journalism-English Interdisciplinary Program — 60 credits which must include Jr 100, 200, 210, 250, 330 and 15 credits chosen from Jr 310, 350, 370 and 430; and 20 credits chosen from En 250, 305, 382, 407, 488 and 490.

Journalism/Fine Arts Interdisciplinary Program—60 credits which must include Jr 100, 200, 210, 250, 330, 430 and 10 credits chosen from Jr 350, 370 or internship; and 20 credits of fine arts courses chosen in consultation with the adviser. Students in this program must also take the 10 credits of language/fine arts required by the department in the fine arts area.

Undergraduate Minor — 30 credits which must include Jr 100, 200, 210, 250 and 10 credits of additional courses numbered 300 and above.

Undergraduate Minor (teaching) — 25 credits which must include Jr 100, 200, 210, 250 and 5 credits of approved upper division courses.

#### Military Science Lt. Col. James G. Adams, M.S., Chairman

#### **Objectives**

The Department of Military Science offers the college student several options for the attainment of an Army officer's commission while pursuing an academic degree program. The objective of the Army ROTC program is to develop college educated officers for the Regular Army and Army Reserve. The curriculum is designed to develop leadership and management skills—qualities that contribute to success in any kind of career, military or civilian.

#### **Commissioning Requirements**

To be commissioned as an officer in the United States Army, a student must successfully complete the basic course requirements, the advanced course requirements, Advanced Summer Camp and graduate from the University.

#### **Basic Course**

The basic course is elective for all physically fit students at the University. The traditional course consists of two hours of classroom instruction per week and three hours of leadership workshop twice a quarter for six academic quarters (freshman and sophomore years). Students who are unable to participate in on campus ROTC classes during their first two years of college may satisfy requirements for Basic Army ROTC by attending Army ROTC Basic Camp for six weeks during the summer after their sophomore year.

#### **Advanced Course**

The advanced course is elective for qualified students who have received credit for the basic course. The course consists of three hours of classroom instruction per week and three hours of leadership workshop once a month for six academic quarters. Advanced course students must also attend Army ROTC Advanced camp for six weeks during the summer between their junior and senior year. Advanced course students receive \$100 per month allowance for up to 20 months of their junior/senior years.

#### Scholarship

Army ROTC scholarships are available to selected students who desire a military career. Expenses for tuition, books and fees are paid for one, two, three or four years plus each student receives a \$100 per month allowance for each school year while on scholarship. Application for four year scholarships are made while the student is still in high school. For more information write the Professor of Military Science, Seattle University.

#### **Military Science Basic Courses**

- Introduction and history of ROTC. Discussion of opportunities, benefits, obligations, scholarships available through ROTC. Instruction in leadership principles/traits/styles, customs and courtesies of the service and branches of the army. (fall).
- MS 102 Basic Officer Development II 1 credit
  Development of individual skills in basic map reading/and navigation. Practical exercises and field trips to test skills learned. Discussion of military communications equipment available to the small unit leader. Value of proper communications skills and security. Hands on instruction with equipment. (spring).
- MS 103 American Military History 1 credit
  United States military history from the colonial wars
  to the Vietnam conflict. Emphasis is on military
  leadership, the principles of war, and development
  of the military art. (winter).
- MS 201 Preparation for Leadership 2 credits
  Introduction to the basic military team. Discussion
  of the organization and equipment of the squad and
  platoon. Integration of individual tactical skills into
  squad tactics. Introduction to the basic principles
  and techniques of patrolling. (fall).
- MS 202 Concepts of Military Operations 2 credits
  Application of the principles of warfare by small unit
  leaders. Principles of offense and defense at the
  squad level to include tactical formations and battle
  drill. (spring).
- MS 203 Communication Skills Development 2 credits

  Development of oral and written communication skills for the military leader. Practical application through student presentations and writing projects. (winter).
- MS 204 Army ROTC Basic Camp 0 credits

  Military training at Fort Knox, Kentucky qualifying students for advanced course. Open to undergraduates with no ROTC experience. Receive pay, travel expenses. Six weeks during summer.

	Mountaineering Physical Conditioning	1 credit
MS 291	Special Topics	1-5 credits
	Special Topics	1-5 credits
MS 293	Special Topics	1-5 credits
MS 296	Independent Study	1-5 credits

# **Military Science Advanced Courses**

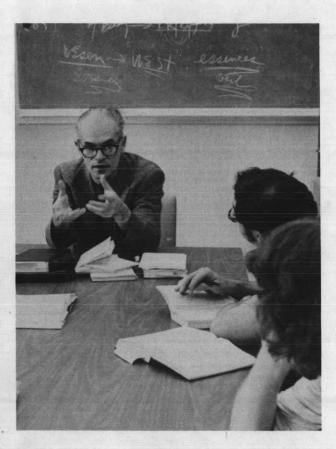

301 Military Topographical Analysis 3 credits Principles of land navigation, orienteering, terrain analysis, map reading and aerial photograph interpretation for the small unit leader.

- MS 302 Tactical Operations 3 credits

  The role of the company commander and subordinate leaders during tactical operations. Planning and execution of small unit offensive and defense maneuvers. (winter).
- MS 303 Preparation for Leadership 3 credits
  Special problems of military leaders. Adjustment to
  military life. Selected military subjects in preparation for Army ROTC advanced camp. Pre-camp testing and evaluation. (spring).
- MS 304 Army ROTC Advanced Camp 0 credits
  Students perform as leaders in variety of roles, both
  administrative and tactical. Conducted for six weeks
  during summer. Successful completion of Advanced Camp required for commissioning. Prerequisite: MS 303. (spring).
- MS 401 The Military Team 3 credits

  Discussion of command and staff. Concepts of planning, coordination, and decision-making at battalion and company level. (fall).
- MS 402 Military Logistics/Military Justice 3 credits
  Discussion of logistical management of the Army
  support system. The Military Justice system and its
  importance to military discipline. (winter).
- MS 403 The US Military and World Affairs 3 credits
  The interrelationship of the US with other nations.
  Selected military subjects in preparation for commissioned service. (spring)
- MS 496 Independent Study

# Philosophy John P. Burke, Ph.D., Chairman

#### **Objectives**

The task of philosophy is to study the world and man in terms of that which constitutes their inner-most unity and meaning. It seeks to discover those all-pervasive factors in the world which refuse to yield to the segregating tendencies of a fragmentary approach to knowledge and to truth. It strives to introduce the student to the language of universal communication whereby he/she might translate the complex manifold of human experience into relevant and creative meaning for themselves and for society. It raises such searching questions as: What is the function of language? What is the meaning of knowing? What is change and is anything permanent? What does it mean to exist? What is the nature of value and can value be merely relative? What is man and his destiny? Can God's existence be rationally determined? What is the nature and origin of evil?

The philosophy taught at Seattle University strives to raise these and similarly significant questions in an atmosphere conducive to facilitating the student's search for truth. It unashamedly recognizes its debt to the past, particularly to those philosophers who have presented a realist view of man and the world compatible with the Judaeo-Christian vision of the universe. At the same time it realizes that to remain dynamically relevant to the contemporary age it must advance and grow and be ever open to new problems, new ideas, new contributions and new perspectives.

#### **Degree Offered**

Bachelor of Arts

#### **General Program Requirements**

Students in philosophy must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. In addition, students in philosophy must take 10 credits of language.

#### **Departmental Requirements**

Bachelor of Arts — 55 credits of philosophy which must include PI 110, 220, 233, 250 and 260 plus a program of six upper division courses. These six courses must include one from each of the following pairings: PI 340 or 350; 400 or 420; 460 or 465. Qualified students may substitute a written thesis for one of the required courses. Five credits are granted for the thesis which is written under the direction of a faculty member.

Undergraduate Minor — 35 credits of philosophy which must include PI 110, 220, 250, 260 and three upper division courses offered by the department.

#### **Philosophy Courses**

World

#### Pl 110 Philosophical Problems:

A combined historical and problematic approach to the nature of philosophical inquiry. An introduction to fundamental philosophical problems of being, language, logic, knowledge, reality, human existence and God.

PI 220 Philosophical Problems—Man 5 credits
Systematic study of man, his nature and his powers.
Special emphasis on the human knowing process
and the problems of human freedom and personal

responsibility. Prerequisite: PI 110.

5 credits

PI 231 Introduction to
Ancient Greek Philosophy 5 credits
Readings from source material of the philosophy of
the ancient Greeks. Investigation of the topics, problems and doctrines of the pre-Socratics, Plato and
Aristotle. Prerequisite: PI 220.

PI 232 Introduction to Medieval Philosophy 5 credits
Synthesis of medieval philosophy in its historical
perspective with a particular examination of the
themes of Arabic, Scholastic and Nominalist metaphysics. Prerequisite: PI 220.

PI 233 Introduction to Modern Philosophy 5 credits
Readings from source material of the modern philosophers. Investigation of topics, problems and doctrines of selected authors from Descrates to Kant.
Prerequisite: PI 220.

PI 250 Ethics 5 credits

General theory of moral behavior, ethics as a science, the purpose of human life and the means of attaining this goal. Applications of general ethical theory in specific instances. Prerequisite: PI 220.

PI 252 Business Ethics 5 credits
Application of general ethical theory to those problems directly related to the business world; employment practices, wages, advertising, honesty, strikes. Prerequisite: PI 220.

PI 255 Medical Ethics 5 credits
Application of general ethical theory to basic problems encountered in the medical profession; fees, professional secrecy, rights of patients, abortion, transplants, drugs. Prerequisite: PI 220.

PI 260 Logic I 5 credits

Systematic treatment of traditional logic. The themes of communication and language, division and definition, propositions, syllogisms and the nature of science will be examined.

PI 261 Logic II 5 credits
Introduction to symbolic or mathematical logic from
both an intuitive and formal standpoint. Elementary
calculus of classes and relations and introduction to
axiomatic set theory and Boolean algebra. Prerequisite: PI 220.

PI 291 Special Topics 1-5 credits
PI 292 Special Topics 1-5 credits
PI 293 Special Topics 1-5 credits
Prerequisite: PI 220

PI 300 Philosophy of Nature 5 credits
Philosophical appraisal of the material universe, its
nature, causes and activities, incorporating the
mathematical and experimental findings into the philosophical account of the cosmos. Prerequisite: PI

PI 303 Philosophy of Science 5 credits
Philosophical reflections on the historical development of the scientific view of the cosmos. Readings from significant sources. Prerequisite: PI 220.

PI 305 Philosophy of Science —
The Behavioral Science 5 credits
Study of the philosophical implications and presuppositions of the methodology and conceptual framework of the behavioral sciences; special emphasis on behavioral psychology and statistical analysis. Prerequisite: PI 220.

PI 307 Philosophy of Science —
The Life Sciences 5 credits
Consideration of the basic problems concerning the meaning, origin, evolution and structure of organic life. Prerequisite: PI 220.

PI 310 Contemporary Ethical Theory 5 credits
Selected readings from contemporary moral
philosphers such as Hare, Stevenson and Fletcher.
Prerequisite: PI 220.

PI 312 Contemporary Social Ethics 5 credits
Moral problems facing urbanized man in his contemporary setting. Prerequisite: PI 220.

# **Political Science**

Ben Cashman, Ph.D., Chairman

#### **Objectives**

The curriculum in political science introduces the student to political values, trains in political analysis and informs of government processes at the international, national, state and local level. It prepares students for graduate study or for careers in government, research, teaching or private enterprise where either a knowledge of political science or a broad liberal arts background is required.

The Bachelor of Public Administration program is flexible and designed to serve a variety of student interests within the broad area of public affairs and activities. A multi-disciplinary curriculum, it offers the knowledge and skills needed for effective policy analysis and program implementation, and training for government employment or graduate studies.

## **Degrees Offered**

Bachelor of Arts Bachelor of Public Administration

# **General Program Requirements**

Students in political science must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Political science majors are strongly encouraged to take additional courses in English, history, philosophy and theology and religious studies and are advised to enroll in courses in economics, psychology, sociology, fine arts and languages. Students who plan to attend law school after graduating in political science should take accounting.

#### **Departmental Requirements**

Bachelor of Arts — 60 credits of political science which must include Pls 150 and 160. Majors must select two courses in each of the four major subdivisions of the department and two additional in the area in which they intend to specialize. The four major subdivisions of the department and the applicable courses are: American Government and Politics — Pls 210, 214, 280, 324, 370, 371, 372, 374, 418, 419, 490.

International Relations and Foreign Policy — Pls 249, 350, 381, 385, 437, 438.

Comparative and Foreign Governments — Pls 200, 315, 330, 337, 440, 441, 442.

Political Thought and Theory—Pls 242, 289, 351, 353, 354, 355, 490.

Bachelor of Public Administration—70 credits of interdisciplinary business, economics, political science and public service courses of which 45 are mandatory—Pls 160, 210, 370, 488, 490, Pub 416, 430, 491 and Ec 471. The remaining 25 credits will be chosen from a list of multidisciplinary offerings in consultation between student and adviser. Five credits of internship are required but may be waived if the student has already acquired suitable public service experience. An additional 10 credits of internship may be taken but are in addition to the 70 credits required for the major. The internship is the link in the transition from classroom to employment.

Undergraduate Minor — 30 credits which must include Pls 150 and 160 and one course from each of the four major subdivisions of the department.

# **Political Science Courses**

Pls 150 Introduction to Politics 5 credits
Concepts and methodologies of political science;
foundations of political behavior and institutions;
comparative study of political functions and structures; political ideologies; forms of political action.

Total . . . . 180 credits

Pls 160 American National Government 5 credits
Study of the foundations, structures, functions of the
executive, legislative and judicial branches of the
government and their inter-relations with the popular processes of government.

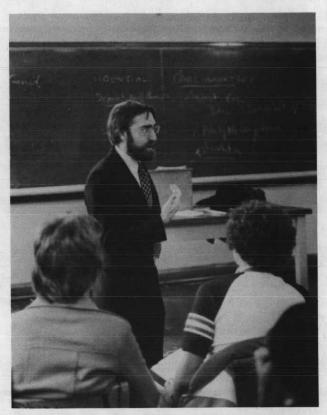

Pls 200 Comparative European

Democracies 5 credits

Analysis of selected foreign democratic systems;
constitutional and ideological principles, governmental forms, practices and problems.

Pls 210 Introduction to Local and State Politics 5 credits
Examination of structures and functions of political
institutions at local, state, county and special district
levels, especially legislative, executive and judicial
systems.

Pls 214 Government and the Economy 5 credits
Government regulation and promotion of business,
agricultural, labor and consumer interests. The regulatory agencies. Government corporations, antipoverty programs. Government economic Stabilization policies, critique of American capitalism.

Pls 242 American Political Thought 5 credits
Study of American political traditions; Puritanism,
revolutionary thought, federalism, Jeffersonianism,
intellectual democracy, slavery, progressivism, pragmatism, social utilitarianism and political thought in
law and literature.

Pls 249 Introduction to International
Politics 5 credits
Analysis of the dynamic forces in international relations; power nationalism, sovereignty, colonialism, imperialism, theories of war and peace.

Pls 280 The Judicial Process 5 credits

Overview of the role of law and the judiciary in American political life; the powers and limitations of the judiciary; individual rights in legal conflicts; study of selected key cases. Designed especially for non-majors.

Pls 289 Introduction to Political Philosophy
An overview of political ideas from East to West, from Plato to present; application of these ideas to contemporary society.

Pls 291 Special Topics 1-5 credits
Pls 292 Special Topics 1-5 credits
Pls 293 Special Topics 1-5 credits

Pls 315 Comparative Totalitarian Systems 5 credits
Study of 20th Century totalitarian ideologies and
their influence on governmental functions and processes. Comparative study of selected communist
states, military dictatorships and nationalist-authoritarian states.

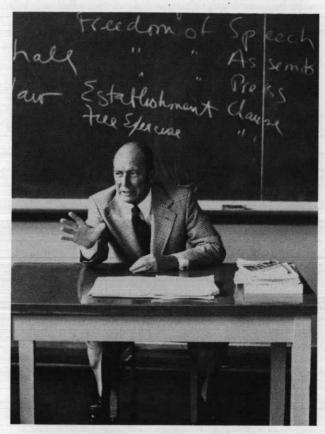

Pls 324 Political Parties and Interest Groups

5 credits

Theories, organization, strategy and leadership or American political parties, campaigns and party leadership. Role of interest groups in the American political process.

- Pis 330 Government of the Soviet Union 5 credits
  Study of the ideological foundations of Soviet government, the functions of government, the role of the Party, the military and Soviet law.
- Pls 337 Politics of Developing Countries 5 credits

  Emergence of nationalism, resistance and conflict in
  the modernization process, economic modernization, patterns and problems of political development.
- Pls 350 International Law 5 credits
  Fundamentals of international law; states and international law; the individual in international law; creation; application and enforcement of international law.
- Pls 351 Political Thought:
  Ancient and Medieval 5 credits
  Critical examination of political ideas from the preSocratics to 1400. Middle Eastern as well as Western Medieval ideas will be considered with emphasis
  on the reading of source materials.
- Pls 353 Modern Political Thought 5 credits
  Political ideas from Machiavelli through Hobbes,
  Locke, Montesquieu, Rousseau, the English Utilitarians, 19th Century non-Marxian Socialism.
- Pls 354 Comparative Marxist Political
  Theories 5 credits
  Critical examination of the chief theories developed
  by Marx, Engels, Lenin, Mao Tse Tung, Tito, Braz
  and certain revisionists.
- Pls 355 Recent Political Theory 5 credits
  Critical analysis of political theories from Marx to the present.
- Pls 370 Public Administration 5 credits
  Role of public administration in political system; relationship of bureaucracy to executive, judicial and
  legislative branches, budgetary process, personnel
  administration, organization theory; control of bureaucracy.
- Pls 372 Urban Politics and Public Policy 5 credits
  Problems of large American cities with special
  emphasis on transportation, housing, public safety
  and planning problems. Fiscal problems of American cities; public school politics.
- Pls 374 The American Presidency 5 credits
  Analysis of powers of American presidents: relationship with Congress, bureaucracy, judiciary, private sector and with foreign governments.
- Pls 381 United States Foreign Policy 3-5 credits
  Constitutional framework; major factors in formulation and execution of foreign policy; American policy
  in Europe, the Near East, Africa, the Far East and in
  Latin America historically and current.

- Pls 385

  Peace and The United Nations

  Introduction to the history, theories and problems of international organizations; the League of Nations and the United Nations and the Specialized Agen-
- Pls 418 Constitutional Law 5 credits
  Growth, philosophy and development of the United
  States Constitution as reflected in decisions of the
  Supreme Court with emphasis on the role of the
  Court in contemporary America. Prerequisite: Junior
  or senior standing.
- Pls 419 The Supreme Court and the
  Bill of Rights 5 credits
  Interpretation of the Bill of Rights by the Supreme
  Court and the impact on the individual and the
  States. Prerequisite: Junior or senior standing.
- Pls 437 Peace Movements and World
  Government 5 credits
  An analysis of theoretical basis of regionalism and universalism as approaches to world peace. A study of current regional experiments; proposals for re-

vision of U.N. Charter; World Federalism and World

- Pls 438 Contemporary World Politics 5 credits
  An examination of dominant political forces on today's international scene and effects of these forces
  on international relations, international law and international organizations.
- Pls 440 Comparative Politics of Asia 5 credits
  Analysis of selected Asian systems; governmental forms and ideologues; problems of nation-building; inter-state relations.

Pls 441 Comparative Politics of Africa 5 credits
Analysis of selected governments of Africa; constitutionalism, milarism, economic development and social change.

Pls 442 Comparative Politics of the Middle East 5 credits

Nature of the political conflict between Israel and her

Arab neighbors; special emphasis on the political institutions of Egypt and Israel.

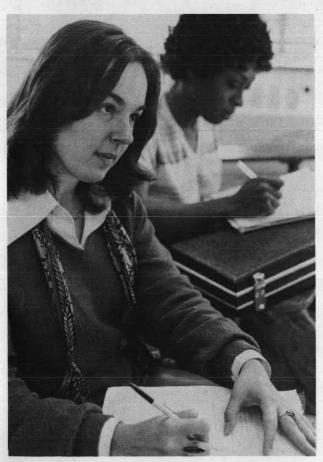

Pls 488 Internship
On-the-job experience with appropriate governmental agency required for BPA degree. Students may register for no more than 15 total intern credits.

Mandatory CR/NC.

Pls 490 Scope/Methods in Public Policy Analysis 5 credits

Techniques of social science disciplines applied to
analysis and implementation of policy; research
design, data acquisition, index construction.

#### **Prelaw**

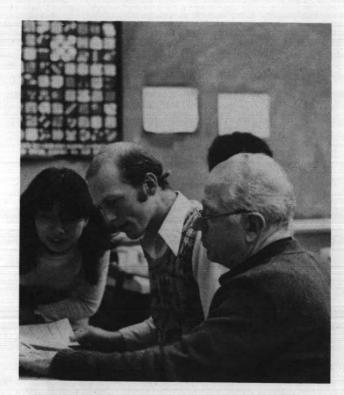

Ben Cashman, Ph.D., Adviser Sr. Christopher Querin, SP, Ph.D., Adviser

#### **Program**

The best preparation and a requirement for entrance to many law schools is the completion of a four-year program for the bachelor's degree. Only a few law schools will admit students who have completed three years of undergraduate work.

In advising prelaw students, Seattle University follows the recommendations of the Association of American Law Schools. These stress comprehension and expression in words, critical understanding of human institutions and values with which the law deals, and creative power in thinking. These capacities may be developed through study in any of a number of departmental majors.

Entering students interested in law must declare a major in the field in which they are most interested and for which they are best suited. Those unable to make such a determination upon entrance will be enrolled in the General Studies program. The program of study of each prelaw student must be approved by the departmental adviser and the prelaw adviser should be consulted quarterly. During their junior year, students must acquaint themselves with the entrance requirements of the law school they plan to attend and make arrangements to take the law school admissions test. The application form and the instruction booklet for this test may be obtained from the prelaw adviser.

# Psychology George D. Kunz, Ph.D., Chairman

#### **Objectives**

The curriculum is designed for students who plan to work as professional psychologists and thus need a sound preparation for graduate study; for students who plan a career in any field dealing primarily with people, such as nursing, teaching, social work, guidance and personnel; or for those who desire a well-rounded education and thus need a basic knowledge and understanding of human behavior. The specific and unique role of the Psychology department is to provide a solid knowledge of psychology as a science.

#### **Degrees Offered**

Bachelor of Arts Bachelor of Science

#### **General Program Requirements**

Students in psychology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. See programs of study for additional requirements.

Psychology majors may choose any minor. For social work, the recommended curriculum is a major in psychology and a minor in sociology. Premedical students may take a Bachelor of Science in psychology. Psychology majors may not register for CR/NC in the courses listed under departmental requirements; they must obtain a grade of C or higher in all those required courses; and they must maintain a 2.00 grade point average in all other psychology courses.

#### **Departmental Requirements**

Bachelor of Arts — 45 credits of psychology which must include Psy 100, 201, 301 and 401.

Bachelor of Science — 45 credits of psychology which must include Psy 100, 201, 202, 301, 330, 401, 402 and a minimum of 40 credits of mathematics and physical science.

Undergraduate Minor — 30 credits of psychology which must include Psy 100.

# Rehabilitation John K. Thompson, Ph.D., Chairman

#### **Objectives**

The Rehabilitation Program is designed to educate students to become vocational rehabilitation professionals who work with mentally and/or physically disabled persons. As rehabilitation professionals, their goal will be to move disabled individuals from a status of dependence to the level of maximum functioning of which they are capable. Accordingly, rehabilitation professionals deal with clients, primarily on a one-to-one basis, who have disabilities preventing them from obtaining or retaining employment. Based on the level of rehabilitative readiness, some of the disability groups rehabilitation professionals might work with include alcoholics, blind, deaf and hard-of-hearing, drug addicts, industrially injured, mentally ill, mentally retarded and parolees, to name a few.

The program prepares students who, upon graduation, might become employed in public and private human service settings such as state vocational rehabilitation agencies, federally sponsored human service agencies, county agencies, social welfare agencies, prisons, evaluation centers, and health-related associations, as well as private agencies such as transitional workshops, rehabilitation centers, hospitals, speech and hearing centers, work activity centers (adult development centers) and others.

Emphasis is placed on supervised field experiences in a variety of rehabilitation related agencies (30 credits), in addition to giving the students knowledge in medical and psychological aspects of disability, the world of work or occupational information and community resources in rehabilitation.

#### **Degrees Offered**

Bachelor of Arts in Rehabilitation

Master of Arts in Rehabilitation—See Graduate Bulletin

#### **Certificate Program**

The Rehabilitation Certificate is a 45 credit program that is offered late afternoons and evenings and has the following components: 10 credits of field experience; 15 credits of foundation courses (RHB 100, RHB 201, RHB 301); 20 credits to be selected by the student and the adviser. The Rehabilitation Certificate program is open to all persons, with or without a degree, who meet the University's entrance requirements. Certificate credits are applicable toward a B.A. degree. A certificate program should be completed within three years.

#### **General Program Requirements**

Students in rehabilitation must satisfy the core curriculum requirements of the University as indicated on page 18 of this bulletin plus additional credits in social science as outlined below.

#### **Degree Requirements**

Bachelor of Arts—65 credits in rehabilitation including Rhb 100, 201, 203, 210, 301, 305, 310, 400, 403, 405, 410; 15 credits in Psychology (Psy 100, 201, 315), Soc 101, and 5 credits of Social Science or Rehabilitation elective.

# Sociology

James P. Goodwin, SJ, M.A., Chairman

#### **Objectives**

Sociology has the dual capacity of satisfying the need of students for a humane and liberalizing discipline and of providing a sound basis for careers either in the science of sociology or in social research or in the social services. Courses are designed to provide a systematic inquiry into the complex structures of modern society and their many functions. They also investigate the interactions between persons, their groups and culture.

Students may choose sociology for various purposes: Some are interested in making a career of teaching sociology or doing sociological research; others study sociology in preparation for graduate study and a career in social work; still others seek in sociology a broader and deeper understanding of man and his works. With a view to these interests, different combinations of courses are recommended to students. In a separate brochure, combinations of courses are suggested for those interested in the sociology of family relations, in the sociology of deviant behavior, in urban sociology, and in methods of sociological research. Common to all of these are required courses intended to communicate to the student a knowledge of the conceptual tools of analysis and the methods of sociological research.

#### **Degree Offered**

Bachelor of Arts

#### **General Program Requirements**

Students in sociology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. In addition, 10 credits in a modern language and 15 credits in fine arts are required.

#### **Departmental Requirements**

Bachelor of Arts — 55 credits are required for a major in sociology of which 25 credits are in basic courses, including Sc 101, 200, 201, 380 and 381; and 30 credits are in the upper division courses of one of the following three programs:

- Preprofessional program for sociologists—30 credits. Sc 497 is required. Students in this program are not permitted to take Sc 300, 376 or 377.
- Preprofessional program for social workers— 30 credits. Sc 300, 376 and 377 are required. The remaining credits may be selected from any upper division sociology courses. Sc 260 and 262 are recommended.
- Liberal sociology major—30 credits. The student may take any upper division sociology course with the approval of his/her adviser.

Undergraduate Minor — 30 credits which will include Sc 101, 380 and 20 credits of upper division sociology courses.

#### **Sociology Courses**

Sc 101 Fundamentals of Sociology 5 credits
A description of the science of sociology; an analysis of interpersonal relations, of associations and social institutions, and of the way these affect one another and are affected by culture.

Sc 200 Perspectives in Social Psychology 5 credits
Consideration of theories and methods in contemporary explanations of the behavior of individuals in social contexts and social situations. Prerequisites:
Sc 101 and Psy 100 recommended. Exceptions with permission of Professor.

Sc 201 Social Statistics 5 credits

(Psy Review of basic statistical principles and processes in social science research.

Sc 256 Criminology 5 credits

A review of the theories of the causes of criminal behavior; sociological explanations of criminal interactions, criminal systems and their functions.

Sc 257 Juvenile Delinquency 5 credits

Analysis of the offenses of juveniles as distinct from those of adult offenders, and sociological explanations of these behaviors within contemporary conceptual models.

Sc 260 Sociology of the Family 5 credits

The structure and functions of the family as a social system; the use of sociological perspectives to interpret the position of the American family in an era of social change.

Sc 262 Child and Adult in Society

Sociological analysis of the process by which one is inducted into socio-cultural systems, and a review of the effectiveness of the process in American society. Prerequisite: Upper division standing or permission.

Sc 266 Interracial and Interethnic
Relations 5 credits
Analysis of the factors involved in intergroup relations. Prerequisite: Upper division standing or permission.

Sc 280 Urban Community 5 credits
Urban community structures and institutions;
historic city types; the process of urbanization; world
cities; aspects of American urban communities.
Prerequisite: Upper division standing or permission.

Sc 291 Special Topics in Sociology 1-5 credits
Sc 292 Special Topics in Sociology 1-5 credits
Sc 293 Special Topics in Sociology 1-5 credits

Sc 300 Introduction to Social Work 5 credits
(Cs 300) Historical development, structure and function of social welfare services and institutions with emphasis upon the philosophy and methods utilized by professional social work in meeting human needs.

Advanced Social Psychology

Analysis employing specific socio-psychological conceptual models; tests of propositions derived from these models; Prerequisite: Upper division standing or permission of instructor.

Sc 350 Close-Knit Groups 5 credits
Sociological models and methods for analyzing
small, interpersonal systems of interaction, their dynamics and structures, as well as their potentials for
change and growth.

Sc 351 Police and the Community 5 credits
(CJP Roles of police in the community; relationships with
with individuals, groups and community organizations. Analysis of ethnic, cultural and economic differences as factors in the administration of justice.

Sc 352 (CJP The criminal justice process from arrest through release; the relationships of the police, the prosecutor, the defense, the courts, the prisons and corrections, as each integrates into a system.

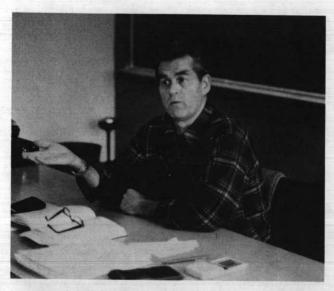

Sc 360 Complex Organizations 5 credits
Sociological analysis of large, complex social
organizations, the kinds of modern organizations
and the relationships among organizations and to
the larger social environment both historically and
currently.

Sc 362 Deviant Behavior 5 credits
(CJP An overview of what American society generally regards as deviant behavior. Emphasis is placed on the results of stigmatization and the acceptance of low self-esteem.

Sc 363

People in Space

Analysis of population trends, problems and policies. Explanations of relationships demonstrated to exist between demographic and sociological variables. Prerequisite: Upper division standing.

Sc 365 (CJP Examination of current trends and issues in probation and parole supervision, personnel qualifications, legal aspects, and research on results and prediction of outcome.

Sc 366 Corrections 5 credits
(CJP Analysis of post-arrest treatment methods applied to offenders, the correctional institution and community-based corrections. Prerequisite: Upper division standing or permission.

Sc 376 Factors of Interviewing 5 credits
(CS 376) The interview as one of the major methods of helping people; study of the knowledge and skills needed for proficient interviewing to provide a basis for future development. Prerequisite: Sc 300 or permission.

Sc 377 Supervised Field Experience 5 credits (CS 377) Direct observation and academic study in a selected community agency with stress placed upon the agency's clientele, its services and its function in the community. Prerequisite: Sc 300 and 376. Mandatory CR/NC.

Sc 380 Methods of Sociological Research I 5 credits

Sc 381 Methods of Sociological Research II 5 credits
I. Logical structure and procedures of data gathering
and analysis. II. Practicum: student research project.
Prerequisites: Sc 101 and 201 for 380; 380 for 381.

Sc 400 The Sacred and the Profane 5 credits
Investigation of the religious institutions in society in
terms of their structure, function and change. Prerequisite: Upper division standing or permission.

Sc 410 Power and Privilege 5 credits

Analysis of the ranking of persons and families in organizations and systems of social strata and its consequences.

Sc 412 (CJP Examination and study of contemporary policejuvenile operations. Theory and examination of the juvenile justice system. Relationship between the juvenile officer, crime prevention and community relations.

Sc 415 (CJP A survey of the victim-offender relationship; including the origin and scope of victimology, a victim and his society, the victim and the administration of justice, and the social reaction to victimization.

Sc 430 Society in Change 5 credits
Social change as embodied in social movements, reforms, revolutions and less deliberate types of social and cultural change.

Sc 457 Institute or Workshop 5 credits

Special topics of current relevance in the nation or local community treated from a sociological perspective as a community service. Prerequisite: Upper division standing.

Sc 480 Sociology of Work 5 credits
Study of the industrial enterprise as a social system and the social psychology of human relations in a work setting.

Sc 491 Special Topics in Sociology 1-5 credits
Sc 492 Special Topics in Sociology 1-5 credits
Sc 493 Special Topics in Sociology 1-5 credits

Sc 494 History of Sociological Thought 5 credits
Historical survey and evaluation of selected leading
thinkers who have contributed to the development of
sociology as an independent discipline. Prerequisite: Upper division standing or permission of instructor.

Sc 496 Independent Study 1-5 credits Sc 497 Independent Study 1-5 credits

Sc 497 Individual Research 3-5 credits

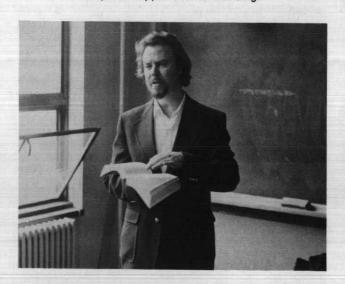

Design and execution of a research project supervised by a faculty member.

Sc 498 Directed Reading in Sociology I

Sc 499

1-5 credits

Directed Reading in
Sociology II
Sociological reading at an advanced undergraduate level in a tutorial relationship with one professor.
Prerequisite: Upper division standing.

# Speech

Alexander McDonald, S.J., M.A. (Oxon.), Program Director

#### **Objectives**

There is no major in Speech. Speech courses are under the direction of the English department, and are a valuable adjunct to other degree programs in the fields of the humanities and social sciences. Students interested in speech should include speech courses among their electives.

#### Program

Speech courses offer background and practice in the skills of oral delivery. Students are provided opportunities for creative composition and vocal interpretation in a disciplined fashion.

#### **Speech Courses**

Sph 100 Fundamentals in Speech 5 credits

Theory and practice of basic speech communication skills. Introduction to interpersonal communication, public communication and aesthetic communication.

Sph 200 Public Speaking 5 credits

Theory and practice in organizing and delivering a speech.

Sph 201 Interpersonal Speech Communication 5 credits

Theory and practice of skills in interpersonal situations. Emphasizes self-awareness, sensitivity to others, and a humanistic approach to communication.

Sph 202 Oral Interpretation 5 credits
Analysis and interpretation of literature. Practice in interpreting prose, poetry and drama.

Sph 204 Persuasion and Argumentation 5 credits
Principles involved in effective argumentation and
persuasion, practice in forms of debate.

Sph 291 Special Topics 1-5 credits
Sph 292 Special Topics 1-5 credits
Sph 293 Special Topics 1-5 credits
Prerequisite: Permission of instructor.

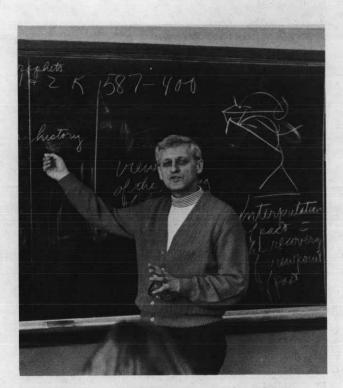

Sph 310 The American Speaker 5 credits
Study and criticism of American public speaking.
Practice in contemporary methods of public speak-

Sph 320 Speech for the Classroom

Teacher

Emphasis on the teacher as a communicator and

Emphasis on the teacher as a communicator and leader in learning communication skills. Discussion, story telling, oral interpretation and drama.

# **Theology and Religious Studies**

Richard H. Ahler, SJ, S.T.D., Chairman

#### **Objectives**

Theology and Religious Studies contributes to the fundamental task of the University as a whole: the fostering of students' human and personal growth through intellectual training, the formation of perceptive and critical minds. To this end the department supplies courses in theology and religious studies for the core curriculum that are designed to meet the needs and interests of individual students, whatever their field of study. It also offers a program of courses leading to a Bachelor of Arts degree in Theology and Religious Studies.

The department also offers post baccalaureate programs designed for priests, men and women religious and laity who are interested in broadening their understanding of and participation in the mission of the Church, to help them achieve a high level of competence in the Church's various evolving ministries.

#### **Degrees Offered**

Bachelor of Arts
Master of Religious Education (SUMORE)—See
Graduate Bulletin
Master of Pastoral Ministry—See Graduate Bulletin
Certificate in Pastoral Ministry (CORPUS)—See
Graduate Bulletin

#### **General Program Requirements**

Students in theology and religious studies must satisfy core curriculum requirements of the University as given on page 18 of this bulletin. In addition to the core curriculum, students in theology and religious studies must take an added five credits in social science and five credits in philosophy.

Bachelor of Arts-50 credits in theology and religious studies beyond the 10 credits required in the core. The student majoring in theology and religous studies is required to take the following courses: RS 200 and any two other Scripture courses; three courses from among the following: RS 320, 330, 335, 340, 344, 350, 420; the sequence RS 355, 357, 358; RS 460 and two other 400 numbered courses.

Undergraduate minor-30 credits in theology and religious studies which must include RS 200 and one other Scripture course; RS 320 and any other three 300 or 400 courses.

Theology Courses
RS 200 Judaeo-Christian Origins 5 credits Survey of key books of the Bible and/or themes of the Scriptural tradition and its development. For students with a minimal previous background in biblical studies.

RS 210 **Synoptic Gospels** Investigation of the Gospels of Matthew, Mark and Luke.

RS 215 **Johannine Theology** 5 credits Study of John's theological reflections on the Christevent, given witness in his gospel, epistles and the Apocalypse.

**Pauline Theology** RS 220 Study of Paul's theological development analyzed in his epistles.

RS 240 **Prophetic and Wisdom Literature** of the Old Testament 5 credits

Study of prophecy in the Ancient Near East and its role in the development of Judaism. Rise of wisdom literature in the Ancient Near East, its expression in Judaism and its role in the Judaic community.

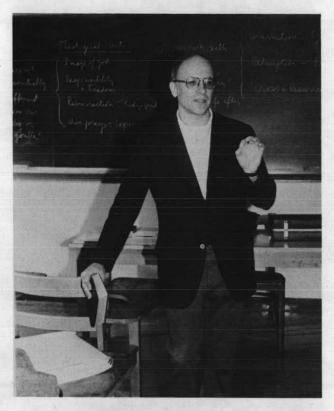

RS 289 **Comparative Religion** 5 credits Investigation and contrast of the major non-Christian religions: Buddhism, Hinduism, Confucianism, Shinto and Islam.

RS 290 **Religious Experience East and West** 

Anthropological, sociological and psychological perspectives on the phenomenon of religious experience in human history as these reveal the nature and meaning of this experience within human existence.

RS 291	Special Topics	2-5 credits
	Special Topics	2-5 credits
RS 293	Special Topics	2-5 credits

**Fundamental Themes in Theology** Speculative investigation into the reasonableness of revealed truths as accepted in Faith; the Incarnation, Redemption and their effects in human history.

RS 330 The Problem of God 5 credits
Reality of God for contemporary human beings;
atheism; man's sense of God's presence and His ab-

sence, experience of God in the Bible and the theological reflection on who the God-who-is-with-us is.

RS 335 Christ and Modern Man

Biblical foundation for the Christian affirmation of the human and divine in Jesus, and a further in-

the human and divine in Jesus, and a further investigation and analysis of the Christian community's deepening understanding of this mystery.

RS 340 Theology of Man 5 credits
Study of the pre-biblical and biblical notions of man;
the development of early Christian and scholastic
theology of man as redeemed and graced; contemporary man as related to this background.

RS 344 The Church as Community 5 credits

Central biblical themes bearing on the nature and structure of the Christian Community; understanding of that Community in its dynamic, historical process of growth; authority and freedom, tradition and change.

RS 347 Black Religious Experience 5 credits

Black religion utilizes themes of freedom, of proclamation, of power, of hope. Each is developed to show convergence with religion in general, yet particularity as divergence into Black Religion in particular.

RS 350 Perspectives of Christian Hope 5 credits

The future of humanity and the cosmos based upon the Christian's faith in the resurrection and glorification of Jesus Christ; a theology of hope that confronts modern secularism.

RS 355 Early Christian Theology 5 credits
Theological, historical and literary analysis of writings of some of the leading early and later Fathers of the Church, e.g., Justin, Irenaeus, Tertullian, Origen, Augustine. Prerequisite: RS 200.

RS 357 Scholastic Theology 5 credits
Seminar: the origin and main lines of scholastic theology, its spirit and aim formulated by St. Anselm,
Abelard, St. Bernard, Alexander of Hales, St. Albert,
St. Bonaventure, Duns Scotus, William of Occam, St.
Thomas Aquinas. Prerequisite: RS 355.

RS 358 Reformation Theology 5 credits
The theological dispute of the Reformation on justification by faith alone; controversies among Catholics, Lutherans, Calvinists and Jansenists; the Enlightenment and Vatican Council I. Prerequisite: RS 357.

RS 391	Special Topics	2-5 credits
RS 392	Special Topics	2-5 credits
RS 393	Special Topics	2-5 credits
RS 396	Independent Study	2-5 credits
RS 397	Independent Study	2-5 credits
RS 398	Independent Study	2-5 credits

RS 420 Christian Sacraments 5 credits

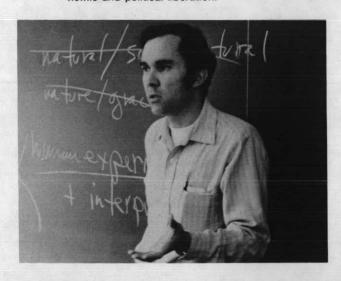

Dynamism of the sacraments of Christian life; the doctrinal, moral and liturgical aspects of the sacraments in the perspective of public worship and the Christian community.

RS 433 Theology of Human Sexuality
and of Marriage 5 credits

Meaning of the human love experience, its expression in human sexuality, the conditions within which this value is experienced; the relationship of human sexuality and marriage; marriage as the sign of the unity among men with God.

RS 450 Theology of Liberation 5 credits

Scripture passages describing Yahweh or Jesus as liberating us; Christ as the end of all creation; Christ viewed as the terminus of all cosmic and human evolutionary development. Liberation according to contemporary theologies of socio-economic and political liberation.

- RS 460 Trinity, Grace and Life in the Spirit 5 credits
  Study of God's life as Trinity and as shared with us
  (Grace); theological method and relation to spiritual theology. Prerequisite: RS 200.
- Principles of a Christian Morality
  Principles of a Christian ethic; contemporary approaches to decision making in matters of morality; problems encountered by the Christian conscience in today's world including issues of life and death.
- RS 476 Social Theology 5 credits

  Evaluation of the growing socialization of human life and a study of major social issues in the 20th Century in the light of contemporary Catholic and Protestant social statements.
- RS 477 Christian Response to
  Some Socio-Legal Problems 5 credits
  Traditional Christian reverence for life. Contemporary moral and legal problems such as eugenic engineering, artificial insemination, genetic surgery, compulsory sterilization, abortion and euthanasia.
- RS 478 Survey of Jewish History 5 credits
  Survey of Jewish history up to the contemporary
  period with special emphasis on the Second Commonwealth and Talmudic Period.
- RS 479 Survey of Jewish Theology 5 credits
  Study of monotheism versus paganism, sacrifice,
  reward and punishment, sabbath and holidays, dietary laws, morals and ethics, traced from the biblical
  period to the present.
- RS 481 Psalms and the Community
  of Israel 5 credits
  Analysis and dating of key Psalms according to
  literary types; influence of Israelite cultic life upon
  the composition of the psalms; Psalms as a reflection of the deepening religious life of the Old Testament.
- RS 485 Theological Horizons of
  Modern Literature 5 credits
  Study of selected literary works in terms of their theological implications and religious insights.
- RS 486 Catechesis: Vision and Tactics

  Background and development of rationales and methodologies in religious education related to Vatican II; implication of Council statements and application of pedagogical insights from related social sciences to the formation of a knowledgeable faith.
- RS 487 Modern Protestant Theology 5 credits
  Theological position, history and trends of the major
  Protestant denominations; principal leaders of
  modern Protestant thought and their tenets; Bultmann, Tillich, Niebuhr.
- RS 488 Methodology 5 credits
  Introduction to the history, methodology and sources of research in theology; conditions for theological development; continuing Christian response in its magisterial and credal functions.

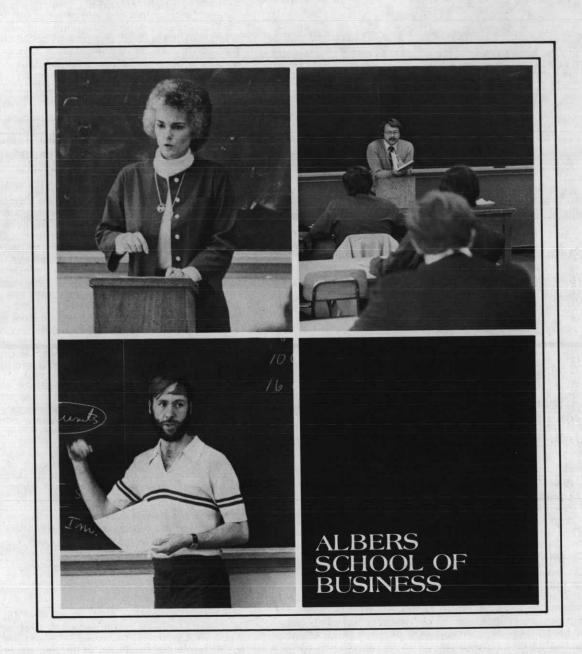

RS 490 Special Topics—Core 3-5 credits
Under this number, there will be courses that are not otherwise available in the core curriculum. Ordinarily the prerequisite will be RS 200 or approval of chairman.

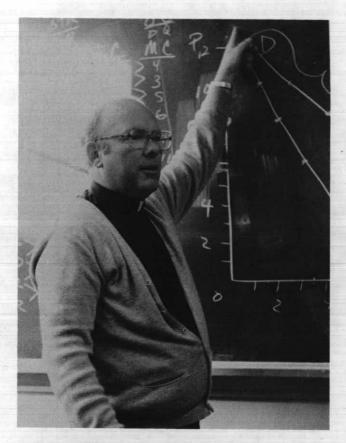

RS 491	Special Topics	2-5 credits
RS 492	Special Topics	2-5 credits
RS 493	Special Topics	2-5 credits
RS 496	Independent Study	2-5 credits
RS 497	Independent Study	2-5 credits
RS 498	Independent Study	2-5 credits

## **Religious Studies Center**

Religious Studies Center designates an agency established under the cooperative auspices of Seattle University and the Archdiocesan Office of Religious Education, committed to planning and providing programs in continuing religious formation for adults, professional and lay. Religious Studies Center courses are generally a continuing education service. Continuing Education Units may be earned for most of these courses and, although for some of them credit may be earned, such credit is not automatically applicable toward meeting degree requirements. Information on Religious Studies Center courses is available from the Archdiocesan Office of Religious Education.

## **Albers School of Business**

John D. Eshelman, Ph.D., Dean J.W. McLelland, M.A., Associate Dean

#### **Department Chairpersons**

Accounting and Legal Environment:
Gerald Cleveland, Ph.D., Chairperson
Administration: Harriet Stephenson, Ph.D., Chairperson
Economics: Hildegard Hendrickson, Ph.D., Chairperson

#### **Objectives**

Collegiate education for business should prepare students for business careers, not simply for job-finding. A broad, liberal education, comparable to university studies in other professional fields, will not replace practical business experience, but will provide a sound base for development of managerial talents.

The programs of the Albers School of Business implement the purpose of the University by providing professional guidance and instruction for developing those qualities which lead to competent leadership and service in the various fields of economic endeavor. The School seeks to prepare graduates capable of assuming responsible roles in the economic development of the Pacific Northwest, as well as national and international sectors, and in both private enterprise and government.

#### Accreditation of Bachelor of Arts in Business Administration

American Assembly of Collegiate Schools of Business.

#### Organization

The Albers School of Business has two principal divisions, undergraduate and graduate studies. Undergraduate majors are offered in five business fields: accounting, finance, general business, management and marketing. In addition, the School contains the Economics department which offers a bachelor's degree program and an undergraduate minor.

#### **Admission Requirements**

All entering Freshman and undergraduate transfer students who meet the University's regular admission standards may be admitted to the Albers School of Business for lower division courses and all courses in Economics.

#### Admission to Junior Status in the Business Majors

No student will be permitted to take Business courses numbered 300 or above prior to being admitted to Junior status in the Business major. (Students who are Juniors or Seniors in other majors may request permission to take 300 or 400 level business courses.) To be admitted to Junior status in the Business major, a student must have at least 90 quarter credit hours and a cumulative grade point average of no less than 2.25. The student must have completed Mt 118 and Mt 130, or their equivalents, and at least four of the seven other required lower division courses in Business, Mathematics and Economics (Bus 211, 230, 231, 270, Ec 271, 272, and Mt 213 or 214). The grade point average in the lower division required Business, Economics and Mathematics courses must be no less than 2.25.

Students with 90 or more quarter credit hours who do not meet these standards will be subject to dismissal from the School of Business. A Business student who has completed more than 120 quarter hours of degree requirements, and been dismissed, ordinarily will not be considered for readmission.

To be granted the BABA degree, a student must achieve a cumulative gpa of 2.25 in all required coursework in Business.

#### **Degrees Offered**

Bachelor of Arts in Business Administration Bachelor of Arts in Economics Master of Business Administration (evening classes only)—See Graduate Bulletin

#### Curriculum

The program of required study for the bachelor's degree in business has three principal components: the arts and sciences, the business core and an area of specialization. All students in the baccalaureate degree program fulfill requirements in English, mathematics, philosophy, a natural science, social sciences and theology and religious studies. The business core includes courses in accounting, administrative processes, economics, finance, information systems, legal environment, management, marketing and statistics. Specialization in one of the five major fields is required.

#### **General Program Requirements**

A minimum of 180 credits is required for bachelors' degrees in business or economics. See the degree requirements for specific course requirements.

#### **Degree Requirements**

Bachelor of Arts in Business Administration — Students seeking this degree complete a program with the following components:

- 1. Requirements in arts and sciences....75 credits
  - English 110 and one of the following English courses: 132, 133, 134, 220, 230, 240 or 383; Mathematics 118, 130 and 213. (Mt 214 may be substituted); Philosophy 110, 220 and a five-credit philosophy elective; social sciences, ten credits (Psychology 100 and Sociology 101 recommended); ten credits in theology and religious studies selected from two different areas; five credits in natural science; and ten credits chosen with the direction of an adviser.

- 4. Electives from any undergraduate offerings of the University......25 credits

Total . . . . 180 credits

### Accounting

#### **Objectives**

The work of the accountant is firmly established as an indispensable service in the world of business. Professionally trained accountants serve in many areas of private business and government, such as cost determination, financial accounting, financial planning and auditing. By passing state examinations the accountant may pursue a career as a certified public accountant.

Minimum requirements for the accounting major are: Bus 330, 332, 333 and 431. Students who wish to prepare for the certified public accountant examination are advised to complete Bus 336, 370, 433, 435 and 436.

#### **Finance**

#### **Objectives**

The finance curriculum is designed to afford an understanding of the financial functions in business and the management of assets for financial institutions and individuals.

Requirements for the finance major are: Bus 341, 343, 441 and Ec 372. Ec 471, 472 and 473 are strongly recommended.

### **General Business**

#### **Objectives**

The general business major provides the opportunity for a broad survey of business subjects. It is designed for students who intend to operate their own business enterprises, those who expect to attain greater specialization through on-the-job programs, or those who plan later to study in a specific area.

General business majors must complete at least 20 credits selected from: Bus 341, 343, 352, 370, 375, 381, 383; Ec 372, 374, 377, 471, 472, 473 and 476.

## Management

#### **Objectives**

The general area of management is concerned with the administration of private business or public enterprise. It includes relating the goals of an enterprise with the goals of those individuals and groups of individuals who make the enterprise a continuing process. The management major is designed for students seeking careers in administration, personnel or industrial relations in business or government.

Requirements for the management majors are: Bus 381, 383, 384 and at least 5 credits from Bus 481, 483 and Psy 461 and 462.

## Marketing

#### **Objectives**

Marketing is the study of the flow of goods and services to ultimate consumers and users. Career opportunities in marketing are found in manufacturing, wholesaling and retailing, marketing research and in the promotional areas of advertising and personal selling.

The requirements for the marketing major are: Bus 352, 353, 451 and 452. Ec 374, 472 and 473 are strongly recommended.

#### **Business Courses**

**Bus 170 Economic and Social Environment** Survey of the significance and effect of economic and social environment on business sector; role and responsibilities of business in society; career opportunities; inter-relationships of major functional areas.

**Bus 211 Business Statistics** 5 credits Business application of basic statistics, probability concepts, probability distributions, expectation, sampling, estimation, hypothesis testing, index numbers, time series analysis and introduction to simple linear models. Prerequisite: Mt 130 and Sophomore standing. (fall, winter, spring).

Bus 230 Principles of Accounting I (Financial) 5 credits Introduction to financial accounting concepts with emphasis on the development of the student's ability to understand and interpret financial statements of business entities. Prerequisite: Sophomore standing. (fall, winter, spring).

Bus 231 Principles of Accounting II (Managerial) 5 credits Introduction to the use of accounting information for decision making in planning and controlling the operation of business organizations. Prerequisite: Bus 230 and Sophomore standing. (fall, winter, spring).

**Bus 270 Law & Business** 5 credits Nature and development of law; structure and functions of the courts; civil and criminal procedure; role of attorneys and an introduction to the law of contracts. Prerequisite: Sophomore standing.

related to data processing systems. Planning and

**Bus 310 Computer-Based Management** Information Systems

> design of information flows and business systems. Analysis of selection criteria and implementation methodology. Review of data base systems and data processing management and control. Prerequisite:

> Examination of background management elements

5 credits

Mt 213 or 214 and Junior standing.

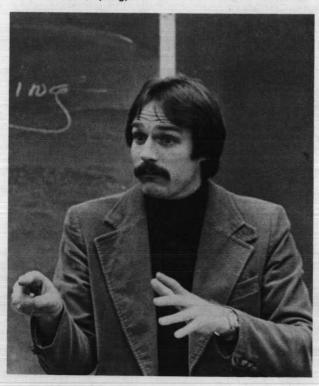

**Bus 330 Cost Accounting** Determination of manufacturing costs in job order, process and standard cost systems; introduction to methods of cost control. Prerequisite: Bus 231 and Junior standing.

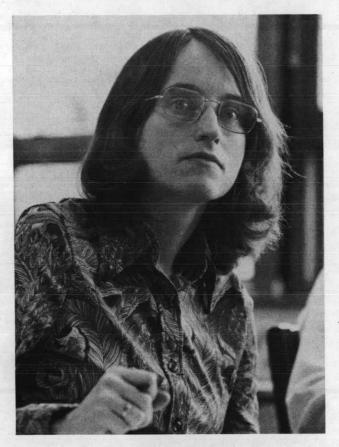

Bus 332 Intermediate Accounting I 5 credits Theory and development of accounting principles; evolution of theory as relates to the current state of accounting for the assets of the entity and the measurement and reporting of periodic income. Prerequisite: Bus 231. (fall, spring)

**Bus 333 Intermediate Accounting II** Theory and development of accounting principles; evolution of theory as relates to the current state of accounting for liabilities and owners' equities. Prerequisite: Bus 332. (winter, summer)

Bus 336 Federal Income Tax I 5 credits Tax returns of individuals; gross income and deductions; use of a tax service and research in tax problems. Prerequisite: Bus 332.

**Bus 340 Business Finance** 5 credits Study of the financial policies and practices of business firms; planning, control and acquisition of short-term and long-term funds; management of assets; evaluation of alternative uses of funds; capital structure of the firm; cost of capital; financing growth and expansion of business firms. Prerequisites: Ec 271, Bus 231 and Junior standing. (fall, winter, spring)

Bus 341 Investment and Security Analysis 5 credits
Principles, policies and practices of investing.
Analysis of public and private industries and securities, individual and institutional viewpoints.
Prerequisite: Bus 340.

Bus 343 Financial Institutions and Markets 5 credits
Nature and function of bank and non-bank financial
institutions and markets and their relationships and
interdependence. Prerequisites: Ec 271, Bus 231.

Bus 350 Introduction to Marketing 5 credits
Survey of institutions and essential functions in the marketing system. Analysis of the marketing mix; product, place, promotion and price strategies. Prerequisites: Junior standing, permission. (fall, winter, spring)

Bus 352 Marketing Communication 5 credits

Business firms' methods of communications to their
markets and publics. Analysis of the promotional
mix; personal selling, advertising, sales promotion
and publicity. Promotion strategies. Prerequisite:
Bus 350.

Bus 353 Price Practices and Policies 5 credits

Methods of price determination and administration
of price policies by manufacturers, wholesalers and
retailers. Legal aspects of pricing under anti-trust
laws. Prerequisites: Bus 211, 350.

Bus 370 Advanced Law and Business 5 credits

Commercial law, including contracts, business structures and property relationships; legal aspects of government and business, including credit and environmental legislation. Prerequisite: Bus 270 and Junior standing.

Bus 375 Economics of Profit Sharing 5 credits
Survey of the philosophy, economics and law in the field of profit sharing; analysis of industry profit sharing plans. Prerequisites: Bus 231, Ec 271.

Bus 380 Organization Behavior 5 credits

Develops understanding of organizational behavior,
with focus on basic processes, methods involved in
diagnosing human situations. Experiential exercises
and analysis of concepts. Prerequisite: junior
standing.

Bus 381 Organization Structure

Administrative setting, roles of supervisory personnel as determinates of the scope and techniques of management. Interpersonal relations, communication, leadership, organization structure, individual behavior and motivation. Prerequisite:

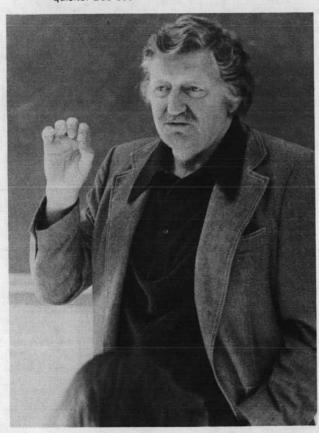

Bus 380.

Bus 383 Personnel I
Inducting personnel into the organizational structure; maintenance of the personnel system: compensating, employee-labor relations, discipline, personnel research, the personnel system and organizational culture. Prerequisite: Bus 380.

Bus 384 Personnel II

Utilization of human resources: evaluating performance, recruitment and selection, training and placement, perspectives on current affirmative action and equal opportunity legislation. Prerequisite: Bus 380.

Bus 431 Advanced Accounting I 5 credits
Special accounting problems associated with partnerships and business combinations. Particular emphasis on consolidated financial statements and price-level adjusted financial statements. Prerequisite: Bus 333.

Bus 433 Seminar in Accounting Theory 5 credits
Critical examination of accounting theories; concepts, postulates and principles related to income measurement, assets, liabilities and equities. Prerequisite: Bus 333.

Bus 435 Auditing

Purpose, scope, concepts and methods used in examining and attesting to financial statements. Current issues concerning professionalism, and role of the public accountant. Prerequisite: Bus 333.

Bus 436 Federal Income Tax II 3 credits

Tax returns of partnerships and corporations;
problems related to installment sales, cash basis and accrual basis. Prerequisite: Bus 336.

Bus 441 Case Problems in Finance 5 credits

Variables relevant to financial problems; skill,
techniques and judgment necessary to make financial decisions. Prerequisite: Bus 340.

Bus 451 Marketing Research 5 credits
Purpose, methods and techniques of marketing
research. Prerequisites: Bus 211, and 350.

Bus 452 Marketing Management 5 credits

Case studies of corporate problems, decision-making. Student participation in various roles of marketing. Organization planning, execution and control of marketing programs. Prerequisites: Bus 231 and 350. Seniors only.

Bus 480 Production and Operations Management 5 credits
Survey of the system analysis, design and operating
techniques for manufacturing and service organizations, including topics in facility location, linear programming, inventory control, work measurement,
forecasting techniques, scheduling and quality control. Prerequisite: Bus 211, Mt 213 or 214 and
Senior standing.

Bus 481 Small Business Management 5 credits
Procedures and problems in starting and operating
a successful small business enterprise. Prerequisite: Senior standing.

Bus 482 Business Policy and Organization 5 credits

Case studies of policy and administration of business; intellectual discipline which permits understanding a problem, planning a program of action, progression to execution and constant review; original work in analysis and policy decisions. Prerequisite: Senior standing. (fall, winter, spring)

Bus 483 Management Seminar 5 credits

Development of a specific area of management.

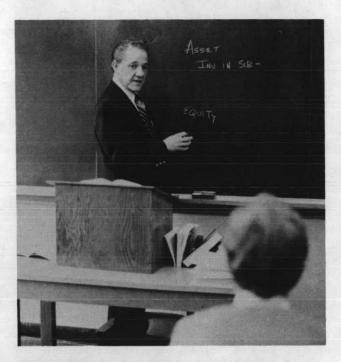

Various approaches to study of organizations,
conceptual and analytical models, research
methodologies, trends in management. Prerequisite: Bus 381, 383, 480, senior standing.

Bus 491 Special Topics

2-5 credits

Bus 496 Independent Study
Independent Study
Independent Study
Independent Study
Supervised individual research. Open to senior business majors with the approval of the student's adviser.

#### **Economics**

#### **Objectives**

The courses in economics are designed to acquaint the student with the economy in which he/she lives and to provide for the application of these courses to all other social sciences. The tools of analysis necessary to solve such problems as income distribution, domestic and international finance, economic fluctuations and business organizations are acquired and opportunity is given to apply the various methods of solution. Students who prove especially able in economics courses are encouraged to pursue graduate work in preparation for professional status as economists in government, industry or the academic world.

#### **Degree Offered**

Bachelor of Arts in Economics

#### **General Program Requirements**

Students in economics must satisfy the core curriculum of the University on page 18 of this bulletin. In fulfilling the core, Pls 160, Mt 118 and 130 are required. To be granted the Bachelor of Arts in Economics degree a student must achieve a cumulative gpa of not less than 2.00 in all required course work in economics.

#### **Departmental Requirements**

Bachelor of Arts — 55 credits of economics which must include Ec 271, 272, 372, 374 and seven additional economics courses not including Ec 100 (Bus 343 may be substituted for one); Bus 211 and 230.

Undergraduate Minor — 30 credits of economics which must include: Ec 271, 272, 372, 374 and any two courses in economics selected with the assistance of an adviser.

#### **Bachelor of Arts in Economics**

#### **Economics Courses**

Ec 100 Nature of Economic Society 5 credits

Evolution of economic institutions, with emphasis on market capitalism, its critics and problems, past and present. Changing roles and responsibilities of government and the private sector.

Total . . . . 180 credits

Ec 271 Principles of Economics - Macro 5 credits
Organization, operation and control of the American
economy in its historical and socio-political settings;
problems of inflation, unemployment, taxation, the
public debt, money and banking, growth. Prerequisite: Sophomore standing.

Ec 272 Principles of Economics - Micro 5 credits
Operation of the American economy with emphasis
on prices, wages, production and distribution of income and wealth; problems of the world economy.
Prerequisite: Sophomore standing.

Ec 273 American Economic History 5 credits
Economic growth of the United States in the light of
the political and social trends of the times. Stresses
the historical background of contemporary problems. Prerequisite: Sophomore standing.

Ec 275 Economics of Poverty 5 credits

Poverty in the United States with emphasis on urban poverty. Roles of technology, region, race, sex and education on poverty. Success of programs, public and private, in the areas of housing, welfare and occupational training. Legislation related to poverty. Prerequisite: Sophomore standing.

Ec 291 Special Topics 1-5 credits
Ec 292 Special Topics 1-5 credits
Ec 293 Special Topics 1-5 credits

Ec 371 History of Economic Thought 5 credits
Major historical developments in economic thought,
ancient to contemporary, Christian influence, merchantilism, laissez faire; German and Austrian
schools, Marx and socialists; Keynes and neo-Keynesian analysis.

Ec 372 National Income Analysis 5 credits

Determination of levels of national income, employment and prices. Problems of unemployment and inflation. Policies for stabilization and growth. Prerequisite: Ec 271.

Ec 374 Intermediate Price Theory 5 credits

Demand, supply, costs and market prices under competitive and imperfectly competitive market conditions. Relationships between price and costs; income and its functional distributions in a capitalistic society. Prerequisite: Ec 272.

Ec 377 Government and Business 5 credits

Development in the United States of public policy.

Government regulation of industry and commerce
and application to mergers, business concentration
and restrictive business practices, regulation of public utilities. Prerequisite: Ec 272.

Ec 378 Urban Economics 5 credits

The causes and consequences of the interdependencies of firms, individuals, households and governmental units within the constrained space of urban areas. Problems of land, housing, transportation, labor and public services.

Ec 471 Government Finance 5 credits

Revenues, expenditures and debts of federal, state
and local governments; economic theories; constitutional limitations; government finance as means
for social reform; shifting and incidence of taxes.

Prerequisites: Ec 271, 272.

International Trade
and Development

Pattern, organization and promotion of U.S. and world trade. Trade theories. Exchange rates. Foreign prices and payments. Protection and free trade.
G.A.T.T. European Community. Multinationals in foreign trade. Prerequisite: Ec 271.

For 473 International Finance and Investment 5 credits
Foreign Exchange Market. Balance of Payments.
Gold standard and developments. Bretton Woods
system, the I.M.F. and current problems. Oil prices
and inflation. Post-war international investment.
Eurodollars. Prerequisite: Ec 271.

Ec 476 Labor Economics 5 credits
Survey of the economics of industrial relations;
effects of industrial changes on labor; hours and
wages; employment and unemployment; trade unionism and labor legislation. Prerequisite: Ec 272.

Ec 477 Economic Development 5 credits

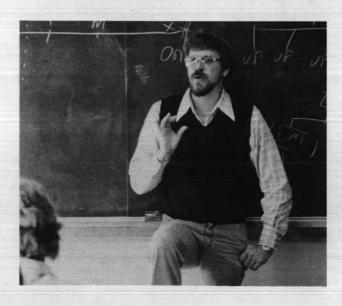

Developing nations and agriculture, industry, population, education, technology, exports, imports, capital and savings, unemployment. Commodity agreements. Special preferences. Foreign aid. U.N.C.T.A.D. Prospects and limits. Prerequisite: Ec 271.

Ec 478 Comparative Economic Systems 5 credits
Economic systems in theory and practice. Classical,
Marxian, Neoclassical, Keynesian, post-Keynesian
theories. Soviet agricultural and industrial organization and operation. Market socialism. Future
trends. Prerequisites: Ec 271 and 272.

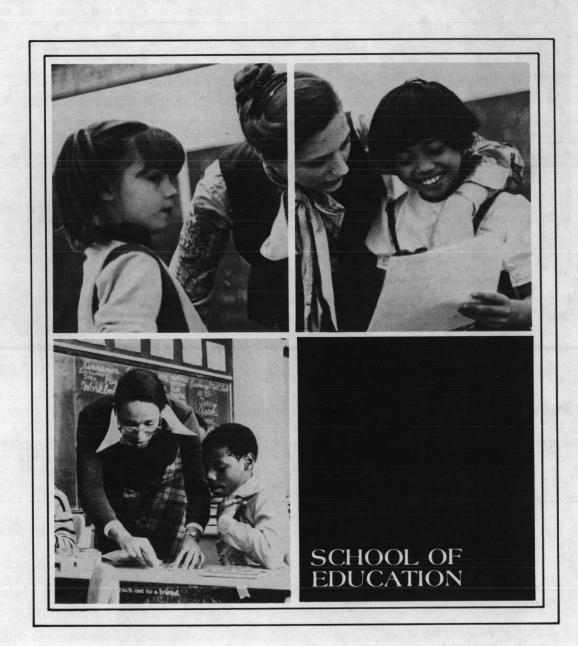

Ec 479 Senior Research 5 credits

An advanced course providing the opportunity for students to pursue topics in breadth and depth and apply the tools of economic analysis to current issues in national and international economic policy. Prerequisite: Permission.

Ec 491 **Special Topics** 2-5 credits Ec 496 **Independent Study** 1-5 credits Ec 497 Independent Study 1-5 credits Ec 498 **Independent Study** 1-5 credits Ec 499 **Independent Study** 2-5 credits Supervised individual research. Open to senior economics majors with approval of adviser.

Ec 472

### School of Education

Frederick John Gies, Ed.D., Dean Gary H. Zarter, Ph.D., Associate Dean

#### **Department Chairpersons**

Counselor Preparation:
R. Michael O'Connor, Ph.D., Chairperson

Curriculum and Instruction: Margaret M. Haggerty, Ph.D., Chairperson

Doctoral Studies in Educational Leadership: John A. Morford, Ed.D., Chairperson

Educational Administration and Special Programs:

Robert E. Lowery, Ed.D., Chairperson

Physical Education and Recreation: Joseph T. Page, Ph.D., Chairperson

Teacher Education: Gary H. Zarter, Ph.D., Acting Chairperson

#### **Objectives**

Within the framework of the University's philosophy and principles, the School of Education has as its objectives the attainment of a liberal and humane education, the

formation of men and women dedicated to the art of teaching and knowledgeable of its sciences, and a sound preparation in fields or areas of learning applicable to the curriculum of the elementary and secondary school and adult education.

The School offers programs leading to the Washington teaching certificate, continuing teaching certificate, initial principal's credential, continuing principal's credential and school counselor's certificates. Also available are programs to train Montessori school teachers or teachers of the mentally retarded.

Through reciprocal agreements School of Education graduates also qualify for certification in many other states.

#### Accreditation

The School is accredited by the Northwest Association of Higher Education and the National Council for Accreditation of Teacher Education and approved by the Washington State Board of Education.

#### Organization

The School of Education is organized into six departments: Teacher Education, Curriculum and Instruction, Physical Education and Recreation, Counselor Preparation, Educational Administration and Special Programs, and Doctoral Studies in Educational Leadership. Close cooperation exists among all departments, schools and colleges of the University in working out a program of preparation for the individual student.

#### **Degrees Offered**

Bachelor of Arts in Education
Bachelor of Education
Master of Arts in Education — See Graduate Bulletin
Master of Education—See Graduate Bulletin
Master of Counseling—See Graduate Bulletin
Doctor of Education—See Graduate Bulletin

## **Undergraduate Programs**

#### **Admission Requirements**

All entering freshmen and undergraduate transfer students from accredited institutions of higher learning who aspire to become teachers may be admitted to the School of Education for lower division courses if they meet the University's regular admission standards.

## Criteria and Procedure for Admission into Upper-Division Candidacy in the Teacher Training Programs

Requirements for entrance into upper-division candidacy in the teacher training program are higher than those for graduation. Therefore, students must make application for and be accepted into the program prior to registration in Ed 325 and 326, or 434, 435, 437 or 442.

For undergraduates, this application will usually be made during the quarter in which Ed 322 is taken, usually in the sophomore year. Transfer students must complete one quarter at Seattle University before unconditional entrance into upper-division candidacy. Students entering initially as post-bachelor students are evaluated at the time of admission and need not make a separate application for entrance into upper-division candidacy. An interview with a School of Education adviser is required of all applicants, and a plan for completion of upper-division work must be approved by the adviser and submitted with the application.

Applicants for teacher training are evaluated by the School of Education on the following basis: 1) recommendation of the teaching major department, or adviser in the case of elementary or "undecided" students; 2) academic record; 3) physical qualifications; 4) emotional health; and 5) evidence of interest in teaching as a career.

The School will place each applicant into one of four categories:

- Accepted may begin upper-division work toward teaching certificate. Criteria are: Unconditional recommendation from major department or adviser; Cumulative grade point average of 2.5, and for secondary candidates a 2.5 grade point average in the major or teaching field; physical ability and appearance necessary for teaching; good moral character and evidence of interest in teaching as a career.
- Accepted conditionally may begin work toward teaching certification provided the conditions set forth are met. Conditions most commonly, but not always, relate to the achievement or maintenance of certain grades or grade point averages. The faculty and Dean retain the right to refuse to accept conditional students in teaching fields in which an extreme surplus of teachers exists.

Criteria are: (Any one is sufficient reason for conditional acceptance.)

Conditional recommendation from major department or adviser; grade point averages below 2.5 but above 2.0 in both cases; a physical defect that makes a teaching career questionable, but not impossible; symptoms of emotional problems or immaturity which make a career in teaching questionable but are currently of a minor nature; evidence of insufficient interest in a career in teaching.

 Deferred without prejudice — may not begin or continue upper division professional work toward teaching certification but may apply at a later date if certain conditions set forth in the deferral are met.

Criteria are: (Any one is sufficient cause for deferral.)

A recommendation that this be done from the major department or adviser; a grade point average below 2.0 overall or in teaching major; a physical defect which currently would make a teaching career impossible but which is correctable; evidence of an emotional problem or immaturity which may be overcome by time.

 Rejected — may not begin or continue work toward teaching certification. Ordinarily, rejected applicants will not be reconsidered at a later date.

Criteria are: (Any one is sufficient cause for rejection.)

A recommendation that this be done from the major department or adviser; physical defect making a career in teaching impossible; evidence of lack of the moral character needed for teaching; evidence of emotional and/or mental immaturity or disorder of a type which is not likely to be changed by time and which makes the applicant unsuited for teaching.

Applicants may appeal the classification by the Chairperson of Teacher Education to the Dean. Appeals must be made in writing within one week of notification of classification.

The status of any student is reviewed automatically if the student receives a grade of D or lower in a professional course, drops below the required grade point average or the adviser so recommends.

#### **Admission to Student Teaching**

Acceptance into upper-division candidacy in the teacher training program and completion of prerequisite courses does not guarantee admittance into student teaching. An application must be submitted to the Chairperson of the Department of Teacher Education by the end of the fifth week of the quarter prior to the one in which the student wishes to fulfill the student teaching requirement. Specific dates during which forms may be obtained and submitted are announced each quarter.

Categories and criteria for acceptance are the same as those listed above except, recommendation from the faculty in the School of Education is also considered, and the student must have a grade point average of 2.5 in three areas: cumulative, in the teaching field (secondary), and in professional education courses.

#### Curriculum

The teacher preparation curriculum at Seattle University encompasses three components:

The liberal core of arts and sciences offered at Seattle University comprises about 35 per cent of the prospective teacher's curriculum. Forty per cent of the program is utilized in gaining a depth of knowledge in a teaching major for the secondary school teacher or two teaching areas for the elementary school teacher. The remaining 25 per cent of the 190 quarter hour basic teaching preparation is received in professional courses in foundations of education, psychology of child and adolescent development and learning, the principles, materials and technology of teaching, and closely supervised and assisted student teaching and appropriate laboratory experience in schools throughout the area. At least one course having primary emphasis on multi-cultural or ethnic heritage must be included.

#### **General Program Requirements**

#### Bachelor of Arts in Education Secondary

Bachelor of Arts in Education (middle school, junior high school, or senior high school teaching) — 1) All University core requirements as found on page 18: 60 credits, 2) A teaching major or of at least 45 credits in any subject commonly taught in secondary schools. (See departmental sections of the bulletin for exact requirements in each teaching major. Where no requirements are shown in a departmental section, an individualized program must be developed jointly). 3) Professional education courses: 45 credits. 4) Electives: 40 credits. Students are advised to use electives to complete additional teaching fields.

For recommendation to Comprehensive Social Studies the following are required: 1) a major in one of the social studies fields, 2) at least 25 hours in history, including American, Western, and non-Western, and 3) a minimum total of 70 quarter credits in the social studies, including courses in at least three social studies areas in addition to history.

For recommendation in Business Education the following must be completed: 1) Bus 230, 231, 270, 340, and 380; 2) Econ. 271 and 272; 3) Ed 430, Teaching Secondary Subjects: Business: 4) proficiency must be demonstrated in **two** of these skills—typing, shorthand, office machines.

Ten of the 190 credits required for the degree and initial certification also count toward the continuing certificate teachers must earn once they begin teaching.

#### **Typical Program**

Freshman year English core options	credits credits credits

Total 19	credits

### Bachelor of Education Elementary

Bachelor of Education (elementary, middle school, junior high school or Montessori school teaching —

1) All University core requirements: 60 credits. The B.Ed. requires certain specific core courses as shown in the program outline. See page 18 for remaining core requirements. 2) Common courses: 25 credits. Includes work in art, music, geography, literature, speech and physical education needed by all elementary and middle school teachers. 3) A teaching major of at least 25 credits and a teaching minor of at least 20 credits in subjects or areas commonly taught in elementary or junior high schools. Junior high candidates must take the 25 hour teaching major in a specific subject taught at the junior high level.
4) Professional education courses: 50 credits. 5) Electives: 10 credits. These vary slightly for students seeking either special education or Montessori training.

Ten of the 190 credits required for the degree and initial certification also count toward the continuing certificate teachers must earn once they begin teaching.

Students interested in Montessori teaching should confer with the Montessori Program Coordinator early in their studies.

## Special Non-Degree Programs

A number of programs may be taken in addition to or separately from degree requirements:

For bachelor's degree holders without teacher training: (at least 30 hours must be completed at Seattle University in these programs to receive our recommendation.)

- a) Elementary teaching initial certification,
   b) Secondary teaching initial certification,
- c) Montessori teaching certification.

For bachelor's or master's degree holders with teacher certification or its equivalent:

- a) Continuing certification (fifth-year); may be either a non-degree program or combined with a master's degree.
- b) Initial principal's credential.
- c) Continuing principal's credential.
- d) School counselor's certification.

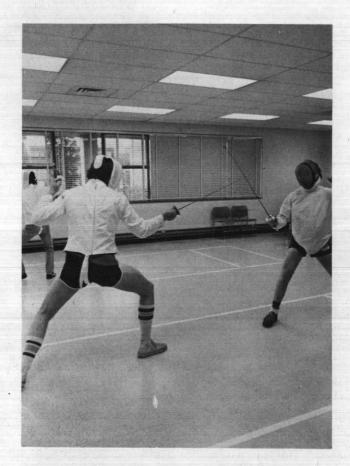

See Graduate Bulletin for further details.

#### **Education Courses**

- **Developmental Reading/Writing** 3-5 credits Designed to help students apply the structure of the English language to reading and writing and overcome weaknesses in basic skills. Mandatory CR/NC. (fall, winter, spring).
- Ed 102 College Study Skills 1-5 credits Course to develop skills in note-taking, test taking, outlining, effective textbook reading and time management. Mandatory CR/NC.
- Ed 103 **Essay Development/Reading** and Writing 2-3 credits Emphasis on reading comprehension and writing scholarly papers. Mandatory CR/NC.

- **Developmental Mathematics** Ed 104 1-6 credits An individualized program for the student needing to develop a mathematics background in preparation for Math. 100. Mandatory CR/NC. (fall and winter).
- Ed 291 **Special Topics** 1-5 credits Ed 292 **Special Topics** 1-5 credits Ed 293 **Special Topics** 1-5 credits
- Ed 322 Psychology of Development 5 credits Developmental changes in the normal human being with emphasis on application to the school age years. Includes observations in the field. (fall, winter, spring)
- Ed 324 Foundations of American Education Foundation study of the philosophy, sociology and history of public, private and Catholic education in the United States; field experience to support classroom theory and laboratory work. Prerequisite: Ed 322; corequisite: Ed 325 and 326. (fall, winter).
- Ed 325 Psychology of Learning Study of learning in classroom; theories of learning; organization and retention of knowledge; evaluation of mental processes; factors in the economy of learning. Includes field experience. Prerequisite: Ed 322; corequisite: Ed 324 and 326. (fall, winter)
- Ed 326 Measurement and Evaluation in the Classroom 3 credits Concentrated practice in the planning and construction of classroom tests based on instructional objectives, and an overview of standardized tests commonly used in schools.
- **Montessori Orientation** Ed 328 5 credits Basic philosophy, principles and procedures of environmental learning within a "prepared environment." Perceptual-motor education as utilized by everyday living and learning experiences of the young child. (fall)
- Ed 329 Sensorial Education 5 credits Experience with the education of the senses in isolation. Also a study of the acquisition of practical skills within the child through his absorptive and imitative tendencies which lead gradually to abstraction. (fall)
- Ed 330 General Methods, Media and Materials 5 credits Application of principles of learning and development to preparing, organizing and presenting learning units. Field experience. Prerequisites: Ed 324, 325; corequisites: Ed 340 and 336 or 337. (winter, spring)
- Ed 335 Early Childhood — Kindergarten 3 credits Principles, organization and methods of teaching. (summer)
- Ed 336 Fundamentals of Reading Instruction -Elementary 5 credits Nature of the reading process, sequence of skills K-6, recommended practices, materials, methods of diagnosis and evaluation. Includes field experience. Prerequisites: Ed 322, 325; corequisite: Ed 330. (fall, winter, spring)

## Physical Education and Recreation

Joseph T. Page, Ph.D., Chairman

#### **Objectives**

The Physical Education and Recreation department has as its prime objectives the physical and neuromuscular skill development and the recreational welfare of all students. The department fulfills two major functions at Seattle University. These are:

> To prepare young men and women to assume professional careers in the field of physical education.

> To provide a broad range of instructional and recreational activities designed to meet the physical needs of college men and women.

#### **Degrees Offered**

Bachelor of Arts in Education Master of Education - See Graduate Bulletin Master of Arts in Education — See Graduate Bulletin

#### **General Degree Requirements**

Students in the fields of physical education and recreation must satisfy University core curriculum requirements as given on page 18 of this bulletin and those of the School of Education.

All students planning to receive a teaching certificate must be accepted by the School of Education but such acceptance does not imply that the student will be permitted to pursue this teaching field. Students may indicate their interest in this area at the time of application for admission to the School of Education. During the succeeding months their aptitude and promise for the field of physical education will be evaluated.

Counseling, designed to assist the student to develop in ways requisite for successful teaching and leadership in the field, will be offered. Candidates must demonstrate superior physical skills, intellectual competency, and desirable personality and character traits before they will be accepted.

Candidates for teaching certificates will complete the required courses in teacher education. Upon graduation, certified teachers will have, in addition to the general and professional education requirements, a total major area of 55 credits or for the minor, 25 credits in physical education course areas.

#### Departmental Requirements

Bachelor of Arts in Education (Physical Education and Recreation) - 55 credits in physical education and recreation courses which must include: PE 200, 210, 220, 230, 350, 460; 15 credits in selected major activities and 12 credits of approved area electives.

Undergraduate Teaching Minor (Physical Education and Recreation) — 25 credits which must include PE 220, 230, 350, 460 and 7 credits in approved

Minor in Athletic Coaching — 27 credits which must include PE 210, PE 220, PE 320, 5 credits of approved Major Activities and 8 credits selected from coaching theory classes which must include PE 408 or PE 409. This sequence is recommended for teachers of any subject matter with an interest in assuming coaching responsibilities in elementary or secondary schools.

Master's Degree in Educational Administration - Emphasis in the administration of physical education and recreational organizations. - See Graduate

Bulletin.

education; evaluation of student achievement in terms of objectives. Includes statistical analysis of data. (winter) PE 350 Principles and Practices in

**Physical Education** 5 credits Concentrated analysis and study of the foundational principles of physical education. Application of these principles to problems in curriculum, methodology, administration and evaluation. (fall)

PE 352 Orientation to Physical Education and Recreation — Elementary 3 credits Curriculum purposes, procedures and techniques, includes legal liability, evaluation. Required of all elementary education majors. (fall, winter, spring, summer)

Orientation to Physical Education and Recreation — Secondary Objectives, content services and relationship to the total school program. Required of secondary education majors. (fall, winter, spring)

PE 380 **Camp Counseling and Administration** 5 credits The educational significance and social impact of camping, organization and practical application of activities, and problems of administration and leadership.

PE 385 Philosophy of Recreation Social impact of recreation: city-county, institution, industry, agency; special groups—handicapped, geriatrics; issues.

PE 388 **Modern Dance** 2 credits An activity course open to all students. (winter)

PE 408 Officiating of Women's Sports 3 credits Philosophy and techniques applicable to girls' and women's sports in schools and colleges. (fall)

PE 409 **Psychology of Coaching** 5 credits Principles and practices applicable to the coaching of sports on any level of learning. Empirical theories resulting from observations of coaches in the handling of youth who are qualifying for school teams. (fall, summer)

PE 410 Perceptual Motor Development 3 credits Principles of perceptual motor development and their application in the education of the exceptional child. (spring)

**Elementary Physical Education** Workshop 5 credits Improving the classroom teacher's background in

physical education through basic movement skills and rhythmic activities. (summer)

PE 460 Organization and Administration of Physical Education

Summary professional course in physical education; includes service, intramural and inter-scholastic programs; stresses curriculum, scheduling, facilities. Prerequisites: Upper division standing and departmental approval. (fall)

5 credits

Organization and Administration of PE 465 **Recreation Programs** 5 credits Organization and administration of recreation programs to include the practical aspects of: staffing, budgeting, funding, activities and public relations.

Coaching Courses: Concentrated study of the philosophy, practice, organization, theory and techniques of coaching interscholastic athletics.

PE 470	Football Coaching	2 credits
PE 471	Basketball Coaching	2 credits
PE 472	Baseball Coaching	2 credits
PE 473	Track and Field Coaching	2 credits
	Gymnastics Coaching	2 credits
PE 475	Wrestling Coaching	2 credits
PE 476	Swimming Coaching	2 credits

PE 480 Current Issues in Physical Education Trends and factors influencing physical education and other movement-oriented programs; implications for meeting student and community needs in implementing relevant programs in schools and colleges.

PE 482 Historical Foundations of **Physical Education** 

3 credits

Traces the historical development of physical education and athletics from the early societies to modern culture. Emphasis on current applications.

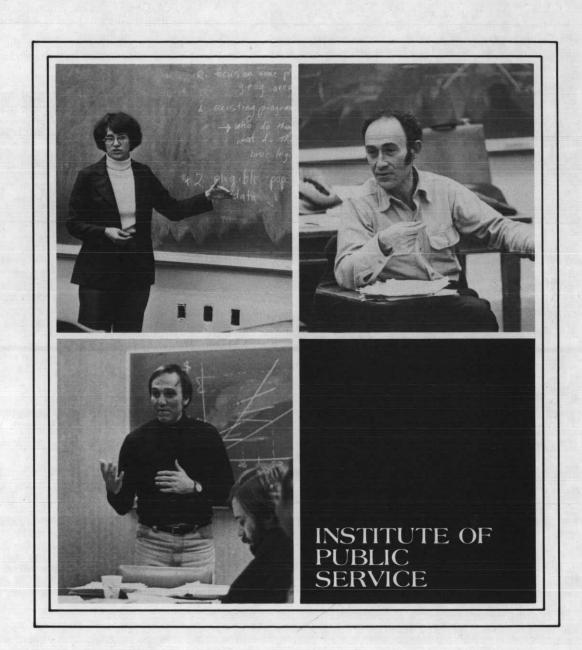

PE 484 The Drug Scene 3 credits A survey of the misuse and abuse of licit and illicit drugs. Scientific information for concerned school personnel presented by professional people working with drug problems and users.

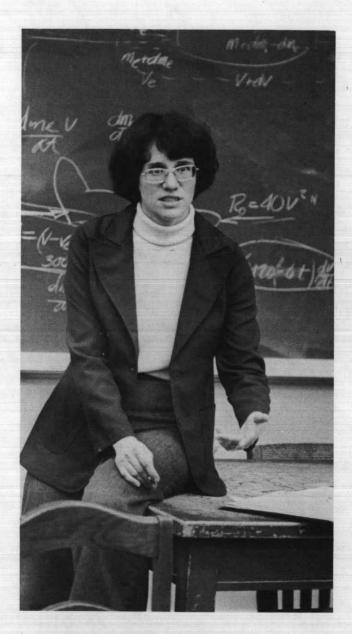

PE 486 Women in Sport A historical, sociological and biophysical approach to women in sport with emphasis on concepts, impacts and implications related to American and World culture, past, present, and future.

Seminar: Sports and American Culture 3 credits PE 488 Reviews development and purposes of intercollegiate, interscholastic and professional sports. Focuses on issues, problems, opportunities and challenges, particularly for minorities.

**Special Topics** 1-5 credits (fall, winter, spring, summer)

PE 498 Independent Study 1-5 credits

Institute of Public Service
James E. Sawyer, Ph.D., Director

## Human Resources Linda C. Fitzpatrick, Ph.D., Chairperson

#### **Objectives**

The Human Resources major is designed to serve people who plan, administer and evaluate services that directly or indirectly contribute to an individual's employability or financial self-sufficiency. Thus, the study of human resources development focuses on the relationship between the individual and society primarily through the world of work.

The program is concerned with cultural characteristics and institutional factors such as racial discrimination that may inhibit an individual's ability or opportunity to work. Also, it assumes an holistic view of the individual, recognizing that employment may depend upon supporting services such as housing, health care, legal assistance, transportation, child care, family counseling, or treatment for alcohol or drug dependency.

#### Organization

The Institute of Public Service is an interdisciplinary center offering both undergraduate and graduate studies. In addition, the Institute has an active research and community service program which involves both faculty and students.

The Institute's approach to education includes substantial opportunity for applying new knowledge and skills through case study analysis, practica and internships. The academic program is oriented to the working professional as well as the full-time student. Thus, courses are offered in the late afternoon, in the evenings, and on weekends.

#### **Admission Requirements**

All entering freshmen and undergraduate transfer students who meet the University's regular admission standards may be admitted to the Institute to pursue the B.A. in Human Resources.

#### **Degrees Offered**

Bachelor of Arts in Human Resources Master of Public Administration— See Graduate Bulletin

#### **General Program Requirements**

Students must satisfy the core curriculum requirements for entering or transferring students as explained on page 18 of this bulletin.

#### **Departmental Requirements**

The 65-credit major consists of three components:

1.	Human	Res	ources Development—20 credits
	PUB	140	Introduction to Human Resources Development
	PUB	452	Human Services Planning
	PUB	495	Internship (Students with six months or more of appropriate work experience may substitute a five-credit elective.)
	Ec	476	Labor Economics

2.	Problem-Solving and Analytic Skills—35 credits			
	PUB	231	Introduction to Public and Non-Profit	
			Management	
	PUB	300	Professional Skills Lab	
	PUB		Administrative Process and Advocacy	
	PUB		Policy Analysis and Public Planning

 Bureaucracies or
 Pls 370 Public Administration
 Pls 372 Urban Politics and Public Policy

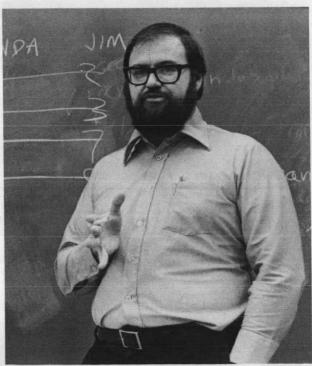

#### **Bachelor of Arts in Human Resources**

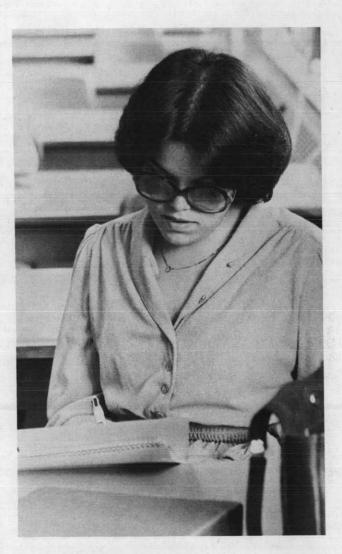

Freshman year PUB 140 Introduction to Human Resources Development	
Sophomore year PUB 231 Introduction to Public and Non-Profit Management	
Junior year PUB 410 Administrative Process and Advocacy	
Senior year PUB 416 Policy Analysis and Public Planning	

**Electives** 

..... 20 credits

#### **Human Resources Courses**

## PUB 140 Introduction to Human Resources Development

Development 5 credits
Income support, housing, health, education, civil
rights and other factors which affect human development and employability. Analysis of public programs addressing these issues, particularly for disadvantaged groups.

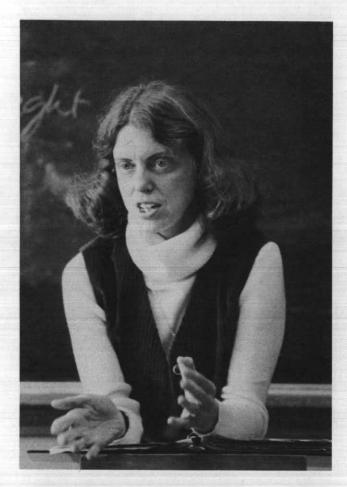

#### PUB 231 Introduction to Public and Non-Profit Management

Non-Profit Management 5 credits
The "third sector": Non-profit organizations and public and private agencies. Fiscal management and fund-raising; motivation of employees and volunteers; board role; leadership style, succession crises, goal displacement.

PUB 291 Special Topics	1-5 credits
<b>PUB 292 Special Topics</b>	1-5 credits
PUB 293 Special Topics	1-5 credits

#### PUB 300 Professional Skills Laboratory

Critical thinking, concept formation, organization and delivery of written and oral presentations for elected officials, citizens, and others. Extensive feedback from instructor and fellow students.

PUB 329 Contract and Grant Management 5 credits

Basic issues and techniques of grant and contract
oversight for public and non-profit agencies.

Administration of sub-contracts, performance monitoring and contract compliance.

PUB 341 Government and Employment Policy 5 credits
Legislative and regulatory evolution of employment
policy. Review of current programs and the role of
federal, state and local government in their
implementation.

PUB 349 Collective Bargaining 5 credits
Basic statutory requirements, dynamics and strategies of labor-management relations. Simulation of a realistic collective bargaining situation.

PUB 356 Employment Program Planning 5 credits
Professional employment planning in the U.S.
Examination of alternative techniques for increasing employment, including education and training, job development and placement, and supporting services.

PUB 410 Administrative Process and Advocacy 5 credits
Administrative law, due process, interpretation of
statutes and regulations; advocacy. Emphasis on
public sector issues.

PUB 415 The Public Interest
Inquiry into questions of justice; the application of values to contemporary public issues. Ethical dilemmas of policy and administration of client/public servant relationships.

PUB 416 Policy Analysis and Public Planning 5 credits
Synthesis of the elements of analytical problemsolving in public policy including positive, normative and quantitative models.

PUB 417 Readings in Public Service 2 credits
Selected readings in intergovernmental relations, recent political theory, constitutional law and public administration and policy development. Restricted to fifth year and graduate students.

PUB 452 Human Services Planning

User- or client-oriented approach to planning by addressing human needs from a holistic perspective.

Needs assessment, client analysis, program design and monitoring client advancement.

PUB 471 Foundations of Economic Thinking

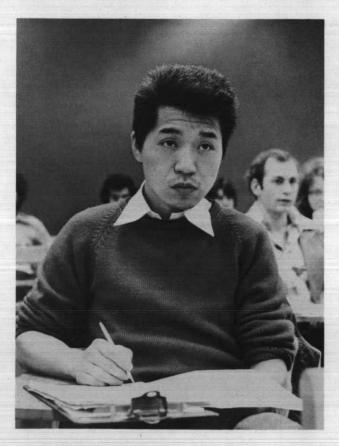

Basic economic concepts and techniques of analysis. Organization, operation and control of the American economy. Preparation for PUB 571; restricted to 5th year and graduate students.

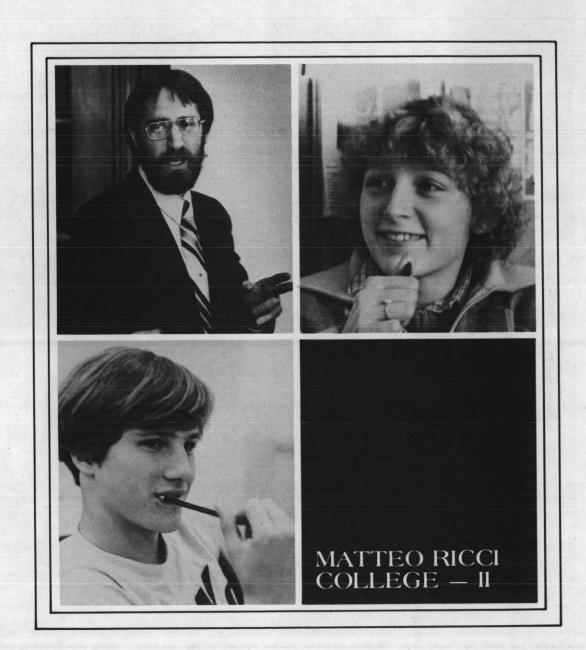

PUB 491 Special Topics 1-5 credits
PUB 492 Special Topics 1-5 credits
PUB 493 Special Topics 1-5 credits

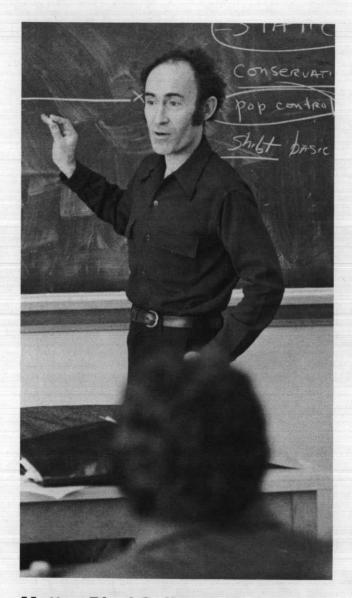

PUB 495 Internship

Supervised work with a human service. Seminars on job expectations, organizational setting, client relationships, and performance. (Five credits required for students without six months of approved experience.)

PUB 496 Independent Study 1-5 credits
PUB 497 Independent Study 1-5 credits
PUB 498 Independent Study 1-5 credits

Matteo Ricci College—II Edwin H. Weihe, Ph.D., Director

Matteo Ricci College is a coordinated and integrated six year program which begins with the traditional freshman year of secondary school and concludes with the granting of a baccalaureate degree by Seattle University. Form One, the first three years of the program, operates out of the Interlaken Campus of Seattle Preparatory School. Form Two, the subsequent three years, is an academic division of Seattle University on the Seattle University campus.

#### **Objectives**

Matteo Ricci College seeks to develop students who shape their personal and social futures through responsible choices. The objectives of the Form II program are to continue the harmonious development of

the student's cognitive, affective, and valuative potential; bring the student to a reflective consciousness of "how" he or she learns; and foster an inquiring, caring community of learners and teachers. Focusing on the student's intellectual, aesthetic, emotional, ethical, and religious life, the curriculum is designed to sharpen and test generalizable learning skills; exercise and develop verbal and non-verbal communication skills; develop verbal and non-verbal communication skills; develop specific skills, both in a broad range of traditional disciplines and in an area of specialization; expose a variety of values clarifying themes and problems for interdisciplinary investigation; and encourage prescriptive self-assessment.

While the Matteo Ricci College program does not attempt to advance the student in only six years to the level of vocation-oriented specialization sometimes acquired in eight, it does provide a foundation for, and initiation into, professional training, effectively preparing the student to pursue either a second baccalaureate or graduate degree.

#### **Admission Requirements**

Only students who have successfully completed the academic program of Matteo Ricci College-I will be admitted to the academic program of Matteo Ricci College-II at Seattle University.

#### Degree Offered Bachelor of Arts

#### **General Program Requirements**

The MRC-II Advisory Panel members serve as the principal advisers to all MRC-II students on academic and academically-related matters. Consequently, an MRC-II student may not register for any Seattle University course, either in the summer session or during the regular academic year, without first consulting and receiving the written permission of an Advisory Panel member.

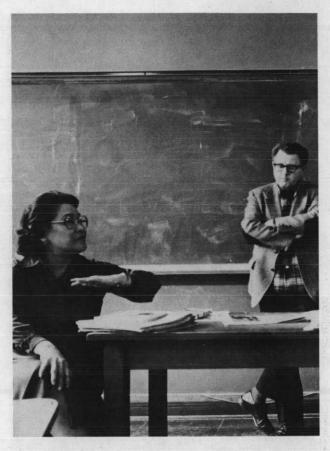

An MRC-II student is expected to maintain a cumulative academic grade point average of 2.5 or above, and to make normal progress toward completing the required courses in sequence. Students failing to meet these expectations will be placed on probation for two quarters, and thereafter are subject to dismissal from the MRC program.

#### **Degree Requirements**

135 credits which must include: 60 credits in MRC/HUManities courses; 4-5 credits in Fine Arts; 5 credits in Science and Technology; a maximum of 45 credits in either a General Studies/Humanities area or a single discipline focused in the College of Arts and Sciences, or a maximum of 55 credits in a General Studies/Science area, in Pre-Professional Studies, or in a single discipline focused in one of the University's professional schools; and the remaining credits in courses approved by the student's MRC-II adviser.

MRC-II students who have successfully completed a Pre-Professional course of study may apply these 55 credits toward a second baccalaureate degree, subject to the approval of the appropriate professional school, and the University regulation of 45 minimum additional credits for a second baccalaureate degree.

#### **Typical Schedule**

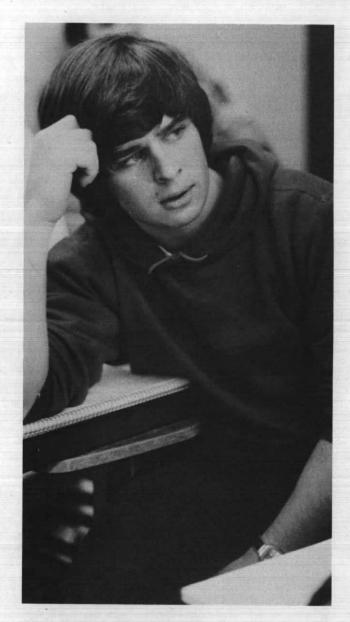

Year/4	
HUM 100, 200 series courses	30 credits
Fine Arts course4	-5 credits
Major and Approved Courses 10-	11 credits
Year/5	
HUM 280 and 300 series	15 credits
Science and Technology course	5 credits
Major and Approved Courses	25 credits
Year/6	
HUM 400 series1	5 credits
Major and Approved Courses	
Total 13	35 credits

#### Matteo Ricci College/HUM Courses

HUM 150 Composition: Language and Thought

Study and practice in informal logic and argumentation, with emphasis upon the composition of clear, persuasive writing.

HUM 151 Composition: Language and the Arts 5 credits
Interdisciplinary study of artistic composition in a
variety of art forms, with emphasis upon, and practice in, literary composition.

HUM 170Social Ecology 5 credits

Experiential inquiry into the political, social, and economic environment; emphasis on interrelated aspects of a particular social problem and on gathering and interpreting data.

HUM 180 Western Cultural Traditions I 5 credits
HUM 181 Western Cultural Traditions II 5 credits

A two-quarter, interdisciplinary study of the evolution of major systems of meaning and value in Western Civilization; emphasis on understanding and evaluating criteria for judging claims to truth and morality as basis for action.

HUM 260 Modes of Inquiry: Humanistic 5 credits
Study and practice in the data gathering and interpretive methods in the social sciences; comparison of these methods with those in the natural sciences and the arts.

#### **HUM 280 Cultural Interface**

5 credits

Interdisciplinary study of the elements of human behavior which define culture, and the processes of interaction between European culture and cultures of Asia and Africa.

HUM 291 Special Topics	1-5 credits
HUM 292 Special Topics	1-5 credits
HUM 293 Special Topics	1-5 credits

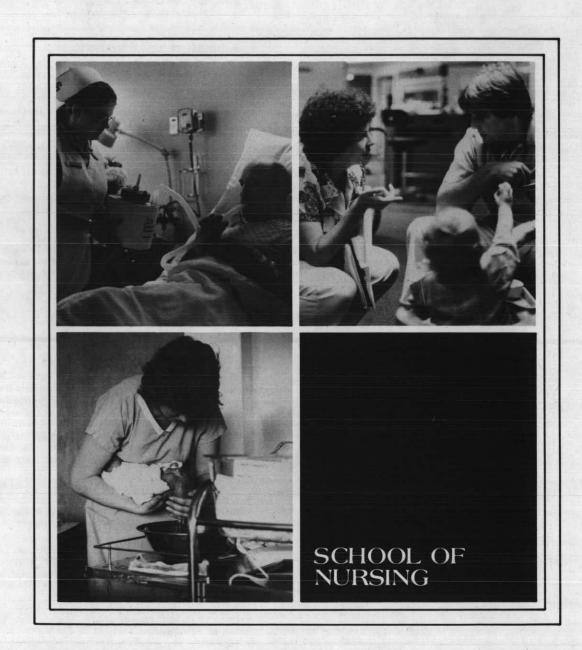

HUM 301 Perspectives on the Human Person I 5 credits
HUM 302 Perspectives on the Human Person II 5 credits

Study of the relationships between individuals, and between individuals, society, the world, and God through the history of philosophical and theological questions and their answers from Plato to the present day.

HUM 400 MRC Seminar	5 credits
HUM 401 MRC Seminar	5 credits
HUM 402 MRC Seminar	5 credits

Required seminars, which include a research and writing project; focus on the development of grounds for a human ethic, interdisciplinary problems and transdisciplinary modes of thinking, on "valuing," and on integrating the academic and the "real world."

## School of Nursing Patricia A. Ferris, Ph.D., Dean

#### **Objectives**

The aim of the School of Nursing is to provide educational preparation for professional practice that reflects an appreciation of the heritage and responsibilities of nursing. The philosophy of the University is expressed through educational opportunities that are broadly based in the humanities, social and biological sciences and in nursing. The school seeks to prepare graduates capable of applying their knowledge and skills in the promotion, maintenance and restoration of health and who are able to assume responsible roles in a variety of health care settings.

#### Accreditation

National League for Nursing Washington State Board for Nursing

#### Organization

The School of Nursing is organized within the University structure under the direction of a dean, offering an undergraduate program in nursing.

#### **Admission Requirements**

All entering freshmen, transfer students from accredited institutions of higher learning and registered nurses who wish to complete requirements for the Bachelor of Science degree in Nursing must meet University entrance requirements described in the admissions section of this bulletin. Chemistry is the required laboratory science for entering freshmen. Additional requirements for registered nurses are:

- Graduation from an approved school of professional nursing.
- Current nursing licensure in the State of Washington
- Report of complete physical examination within six months before entrance
- Recommendation from the Director of the Nursing Program and from previous employer

#### **Degree Offered**

Bachelor of Science in Nursing

#### Curriculum

The baccalaureate degree program is designed for high school graduates, transfer students and registered nurses who wish to complete requirements for the degree. The program is planned to provide the student with a foundation in the liberal arts and nursing, to stimulate students to assume responsibility for self-directed learning and professional development, and to provide a basis for graduate education and research.

The professional portion of the curriculum includes study of man with a variety of health problems requiring different modalities of care with a focus on the individual, the family and the community.

Clinical experience is provided through cooperating teaching units which include Cherry Heights Villa Care Center, Children's Orthopedic Hospital and Medical Center; Group Health Cooperative Hospital and Clinics, the Mason Clinic, Northwest Hospital, Overlake Memorial Hospital, Providence Hospital, Seattle King County Health Department, Seattle King County Visiting Nurse Service, United States Public Health Service Hospital, Summit Inn, Swedish Hospital Medical Center, Veterans Administration Hospital and other selected health agencies.

#### **General Program Requirements**

Students in the School of Nursing must satisfy core curriculum requirements of the University given on page 18 of this bulletin. For additional required sequences see the program of study which follows.

A cumulative academic grade point average of 2.50 or above from high school or another college or university is the minimum requirement for admission into the School of Nursing. A student in the School of Nursing must have achieved a cumulative grade point average of 2.50 or above by the end of the sophomore year, and a grade of C or above in the Nursing courses, for approval to proceed into the upper division nursing courses. The academic and clinical performances of each nursing student are evaluated at the end of each year to determine progression in the program. Specific requirements for progression may be obtained from a faculty adviser.

Students are responsible for the expenses of the annual physical examination and health assessment, uniforms, and transportation costs to, from and while in cooperating teaching units. A current driver's license and car covered by insurance as prescribed by state law are recommended for all clinical courses. Professional liability insurance is recommended for clinical nursing courses. It is strongly recommended that students have adequate health insurance coverage.

#### **Nursing Courses**

N 205	Basic Nursing I 5 credit
	Introduction to scope of practice and nursing roles
	focus on nursing process, people's needs as cor
	sumer of health services, concepts and skills re
	lated to comfort and safety; simulated laborator
	practice.

Total . . . 180 credits

N 206 Basic Nursing II 5 credits

Theory and practice focused on concepts of anxiety, communications, immobility and nutrition,
principles and skills related to pre- and post-operative care and oxygenation. Supervised practice in direct patient care.

N 300 Pathophysiology 5 credits
Study of the functional changes of the body which accompany illness and form the basis for nursing intervention.

N 312 Health Appraisal 5 credits

Demonstration and practice in basic skills to assess and describe state of health; growth and development framework used to understand physiological and behavioral assessment.

N 314 Mental Health Concepts 5 credits

Behavioral science principles basic to assisting self
and others to cope with the stresses of illness;
promotes development of inherent capabilities of
student and patient.

N 316 Contemporary Nursing Issues 5 credits

Major legal, ethical and professional issues are
studied in relation to concepts of power, authority,
responsibility in present and emerging health care
patterns. The nurse's role as a client advocate is examined.

N 330 Medical-Surgical Nursing I 4 credits
Problems in various phases of illness; nursing process in assisting individuals to maintain-regain health or adapt to chronic illness; nursing care related to pulmonary, renal and gastro-intestinal problems.

N 332 Medical-Surgical Nursing II 4 credits
Further development of the nursing process; nursing care needs related to neuro-sensory, endocrine,
musculo-skeletal and cardiovascular problems.

N 335 Nursing Care of Children 6 credits
Experiences are arranged in a variety of settings selected to provide opportunities to apply concepts and principles from theory courses, N 330 and N 332.

N 337 Nursing Care of Adults 6 credits
Experiences are arranged in a variety of settings, selected to provide opportunities to apply concepts and principles from theory courses, N 330 and N 332.

N 340 Maternal-Child Nursing:

Family and Community 4 credits

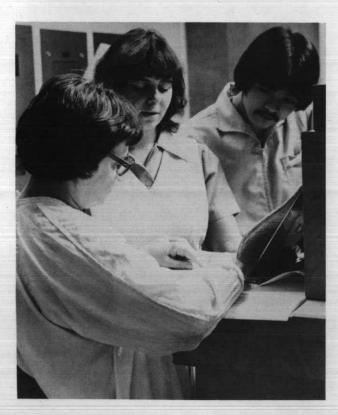

Assessment of family dynamics and parental roles;
family system and its use of community resources;
current concepts in women's health care.

N 341 Maternal-Child Nursing Practice:
Family and Community 6 credits
Clinical practice to promote application of concepts
from N 340; supervised experience with childbearing families in a range of community settings.

N 345 The Childbearing Family:
Current Perspectives 5 credits
Combined theory and clinical practice individualized to broaden experiential base, focused on health supervision during reproductive cycle. For Registered Nurses only.

N 408

Psychiatric-Mental Health Nursing
Psychodynamics, psychopathology and group interaction in psychiatric nursing care; use of behavioral science principles to promote mental health and provide care for individuals with emotional problems.

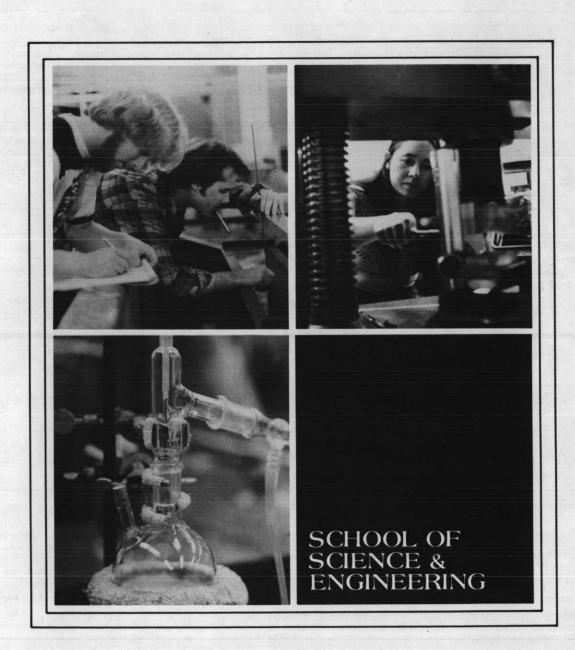

N 409 Psychiatric-Mental Health Nursing Practice
and Assertiveness Training 6 credits
Clinical practice to promote application of concepts
from N 408 in a manner that facilitates growth and
constructive problem solving in client, family and
student. An assertiveness training component includes the theory and practice of assertive

N 432 Community/Advanced Nursing 5 credits
Interrelated health-illness problems examined in a
framework of the decision making process; concepts of family and family systems are studied.

communication skills.

N 433 Community/Advanced
Nursing Practice
Clinical practice to promote application of concepts, principles and processes from N 432; experiences in hospitals, clinics and other community agencies with individual clients, groups of clients/patients and families.

	families.

# School of Science and Engineering David L. Thorsell, Ph.D., Acting Dean

#### **Objectives**

The programs of the School of Science and Engineering seek to combine a liberal education with preparation for a professional career or graduate school in one of the sciences, mathematics or engineering. More generalized programs are offered for those students who wish a strong scientific or engineering background as part of a liberal education.

#### Accreditation

American Chemical Society

Engineers' Council for Professional Development

American Medical Association

American Society of Clinical Pathologists

American Medical Record Assocation

#### Organization

The School of Science and Engineering offers programs in Allied Health Technology, Biology, Chemistry, Clinical Chemistry, General Science, Health Information, Mathematics, Physics, and in Civil, Electrical, Mechanical, Software and Tranportation Engineering. Students interested in other scientific, technical, and health-related careers, such as medicine or dentistry, may enroll for suitable pre-professional programs prior to transfer to the appropriate professional training center.

#### **Admission Requirements**

Students entering the School must satisfy all entrance requirements for the University as outlined in the Admission section of this bulletin. In addition, some departments list further requirements for admission into certain major programs.

#### **Degrees Offered**

Bachelor of Arts with a major in Biology, Chemistry, Mathematics or Physics

Bachelor of Science with a major in Biology, Mathematics, or Physics.

Bachelor of Science in Biology, Chemistry, Clinical Chemistry, Cytotechnology, Diagnostic Ultrasound, General Science, Health Information, Mathematics, Medical Technology, Nuclear Medical Technology, or Physics.

Bachelor of Engineering

Bachelor of Civil Engineering

Bachelor of Electrical Engineering

Bachelor of Mechanical Engineering

Master of Software Engineering—See Graduate Bulletin
Master of Transportation Engineering — See Graduate
Bulletin

#### Co-Operative Work Study Program

Students in good standing may elect to enter the cooperative work study program. Such students will take a reduced academic schedule each quarter, but will attend school eleven months a year (all regular quarters plus summer quarter). The University will assist such students in finding suitable paid industrial employment on an approximately half-time basis. The employment is selected for its educational value as well as financial remuneration.

Students who enter the program at the earliest possible point (summer after the freshman year) and follow it regularly will graduate at the same time as if they had not taken the program, but will have the equivalent of over one year of industrial experience upon graduation.

#### **General Program Requirements**

Students seeking the Bachelor's degree in the School of Science and Engineering must complete 180 credits, including the University core requirements shown on page 18 of this bulletin. The history and social science core requirements have been modified for several of the more technical degrees, as described in the individual departmental sections of this bulletin. Students also must complete the specific departmental requirements for their particular degree.

## Allied Health Technology Joan P. Baker, RDMS, MSR, Program Director

#### **Objectives**

The Allied Health Technology program is designed to prepare students for professional careers as technologists in several medical laboratory disciplines or as laboratory assistants in biological research laboratories. Founded on a concentration in basic sciences, the program affords simultaneous opportunities for receiving a liberal arts education and a practical exposure to the medical laboratory environment. The student may concentrate studies in cytotechnology, diagnostic ultrasound, medical technology, or nuclear medicine technology.

#### **Degrees Offered**

Bachelor of Science in Cytotechnology Bachelor of Science in Diagnostic Ultrasound Bachelor of Science in Medical Technology Bachelor of Science in Nuclear Medical Technology

#### General Program Requirements

Students in allied health technology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. Fifteen credits of history or social science are required.

#### **Certificate Program**

Students who complete 46 credits in the diagnostic ultrasound internship may be eligible for the Certificate In Diagnostic Ultrasound. Prerequisites for admission into the internship are acceptable college credits in cross-sectional anatomy, acoustical physics, use of management techniques and at least ten credits of introductory diagnostic ultrasound.

#### **Departmental Requirements**

Bachelor of Science in Cytotechnology—50 credits of biology including BI 165, 166, 167; Chemistry 101 and 102 or Ch 114 and 115; Mt 112; and 45 credits of AH 310, 311 and 312, which must be completed in an American Medical Association accredited cytotechnology school. AH 415 and HI 422, 425, 426 and 450 are recommended.

Bachelor of Science in Diagnostic Ultrasound—40 credits of biology, including 10 credits from BI 165, 166, 167; BI 200 and 210 (or BI 270 and 271); BI 445, 18 credits of Physics, including either Ph 107 or 202, and Ph 350. Mt 112, 131, 213; AH 470, 471 and 472. A one-year internship is necessary for entry into professional employment as an ultrasound technologist. This is available as the certificate curriculum of AH 476, 477, 478, 480, 481, 482, 486, 487, 488, and 489 for 46 credits.

Bachelor of Science in Medical Technology—45 credits of biology, including 10 credits of BI 165, 166, 167; BI 200 and 210 (or BI 270 and 271), BI 280, 300, 350, 360. 45 credits in chemistry, including Ch 114, 115, 219, 470, 471, 472. Mt 131, 213; 10 credits in physics; and AH 410, 415 and 420. Professional certification requires one year of internship in an approved laboratory training program after completion of the degree.

Bachelor of Science in Nuclear Medical Technology—44 credits in allied health, including AH 440, 441, 442, 447, 448, 449, 450, 451, 452, 453, 456, 457, 458, 459; 35 credits in physics and mathematics, including either Ph 107 or 202, Ph 375 (or Ch 461), Mt 131, Mt 213; 20 credits in biology, including either BI 200, 210 or BI 270, 271; and 25 credits in Chemistry, including Ch 236. Admission to internship requires an interview with the Nuclear Medicine admissions committee for all students with less than 3.0 gpa. Interviews are held Spring quarter prior to a Fall internship. A minimum gpa of 2.5 must be achieved in the 44 credits of AH courses in the internship.

# **Biology**

Margaret L. Hudson, Ph.D., Chairman

## **Objectives**

The programs in the department are designed to provide a liberal education and to prepare a student for graduate studies or for professional work in basic and applied biology.

## **Degrees Offered**

Bachelor of Arts Bachelor of Science Bachelor of Science in Biology

# **General Program Requirements**

Students in biology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy, and theology and religious studies. Core requirements for history and social science are as follows: for the Bachelor of Arts degree, 20 credits in history or social science, including Psychology 100; Bachelor of Science degree, 15 credits in history cr social science; and Bachelor of Science in Biology degree, 15 credits in history or social science, including Psychology 100.

# **Departmental Requirements**

Bachelor of Arts — 50 credits of biology which must include BI 165, 166 and 167 with additional credits, which must include at least one credit of Seminar (three credits is the maximum that can be applied toward the degree), selected in consultation with the biology adviser; and 25 credits of chemistry. A year of physics and a course in calculus are recommended.

Bachelor of Science — 60 credits of biology which must include BI 165, 166 and 167 and at least one seminar credit (three credits is the maximum that can be applied toward the degree); 30 credits of mathematics or science electives.

Bachelor of Science in Biology — 60 credits of biology which must include BI 165, 166, and 167; at least 30 credits of biology courses at the 300-499 level; additional credits in consultation with the biology adviser, which must include at least one credit of Seminar (three credits is the maximum that can be applied toward the degree). Also required are 25 credits of chemistry; 15 credits of physics; reading knowledge of a modern language (equivalent to 106, as determined by examination); Psy 100 and Mt 112. Additional courses in biology, calculus, biochemistry and statistics are recommended. Students with 3 units of high school chemistry may elect to begin their chemistry sequence during the freshman year.

Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

Teaching Major (School of Education) — Secondary: 45 credits in biology which must include BI 165, 166 and 167 and 30 credits of approved electives. Elementary: 25 credits in biology which must include BI 165, 166, 167, 275 and 370.

Undergraduate Minor — 30 credits of biology selected at direction of a biology adviser.

Sample schedules which satisfy degree requirements:

# **Biology Courses**

BI 101 Life Science 5 credits
Important areas of biology, beginning at the cellular
level and culminating with a consideration of interactions and changes in natural populations. Five lecture hours per week. (spring)

BI 165	General Biology I	5 credits
BI 166	General Biology II	5 credits
BI 167	General Biology III	5 credits

Survey of the biological world, concepts and principles, diversity, unity and continuity of life, integration of life processes, biological behavior, population and community, human biology. Eight hours of lectures, demonstrations, laboratories, and individual projects per week. May be taken in any order (I-fall, II-winter, III-spring).

BI 190 Principles of Physical Anthropology 5 credits
Evidence for primate evolution from the fossil record and from the morphological, physiological,
genetic and behavioral variability of living primates.
Two 3 hour lecture-laboratory sessions per week.
(fall)

BI 200 Anatomy 5 credits
Structure of the human organism. Credits not applicable for biology major. Three lecture and four laboratory hours per week. (fall)

BI 205
Biophysical Principles
Inter-relationships between biology, earth science and physical science as applied to the teaching of elementary level science. Credits not applicable for biology major. Three lecture and four laboratory hours per week. (fall, winter)

BI 210 Physiology 5 credits
Functions of the human organism. Three lecture and four laboratory hours per week. Credits not applicable for biology major. Prerequisite: BI 200. (winter)

BI 220 Microbiology 5 credits
Introduction to medical microbiology. Three lecture
and four laboratory hours per week. Credits not
applicable for biology major. (spring)

BI 231
BI 232
Invertebrate Zoology I 5 credits
Invertebrate Zoology II 5 credits
I. Integrated study of the anatomy, morphology, taxonomy, natural history and ecology of invertebrate phyla from protozoa through the pseudocoelomate minor phyla. II. The coelomate phyla. Three lecture and four laboratory hours per week. Prerequisite: Bi 165, 166; 231 for 232. (I-fall, II-winter)

BI 241 Vertebrate Zoology 5 credits
Structure, physiology, ecology and behavior of
Hemichordata and Chordata. Three lecture and four
laboratory hours per week. Prerequisite: BI 165, 166,
167.

BI 251 Plant Morphology 5 credits
Study of plant form, structure and development.
Three lecture and four laboratory hours per week.
Prerequisite: BI 165, 166. (spring, 1980)

BI 252 Taxonomy of Flowering Plants 5 credits

Native flora as an introduction to taxonomy, involving the principal orders and families of flowerplants. Three lecture and four laboratory hours per
week. Prerequisite: BI 165, 166. (spring, 1981)

BI 270 Human Structure and Function I 5 credits
Human Structure and Function II 5 credits
I. Integrated study of microscopic and gross structure and the functions of the human organism; basic tissues, skeletal, muscular, nervous, circulatory and respiratory systems. II. Digestion and metabolism, the excretory, endocrine and reproductive systems. Introduction to regional anatomy. Prerequisites: BI 165, 166, 167, Ch 101, 102 for 270; 270 for 271. (I-winter, II-spring)

BI 275 General Physiology 5 credits
Chemical and physical processes inherent in living
organisms. Three lecture and four laboratory hours
per week. Prerequisite: BI 165, 166, 167, or permission. (fall)

BI 280 Cell Physiology 5 credits
Fundamental life processes in plant and animal cells. Three lecture and four laboratory hours per week. Prerequisite: BI 275. (winter)

BI 291 Special Topics in Biology 1-5 credits
BI 292 Special Topics in Biology 1-5 credits
BI 293 Special Topics in Biology 1-5 credits
Courses offered on a one-time basis on experimental courses at the lower division level.

BI 296 Independent Study 1-5 credits
BI 297 Independent Study 1-5 credits
BI 298 Independent Study 1-5 credits
Prerequisite: permission of chairman.

BI 300 Microbiology 5 credits

Morphology, physiology and distribution of microorganisms. Three lecture and four laboratory hours
per week. Prerequisite: Permission of instructor.
(winter)

BI 310 Comparative Vertebrate Embryology 5 credits

Early development of the frog and chick with consideration of the early development of the human.

Three lecture and four laboratory hours per week.

Prerequisite: BI 165, 166, 167. (fall)

BI 315 Bioethics 5 credits
Indepth look at the problems created by a vast and
highly complex technological society. Directed
toward questions for which solutions are currently
being sought. Lectures, discussions and directed
readings.

BI 321 Vertebrate Natural History 5 credits

Ecology, behavior, life history and taxonomy of vertebrate animals, with emphasis on those in the Pacific Northwest. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166, 167. (spring)

BI 326 Comparative Anatomy of the Vertebrates I 5 credits
BI 327 Comparative Anatomy of the Vertebrates II 5 credits
I. Comparative study of the skin, skeletal system and muscular systems of selected vertebrates. II. Com-

muscular systems of selected vertebrates. II. Comparative study of the digestive, respiratory, excretory and reproductive systems, circulatory and nervous systems and sense organs of selected vertebrates. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166, 167. (I-winter, II-spring)

- BI 330 Comparative Vertebrate Histology 5 credits
  Study of fundamental body tissues. Three lecture
  and four laboratory hours per week. Prerequsite:
  Permission of instructor. (spring)
- BI 350 Genetics 3 credits

  Classical and molecular principles of the transfer of hereditary information. Three lecture hours per week. Prerequisite: One year of biology. (winter)
- BI 351 Genetics Laboratory 2 credits
  Experience in genetic experimentation. Four laboratory hours per week. Prerequisite: BI 350 or taken concurrently. (winter)
- Bi 352 Biophysical Chemistry 5 credits
  Introduction to physical chemistry. Principles of
  thermodynamics, kinetics, molecular structure and
  radioactivity applied to biology. Four lecture and
  three laboratory hours per week. Prerequisite: Ch
  219 or permission.
- Bi 360 Parasitology 5 credits
  Study of parasitic protozoa, helminths and arthropods. Three lecture and four laboratory hours per week. Prerequisite: Bi 165, 166, 167; Recommended: Bi232. (spring, 1981)
- BI 365 Introduction to Oceanography 5 credits
  A nontechnical course designed to give a broad general background, and to demonstrate the relationship between this field and others. Prerequisite: Sophomore standing.
- BI 370 Population Biology: Ecology 5 credits
  The interrelationships of life forms with their physical and biotic environments. Five lectures per week.
  Prerequisite: One year of biology. (winter)
- Bi 371 Field Ecology 2 credits
  Field studies including techniques used in ecological research and analysis. One lecture per week and three weekend field trips. Prerequisite: Bi 165, 166, 167 and permission.
- Study of the marine environment and the animals and plants inhabiting it. Three lecture and four laboratory hours per week. Prerequisites: BI 232. (spring, 1980)
- BI 430 Endocrinology 4 credits
  Structure and function of the glands of internal secretion of vertebrates. Prerequisite: Advanced standing in biology and Ch 236. (fall, 1981)
- BI 440 Neurobiology 5 credits

  Pathways of the vertebrate nervous system, gross and microscopic study of the human brain and spinal cord. Three lecture and four laboratory hours per week. Prerequisites: BI 200, 210 or 270, 271 or 310 or 326. Permission. (fall, 1980)
- BI 445

  Human Cross Sectional Anatomy 5 credits
  Survey of cross sectional anatomy with emphasis on
  organs of body amenable to ultrasound diagnostic
  techniques. Prerequisites: BI 165, 166, 167, and BI
  270 or equivalent. (fall)
- BI 455 Biochemistry 5 credits
  Composition and metabolism of carbohydrates,
  lipids, proteins, enzymes and body fluids. Four lecture and three laboratory hours per week. Prerequisite: Ch 236. (fall)

- Study of freshwater systems and the plants and animals inhabiting them, with emphasis on the invertebrate animals. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166; recommended: BI 470 (spring, 1980)
- BI 465 Population Biology: Evolution 5 credits
  Causes and mechanisms of genetic adaptation of organisms. Five lectures per week. Prerequisite: BI 350 or permission. (spring)
- Structure, function, classification, ecology, behavior and economic importance of insects. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166. (fall, 1981)
- BI 486 Seminar 1 credit
  Seminar 1 credit
  Credit
  Seminar 1 credit
  Credit
- BI 491 Special Topics in Biology 1-5 credits
  BI 492 Special Topics in Biology 1-5 credits
  Special Topics in Biology 1-5 credits
  Courses offered on a one-time basis or experimental courses offered at the upper division level.
- BI 496 Independent Study 1-5 credits
  Independent Study 1-5 credits
  Independent Study 1-5 credits
  Independent Study 1-5 credits
  Prerequisite: permission of chairman and upper division standing.
- Bi 499 Research
  Literature and laboratory investigation of a basic research problem. Preparation of a written report. Prerequisite: permission of chairman. (fall, winter, spring)

# Chemistry

David L. Thorsell, Ph.D., Chairman

# **Objectives**

Programs offered by the Chemistry department are designed to prepare the student for professional work in the various fields of basic and applied chemistry. The Bachelor of Science in Chemistry degree program is recommended to students who wish to prepare themselves for graduate studies in chemistry. By completion of 12 additional credits in chemistry, beyond the minimum requirements for this degree, the student may receive certification of the degree by the Committee on Professional Training of the American Chemical Society.

The Clinical Chemistry degree program is suited to those students interested in a career in the rapidly developing field of clinical chemistry. This degree may also provide adequate preparation for graduate studies in clinical chemistry, biochemistry, or (with additional biology) medicine or dentistry.

The Bachelor of Arts degree is recommended for those desiring a solid foundation in chemistry along with greater freedom of choice for elective courses from programs such as education, business, engineering or other fields within the University.

# **Degrees Offered**

Bachelor of Arts Bachelor of Science in Chemistry

Bachelor of Science in Clinical Chemistry

# **General Program Requirements**

Students in chemistry must satisfy the core requirements of the University given on page 18 of this Bulletin for English, philosophy and theology and religious studies. Core requirements for history and social science are as follows: Bachelor of Arts degree, 10 credits in history and 10 credits in social science; Bachelor of Science in Chemistry degree, 10 credits in history or social science; and Bachelor of Science in Clinical Chemistry, 10 credits in history or social science.

# **Departmental Requirements**

Bachelor of Arts—45 credits of chemistry which must include Ch 114, 115, 116, 219, 235, 236 and either 352 or 361 and 363, plus electives from the following: Ch 237, 238, 360, 362, 364, 415, 436, 455, 461, 499, and special topics or independent study courses. Fifteen credits of mathematics including two quarters of calculus.

Bachelor of Science in Chemistry—60 credits in chemistry which must include Ch 114, 115, 116, 219, 235, 236, 237, 326, 360, 361, 362, 363, 364, one year of calculus (Mt 134, 135, 136), computer programming, and one year of calculus-based physics. A student is eligible for certification of the degree by the American Chemical Society if 12 additional credits of approved advanced work in chemistry, physics or mathematics are taken. This certification is recommended for students planning graduate work. Mt 233 and Mt 234 are strongly recommended as electives. Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

Bachelor of Science in Clinical Chemistry—65 credits in chemistry which must include Ch 114, 115, 116, 219, 235, 236, 326, 361, 362, 363, 364, 455, 461, 470, 471, 472, 475, 476, 481, 482, 483; 20 credits in mathematics which must include two quarters of calculus and either Mt 213 or Mt 214; and one year of introductory physics. Recommended electives: Ch 237, 238, 360; BI 280, 300, 330 and 350.

Teaching major (School of Education) — Secondary: 45 hours of chemistry are required which must include Ch 114, 115, 116, 219, 235, 236 and either 352 or 361-363. Additional courses in physics (Ph 105, 106, 107) a year of college mathematics and courses in biology are highly recommended.

# **Chemistry Courses**

Ch 100 Science, Technology and the
Quality of Life 5 credits
Study of selected scientific information and the opportunities and responsibilities for its generation and application; scientific information and technologies that demonstrate the need for public involvement in the conduct of science and technology. (fall, spring, summer)

Ch 101 Introductory General Chemistry 5 credits
Survey of inorganic and some organic chemistry
treating the basic principles and descriptive material
relevant to the health sciences. Four lecture and
three laboratory hours per week. (fall, winter)

Ch 102 Introductory Organic and Biochemistry 5 credits
Continuation of organic chemistry and introduction
to biochemistry with application to the health
sciences. Four lecture and three laboratory hours
per week. Prerequisite: Ch 101 or equivalent. (winter, spring)

Ch 110 Fundamentals of Chemistry 5 credits
An introduction to Chemistry designed for students
with little or no preparation in science. Also for students desiring a review of high school chemistry prior to enrolling in Ch 101 or Ch 114. (fall, spring)

Ch 114 General Inorganic Chemistry 1 5 credits
Ch 115 General Inorganic Chemistry 2 5 credits
Ch 116 General Inorganic Chemistry 3 5 credits

1. Atomic and molecular structure, weight relationships, states of matter, thermodynamics. 2. Solutions, kinetics, chemical equilibrium, electrochemistry, hydrogen, oxygen, water and the nontransition metals. 3. Transition metals, carbon compounds and an introduction to the principles of reactions in ionized systems. The laboratory covers elementary qualitative analysis. Four lecture and three laboratory hours per week. Prerequisites: High School chemistry and algebra or permission for 114; 114 for 115; 115 for 116. (114, fall, winter; 115, winter, spring; 116, spring)

Ch 219 Quantitative Analysis 5 credits
Theory, methods and techniques of gravimetric and volumetric procedures in quantitative analysis. Two lecture and six laboratory hours per week. Prerequisite: Ch 116. (fall)

Ch 235 Organic Chemistry 1 5 credits

Structural theory; functional groups; nomenclature; properties and reactions of organic compounds; stereochemistry; reaction mechanisms; theory and practice of laboratory techniques. Four lecture and four laboratory hours per week. Prerequisite: Ch 115. (fall, summer)

Ch 236 Organic Chemistry 2 5 credits

Properties, reactions and applications of organic compounds with emphasis on those of biochemical interest; continuation of organic synthesis; laboratory work in functional group reactions, synthesis and thermodynamic and kinetic investigations. Four lecture and four laboratory hours per week. Prerequisite: Ch 235. (winter, summer)

Ch 237 Organic Chemistry 3 3 credits
Synthesis of organic compounds; ultraviolet, visible, infra-red and nuclear magnetic resonance spectra; laboratory work in problem-oriented investigations; practical applications of spectroscopy in laboratory work. Two lecture and three laboratory hours per week. Prerequisite: Ch 236. (spring)

Ch 238 Qualitative Organic Analysis

Methods of identification of organic compounds through preparation of derivatives; and use of modern spectroscopic methods. Six laboratory hours per week, plus discussion of principles. Prerequisite: Ch 236.

Ch 296 Independent Study 1-5 credits
Ch 297 Independent Study 1-5 credits
Ch 298 Independent Study 1-5 credits

Ch 326 Instrumental Analysis 5 credits

Theory and techniques of instrumental methods representative of spectrophotometric electroanalytical and chromatographic techniques. Two four-hour laboratory periods including discussion of principles. Prerequisite: One year of physical chemistry or permission. (spring).

Ch 352 Biophysical Chemistry 5 credits
Introduction to physical chemistry. Principles of
thermodynamics, kinetics, molecular structure and
radioactivity applied to biology. Four lecture and
four laboratory hours per week. Prerequisite: Ch 219
or permission of instructor.

Ch 360 Physical Chemistry 1 3 credits
Ch 361 Physical Chemistry 2 3 credits
Ch 362 Physical Chemistry 3 3 credits
1 Quantum chemistry spectroscopy photochemic

1. Quantum chemistry, spectroscopy, photochemistry. 2. Gases, thermodynamics, changes of state, solutions. 3. Chemical equilibrium, electrochemistry, kinetic molecular theory, reaction kinetics. Three lectures per week. 1. may be taken either before or after 2 and 3. Prerequisites: Ch 116, Mt 135 and one year of physics for 360 and 361; 361 for 362. (1.-fall, 2.-winter, 3.-spring).

Ch 363	Physical	Chemistry	Laboratory	1	2 credits
Ch 364	Physical	Chemistry	Laboratory	2	2 credits

Quantitative measurements of physical chemical phenomena, detailed data analysis, evaluation. Four laboratory hours per week. Prerequisites: Ch 219 for 363; 363 for 364. Ch 361 is a pre- or co-requisite for 363; Ch 362 is a pre- or co-requisite for 364. (1.-winter: 2.-spring).

Ch 396	Independent Study	1-5 credits
Ch 397	Independent Study	1-5 credits
Ch 398	Independent Study	1-5 credits

#### Ch 415 Advanced Inorganic Chemistry 3 credits

Advanced topics in inorganic chemistry with particular attention to bonding, thermodynamics, spectral and magnetic properties of the transition metals and their compounds. Prerequisites: Ch 360 and 361 or permission. (Alternate years with Ch 436)

#### **Advanced Organic Chemistry** Ch 436

Spectrometric identification of organic compounds; mass spectrometry; nuclear magnetic resonance; infrared; ultraviolet and visible; thermodynamic variables and kinetic relationships. Directed reading and/or lectures. Prerequisite: One year of physical chemistry or permission. (Alternate years with Ch 415)

#### **Biochemistry** Ch 455

Composition and metabolism of carbohydrates, lipids, proteins, enzymes and body fluids. Four lecture and three laboratory hours per week. Prerequisite: Ch 236 (fall).

#### Ch 460 **Advanced Physical Chemistry** 3 credits

Quantum chemistry, vibrational and rotational energies, absorption and emission of radiation, molecular symmetry, group theory, electronic spectra. Prerequisite: One year of physical chemistry.

#### Ch 461 Radiochemistry

**Clinical Chemistry 3** 

Ch 472

3 credits Theory of radioactivity, use of radioisotopes in studying chemical reactions and structure. Two lecture and four laboratory hours per week. Prerequisite: One year of physical chemistry or permission. (fall)

3 credits

#### Ch 470 **Clinical Chemistry 1** 3 credits Ch 471 **Clinical Chemistry 2** 3 credits

1. Theory and techniques of spectrophotometry, atomic absorption spectroscopy, flame photometry, fluorimetry and infrared analysis; electrophoretic techniques and densitometry; specific ion electrodes; automated analysis in clinical laboratory use. 2. Critical comparison of analytical methodologies for carbohydrates, lipids, electrolytes, enzymes, hemoglobins and prophyrins; emphasis on biosynthesis, metabolism, analytical methods of importance, normal ranges, and pathological conditions leading to abnormalities. Statistics and normal values. 3. Toxicology, steroids, catecholamines, gas chromatographic and radioimmunoassay techniques, renal and hepatic function assessment. Two lectures per week. Prerequisites: Ch 362, 364 or permission. (Offered in sequence: fall, winter, spring)

#### 1 credit **Clinical Chemistry Laboratory 1** Ch 475 Ch 476 **Clinical Chemistry Laboratory 2**

Practical experience in instrumental techniques and analytical methodologies of importance to the clinical chemist, including colorimetry, atomic absorption, gas chromatography, infrared, enzymatic assays and statistical treatment of data. Three laboratory hours per week. Prerequisite: Simultaneous enrollment in Ch 470 or Ch 471. (Offered in sequence: fall, winter)

Ch 481	Clinical Practice	2 credits
Ch 482	Clinical Practice	2 credits
Ch 483	Clinical Practice	2 credits
	Practical experience in a	approved hospital clinical
		hours per week. Prere-

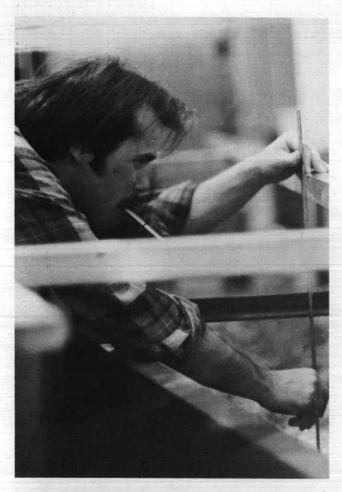

Ch 491	Special Topics		1-5 credits
THE REPORT OF THE PARTY OF THE	Special Topics		1-5 credits
	Special Topics		1-5 credits

	level, Prerequisite: Permission.		

Ch 496	Independent Study	1-5 credits
	Independent Study	1-5 credits
Ch 498	Independent Study	1-5 credits

#### Ch 499 **Undergraduate Research** 1-6 credits

Literature and laboratory investigation of a basic research problem. Six laboratory hours per week. Prerequisite: Permission.

# Civil Engineering Richard T. Schwaegler, Ph.D., Chairman

# **Objectives**

The principal objectives of the Civil Engineering department are to provide trained engineers to work in the various areas of the civil engineering profession and to provide a firm foundation for graduate study.

To accomplish these ends, analysis and design courses in the fields of hydraulic, structural, transportation and sanitary engineering are offered in addition to preparatory courses in sciences and basic mechanics. A broad base of theory is provided along with sufficient quantity of current practices of the profession.

# **Degrees Offered**

Bachelor of Civil Engineering Bachelor of Engineering

# **General Program Requirements**

Students in Civil Engineering must satisfy the core curriculum requirements of the University as given on page 18 of this Bulletin for English, philosophy and theology and religious studies. Ten credits of humanities electives satisfy the core requirements in history and social science.

# **Departmental Requirements**

Bachelor of Civil Engineering — 65 credits in civil engineering which must include ECL 208, 211, 321, 323, 331, 335, 337, 351, 371, 402, 403, 461, 487, 488, and 489. Also required are Mt 134, 135, 136, 233, and 234; EML 105, 113, and 281; Ph 200, 201; and 10 credits of additional electives in engineering or science, as approved by an adviser. With approval, qualified students may substitute equivalent or more advanced courses for those listed.

Bachelor of Engineering — 55 credits in engineering, 25 credits in mathematics, and at least 10 credits in physics, chemistry, or biology. Not intended to be an entry-level degree into the engineering profession.

# **Bachelor of Civil Engineering**

Freshman year
English 110 and core option 10 credits
Mathematics 134, 135, 136
Mechanical Engineering 105, 11310 credits
Philosophy 110 5 credits
Physics 200 5 credits
Sophomore year
Chemistry 114 5 credits
Civil Engineering 208, 211 10 credits

#### **Civil Engineering Courses**

ECL 200 Cooperative Work Study Assignment 0 credits

Field experience in an approved job assignment in
industry or government. The assignment will be
selected for its value in advancing the professional
education to the student. May be taken four times.

# ECL 208 Man and the Environment I 5 credits

# ECL 209 Man and the Environment II 5 credits Role of technology in the deterioration of environment and its restoration. I. Introduction to ecology, population, agriculture, pesticides, fertilizers, water pollution. II. Generation, use, conservation of energy. Air pollution, solid waste and recycling, noise. (I. fall, winter, II. spring)

# ECL 211 Engineering Measurements 5 credits Engineering measurements as applied to civil engineering. Planning for surveys. Introduction to photogrammetry. Public Land and State Plane Coordinate Systems. Prerequisite: Sophomore standing. Four lecture and one laboratory period per week. Prerequisite: Mt 112, EML 105. (spring)

ECL 291 Special Topics 1-5 credits
ECL 292 Special Topics 1-5 credits
ECL 293 Special Topics 1-5 credits

Field experience in an approved job assignment in industry or government. The assignment will be selected for its value in advancing the professional education of the student. May be taken four times.

ECL 321 Strength of Materials I

Mechanics of solid deformable bodies; relationships between the external forces acting on elastic bodies and the stresses and deformations produced. Members subjected to tension, compression, flexure and torsion. Five lecture and one laboratory period per week. Prerequisite: EML 113, Ph 200, Mt 136. (fall)

ECL 323 Strength of Materials II 5 credits
Continuation of the mechanics of solid deformable
bodies. Beam topics, stability of columns, combined stresses and strains, fatigue and energy
relationships. Five lecture and one laboratory period
per week. Prerequisite: ECL 321, Mt 233. (winter)

Fluid Mechanics 5 credits

Fluid static and dynamics. Topics include fluid properties, continuity equation, Euler's equation; laminar and turbulent flow regimes. Prerequisites: EML 281, Mt 135. (fall)

# Weekly student projects in the field of incompressible flow; pump design, hydrographic studies, graphical analysis of overflow or spillway design, model studies, open channel flow. Prerequisite: ECL 331. (winter)

ECL 337 Fluids Laboratory

Experimental calibration of various flow meters, loss coefficients, and pipe friction factors. Experimental verification of various principles of fluid mechanics.

One lecture and one four-hour laboratory per week. Prerequisite: ECL 331. (spring)

ECL 351 Engineering Geology

Elementary study of the material structure and internal condition of the earth and of the physical and chemical processes at work upon and within it.

Three lecture hours per week. Prerequisite: Sophomore standing. (winter)

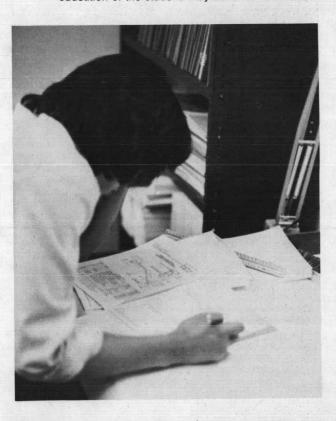

ECL 353 Soil Mechanics and Foundations

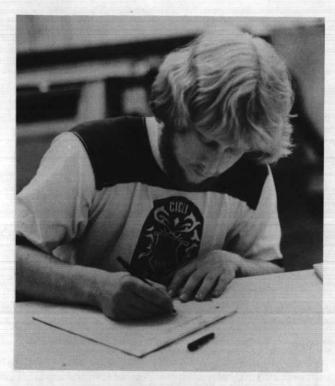

Engineering properties of soils; consolidation, shear strength, permeability. Fundamentals of slope stability and earth pressure theories. Fundamentals of foundation design. Four lecture and one laboratory session per week. Prerequisites: ECL 323, ECL 351, (spring)

ECL 371 Water Resources I 3 credits
Conception, planning, design, construction, and
operation of facilities to control and utilize water.
Stream and flood analysis. Prerequisite: ECL 331.

ECL 391 Special Topics 1-5 credits
ECL 392 Special Topics 1-5 credits
ECL 393 Special Topics 1-5 credits

Field experience in an approved job assignment in industry or government. The assignment will be selected for its value in advancing the professional education of the student. May be taken four times.

ECL 402 Engineering Economy

Elements of immediate and long-term economy of design and maintenance; interest rates, present rates, present worth and prospective return on investment; depreciation and replacement studies. Prerequisite: junior standing. (spring)

ECL 403 Project/Construction Management 3 credits
Introduction to project and construction
management. How to plan and organize these services. Network scheduling, contracting procedures,
risk analysis and estimating.

ECL 445 Structural Mechanics 5 credits
Classical and matrix methods in structural mechanics. Basic structural theory in both classical and matrix notation. Prerequisite: ECL 323. (fall)

ECL 447 Structural Design I 5 credits
ECL 449 Structural Design II 5 credits
Design of basic structural members and connections. Specific structural design building codes. I.
Steel design. II. Reinforced and prestressed concrete design. Prerequisites: ECL 445 for I, 447 for II.
(I. winter, II. spring)

ECL 461 Transportation Systems 3 credits

Development of transportation systems and social and economic effects. Planning present and future systems. Methods of public and private financing. (fall)

ECL 471 Environmental Law I 3 credits

ECL 472 Environmental Law II 3 credits

I. Detailed survey of Federal legislation and case history as it relates to land use and development in the State of Washington. II. State legislation and case history as it relates to land use and development in the State of Washington. Local, county, and municipal legislation.

ECL 485 Sanitary Engineering I ECL 486 Sanitary Engineering II

5 credits 5 credits

I. Examination of water and waste. Physical treatment processes. Laboratory experiments in microbial, bacteriological and chemical examination of water and wastes. Chemical and biological treatment, sludge disposal, disinfection, reuse of water, comprehensive planning. Four lectures and one laboratory per week. II. Stream pollution and self-purification. Analysis of industrial wastes. Four lectures per week plus selected field trips. Prerequisites: Ch 114 for 485; 485 for 486. (I. fall, II. spring)

ECL 487 Seminar I 2 credits
ECL 488 Seminar II 2 credits
ECL 489 Seminar III 2 credits

Development of oral and written communication skills through preparation and presentation of a technical paper. Prerequisite: Senior standing (I. fall, II. winter, III. spring.)

ECL 491 Special Topics 1-5 credits
ECL 492 Special Topics 1-5 credits
ECL 493 Special Topics 1-5 credits

ECL 495 Advanced Studies 2-5 credits
Independent study or research under the direction of a faculty member.

ECL 496 Independent Study

ECL 497 Independent Study

ECL 498 Independent Study

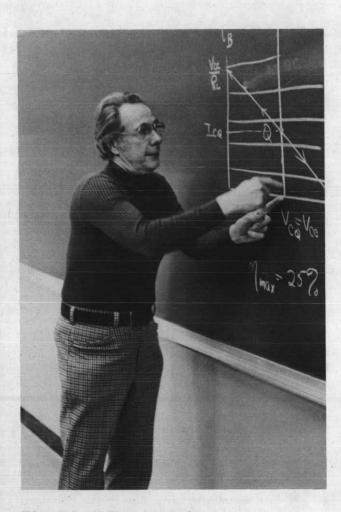

Independent Study

Independent study or research under the direction of a faculty member.

ECL 499 Thesis

Problem in analysis or design at the level of undergraduate research. Prerequisite: Senior standing.

# **Electrical Engineering**

Francis P. Wood, SJ, M.S., Chairman

# **Objectives**

Electrical engineering deals with the applications of electricity to the generation, transmission, distribution and utilization of electric power, to measurement, to control, to computation and to communication by wire and electromagnetic waves.

The specific objective of the department does not provide for undergraduate specialization in various fields but strives to provide a broad foundation based on mathematical and scientific principles that will prepare the graduate to take his/her place in any of the various fields of study.

The curriculum includes material in networks, electronics, radio, communication, and power apparatus and systems. Hence the student interested in electronics, in automatic control, or in any other specialty is given adequate scientific training in a well-balanced educational program.

# **Degrees Offered**

Bachelor of Electrical Engineering
Bachelor of Engineering
Master of Software Engineering—See Graduate Bulletin

# **General Program Requirements**

Students in electrical engineering must satisfy the specific core curriculum requirements of the University as given on page 18 of this Bulletin for English, philosophy and theology and religious studies. Ten credits of humanities electives satisfy the core requirements in history and social science.

# **Departmental Requirements**

Bachelor of Electrical Engineering — 65 credits in electrical engineering which must include EEL 105, 301, 303, 311, 341, 351, 411, 421, 433, 435, 443, 446, 448, 449, 455, 461, and 485. Also required are Mt 134, 135, 136, 233, and 234; EML 105, 113, and either EML 281 or Ph 310; and Ph 200, 201, 202, 203, 330 and 361. With approval, qualified students may substitute advanced courses in nuclear physics for electrical engineering courses. This degree is approved by the Engineers' Council for Professional Development.

Bachelor of Engineering — 55 credits in engineering, 25 credits in mathematics, and at least 10 credits in physics, chemistry, or biology. Not intended to be an entry-level degree into the engineering profession.

# **Bachelor of Electrical Engineering**

20 credits
, 433, 435, 485 

# **Electrical Engineering Courses**

EEL 105 Digital Operations and Computation

Digital processing of information and data, number systems, Boolean Algebra; registers, counting and arithmetic operations; organization of computers, storage and numbering; introductory programming. (winter)

Field experience in an approved job assignment in industry or government. The assignment will be selected for its value in advancing the professional education of the student. May be taken four times.

EEL 296 Independent Study 1-5 credits
EEL 297 Independent Study 1-5 credits
EEL 298 Independent Study 1-5 credits

FEL 300 Cooperative Work Study Assignment 0 credits

Field experience in an approved job assignment in
industry or government. The assignment will be
selected for its value in advancing the professional
education of the student. May be taken four times.

EEL 301 Electrical Circuits 1 5 credits
EEL 303 Electrical Circuits 2 5 credits

Fundamental concepts and units; energy and power; Kirchoff's laws, nodal and mesh analysis; steady-state solutions; coupled circuits and transformers; Fourier series and integral; transient response and Laplace transformation; polyphase circuits. 1. Five lectures per week. 2. Four lectures and one four-hour laboratory per week. Prerequisites: Ph 201 for EEL 301, EEL 301 for EEL 303, Mt 234 or concurrently. (1-fall, 2-winter)

EEL 311 Seminar 0 credits
Attendance required for junior year Electrical
Engineering students. (winter)

For non-majors, an introductory course to electrical engineering. Basic circuit theory; linear systems; steady-state solutions; Laplace transform and transient analysis; magnetic fields, transformers and basic electromechanical energy conversion on basic electronic devices and circuits. Prerequisites: Ph 202, Mt 234, EML 281. (fall-evening)

Vacuum circuit and solid state linear circuit models; elementary amplifiers, cascaded circuits, gain-frequency characteristics and bandwidth control. Prerequisites: EEL 303, Ph 361. (spring)

EEL 351 Distributed Systems 5 credits

Analysis of distributed systems; steady-state and transient analysis of loss-less lines; lossy lines; wave-guides. Four lectures, one four-hour laboratory per week. Prerequisites: Ph 330, EEL 303. (spring)

EEL 391 Special Topics 1-5 credits
EEL 392 Special Topics 1-5 credits
EEL 393 Special Topics 1-5 credits
EEL 396 Independent Study 1-5 credits
EEL 397 Independent Study 1-5 credits
EEL 398 Independent Study 1-5 credits

FEL 400 Cooperative Work Study Assignment 0 credits
Field experience in an approved job assignment in
industry or government. The assignment will be selected for its value in advancing the professions'
education of the student. May be taken four times.

EEL 411 Seminar

Each student is required to prepare a technical paper and to present it orally to the class. Prerequisite: senior standing in electrical engineering. (winter)

FEL 421 Linear Analysis

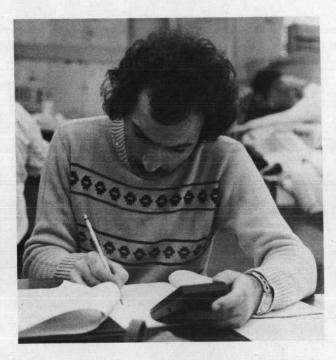

Fourier and Laplace transforms; analytic functions; inversion methods; conformal mapping; introduction to network synthesis. Prerequisite: EEL(fall)

EEL 433 Digital Signal Processing 5 credits
Linear, time invariant, discrete systems; finite moving average and recursive digital filters; Z-transform; discrete Fourier transform; fast Fourier transform. Prerequisite: EEL 421. (winter)

EEL 435 Electromechanical Energy Conversion 5 credits
Electromechanical energy conversion principles;
transformers and rotating machines, special devices. Prerequisite: EEL 421. (winter)

EEL 443 Semiconductor Circuits Design 5 credits
Linear power, push-pull, feedback, Class AB, B and
C, and tuned amplifiers; gain-frequency characteristics; oscillators. Prerequisite: EEL 341. (fall)

EEL 446 Electrical Engineering Laboratory 1
EEL 448 Electrical Engineering Laboratory 2
Laboratory problems in analysis and design for electronic communication and control for electrical engineering seniors; analog and digital systems. One hour lecture and one four-hour laboratory per week.

Prerequisite: EEL 341. (1-fall, 2-spring)

EEL 449 Digital System Design

Digital electronic circuits; logic types; small and medium scale integrated circuits; A/D and D/A conversion; computer architecture. Prerequisites: EEL 105, 341. (fall)

EEL 455 Microwave Devices and Applications 3 credits
Microwave sources and amplifiers; tube and solidstate, guided waves and free-space propagation,
microwave circuit components, fundamentals of antennas. Three one-hour lectures per week. Prerequisites: EEL 351, Ph 330. (fall)

EEL 461 Control Systems

Fundamentals of classical and modern system theory; analysis and design of closed-loop systems with emphasis on stability and transient response using Nyquist, Bode, s-plane and state-space techniques. Prerequisites: EEL 421, 435. (spring)

EEL 485 Communications Systems

Signal transmission through electrical networks; amplitude, phase, frequency modulation; sampling and pulse modulation; noise; comparative analysis of information transmission systems. Prerequisite: EEL 421. (winter)

<b>EEL 491</b>	Special Topics	1-5 Credits
<b>EEL 492</b>	Special Topics	1-5 credits
<b>EEL 493</b>	Special Topics	1-5 credits

EEL 496 Independent Study 1-5 credits

# **General Science**

Ernest P. Bertin, S.J., Ph.D., Program Director

# Objective

The objective of the program in general science is to offer the student a liberal education with sufficient background in science to enable the graduate to work in easy liaison with scientists and engineers in industry or government. Judicious use of elective hours permits the student to specialize in other technical areas or in business. Students expecting to transfer to a professional training program in an allied health field, such as dental hygiene, occupational therapy, or physical therapy, after several years of basic science background, may receive special counseling and guidance within the General Science program. This service also is available to students in premedical, predental, preveterinary, and prechiropractic studies.

# **Degree Offered**

Bachelor of Science in General Science

## **General Program Requirements**

Students in general science must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. At least 15 credits in humanities or social science electives are required.

#### **Degree Requirements**

This degree requires 90 credits chosen from the following fields: allied health technology, biology, chemistry, health information, mathematics, physics, psychology and engineering. For this purpose all engineering courses are considered as being in one field. At least 30 credits must be in one of these fields, 20 credits in a second field, and 10 credits in mathematics. A minimum of four fields must be represented. At least 15 credits must be from 300- or 400-level courses.

# **Health Information**

Kathleen A. Waters, M.Ed., R.R.A., Chairman

# **Objectives**

The Health Information program is designed to prepare the student for a career in an administrative health care profession by providing a comprehensive four-year program of liberal arts and science. In the fourth year emphasis is on professional activities and interaction with the health care industry. Special attention is given to computerization of health information. Students who complete the program are eligible for registration with the American Medical Record Association.

### **Degree Offered**

Bachelor of Science in Health Information

# **General Program Requirements**

Degree candidates in health information must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy, and theology and religious studies. Additional core requirements are 15 credits in history or social science.

### **Certificate Program**

Students who already possess a baccalaureate degree in any field may be eligible for the Certificate in Health Information Services Program, as fifth year students. Prerequisites for admission to the certificate program are acceptable college credits in human anatomy and physiology (with laboratory), principles of digital computers, statistics, and management practices.

# **Departmental Requirements**

Bachelor of Science in Health Information — 86 credits which must include HI 401, 402, 403, 422, 425, 426, 430, 440, 441, 455, 470, 475, and 480; 25 credits of science or mathematics, including Mt 213 or 214, Bus 380 and 15 credits of computer courses including HI 475.

Students who have completed a program for medical record technicians, approved by the American Medical Association, may be placed in appropriate advanced Health Information courses.

Certificate in Health Information — 46 credits in Health Information, equivalent to HI 401, 402, 403, 422, 425, 426, 430, 440, 441, 455, 470, 475, and 480.

## **Bachelor of Science in Health Information**

#### Freshman Year

Biology or Chemistry elective	5 credits
English 110 and core option	10 credits
History or social science electives	15 credits
Mathematics	5 credits
Philosophy 110	
Elective	

#### Sophomore Year

Biology or Chemistry elective	5 credits
Speech 200 or 201	5 credits
Health Information 430	5 credits
Mathematics 213 or 214	
Philosophy 220	
Theology and Religious Studies options	10 credits
Electives	

#### **Junior Year**

Biology 200, 210	10 credits
Business 380	5 credits
Business 310 or HI 476	5 credits
Health Information 401	5 credits
Philosophy core option	5 credits
Psychology 201 or Sociology 201	5 credits
Electives	10 credits

#### Senior Year

Health Information 402, 403, 422, 425, 426,	
440, 441, 455, 470, 475 and 480	36 credits
Health Information electives	4 credits
Elective	5 credits

Total . . . . 180 credits

# **Health Information Courses**

HI 401 Introduction to Health Records 5 credits

Development, present scope and future direction of the health record profession. Initial development of skills for record analysis and control, medical statistics, record retrieval and disease coding. Prere-

quisite: BI 200, 210 or permission. (fall, spring)

HI 402 Management of Health Information
Systems I 5 credits

HI 403 Management of Health Information
Systems II 5 credits
I. Coordination of record systems and information centers in health facilities. II. Use of standards designed by JCAH, AMA, DHEW, and other agencies to raise level of health care quality; effects of standards on health record administration. Prerequisites: HI 401 for I; I for II. (I-fall, winter; II-winter, spring)

HI 422 Medical Terminology 3 credits
Prerequisite BI 200, 210 or permission of instructor.
(fall, spring)

HI 425 Medical Science I 3 credits
HI 426 Medical Science II 3 credits

I. The problem-oriented approach to cause, treatment and management of patients. Circulatory, respiratory, hemic and lymphatic, musculoskeletal, integumentary, urogenital and female reproductive systems. II. Endocrine and nervous systems, special senses, psychobiologic units, treatment including drugs, laboratory tests and anesthesia. Prerequisite BI 200, 210 or permission. (I. winter II. spring)

HI 430 Health Care Delivery System 5 credits
Study of the organization, delivery and financing of health care in the United States. Interdisciplinary exploration of the relationships of personnel, facilities and organizations in the health field. (winter, spring)

HI 440 Practicum
1-5 credits
Practicum
Practicum is designed to help students develop themselves through utilizing opportunities to participate in current health information activities with professional medical record administrators and

other professionals in the health field. Prerequisite

to HI 440-HI 401. (fall, winter, spring, summer)

HI 450

Development of Management
Resources

Utilization of management methods and resources in the effective direction of a department, system or function with emphasis on budget, layout, work simplification, job analysis and equipment selection. (fall, winter)

HI 455 Comprehensive Communication Skills 3 credits

Development of skills needed to select and use communications media in effective leadership. Personnel selection and evaluation, educational and training programs, skill in relating information. (winter, spring)

HI 470 Legal Concepts for Health Fields 3 credits
Principles of law as applied to the health field, with
particular reference to all phases of medical record
practice. (fall, spring)

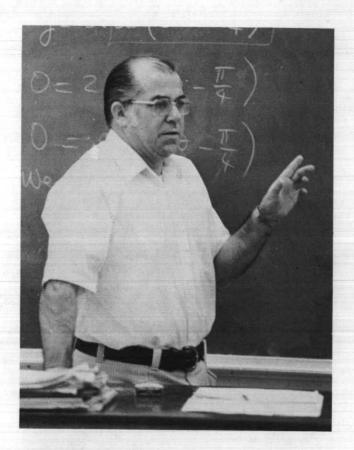

HI 475 Health Information Computer Systems 5 credits
Systems analysis in health information with stress on
computer resources in problem solving. Computerized patient information processes in clinical and
administrative health care settings.

HI 476 Health Information Computer
Applications

Analysis and evaluation of current computer applications in health information. Hospital computer systems, ambulatory care systems, community health networks and data base management systems including role of minicomputers and microprocessors.

HI 480 **Problem Solving and Decision** Making—Seminar 2 credits (winter, spring) 2-5 credits HI 491 **Special Topics** 2-5 credits **Special Topics** HI 492 1-5 credits HI 496 Independent Study 1-6 credits HI 497 **Independent Study** Prerequisites: Senior standing; permission. (fall, winter, spring)

# **Mathematics**

Mary B. Ehlers, Ph.D., Chairman

## **Objectives**

The Mathematics Department offers training in three distinct programs. The first, leading to the Bachelor of Science in Mathematics, prepares the student for advanced study and professional work in mathematics. The others are more flexible programs which provide for work in a secondary field and lead to either the Bachelor of Arts or the Bachelor of Science degree.

# **Degrees Offered**

Bachelor of Arts Bachelor of Science Bachelor of Science in Mathematics

# **General Program Requirements**

Students in mathematics must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. Additional core requirements are as follows: for the Bachelor of Arts degree, 10 credits in history, 10 credits in social science and 15 credits in physical or life science, psychology or economics; Bachelor of Science degree, 15 credits in history or social science; and Bachelor of Science in Mathematics degree, 15 credits in history or social science. French or German is recommended to students planning to pursue graduate work. A minimum grade of C is required in all mathematics courses applied toward the major. See programs of study for additional requirements.

## **Advanced Placement in Calculus**

Students who have completed a college level course in calculus in high school and have taken the Advanced Placement test in calculus of the College Entrance Examination Board may petition the department for placement on the basis of their test results. Advanced placement and credit may be granted to students whose test scores are 3 or above. Advanced placement may also be obtained through departmental testing.

#### **Honors Work in Mathematics**

For superior students the department offers honors work consisting of a year of independent study under the supervision of a senior faculty member. Normally the work will be done during the senior year at a level beyond that of the regular undergraduate courses and will culminate in the writing of a term paper or senior thesis. Students who wish to undertake this program will be encouraged to take Mt 315 or 381 in the sophomore year and a 400-level series in their junior year in order to have the background sufficient to conduct their independent study. The independent study is an addition to the regular course requirements for the Bachelor of Science in Mathematics degree. No special distinction will be made in the degree earned by students completing the program.

# **Departmental Requirements**

Bachelor of Arts — 50 credits in mathematics which must include Mt 134, 135, 136, 233, 234, 315 or 381, 411 or 431 and 15 additional credits of approved upper division mathematics. General physics and the fine arts sequence are recommended.

Bachelor of Science — 60 credits of mathematics and 30 credits of physical science, psychology or economics.

Bachelor of Science in Mathematics — 70 credits in mathematics which must include Mt 134, 135, 136, 233, 234, 411, 412, 413, 431, 432, 433; 15 additional credits in upper division mathematics; and 15 credits of physics. In certain circumstances, with the approval of the chairman, 15 credits of upper division work in a physical science may be substituted for 15 credits in mathematics. Students in this program must maintain a cumulative grade point average and a mathematics grade point average of 2.50. The fine arts sequence is recommended.

Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

Undergraduate Minor — 30 credits in mathematics which must include Mt 134, 135, 136 and 15 credits of approved electives beyond college algebra.

Teaching Major (School of Education) — 45 credits in mathematics which must include Mt 134, 135, 136, 233, 300, 321 or 322 and 15 credits of approved electives beyond college algebra (Mt 213 and 214 are included among approved electives).

# **Proper Sequence for Taking Courses**

The normal sequence of elementary mathematics courses is Mt 100 or Mt 101; Mt 112 or Mt 118; Mt 130, Mt 131 or Mt 134; Mt 135; Mt 136; Mt 233; and Mt 234. A student, who has received a C or better in any course of this sequence or its equivalent, cannot receive credit for a course which appears before it in the sequence. A student may not receive credit for more than two courses among Mt 101, Mt 175, and Mt 200. A student may not receive credit for more than one course from each of the following groups: Mt 100 and Mt 101; Mt 112 and 118; Mt 130, Mt 131 and Mt 134.

#### **Mathematics Courses**

Mt 100	Intermediate Algebra Sets and numbers, polynomials, fractions, linear equations and inequalities, exponents, quadratic equations and inequalities; systems of equations; functions and graphing. Prerequisite: One year each of high school algebra and geometry. The completion of 5 credits of Mt 100 is equivalent to Mt 101.
	tion of 5 credits of Mt 100 is equivalent to Mt 101. (winter: 3 credits, spring: 2 credits)

- Intermediate Algebra 5 credits Mt 101 Introduction to logic and sets; laws of exponents; linear and quadratic equations; inequalities; systems of equations. Prerequisite: one year each of high school algebra and geometry. (fall, winter, spring)
- College Algebra and Trigonometry Mt 112 Sets: relations: algebra of functions; exponential, logarithmic, trigonometric, inverse trigonometric functions; equations; graphs. Prerequisite: Mt 101 or one-and-one-half years of high school algebra. (fall, winter, spring)
- College Algebra for Business Mt 118 Sets; relations and functions, graphing; linear, quadratic, exponential, logarithmic functions; systems of linear equations; inequalities; linear programming; applications to business. Prerequisite: Mt 101 or equivalent. (fall, winter, spring)
- Elements of Calculus for Business Mt 130 Rate of change; derivative, basic differentiation formulas, extrema; area under a curve; limits of sequences; the definite integral and applications. Prerequisite: Mt 118. (fall, winter, spring)
- 5 credits Mt 131 Calculus for Life Sciences Limits; rate of change; derivatives, basic differentiation formulas, extrema; the definite integral. Applications to the Life and Social Sciences. Prerequisite: Mt 112 or equivalent. (Spring)

# **Mechanical Engineering**

Robert F. Viggers, M.S., Chairman

# **Objectives**

The mechanical engineer is concerned with the fundamental properties of solids, liquids and gases related to the creative design and manufacture of machines, heat engines, electro-mechanical devices and control systems. He is concerned with the broad area of energy conversion as related to the design of machines. This requires working with the processes of combustion, nuclear and chemical reactions, solar radiations, propulsion systems for sea, land and space and all types of materials under a vast array of conditions.

A mechanical engineer may enter positions in research and development, design engineering, salesmanship, and, with experience, executive positions in industry.

#### **Degrees Offered**

Bachelor of Engineering
Bachelor of Mechanical Engineering
Certificate in Transportation Engineering
Master of Transportation Engineering — See Graduate
Bulletin

# **General Program Requirements**

Students in mechanical engineering must satisfy core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. Ten credits of humanities electives satisfy the core requirements in history and social science.

# **Departmental Requirements**

Bachelor of Mechanical Engineering — 65 credits in mechanical engineering which must include EML 105, 113, 281, 321 (or Ch 361, 363), 371, 380, 425, 426, 430, 472, 473, 484, 485, 496, 497, and 498. Also required are Mt 134, 135, 136, 233 and 234; ECL 321, 323, 331, 337 and 402; EEL 301; Ph 200, 201, and either Ph 202 or Ch 115; and Ch 114. With approval, qualified students may substitute equivalent or more advanced courses for those listed. This degree is approved by the Engineers' Council for Professional Development.

Bachelor of Engineering — 55 credits in engineering, 25 credits in mathematics, and at least 10 credits in physics, chemistry or biology. Not intended to be an entry-level degree into the engineering profession.

# **Mechanical Engineering Courses**

EML 105 Engineering Graphics and Analysis 5 credits
Engineering Communication. Drafting instruments,
lettering, orthographics, isometrics, free-hand
sketching, dimensioning. Descriptive geometry.
Vector algebra. Elementary programming. Five twohour sessions per week. (fall)

Vector algebra. Equilibrium of forces and moments, distributed forces, hydrostatics, friction, virtual work; all applied to simple bodies. Four lectures, one-hour problem session per week. Prerequisites: Mt 135 (or concurrent), EML 105.

EML 200 Cooperative Work Study Assignment 0 credits Field experience in an approved job assignment in industry or government. The assignment will be selected for its value in advancing the professional education of the student. May be taken four times.

## EML 269 Production Processes I EML 270 Production Processes II

1 credit

Study of the processes used in forming and shaping engineering materials; lectures, demonstrations and laboratory work on machining processes. One lecture and three laboratory hours per week. Prerequisite: Sophomore standing, ME 269 for 270. (I-fall, II-winter)

# **EML 281 Dynamics**

5 credits

Vectors applied to kinematics and kinetics. Particle, system of particles, and rigid bodies related to translation, rotation, plane motion, relative motion, forces. Impulse-momentum, work, energy. Four lecture hours, one-hour problem session. Prerequisites: EML 113, Mt 135. (winter)

EML 291 Special Topics EML 292 Special Topics EML 293 Special Topics 1-5 credits 1-5 credits

1-5 credits

# EML 300 Cooperative Work Study Assignment 0 credits Field experience in an approved job assignment in industry or government. The assignment will be selected for its value in advancing the professional education of the student. May be taken four times.

## **EML 321 Engineering Thermodynamics I**

5 credits

Thermal properties of ideal and real gases, liquids, vapors and mixtures. Conservation of energy. Convesion of thermal energy to work. Power, efficiency, cycles, compressible gas flow. Prerequisite: ECL 331. (winter)

# EML 371 Machine Design I

3 credits

Relation of engineering fundamentals and properties of materials to the design, layout and details of specific machines; computation techniques and use of digital and analogue computers. Prerequisites: EML 281, ECL 323, 331. (spring)

# EML 380 Heat Transfer I

5 credits

Heat transfer—conduction, convection, and radiation. Conduction in one and two dimensions, steady state and transient. Forced and natural convection with phase change. Applications. Four lecture hours, one four-hour laboratory per week. Prerequisite: EML 321. (spring)

Field experience in an approved job assignment in industry or government. The assignment will be selected for its value in advancing the professional education of the student. May be taken four times.

#### **EML 425 Power Plants I**

5 credits

Thermodynamics applied to ideal and real cycles, internal and external combustion engines, fans, blowers, compressors, nozzles, refrigeration, air conditioning, liquifaction of gases. Four lectures, one four-hour laboratory per week. Prerequisite: EML 321. (fall)

#### **EML 426 Power Plants II**

5 credits

Thermodynamics, heat transfer, fluid mechanics applied to design of modern thermal power stations and auxiliaries with economic and ecologic integration into regional power systems. Four lectures, one four-hour laboratory per week. Prerequisite: EML 425. (winter)

# **EML 428 Environmental Engineering**

4 credi

Man-machine systems. Engineer's approach to multi-disciplinary aspects of environmental control. Psychological and physiological principles of one's interrelation with the surroundings. Three lectures, one four-hour laboratory per week. Prerequisite: EML 321.

# EML 430 Principles of the Properties of Materials I

5 credits

Atomic structure. Metallic bond. Structure of metals and non-metals. Equilibrium diagrams. Time-dependent transformations. Relation of structure to properties. Elastic and plastic deformation. Three lectures, one four-hour laboratory per week.

EML 472 Machine Design II 3 credits
EML 473 Machine Design III 3 credits
EML 474 Machine Design IV 1-5 credits

II. Philosophy of design, a creative approach, and a comprehensive design project; planning, organizing and leading an engineering project; exercising judgment and considering economic factors. III. Integrated aspects of creative design and analysis; case studies; design of a novel device or system; electromechanical, hydraulic and pneumatic systems; energy conversion. IV. Project work. Prerequisites: EML 371 for 472; 472 for 473; 473 for 474. (II-fall, III-winter)

# EML 477 Experimental Mechanics 1-5 credits

Measurements by means of mechanical, electric, magnetic, optical sensing devices. Control systems. Vibration, shock and impact measurements. Interpretation of results. Prerequisites: ECL 337, EML 371.

# EML 478 Compressible Flow I 5 credits

One-dimensional gas dynamics including flow in nozzles and diffusers, normal shocks, frictional flows and flows with heat transfer and energy release. Prerequisites: ECL 331, EML 322.

# EML 479 Theoretical Hydrodynamics 5 credits

Ideal fluid motion. Euler's equation. Potential flow. LaPlace equation. Hydrodynamics singularities, two and three dimensional flow. Conformal transformation. Flow around objects. Prerequisite: Permission.

#### EML 481 Heat Transfer II 5 credits

Advanced topics in conduction, convection, and radiation. Mass transfer and diffusion. Four lectures, one four-hour laboratory per week. Prerequisite: EML 380.

#### **EML 484 Linear Systems Analysis**

5 credits

Dynamics of linear systems. Classical and transform methods of differential equation analysis. Experimental methods. Analog and digital computer methods. Four lectures, one four-hour laboratory per week. Prerequisites: EML 321, EML 371. (winter)

# EML 485 Control Systems I

5 credits

Feedback control system analysis. System elements and their transform functions. Criterions and plots. Analog and digital computer simulation. Four lectures, one four-hour laboratory per week. Prerequisite: EML 484 (spring)

EML 487	Seminar					2 credits
<b>EML 488</b>	Seminar					2 credits
EML 489					- 3/18	2 credits
	Prerequisite:	Senior	standing.	(fall,	winter,	spring)

EML 491 Special Studies	2-5 credits
EML 492 Special Studies	2-5 credits
FMI 493 Special Studies	2-5 credits

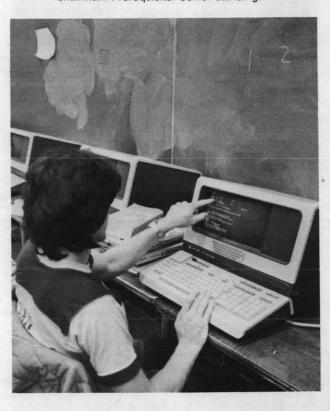

EML	496 Independent Study	1-5 credits
	497 Independent Study	1-5 credits
	498 Independent Study	1-5 credits

Selected subjects of current interest in mechanical engineering; assigned reading and/or experiments on an individual basis in consultation with the instructor; written report and oral delivery required. Prerequisite: Senior standing.

# **EML 499 Thesis**

2 credits

In special cases a thesis may be substituted in place of seminar with the approval of the department chairman. Prerequisite: Senior standing.

# Physics Reed A. Guy, Ph.D., Chairman

# **Objectives**

The Physics department offers three programs leading to degrees. For those who wish a career in physics, the Bachelor of Science in Physics program takes the student from classical mechanics through quantum mechanics, including advanced laboratory courses emphasizing nuclear and nuclear reactor physics. This curriculum is designed to prepare students for advanced work in pure and applied physics or for graduate study. For those who wish a broader training in the sciences in addition to a rigorous program in physics, the Bachelor of Science program offers the flexibility that is required. The Bachelor of Arts program is ideal for those who desire a solid background in physics along with a broad liberal arts education.

## **Degrees Offered**

Bachelor of Arts Bachelor of Science Bachelor of Science in Physics

# **General Program Requirements**

Students majoring in physics must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin, except that for the Bachelor of Science and Bachelor of Science in Physics degrees, 15 credits of history and/or social science are required.

Bachelor of Arts — 45 credits in physics which must include Ph 200, 201, 202, 203, 290, 310, 330 and 375. A minimum of 15 additional credits in a related science is required.

Bachelor of Science—60 credits in physics which must include Ph 200, 201, 202 and 203; 30 credits in mathematics or science electives. (Ph 101, 110, 111 may not be counted toward the 60 credits).

Bachelor of Science in Physics — 70 credits in physics consisting of Ph 200, 201, 202, 203, 290, 310, 311, 330, 331, 361, 375, 481, 485 and 470 or 475. Mathematics 134, 135, 136, 233 and 234 are required. Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

Teaching Major (School of Education) — 45 credits in physics and mathematics; 30 credits in physics which must include Ph 105, 106, 107, 110, and 10 elective credits. Ph 290 and 375 are recommended electives, and Ph 200, 201, 202 may be taken in place of 105, 106, 107 for those students who desire a more rigorous background in general physics. The required 15 credits in mathematics must include 10 credits in calculus and computer. (Mt 134, 214).

Undergraduate Minor — 30 credits in physics which must include either Ph 105, 106, 107 or Ph 200, 201, 202, 203. Ph 101, 110, and 111 may not be counted toward the minor.

#### **Bachelor of Science in Physics**

Freshman Year	
Physics 200	15 credits
Sophomore Year	
Physics 201, 202, 203, 290  Mathematics 233, 234  Core options  Elective	10 credits
Junior Year	
Physics 310, 311, 330, 331, 361, 375 Core options	10 credits
Senior Year	
Physics 481, 485, and 470 or 475 Core options	

Electives ......20 credits

## **Physics Courses**

Note: Ph 105, 106, 107, 200, 201, 202, 290, 375, and 475 have four lectures and one laboratory per week. All other physics courses have five lectures per week except as noted.

Ph 101 Energy Sources and Uses 5 credits
The demand for energy; methods of power generation; energy resources; end uses of energy; energy conservation principles; environmental and economic factors; energy in the Pacific Northwest. Core science option.

Ph 105 Mechanics and Sound 5 credits

Non-calculus survey of classical mechanics. Statics, kinematics, and dynamics of particles and systems; harmonic motion, waves, and sound. Prerequisite:

Mt 112 or equivalent. (fall)

Ph 106 Electricity and Magnetism 5 credits
Survey of electromagnetism. Electrostatics, magnetostatics, electromagnetic fields, dc and ac circuits. Prerequisite: Ph 105. (winter)

Ph 107 Survey of Modern Physics 5 credits
Introduction to thermodynamics and optics.
Selected topics in atomic, nuclear, solid state, and biological physics. Prerequisite: Ph 106. (spring)

Ph 110 Introduction to Astronomy of the Solar System 5 credits

Apparent motions of heavenly bodies. Real motions and physical properties of the sun, moon, planets, and minor bodies of the solar system; telescopic observation available. Core science option.

Ph 111 Introductory Stellar Astronomy 5 credits
Survey of the nature and evolution of the stars; neutron stars, pulsars, black holes; nebulae, galaxies, quasars; the origin and evolution of the universe; telescopic observation available. Core science option.

Ph 200 Mechanics 5 credits

Vector mathematics; kinematics; conservation of momentum and collisions; relative motion and reference frames; force and Newton's laws; work, energy, and power; rotational dynamics; rigid body motion, gravitation. Prerequisite: Mt 134. (spring)

Ph 201 Electricity and Magnetism 5 credits
Electric charge, forces, fields, flux; Gauss' law; electric potential; conductors, dielectrics, capacitance; current and resistance; DC circuits; magnetic forces, fields; inductance; AC circuits. Prerequisites: Ph 200 and Mt 135. (fall)

Ph 202 Waves, Optics and Thermodynamics 5 credits
Harmonic Motion; mechanical and electromagnetic
waves; reflection, refraction, dispersion, interference, diffraction and polarization. Temperature, ideal gases, kinetic theory, second law of thermodynamics. Prerequisite: Ph 201. (winter)

Ph 203 Modern Physics 5 credits
Special relativity; particle aspects of radiation; wave aspects of matter; uncertainty principle; Schrodinger equation; atoms, nuclei, and elementary particles. Prerequisites: Ph 202, Mt 136. (spring)

Ph 290 Measurement and Instrumentation

Fundamentals

Measurement of quantities such as flow, position, strain, radiation, velocity, current, power, temperature, voltage. Conversion by transducers into electrical signals and processing for recording, observation or control. Prerequisites: Mt 134 and Ph 106 or 201. (spring)

1-5 credits **Special Topics** Ph 291 1-5 credits Ph 292 **Special Topics** Ph 293 **Special Topics** 1-5 credits Ph 296 **Independent Study** 1-5 credits Ph 297 Independent Study 1-5 credits Ph 298 Independent Study 1-5 credits Directed reading and/or lectures at a lower division level. Prerequisite: Permission of instructor.

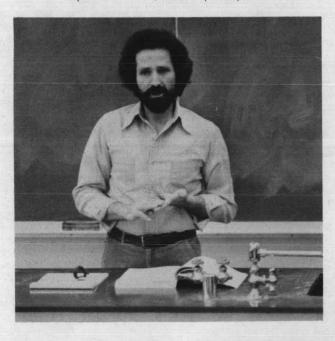

Ph 300 Cooperative Work Study Assignment 0 credits
Field experience in an approved job assignment in
industry or government. Assignment will be selected
for value in advancing the professional education of
the student. Prerequisite: Permission of the Dean.

Ph 310 Intermediate Mechanics I 5 credits

Vector calculus; kinematics of a particle; one-dimensional motion of a particle; two and three dimensional dynamics of a particle; moving reference systems; central forces and celestial mechanics. Prerequisites: Ph 200, Mt 234. (fall)

Ph 311 Intermediate Mechanics II 5 credits
Systems of particles; rigid body motion in a plane;
general motion of a rigid body; Lagrange's equations; Hamilton's equations; small vibrations. Prerequisite: Ph 310. (winter)

Ph 330 Electricity and Magnetism I 5 credits
Static electric fields in vacuum and material media;
solutions of Laplace's and Poisson's equations in
curvilinear coordinates; static magnetic fields; timevarying fields and Maxwell's equations. Prerequisites: Ph 201, Mt 234. (winter)

Ph 331 Electricity and Magnetism II 5 credits
Magnetic materials; derivation and solutions of wave
equations; plane waves in vacuum and material
media; fields of a moving charge; accelerated
charges and radiation; covariant formulation of electrodynamics. Prerequisite: Ph 330. (spring)

Ph 350 Acoustics 3 credits
Oscillation; waves; relfection and refraction of sound
waves; attenuation; superposition of acoustical
waves; ultrasonics. Prerequisites: Ph 107 or equivalent, Mt 131 or 134, enrollment in Allied Health Technology or permission. (fall)

Ph 361 Solid State Physics and Devices 5 credits
Crystal structure and defects; interatomic binding; thermal and electrical properties; energy bands, carrier statistics and carrier transport phenomena.
Semiconductor devices. Prerequisite: Ph 203. (fall)

Ph 375 Nuclear Instrumentation 5 credits
Ionizing radiation. Nuclear decay processes, interaction of radiation with matter, instrumentation for
the detection of photons, charged particles, and
neutrons. Prerequisite: Ph 107 or Ph 202. (spring)

Ph 391	Special Topics	1-5 credits
Ph 392	Special Topics	1-5 credits
Ph 393	Special Topics	1-5 credits
Ph 396	Independent Study	1-5 credits
Ph 397	Independent Study	1-5 credits
Ph 398	Independent Study	1-5 credits

Ph 470 Nuclear Physics 5 credits
Structure and properties of nuclei and elementary particles; symmetries and conservation laws; electromagnetic, weak, and hadronic interactions;

nuclear models. Prerequisite: Ph 485. (spring)

Ph 475 Nuclear Fission and Fusion Reactors 5 credits
Physics of fission and fusion reactors; experiments
on operational parameters of fission reactors.
Discussion of environmental impact. Prerequisites:
Ph 203 and junior standing or permission.

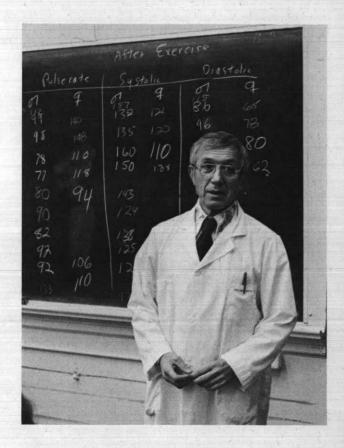

Ph 481 Theoretical Physics 5 credits

Matrices, determinants, Fourier series, integral
transforms, tensor analysis, complex variables, coordinate transformations, partial differential equations, special functions. Prerequisite: Mt 234. (fall)

Ph 485 Quantum Mechanics 5 credits
Wave-particle duality, the state function, the
Schrodinger equation, one-dimensional problems,
the operator formalism, matrices, central forces,
angular momentum, spin, identical particles. Prerequisite: Ph 481. (winter)

Ph 491	Special Topics	1-5 credits
Ph 492	Special Topics	1-5 credits
Ph 493	Special Topics	1-5 credits

	Ph 496	Independent Study	1-5 credits
0		Independent Study	1-5 credits
U	Ph 498	Independent Study	1-5 credits

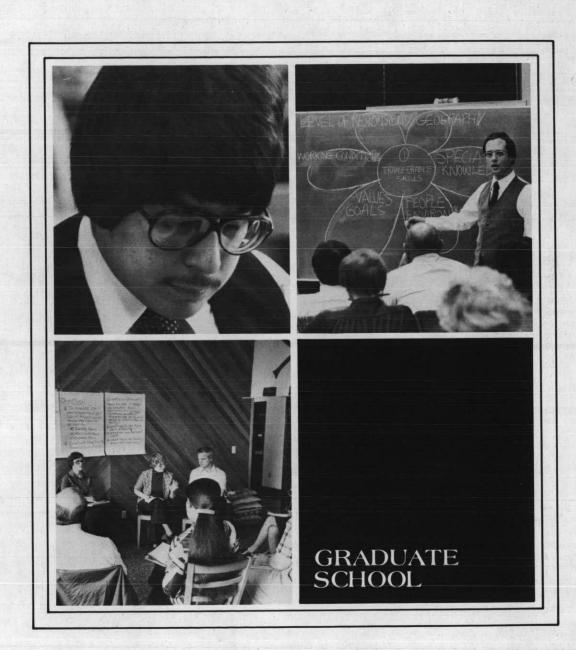

# **Premedical and Predental**

George A. Santisteban, Ph.D., Adviser

Students wishing to enter professional schools of human, dental, or veterinary medicine or graduate school in biomedical studies, should matriculate in a program of studies leading to a bachelor's degree in any academic field which will give a broad training in the liberal arts and allow them to fulfill the proper premedical requirements in the physical and biological sciences. Premedical students may choose any academic major; most students elect biology, chemistry, physics, general science or psychology. Within the framework of any one of the degree programs, students obtain strong backgrounds in the liberal arts and humanities, as set up in the core curriculum. For further clarification of degree requirements and the core curriculum, see page 18 of this bulletin.

Most medical, dental or veterinary schools require the following undergraduate science sequences: Chemistry 114, 115, 116, 235, 236, 237; Biology 165, 166, 167, 310 and 326, 327 or 280, 330 (Bl 300 is required for predental students); and Physics 105, 106, 107. Bl 270, 231 and 350 are highly recommended. Professional schools also recommend calculus, biochemistry, or physical chemistry. Students are advised to consult the bulletins of the professional schools to which they wish to apply to acquaint themselves with specific requirements other than those listed. Students should plan to complete preprofessional requirements by the end of their junior year, at which time they should take the MCAT or DAT tests. Application for admittance to professional schools should be made during the summer or fall of the senior year.

# Graduate School Marylou Wyse, Ph.D., Dean

Graduate studies directed toward the master's degree were first offered at Seattle University in 1910 in a division of its College of Arts and Sciences. In 1935 graduate courses became an integral part of the University's teaching education program. In 1976 the first doctoral program began.

# **Objectives**

Graduate School programs involve courses advancing by gradation into greater complexity and profundity. The content of graduate courses is of a more advanced nature, the requirements in terms of bibliography, quantity and quality of thinking and writing are higher, and the degree of initiative, the organizing ability and originality expected is greater.

Only a limited number of undergraduate courses may be accepted for credit. Graduate students should not consider the mere literal fulfillment of requirements as conferring the right upon them to continued registration. Academic advancement and eligibility for degrees are contingent also upon recommendation and approval of the Graduate Committee of the school or department and the University Graduate Council.

# Organization

Administration of the Graduate School and supervision of all programs leading to the master's and doctor's degrees lies with the Dean of the Graduate School and the Graduate Council. The Dean of the Graduate School and the Council establish and maintain requirements for degrees according to the recommendations of the graduate committee of each school of the University.

The component schools and various departments provide courses of instruction for graduate students, direct their studies, conduct examinations, maintain requirements and make recommendations. Academic transactions involving admission, registration and awarding of degrees are supervised by the University's Registrar. Actual admission to graduate study is

granted through the Dean of the Graduate School in consultation with the appropriate graduate program director involved in the counseling of the applicant.

# **Degrees Offered**

For admission and program requirements see the Seattle University Graduate Bulletin.

Graduate Degrees offered by the University are:

#### ARTS AND SCIENCES

Master of Arts—Rehabilitation
Master of Pastoral Ministry
Master of Religious Education (summer only)

# BUSINESS

Master of Business Administration

#### **EDUCATION**

Master of Arts in Education Master of Education

These two degrees may be earned with specialization in the following areas: administration, curriculum and instruction, curriculum and instruction (with emphasis in physical education and recreation), counseling and adult education administration.

Master of Counseling Doctor of Education

PUBLIC SERVICE
Master of Public Administration

# SCIENCE AND ENGINEERING

Master of Software Engineering Master of Transportation Engineering

# **Board of Trustees**

Robert D. O'Brien, Chairman Univar Corporation

Frank E. Case, S.J., Assistant Professor of Business, Seattle University

John H. Gray, S.J., Academic Vice President, St. Louis University

Thomas F. Healy, S.J.
President, Matteo Ricci College

Gene E. Lynn

The Careage Corporation

L. John Topel, S.J., Associate Professor of Theology and Religious Studies, Seattle University

**Genevieve Albers** 

Seattle, Washington

Robert L. Sheeran, Vice President and Manager, Merrill, Lynch, Pierce, Fenner & Smith

Charles Z. Smith, Professor of Law, University of Washington Law School

William J. Sullivan, S.J.

President, Seattle University

Joseph Tetlow, S.J.

Associate Editor, AMERICA Magazine

Kelly Waller, President

Safeco Life Insurance Company

J. Kevin Waters, S.J., Associate Professor of Music, Seattle University

# **Board of Regents**

Ann (Mrs. T. Evans) Wyckoff, Chairman Seattle, Washington Genevieve Albers, Seattle Washington Thomas J. Bannan (Emeritus)

Indian Wells, California

John Beyer, President, General Construction Co.

John K. Blume, President

University Enterprises, Inc.

William E. Boeing, Jr., Chairman of the Board, Tri-Land Corporation

E.H. Boullioun, President

Boeing Commercial Airplane Co.

Jane (Mrs. Prescott) Branstetter Ferndale, California

Eugene, Brenner, Attorney Janin, Morgan and Brenner

Cliff Burglin, Fairbanks, Alaska

William R. Chandler, Boise, Idaho Joseph R. Curtis, Vice Chairman

Seattle First National Bank

Ralph M. Davis, Chairman

Puget Sound Power and Light Company

Robert D. Frause, B.A.

Director of Development and Communications

Steven C. Kocharhook, Ph.D.

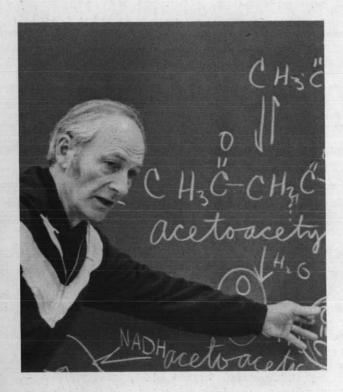

Director for Planned Gifts

Jean Merlino, B.A.

**Director of University Publications** 

Paul D. Seely, M.Ed.

**Executive Director of Alumni Relations** 

# **FACULTY**

The dates following faculty names indicate initial and subsequent appointments or return from leave to the University faculty. Asterisks preceding names denote faculty members on leave of absence. Daggers (†) following names indicate Graduate School faculty members.

# Clarence L. Abello, B.Econ. (1953)

Associate Professor Emeritus

B.Econ., 1933, University of London; Contrador Publico Nacional, 1937, Universidad Nacional de Buenos Aires, Facultad de Ciencias Econo-

# James G. Adams, Lt. Col, M.S. (1977)

Chairman, Military Science Department

Professor of Military Science

B.S., 1957, Oregon State University; M.S., 1973, University of Kansas.

# Josef C. Afanador, Ed.D. (1975)†

Assistant Professor of Rehabilitation B.A., 1963, Butler University; M.S., 1967, Purdue University; Ed.D., 1971, University of Arizona.

# Richard H. Ahler, S.J., S.T.D. (1977)†

Chairman, Theology and Religious Studies

Associate Professor of Theology and Religious Studies

A.B., 1954, Ph.L., 1956, St. Louis University; M.A., 1957, Marquette University; S.T.L., 1963, St. Louis University; S.T.D., 1975, Gregorian University.

# Mary A. Alberg, Ph.D.. (1979)

Assistant Professor of Physics

B.A., 1963, Wellesley College; M.S., 1970, Ph.D., 1974, University of Washington.

# Lewis E. Aldrich, Jr., Ph.D. (1968)

Professor of Biology

B.A., 1950, Linfield College; M.S., 1954, Ph.D., 1960, Oregon State College

## Irene Allen, M.L. (1970)

Associate Librarian

B.A., 1968, M.L., 1969, University of Washington.

#### Julian B. Andersen, Ph.D. (1970)†

Associate Professor of Business

A.S., 1958, Weber State College; B.S., 1960, Ph.D., 1966, Utah State University.

#### Gary L. Atkins, M.A. (1978)

Assistant Professor of Journalism

A.B., 1971, Loyola University; M.A., 1972, Stanford University.

# Englebert M. Axer, S.J., Ph.D. (1941; 1955; 1971)

Professor Emeritus

A.B., 1930, Valkenburg, Holland; S.T.L., 1940, St. Louis University; M.A., 1941, Gonzaga University; Ph.D., 1949, Georgetown University.

# Joan P. Baker, M.S.R.-R.D.M.S. (1977)

Director, Allied Health Technology

Assistant Professor of Allied Health

Member Society Radiographers, England, 1960; American Registry Diagnostic Medical Sonographers, 1975.

#### Mary C. Bartholet, M.S. (1958; 1965)

Associate Professor of Nursing

B.S., 1949, College of St. Teresa; M.S., 1958, St. Louis University.

#### Ernest P. Bertin, S.J., Ph.D. (1957; 1964; 1971)

Professor of Chemistry

A.B., 1944, M.A., 1945, Gonzaga University; S.T.L., 1952, Alma College; Ph.D., 1957, University of Notre Dame.

#### William N. Bischoff, S.J., Ph.D. (1969)

Research Professor of History

B.A., 1940, M.A., 1942, Gonzaga University; S.T.B., 1948, Alma College; Ph.D., 1950, Loyola University, Chicago.

# Francis X. Bisciglia, S.J., M.A. (1963)

Associate Professor Emeritus

A.B., 1938, M.A., 1939, Gonzaga University; S.T.L., 1947, St. Louis University; M.A., 1952, Fordham University.

\*Roger E. Blanchette, S.J., M.A. (1966)†
Assistant Professor of Theology and Religious Studies
A.B., 1957, M.A., 1959, Gonzaga University; S.T.B., 1965, Alma College; M.A., 1965, University of Santa Clara.

# Leslie A. Blide, B.A. (1979)

Instructor in Health Information

B.A., 1950, Mount Holyoke College.

# Dorothy G. Blystad, B.A. (1963)

Assistant Professor of Education

B.A., 1947, Colorado University.

#### Hamida H. Bosmajian, Ph.D. (1966; 1974)

Associate Professor of English

B.A., 1961, University of Idaho; M.A., 1962, Ph.D., 1968, University of Connecticut.

# Susanne M. Bruyere, Ph.D. (1975)

Assistant Professor of Rehabilitation

B.A., 1970, D'Youville College; M.S.Ed., 1972, University of Southern California; Ph.D., 1975, University of Wisconsin.

# John P. Burke, Ph.D. (1967; 1977)

Chairman, Philosophy Department

Associate Professor of Philosophy B.A., 1965, Gonzaga University; M.A., 1967, St. Louis University; Ph.D., 1978, University of Louvain.

# Norma Jean Bushman, M.N. (1960)

Associate Professor of Nursing

B.S.N, 1959, M.N., 1960, University of Washington.

#### J. Gerard Bussy, S.J., Ph.D. (1948)

Professor Emeritus

L.Ph., 1933, S.T.L., 1937, Gregorian; M.A., 1952, Seattle University; Ph.D., 1957, University of Washington.

# Robert E. Callahan, Ph.D. (1977)

Assistant Professor of Business

B.S., 1967, M.B.A., 1969, Drexel University; Ph.D., 1977, Case Western Reserve University.

#### Robert J. Carmody, S.J., Ph.D. (1943)

Professor Emeritus

A.B., 1931, M.A., 1932, Gonzaga University; S.T.L., 1939, Alma College; Ph.D., 1949, University of Washington.

# Emmett H. Carroll, S.J., M.A. (1973)

Assistant Professor of English

B.A., 1955, Gonzaga University; M.A., 1963, Gregorian University; M.A., 1966, Rutgers University.

# Frank E. Case, S.J., M.A. (1975)†

Assistant Professor of Business

A.B., 1962, M.A., 1965, Ph.L., 1965, St. Louis University; S.T.M., 1970, University of Santa Clara.

#### Ben Cashman, Ph.D. (1962; 1967)

Chairman, Political Science Department

Professor of Political Science

B.A., 1949, University of Washington; M.A., 1950, Fletcher School of Law and Diplomacy; Ph.D., 1969, University of Washington.

#### Gary L. Chamberlain, Ph.D. (1979)†

Associate Professor of Theology and Religious Studies B.A., 1962, Ph.L., 1963, St. Louis University; M.A., 1967, University of Chicago; Ph.D., 1973, Graduate Theological Union.

# Chu Chiu Chang, M.A. (1956)

Associate Professor of Mathematics

A.B., 1942, Central Political Institute, Chungking, China; M.A., 1956, University of Washington.

# John P. Chattin-McNichols, Ph.D. (1979)†

Assistant Professor of Education

A.B., 1973, University of California at Los Angeles; Ph.D., 1979, Stanford University.

#### Percy H. Chien, Ph.D. (1976)

Associate Professor of Civil Engineering

B.S.C.E., 1962, National Taiwan University; M.S.C.E, 1967, University of Houston; Ph.D, 1972, Clemson University.

# Louis K. Christensen, Ph.D. (1965)

Professor of Music

B.A., 1954, M.A. (Mus.) 1956, Ph.D., 1961, University of Washington.

# Janet M. Claypool, M.N. (1966)

Associate Professor of Nursing

B.S.N., 1959, M.N., 1960, University of Washington.

# Gerald L. Cleveland, Ph.D. (1967; 1977)†

Professor of Accounting

B.S.B.A., 1953, University of South Dakota; M.B.A., 1957, University of Minnesota; Ph.D., 1965, University of Washington.

# Mary Cobelens, M.L. (1971)

Assistant Librarian

B.A., 1959, Central Washington State; M.L., 1971, University of Washington.

# James V. Connors, S.J., M.A. (1961; 1972)

Associate Professor of Drama

A.B., 1953, Gonzaga University; S.T.B., 1958, University of Santa Clara; M.A., 1960, San Francisco State College.

# Paul P. Cook, Jr., Ph.D. (1962) Associate Professor of Biology

B.A., 1951, M.A., 1952, University of Kansas; Ph.D., 1962, University of California.

# Constance D. Cooper, Ed.D. (1979)†

Assistant Professor of Education

B.A., 1953, University of Michigan; M.A., 1963, Ed.D., 1971, Wayne State University.

#### Robert H. Cousineau, S.J., Docteur (1975)

Professor of Philosophy

B.A., 1953, M.A., 1954, Boston College; Ph.L., 1954, Weston College; S.T.L., Woodstock College; Docteur, 1969, University of Paris.

# Thomas W. Cunningham, Ph.D. (1959; 1965)

Professor of Psychology

B.A., 1956, Seattle University; M.S., 1959, Ph.D., 1966, University of Portland.

#### Nikolas J. Damascus, M.F.A. (1951)

Professor of Art

B.F.A., 1944, M.F.A., 1947, Art Institute of Chicago.

## Margaret Mary Davies, Ph.D. (1955; 1971)

Professor Emeritus

A.B., 1938, Ph.D., 1960, University of Washington.

# George D. Davis, M.S. (1969)

Associate Professor of Biology

B.S., 1956, M.S., 1960, University of Tulsa.

#### Verelle M. Davis, M.S. (1972)

Assistant Professor of Nursing

B.S., 1959, University of Washington; M.S., 1970, Catholic University.

# Rosario T. DeGracia, M.S. (1963)

Associate Professor of Nursing

B.S.N., 1954, University of the Philippines; M.S., 1959, Western Reserve University.

# Robert J. Deltete, M.A. (1978)

Instructor in Philosophy

B.A., 1969, Seattle University; M.A., M.A., M. Phil., 1976, Yale University.

# Bonnie Jean Denoon, Ph.D. (1975)†

Assistant Professor of Education

B.A., 1961, M.Ed., 1966, Wichita State University; Ph.D., 1975, Peabody College.

#### Anne I. DeVore, Ph.D. (1978)

Assistant Professor of Psychology

B.A., 1963, M.A., 1971, Ph.D., 1979, University of Colorado.

# Khalil (Charles) Dibee, Ph.D. (1964)†

Professor of Finance

B.S., 1956, University of Detroit; M.B.A., 1958, Ph.D., 1962, University of Texas.

# Joseph P. Donovan, S.J., Ph.D. (1948; 1966)

**Professor Emeritus** 

A.B., 1938, Gonzaga University; M.A., 1940, Georgetown University; Ph.D., 1948, University of Pennsylvania.

# Michael M. Dorcy, S.J., Ph.D. (1978)

Assistant Professor of History

A.B., 1962, M.A., 1967, Ph.L., 1969, St. Louis University; M. Div., 1970, St. Mary's University; S.T.B., 1970, College d'Immaculee Conception; Ph.D., 1978, University of Pennsylvania.

# William J. Dore, Jr., M.A. (1963)

Associate Professor of Drama

B.A., 1954, M.A., 1957, University of Washington.

## Thomas E. Downey, Ph.D. (1957)

Professor Emeritus A.B., 1932, M.A., 1934, Loyola University, Chicago; Ph.D., 1944, University of California.

#### Jerome R. Dunham, Ph.D. (1974)

Assistant Professor of Rehabilitation

B.A., 1946, M.A., 1947, University of Michigan; Ph.D., 1964, Texas Technological College.

Robert J. Egan, S.J., Ph.D. (1964; 1972)†
Associate Professor of Theology and Religious Studies
B.A., 1955, Gonzaga University; S.T.L., M.A., 1963, St. Mary's University; Ph.D., 1973, Fordham University.

# \*David H. Ehlers, Ph.D. (1973)

Associate Professor of Physics

1964, Western Washington State College; Ph.D., 1970. Washington State University.

# Mary B. Ehlers, Ph.D. (1974)

Chairman, Mathematics

Associate Professor of Mathematics

B.A., B.A. in Ed., 1964, Western Washington State College; M.A., 1966,

Ph.D., 1969, Washington State University.

John D. Eshelman, Ph.D. (1969)†

Dean, Albers School of Business Associate Professor of Economics

B.S., 1963, Harding College; M.A., 1967, Ph.D., 1971, University of Washington.

Patricia Ann Ferris, Ph.D. (1967)

Dean, School of Nursing Professor of Nursing

B.S., 1951, St. Mary's College, Indiana; M.S., 1958, Western Reserve University; Ph.D., 1972, University of Washington.

Lewis Filler, D. Eng. Sci. (1962; 1978)†

Professor of Mechanical Engineering

B. Aero. Eng., 1953, M. Aero. Eng., 1954, D. Eng. Sci., 1958, New York University.

John L. Finch, Ph.D. (1978)

Assistant Professor of Business

B.A., 1965, M.A., 1968, Ph.D., 1977, University of Washington.

Alice L. Fisher, M.S.P.H. (1950)

Professor Emeritus

B.S.N., 1930, University of Minnesota; M.S.P.H., 1936, University of Michigan.

Linda C. Fitzpatrick, Ph.D. (1978)

Assistant Professor of Public Service

A.B., 1967, Radcliffe/Harvard; M. Urb. Plan., 1974, Ph.D., 1978, University of Washington.

C. Patrick Fleenor, Ph.D. (1973)†

Associate Professor of Business

B.A., 1969, Boise State College; M.B.A., 1970, Ph.D., 1975, University of Washington.

Donald J. Foran, Ph.D. (1975)

Assistant Professor of English

A.B., 1966, M.A., 1967, Gonzaga University; S.T.M., 1975, Jesuit School of Theology; Ph.D., 1973, University of Southern California.

Winfield S. Fountain, Ed.D. (1957)

**Professor Emeritus** 

B.A., 1939, North Idaho College of Education; M.Ed., 1953, Ed.D., 1956, University of Washington.

Louis Gaffney, S.J., Ph.D. (1956; 1976)

Professor of Psychology

A.B., 1942, M.A., 1943, Gonzaga University; S.T.L., 1950, Alma College; Ph.D., 1956, University of Minnesota.

Brenda J. Geyer, M.N. (1976)

Assistant Professor of Nursing

B.S., 1970, Seattle Pacific College; M.N., 1976, University of Washington.

Frederick J. Gies, Ed.D. (1978)†

Dean, School of Education

Professor of Education

B.A., 1960, DePaul University; M.Ed., 1964, Ed.D., 1970, University of Missouri.

James P. Goodwin, S.J., M.A. (1950; 1966)

Chairman, Sociology Department

Professor Emeritus

B.A., 1937, M.A., 1938, Gonzaga University; M.A., 1950, Harvard University.

Lynne D. Green, M.S.E.E. (1979)

Instructor in Electrical Engineering B.A., 1974, Western Washington State College; M.S., 1975, M.S.E.E., 1978, University of Washington.

Robert B. Grimm, S.J., M.B.A. (1978)

Instructor in Business

A.B., 1971, Gonzaga University; M.Div., 1976, Weston School of Theology; M.B.A., 1978, New York University.

Kathye Jean Hanson Grisham M.N. (1976)

Assistant Professor of Nursing B.S., 1965, University of Wisconsin; M.N., 1967, University of Washington.

William A. Guppy, Ph.D. (1952)

Professor of Psychology

Ph.B., 1950, Seattle University; M.A., 1953, Ph.D, 1959, Loyola University, Chicago.

Reed A. Guy, Ph.D. (1975)

Chairman, Physics Department

Associate Professor of Physics

B.S., 1966, University of Alabama; Ph.D., 1970, University of Virginia.

Wynne A. Guy, M.A. (1979)

Instructor in Mathematics

B.A., 1966, University of Alabama; M.A., 1969, University of Virginia.

Karen G. Guyot, M.S.L.S. (1969)

Associate Librarian

B.A., 1966, State University of New York, Harpur College; M.S.L.S., 1968, University of North Carolina.

Margaret M. Haggerty, Ph.D. (1971)†

Professor of Education

B.S., 1957, College of St. Teresa; M.A., 1964, Ph.D., 1967, Catholic University.

Steen Halling, Ph.D. (1976)

Assistant Professor of Psychology

B.A., 1967, York University; M.A., 1970, Ph.D., 1976, Duquesne Uni-

Gerald Hampton, Ph.D. (1976)†

Associate Professor of Marketing

B.A., 1962, University of Washington; M.B.A., 1967, Ohio State University; Ph.D., 1973, University of Washington.

J. Hutchinson Haney, M.S. (1963)†

Assistant Professor of Rehabilitation

B.A., 1966, University of Denver; M.S., 1968, University of Arizona.

Mary Alice Hanken, M.Ed. (1972)

Assistant Professor of Health Information B.S., 1963, M.Ed., 1973, Seattle University.

John M. Harding, J.D. (1975)†

Associate Professor of Business

B.A., 1942, Yale University; J.D., 1948, Yale Law School.

Vernon J. Harkins, S.J., B.A., S.T.L. (1958; 1963) Assistant Professor of Philosophy

B.A., 1951, Gonzaga University; S.T.L., 1957, Alma College.

Charles R. Harmon, M.A. (1953)

Professor of History

B.S.S., 1950, Seattle University; M.A., 1957, University of Washington.

Kathleen M. Hartmann, B.S. (1979) Assistant Professor of Health Information

B.S., 1953, Seattle University.

Eugene A. Healy, S.J., Ph.D. (1952; 1967)

Professor Emeritus

A.B., 1936, M.A., 1937, B.S., 1945, Gonzaga University; S.T.L., 1944, Alma College; M.S., 1948, Fordham University; Ph.D., 1952, Columbia University.

Hildegard R. Hendrickson, Ph.D. (1967)†

Professor of Economics and Finance

B.A., 1958, M.B.A., 1959, Ph.D., 1966, University of Washington.

Kenny W. Hendrix, Capt., B.A. (1979)

Instructor in Military Science

B.A., 1972, Eastern Washington University.

Marvin T. Herard, M.F.A. (1960)

Professor of Art

B.A., 1954, University of Washington; M.F.A. 1960, Cranbrook Academy of Art.

Helon E. Hewitt, M.N. (1965)

Associate Professor of Nursing

B.S., 1959, M.N., 1961, University of Washington.

Shirley Hikogawa, M.S.W. (1976)

Assistant Professor of Community Services B.A., 1967, M.S.W., 1969, University of Washington.

#### Lee Hodson, M.L.S. (1957)

Associate Librarian

B.A., 1939, University of Redlands; M.L.S., 1942, University of Califor-

James B. Hogan, Ph.D. (1976) Assistant Professor of Political Science

A.B., 1957, Long Beach State; M.A., 1958, University of California at Los Angeles; Ph.D., 1970, Cornell University.

# Ray W. Howard, Ph.D. (1967)

Professor Emeritus

B.A., 1931, M.A., 1940, Ph.D., 1949, University of Washington.

#### Margaret L. Hudson, Ph.D. (1974)

Chairman, Biology Department Assistant Professor of Biology

B.S., 1968, Ph.D., 1974, University of Washington.

#### Jeanette A. Hulburt, M.L. (1964)

Associate Librarian

B.A., 1950, Seattle University; M.L., 1964, University of Washington.

# Gladys M. Hunter, M.Ed. (1955)

**Professor Emeritus** 

B.A., 1936, Valley City Teachers College; M.Ed., 1947, Teachers College, Columbia University.

# Dolly Ito, D.N.S. (1959; 1970; 1976)

Professor of Nursing

B.S., 1951, Gonzaga University; M.A., 1958, University of Washington; D.N.S., 1970, University of California at San Francisco.

#### Louis G. Jeannot, M.A. (1966)

Assistant Professor of Theology and Religious Studies
A.B., 1953, University of Portland; M.A., 1971, Marquette University.

# Dolores M. Johnson, Ph.D. (1964; 1967; 1971)

Associate Professor of English

B.A., 1960, M.A., 1964, Ph.D, 1971, University of Washington.

# Stephen Johnson, Jr., M.S.E.E. (1979)

Assistant Professor of Electrical Engineering

B.S.E.E., 1961, Purdue University; M.S.E.E., 1966, U.S. Naval Postgraduate School.

# Warren B. Johnson, Ph.D. (1962)

Associate Professor of History

B.A., 1947, M.A., 1952, Ph.D., 1962, University of Washington.

# Andrew J. Judd, B.A. (1976; 1980)

Instructor in Business

B.A., 1972, University of Washington.

#### Herbert M. Kagi, Ph.D. (1974)

Director, Community Services and Criminal Justice/Police Science Associate Professor of Community Services

and Criminal Justice/Police Science

A.B., 1955, M.A., 1963, Ph.D., 1963, Syracuse University.

# Leo B. Kaufmann, S.J., Ph.D. (1967)

Professor of Philosophy

B.A., 1944, M.A., 1945, Gonzaga University; S.T.L., 1952, Alma College; Ph.D., 1957, St. Louis University.

#### Michael M. Kelliher, S.J., D. Crim. (1972)

Associate Professor of Sociology

A.B., 1960, Gonzaga University; S.T.B., 1968, University of Santa Clara; M. Crim., 1969, D. Crim., 1972, University of California at Berkeley.

#### James W. King, S.J., S.T.D. (1959; 1972)

Associate Professor of Community Services Diploma, Voice, 1942, Sherwood Music School, Chicago; M.A., 1952, Gonzaga University; S.T.B., 1957, Alma College; Diplome, 1958, Institut Gregorien de Paris; S.T.D., 1971, San Francisco Theological Seminary.

# John L. Kite, Ph.D. (1974)

Assistant Prcfessor of Rehabilitation

B.S., 1966, M.Ed., 1968, Trinity University; Ph.D., 1974, University of

#### David R. Knowles, Ph.D. (1978)†

Assistant Professor of Economics

B.A., 1969, B.A., 1973, Ph.D., 1978, Washington State University.

#### Harry H. Kohls, S.J., Ph.D. (1966)

Associate Professor of Philosophy (Ret.)

A.B., 1935, M.A., 1936, Gonzaga University; Ph.D., 1952, Georgetown University.

#### Wendy Joan Kramer, M.S. (1978)

Assistant Professor of Nursing

B.Sc.N., 1967, University of Ottawa; M.S., 1969, University of California.

#### Ursel S. Krumme, M.A. (1977)

Assistant Professor of Nursing

B.S., 1961, M.A., 1962, New York University.

# Robert W. Kugelmann, Ph.D. (1978)

Assistant Professor of Psychology B.S., 1970, Manhattan College; M.A., 1976, Ph.D., 1978, University of Dallas.

# George D. Kunz, Ph.D. (1971)

Chairman, Psychology Department

Associate Professor of Psychology

A.B., 1960, Ph.L., 1961, Gonzaga University; M.A., 1964, Marquette University; Ph.D., 1975, , Duquesne University.

## Charles S. LaCugna, Ph.D. (1947)

Professor Emeritus

A.B., 1937, Manhattan College; M.A., 1944, Fordham University; Ph.D., 1960, University of Washington.

#### Jane P. LaFargue, M.N. (1969)

Associate Professor of Nursing

B.S., 1968, Boston University; M.N., 1969, University of Washington.

#### Val M. Laigo, M.F.A. (1965)

Associate Professor of Art

B.Ed., 1954, Seattle University; M.F.A., 1964, University of Washington.

# James Robert Larson, Ph.D. (1952)

Professor of Sociology

A.B., 1949, Seattle University; Ph.D., 1958, University of Washington.

# Kyu Y. Lee, Ph.D. (1979)†

Director, Software Engineering

Associate Professor of Software Engineering

B.A., 1960, Seoul National University; M.S., 1964, University of Detroit; Ph.D., 1969, Indiana University.

# William F. LeRoux, S.J., M.A., S.T.D. (1958)

Dean, College of Arts and Sciences

Professor of Theology and Religious Studies B.A., 1946, M.A., 1947, Gonzaga University; S.T.L., 1954, Alma College; S.T.D., 1959, Gregorian.

## Francis J. Lindekugel, S.J., M.A., S.T.L. (1946)†

Professor Emeritus

A.B., 1937, M.A., 1938, Gonzaga University; S.T.L., 1945, Alma College.

# Robert E. Lowery, Ed.D. (1978)†

Associate Professor of Education

B.Sc., 1955, M.Sc., 1957, Montana State University; M.S. Ed., 1958, Indiana University; Ed.D., 1966, University of Montana.

# Reba Y. Lucey, M.Ed. (1969)

Associate Professor of Physical Education and Recreation B.S., 1949, M.Ed., 1957, Sam Houston State Teachers College.

## Kenneth D. MacLean, M.A. (1961)

Associate Professor of English

B.A., 1952, M.A., 1957, University of Washington.

# Harry Majors, Jr., M.S. (1958)†

Director, Transportation Engineering

Professor Emeritus

B.S., 1935, University of California; M.S., 1939, California Institute of Technology; Registered Professional Engineer.

Badiul A. Majumdar, Ph.D. (1978)†

Assistant Professor of Business

B. Com., 1967, M. Com., 1968, University of Dacca; M.B.E., 1971, Claremont Graduate School; Ph.D., 1977, Case Western Reserve University.

Donald C. Malins, Ph.D. (1971)

Research Professor of Chemistry

B.A., 1953, University of Washington; B.S., 1956, Seattle University; Ph.D., 1967, University of Aberdeen.

Leonard B. Mandelbaum, Ph.D. (1973)†

Associate Professor of Business

B.A., 1954, Washington Square College; J.D., 1957, Yale Law School; M.A., 1966, Ph.D., 1974, American University.

Albert B. Mann, M.A. (1960)

Associate Professor of History

A.B., 1951, Gonzaga University; M.A., 1957, University of Washington.

R. Maxime Marinoni, Ph.D. (1964)

Chairman, Foreign Languages

Associate Professor of French

Licence, 1961, Universite de Grenoble; M.A., 1965, Ph.D., 1975, University of Washington.

David D. McCloskey, Ph.D. (1971; 1975; 1977)

Assistant Professor of Sociology

B.S., 1968, University of Oregon; M.A., 1970, Ph.D., 1978, New School-Social Research.

Alexander F. McDonald, S.J., M.A. (Oxon) (1969)

Chairman, English Department

Associate Professor of English

A.B., 1940; M.A., 1941, Gonzaga University; M.A., 1942, University of Detroit; S.T.L., 1948, Alma College; M.A., 1952, Oxford University.

James B. McGoldrick, S.J., Ph.D. (1931)

**Professor Emeritus** 

A.B., 1923, M.A., 1924, Gonzaga University; S.T.D., 1931, Gregorian; Ph.D, 1935, University of Washington.

James T. McGuigan, S.J., M.A., S.T.L. (1946; 1965)

Professor Emeritus

A.B., 1929, M.A., 1930, Gonzaga University; S.T.L., 1937, Alma College.

J.W. McLelland, M.A. (1947)†

Associate Dean, Albers School of Business

Professor of Finance

B.S., 1941, Seattle College; M.A., 1949, University of Washington.

Sister Mary Roberta McMahon, O.P., Ph.D. (1962)

Associate Professor Emeritus

B.A., 1936, M.Ed., 1953, University of Washington; Ph.D, 1963, St. Louis University.

Arthur L. McNeil, S.J., Ph.D. (1970)

Professor Emeritus

A.B., 1931, M.A., 1932, Gonzaga University; Ph.D., 1936, Catholic University of America; S.T.B., 1946, Alma College.

Paul B. Milan, Ph.D. (1966)

Associate Professor of French

B.A., 1964, Seattle University; M.A., 1966, Ph.D., 1972, University of Washington.

Derek M. Mills, M.P.A. (1975)† Assistant Professor of Public Service

B.A., 1973, M.P.A., 1976, University of Washington.

Joseph B. Monda, Ph.D. (1955; 1968)

Director, Summer School

Professor of English

A.B., 1949, St. Martin's College; M.A., 1950, Marquette University; Ph.D., 1968, University of Colorado.

Joan M. Moore, M.N. (1977)

Instructor in Nursing

B.S.N., 1971, Wisconsin State University; M.N., 1978, University of Washington.

John A. Morford, Ed.D. (1973)†

Professor of Education

B.Ed., 1955, Gonzaga University; M.Ed., 1961, Ed.D., 1963, University of

Gretchen C. Murphy, M.Ed. (1977)

Assistant Professor of Health Information

B.S., 1964, Seattle University; M.Ed., 1973, University of Washington.

Gail Nank, M.A. (1974; 1977; 1979)

Assistant Professor of Nursing

B.S., 1964, Columbia University; M.A., 1970, University of Washington.

Ralph K. O'Brien, Ed.D. (1953)

Professor of Education

B.S., 1939, Cortland State Teachers College; M.S.Ed., 1941, Syracuse University; Ed.D., 1954, University of Washington.

R. Michael O'Connor, Ph.D. (1974)†

Associate Professor of Education

B.A., 1962, M.Ed., 1969, University of Washington; Ph.D., 1974, University of Minnesota.

Cornelius J. O'Leary, S.J., M.A., S.T.B. (1953; 1971)

Associate Professor of Theology and Religious Studies

A.B., 1943, M.A., 1944, Gonzaga University; S.T.B., 1951, Alma College.

Donna M. Orange, Ph.D. (1978)

Assistant Professor of Philosophy

B.A., 1967, Marylhurst College; M.A., 1973, Gonzaga University; Ph.D., 1979, Fordham University.

Gwendolyn G. Otte, M.N. (1978)

Instructor in Nursing

B.S.N., 1971, University of Kansas; M.N., 1977, University of Washington.

Joseph T. Page, Ph.D. (1955) Chairman, Physical Education and Recreation Department Professor of Physical Education and Recreation

B.A., 1950, M.S., 1951, Springfield College, Mass.; Ph.D., 1965, University of Oregon.

Dan M. Parker, Jr., Major, M.A. (1978)

Assistant Professor of Military Science B.A., 1967, Belmont Abbey College; M.A., 1977, Pacific Lutheran University.

Virginia L. Parks, Ph.D. (1974)†

Vice President for Finance and Treasurer

Professor of Accounting and Economics

B.B.A., 1961, University of Texas; M.B.A., 1966, Ph.D., 1971, University of Houston.

James E. Parry, M.A. (1961; 1968)

Associate Professor of History

B.A., 1960, Seattle University; M.A., 1963, University of Washington.

Giuseppe G. Patelli, D.C.S., C.P.A. (1950)

Professor Emeritus

D.C.S., 1925, Bocconi University, Milan, Italy.

C. Denise Pauley, M.L. (1967; 1977)

Assistant Librarian

B.A., 1966, M.L., 1967, University of Washington.

Margaret Penne, M.A. (1971)

Assistant Professor of English

B.A., 1967, M.A., 1972, Seattle University.

Ronald A. Peterson, J.D. (1950; 1963; 1973)†

Associate Professor of Business and Law

A.B., 1943, University of Omaha; J.D., 1948, Creighton University; Member, Nebraska and Washington Bar.

Ekkehard J. Petring, Ph.D. (1972)

Associate Professor of Rehabilitation

B.A., 1961, University of California at Santa Barbara; M.S., 1964, California State University, Los Angeles; Ph.D., 1972, University of Arizona.

Kathleen S. Piggott, M.S. (1979)

Instructor in Nursing

B.S., 1974, M.S., 1979, University of Colorado.

Mary C. Pirrung, M.A. (1962)†

Professor of Education

B.A., 1947, Western Washington State College; M.A., 1953, Columbia University.

Vincent S. Podbielancik, Ph.D. (1947)

Professor of Chemistry

B.S., 1938, Seattle University; M.S., 1958, Ph.D., 1966, University of Washington.

\*James G. Powers, S.J., Ph.D.. (1966)

Associate Professor of English

B.A., 1956, Ph.L., 1956, M.A., 1960, Gonzaga University; S.T.M., 1963, S.T.L., 1963, University of Santa Clara; Ph.D., 1966, University of Colo-

Sister Christopher Querin, S.P., Ph.D. (1960)

Professor of Political Science

B.S.S., 1950, Seattle University; Ph.D., 1961, St. Louis University.

Shelby R. Rama, M.S. (1978)

Instructor in Accounting

B.S., 1961, Arizona State University; M.S, 1975, California State University.

Sister Therese Randolph, R.S.M., M.A. (1979)†

Co-Director, CORPUS Program

Instructor in Theology and Religious Studies

B.S., 1963, College of St. Mary; M.A., 1972, University of Detroit.

David H. Read, Ph.D. (1948; 1954)

Professor of Chemistry

B.S., 1942, Seattle University; M.S., 1944, University of Illinois; Ph.D., 1949, University of Notre Dame.

James B. Reichmann, S.J., Ph.D. (1955; 1965)

Professor of Philosophy

B.A., 1946, M.A., 1948, Gonzaga University; S.T.L., 1954, Ph.D., 1960, Gregorian.

\*Eileen M. Ridgway, Ph.D. (1963)

Professor of Nursing B.S.N.E., 1944, St. Mary College, Kansas; M.S.N.E., 1957, St. Louis University; Ph.D, 1963, Catholic University.

James C. Risser, Ph.D. (1979)

Assistant Professor of Philosophy

B.A., 1971, California State University, Long Beach; M.A., 1973, Ph.D., 1978, Duquesne University.

Mary Jean Rivers, M.A. (1978)†

Instructor in Business

B.A., 1965, M.A., 1974, University of Pittsburgh.

Stephen B. Robel, M.S. (1948)†

Professor of Mechanical Engineering

B.S., 1948, Seattle University; M.S., 1951, University of Notre Dame.

Marilyn J. Robertson, M.A. (1976)

Assistant Professor of Nursing

B.Sc., 1970, M.A., 1973, University of Washington.

Theodore J. Ross, M.B.A., C.P.A. (1947)

Professor Emeritus

B.S., 1932, University of California; M.B.A, 1946, University of Chicago.

Stephen C. Rowan, M.A., S.T.B. (1977)

Instructor in English

B.A., 1966, Fairfield University; S.T.B., 1970, St. Mary's Seminary; M.A., 1974, University of British Columbia.

James E. Royce, S.J., Ph.D. (1948)

Director, Alcohol Studies Program

Professor of Psychology

A.B., 1939, M.A., 1940, Gonzaga University; S.T.L., 1948, Alma College; Ph.D, 1945, Loyola University, Chicago.

Erlinda F. Rustia, Litt.D. (1972)

Associate Professor of English

Litt. B., 1941, M.A., 1948, Litt.D., 1969, University of Santo Tomas.

Robert D. Saltvig, Ph.D. (1962)

Chairman, History Department

Professor of History

A.B., 1954, University of Portland; M.A., 1959, Ph.D., 1966, University of Washington.

George A. Santisteban, Ph.D. (1964)

Professor of Biology

B.A., 1945, Montana State University; M.A., 1949, Ph.D., 1951, University of Utah.

Louis A. Sauvain, S.J., M.A., S.T.B. (1955; 1965)

Campus Ministry

Associate Professor of Theology and Religious Studies

A.B., 1940, Seattle University; M.A., 1948, Gonzaga University; S.T.B., 1953, Alma College.

James E. Sawyer, Ph.D. (1977)

Director, Institute of Public Service

Assistant Professor of Public Service

B.S., 1967, Weber State College; Ph.D., 1975, University of Utah.

C. Bradley Scharf, Ph.D. (1979)

Assistant Professor of Political Science

B.A., 1966, Colorado College; M.A., 1969, Ph.D, 1974, Stanford University.

Leo A. Schmid, S.J., Ph.D. (1934; 1947)

**Professor Emeritus** 

A.B., 1932, M.A., 1933, Gonzaga University; S.T.B., 1941, Alma College; M.S., 1942, Marquette University; Ph.D., 1947, Fordham University.

Richard T. Schwaegler, Ph.D. (1959; 1967)

Chairman, Civil Engineering

Professor of Civil Engineering

B.S., 1957, M.S., 1958, Massachusetts Institute of Technology; Ph.D., 1968, University of Washington.

John S. Schwarz, S.J., M.A. (1970; 1972)

Assistant Professor of History

B.A., 1951, M.A., 1958, Gonzaga University; M.A., 1964, University of Santa Clara.

Mary A. Linden Sepulveda, M.A. (1973)

Assistant Librarian

B.A., 1972, M.L., 1973, University of Washington.

Richard F. Sherburne, S.J., Ph.D. (1977) Associate Professor of Theology and Religious Studies

B.A., 1949, M.A., 1950, Ph.L., 1950, S.T.B., 1958, Saint Louis University; Ph.D., 1976, University of Washington.

H. Eugene Slape, M.S.W. (1978) Instructor in Criminal Justice

B.A., 1961, Texas Wesleyan College; M.S.W., 1971, University of Washington.

Francis J. Smedley, B.S. (1949)

Associate Professor Emeritus

B.S., 1933, U.S. Naval Academy.

Mary T. Soulier, Ph.D. (1976)†

Assistant Professor of Accounting

B.A., 1973, M.B.A., 1975, Ph.D., 1978, University of Washington.

Edward H. Spiers, M.A. (1949)

Professor of English

Ph.B., 1948, Seattle University; M.A., 1949, University of Washington.

Leo P. Stanford, Ph.D. (1976)†
Director, CORPUS/SUMORE Programs

Associate Professor of Theology and Religious Studies

B.S., 1964, University of San Francisco; Ph.D., 1969, Marquette Universitv.

James L. Stark, D.A. (1972) Associate Professor of German

B.A., 1964, University of Portland; M.A., 1968, D.A., 1972, University of Washington.

Bernard M. Steckler, Ph.D. (1961)

Professor of Chemistry B.S., 1953, St. Martin's College; Ph.D., 1957, University of Washington.

Harriet B. Stephenson, Ph.D. (1967)†

Professor of Management

B.A., 1961, M.B.A., 1962, Ph.D., 1966, University of Washington.

William J. Sullivan, S.J., Ph.D. (1975)

A.B., 1954, Ph.L., 1956, A.M., 1956, Saint Louis University; S.T.L., 1962, Faculte de Theologie; M.A., 1967, M. Phil., 1967, Ph.D., 1971, Yale University; D.D., 1977, Concordia Seminary in Exile.

William J. Summers, Ph.D. (1977)

Assistant Professor of Music

B.A., 1969, San Luis Rey College; M.A., 1973, California State University at Hayward; Ph.D., 1978, University of California at Santa Barbara.

Paul M. Swamidass, M.B.A. (1979)†

Instructor in Business

B.E., 1966, Osmania University; M.B.A., 1975, Washington State University.

Carl E. Swenson, Ph.D. (1976)

Assistant Professor of Mathematics

B.Ed., 1966, Pacific Lutheran University; M.A., 1970, Ph.D., 1972, Washington State University.

Andrew A. Tadie, Ph.D. (1979)

Associate Professor of English

A.B., 1966, John Carroll University; M.A., 1967, Bradley University; Ph.D., 1972, St. Louis University.

John R. Talevich, M.A. (1955) Chairman, Journalism Department Associate Professor of Journalism

A.B., 1949, Seattle University; M.A., 1952, Marquette University.

Ronald R. Talmage, Ph.D. (1975)

Assistant Professor of Philosophy

B.A., 1969, Seattle University; Ph.D., 1974, St. Louis University.

Michael J. Taylor, S.J., S.T.D. (1961; 1965; 1971; 1977)

Professor of Theology and Religious Studies A.B., 1947, M.A., 1949, Gonzaga University; S.T.L., 1955, Alma College; S.T.D., 1961, Woodstock College, Lilly Post-Doctoral Fellowship, 1964-65.

William Taylor, M.A. (1963; 1969)

Associate Professor of English

B.A., 1956, Seattle University; M.A., 1966, University of Washington.

John K. Thompson, Ph.D. (1973)

Chairman, Rehabilitation

Associate Professor of Rehabilitation

B.A., 1966, Muskingum College; M.S., 1970, San Diego State College; Ph.D., 1972, University of Arizona.

David L. Thorsell, Ph.D. (1974)

Chairman, Chemistry Department

Associate Professor of Chemistry

B.A., 1964, University of Minnesota; Ph.D., 1971, Ohio State University.

David E. Tinius, Ph.D., C.P.A. (1970)†
Associate Professor of Accounting
B.S.M.E., 1960, M.B.A., 1964, Ph.D., 1977, University of Washington.

Henrietta B. Tolson, M.S.W. (1971)

Associate Professor of Community Services B.A., 1960, Seattle University; M.S.W., 1962, University of Washington.

L. John Topel, S.J., Ph.D. (1971)†

Associate Professor of Theology and Religious Studies

B.A., 1958, M.A., 1959, Gonzaga University; S.T.M., 1966, Santa Clara University; S.S.L., 1969, Pontifical Biblical Institute; Ph.D., 1973, Marquette University.

Burnett R. Toskey, Ph.D. (1958; 1968)

Professor of Mathematics

B.S., 1952, M.A., 1958, Ph.D., 1959, University of Washington.

John P. Toutonghi, Ph.D. (1963)

Associate Professor of Physics

B.S., 1957, Seattle University; Ph.D., 1963, University of Washington.

Sister Rosaleen Trainor, C.S.J., Ph.D. (1965)

Director, Honors Program

Professor of Philosophy

B.Ed., 1958, Seattle University; M.A., 1963, Ph.D., 1966, St. John's University.

Thomas J. Trebon, M.A. (1969; 1976) Assistant Professor of Political Science

B.A., 1965, Seattle University; M.A., 1968, University of Denver.

\*Kathleen M. Treseler, M.N. (1968) Assistant Professor of Nursing

B.S., 1946, Seattle College; M.N., 1965, University of Washington.

Alan Troy, Ph.D. (1970)

Associate Professor of Mathematics

B.A., 1950, B.S., 1953, University of Chicago; M.A., 1956, Ph.D., 1961, University of Illinois.

David G. Tucker, Major, M.P.A. (1979)
Assistant Professor of Military Science
B.S., St. Martin's College; M.P.A., 1977, University of Alaska.

Richard L. Turner, Ph.D. (1963)

Professor of Electrical Engineering

B.S.E.E., 1946, M.S.E.E., 1952, Drexel Institute of Technology; Ph.D., 1962, University of Washington; Registered Professional Engineer.

\*Edward V. Vacek, S.J., M.Div. (1977)

Instructor in Philosophy
A.B., 1965, A.M., 1967, Ph.L., 1968, Saint Louis University; M.Div., 1973, Weston College School of Theology.

Frank A. Valente, Ph.D. (1966)

Research Professor Emeritus

B.S., 1922, M.Sc., 1924, Ph.D., 1939, New York University.

Lawrence E. Vance, Ph.D. (1973)
Assistant Professor of Physical Education and Recreation
B.S., 1961, Bradley University; M.S., 1967, Indiana State University; Ph.D., 1979, University of Minnesota.

Usha S. Varanasi, Ph.D. (1971)

Research Professor of Chemistry

B.Sc., 1961, Bombay University; M.S., 1963, California Institute of Technology; Ph.D., 1967, University of Washington.

Robert F. Viggers, M.S. (1949)†

Chairman, Mechanical Engineering

Professor of Mechanical Engineering

B.A., 1944, University of Washington; M.S., 1950, Oregon State College; Registered Professional Engineer.

John E. Vinson, M.S. (1969)

Assistant Professor of Mathematics

B.A., 1958, M.A., 1961, Oregon State University; M.S., 1965, Stanford University.

Roy P. Wahle, Ed.D. (1977)†

Associate Professor of Education

B.A., 1946, Central Washington State College; M.A., 1947, Ed.D., 1956, University of North Colorado.

J. Kevin Waters, S.J., D. Mus. Arts (1969)

Chairman, Fine Arts Department

Associate Professor of Music

A.B., 1957, M.A., 1958, Gonzaga University; B.A., 1964, University of Washington; M.A., 1965, Santa Clara University; D. Mus. Arts, 1970, University of Washington.

Kathleen A. Waters, M.Ed. (1969)

Chairman, Health Information Associate Professor of Health Information

B.S., 1958, M.Ed., 1973, Seattle University.

#### Edwin H. Weihe, Ph.D. (1972)

Director, Matteo Ricci II
Associate Professor of English
B.A., 1963, Brown University; M.A., 1965, M.F.A., 1966, Ph.D., 1972,
University of Iowa.

# William L. Weis, Ph.D. (1973)†

Assistant Professor of Business B.S.B.A., 1969, M.B.A., 1971, Bowling Green State University; Ph.D., 1979, University of Washington.

#### Anita M. Weismantel, M.N. (1979)

Instructor in Nursing
B.S.N., 1972, Mount Marty College; M.N., 1979, University of Washington.

# Charles A. Wollesen, S.J., Ph.D. (1960; 1969)

Associate Professor of English A.B., 1945, M.A., 1946, Gonzaga University; S.T.L., 1953, Alma College; M.A., 1959, Fordham University; Ph.D., 1970, University of Washington.

# Francis P. Wood, S.J., M.S. (1952)

Chairman, Electrical Engineering
Professor of Electrical Engineering
A.B., 1940, Gonzaga University; S.T.L., 1948, Alma College; M.S., 1952,
Stanford University.

# Marylou Wyse, Ph.D. (1965; 1969)†

Dean, Graduate School Professor of Education B.A., 1953, M.Ed., 1965, Seattle University; Ph.D., 1969, Western Reserve University.

#### Charles A. Yackulic, M.A. (1964)†

Associate Professor of Education B.Sc., 1948, B.Ed., 1950, University of Alberta; M.A., 1951, Eastern Washington College.

# \*William L. Yam, S.J., M.S.L.S. (1972)

Associate Librarian A.B., 1963, Ateneo de Manila; M.S.L.S., 1968, Catholic University of America.

# Andre L. Yandi, Ph.D. (1956; 1966)

Professor of Mathematics B.S., 1954, M.A., 1956, Ph.D., 1965, University of Washington.

#### Barbara M. Yates, Ph.D. (1970)†

Associate Professor of Economics B.A., 1962, College of Wooster; M.A., 1963, Ph.D., 1969, University of Michigan.

# Anita Yourglich, Ph.D. (1946)

Professor of Sociology B.S., 1945, Seattle University; M.A., 1948, St. Louis University; Ph.D., 1961, University of Oregon.

#### Richard E. Zackrison, Ph.D. (1978)†

Assistant Professor of Business B.A., 1971, Seattle University; M.S., 1973, Utah State University; Ph.D., 1977, University of Minnesota.

# Gary H. Zarter, Ph.D. (1973)+

Associate Dean, School of Education
Associate Professor of Education
B.A., 1960, St. Norbert College; M.A., 1969, San Francisco State; Ph.D.,
1973, University of Washington.

## Casimir E. Zielinski, Ed.D.. (1979)†

Assistant Professor of Education B.Ph., 1948, Mt. Carmel College; B.A., 1953, St. Bonaventure; A.M., 1956, University of Chicago; Ed.D., 1973, University of Houston.

# Gary A. Zimmerman, Ph.D. (1964)

Academic Vice President
Professor of Chemistry
B.S., 1960, California Institute of Technology; Ph.D., 1965, University of
Wisconsin.

# **Where To Write**

There is a central mail room on the campus. Information on specific items may be obtained by writing to the offices listed below and adding:

Seattle University Seattle, Washington 98122

or, by calling the main switchboard at (206) 626-6200. Mail for student residence halls must be addressed to their respective locations.

Admission

**Director of Admissions** 

Alumni

**Executive Director of Alumni Relations** 

**Athletic Program** 

**Director of Athletics** 

**Bulletins and Catalogs** 

**Director of Admissions** 

**Campus Ministry** 

**Director of Campus Ministry** 

Career Planning, Placement, and job finding assistance

Director of Career Planning and Placement

**Continuing Education** 

**Director of Continuing Education** 

Correspondence relating to the general interest of the University

President

**Counseling and Testing** 

Director, Counseling and Testing Center

Curriculum, scholastic problems, degree programs

The Dean of the particular school or Vice President for Academic Affairs

**Degrees and Graduation** 

Registrar

Financial Aid, Scholarships, Grants, Loans, Work-Study Eligibility

Financial Aid Counselor

**Foreign Students** 

Director of Admissions or International Student Adviser

Gifts, Grants and Bequests

Vice President for University Relations
