Published Quarterly by Seattle University Seattle, Washington 98122 Second class postage paid at Seattle, Washington

The University reserves the right to change the fees, rules and calendar regulating admission and registration, instruction in, and graduation from the University and its various divisions and to change any other regulations affecting the student body. Changes go into effect whenever the proper authorities so determine and apply not only to prospective students but also to those who at that time are matriculated in the University. The University also reserves the right to discontinue courses at any time.

As a general rule, students follow the academic programs contained in the Bulletin of Information in effect at the time of their matriculation.

Seattle University is an affirmative action, equal opportunity employer. The University does not discriminate on the basis of race, color, religion, sex, age, handicap or national origin, in admission or access to its programs and activities, or in its employment policies or practices.

SEATTLE UNIVERSITY SEATTLE, WASHINGTON 98122 (206) 626-6200

STATEMENT OF OWNERSHIP MANAGEMENT AND CIRCULATION

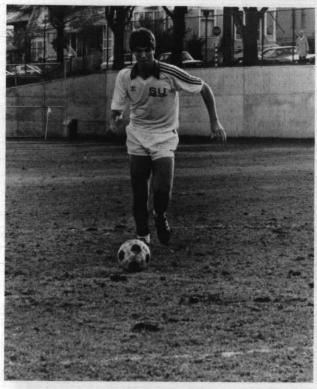

1. Title of publication: Seattle University Bulletin of Information. 1A. Publica tion No. USPS 487-780. 2. Date of filing: October, 1981. 3. Frequency of issue: quarterly. 3A. Number of issues published annually: 4. 3B. Annua subscription price: none. 4. Location of known office of publication: Publi cations Office, Seattle University, Seattle, WA 98122. 5. Location of the headquarters or general business offices of the publishers: Seattle Univer sity Publications Office. 6. Names and complete addresses of publisher editor, and managing editor: Publisher: Seattle University, Seattle, WA 98122. Editor: Jean Merlino, Publications Director, Seattle University. Managing Editor: none. 7. Owner: Seattle University, Seattle, WA 98122. 8 Known bondholders, mortgagees, and other security holders owning o holding 1 percent or more of total amount of bonds, mortgages or othe securities: none. 9. The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes have not changed during preceding 12 months. 10. Average number of copies each issue during preceding 12 months: A. Total number of copies printed 9,000. B. Paid circulation: 1. Sales through dealers and carriers, stree vendors and counter sales: none. 2. Mail subscription: none. C. Total paid circulation: none. D. Free distributions by mail, carrier or other means samples, complimentary, and other free copies: 6,500. E. Total distribution 6,500. F. Copies not distributed: 1. Office use, left over, unaccounted spoiled after printing: 2,500. 2. Returns from news agents: none. G. Total 9,000. 11. I certify that the statements made by me above are correct and complete: Jean Merlino, Publications Director.

Purpose and Scope

Seattle University, an institution of higher learning, has for its object and purpose:

the conservation, interpretation and transmission of knowledge, ideas and values;

 the extension of the frontiers of knowledge by critical and exhaustive investigation or experimentation;

 the preparation for some of the professions by thorough and intelligent training in the theory and principles underlying those professions.

As a University, it attains its end not only through the sciences and humanities, including philosophy and theology, but also through its professional schools.

As a University conducted under the auspices of the Jesuits:

 it affirms its belief in a support of Christian ideals and values;

 it affirms its belief in the unity and totality of all human knowledge, whether experimental, speculative, or divinely revealed;

 it seeks, by a faculty inspired with the Spirit of Christ and by the creation of a liberal atmosphere inside and outside the classroom, to develop an unbiased, truly liberated and enlightened intelligence in its faculty and student body.

History

Seattle University's development as one of the Pacific Northwest's leading centers of higher education is closely interwoven with the history of Seattle and the Puget Sound area. It is the story of a continuing effort on the part of the University to serve the educational needs of a growing metropolitan community.

Like most universities whose roots go back a century or so, Seattle University had a humble and unpretentious beginning. It all started in 1890 when Bishop Aegidius Junger of the then Nesqually Diocese, concerned over the lack of educational opportunity for Catholic youth in the Seattle area, urged the Jesuits of the Rocky Mountain Mission territory to establish both a parish and a school in the young city. In response to repeated appeals, the mission superior sent Fathers Victor Garrand and Adrian Sweere from the Yakima station to make the establishment.

The two Jesuits arrived in Seattle in the spring of 1891 and immediately set about their task. They initially leased St. Francis Hall for their needs. This building, located at Sixth and Spring in downtown Seattle, had been constructed in the previous year by Fr. Francis X. Prefontaine, the area's first resident priest. In these quarters, rededicated as the parish and school of the Immaculate Conception, the Jesuit co-founders began their modest educational effort. They were aided in this effort by two Holy Names sisters who served as full-time teachers.

In 1893, the cornerstone of the first building on the Broadway campus was laid. Property for this building and a playground area had been purchased in 1890 by the mission procurator with the advice and assistance of Father Prefontaine. The new building, which again housed both parish church and school, was opened for classes for the "older boys" in September, 1894, and was formally dedicated in the following December.

Further progress was made in 1895 with the introduction of the first "Academic" or high school level class. In 1898,

articles of incorporation were filed and duly approved by the state of Washington changing the parish school for boys into Seattle College.

The years that followed the founding of the College were mostly a time of struggle and disappointment. The frontier mentality that in many respects still prevailed in Seattle was unreceptive to either the need or the value of higher education other than in the professions. For this reason, as well as for others, it was not until 1900 that the college department was actually instituted with the class of "Humanities." In 1909, the first small but very proud class of three graduates were awarded the bachelor of arts degree.

A combination of adverse circumstances during World War I led to the suspension of college classes from 1918 to 1922. In 1919, the successful high school department moved from Broadway to a new seven acre campus on Interlaken Boulevard. This site, including two buildings suitable for school purposes, was the gift of Mr. Thomas C. McHugh. When the college department was reinstated in 1922, it, too, was housed at the new campus.

In 1931, the college and high school departments were physically separated and the College returned to the Broadway campus to a partially renovated building. Although the fall enrollment was less than fifty students, the separation of the two academic levels was to prove beneficial for both units. Within two years the first women were enrolled in credit courses at the College. The first women graduates received their degrees in 1936. In the year previous, the first professional degree program was established with the introduction of the School of Education. In 1937, the College was fully accredited by the Northwest Association of Secondary and Higher Schools. The School of Nursing was officially opened in 1940 ad the School of Engineering was added in 1941.

In anticipation of the academic needs of the returning veterans of World War II, the School of Commerce and Finance was established in 1945 as the fifth major academic unit of the college. By 1948, the enrollment in all programs was nearing 3,000 students. To give expression to the growth and academic development of the previous fifteen years, the board of trustees in that year approved a further amendment to the articles of incorporation changing the institutional name to Seattle University.

The decades of the 1950's and 1960's were marked by rapid expansion of both the physical boundaries and the educational facilities of the University. In 1950, the campus comprised three premanent buildings and three World War II surplus structures. Over the next twenty years a total of twelve major buildings were added either by construction or conversion. This development took place for the most part under the direction of Fr. A.A. Lemieux, S.J., who served as University president from 1948 to 1965.

The decade of the 1970's was primarily a period of curriculum expansion achieved through the introduction of innovative new schools and programs. Chief among these additions were the School of Science and Engineering (1972), the Institute of Public Service (1974), and Matteo Ricci College (1977). In 1976, the University instituted its first doctoral degree program, the Doctorate in Educational Leadership. The list of recent academic innovations also includes master level programs in software and transportation engineering, and in therapeutic psychology.

Recent facility development of major significance includes the addition of the Gene E. Lynn Building, home of the School of Nursing, and the outdoor intramural and recreational center.

Organization

Seattle University is an independent, coeducational institution of higher learning incorporated under the laws of the State of Washington. It is operated by its own Board of Trustees and administration under the auspices of the Society of Jesus. Its faculty and students are drawn from all races and denominations. One of 28 Jesuit institutions of higher education in the United States, it derives its tradition and objectives from the academic experience and educational ideals of the Society of Jesus and the Christian tradition.

The University is composed of eight major academic units:

The College of Arts and Sciences comprises 12 departments. These are English/speech, fine arts, foreign languages, history, journalism, military science, philosophy, political science, psychology, rehabilitation, sociology and theology and regligious studies. Program divisions are: alcohol studies, community services, criminal justice/police science, general studies, honors and prelaw.

The Albers School of Business offers programs in accounting, economics, finance, general business, management and marketing.

The School of Education offers programs which qualify its students for teaching certificates, principals' credentials and counselors' certificates issued by the State Department of Public Instruction.

The Institute of Public Service offers a baccalaureate program in Public Administration and a certificate in Human Resources

Matteo Ricci College is a six year combined high school college program leading to a baccalaureate degree.

The School of Nursing offers a baccalaureate program in professional nursing which qualifies students for registration through state licensure. Registered Nurse students wishing to complete requirements for the Bachelor of Science degree are admitted to the program.

The School of Science and Engineering comprises the departments of allied health technology, biology, chemistry, general science, health information, mathematics, physics and civil, electrical and mechanical engineering.

The Graduate School has programs leading to master's degrees in business, education, ministry, psychology, public administration, rehabilitation, religious education, software engineering and transportation engineering. An Educational Specialist degree and a Doctor of Education degree with a major in Educational Leadership are offered.

Accreditation

Seattle University enjoys the highest accreditation and its students are accepted for graduate and advanced study by leading colleges and universities in all parts of the country.

The University is accredited by:

Northwest Association of Schools and Colleges
Accreditation Board for Engineering and Technology
(formerly Engineers' Council for Professional
Development)

American Assembly of Collegiate Schools of Business American Chemical Society

Council on Allied Health Education and Accreditation

Council on Rehabilitation Education

National Council for Accreditation of Teacher Education National League for Nursing

Is approved by:

American Medical Association
American Medical Record Association
American Society of Clinical Pathologists
Washington State Board of Education
Washington State Board of Nursing

The Univerity is a member of:

American Association of Colleges of Nursing, American Association of Colleges for Teacher Education, American Association of Collegiate Registrars and Admissions Officers, American Council on Education, Association of Higher Education, Association of Jesuit Colleges and Universities, Council of Baccalaureate and Higher Degree Programs, Independent Colleges of Washington, National Commission on Accrediting, National League for Nursing, Northwest Association of Colleges, Western Interstate Commission for Higher Education.

Campus and the City

Seattle University is located on a 41-acre campus on Seattle's historic First Hill. Within short walking distance are the city's major educational, cultural and recreational facilities, business and shopping centers and the Puget Sound waterfront.

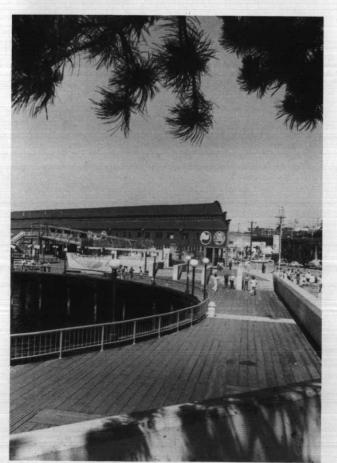

The University's physical facilities serve a current student enrollment of 4,638. The campus contains 24 buildings, including modern classrooms, student and faculty residences and service units.

The housing facilities available on campus are Bellarmine Hall, Xavier Hall and Campion Tower. Residence halls are coed.

On campus facilities include the A.A. Lemieux Library (1967), the major study and resource center, with seating for 1,100 students. A variety of study areas, including individual carrells, study lounges and conference rooms, are available for the student's comfort and convenience.

The Connolly Center (1969) is the physical education teaching facility. In addition to classroom areas, recreational facilities include two swimming areas, basketball, badminton, tennis and handball courts and a gymnastics and dance area.

The Student Union Building (1953), the Chieftain houses the office of the Vice President for Student Life, student offices, dining, lounge and meeting areas. A selection of auditoriums are available in A.A. Lemieux Library, the William Pigott (1957), Thomas J. Bannan (1961) and Gene E. Lynn (1979) Buildings for films, lectures, meetings and musical presentations.

The McGoldrick Student Development Center, opened in 1976, includes the Career Planning and Placement Center, Counseling and Testing, the Minority Student Affairs office, International Student Services and the Campus Ministry office.

Other major campus structures include the Liberal Arts Building (1945); Bookstore Building (1964); Loyola hall, the Jesuit faculty residence and the Gene E. Lynn Building (1979).

Seattle University is located in a seaport city surrounded by unsurpassed natural beauty. Seattle, the largest city in the Pacific Northwest and one of the 25 largest in the United States, has all the scenic and cultural variety of a metropolitan city with the unique advantage of mountains and water at its back door.

Within city boundaries, Lake Union and Lake Washington provide the opportunity for sailing, boating, water skiing and swimming.

Ski areas are within an hour's drive of the city, with night and weekend skiing during winter months. Easy hikes, with trails marked and guide books available, are popular in the spring and summer months, as well as more difficult hikes for seasoned enthusiasts.

Bicycling has become increasingly popular and trails are set aside in various areas of the city.

Golf courses, tennis courts, and indoor and outdoor pools for year-round swimming are available in addition to fishing and hunting opportunities.

STUDENT LIFE

Student Life

One of the primary aims of the educational mission at Seattle University is the total development of students. This holistic growth process is enhanced by integrating opportunities for social, emotional, cultural, physical and spiritual development, in addition to intellectual growth. The Division for Student Life is committed to providing programs and services conducive to fostering an educational environment which will assist students in achieving their full potential.

Located in the McGoldrick Student Development Center, the Student Union, the Connolly Center, the Child Care Center, and the three University residence halls, the professionals who comprise the Student Life staff are committed to meeting the developmental needs of Seattle University's diverse student population.

The Office of the Dean for Students provides many support and administrative services for students. Student Orientation, Student Union services and programs, leadership training and special programs for women and non-traditional students are all coordinated through the Dean's office.

The Director of Student Activities coordinates all Student Union programs and supervises the Game Room, the Events Information Line (6630), the Information Booth and Tabard Inn. The Director is also the administrative adviser to the student government (ASSU) and the student senate, and coordinates advisement and activities of the over 50 clubs and organizations on campus.

The Counseling Center offers opportunities for personal counseling for students focused on developing self-awareness, improving individual communication skills and interpersonal relationships. Vocational counseling is available on a personal basis, using interest inventory testing as a guide for individual planning. The Center also sponsors various workshops offered throughout the school year on subjects such as stress, shyness, dreams, and test anxiety. The PACE Program, a freshman peer advising system, is also made available through this office.

The Career Planning and Placement office makes available career counseling, job referral services, and workshops on resume writing, interviewing, and job-seeking skills to students. Coordination of the part-time work-study student employment program is also accomplished through this office as is the development of employment opportunities throughout the Puget Sound area.

The International Student Adviser is the campus liaison for all students from abroad, including those who transfer to Seattle University from other American colleges. The office provides a "home base" for these students, facilitating the assimilation of the international students into the University community. Support for this office is derived in part from the international student fee.

The Minority Student Affairs office serves the personal, academic and cultural needs of the ethnic minority, students attending the University, coordinating activities of such student groups as the Native American Club, the Black Student Union, Kapatiran and the Rainbow Coalition. The office focuses on developing the unique identities of various ethnic groups and on enriching the multi-cultural atmosphere of the University.

The Campus Ministry team is committed to the mission of the University, particularly in the areas of personal and spiritual growth. The Campus Ministers endeavor to promote collaboration among Jesuits, lay faculty, staff and students through liturgical celebrations, retreats, volunteer programs and education for peace and justice. The Search Program is specifically for students and provides a unique experience of Christian Community, service and the opportunity for leadership training.

The Child Care Center is open to children from families of students and employees of Seattle University, and supplements the University's community program by also serving children from families within the surrounding Central City community.

The Bookstore sells all required textbooks and course-related supplies. In addition, it offers complete selections of reference books and general paperbacks, gifts, greeting cards, snack foods, and sundries. The store features clothing and gifts with Seattle University imprinting. Books not in stock may be special-ordered, film may be left for processing, and, at the end of each quarter, used books may be sold back for cash.

Disabled Student Resources enables students with disabilities to fulfill their academic, career and personal goals. Coordination of support services, counseling and community referrals are available. Seattle University has a continuing commitment to improve campus accessibility.

The Learning Resource Center is designed to meet the educational needs of students seeking help in achieving academic success. Services include diagnostic assessment, skill enhancement, mini-courses, personal and academic counseling, and the possibility of small-group or individualized tutoring.

The Student Union Building is considered the hub of campus activities. It offers two eating establishments, the Chieftain Dining Room and the Tabard Inn; weekly entertainment in the Tabard Inn; a Game Room; a ticket booth and information center; a commuter ride board; and student lounges. Student Life administrative offices, the Student Government (ASSU), the Spectator, student newspaper, and various club and organization offices are also located in the Student Union.

Orientation programs are sponsored each fall through the Office of the Dean for Students to facilitate social and academic adjustment of new freshmen and transfer students. A transfer student orientation is also held during winter and spring quarters.

PACE (Peer Advising for the Collegiate Experience) is a unique program sponsored by the Counseling Center designed to facilitate freshman students' social and academic transition to University life. PACE provides practical "survival" information and serves as a source of interpersonal support. Teams of upper class students are trained as peer advisers and meet with small groups of freshmen during Fall quarter to discuss student concerns, provide useful academic advice, relate practical study skills information, and participate in social activities.

Student Clubs and Organizations provide Seattle University students with opportunities to develop leadership skills, broaden their social and professional backgrounds, and make a significant contribution to both the University and the community. Student government (ASSU), student publications, preprofessional organizations, service clubs, scholastic honoraries, and community outreach are among the varied groups in which students may choose to participate.

Other Student Services

Academic Advisement is coordinated through the various schools within the University by the deans and department chairpersons in a student's major area. Adviser assignments are normally made during the fall Orientation period.

Housing

Seattle University requires all full-time freshman students under 21 years of age to live in University housing unless they are married, living with parents or have been granted an advance waiver by the Director for Resident Student Services.

Residence Halls

Three coeducational residence halls offer convenient living accommodations, lounges and facilities for study and recreation. Bellarmine Hall, a seven-story dormitory housing over 400 students, also provides the main dining room for resident students. The largest residence hall is twelve-story Campion Tower. Xavier Hall, the third campus residence, has a 200 student capacity. Residence halls are supervised by resident directors, floor moderators and student resident assistants.

The Student Health Center is open to all regularlyenrolled students. Full-time students and their dependents are also eligible to participate in the University's health insurance program.

University Food Service

Food service is provided in the Bellarmine Dining Hall, Chieftain Dining Room, Tabard Inn and Campion Lobby.

Resident students are required to purchase a meal ticket and may select from several meal plans offered by SAGA Food Service. Off-campus students may also purchase meal tickets. Further information may be obtained from the SAGA business office, Bellarmine Hall.

University Sports

Seattle University is a member of the National Association of Intercollegiate Athletics and the Association of Intercollegiate Athletics for Women. The University competes in soccer, basketball, baseball and tennis for men, and volleyball, basketball, gymnastics, and tennis for women. The University places a high priority on its intramural and recreation programs, and provides a wide variety of activities indoor, outdoor and off-campus. The Connolly Center serves as the major sports facility for intercollegiate athletics, intramurals, recreation and physical education. A three acre field complex provides outdoor facilities for soccer, flag football, softball and jogging. University Sports offers opportunities for students of all ages and skill levels.

Application for Housing

Requests for on campus student housing are made through the Director for Resident Student Services. An eighty-five dollar (\$85.00) deposit is required for reservations. See page 16 for housing cost information. Cancellation of reservations must be received by the Director for Resident Student Services no later than August 1, or the deposit will be forfeited. Residents who terminate their stay in University residence halls before the end of the quarter will be subject to a penalty fee before a refund can be issued.

Admission Policy

Seattle University selects for admission those students who have demonstrated in their prior studies an ability to achieve a level of academic performance necessary to earn a degree. University admission policy is established by the Academic Council. It is administered by the Academic Vice President through the Director of Admissions and Registrar. All records submitted by applicants become the property of Seattle University. In addition to the requirements for admission set forth in this section of the Bulletin, reference must be made to additional or distinctive requisites in the individual Colleges or Schools of the University. This information will be found in the section of the Bulletin dealing with the specific College or School.

Admission may be granted to qualified applicants for any of the four quarters of the academic year. All applicants for undergraduate or graduate admission must remit a \$15 application fee to the University. Applicants for transient status will be charged a \$10 application fee. Inquiries concerning admission should be addressed to the DIRECTOR OF ADMISSIONS, SEATTLE UNIVERSITY, SEATTLE, WASHINGTON 98122.

Seattle University offers the opportunities and experiences of higher education to all students equally without regard to race, religion, age, sex, handicap or national origin. It does so in keeping with the guidelines and requirements of laws and regulations as promulgated by state and federal agencies.

Seattle University does not discriminate on the basis of handicap in conformity with section 504 of the Rehabilitation Act of 1973 in admission or access to its programs and activities, or in its employment policies or practices.

William E. Hayes, S.J. is the responsible employee designated by Seattle University to coordinate its effort to comply with section 504 of the Rehabilitation Act of 1973.

This constitutes the official notice called for in Section 504, No. 84.8, Paragraph a.

Admission From Secondary Schools

To be considered for admission to the University as an undergraduate student an applicant must meet the following entrance requirements:

Have graduated or will graduate from an accredited high school.

Have a high school grade point average in the 16 college preparatory units noted below of 2.50 or above as measured on the 4.00 scale or rank in the upper 50 per cent of the senior class.

Have completed 16 units of college preparatory courses.

Have submitted scores from one (1) of the following examinations: Washington Pre-College Test (WPCT) or Scholastic Aptitude Test (SAT) or American College Test (ACT).

Applicants with a grade point average below 2.50 as computed by the University Admissions Office will be reviewed by a special board. Applicants with a grade point average below 2.00 will not be admitted to the University on either a regular or probationary status.

Unit Requirements

Admission is granted subject to graduation from an accredited high school and the applicant must present as part of his/her school record successful completion of a minimum of 16 academic units. One unit equals one year of study. These 16 units must be distributed as follows:

English	3
Mathematics (Algebra, Geometry)	2
History	1
Laboratory Science 1	1
Academic Electives (approved)	9

If the student lacks one of the above required units, he/she may be permitted in some cases, by way of exception, to enter with provisional standing.

Two courses of three or more quarter hours each will be considered equal to one high school unit.

Application

In the State of Washington, application blanks for those wishing to enter as freshmen may be obtained by writing Director of Admissions, Seattle University, Seattle, Washington 98122 or from any high school counseling office in the state. Out of state applicants may obtain forms by writing to the Director of Admissons. To be considered official, records must be forwarded to Seattle University by the high school or registrar of a previous school.

In making application for admission the candidate must follow these procedures after completion of at least the sixth semester:

- Complete page one of the Application for Undergraduate Admission and leave the entire form with high school counselor to have the back of the page completed and forwarded directly to the Office of Admissions.
- Submit a non-refundable application fee of \$15 to the Office of Admissions. Make remittances payable to Seattle University.
- Have your high school transcript and transcripts of any post-secondary courses attempted sent to the Admissions Office. ONLY OFFICIAL TRANSCRIPTS ARE ACCEPTABLE. Official transcripts must arrive in the Admissions Office in a sealed envelope from the issuing institution.

 Have your scores from one of the following examinations sent to the Admissions Office: Washington Pre-College Test (WPCT)

Scholastic Aptitude Test (SAT)
American College Testing Program (ACT)

Notification of acceptance or refusal will begin December 1 for Fall quarter and continue as files are completed. However, students whose records do not give sufficient evidence of the ability to pursue college level work will be notified that a final decision will not be made until the receipt of specified information.

High school students are encouraged to apply before May 1. All applications for admission should be received no later than one month before the beginning of each quarter.

Entrance Examination

In addition to the high school record, candidates for admission to the freshman class must submit scores from one of the following examinations: the Washington Pre-College Test (WPCT) or the Scholastic Aptitude Test (SAT) of the College Entrance Examination Board or the test of the American College Testing Program (ACT).

Test application forms and information concerning testing centers and test dates may be obtained from high school counselors and principals. Applicants planning to take the SAT may also write directly to the Educational Testing Service, P.O. Box 1025, Berkeley, California 94701, or P.O. Box 592, Princeton, New Jersey 08540. Students living in the eastern half of the United States should write to the latter address. Applicants planning to take the ACT may write directly to American College Testing Program, Inc., Iowa City, Iowa. The Washington Pre-College Test will be made available to juniors in all Washington high schools.

Early Admission

High school students with a grade point average of 3.3 or above on the 4.0 scale and who are recommended by their high school principal and their high school counselor may be considered for enrollment after their junior year at high school.

Early Decision Plan

Students who select Seattle University as their first-choice college and who have clearly demonstrated a high level of scholastic ability are eligible to apply for admission under this plan. Complete admission credentials should be submitted as soon as possible after the close of the sixth semester, but no later than November 1 of the senior year. Notification will be sent as soon as all credentials are received.

Probation

Students admitted on probation will be placed in the General Studies Program under the guidance of the General Studies Director. Probation students must gain regular status by the end of the freshman year or be subject to dismissal from the University.

Placement Examinations

Placement tests in chemistry, mathematics and foreign languages are administered by these departments during

Orientation. These examinations offer entering freshmen the opportunity to show the extent of their preparation, while simultaneously allowing department heads or advisers to determine the level at which they are ready to begin college work. For additional mathematics placement information, consult the departmental section of this Bulletin.

Advanced Placement

Entering students interested in receiving advanced placement in subject matter other than as set forth above should plan to take the Advanced Placement Tests of the College Entrance Examination Board. Information concerning these tests may be obtained from high school guidance personnel or by writing to Educational Testing Service. The Educational Testing Service will forward test results directly to Seattle University. At the discretion of the dean of the school and the head of the department, a student who has been given advanced placement on the basis of the CEEB Advanced Placement Tests may also be granted college credit. Advanced placement or credit may also be granted on the basis of the subject examinations of the College Level Examination Program (CLEP) of the College Entrance Examination Board. To receive course credit through CLEP, students must submit the test results one month prior to the quarter they wish to enroll.

Special Consideration

Mature students who give exceptional promise may be admitted without rigid adherence to minimum unit requirements even if they have not graduated from high school or have graduated from a non-accredited high school. All admission decisions in these cases are reserved to the Academic Vice President and the Board of Admissions.

Audit Students

Admission as an auditor must be approved by the instructor of the course. An auditor will not be required to participate in class discussion or laboratory work. Assignments may be made at the discretion of the instructor.

Admission From Other Postsecondary Institutions

A student who has established a satisfactory record in another accredited college or university may apply for admission with advanced standings at Seattle University. An applicant for transfer must:

1. Submit to the Director of Admissions at Seattle University an Application for Undergraduate Admission, a \$15 application fee (make remittances payable to Seattle University) and one (1) official copy of a transcript from each postsecondary institution previously attended. Failure to furnish previous postsecondary records when applying for freshman standing, or to supply complete postsecondary credentials when applying for advanced standing, places students under penalty of immediate dismissal. The University has the option to declare all credit not presented at the time of application as non-transferable.

- 2. Present a minimum 2.00 academic grade point average (or the minimum required by a school/college) for postsecondary work attempted prior to transfer. Courses completed at the lowest passing grade are acceptable for transfer, but the dean or department chairman may require that such courses in the major field be repeated. No transfer applicant will be admitted with a grade point average below 2.00.
- 3. Transfer applicants who have completed less than one full year (45 quarter or 30 semester hours of transferable credit) at another postsecondary institution must fulfill secondary school unit requirements for admission to the Freshman class. In such cases an official copy of the high school transcript must be submitted.

Students applying from other postsecondary institutions who have been placed on probation, suspended, or dismissed will not be considered for admission to Seattle University until at least one calendar year has elapsed since the dismissal, suspension or probation. At the end of this period, admission may be granted only by the Board of Admissions. In such cases two letters of recommendation are required.

In assessing the student's record for admission, grades in non-credit courses will not be counted. For work done in postsecondary institutions whose academic standing is unknown or for work with private teachers, admission and advanced credit will be granted only upon examination. Examinations to establish credit for such work may be taken after the completion of 15 credits in residence. This credit is granted according to conditions set down under Credit by Examination.

Advanced Standing

For the purpose of guidance and registration, the Academic Evaluation Unit will make a tentative evaluation of transfer credits at the time of admission to Seattle University. All evaluations are subject to the approval of the Academic Vice President and the Dean of the appropriate school.

The following conditions apply to transfer students in granting credits acceptable to Seattle University:

- Credit transferred from two-year colleges may be applied to University freshmen and sophomore years only. Transfer of such credit may not exceed 90 quarter credits.
- 2. For admission with advanced standing no more than 135 quarter credits in academic subjects will be accepted toward a bachelor's degree requiring four years of college study. All transfer students must take at least two courses in their major field of study at Seattle University and meet philosophy and theology requirements. Consult page 18 for a listing of required courses in philosophy and theology.
- 3. Credit earned through extension courses may be accepted if the institution offering such work is a member of the National University Extension Association. Not more than 45 quarter credits of extension credit will be accepted. Credit earned through correspondence shall not exceed 12 quarter credits and must be included in the extension credit total of 45 quarter credits.
- Credits over 10 years old will be reviewed to determine transferability.

International Students

Specific admission requirements and procedures for all international students are listed on the official international student application form. These criteria vary from those applied to United States citizens and international student applicants should read carefully the International Student Application for Admission.

Special Students

A special student may take such undergraduate courses as the Dean of his/her school may determine. A special student is not eligible for a degree until he/she fulfills the requirements for admission to the College in which he/she is enrolled. He/she may then become a regular student.

Transient Students

Admission as a transient student is granted to a student in good standing in any recognized college who meets Seattle University's admission standards and who is taking work to be transferred to his/her college. By special arrangement superior high school students may be admitted to specific courses in a transient status. University credit will be awarded for successful completion of courses taken as a transient student. Such credit may be applied toward a degree from Seattle University only after the student has been admitted to a degree program.

FINANCIAL AID

Meeting College Costs

The financial aid program at Seattle University assists academically competent and needy students in meeting the expenses of their college education. This assistance offered to both new and continuing students, may be used for normal educational expenses as well as living expenses, and is available to students without racial or religious discrimination.

Seattle University expects its students and their families to make a reasonable contribution toward the expense of a college education. This expected contribution is determined by the financial need analysis of the College Scholarship Service (CSS). Financial need is the difference between the cost of attending college and the amount the student and family is expected to contribute toward that cost. Once the expected student and family contribution is determined, the University will attempt to supplement that contribution with an award of financial aid which may consist of a combination of grants, loans, and/or part-time employment. The Financial Aid Office will determine the student's eligibility for all types of aid and, hopefully, the total cost of attending Seattle University can be met from three sources—student, family, and financial aid.

Students are expected to arrive on registration day with sufficient funds to pay tuition, room and board and all fees. Those students who because of late application for a guaranteed student loan or for other reasons foresee that they will not have the required funds at the time of registration should make arrangements to secure a short-term loan from a relative, employer, credit union, bank or other funding source.

Types of Financial Aid

Eligible students are likely to receive a combination of three types of aid, commonly called a financial aid "package".

- GRANT and SCHOLARSHIP An outright award that does not require repayment.
- LOAN College loan programs allow liberal repayment periods and low interest rates. Repayment normally begins after graduation.
- EMPLOYMENT An opportunity to work at a campus job or in a Seattle area business.

Seattle University reserves the right to change its financial aid policy without notice.

How to Apply for Financial Aid

- Apply for admission to Seattle University. A student must be ACCEPTED to Seattle University before being considered for financial aid.
- 2) Submit by mail the Financial Aid Form with the required fee to College Scholarship Service in Berkeley, California or Princeton, New Jersey. Be sure to indicate Seattle University as a recipient of the need analysis which will be calculated from the information you provide on the statement you mail to CSS.
- Submit all three copies of the Basic Educational Opportunity Grant Student Eligibility Report (SER) to the SU Financial Aid Office. A SER will be generated from the information supplied on the Financial Aid Form.
- All transfer students are required to submit a Financial Aid Transcript from each institution that they have attended prior to Seattle University.

To ensure maximum consideration for financial aid, an applicant's Financial Aid Form must be received by the College Scholarship Service by March 1. In addition, transfer students must have all financial aid transcripts into the financial aid office by March 1 and all new students must be admitted to the University by the Admissions Office by March 1.

It is the applicant's responsibility to see that the Financial Aid Office and the Admission's Office have all necessary documents. Applicants who submit documents after the March 1 deadline will be evaluated for need and will be offered aid on a funds-available basis.

Currently enrolled students, new students, and transfer students who are enrolling for fall quarter must observe the March 1st deadlines. All applicants for other than fall quarter should contact the Financial Aid Office to determine the deadline. Continuing students must reapply for Financial Aid each year.

Applicants are advised to make and retain copies of all documents submitted.

GRANTS

A limited number of grants are awarded annually to entering new students, transfer students and currently enrolled students. Awards are based on scholastic achievement, financial need, participation in school and community activities and leadership potential. Applicants need not prepare, except as indicated below a separate application for grants. Grant awards range from partial to full tuition. Other financial aid may apply to living expenses.

These grants are funded by Seattle University when offered. Subsequently the grant may be designated as funded by a donation to the University.

Honors Program Grants

Partial tuition grants are offered for one year and are renewable on a performance basis. Applicants should contact the Honors Program chairperson for complete information.

Merit Grants

Merit Grants are awarded by Seattle University on the basis of academic excellence or academic excellence and financial need. Applications are available from the Financial Aid Office.

Donated Grants

These are grants made available each year to Seattle University through the generosity of the organization and individuals listed. In addition to the qualifications indicated, academic achievement and financial need are major considerations in selecting recipients.

Aetna Casualty Scholarship Foundation

The Blume Family

The Boeing Company

A grant to students in engineering or business. Renewable.

Alphonse & Mary Brenner and John Brenner Grant Fund

A grant to a deserving Catholic student from the Yakima diocese

John F. Byrne Memorial Scholarship

Ben B. Cheney Foundation

William J. Codd, S.J. Memorial Scholarship

Louella Cook Foundation

Bing Crosby Youth Scholarship Fund

John C. Erickson Memorial Scholarship

Farmers Insurance Group

Renewable grants to University students in business or mathematics.

Alice Fisher Scholarship Fund

A partial grant award to junior and senior Nursing students.

Seattle University Guild Endowment Scholarship Fund

Scholarship fund available to all students.

Agnes Handley Memorial Grant

Investors Guaranty Life Insurance Co.

Recipient selected from the fields of Business and Mathematics.

Henry T. Ivers Memorial Scholarship

Richard and Kathie Ann Jones Charitable Trust

Partial grants to upperclass students.

Kaiser Franz Josef Fund

Partial scholarship and faculty recognition award to be designated by the Dean, College of Arts and Sciences.

Harry Kinerk Memorial Grant

A partial grant award in memory of the late Professor Harry Kinerk. Elizabeth and Rhoady Lee Scholarship

Gene E. Lynn Rural Nursing Endowment Fund
See loans

Edmund Maxwell Scholarship

Rosemary McCone Memorial Merrill Trust Scholarships John and Margaret Nelson Trust Paul Pigott Memorial

H.H. Thibeau Memorial Scholarships For juniors or seniors in Marketing

Albert A. Schafer Memorial

Seattle First National Bank Minority Scholarship
A scholarship for a minority student enrolled in the Albers
School of Business.

Alfred & Tillie Shemanski Fund
Two scholarships awarded to students enrolled in the
Corpus Program.

Ellen B. Stephenson Scholarship Fund

Washington Congress of Parents, Teachers and Students Financial Grant

A grant to an incoming first year new student with deep need. Renewable.

Western Gear Foundation

Awarded to students in engineering in honor of the late Phillip L. Bannan, Sr. These grants are renewable if the student maintains a high scholastic standing.

William R. Woods Business Grant

A \$1000 award to a deserving upperclass or graduate student. Contact the Dean of the Albers School of Business.

Wright Schuchart Scholarship

Awarded to a sophomore engineering student. Renewable.

Wyman Youth Trust

Loans

Loans are an integral part of the financial aid award "package" offered to students. Some loans do not require payment of principal or interest until the student graduates or leaves school. At that time low interest payments, which may extend over a long period, begin. Loans are an excellent means for the student and family to assume at least a part of the cost of education. Students must be United States citizens, a resident of a Trust Territory or have Immigration Department approved permanent resident status to be eligible for loans which involve federal funds.

National Direct Student Loan (NDSL)

A long term loan based on financial need. Eligible students may borrow a total of \$6000 for their undergraduate education or \$12,000 for combined undergraduate and graduate education. Repayment begins six months after the student graduates or leaves school. The annual interest fee is five percent and repayment may extend 10 years, but pay-

ments may not be less than \$30.00 per month. The NDSL repayment program also includes limited deferment provisions and cancellation features.

Guaranteed Student Loan (GSL)

Guaranteed Student Loan (GSL) is a long-term need-based loan arranged with a lender selected by the student. Commercial banks, credit unions, and savings and loan associations are possible lenders. Guaranteed Student Loans are guaranteed by the Washington Student Loan Guarantee Association, which means that they will repay the loan to the lender in the event that the student defaults.

Students applying for Guaranteed Student Loans must qualify on the basis of financial need. If the family's adjusted gross income, in the case of dependent students, or the student's adjusted gross income, in the case of self-sufficient students, is \$30,000 or less, the student is assumed to have financial need for the loan, and is entitled to borrow up to the annual loan limit, assuming this does not exceed the student's budgeted educational costs when combined with other financial aid. If the family or student's adjusted gross income is greater than \$30,000, the student's financial need for the loan will be determined through the use of the College Scholarship Service's Financial Aid Form. The determination of financial need for the loan will be performed by Seattle University and affirmed on the student's Guaranteed Student Loan Application form.

Annual loan limits are \$2500 for undergraduate students and \$5000 for graduate students. Students may borrow up to \$12,500 for their undergraduate years. Graduate and professional students may borrow \$25,000 for their undergraduate and graduate career.

All GSL's received after October 1, 1981 will be charged a 5% loan origination fee by the lender. An amount equal to 5% of the student's Guaranteed Student Loan will be withheld by the lender to offset the interest charged on the student's loan while the student is enrolled; with the exception of the 5% origination fee, the student does not have to pay any other interest charges while they are enrolled as a full-time student.

Repayment of the loan begins six months after the student ceases to be a half-time student.

Interest rate for the Guaranteed Student Loan is 9% for any new student borrower who obtains a loan under the program. Students with outstanding GSL's prior to January 1, 1981 may continue to borrow at the 7% interest rate. Students are required to repay the loan at a minimum of at least \$50 per month. Early application for the Guaranteed Student Loan is advised, since processing of the loan paperwork may take from six to eight weeks.

Plus Loans

Plus Loans are guaranteed loans that will be made available to the parents of dependent undergraduate students. In addition, the program will provide a vehicle for both independent undergraduate students and graduate or professional students to secure education loans when additional funding is required. Like the Guaranteed Student Loans program, loans are arranged with a lender selected by the student. Commerical banks, credit unions, and savings and loan associations are possible lenders. Borrowers under the Plus Program are required to repay the lender the full amount borrowed plus interest. Interest rate on Plus Loans is 14%. Borrowers must begin repayment of the loan within 60 days after the loan is disbursed. For additional information including annual loan limits, contact the Financial Aid Office.

Gene E. Lynn Rural Nursing Endowment Fund

The Gene E. Lynn Rural Nursing Endowment program provides financial support for eligible students entering the School of Nursing during the fall quarter of each academic year. Financial assistance under this program is provided through interest-free loans while recipients are enrolled at Seattle University. Normally such loans will be made within the guidelines established by the Guaranteed Student Loan Program. In determining the amount of such loans, all other forms of financial aid will be taken into consideration.

When recipients of these awards graduate and begin their nursing career in appropriate and approved community health-care facilities, the Gene E. Lynn Rural Nursing Endowment of Seattle University will repay the balance at a rate of 25% per year for each year of service in a rural or small-town setting. Applications for this program are available from the Financial Aid Office.

Government Grants

Several forms of grants are offered as part of the financial aid award package which might also include loans and employment. These are non-repayable federal and state grants as well as Seattle University tuition grants which provide partial tuition. Need rather than grade point average is the primary consideration.

Supplemental Educational Opportunity Grant (SEOG)

The Supplemental Educational Opportunity Grant is a federally funded grant awarded to needy students. SEOG awards usually range from \$200 to \$1,000 in the initial year and may continue in the subsequent years. SEOG awards do not require repayment. Students with baccalaureate degrees are not eligible for SEOG funds.

The Pell Grant Program (formerly the Basic Educational Opportunity Grant Program)

Students considering Seattle University are encouraged to use either the Pell Grant application form or the CSS Financial Aid Form to apply. In approximately six weeks, the federal government will return to the student a Student Eligibility Report (SER). Regardless of the reported eligibility, it is necessary for the student to forward all three copies of the SER to the Seattle University Financial Aid Office, which will determine the Pell Grant amount; all of which is non-repayable. Up to \$1670 per year may be available. Students currently enrolled at Seattle University and receiving financial aid are required to file an application for a Pell Grant and submit the Student Eligibility Reports. Students with baccalaureate degrees are not eligible to receive Pell Grant funds.

Washington State Need Grant

A grant designed to assist needy and/or disadvantaged Washington state residents in obtaining post-secondary education. Selection is made by the Council for Postsecondary Education from nominations submitted by the University. Students with baccalaureate degrees and/or students receiving public assistance are not eligible to receive Washington State Need Grant funds.

ROTC Grants Army/Air Force

United States Army awards to selected high school seniors and college freshmen, sophomores and juniors

who enroll in the Army Reserve Officer Training Corps program at Seattle University. Expenses for tuition, books and fees are paid for one, two, three or four years and each student receives an additional \$100 per month allowance during the school year. Write to the Seattle University Professor of Military Science for information on application procedures.

The United States Air Force awards scholarships to selected students enrolled in the Air Force ROTC programs. Write to Professor of Aerospace Studies, University of Washington, Seattle, Washington 98105.

Veterans, Widows & War Orphans Educational Assistance

Veterans (or spouses of deceased veterans) may receive up to 45 months of educational assistance under terms of the GI Bill. War orphans and dependents of disabled veterans may also receive up to 45 months of educational assistance. Contact the Seattle University Veterans Office.

Social Security Assistance

Students may be eligible for Social Security assistance if one of their parents currently receives or had received social security benefits. Eligible students must be between 18-22 years of age, unmarried and attending full time. Information and forms may be obtained from a Social Security office.

Student Employment

A financial aid award frequently includes work-study along with the loan and grant elements. Work-study eligible students may earn funds by being employed under the work-study program. This earned income may be used to pay either tuition or living costs. It is important to note that funds earned during the academic year under the work-study program will not be available at the time of Fall quarter registration and students must plan accordingly.

Work-study eligible students are not required to work nor is employment guaranteed. The Seattle University Career Planning and Placement Office assists students in obtaining employment on or off campus.

Federal College Work-Study Program

Students with established financial need are eligible for part time employment in on campus positions.

Washington State Work-Study Program

Students who qualify under a state established need formula are eligible for part time employment in positions with employers other than Seattle University.

Army ROTC Subsistence

\$100 per month is paid to all students enrolled in the Army ROTC program during their junior and senior years. Write to Seattle University Professor of Military Science for information.

Student Placement Center

The Career Planning and Placement Office maintains a listing of employment available on campus and with Seattle area employers. Literature and instruction in job-seeking skills are provided for students and alumni.

COSTS—GENERAL INFORMATION

Tuition Payment 1982-83

Payment of tuition and fees includes library and health service fees, student newspaper, student organization allotments, building fund, and admission to athletic events. After a student registers for a course, the University has committed a space in each course for each student. It is the student's responsibility to pay for all fees in full whether the student attended the course(s) or not. Fees are due and payable on or before the "classes begin" date of the calendar published on page two of this bulletin unless the student has formally withdrawn prior to that date. Payments made after that date are subject to the late registration and refund policies.

Failure to pay in full all tuition and fees of any quarter or session may result in a hold on the student's transcript and may prevent registration in subsequent quarters.

Seattle University reserves the right to change its charges at any time without previous notice.

Tuition Rates 1982-83

Undergraduate courses: Fall, Winter,
Spring\$105.00 per credit hour
Military Science 301, 302, 303,
401, 402, 403 \$ 28.00 per credit hour
Masters degree programs
Business\$143.00 per credit hour
Public Administration \$121.00 per credit hour
Public Administration \$121.00 per credit hour
Psychology
Education
Educational Specialist \$105.00 per credit hour
CORPUS\$105.00 per credit hour
Transportation Engineering \$121.00 per credit hour
Software Engineering \$143.00 per credit hour
Doctor of Education \$146.00 per credit hour
Certificate Programs
Alcohol Studies \$ 75.00 per credit hour
Rehabilitation\$105.00 per credit hour
CORPUS\$105.00 per credit hour
Transportation Engineering \$121.00 per credit hour
Health Information \$105.00 per credit hour
Human Resources \$105.00 per credit hour
Auditors tuition\$ 33.00 per credit hour
A tuition prepayment of \$100.00 is required of all new
undergraduate students admitted for Fall quarter. This pre-
payment will apply toward tuition and is not refundable if
the student decides after May 1 not to enroll at the University.

Late Registration 1982-83

Late registration fees of \$8 per day to a maximum of \$80 are charged if tuition and fees are not paid in full as of the date classes begin noted on the calendar on page two of this bulletin. Late registration fees shall apply to all checks not honored by banks and returned to Seattle University.

Family Tuition Plan 1982-83

Two or more members of a family living in the same household and dependent upon a common support and attending the University concurrently may apply for a tuition discount. Further information on the Family Tuition Plan can be obtained from the Financial Aid Office.

Laboratory Fees 1982-83

Sciences Laboratory courses
Allied Health, Biology, Chemistry, Physics \$22.00
Computer Laboratory
Business 500; Health Information Services 475,
491; Mathematics 213, 214; Psychology 390 \$22.00
Education 330, 528, 547\$17.00
Physical Education and Recreation 120,
124, 131, 135, 146, 155
Engineering Laboratory courses\$22.00
Health Information 401, 402, 403, 440, 441, 476 \$22.00
Nursing 205, 312\$17.00
Nursing 206, 335, 337, 341, 409, 433
(per credit hour)\$10.00
Psychology 381\$17.00
Psychology 402\$22.00

Refunds 1982-83

Withdrawals (full or	partial)	
		80 percent
11-15 class days		60 percent
16-20 class days		40 percent
Thereafter		. No refund

Refunds are based on the number of consecutive days from the first class day of the term until the official date of withdrawal or reduction in class load occurs. The official date is considered to be the date the student submits the withdrawal or change form to the Registrar. A refund to a financial aid recipient is applied first to the student's financial aid source(s) and the balance, if any, is remitted to the student. Financial aid recipients will, therefore, in all likelihood, not receive refunds.

If the tuition and/or fees have not yet been paid, the portion normally not refunded is due and payable together with late fees. Failure to pay the non-refundable tuition and fees may result in transcript holds and may prevent registration in subsequent quarters.

41500

Fees — Non-Refundable 1982-83

Application undergraduate and graduate

(must accompany application form)
Application, transient students \$15.00
Late registration, \$8 per day (maximum \$80)
Matriculation, undergraduate and graduate \$35.00
Credit by examination (per credit hour)\$33.00
Validation of field experience (per credit hour) \$27.00
Removal of incomplete (per course) \$10.00
Graduation, undergraduate (per degree)\$30.00
Graduation, graduate (per degree)\$55.00
Graduate fees are due at the time of application for
graduation, and graduation forms will be released only
upon presentation of a receipt.
Certificate fee \$20.00

Residence Charges 1982-83

Parking (per quarter)

Room and Board (per academic year)	\$2,493.00*
Deposit (refundable)	\$85.00
(Private room, additional \$220 per quarter)	\$220.00

*Based upon 19 meals per week. Other options are also available. Further information can be obtained through the office of the Director of Resident Student Services.

ACADEMICS

The CORE CURRICULUM

Students at Seattle University take a basic program of liberal studies courses called the core curriculum. Additional requirements, exceptions and stipulated courses are established by the schools and departments of the University and those sections of this bulletin should be consulted before choosing core courses. Check course descriptions in the respective departmental sections for prerequisites.

Required Sequences

ENGLISH	SEQUENCE	10 credits	
En 110 and any or	Freshman English	5 credits	
En 132	Masterpieces of		
	American Literature	5 credits	
En 133	Masterpieces of		
	World Literature	5 credits	
En 175	Introduction to Literature	5 credits	
En 220	Introduction to Poetry	5 credits	
En 230	Introduction to Fiction	5 credits	
En 240	Introduction to Drama	5 credits	
En 283	Classics of Black		
	American Literature	5 credits	
HISTORY	SEQUENCE	10 credits	

HISTORY SEQUENCE ______ 10 cred

Students have the option to select one of the following:

Plan 1

Hs 104: Western Civilization I and Hs 105: Western Civilization II

Plan 2

Hs 100: Origins of the Modern World and Hs 105

Plan 3

Hs 100 and any one of the following: Hs 231: Survey of the United States, Hs 251: Survey of Latin America, Hs 271: Survey of Russian History, Hs 281: Survey of the Far East since 1900, Hs 349: Afro-American History

MATHEMATICS/SCIENCE SEQUENCE ___

Any two 5-credit courses in mathematics, science or engineering, which the student is qualified to take, will fulfill the mathematics/science requirement. The following courses are recommended:

10 credits

B1	101	Life Science	5 credits
Ch	100	Science, Technology and the	
		Quality of Life	5 credits
Ch	110	Fundamentals of Chemistry	5 credits
Ecl	208	Man and the Environment I	5 credits
Ecl	209	Man and the Environment II	5 credits
Ecs	113	Fundamentals of BASIC	o orcano
		Programming	5 credits
Ecs	114	Fundamentals of FORTRAN	o orcans
		Programming	5 credits
Isc	201	To Feed the World	5 credits
0.00	202	To See the Light	5 credits
Isc	401	Science and Technology: The	5 credits
130	401	Human Response	5 credits
Mt	175	Mathematics for Liberal Arts	5 credits
IVIL	173		F
Ph	110	Students	5 credits
rn	110	Introduction to Astronomy of	
		the Solar System	5 credits
_			

Business, mathematics, engineering and science majors should consult their departmental programs for mathematics/science requirements.

PHILOS	SOPHY SEQUENCE	15 credits
PI 110	Philosophical Problems	
PI 220	The World Philosophical Problems	5 credits
	Philosophical Problems The Human Person	5 credits

and any other 5-credit course in philosophy which the student is qualified to take. Consult the course listing in the Philosophy department section of this bulletin for third course options.

Transfer students with junior or senior standing (90 or more credits) are usually required to take two philosophy courses after transferring. Transfer students with freshman or sophomore standing (89 or fewer credits) are usually required to take three philosophy courses.

SOCIAL SCIENCE SEQUENCE ______ 10 credit

Any two 5-credit courses in economics, political science, psychology and/or sociology for which the student is qualified. The following are recommended:

Ec	100	Nature of Economic Society	5 credits
Ec	271	Principles of Economics	
		Macro	5 credits
Ec	272	Principles of Economics	
		Micro	5 credits
Ec	371	History of Economic	
		Thought	5 credits
Pls	160	American National	o orcans
		Government	5 credits
Die	214	Government and the	o credits
1 10	217		Earadita
Pls	230	Economy	5 credits
-		Industrial Democracies	5 credits
PIS	249	Introduction to International	
		Politics	5 credits
PIS	289	Introduction to Political	
		Philosophy	5 credits
Pls	440	Comparative Politics of	
		Asia	5 credits
Pls	441	Comparative Politics of	
		Africa	5 credits
Psv	100	Introductory Psychology	5 credits
	210	Personality Adjustment	5 credits
	315	Abnormal Psychology	5 credits
	322	Psychology of Growth and	o credits
rsy	322		F
		Development	5 credits

Sc 101	Fundamentals of	
	Sociology I	5 credits
SC 200	Perspectives in	West Level
0	Social Psychology	5 credits
Sc 210	American Society	
	and Culture	5 credits
Sc 362	Deviant Behavior	5 credits

(Students in the School of Education substitute Ed 322 for Psy 322.)

THEOLOGY AND RELIGIOUS STUDIES SEQUENCE _______ 10 credits

Students must take in sequence one 5-credit course from Level 1 (200 numbers in the Bulletin listings) and one from Level 2 (300 numbers). Numbers in the 400s are for majors, minors and for those desiring electives beyond the core.

Students should begin their theology sequence in the Sophomore Year or later and should have taken some philosophy courses.

Transfer students with junior or senior standing (90 or more credits) must take one theology course from Level 1 or the level their background fits them for (consult the Chairperson). Transfer students with freshman or sophomore standing (89 or fewer credits) must take two theology courses, one from Level 1 and one from Level 2, in sequence.

Core Exceptions

Business, engineering, nursing and science students should consult individual program sections for their history, philosophy and social science requirements.

Academic Regulations

Each student is responsible for informing himself/herself of the academic regulations and requirements set forth in this Bulletin of Information and for revisions of same as posted on campus bulletin boards or in other official publications of the University. Failure to meet the requirements or comply with regulations because of lack of knowledge thereof does not excuse the student from being subject to them.

A student's program of study must be approved by a member of the faculty, usually the adviser, at registration. However, such approval does not give official sanction to any failure to meet University requirements nor does it free the student of that responsibility necessary to intelligent personal choice.

The Academic Council has discretionary powers for all cases not covered by the rules and regulations listed in this section. The University reserves the right to cancel any class which does not meet the required minimum enrollment. The enrollment and graduation of each student, the awarding of academic credits, and the granting of any award or degree are strictly subject to the disciplinary power of the University. The University reserves the right to change any requirement and to ask a student to withdraw at any time. No person is allowed to attend class unless officially enrolled with appropriate fees paid.

Regulations in this bulletin are supplemented by policy memoranda which set forth policy in greater detail.

The policy of Seattle University on the right of student access to his/her educational record and on confidentiality of information conforms to current public law. The full statement of policy is available for inspection in the Office of the Registrar.

Academic Terms

ACADEMIC AVERAGE — Computed by the University for each applicant to determine the quality of high school work in academic subjects such as English, algebra, history, and laboratory sciences. Non-academic high school subjects such as music, physical education, and typewriting are excluded when this average is computed.

ACCREDITED — Certified as fulfilling standards set up by regional accrediting agencies. Indicates that course work is acceptable to other colleges or universities.

ADVANCED PLACEMENT — Admission of freshmen to courses beyond the beginning level. Granted to students who pass designated advanced placement tests.

ADVANCED STANDING — Granted to transfer students who have previous college work which is acceptable to Seattle University.

ADVISER — A member of the faculty designated to assist the student in planning a program of study.

AUDITOR — A student who is permitted to register for courses without obtaining college credit.

BACCALAUREATE MASS — Official academic function of Commencement Week for those graduating.

CERTIFICATE — Granted by the University upon completion of a specific series of courses in a professional specialty.

CEU - CONTINUING EDUCATION UNIT — A type of credit assigned for courses not a part of a regular degree program; one CEU equals ten hours of formal classroom instruction.

CHANGE OF MAJOR — Procedure whereby student declares his intention to change from one subject field into another within the same division (school or college) of the University.

CHANGE OF SCHOOL — Procedure whereby student obtains permission to change from one school of the University into another.

COLLEGE — One of the eight academic divisions of Seattle University.

CORE CURRICULUM — That body of subject matter common to programs of study and the foundation of Seattle University's liberal education.

COMPREHENSIVE EXAMINATION — An examination covering the entire scope of the student's major area of study.

COREQUISITE — A course which must be taken in the same quarter with another specified course.

COURSE OF INSTRUCTION — A complete set of lectures, quizzes, recitations, student exercises, laboratory periods, and examinations on a given subject.

COURSE OF STUDY — See program of study.

CREDIT BY EXAMINATION — Procedure to obtain credit for work done in private study or for work not otherwise acceptable to the University.

CREDIT HOUR — The unit of instruction used in computing University graduation requirements.

CUMULATIVE GRADE POINT AVERAGE — The quality measurement of each student's university work computed by dividing total quality points by total credits attempted.

CURRICULUM — An established program of study leading toward a degree in a particular subject field.

DEFICIENCY — Lack of credit in a course required for graduation, or lack of credit in subject matter required for entrance.

DEGREE — Awarded by the University upon successful completion of a specific program of study.

DEPARTMENT — A division of a school or college of the University consisting of those faculty members who are actively engaged in instruction, administrative or research work in a specific subject field under the direction of a chairman.

ELECTIVE — A subject chosen by the student not demanded by his/her program of study.

FIFTH YEAR — Status of those with bachelor's degree taking additional college work in any undergraduate area of study with no specific degree objective; may be seeking teacher certification.

FULL-TIME — For academic reporting purposes, 12 credits is considered full-time for undergraduate students and nine credits full-time for graduate students.

GENERAL STUDIES — Program for students who have a wide range of interest and want a broad liberal arts education, as well as students who have not yet decided upon a traditional major.

GRADE POINT AVERAGE — An average computed on the basis of numerical values assigned to the letter grades received by students.

GRADUATE STUDENT — One who has been admitted to Graduate School to pursue a specific advanced degree program or post master's program.

HUMANITIES — Cultural subjects as distinguished from social sciences (history, psychology, or sociology) and physical sciences.

I-20 FORM — United States immigration Form No. 20 issued by the University to students from foreign countries who have been accepted for admission.

INTERNSHIP — A period of one quarter or one year during which a student gains experience in an actual work situation. The length of internship and type of agency to which a student is assigned are determined by his/her major or some special interest within the major field.

LOW SCHOLARSHIP LIST — A warning list circulated to deans each term showing students whose poor academic work in one quarter if not immediately improved will result in probation or dismissal.

MAJOR — The specific field of study selected by a student.

MATRICULATE — Enrollment at the University for the first time as a regular student to pursue a degree or professional program.

MINOR — The secondary field of concentration selected by a student.

PART-TIME — For academic reporting purposes, less than 12 credits is considered part-time for undergraduate students and less than nine credits part-time for graduate students.

PERMANENT RECORD — The University record (transcript) of all courses for which a student registers.

PLACEMENT TESTS — Tests in a specific field administered to entering students to determine the level of achievement before assigning college courses.

PREREQUISITE — A course which must be complete before a student is permitted to register for a more advanced course.

PROBATION — Status resulting from academic performance below the minimum university requirement.

PROVISIONAL STUDENT — One who is admitted with an entrance requirement unsatisfied.

PROGRAM OF STUDY — The curriculum in a given subject matter field. A series of courses assigned by schools and departments of the University which must be completed by the student before a degree is awarded.

QUARTER — Term of instruction during which a student completes a series of courses. There are three quarters in a regular academic year, Fall, Winter and Spring. The summer quarter extends from June to August.

READMISSION — Procedure whereby a student who has not been in attendance for one or more quarters requests permission to re-enroll.

REGISTRATION — Official enrollment in the University. Process in which student selects courses each quarter. Student is considered officially registered when tuition is paid.

REGULAR STUDENT — A fully matriculated student pursuing a degree program.

SPECIAL STUDENT — A student admitted temporarily to take course work that is not applicable toward a degree until regular standing is achieved.

SCHOOL - See College.

SPECIFIC CURRICULUM — In addition to the core curriculum required of all students, each individual student selects a specific curriculum or field of concentration. These curricula are offered by the schools of the University according to degree requirements.

TRANSCRIPT — A copy of the student's permanent record.

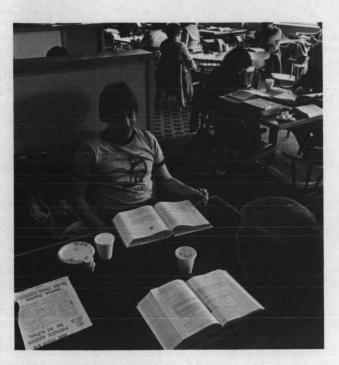

TRANSFER CREDIT — Credit awarded to a student for work completed at another college or university.

TRANSFER STUDENT — One who is admitted to Seattle University having previously completed work at another college or university.

WITHDRAWAL — Procedure whereby student notifies the University that he/she will not complete course(s) for which he/she is registered.

Attendance Requirement

Attendance may be an essential and intrinsic element of the educative process. In any course in which attendance is necessary to the achievement of a clearly defined set of course objectives, it may be a valid consideration in determining the student's grade. While there is no all-University regulation requiring class attendance, it is the responsibility of the instructor to state the relevance of attendance at the beginning of each course.

Classification of Students

Regular undergraduate students are classified as follows:

Freshmen— Sophomore-Junior-

0-44 credits completed 45-89 credits completed 90-134 credits completed 135 or more credits completed

Other students are classified as follows:

5th year-

Senior-

post baccalaureate students not seeking an advanced degree

Graduate-

post baccalaureate students admitted to Graduate School for a master's or

Special-

doctorate degree program an undergraduate student awaiting

approval for regular status

non-matriculated students registering Transients for one or two quarters only

Auditors-

non-matriculated students registered for audit only not for regularly graded

credit

Concurrent Enrollment at Two Colleges

University regulations require students to seek written permission to be enrolled at another institution simultaneously with enrollment here. Credits completed at a second institution are not transferable unless prior to enrolling elsewhere a faculty action authorizing dual enrollment is approved by the Dean and Registrar.

Course Numbering System

The course numbering system at Seattle University is as follows:

100 to 199 are freshman courses 200 to 299 are sophomore courses

300 to 399 are junior courses 400 to 499 are senior courses

500 and above are graduate courses - graduate standing required to register for courses numbered 500 or above.

Credit by Examination

Examinations for advanced credit in courses offered by the University may be taken by a student for work done in private study or on subject matter taken at a nonaccredited college or university, with the following restrictions:

1. Student must be currently registered at Seattle University.

2. No student may take an advanced credit examination in a course in which he/she has already been registered.

3. The maximum number of credits obtainable by advanced credit examination is 30, not more than 15 of which may be obtained in one subject matter field. All credits obtained by examination will be counted as extension credit and included in the maximum 45 extension credits allowed.

4. No credit will be granted unless the applicant has earned a minimum of 15 resident credits with a minimum grade point average of 2.50.

No student within a given field of study may receive advanced credit in subject matter more elementary than that for which he has previously received credit.

6. No student will be permitted to repeat an examination for advanced credit.

7. No student may take examinations for more than 15 advanced credits in any one quarter.

8. No student may receive advanced credit by examination for lower division foreign language courses in his/her native language or from earlier schooling.

9. Students who wish to qualify for credit by examination must apply to the Dean, Registrar and Controller for approval.

10. No graduate credit is to be given by examination.

11. No credit by examination may be given for physical education activity courses.

Credit Load

The normal load for undergraduates is 15 credits per quarter. No student may carry excess credit hours without permission from the dean of the school.

Students on academic probation may be required by the dean of their school to carry less than the normal credit load.

Dismissal

Students who have three quarters at Seattle University with a cumulative grade point average below 2.0 or who fail to maintain standards in a professional school, or those who receive failing grades in 10 or more credits in one quarter, or those with an excessive number of I or NC grades, are subject to dismissal. If dismissed for academic reasons, request for reconsideration must be filed in writing with the dean in accordance with the policy of the individual college.

A student withdrawing voluntarily from the University is entitled to a statement of honorable dismissal if he/she is not liable to dismissal on account of scholarship, absence, breach of discipline, or financial indebtedness to the University.

Examinations

Examinations in all courses are regularly held at the middle and end of each quarter, and at such other times as the instructor may determine. Absence from an announced written examination is excusable at the discretion of the instructor and subject to review by the dean. Students absenting themselves from a scheduled examination without justifiable cause will receive a failing grade for the examination.

Forgiveness Policy

A forgiveness policy making it possible for former SU students with poor academic records to resume their studies as adults without the encumbrance of poor grades earned previously became effective Fall Quarter, 1977. After being absent from school for at least 8 years, former SU students in undergraduate programs may apply for forgiveness only upon readmission or during the first quarter resumed at SU. For further information consult the Registrar.

Grade Changes

Once a grade is recorded it can be changed only by the Vice President for Academic Affairs on the faculty action form completed by the instructor and countersigned by the department chairman and dean of the school. Errors in grades must be reported within six months of date of issue of grade reports.

Grade Point

The University uses a letter grade to indicate the level of individual student achievement. Each letter grade has a quality point value assigned for the grade achieved. The quality point value is assigned to each letter grade as follows:

A	 4 quality points
В	 3 quality points
C	 2 quality points
D	 1 quality point
E	 0 quality points

The grades of CR, NC, I, W, S, N, Y, or YW have no negative quality point value.

Each student is required to maintain a C average, which is equivalent to a 2.00 grade point average. The grade point average is computed by dividing the total number of quality points achieved in one quarter by the total number of credit hours attempted in which the student earns a letter grade A, B, C, D or E.

Grade Reports

Student quarterly grade reports are mailed at the end of each quarter. The University does not hold itself responsible for grade report errors unless the Registrar is notified of the error within six months after the date of issue of a grade report.

Grading System

NC

The University follows the letter grading system shown below.

Grade	Descriptive Value
A	Superior student — shows ability to use factual knowledge in reaching independent conclusions and can synthesize facts into a logical and coherent pattern; shows interest in relating collateral reading to the principles developed in course work; scholarship exceeds requirements.
В	Above average student — knowledge is very good, scholarship meets all requirements, information is complete but not detailed.
С	Average student — knowledge is good; scholarship meets assignments, but information is incomplete.
D	Below average student — knowledge is fair, scholarship does not meet assignments; essential information is lacking or false information given.
E	Failing student.
w	Withdrawal — official withdrawal.
CR	Credit — grade assigned under credit/no credit option if work meets or is above minimum passing level.

No Credit — grade assigned under credit/no credit option if work is below minimum passing level, or grade assigned by Registrar when student registers, does not withdraw yet does not complete the course.

Incomplete — A temporary grade assigned at the discretion of the instructor in case a student has been in attendance and has done satisfactory work until within two weeks of the end of the quarter, provided the student has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other serious circumstances beyond the student's control. When the instructor assigns an I grade, a Notice of Incomplete Grade Form must be filed with the Dean, Registrar, student and instructor. This form will state what work remains to be completed to obtain a final grade or, if this further work is not completed, what grade is to be placed on the permanent record. The student has until six weeks after the beginning of the next quarter, regardless of whether the student is enrolled, to complete the specified work. If no further work is completed, the I grade will be converted to a letter grade, in accord with the instructor's directions on the Notice of Incomplete Grade Form previously filed. If the specified work has been completed, the student must file an official Incomplete Removal Form and pay the required fee to have the final grade posted to the transcript. However, if the grade is an E the final grade will be posted without student payment. I grades assigned spring quarter must be removed by six weeks after the beginning of the fall quarter. Prior to the end of the I-removal period, the Dean may notify the Registrar of serious reasons that require an extension of this deadline to a time certain, but under no circumstances may this be extended beyond one calendar year from the date of initial posting of the I. While on the transcript, I grades will carry no penalty; i.e., they will not be counted in credit or grade point average computations.

This supersedes the regulations on I grades appearing on Page 24 of the 1977-78 Bulletin of Information.

No Grade—a suspended grade for courses in which work is not scheduled for completion until after the quarter closes, i.e. thesis or research courses at the graduate level. It is the responsibility of the student to arrange with the supervising instructor to remove the N within one calendar year of the quarter the grade is assigned, per the schedule given below. Once the closing date has passed, re-registration and payment of regular tuition is required in order to obtain credit for the work completed.

N Grades Received Summer term	Must be Removed Before August of the following calendar year
Fall term	December 1 of the following calendar year
Winter term	March 1 of the following calendar year
Spring term	May 1 of the following calendar year

Satisfactory — a satisfactory grade which may be given for thesis, research, independent study, off-campus courses, field experience type courses and in non-credit courses.

Audit - course for which no credit is given.

Audit Withdrawal — registered but did not attend through end of course.

Missing — symbol used on grade reports to inform student that grade has not been received from instructor.

Credit/No Credit Option

Undergraduate students may elect a credit/no credit option in elective courses under the following conditions:

- Student must declare desire for credit/no credit during registration; student may change to or from credit/no credit only during the five-day drop/add period.
- Eight courses (except those mentioned in 6 below) regardless of credit hours per course, is the maximum number of credit/no credit classes acceptable toward a bachelor's degree. Transfer students will be allowed the following number of credit/no credit courses at Seattle University:

Transfer Credits	0-44	courses
	45-896	
	90-1344	courses
	135 and above0	courses

- Credit/no credit may apply to a maximum of two courses in the major or departmental requirements outside the University core; students may not select this CR/NC option for any courses in the University's core.
- Students who elect a credit/no credit option are eligible for quarter honor roll only if credit for graded courses totals 12 or more.
- Only one credit/no credit course may be taken in a given quarter, except those in item No. 6 below.
- All P.E. activity courses numbered 100-499 and music practice courses shall be credit/no credit.
- No graduate courses (500-699) are open to CR/NC grading.
- All courses elected as credit/no credit will appear on the student's permanent record and will be graded: CR (credit)—PASS NC (no credit)—NO/PASS
- Ninety (90) credits graded A, B, C, D, must be completed at Seattle University to qualify for honors. Courses graded CR/NC do not count toward this total of 90.

CR and NC courses will not be computed in credits attempted and therefore will be excluded from computations of grade point averages. Courses in which a CR grade is given will be counted as completed credits. When student selects the CR/NC option this becomes a matter of record with the Registrar, but it is not reported to instructors.

Probation

If a student falls below the standard required for graduation, he/she may be placed on probation and given the opportunity to improve the quality of work before final dismissal. A student will be placed on probation if the cumulative grade point average falls below 2.00 or the minimum required by a school/college.

Readmission

Students who have been absent from Seattle University for one or more quarters and students who have attended

another school since withdrawing from Seattle Univesity are required to fill out an application for readmission form. A re-entering student who has attended another school since withdrawal from Seattle University must submit an official transcript to the Registrar before application for admission can be considered.

Credit for courses completed elsewhere is considered not transferable unless an official transcript is filed with the Registrar at time of readmission. Credit from a two-year community college does not transfer once a student has a total of 90 quarter credits (junior status). Records of summer work must be on file by December 1 for credit to transfer.

Records

As required by federal legislation, Seattle University has a policy on the rights of students to privacy of their educational records and access to the information on file. This policy is published annually in the student newspaper. Student directory information will be published by the University unless a student requests it not be released in writing to the Registrar by the fifth day of any term. Records policy includes the right of the University to place a hold against the transcript of a student with a financial obligation and to deny re-registration until all debts owed the University have been paid. The full policy statement including right of appeal may be obtained from the Registrar.

Registration

Newly admitted students and returning students must present themselves at the University for registration on the dates published.

No registrations are permitted after the fifth class day. A late registration fee is assessed after the first official class day of the quarter. Students registering late are held responsible for absences thus incurred.

No person may attend any University course unless officially registered.

Registration Changes

Students are held accountable for completion of every course for which they register. If it is necessary to drop or add a course or to otherwise change a program of study, the student must obtain a change of course card from the Registrar's office and present it to the adviser or dean for approval. This card must be returned to the Registrar within the specified time limit. No course may be added or changed after the fifth day of class. A student who drops or changes courses without following this procedure is ineligible for tuition refund and will be assigned a grade of NC.

Repeating a Course

Students who receive a grade of D or E may repeat the course. In such cases the grade received the second time shall be the one counted in computing the grade point average required for graduation. The grade earned the second time cannot be higher than a C. In computing the grade point average, quality points equal only to a grade of C will be allowed, although the actual letter grade earned will be posted to the record. In determining University graduation honors only the grade received the first time will be counted.

Transcripts

Students may obtain official transcripts from the Registrar's office. No official transcript will be sent for students with a financial obligation to the University.

Seattle University will not issue a transcript to any third party unless the student or graduate files a written request with the Registrar and supplies the name and address.

Letters of recommendation or copies of transcripts should be requested at least one week before they are required. Transcripts cannot be issued during the period of registration, examinations, or commencement.

The University does not hold itself responsible for any error on a transcript which is not brought to the attention of the Registrar within six months of the closing date of the quarter in which the error occurred.

Transfer within the University

To transfer from one school of the University to another or from one department to another (change of major) the student must follow this procedure:

Obtain a form from the Registrar and present it to the dean of the school from which withdrawal is sought. When the form is approved by this dean it is presented to the dean of the school in which the student wishes to enroll. If approved by the new dean the form is returned to the Registrar and the student's record is altered accordingly.

Withdrawal

The Registrar's office must be officially notified when a student withdraws from one or more of his/her courses. The withdrawal form is obtained from the Registrar and presented to the adviser, instructor, dean and Registrar in that order for approval and signature. In an emergency, notification of withdrawal may be made by telephoning the dean of the school or Registrar.

The official withdrawal is completed only when the approved card is presented to the Registrar within the specified time limit. A grade of W will be allowed until the eighth last class day of the quarter.

Degrees

Official Commencement Exercises are held once a year in June. Students completing course requirements at the close of summer, fall or winter quarter will receive diplomas at the succeeding Commencement. All responsibility for fulfilling the requirements for graduation rests with the individual student.

Application for a Degree

Application for a degree must be made at the Office of the Registrar within the period indicated in the University calendar or other official publications. Candidates for a degree normally file applications during the quarter preceding their final registration. A receipt for the graduation fee must be presented before the Registrar may issue the application forms.

Application For a Certificate

Application for a certificate must be made at the office of the Registrar within the first four weeks of the stu-

dent's last quarter in a certificate program. A receipt for the certificate fee must be presented before the Registrar may issue the application forms.

Degree Requirements—Bachelor's

As a general rule, students are required to meet degree program requirements in effect at the time of their matriculation.

Candidates for an undergraduate degree must meet the requirements listed below.

- Core curriculum requirements and specific requirements of the college or school from which the student expects to graduate must be fulfilled; A minimum overall grade point average of 2.00 must be achieved and a gpa of 2.00 is required in the student's major. Higher grade point average requirements pertain in certain programs. See individual program section for requirements
- 2. A minimum of 180 credits is required for the baccalaureate degree except for graduates of Matteo Ricci where 135 credits is the minimum. However, only students matriculating as freshmen beginning September 1963 or later and transfer students matriculating January 1966 or later are eligible to graduate with 180 credits. Students who matriculated before these dates will be required to meet minimum requirements in effect at the time they were last enrolled as full time students.
 - A minimum of 15 credits in philosophy and 10 credits in theology and religious studies are required in all degree programs. See page 18 for specific requirements.
 - 4. The senior year must be spent in residence at the University, which shall be understood to mean the final 45 credits of degree requirements, and the work is to be taken in the University under the direction of members of the faculty. In the case of Seattle University students enrolled in AFROTC at the University of Washington this requirement may be waived for Aerospace studies.
 - Completion of all degree requirements within 10 years of the date on which the college work was begun.
 - Satisfaction of financial obligations toward the University.
 - 7. While attendance at commencement is not compulsory, diplomas will be routinely mailed only to those graduates who declare their intention to graduate in absentia at least two weeks in advance of the commencement date. Diplomas are issued only once a year in June regardless of when student completes degree work.
 - 8. Students working for a second baccalaureate degree, either consecutively or concurrently, must complete a minimum of 45 credits beyond the requirements of the first baccalaureate degree. These 45 credits must be completed in residence at Seattle University. A minimum of one course (5 credits) in philosophy and one course in theology and religious studies (5 credits) is required.

Students completing this minimum of 10 credits in philosophy and theology and religious studies at

Seattle University or elsewhere as part of a first bachelor's degree will be considered as having fulfilled this requirement. Minimum academic and administrative requirements listed above must also be met.

Requirements for advanced degrees are given in the Graduate Bulletin.

Aerospace Studies (Air Force ROTC) Col. Ernest L. Hansen, P.A.S., Chairman

Objectives: Air Force ROTC is offered to SU students through an agreement with the University of Washington. The objectives of Air Force ROTC are to motivate, educate, and commission highly qualified students for active duty as officers in the United States Air Force. The curriculum is designed to develop the skills and attitudes an Air Force officer will need to comprehend and cope with the scientific and techological developments of the 80s.

General Program Requirements: All classes are taught at the University of Washington, Clark Hall, Rm 210. The basic freshman and sophomore courses are open to all students and require two hours of student participation per week. Junior and Senior classes are open to selected qualified students who have received credit for the basic courses. For further information contact the Recruiting Officer at (206) 543-2360 or write Recruiting Officer, AFROTC Det 910 (DU-30) University of Washington, Seattle, WA 98195.

Commissioning Requirements:

Students who successfully complete the Air Force ROTC program and receive an academic degree from Seattle University will be offered commissions as Second Lieutenants in the U.S. Air Force Reserve.

General Military Course (GMC)

The basic division courses are open to all students. No military commitment is required to take these courses. Sophomore level students may take the freshman and sophomore level courses concurrently. Uniforms and textbooks are furnished. A four week Field Training course taken during the summer between the sophomore and junior years is required for entry into the Professional Officer Courses.

Professional Officer Courses

Cadets selected for enrollment in POC are enlisted in Air Force Reserve and receive subsistance pay of \$100 per month. The Air Force will pay for up to twenty-five hours of flight instruction for students who are qualified for Air Force pilot training.

Scholarship

Four, 3½, 3, 2½, and 2-year scholarships are available for engineering and certain scientific majors. In addition, selected scholarships are available for pre-health profession majors, pilot, navigator, and missile launch officer candidates. Air Force ROTC scholarships pay for tuition, books, fees, and uniforms. In addition, scholarship winners receive \$100 subsistance per month. To take advantage of these scholarships students should apply directly to AFROTC Det 910, University of Washington, Seattle, WA 98195, or call (206) 543-2360.

432 Study of United States defense policy with respect to those political, economic, and social constraints involved in its formulation and implementation. Includes an examination of the military professional, his/her role and civil-military relationship in a democratic society. Three classroom hours and one hour of leadership laboratory per week. Prerequisite: permission of department.

Honors at Graduation

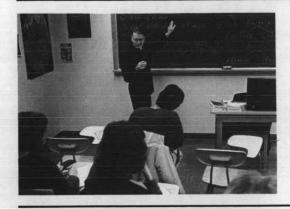

Graduation with honors requires completion of at least 90 credits in residence at Seattle University; the minimum of 90 credits must be earned in regularly graded courses (courses in which grades of A, B, C, or D are given). Should a student elect the CR/NC option for any one course as part of his 90 credit minimum, he loses his honors eligibility. In programs where CR/NC grades are mandatory for field experience courses, a student with these as a part of his minimum 90 units also loses his eligibility for automatic honors on the scale shown below. However, such students may apply for honors by filing a petition with their Dean. The petition must be received by May 1 and will be reviewed by the Deans, with notification of the decision on honors issued to the student by May 20.

Cum Laude	3.40
Magna Cum Laude	3.65
Summa Cum Laude	3.90

Special Awards

The President's Award — Awarded to the graduating senior who has maintained the highest scholarship throughout the four years of college work, as determined by grades and the judgment of the academic deans.

COLLEGE OF ARTS & SCIENCES

College of Arts and Sciences

William F. LeRoux, S.J., S.T.D., Dean

Objectives

The College of Arts and Sciences, the largest undergraduate division of Seattle University, is dedicated to the ideal that a liberal education in the arts and sciences best prepares a student for a rich and fruitful life. The philosophy upon which the College is based is one which recognizes not only that its students must be prepared to make a living, but to live fully, in a rapidly moving and complex world. All undergraduate students in the University take core courses in the College, for in them are found the intellectual, social, cultural and spiritual riches of Western civilization.

The College aims at developing not only depth in some one area of knowledge, but also the breadth of learning, understanding and truth which is essential to a rich human life. The student is led, by means of the various academic disciplines, to see the world in its major aspects of reality. Students are helped to discover the interrelationships of the physical, social, and artistic dimensions of the world, along with their own relationship to the world—especially their power and responsibility to shape it for their future.

Organization

The College comprises 18 administrative subdivisions, of which 12 are departments in a specific academic subject. The departments are English, Fine Arts, Foreign Languages, History, Journalism, Military Science, Philosophy, Political Science, Psychology, Rehabilitation, Sociology, Theology and Religious Studies.

The program divisions are Community Services, Criminal Justice/Police Science, General Studies, Honors, Prelaw and Speech.

Certificate programs are offered in Alcohol Studies, Rehabilitation, Sociology and CORPUS (Pastoral Ministry).

Each department chairperson or program director, in collaboration with proper or assigned faculty, arranges study programs and counsels individual students. All programs are coordinated and supervised by the Dean of the College. Students wishing to inquire about programs in detail should consult either the Dean or the respective department chairperson or program director.

Admission Requirements

Students entering the College must satisfy all entrance requirements for the University as outlined in the Admission section in this bulletin. In addition, some departments list further requirements for admission into certain major programs. Concerning these the respective departmental sections in this bulletin should be consulted.

Bachelor of Arts

with a major in: Art, Community Services, Criminal Justice/Police Science, Drama, English, Foreign Languages, General Studies, History, Humanities, Journalism, Music, Philosophy, Political Science, Psychology, Public Administration, Rehabilitation, Social Sciences, Sociology and Theology and Religious Studies.

General Program Requirements

Students in the College of Arts and Sciences must satisfy the core curriculum requirements of the University given on page 18 of this bulletin.

Additional specific requirements are set by the department or program division in which the student's major program is pursued. For these requirements consult the respective sections in this bulletin.

Subject Majors

In all programs having a specific subject major, the number of required courses and hours varies according to the department or program division. The minimal number required in any subject major is 40 hours; majors in departments having core sequences must consist of 35 hours beyond the core sequence.

Alcohol Studies Programs

James E. Royce, SJ, Ph.D., Director

Jerome V. Schnell, Ph.D., Executive Director

Objectives

This program is designed to provide a strong background for work in alcoholism and drug abuse treatment and rehabilitation, in education and prevention, in social services agencies, in industry or in referral centers.

It also supplements the training of degreed professionals as well as students preparing to work in psychiatry or psychology, nursing, social work, rehabilitation, criminal justice, community services or allied fields.

Degree Programs

The B.A. in Social Science with a Specialty in Alcohol Studies includes both the Basic and Advanced Certificates (minimum 36 credits of the 65 beyond the core, as in General Studies Program, p. 45). The Basic Certificate may also be a part of the B.A. in Community Services, Rehabilitation, Psychology, or Criminal Justice

Master's degrees with a Specialty in Alcohol Studies may be earned in Rehabilitation, Adult Education, or Counseling and Guidance; field experiences must be done under the appropriate graduate programs instead of ALC 407-408, but will also count for the Certificate.

Basic Certificate

A certificate in Alcohol Studies will be granted upon successful completion of 20 credits, which must include the following courses: Alc 400 (or Psy 490), 401, 402, 403, 405, 407-8 with a 2.50 minimum g.p.a. Certificate

candidates may register as transient students. Basic Certificate program is a combination of classroom instruction (14 credits) and supervised field experience (6 credits) under experienced counselors. Evening classes will permit in-service training. A certificate program should be completed within three years.

Alcohol/Drug Certificate

A certificate in Alcohol/Drug Studies will be granted upon completion of the above requirements plus ALC 424 and 425 for a total of 24 credits. One of the two field experiences must be taken in an approved drug abuse agency, and the other in an approved alcoholism agency.

Advanced Certificate

An Advanced Certificate in Alcohol Studies is granted upon completion of 16 credits in approved alcohol-related courses with a minimum g.p.a. of 3.00 (B), beyond the 20 credits applied to the basic certificate. A new application must be submitted, and only those who earned the Basic Certificate with a minimum g.p.a. of 3.00 will be considered by the screening committee.

Courses taken in the basic program need not be repeated, but the credits may not count toward both the Basic and the Advanced Certificate. If ALC 405 "The Law and Alcohol" was not taken in the basic program, it will be an additional required course within the total 16 credits.

Alcoholism Courses

Alc 400 Survey of Alcoholism (Symposium) 3 credits

(Psy 490) History, scope, physiological, social, psychological and family aspects of alcohol problems. Drunk driving. Progression, symptoms, types of alcoholics. Nature of the addiction: disease concept, causality, treatment, prevention.

Alc 401 Pharmacology and
Physiology of Alcohol Use
Ingestion, absorption, metabolism. Effects of different blood/Alcohol levels. Psychiatric complications: damage to brain, liver and other organs. Evaluation of results. Prerequisite: Alc 400.

Alc 402 Counseling Principles and Techniques 3 credits
Interview techniques. Intake and intervention vs.
long-range therapy. Supportive, motivational, directive vs. non-directive counseling. Confrontation, role-playing, video-tape playback. Prerequisite: Alc 400.

Alc 403 Personal and Social Rehabilitation 2 credits

Motivation and personality reconstruction in the
recovering alcoholic. Post-detoxication, long-range
sobriety; relapses, dry drunk. Spiritual aspects.
Family and social adjustments. Prerequisite: Alc 400.

Alc 404 Agency Administration 2 credits
Personnel policies, budgeting, financing, office
management, public relations, ethics. Informational
and educational policies. Relations with school
systems, courts, professions and agencies, clergy.

Alc 405 The Law and Alcohol 2 credits

Legal implications and consequences of alcohol-related offenses. Deferred prosecution. Uniform Alcoholism and Intoxication Act. Impaired driving laws.

Court structure and jurisdictions. Prerequisite:
Alc 400.

Alc 406 Cross-Cultural Counseling 2 credits
Special problems and techniques, understanding of
cultural background and instruction by members of
minority groups. Prerequisite: Alc 400 and 402.

Alc 407 Field Experience I 3 credits
Supervised work in an agency, clinic, rehabilitation center referral center. Oral and written reports by student required. Prerequisite: Alc 400 and 402. Mandatory CR/NC

Alc 408 Field Experience II 3 credits
Prerequisite: Alc 407. Mandatory CR/NC

Alc 409 Special Topics

Courses taught by a particular expert or on a certain aspect.

Alc 410 Individual Research

Open only to students with sufficient academic background to pursue independent study. Permission of director required.

Alc 411 Advanced Counseling 2 credits
Instruction and supervised practice in counseling techniques of special value in counseling alcoholics. Playback video tape equipment used. Two and one-half hours per week. Prerequisite: Alc 402.

Alc 412 Group Dynamics in Treatment 2 credits
Role playing as a means to development of self awareness; dynamics of group interaction; introduction to psychodrama. Two and one-half hours per week. Prerequisites: Alc 402, 403 and 407.

Alc 413 Alcoholism Schools Workshop 2 credits
Goals, methods, and skills in teaching Alcohol Information Schools (AIS) and follow-up classes, and court referral schools for those driving while intoxicated (DWI). Problems with defensive and hostile clients. Prerequisite: Alc 400 or equivalent.

Alc 414 Interview and Diagnosis in Treament 2 credits

Procedures and skills used in alcoholism referral
and treatment agencies. Intake interview, client
evaluation, case-writing, pre-sentence report.

record-keeping and confidentiality. Prerequisite: ALC 402.

Alc 415 Modes of Therapy in Treatment 2 credits

Overview of various therapies commonly used with recovered alcoholics and their spouses. Theory, principles and application of techniques. Individual and group practice. Prerequisites: ALC 403 and ALC

Alc 416 Alcohol and Youth: Education,
Problems, Prevention 2 credits
Alcohol-related problems among young people,
stressing education and prevention. Teen-age alcoholics, children of alcoholics, polydrug abuse and
the young drinking driver.

Alc 417 Alcohol Problems in Business
and Industry 2 credits
Scope and cost of alcohol-related problems in
American business and industry. Company policy,
implementation of occupational alcoholism programs, training of supervisors. Prerequisite: ALC 402.

Alc 418 Alcoholism and The Family 2 credits
Alcohol-related problems in the family, including
alcoholic, spouse, children and significant others. Individual and group counseling. Married couples and
team approach as alternatives. Prerequisite: ALC
402 and 403.

Alc 419 Advanced Physiology and Pharmacology of Alcohol and Other Drugs 2 credits
Current research and thought regarding the effects of alcohol on all body tissues, with implications for treatment. Fetal alcohol syndrome, brain, liver, endocrine and other damage. Prerequisite: ALC 401.

Alc 420 Alcoholism Seminar 2 credits

An advanced seminar on selected current topics in alcoholism and alcohol-related problems. Prerequisite: 10 credits in Alcohol Studies, and permission of Director.

Alc 421 Advanced Project or Research

Replication, original research, or scholarly investigation which demonstrates mastery of basic fact-finding, experimental design, evaluation and presentation of results. A graduate project or master's thesis will substitute. Prerequisite: Basic Certificate in Alcohol Studies, and permission.

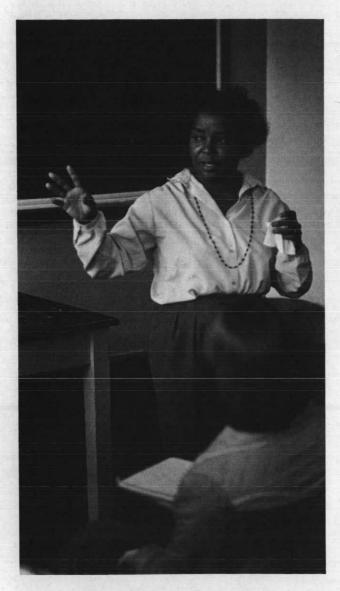

Alc 422 Alcoholics Anonymous
as a Resource
History, structure, traditions and program of A.A.
Psychology of the 12 Steps. Use of A.A. as a treatment resource; cooperation without affiliation.

Alc 424 Drug Abuse: Social Aspects

History, scope, classification of drugs, legal aspects.

Patterns of use, abuse, and addiction. Treatment, recovery and rehabilitation methods and strategies. Prerequisite: Alc 400.

Alc 425 Drug Abuse: Physiological Aspects 2 credits
Pharmacology and physiology of drug action. Prescription and non-prescription drugs. Interactions among drugs, polydrug abuse. Actions of drugs on the central nervous system. Recovery from addiction. Prerequisites:
Alc 401 and 424.

Community Services

Herbert M. Kagi, Ph.D., Director

Objectives

Community Services is a program primarily involving social work courses and field experiences supported by the study of economics, political science, psychology and sociology. The primary objective is to prepare students for work in the field of social work or community organization immediately after the bachelor's degree. Other objectives are to contribute to the liberal education of all students, and to prepare students for admission to graduate schools of social work. The program assists students in deciding on a career choice by making known the nature of the social service field, the dynamics of community action and understanding of these fields for students preparing for advanced training in the related professions.

Supervised field experience in agencies, institutions or related organizations is a unique and vital part of the program. This experience is provided in such areas as probation and parole, public assistance, mental health facilities, youth and children's services, employment

counseling and economic opportunity programs. The Community Services program is not an apprenticeship system but rather a basic program with courses and supervised field practice aimed at giving those principles, skills, knowledge and attitudes necessary for workers in the above fields. Coordinating seminars, concurrent with two required field experiences, provide each student opportunity to understand himself/herself more deeply and acquire a broad perspective of community services.

Degree Offered

Bachelor of Arts in Community Services

General Program Requirements

Candidates must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. A minimum of two field experiences is required, with which the coordinating seminars must be taken concurrently. The required experiences must be in diverse areas.

Degree Requirements

Bachelor of Arts — 105 credits which must include CS 300, 374, 376, 378, 379, 478 and 479; 15 credits in sociology; 15 credits in psychology; 10 credits in political science; 10 credits in economics; 5 credits in statistics or research methods courses.

Bachelor of Arts in Community Services

Community Services Courses

CS 291	Special Topics	1-5 credits
CS 292	Special Topics	1-5 credits
CS 293	Special Topics	1-5 credits

- CS 300 Introduction to Community Services 5 credits
 (Sc 300) Historical development, structure and function of social welfare services and institutions; emphasis on philosophy and methods utilized by professional social work in meeting human needs. (fall, winter)
- CS 305 Introduction to Community Action 5 credits
 Studies methods by which community groups and
 organizers can intervene in the political and social
 processes of a community on the neighborhood,
 city, county and state levels, to initiate social change.
- CS 310 Social Work With Families 5 credits

 Behavioral dynamics of interpersonal relationships in the family; reciprocal nature of relationships; conceptual frameworks for individual and family therapy through study of treatment modalities. (spring)
- CS 315 Working with Children 2 credits

 Theories of child development which direct the modes of service to children. Study of laws which control agency services to children. Examination of selected agency case records.
- CS 317 Social Planning and Community Action 5 credits
 Studies community action in the context of social
 planning; social planning within the models of voluntary associations, service agencies and planning
 organizations. Special emphasis given to organizations within Seattle, King County and Washington
 State.
- CS 330 Citizen and the Law 5 credits

 Discussion of poverty law; family law, the contractual relationship, consumer law, landlord-tenant laws, and personal liability. (spring)
- CS 360 Society and Justice 5 credits

 Examination of the sanctions and processes of criminal law as related to the ethical implementations of social justice. Prerequisite: Upper division standing.
- CS 374 Intervention Skills

 Provides students with the basic principles and processes involved in giving help to individuals, groups and communities in the human services field; focus on some of the basic methods, techniques and strategies. (fall)
- CS 376 Factors of Interviewing 5 credits
 (Sc 376) The interview as one of the major methods of helping people; study of factors of knowledge and method in proficient interviewing to provide a basis for future development. Prerequisite: CS 300 or permission. (winter, spring)
- CS 377 Field Experience 5 credits
 (Sc 377) For Sociology majors only. Mandatory CR/NC (spring)

CS 380 Field Experience III

Direct observation, supervised practice experience in a social welfare agency with the agency's clientele, services and functions in the community. Prerequisites: CS 376 or permission for 378; 378 for 379; 379 for 380. Mandatory CR/NC (fall, winter, spring)

3-7 credits

- CS 400 Grantsmanship

 Trains students to write federal and foundation grants using government and foundation application kits. Examines grant components and grants management.
- CS 405 Group Theory and Process 5 credite
 This course covers the historical development of
 groups, style or types of groups, and how groups are
 used in business, therapy, training or personal life
 situations.
- CS 410 Counseling in Human Services 5 credits
 Focus is on the student development of skills to work
 with people through exploring growth stages a person may experience and how that process affects
 behavior. Counseling use of this knowledge will be
 emphasized.
- CS 412 Adolescence and Crises

 A seminar on the social dynamics of the young in this turbulent stage of development, with the major focus on maintaining/restoring the balance in his life system. (Self—family—friends—community).
- CS 415 Law of Family Conflict 2 credits
 A discussion of the legal aspects in family conflicts to include credit contracts, marriage and dissolution, children, family crimes and Juvenile Courts.
- CS 420 History and Survey of Drug Abuse 5 credits
 Scope of problems arising from drug abuse.
 Psychology of drug addiction; patterns of progression, early symptoms and diagnosis; types of drug addicts. Theories of etiology.
- CS 440 Crisis Intervention 5 credits

Theory and practice of crisis intervention strategies. Schools, criminal justice agencies, family service agencies, public welfare agencies and crisis centers.

- CS 478 Coordinating Seminar I 3 credits
 CS 479 Coordinating Seminar II 3 credits
 Discussion and analysis of practices, programs, objectives, policies and procedures of various agencies, organizations and institutions. Corequisites: CS 378 with 478; 379 with 479.

Criminal Justice/Police Science

Herbert M. Kagi, Ph.D., Director

Objectives

The Criminal Justice/Police Science degree program seeks to offer academic preparation for professional performance in expanding law enforcement roles requiring a new scope of involvement and a spirit of inquiry; to provide an educational background in operational and managerial concepts and techniques in preparation for future positions of increasing responsibility in the management of police services; to provide students with a liberal arts education; to contribute significantly to the improvement of the quality of law enforcement services; and to assist a student in gaining a broad but incisive view of the theories, practices, and problems of criminal justice systems to include research techniques and strategies.

Graduates of the program may qualify for careers in public and private law enforcement, criminal investigation, crime prevention, law enforcement training, education and planning, and other components of the criminal justice system including law school and the subsequent practice of law.

Degree Offered

Bachelor of Criminal Justice/Police Science

General Program Requirements

Candidates must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Because of the interdisciplinary nature of the degree program, majors are required to take 15 credits in sociology; 15 in political science; 15 credits in psychology; and 10 credits in economics.

Degree Requirements

Bachelor of Criminal Justice/Police Science — 55 credits in CJP, or approved related courses.

A minor in Criminal Justice consists of 35 credits in CJP or approved related courses.

CJP 352 Comparative Police Systems 5 credits Comparative analysis of police systems in the United States and selected foreign countries; emphasis on the organizational aspects, functions and process at work in foreign police systems.

CJP 355 Crime Prevention 5 credits Nature and causes of crime and deviant behavior; analysis of theory and methods of prevention; planning for elimination of conditions conducive to crime including demographic and ecological factors.

CJP 360 Society and Justice

5 credits

(Sc 352) Survey of criminal justice process from arrest through release; the relationships of the police, the prosecutor, the defense, the courts, the prisons and corrections, as each integrates into a system.

CJP 362 Deviant Behavior

(Sc 362) An overview of what American society generally regards as deviant behavior. Emphasis is placed on the results of stigmatization and the acceptance of low self-esteem.

CJP 365 Probation and Parole

5 credits

(Sc 365) Examination of current trends and issues in probation, parole, supervision, the legal aspects, research, prediction and personnel.

CJP 366 Corrections

5 credits

(Sc 366) Analysis of post-arrest treatment methods applied to offenders; the correctional institution and community-based corrections. Prerequisite: Upper division standing or permission.

CJP 378 Field Experience I

CJP 379 Field Experience II

1-5 credits 1-5 credits

Direct observation, supervised practical experience and academic study in a selected law enforcement agency of organization in the criminal justice system.

CJP 410 Juvenile Justice Systems

(Sc 412) Examination and study of contemporary police-juvenile operations. Theory and examination of the Juvenile Justice System. Relationship between the juvenile-officer, crime prevention and community relations.

CJP 412 Professional Criminal

5 credits

Analysis of professional crime from the viewpoint of the sociology of work; the professional criminal's utilization of technological change and Criminal Justice System responses.

CJP 415 Victimology

(Sc 415) Survey of the victim-offender relationship; including the origin and scope of victimology, a victim and society, the victim and the administration of justice and the social reaction to victimization.

CJP 418 Sexual Deviance and The Law 2-5 credits Analysis of definition problems, formal, legal and social constraints, and the Criminal Justice System's reaction to deviants.

CJP 425 Problems of Public Service

Bureaucracies

5 credits

Descriptive analysis of the administrative side of large scale post-industrial governments. Emphasis upon coordination and conflict resolution through the budgeting and planning processes.

CJP 450 Politics of the Criminal Justice System 5 credits The relationship of political values and partisan in-

fluence in the criminal justice system including courts, prosecutors, attorneys and pressure groups.

CJP 455 Criminal Justice System Planning Methodology of systems planning, theories of analysis and problems of program evaluation with special attention to the criminal justice system.

CJP 460 Management Theory and **Organizational Behavior**

5 credits

Tracing the development of large government bureaucracy and analysis of controlling theories. Problems in Criminal Justice Systems as functions of bureaucracy and bureaucratic conflict.

CJP 498 Independent Study

Prerequisites: Upper division standing and permission.

English

Alexander McDonald, S.J., M.A. (Oxon.), Chairman

Objectives

The English Department offers courses in three main areas: English language, writing/rhetoric, and literature. The language courses provide the student with greater control over the lexicon, the morphology, the syntax, and the development of the English language. From the writing/rhetoric courses the student learns 1) to use and analyze the language of persuasion, argumentation, and exposition; 2) to write and speak with assurance and effectiveness; 3) to develop skills in imaginative writing (e.g., poetry and fiction). The literature courses increase in the student not only self-awareness and an understanding of human nature by the vicarious experience communicated through literary works, but also a knowledge and an appreciation of our cultural heritage and those of other parts of the world.

In the practical order an undergraduate concentration in English affords the student training in skills which will be crucial in such fields as law, social work, business, foreign service, health professions, teaching, mass communications, politics, journalism, library science, technical writing, and editing.

Degree Offered

Bachelor of Arts

General Program Requirements

Students in English must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. A Fine Arts sequence, FA 101, 102, 103, is recommended. For English majors the second core course requirement is met by En 264, 265 or 266. Those students who plan to go to graduate school, unless they have already achieved reading proficiency in French or German, are strongly advised to take 10 credits of one of those languages.

Departmental Requirements

Bachelor of Arts (English concentration)—60 credits of English which must include the following courses: En 110, 250, 264, 265, 266, 310, 314, 315 and 330. The remaining credits must be taken in courses in the 300 and 400 series. The nature of the courses is to be determined by the student in consultation with an adviser.

Bachelor of Arts (Comparative Literature Concentration)—60 credits of English and Comparative Literature which must include the following courses: En 110, 250, 264, 265, 266, 314, 315, 414 and 416. The remaining credits must be taken in the 300 and 400 series. Recommended are En 382 and 415. The student must take one five-hour course of a foreign literature in the original language when a reading competency in that language has been demonstrated.

Teaching Major (School of Education) — 60 credits of English which must include En 110, 175 (or 220 or 230 or 240); 250, 264, 265, 301, or 401, 330, either 266, 382, 482 or 484; and either 310 or 407. The remaining 15 credits must be taken in courses in the 300 and 400 series. En 314 and 315 are strongly recommended.

Undergraduate Minor — 20 credits of English beyond En 110 and either 264, 265 or 266. These courses should be taken in the 300 and 400 series, as specified by the department. For the Journalism — English Interdisciplinary Program, see the section on Journalism.

Special Undergraduate Minor in Writing and Speech Communications — 35 credits of English and Speech, including 25 credits beyond En 110 and either En 200 or En 204. These remaining courses must include two of the following: En 175, Sph 200, En 203, En 304, En 306, and Dr 404; and three courses from the following: En 250, En 401, En 488, Sph 204, and Sph 310. Students exempted from En 110 will add an elective from the courses listed above.

Fine Arts
J. Kevin Waters, S.J., D. Mus. Arts, Chairman

Objectives

The Fine Arts Department offers programs and courses designed for all students as well as for those who wish to major in Art, Drama, and Music. There are opportunities for everyone to participate in performances and exhibits, or to study voice or an instrument privately. A program in dance is also offered. Moreover, every student may pursue courses which examine changing styles, attitudes, and social conditions in the arts from an historical perspective.

Though the Fine Arts major will concentrate in either Drama, Music, or the Visual Arts, that student will have ample opportunity to study and obtain practical experience in the other related art forms as well. Then, too, in conjunction with the School of Education, students may take courses in the fine arts which will enable them to be certified as Elementary Art, Drama, or Music teachers.

Degree Offered

Bachelor of Arts

Departmental Requirements

Bachelor of Arts — Major in Art — 79 credits which must include Art 221, 231, 311, 312, 334, 346, 351; 21 elective credits in art. Fifteen credits of Fine Arts courses are required, FA 101, 102, and 103. In addition, fifteen credits of cross-field study must be taken in Drama and Music.

Bachelor of Arts — Major in Drama — 65 credits which must include Dr 100, 210, 221, 222, 264, 265, 267, 320, 420, 455, 480 and FA 101, 102, and 103. In addition, fifteen credits of cross-field study must be taken in Art and Music.

Bachelor of Arts — Major in Music — 100 credits which must include MU 115, 116, 117, 215, 216, 217, 315, 370, 371, 372, 373, 415, 416, 417, 418; 6 credits of ensemble and 6 credits of vocal or instrumental lessons. Music majors must be a member of a performing ensemble (choral or instrumental) each quarter in residence (either for credit or no credit). Ten credits of Fine Arts courses are required, FA 101 and 102. In addition, fifteen credits of cross-field study must be taken in Drama and Art.

Teaching Subject, Elementary, Art (School of Education) — 25 credits which must include Art 221, 231, 311, 312, 334, 346, 351, 370.

Teaching Subject, Elementary, Drama (School of Education) — 25 credits which must include Dr 100, 210, 221, 264, 420, 421, plus 7 additional credits in Drama (electives).

Teaching Subject, Elementary, Music (School of Education) — 24 credits which must include FA 103, Mu 115, 116, 117, 2 credits of Mu 110 and 2 credits of Mu 130, Music 114 is required by the School of Education.

Foreign Languages

R. Maxime Marinoni, Ph.D., Chairman

Objectives

The foreign language programs in French, German, Spanish, Latin and Greek all recognize academic, cultural and practical purposes.

Academic — These goals aim at broadening the scope of the student's intellectual formation by affording facility in one or more languages and a background in other cultures. This end is achieved through a major-minor in foreign languages; or a double major, coupling proficiency in a foreign language with a major in another field.

Cultural — Learning about another culture and civilization, its history, geography, literature and arts through the medium of its language leads to better understanding one's self and the world. To achieve this goal all foreign language courses are taught in their cultural context. Courses in French, German and Spanish are taught in the vernacular with the exception of the following: Fr 105, Fr 106, Fr 390; Gr 105, Gr 106, Gr 390; Sp 105, Sp 106 and Sp 390.

Practical — Career opportunities involving foreign languages are good. For the university student trained in a particular field with the extra asset, proficiency in foreign languages, openings exist in the following fields: teaching, government, military, social and foreign service; professions such as international law, engineering, librarianship, foreign trade and international management.

To meet these objectives, the Foreign Languages department offers regular, intensive, specialized and multi-discipline courses and programs.

Degrees Offered

Bachelor of Arts

Master of Education — F/L Teaching (French) — See
Graduate Bulletin

Master of Arts in Education — F/L Teaching (French)
See Graduate Bulletin

General Program Requirements

Students majoring in a foreign language must satisfy the core curriculum requirements of the University, as given on page 18 of this bulletin.

Departmental Requirements

Bachelor of Arts (modern languages) — 40 credits beyond the elementary language courses 115, 125 and 135. These 40 credits must include 215, 225, 235, 315, 325 and any three courses at the 400 level.

Teaching Major (School of Education) — 40 credits beyond elementary courses 115, 125, 135. The 40 credits must include courses 215, 225, 235, 315, and 325. French, German and Spanish only.

Undergraduate Minor (modern languages) — 20 credits beyond elementary language courses 115, 125 and 135. Those 20 credits must be earned in 215, 225, 235 and 315.

Programs Abroad

The French-in-France Program in Grenoble, France offers a full academic year of study (45 credits) of French language, culture and civilization under the direction of regular faculty. The program is open to all students of the University, with no prerequisites.

The German-in-Austria program in Graz, Austria offers one full academic year of study under the direction of regular faculty. There are no language prerequisites and the program is open to all students.

Reading Programs (sequence of two courses: 105, 106) prepare the student to translate the written text with accuracy and comprehension for scholarly purposes. They fulfill the foreign language requirements and help the student gain the facility needed to pass the graduate language examination.

The reading language requirements may not be satisfied by examination in a student's native language, since the intent of such a requirement is mastery of a language new to the student.

Intensive programs are offered during the summer quarter, in which one year's work in a language can be done, earning 15 credits.

Credit by examination and waiver — The Foreign Languages department, reserves the right to waive all or part of the degree requirements for students who demonstrate, by examination, achievement at the college level. Courses may be waived, allowing substitution of electives, or credit may be obtained by meeting the University's requirements for credit by examination.

General Studies Program

Mary Margaret Ridge, B.A., Director

Objectives

Students who have a wide range of interests and want a broad liberal arts education, AS WELL AS THOSE WHO HAVE NOT YET DECIDED UPON A MAJOR, may enroll in the General Studies Program. Such students begin their University work by taking core curriculum subjects required for all majors. They may then select courses from two or three related fields, and formulate a program that will best suit the needs of their long-range goals.

The thrust of the program looks to constructing indepth combinations of a variety of disciplines such as fine arts, humanities, social sciences, or any other atypical interdisciplinary synthesis.

A student admitted to the General Studies Program may also transfer to one of the traditional majors of the College of Arts and Sciences, or to one of the professional schools, such as Business, Education, Nursing, Science and Engineering. A student may change at any time as long as academic qualifications for the intended program are met.

Degrees Offered

Bachelor of Arts in Humanities Bachelor of Arts in Social Science

General Program Requirements

Requirements of a General Studies degree are 65 credits beyond the core, of which 45 credits must be taken in courses designated 300 or 400 level.

Suggested combinations are: 45 hours in one subject and 20 in another; or 35 hours in one, 15 in a second, and 15 in a third; or 25, 20 and 20. THE SELECTION OF SUBJECTS AND THEIR MEANINGFUL COMBINATION IS THE RESPONSIBILITY OF THE STUDENTS IN CONSULTATION WITH THE PROGRAM DIRECTOR OR AN ASSIGNED ACADEMIC ADVISER.

History

Warren B. Johnson, Ph.D., Chairman

Objectives

Defying classification as either humanity or social science, history functions as both. It focuses on the values as well as the ideas, personalities and institutions that existed in the past and shaped the present. As concerned with perceptions of reality as with historic reality itself, it attempts to exploit all forms of information concerning the past—myth, folklore, legend and works of art, as well as conventional manuscript and published sources. And, while the department attempts to assist all students in acquiring that knowledge of the past which is essential to the educated person, it is especially concerned with developing the methods and techniques unique to historical inquiry. By consistently raising questions regarding "how we know" as well as "what we know" the department aims at the development of fundamental intellectual skills that will be of lifelong utility.

Degrees Offered

Bachelor of Arts

General Program Requirements

Students in history must satisfy the core curriculum requirements of the University as given on pages 18 and 19 of this bulletin. Required sequences are 15 credits of philosophy and 10 credits each of English, theology, social science and mathematics/science.

Departmental Requirements

Bachelor of Arts — 60 credits including Hs 104 and 105, 200, 400, 499. Of the remaining 35 credits, 20 are to be taken in a general area (Western Europe, United States, Russia-China-Japan). Study of a modern foreign language is highly recommended.

Undergraduate Minor — 35 credits of history of which Hs 104 and 105 are required.

Teaching Major (School of Education) — 55 credits of history, including Hs 104, 105, 231, 341 and seven upper-division courses.

Honors Program

Rosaleen Trainor, CSJ, Ph.D., Director

Objectives

The Honors Program is a two-year program designed to develop students who can think, read, write and speak integratively across various university disciplines. The courses are historically arranged, beginning with the Ancient Near East and proceeding through the civilizations of the Hebrews, Greeks, Romans and Medieval Europeans to modern and contemporary times. The various disciplines-literature, thought, history, fine arts and science—are correlated to provide the student with the greatest possible depth in each period under examination. The program is conducted according to the dialogue method in seminars. In addition, each quarter the student must write at least one paper in each course and be prepared to defend this written work in a tutorial session of five or six students and the instructor. Examinations are normally oral and are given at the end of each quarter.

Scholarships/Applications

Scholarships are granted on a one-year basis, renewable on proof of competence. Applicants are chosen on the basis of their previous record and evidence that they are willing to make the effort necessary to achieve genuine superiority in the intellectual pursuits. In addition to application to Seattle University, candidates must apply directly to the Honors Program.

Program Requirements

When accepted in the Program, students complete each of the course sequences numbered Hu 101 through 243. Completion of the Honors Program satisfies University core requirements in philosophy, science, English, history and theology/religious studies. Students may elect to take Hu 398 or 499 while completing their major.

Degree Major

Honors students, on completion of their two-year program, transfer into one of the departments of the University to fulfill the requirements for their major. Degree majors are usually completed in two years.

^{*} Not an Honors Program course

Journalism

Gary L. Atkins, M.A., Chairman

Objectives

To the University's basic liberal studies program, journalism adds courses designed to give the student an awareness of the role of mass communications in a free society and the special knowledge and skills required for effective communication.

The journalism program is specifically directed toward editorial competence, the basis for careers in all areas of mass communications. It seeks to produce graduates who can become responsible professional journalists or who can undertake graduate study in specialized areas.

Degree Offered

Bachelor of Arts

General Program Requirements

Students in journalism must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Journalism students must receive a minimum grade of C in any journalism course to be applied toward major requirements. A student must have a minimum typing average of 40 words per minute to enroll in journalism writing courses.

During the freshman year the journalism student will be asked to specify an area of interest such as print or broadcast journalism, advertising or public relations, or graduate study. With an adviser he/she will then plan a sequence of courses, in journalism and in related areas, to meet individual requirements.

Practical experience is an essential complement to the journalism student's course work. This experience should be gained through part-time work on off-campus media, as a staff member of a student publication or in internships.

Departmental Requirements

Bachelor of Arts — 55 credits in journalism which include Jr 100, 200, 210, 250, 310, 330, 490 and 20 credits in courses numbered 300 and above; 10 credits of English beyond core requirements numbered 200 or above; 5 additional credits of social science; 10 credits of upper division United States history courses (or approved substitutes); 10 credits of language or fine arts and/or speech and drama courses.

Communications Sequence — Designed for students not seeking careers in editorial journalism. 50 credits in journalism or approved related disciplines including Jr 100, 200, 210, 330 and 490; 10 credits of English beyond core requirements; 5 additional credits of social science; 10 credits of upper division history courses (or approved substitutes); 10 credits of fine arts and/or speech and drama courses.

Journalism/Fine Arts Interdisciplinary Program—60 credits which must include Jr 100, 200, 210, 250, 330, 430 and 10 credits chosen from Jr 350, 370 or internship; and 20 credits of fine arts courses chosen in consultation with the adviser. Students in this program must also take the 10 credits of language/fine arts required by the department in the fine arts area.

Undergraduate Minor — 30 credits which must include Jr 100, 200, 210, 250 and 10 credits of additional courses numbered 300 and above.

Undergraduate Minor (teaching) — 25 credits which must include Jr 100, 200, 210, 250 and 5 credits of approved upper division courses.

Military Science

Lt. Col. David G. Tucker, M.P.A., Chairperson

Objectives

1 credit

1-5 credits

To prepare academically and physically qualified college women and men for service as commissioned officers in the US Army — Active, National Guard and Army Reserve. Value based, the curriculum is designed to develop leadership, communication, and management competencies skills required for success in both the public and private sectors — while expanding the student's theoretical and practical application of ethics in service to both community and country.

Commissioning Requirements

To be commissioned as an officer in the United States Army, a student must successfully complete the basic course requirements, the advanced course requirements, Advanced Summer Camp and graduate from the University.

Basic Course

The basic course is elective for all physically fit students at the University. The traditional course consists of two hours of classroom instruction per week and three hours of leadership workshop twice a quarter for six academic quarters (freshman and sophomore years). Students who are unable to participate in on campus ROTC classes during their first two years of college may satisfy requirements for Basic Army ROTC by attending Army ROTC Basic Camp for six weeks during the summer after their sophomore year.

Advanced Course

The advanced course is elective for qualified students who have received credit for the basic course. The course consists of three hours of classroom instruction per week and three hours of leadership workshop once a month for six academic quarters. Advanced course students must also attend Army ROTC Advanced camp for six weeks during the summer between their junior and senior year. Nursing students may attend an alternative six weeks at Madigan Army Hospital. Advanced course students receive \$100 per month allowance for up to 20 months of their junior/senior years.

Scholarship

Army ROTC scholarships are available to selected students. Special programs exist for nursing and other selected career fields. Expenses for tuition, books and fees are paid for one, two, three or four years plus each student receives a \$100 per month allowance for each school year while on scholarship. Application for four year scholarships are made while the student is still in high school. For more information write the Professor of Military Science, Seattle University.

Military Science Basic Courses

- MS 101 Basic Officer Development I 2 credits
 Introduction and history of ROTC. Discussion of opportunities, benefits, obligations, scholarships available through ROTC. Instruction in leadership principles/traits/styles, customs and courtesies of the
 service and branches of the army. (fall).
- MS 102 Basic Officer Development II 2 credits

 Development of individual skills in basic map reading/and navigation. Practical exercises and field trips to test skills learned. Discussion of military communications equipment available to the small unit leader. Value of proper communications skills and security. Hands on instruction with equipment. (spring).
- MS 103 American Military History 2 credits
 United States military history from the colonial wars
 to the Vietnam conflict. Emphasis is on military
 leadership, the principles of war, and development
 of the military art. (winter).
- MS 201 Preparation for Leadership 2 credits
 Introduction to the basic military team. Discussion
 of the organization and equipment of the squad and
 platoon. Integration of individual tactical skills into
 squad tactics. Introduction to the basic principles
 and techniques of patrolling. (fall).
- MS 202 Concepts of Military Operations 2 credits
 Application of the principles of warfare by small unit
 leaders. Principles of offense and defense at the
 squad level to include tactical formations and battle
 drill. (spring).
- MS 203 Communication Skills Development 2 credits

 Development of oral and written communication
 skills for the military leader. Practical application
 through student presentations and writing projects.
 (winter).
- MS 204 Army ROTC Basic Camp 0 credits
 Military training at Fort Knox, Kentucky qualifying
 students for advanced course. Open to undergraduates with no ROTC experience. Receive pay, travel
 expenses. Six weeks during summer.

MS 207	Mountaineering	1 credit
MS 208	Physical Conditioning	1 credit
	Special Topics	1-5 credits
MS 292	Special Topics	1-5 credits
MS 293	Special Topics	1-5 credits
MS 296	Independent Study	1-5 credits

Military Science Advanced Courses

MS 301 Military Topographical Analysis 3 credits
Principles of land navigation, orienteering, terrain
analysis, map reading and aerial photograph interpretation for the small unit leader.

- MS 302 Tactical Operations 3 credits

 The role of the company commander and subordinate leaders during tactical operations. Planning and execution of small unit offensive and defense maneuvers. (winter).
- MS 303 Preparation for Leadership 3 credits
 Special problems of military leaders. Adjustment to
 military life. Selected military subjects in preparation for Army ROTC advanced camp. Pre-camp testing and evaluation. (spring).
- MS 304 Army ROTC Advanced Camp 4 credits
 Students perform as leaders in variety of roles, both
 administrative and tactical. Conducted for six weeks
 during summer. Successful completion of Advanced Camp required for commissioning. Prerequisite: MS 303. (spring).
- MS 401 The Military Team 3 credits
 Discussion of command and staff. Concepts of planning, coordination, and decision-making at battalion and company level. (fall).
- MS 402 Military Logistics/Military Justice 3 credits
 Discussion of logistical management of the Army
 support system. The Military Justice system and its
 importance to military discipline. (winter).
- MS 403 The US Military and World Affairs 3 credits

 The interrelationship of the US with other nations.

 Selected military subjects in preparation for commissioned service. (spring)
- MS 496 Independent Study

Philosophy John P. Burke, Ph.D., Chairman

Objectives

The task of philosophy is to study the world and man in terms of that which constitutes their inner-most unity and meaning. It seeks to discover those all-pervasive factors in the world which refuse to yield to the segregating tendencies of a fragmentary approach to knowledge and to truth. It strives to introduce the student to the language of universal communication whereby he/she might translate the complex manifold of human experience into relevant and creative meaning for themselves and for society. It raises such searching questions as: What is the function of language? What is the meaning of knowing? What is change and is anything permanent? What does it mean to exist? What is the nature of value and can value be merely relative? What is man and his destiny? Can God's existence be rationally determined? What is the nature and origin of evil?

The philosophy taught at Seattle University strives to raise these and similarly significant questions in an atmosphere conducive to facilitating the student's search for truth. It unashamedly recognizes its debt to the past, particularly to those philosophers who have presented a realist view of man and the world compatible with the Judaeo-Christian vision of the universe. At the same time it realizes that to remain dynamically relevant to the contemporary age it must advance and grow and be ever open to new problems, new ideas, new contributions and new perspectives.

Degree Offered

Bachelor of Arts

General Program Requirements

Students in philosophy must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. In addition, students in philosophy must take 10 credits of language.

Departmental Requirements

Bachelor of Arts — 55 credits of philosophy which must include PI 110, 220, 233, 250 and 260 plus a program of six upper division courses. These six courses must include one from each of the following pairings: PI 340 or 350; 400 or 420; 460 or 465. Qualified students may substitute a written thesis for one of the required courses. Five credits are granted for the thesis which is written under the direction of a faculty member.

Undergraduate Minor — 35 credits of philosophy which must include PI 110, 220, 250, 260 and three upper division courses offered by the department.

Philosophy Courses

Pl 110 Philosophical Problems: World 5 credits

A combined historical and problematic approach to the nature of philosophical inquiry. An introduction to fundamental philosophical problems of being, language, logic, knowledge, reality, human existence and God.

Pl 220 Philosophical Problems: 5 credits The Human Person

Critical examination of the nature and powers of the human person. Special emphasis on the human knowing process and the problems of human freedom and personal responsibility. Prerequisite: PI 110.

PI 231 Introduction to
Ancient Greek Philosophy 5 credits
Readings from source material of the philosophy of
the ancient Greeks. Investigation of the topics, problems and doctrines of the pre-Socratics, Plato and
Aristotle. Prerequisite: PI 220.

PI 232 Introduction to Medieval Philosophy 5 credits
Synthesis of medieval philosophy in its historical
perspective with a particular examination of the
themes of Arabic, Scholastic and Nominalist metaphysics. Prerequisite: PI 220.

PI 233 Introduction to Modern Philosophy 5 credits
Readings from source material of the modern philosophers. Investigation of topics, problems and doctrines of selected authors from Descrates to Kant.
Prerequisite: PI 220.

PI 250 Ethics 5 credits
General theory of moral behavior, ethics as a science, the purpose of human life and the means of attaining this goal. Applications of general ethical theory in specific instances. Prerequisite: PI 220.

PI 252 Business Ethics 5 credits
Application of general ethical theory to those problems directly related to the business world; employment practices, wages, advertising, honesty, strikes. Prerequisite: PI 220.

PI 255 Medical Ethics 5 credits
Application of general ethical theory to basic problems encountered in the medical profession; fees, professional secrecy, rights of patients, abortion, transplants, drugs. Prerequisite: PI 220.

PI 260 Logic I Systematic treatment of traditional logic. The themes of communication and language, division and definition, propositions, syllogisms and the nature of science will be examined.

PI 261 Logic II 5 credits
Introduction to symbolic or mathematical logic from
both an intuitive and formal standpoint. Elementary
calculus of classes and relations and introduction to
axiomatic set theory and Boolean algebra. Prerequisite: PI 220.

PI 291 Special Topics 1-5 credits
PI 292 Special Topics 1-5 credits
PI 293 Special Topics 1-5 credits
Prerequisite: PI 220

PI 300 Philosophy of Nature 5 credits
Philosophical appraisal of the material universe, its
nature, causes and activities, incorporating the
mathematical and experimental findings into the philosophical account of the cosmos. Prerequisite: PI

220.

PI 303 Philosophy of Science 5 credits
Philosophical reflections on the historical development of the scientific view of the cosmos. Readings from significant sources. Prerequisite: PI 220.

PI 305 Philosophy of Science —
The Behavioral Science 5 credits
Study of the philosophical implications and presuppositions of the methodology and conceptual framework of the behavioral sciences; special emphasis on behavioral psychology and statistical analysis. Prerequisite: PI 220.

PI 307 Philosophy of Science —
The Life Sciences 5 credits
Consideration of the basic problems concerning the meaning, origin, evolution and structure of organic life. Prerequisite: PI 220.

PI 310 Contemporary Ethical Theory 5 credits
Selected readings from contemporary moral
philosphers such as Hare, Stevenson and Fletcher.
Prerequisite: PI 220.

PI 312 Contemporary Social Ethics 5 credits

Moral problems facing urbanized man in his contemporary setting. Prerequisite: PI 220.

PI 325 Philosophy of Art 5 credits
Philosophical reflection on the nature of art and its
reality; beauty as a transcendental property of being
and its relationship to art and the artist. Prerequisite:
PI 220.

PI 330 Cognitional Analysis 5 credits
Study of the dynamics of man's cognitional structure and of the implications of this dynamism for metaphysics and ethics based on Lonergan's "Insight" and related writings. Prerequisite: PI 220.

PI 340 Plato 5 credits
Selected readings from Plato's "Dialogues." Prerequisite: PI 220.

PI 350	Aristotle 5 credits Selected readings from the writings of Aristotle. Prerequisite: PI 220.	PI 465	Hegel 5 credits Philosophy of Hegel with emphasis on "The Phenomenology of Spirit" and "The Philosophy of History." Prerequisite: Pl 220.
PI 355	19th Century Philosophy 5 credits Readings from source material of the 19th Century philosophers. Investigation of central topics, prob- lems and teachings of selected authors from Hegel to Nietzsche. Prerequisite: Pl 220.	PI 467	Philosophy of Communism 5 credits Investigation of selected writings from such framers of the philosophy of communism as Marx, Engels, Feuerbach and Lenin. Prerequisite: Pl 220.
		PI 468	Marx 5 credits
PI 360	20th Century Philosophy— The Analytic Tradition 5 credits Readings from source material from 20th Century analytic philosophers. Investigation of contemporary schools of logical positivism and linguistic analysis	PI 468	A study of the historical background, philosophic origins and nature of the dialectical materialism of Karl Marx. Prerequisite: Pl 220.
	from Russell to Wittgenstein. Prerequisite: Pl 220.	PI 470	Philosophy of Society 5 credits Consideration of the social nature of man, purpose
PI 365	20th Century Philosophy— The Speculative Tradition 5 credits Readings from source material of 20th Century		of society, social groups, the common good, subsidiarity, pluralism and authority. Prerequisite: Pl 220.

Political Science

Sr. Christopher Querin, S.P., Ph.D., Chairperson

Objectives

The curriculum in political science introduces the student to political values, trains in political analysis and informs of government processes at the international, national, state and local level. It prepares students for graduate study or for careers in government, research, teaching or private enterprise where either a knowledge of political science or a broad liberal arts background is required.

Degrees Offered

Bachelor of Arts
Bachelor of Public Administration

General Program Requirements

Students in political science must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Political science majors are strongly encouraged to take additional courses in English, history, philosophy and theology and religious studies and are advised to enroll in courses in economics, psychology, sociology, fine arts and languages. Students who plan to attend law school after graduating in political science should take accounting. Transfer students must take a minimum of four political science classes regardless of number or credits and these courses must be from each of the four subdivisions of the department.

Departmental Requirements

Bachelor of Arts — 60 credits of political science which must include Pls 150 and 160. Majors must select two courses in each of the four major subdivisions of the department and two additional in the area in which they intend to specialize. The four major subdivisions of the department and the applicable courses are: American Government and Politics — Pls 210, 214, 280, 324, 370, 371, 372, 374, 418, 419, 490.

International Relations and Foreign Policy — Pls 249, 350, 381, 385, 437, 438.

Comparative and Foreign Governments — Pls 200, 230, 330, 335, 337, 440, 441, 442.

Political Thought and Theory — Pls 289, 353, 354, 355, 358, 390, 451, 490.

Undergraduate Minor — 30 credits which must include Pls 150 and 160 and one course from each of the four major subdivisions of the department.

Political Science Courses

Pls 150 Introduction to Politics 5 credits
Government organization and approaches to basic political problems in a variety of cultural, social, and economic contexts. Domestic and foreign causes of the behavior of leaders, parties, pressure groups, and ordinary citizens.

Pls 160 American National Government 5 credits
Study of the foundations, structures, functions of the
executive, legislative and judicial branches of the
government and their inter-relations with the popular processes of government.

Pls 210 Introduction to Local and State Politics 5 credits
Examination of structures and functions of political
institutions at local, state, county and special district
levels, especially legislative, executive and judicial
systems.

Pls 214 Government and the Economy 5 credits
Government regulation and promotion of business,
agricultural, labor and consumer interests. The regulatory agencies. Government corporations, antipoverty programs. Government economic Stabilization policies, critique of American capitalism.

Pls 230 Industrial Democracies 5 credits
Social divisions, participation, policy processes in
West Europe, North America, and Japan. Popular
values, power distribution, and the future of
democracy.

Pls 249 Introduction to International
Politics 5 credits
Analysis of the dynamic forces in international relations; power nationalism, sovereignty, colonialism, imperialism, theories of war and peace.

Pls 280 The Judicial Process 5 credits

Overview of the role of law and the judiciary in American political life; the powers and limitations of the judiciary; individual rights in legal conflicts; study of selected key cases. Designed especially for non-majors.

Pls 289 Introduction to Political Philosophy
An overview of political ideas from East to West, from Plato to present; application of these ideas to contemporary society.

PIs 291 Special Topics 1-5 credits
PIs 292 Special Topics 1-5 credits
PIs 293 Special Topics 1-5 credits

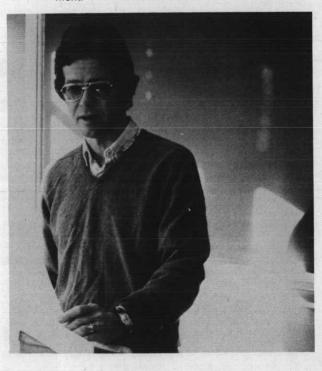

Pls 324 Political Parties
and Interest Groups 5 credits
Theories, organization, strategy and leadership or
American political parties, campaigns and party
leadership. Role of interest groups in the American
political process.

Pls 330 Soviet Union and East Europe 5 credits
Goals, structures, and processes of Soviet oligarchic
rule. Social changes, economic dilemmas, ethnic conflict, law, dissent, and welfare. East European variations.

Pls 335 Welfare States and Planned Societies 5 credits
Politics of social planning in Sweden, Britain, US, and
other welfare states. Health care, pensions, urban
planning, economic regulation. Public goods and
private choices.

Pls 337 Politics of Developing Countries 5 credits

Emergence of nationalism, resistance and conflict in
the modernization process, economic modernization, patterns and problems of political development.

Pls 350 International Law 5 credits
Fundamentals of international law; states and international law; the individual in international law; creation; application and enforcement of international law.

Pls 353 Topics in Political Philosophy Enduring problems in political phi

Enduring problems in political philosophy will be critically examined through the systematic thought of great theorists from Plato through Hegel.

Pls 354 Western Marxism

Critical examination of the political and social philosophy of Karl Marx and selected interpretations of his philosophy.

Pls 355 Contemporary Political Thought

A critical examination of selected contemporary political ideas and theories.

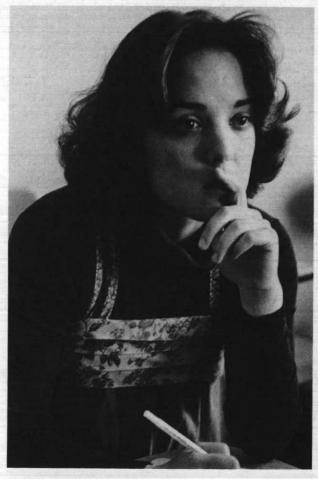

Pls 358 Politics of Scarcity 5 credits
A study of the economic and political causes and consequences of ecological scarcity in the industrial and non-industrial world.

Pls 372 Urban Politics and Public Policy 5 credits
Problems of large American cities with special
emphasis on transportation, housing, public safety
and planning problems. Fiscal problems of American cities; public school politics.

Pls 374 The American Presidency 5 credits
Analysis of powers of American presidents: relationship with Congress, bureaucracy, judiciary, private sector and with foreign governments.

Pls 381 United States Foreign Policy 3-5 credits
Constitutional framework; major factors in formulation and execution of foreign policy; American policy
in Europe, the Near East, Africa, the Far East and in
Latin America historically and current.

Pls 385

Peace and The United Nations
Introduction to the history, theories and problems of international organizations; the League of Nations and the United Nations and the Specialized Agencies.

Pls 390 Research Methods and Design 5 credits
Techniques of social science disciplines applied to
analysis and implementation of policy; research design,
data acquisition and index construction.

Pls 418 Constitutional Law
Growth, philosophy and development of the United States Constitution as reflected in decisions of the Supreme Court with emphasis on the role of the Court in contemporary America. Prerequisite: Junior or senior standing.

Pls 419 The Supreme Court and the
Bill of Rights 5 credits
Interpretation of the Bill of Rights by the Supreme
Court and the impact on the individual and the
States. Prerequisite: Junior or senior standing.

Pla 437 Peace Movements and World
Government 5 credits
An analysis of theoretical basis of regionalism and
universalism as approaches to world peace. A study
of current regional experiments; proposals for revision of U.N. Charter; World Federalism and World

State.

Pls 438 Contemporary World Politics 5 credits
An examination of dominant political forces on today's international scene and effects of these forces
on international relations, international law and international organizations.

Pls 440 Comparative Politics of Asia 5 credits
Analysis of selected Asian systems; governmental
forms and ideologues; problems of nation-building;
inter-state relations.

Pls 441 Comparative Politics of Africa 5 credits
Analysis of selected governments of Africa; constitutionalism, milarism, economic development and social change.

Pls 442 Comparative Politics of the Middle East 5 credits
Nature of the political conflict between Israel and her
Arab neighbors; special emphasis on the political institutions of Egypt and Israel.

Pls 451 Modern Liberalism 5 credits
A critical examination of the arguments for liberalism:
Montesquieu, Rousseau, Locke, Burke, Bentham, J.S.
Mill, and American thought.

Pls 488 Internship
On-the-job experience with appropriate governmental agency required for BPA degree. Students may register for no more than 15 total intern credits.

Mandatory CR/NC.

Prelaw

2-5 credits

2-5 credits

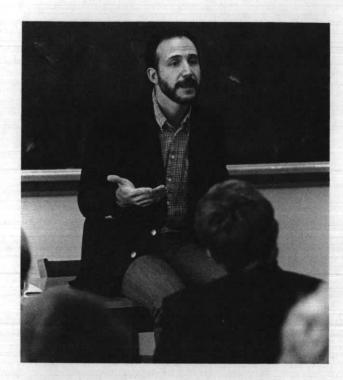

Ben Cashman, Ph.D., Adviser Sr. Christopher Querin, SP, Ph.D., Adviser

Program

The best preparation and a requirement for entrance to many law schools is the completion of a four-year program for the bachelor's degree. Only a few law schools will admit students who have completed three years of undergraduate work.

In advising prelaw students, Seattle University follows the recommendations of the Association of American Law Schools. These stress comprehension and expression in words, critical understanding of human institutions and values with which the law deals, and creative power in thinking. These capacities may be developed through study in any of a number of departmental majors.

Entering students interested in law must declare a major in the field in which they are most interested and for which they are best suited. Those unable to make such a determination upon entrance will be enrolled in the General Studies program. The program of study of each prelaw student must be approved by the departmental adviser and the prelaw adviser should be consulted quarterly. During their junior year, students must acquaint themselves with the entrance requirements of the law school they plan to attend and make arrangements to take the law school admissions test. The application form and the instruction booklet for this test may be obtained from the prelaw adviser.

Psychology Georg D. Kunz, Ph.D., Chairman

Objectives

The curriculum is designed for students who plan to work as professional psychologists and thus need a sound preparation for graduate study; for students who plan a career in any field dealing primarily with people, such as nursing, teaching, social work, guidance and personnel; or for those who desire a well-rounded education and thus need a basic knowledge and understanding of human experience and behavior. The specific and unique role of the Psychology department is to provide a knowledge of psychology as a human science and as a natural science, both founded on a solid philosophical reflection on values of the human person.

Degrees Offered

Bachelor of Arts Bachelor of Science Master of Arts in Psychology — See graduate bulletin

General Program Requirements

Students in psychology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. See programs of study for additional requirements.

Psychology majors may choose any minor. For social work, the recommended curriculum is a major in psychology and a minor in sociology. Premedical students may take a Bachelor of Science in psychology. Psychology majors may not register for CR/NC in the courses listed under departmental requirements; they must obtain a grade of C or higher in all those required courses; and they must maintain a 2.00 grade point average in all other psychology courses.

Departmental Requirements

Bachelor of Arts — 50 credits of psychology which must include Psy 100, 201, 301, 401, and 489.

Bachelor of Science — 50 credits of psychology which must include Psy 100, 201, 202, 301, 330, 401, 402, 489 and a minimum of 40 credits of mathematics and physical science, which may include Psy 385.

Undergraduate Minor — 30 credits of psychology which must include Psy 100.

Certificate Program

The Rehabilitation Certificate is a 45 credit program that is offered late afternoons and evenings and has the following components: 10 credits of field experience; 15

Rehabilitation

John K. Thompson, Ph.D., Chairman

Objectives

The Rehabilitation Program is designed to educate students to become vocational rehabilitation professionals who work with mentally and/or physically disabled persons. As rehabilitation professionals, their goal will be to move disabled individuals from a status of dependence to the level of maximum functioning of which they are capable. Accordingly, rehabilitation professionals deal with clients, primarily on a one-to-one basis, who have disabilities preventing them from obtaining or retaining employment. Based on the level of rehabilitative readiness, some of the disability groups rehabilitation professionals might work with include alcoholics, blind, deaf and hard-of-hearing, drug addicts, industrially injured, mentally ill, mentally retarded and parolees, to name a few.

The program prepares students who, upon graduation, might become employed in public and private human service settings such as state vocational rehabilitation agencies, federally sponsored human service agencies, county agencies, social welfare agencies, prisons, evaluation centers, and health-related associations, as well as private agencies such as transitional workshops, rehabilitation centers, hospitals, speech and hearing centers, work activity centers (adult development centers) and others.

Emphasis is placed on supervised field experiences in a variety of rehabilitation related agencies (30 credits), in addition to giving the students knowledge in medical and psychological aspects of disability, the world of work or occupational information and community resources in rehabilitation.

Degrees Offered

Bachelor of Arts in Rehabilitation

Master of Arts in Rehabilitation — See Graduate Bulletin Masters Degree Program accredited by Council on Rehabilitation Education

credits of foundation courses (RHB 100, RHB 201, RHB 301); 20 credits to be selected by the student and the adviser. The Rehabilitation Certificate program is open to all persons, with or without a degree, who meet the University's entrance requirements. Certificate credits are applicable toward a B.A. degree. A certificate program should be completed within three years.

General Program Requirements

Students in rehabilitation must satisfy the core curriculum requirements of the University as indicated on page 18 of this bulletin plus additional credits in social science as outlined below.

Degree Requirements

Bachelor of Arts—65 credits in rehabilitation including Rhb 100, 201, 203, 210, 301, 305, 310, 400, 403, 405, 410; 15 credits in Psychology (Psy 100, 201, 315), Soc 101, and 5 credits of Social Science or Rehabilitation elective.

1.5 credite

Sociology
David D. McCloskey, Ph.D., Chairman

Objectives

Sociology has the dual capacity of satisfying the need of students for a humane and liberalizing discipline and of providing a sound basis for careers either in the science of sociology or in social research or in the social services. Courses are designed to provide a systematic inquiry into the complex structures of modern society and their many functions. They also investigate the interactions between persons, their groups and culture.

Students may choose sociology for various purposes: Some are interested in making a career of teaching sociology or doing sociological research; others study sociology in preparation for a career in social work or applied sociology; still others seek in sociology a broader and deeper understanding of man and his works. With a view to these interests, different combinations of courses are recommended to students. In separate brochures, combinations of courses are suggested for those interested in the two applied tracks: Applied Social Research and Corrections. Common to all of these are required courses intended to communicate to the student a knowledge of the conceptual tools of analysis and the methods of sociological research.

Degree Offered

Bachelor of Arts

General Program Requirements

Students in sociology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin. Transfer students who are sociology majors must complete at least 20 hours in sociology at Seattle University.

Departmental Requirements

Bachelor of Arts, Sociology — 55 credits are required for a major in sociology of which 25 credits are in basic courses, including Sc 101, 200, Psy 201, 380 and 381; and 30 credits in upper division courses. A program individualized to meet each student's special interest can be designed with department adviser.

Bachelor of Arts, Applied Sociology — Students may concentrate in two areas of Applied Sociology: Corrections and Applied Social Research. Both tracks require 60 hours for the B.A. degree. Majors in both tracks shall take: Sc 101, 200, 201, 380 and 488. Majors in Corrections shall also take Sc 362 and 366 and must also complete 25 additional hours from a list of options obtained from their departmental adviser. Majors in Applied Social Research shall also take Sc 381, 382, 491 and Psy 380, and must also complete 20 additional hours from a list of options obtained from their departmental adviser.

Certificate in Applied Sociology — Students not seeking a degree who meet the University's entrance requirements must complete 30 hours to receive a certificate in either track. Requirements for a Certificate in Corrections are the same as stated below for the minor. Students seeking a Certificate in Applied Social Research must complete 30 hours drawn from three different areas approved by their departmental adviser. Certificate credits are applicable toward the B.A. degree. A certificate program should be completed within three years.

Undergraduate Minor — 30 credits which will include Sc 101, 380, and 20 credits of upper division sociology courses. Students seeking a minor in Corrections must take Sc 101, 362, 366 and complete 15 additional credits from suggested options. Those minoring in Applied Social Research must take Sc 101, 200, 201, 380 and 10 additional credits from suggested options.

Sc 492 Special Topics in Sociology 1-5 credits
Sc 493 Special Topics in Sociology 1-5 credits

Sc 494 History of Sociological Thought 5 credits
Historical survey and evaluation of selected leading
thinkers who have contributed to the development of
sociology as an independent discipline. Prerequisite: Upper division standing or permission of instructor.

Sc 496 Independent Study 1-5 credits

Sc 497 Individual Research

Design and execution of a research project supervised by a faculty member.

Sc 498 Directed Reading in Sociology I 1-5 credits

Sc 499 Directed Reading in
Sociology II 1-5 credits
Sociological reading at an advanced undergraduate level in a tutorial relationship with one professor.
Prerequisite: Upper division standing.

Speech

Alexander McDonald, S.J., M.A. (Oxon.), Program Director

Program

There is no major in Speech. Speech courses are under the direction of the English department, and are a valuable adjunct to other degree programs in the fields of the humanities and social sciences. Students interested in speech should include speech courses among their electives.

Objectives

Speech courses offer background and practice in the skills of oral delivery. Students are provided opportunities for creative composition and vocal interpretation in a disciplined fashion.

Speech Courses

Sph 100 Fundamentals in Speech 5 credits

Theory and practice of basic speech communication skills. Introduction to interpersonal communication, public communication and aesthetic communication.

Sph 200 Public Speaking 5 credits

Theory and practice in organizing and delivering a speech.

Sph 201 Interpersonal Speech Communication 5 credits
Theory and practice of skills in interpersonal situations. Emphasizes self-awareness, sensitivity to
others, and a humanistic approach to communication.

Sph 202 Oral Interpretation 5 credits
Analysis and interpretation of literature. Practice in interpreting prose, poetry and drama.

Sph 204 Persuasion and Argumentation 5 credits
Principles involved in effective argumentation and
persuasion, practice in forms of debate.

Sph 291 Special Topics 1-5 credits
Sph 292 Special Topics 1-5 credits
Sph 293 Special Topics 1-5 credits
Prerequisite: Permission of instructor.

Sph 310 The American Speaker 5 credits
Study and criticism of American public speaking.
Practice in contemporary methods of public speaking.

Sph 320 Speech for the Classroom

Teacher

5 credits

Emphasis on the teacher as a communicator and leader in learning communication skills. Discussion, story telling, oral interpretation and drama.

Theology and Religious Studies

Richard H. Ahler, SJ, S.T.D., Chairman

Objectives

Theology and religious studies contribute to the fostering and formation of students' human and personal growth by helping them develop attitudes, skills, and knowledge that will enable them to deal perceptively, intelligently, and critically with the religious dimension of human life, especially with the beliefs, practices, and values of the Catholic Christian tradition. To this end the department supplies two levels of courses for the core curriculum. Level 1 courses (200 numbers on the Bulletin course listings) aim at recognition and appreciation of the existence and function of God's presence in human experience and history; Level 2 courses (300 numbers in the course listings) aim at enabling students to learn how to make a religious tradition their own, carefully and critically.

The Department also offers a program of courses, some from courses designed for the core curriculum, some special for majors and minors (400 numbers in the listings), leading to a Bachelor of Arts degree in Theology and Religious Studies.

Degrees Offered

Bachelor of Arts
Master of Religious Education (SUMORE) — See
Graduate Bulletin

Master of Ministry (SUMORE) — See Graduate Bulletin Master of Pastoral Ministry (CORPUS) — See Graduate Bulletin

Certificate in Pastoral Ministry (CORPUS) — See Graduate Bulletin

General Program Requirements

Students who major in theology and religious studies must satisfy core curriculum requirements of the University as given on page 18 of this bulletin. In addition majors must take an added five credits in social science and five credits in philosophy.

Departmental Requirements

Bachelor of Arts — 50 credits in theology and religious studies beyond core requirements. Students are required to fulfill the following program of courses: 1) Judaeo-Christian Origins (RS 200); one New Testament course (RS 211, 217, 221); one additional scripture course on any level; one course from RS 230, 243, 252. 2) Two courses from RS 300, 303, 310, 317, 321; one course from RS 325, 334, 338, 341. 3) one religious studies course (RS 263, 267, 271, 275, 371); the sequence RS 425, 426, 427; and RS 460, the senior seminar.

Undergraduate minor — 30 credits in theology and religious studies which must include RS 200 and one New Testament course; two courses from RS 300, 303, 310, 312, 317, 321; one course from RS 325, 334, 338, 341 and one from RS 263, 267, 271, 275.

Theology and **Religious Studies Courses**

Note: courses numbered in the 200s are Level 1; those in the 300s are Level 2; those in the 400s are special courses for majors or minors and also occasionally offered electives for all. (See Core Curriculum, page 18.)

Numbers in parentheses indicate differently numbered equivalent courses from earlier Bulletins. Equivalent courses cannot be retaken for credit.

RS 200 **Judaeo-Christian Origins** 5 credits Historical backgrounds and development of Israelite and Jewish religious experience and tradition; its contribution to the foundations of belief in the Christ.

Prophets and Wisdom RS 203 The function of the tradition's message in the Former Prophets in relation to the Torah is analyzed to serve as the basis for analyzing the thought of the Latter Prophets, culminating in II Isaiah's Suffering Servant poems which lead into the major themes of the Wisdom Literature: unmerited suffering, the mystery of evil, the relation of wisdom and discipline.

RS 211 The Gospel of Jesus Christ Examination of some New Testament writings in their (210)religious and cultural context and in their literary provenance in an effort to discover something of the Christian community's experience of the message and person of Jesus as guide for and object of present-day Christian believing.

RS 217	The Message of Paul 5 credits
(220)	Description of the Christian experience given to us in the Pauline letters; Paul's experience of Christ; develop
	ment of his thought in some dominant themes or per spectives; the influence of believing community and o
	contemporary history and culture of his experience and development; relation of his message to all times and
	people.

RS 221	John: What I Have Seen and Heard	5 credits
(215)	The message of faith in the Gospel and le the roots of John's message, its relation	
	munity's experience of Jesus Christ prese	nt in the Spirit;
	Johannine themes and perspectives on t	
	Christ and the salvation he brings, on the faith and love in Christian living; the univ	
	message.	

	RS 230	Foundations of Believing	5 credits
(330)	The human activity and structures of believ	ing; the in-	
		evitability of believing; problems and obstacle	
		ing in God in today's world; the validity and	invalidity of
		modern critiques of religion; the developr	ment of an
		authentic notion of God	

	authentic notion of God.	
RS 243	The Christian in Action:	
(475)	Moral Decision-Making	5 credits
	The contemporary Christian as decient society; reflection on dilemma which students are engaged to devof self as moral agent, the basis of a as empowered by the Spirit of God f	is and situations in velop an awareness theory of the person
	iunting	

	justice.	
RS 252	Prayer for Life 5 credits	
	Introduction to the phenomenon of authentic religion as it is expressed in prayer and paths of spiritual growth and renewal; the relationship between personal and	
	community prayer in life and faith processes; methods and models of West and East.	

RS 263 Religious Experience East and West 5 credits

(290) The phenomenon of religious experience and mysticism as it has been described in spiritual classics of both eastern and western religions; the nature and meaning of these phenomena.

RS 267
(289) Exploration of the basic human drive in religious experience; investigation of the why-where-when-how of the Holy and mysterious in the Eastern religions and in Christianity; historical data and sources for the experience at the root of various traditions.

RS 271 The Black Religious Experience 5 credits
(349) Description of the particular religious experience of black people, developing themes of freedom, proclamation, power, hope. Themes explored reveal convergence with religion in general, yet divergence into a particular black religious experience.

RS 275
(478) Survey of Jewish history, going back to biblical times, to
(479) discover the religious generative force expressed in
developing beliefs, practices, and ways of understanding.

 RS 291
 Special Topics
 2-5 credits

 RS 292
 Special Topics
 2-5 credits

 RS 293
 Special Topics
 2-5 credits

 RS 300
 Fundamental Themes in Theology
 5 credits

(320) Fundamental Themes in Theology 5 credits
(320) Origins, traditional formulations, relevance to present life-experiences of some basic affirmations of Christian belief: faith, revelation, incarnation, redemption; investigation of the reasonableness and inter-connection of the truths affirmed; how these truths function as the core of a personal faith-synthesis.

RS 303 A Theology of the Human 5 credits
(340) Investigation of human persons in their relation to God, to other humans, to the world; questions and Christian responses to questions about human structures, purpose, meaning, fulfillment, self-identity, and function in a world marked by suffering and sin — and by the salvation brought by Christ.

RS 307 A Theology of the Feminine 5 credits
Investigation of what has been communicated to women historically about who and what they are, what their role is in Church and society; a look at the changing understanding of what it is to be human generated by a rising consciousness of the equality of women; attempt to show what still needs to be said and done to improve our Christian consciousness of the human and the feminine.

RS 310 Christ for Our Times 5 credits

The historico-cultural context of questions about who Jesus Christ is; exploration of past and present foundations and content of Christians' affirmation of Jesus as the Christ; development in understanding the mystery of Jesus; the effects on Christian life of making Jesus Christ the center and focus of believing.

RS 312 God in the Christian Tradition 5 credits

(330) Study of formulations in the Bible and in later times that express and guide the experience and growth in understanding of who God is in the living tradition of Christians; formulations that have or are causing problems in understanding; contemporary approaches to an understanding of who God is, how he acts, when and where he is encountered.

RS 317 The Community That Is Church 5 credits

(344) Central biblical themes bearing on the origin and nature of the Christian community; models for understanding the community in its dynamic growth-process and self-structuring in history; elements in the dynamic: authority and freedom, tradition and change.

RS 321 Christian Sacraments 5 credits

(420) Biblical investigation of the origin of the sacraments in Christ and the Church; nature of symbolism as evocative and healing; the doctrinal, liturgical, and moral aspects of the sacraments within a community's ongoing life and worship.

RS 325
(476) Society, Justice, and Theology
Reflection on the relationship between Christian faith and justice in society; relation of justice and faith in Scripture and tradition; a theology of the social focused on the revelation of God through his activity in the structures of contemporary society; Christian social teachings as an expression of the theology of the social; the inter-relation of Christian community and the society in which it exists.

RS 334	Liberation and Theology	5 credits
(450)	Discovery of situations and structures (s	social, political,
	economic), experienced as oppressive,	
	liberation; themes from the biblical and	Christian tradi-
	tion that speak to the issues of liberation	on, justice, and
	peace; contemporary models for analyzi	ng, interpreting

RS 338 Christian Views of Love, Sexuality,
and Marriage 5 credits
The meaning of love experiences and their expression in human sexuality in light of God's loving relation with each person; examination of moral/spiritual dimensions of sexuality; relationship of human sexuality and marriage; marriage as a symbol and sacramental expression of God's love; present procedures and regulations for marriage.

(477) Contemporary Issues in Christian Ethics 5 credits
An examination and analysis of such important contemporary issues as nuclear disarmament, war and peace, world hunger, medical ethics, revolution and violence, the criminal justice system; focus on one such issue in light of the Christian traditions of social teachings and contemporary Christian viewpoints; principles and rules for evaluating particular issues.

RS 371 Dialogue, East and West 5 credits
Comparative study of Western and Eastern religious traditions; common categories for understanding what people seek in any religion — knowledge of the holy, harmony with the real world, significant moral value, and what differentiates one tradition from another; principles for inter-faith dialogue that avoid obstacles to development within traditions and obstacles to dialogue between traditions.

Religious Studies Center

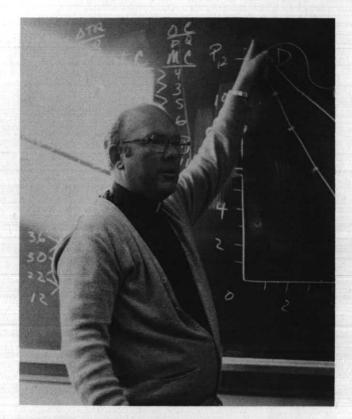

Religious Studies Center designates an agency established under the cooperative auspices of Seattle University and the Archdiocesan Office of Religious Education, committed to planning and providing programs in continuing religious formation for adults, professional and lay. Religious Studies Center courses are generally a continuing education service. Continuing Education Units may be earned for most of these courses and, although for some of them credit may be earned, such credit is not automatically applicable toward meeting degree requirements. Information on Religious Studies Center courses is available from the Archdiocesan Office of Religious Education.

ALBERS SCHOOL OF BUSINESS

Albers School of Business

John D. Eshelman, Ph.D., Dean Merwyn A. Bogue, Jr., M.Ed., Assistant Dean

Thomas F. Gleed Chair: David Lee Kurtz, Ph.D.
Rainier National Bank Professor of Finance: Hildegard R.
Hendrickson, Ph.D.

Department Chairpersons

Accounting and Legal Environment:
Gerald Cleveland, Ph.D., Chairperson
Administration: Harriet Stephenson, Ph.D., Chairperson
Economics: Hildegard Hendrickson, Ph.D., Chairperson

Objectives

Collegiate education for business should prepare students for business careers, not simply for job-finding. A broad, liberal education, comparable to university studies in other professional fields, will not replace practical business experience, but will provide a sound base for development of managerial talents.

The programs of the Albers School of Business implement the purpose of the University by providing professional guidance and instruction for developing those qualities which lead to competent leadership and service in the various fields of economic endeavor. The School seeks to prepare graduates capable of assuming responsible roles in the economic development of the Pacific Northwest, as well as national and international sectors, and in both private enterprise and government.

Accreditation of Bachelor of Arts in Business Administration

American Assembly of Collegiate Schools of Business—graduate and undergraduate levels.

Organization

The Albers School of Business has two principal divisions, undergraduate and graduate studies. Undergraduate majors are offered in five business fields: accounting, finance, general business, management and marketing. In addition, the School contains the Economics department which offers a bachelor's degree program and an undergraduate minor.

Admission Requirements

All entering Freshman and undergraduate transfer students who meet the University's regular admission standards may be admitted to the Albers School of Business for lower division courses and all courses in Economics.

Admission to Junior Status in the Business Majors

No student will be permitted to take Business courses numbered 300 or above prior to being admitted to Junior status in the Business major. (Students who are Juniors or Seniors in other majors may request permission to take 300 or 400 level business courses.) To be admitted to Junior status in the Business major, a student must have at least 90 quarter credit hours and a cumulative grade point average of no less than 2.25. The student must have completed Mt 118 and Mt 130, or their equivalents, and at least four of the seven other required lower division courses in Business, Mathematics and Economics (Bus 211, 230, 231, 270, Ec 271, 272, and Ecs 113 or 114). The grade point average in the lower division required Business, Economics and Mathematics courses must be no less than 2.25.

Students with 90 or more quarter credit hours who do not meet these standards will be subject to dismissal from the School of Business. A Business student who has completed more than 120 quarter hours of degree requirements, and been dismissed, ordinarily will not be considered for readmission.

To be granted the BABA degree, a student must achieve a cumulative gpa of 2.25 overall and in all required course-work in Business.

Degrees Offered

Bachelor of Arts in Business Administration Bachelor of Arts in Economics Master of Business Administration (evening classes only)—See Graduate Bulletin

Curriculum

The program of required study for the bachelor's degree in business has three principal components: the arts and sciences, the business core and area of specialization. All students in the baccalaureate degree program fulfill requirements in English, mathematics, philosophy, a natural science, social sciences and theology and religious studies. The business core includes courses in accounting, administrative processes, economics, finance, information systems, legal environment, management, marketing and statistics. Specialization in one of the five major fields is required. No course in the area of specialization may be taken through independent study.

General Program Requirements

A minimum of 180 credits is required for bachelors' degrees in business or economics. See the degree requirements for specific course requirements.

Students transferring from another institution normally must earn at least 45 hours of upper division credit in Business and/or Economics at Seattle University.

Degree Requirements

Bachelor of Arts in Business Administration (all majors except accounting) - Students seeking this degree complete a program with the following components:

- Requirements in arts and sciences75 credits English 110 and one of the following English courses: 132, 133, 134, 220, 230, 240 or 383; Mathematics 118, 130; Engineering Computer Science 113 (ECS 114 may be substituted); Philosophy 110, 220 and a five-credit philosophy elective; social sciences, ten credits (Psychology 100 and Sociology 101 recommended); ten credits in theology and religious studies selected from two different areas; five credits in natural science; and ten credits chosen with the direction of an adviser.
- 2. Business core requirements60 credits Business 211, 230, 231, 270, 340, 350, 380, 410, 480, 482; Economics 271, 272.
- Specialization in a major area of concentration20 credits Accounting, finance, general business, management or marketing.
- Electives from any undergraduate offerings of the University......25 credits

Finance

Objectives

The finance curriculum is designed to afford an understanding of the financial functions in business and the management of assets for financial institutions and in-

Requirements for the finance major are: Bus 341, 343, 441 and Ec 372. Ec 471, 472 and 473 are strongly recommended.

General Business

Objectives

The general business major provides the opportunity for a broad survey of business subjects. It is designed for students who intend to operate their own business enterprises, those who expect to attain greater specialization through on-the-job programs, or those who plan later to study in a specific area.

General Business majors must complete at least 20 credits of upper division work in Business and/or Economics selected with the approval of his or her adviser. The courses selected must be from at least three different areas.

Management

Objectives

The general area of management is concerned with the administration of private business or public enterprise. It includes relating the goals of an enterprise with the goals of those individuals and groups of individuals who make the enterprise a continuing process. The management major is designed for students seeking careers in administration, personnel or industrial relations in business or government.

Requirements for the management majors are: Bus 381, 383, 384 and at least 5 credits from Bus 481, 483 and Psy 461 and 462. Ec 476 is recommended.

Marketing

Objectives

Marketing is the study of the flow of goods and services to ultimate consumers and users. Career opportunities in marketing are found in manufacturing, wholesaling and retailing, marketing research and in the promotional areas of advertising and personal selling. The requirements for the marketing major are: Bus 351, 352, 353, 451 and 452. Ec 374, 472 and 473 are strongly recommended.

Accounting

Objectives

Professionally trained accountants serve in diverse roles in private business, government, non-profit organizations, and other entities. After meeting the state requirements, many acounting graduates pursue careers as certified public accountants.

Students seeking the Bachelor of Arts in Business Administration with an accounting major must complete the following requirements:

1. Arts and Sciences..... In addition to the requirements specified above for the Bachelor of Arts in Business Administration, the ac-

counting program requires Speech 100 or 200 and thus	S
has only 5 required elective credits in arts/sciences.	

2.	Business core — as listed for B.A. in Business Administration

Supervised individual research. Open to senior business majors with the approval of the student's adviser.

Economics

Objectives

The courses in economics are designed to acquaint the student with the economy in which he/she lives and to provide for the application of these courses to all other social sciences. The tools of analysis necessary to solve such problems as income distribution, domestic and international finance, economic fluctuations and business organizations are acquired and opportunity is given to apply the various methods of solution. Students who prove especially able in economics courses are encouraged to pursue graduate work in preparation for professional status as economists in government, industry or the academic world.

Degree Offered

Bachelor of Arts in Economics

General Program Requirements

Students in economics must satisfy the core curriculum of the University on page 18 of this bulletin. In fulfilling the core, Pls 160, Mt 118 and 130 are required. To be

granted the Bachelor of Arts in Economics degree a student must achieve a cumulative gpa of not less than 2.00 in all required course work in economics.

Departmental Requirements

Bachelor of Arts — 55 credits of economics which must include Ec 271, 272, 372, 374 and seven additional economics courses not including Ec 100, 375 (Bus 343 may be substituted for one); Bus 211 and 230.

Undergraduate Minor — 30 credits of economics which must include: Ec 271, 272, 372, 374 or 375 and any two courses in economics selected with the assistance of an adviser.

Economics Courses

Ec 100	Nature of Economic Society 5 credits			
	Evolution of economic institutions, with emphasis on market capitalism, its critics and problems, past and			
	present. Changing roles and responsibilities of			
	government and the private sector.			

Ec 271 Principles of Economics - Macro 5 credits
Organization, operation and control of the American
economy in its historical and socio-political settings;
problems of inflation, unemployment, taxation, the public
debt, money and banking, growth. Prerequisite: Sophomore standing. (fall, winter, spring).

Ec 272 Principles of Economics - Micro 5 credits
Operation of the American economy with emphasis on
prices, wages, production and distribution of income
and wealth; problems of the world economy. Prerequisite: Sophomore standing. (fall, winter, spring).

Ec 291	Special Topics	1-5 credits
Ec 292	Special Topics	1-5 credits
Ec 293	Special Topics	1-5 credits

- Ec 371 History of Economic Thought 5 credits

 Major historical developments in economic thought,
 ancient to contemporary, Christian influence, merchantilism, laissez faire; German and Austrian
 schools, Marx and socialists; Keynes and neo-Keynesian analysis.
- Ec 372 National Income Analysis 5 credits

 Determination of levels of national income, employment and prices. Problems of unemployment and inflation. Policies for stabilization and growth. Prerequisite: Ec 271.
- Ec 374 Intermediate Price Theory 5 credits

 Demand, supply, costs and market prices under competitive and imperfectly competitive market conditions. Relationships between price and costs; income and its functional distributions in a capitalistic society. Prerequisite: Ec 272.
- Ec 375 Managerical Economics 5 credits
 Theory of the consumer, the firm, the industry; with special emphasis on using the analytical tools of micro-economics for managerial decision-making within the firm. Prerequisite: Ec 272. This course does not satisfy a major requirement.
- Ec 377 Government and Business 5 credits

 Development in the United States of public policy.

 Government regulation of industry and commerce and application to mergers, business concentration and restrictive business practices, regulation of public utilities. Prerequisite: Ec 272.
- Ec 378 Urban Economics 5 credits

 The causes and consequences of the interdependencies of firms, individuals, households and governmental units within the constrained space of urban areas. Problems of land, housing, transportation, labor and public services.
- Revenues, expenditures and debts of federal, state and local governments; economic theories; constitutional limitations; government finance as means for social reform; shifting and incidence of taxes. Prerequisites: Ec 271, 272.
- Ec 472 International Trade
 and Development 5 credits
 Pattern, organization and promotion of U.S. and
 world trade. Trade theories. Exchange rates. Foreign prices and payments. Protection and free trade.
 G.A.T.T. European Community. Multinationals in foreign trade. Prerequisite: Ec 271.
- Ec 473 International Finance and Investment
 Foreign Exchange Market. Balance of Payments.
 Gold standard and developments. Bretton Woods
 system, the I.M.F. and current problems. Oil prices
 and inflation. Post-war international investment.
 Eurodollars. Prerequisite: Ec 271.
- Ec 476 Labor Economics 5 credits
 Survey of the economics of industrial relations;
 effects of industrial changes on labor; hours and
 wages; employment and unemployment; trade unionism and labor legislation. Prerequisite: Ec 272.

- Ec 477 Economic Development 5 credits

 Developing nations and agriculture, industry, population, education, technology, exports, imports, capital and savings, unemployment. Commodity agreements. Special preferences. Foreign aid. U.N.C.T.A.D. Prospects and limits. Prerequisite: Ec 271.
- Ec 478 Comparative Economic Systems 5 credits
 Economic systems in theory and practice. Classical,
 Marxian, Neoclassical, Keynesian, post-Keynesian
 theories. Soviet agricultural and industrial organization and operation. Market socialism. Future
 trends. Prerequisites: Ec 271 and 272.
- Ec 479 Senior Research 5 credits

 An advanced course providing the opportunity for students to pursue topics in breadth and depth and apply the tools of economic analysis to current issues in national and international economic policy. Prerequisite: Permission.
- Ec 491 **Special Topics** 2-5 credits Ec 496 Independent Study 1-5 credits Ec 497 Independent Study 1-5 credits Ec 498 **Independent Study** 1-5 credits Ec 499 Independent Study 2-5 credits Supervised individual research. Open to senior economics majors with approval of adviser.

SCHOOL OF EDUCATION

School of Education Gary H. Zarter, Ph.D., Acting Dean

Department Chairpersons

Counselor Preparation: R. Michael O'Connor, Ph.D., Chairperson

Curriculum and Instruction: Margaret M. Haggerty, Ph.D., Chairperson

Doctoral Studies in Educational Leadership: John A. Morford, Ed.D., Chairperson

Educational Administration and Special Programs: Robert E. Lowery, Ed.D., Chairperson

Physical Education and Recreation: Joseph T. Page, Ph.D., Chairperson

Teacher Education: Charles F. Cardinell, Ph.D., Chairperson

Objectives

Within the framework of the University's philosophy and principles, the School of Education has as its objectives the attainment of a liberal and humane education, the

formation of men and women dedicated to the art of teaching and knowledgeable of its sciences, and a sound preparation in fields or areas of learning applicable to the curriculum of the preschool, elementary, secondary school and adult education.

The School offers program leading to Washington initial and continuing teaching certificates. Programs are available which lead to initial and continuing certification for principals, counselors, program administrators and superintendents. Also available are programs to prepare teachers in the areas of early education, Montessori, mentally retarded and gifted.

Through reciprocal agreements School of Education graduates also qualify for certification in many other states.

Accreditation

The School is accredited by the National Council for Accreditation of Teacher Education and approved by the Washington State Board of Education. The American Montessori Society accredits the Montessori Teacher Education program.

Organization

The School of Education is organized into six departments: Teacher Education, Curriculum and Instruction, Physical Education and Recreation, Counselor Preparation, Educational Administration and Special Programs, and Doctoral Studies in Educational Leadership. Close cooperation exists among all departments, schools and colleges of the University in working out a program of preparation for the individual student.

Degrees Offered

Bachelor of Arts in Education
Bachelor of Education
Master of Arts in Education—See Graduate Bulletin
Master of Education—See Graduate Bulletin
Master of Counseling—See Graduate Bulletin
Educational Specialist—See Graduate Bulletin
Doctor of Education—See Graduate Bulletin

Undergraduate Programs

Teacher Education—Undergraduate Programs

Admission Requirements

All entering freshmen and undergraduate transfer students from accredited institutions of higher learning who aspire to become teachers may be admitted to the School of Education for lower division courses if they meet the University's regular admission standards.

Criteria and Procedure for Admission into Upper-Division Candidacy in the Teacher Education Programs

Requirements for entrance into upper-division candidacy in the teacher education program are higher than those for graduation. Therefore, students must make application for and be accepted into the program prior to registration in Ed 325 and 326, or 434, 435, 437 or 442.

For undergraduates, this application will usually be made during the quarter in which Ed 322 is taken, usually in the sophomore year. Transfer students must complete one quarter at Seattle University before unconditional entrance into upper-division candidacy. Students entering initially as post-bachelor students are evaluated at the time of admission and need not make a separate application for entrance into upper-division candidacy. An interview with a School of Education adviser is required of all applicants, and a plan for completion of upper-division work must be approved by the adviser and submitted with the application.

Applicants for teacher education are evaluated by the School of Education on the following basis: 1) recommendation of the teaching major department, or adviser in the case of elementary or "undecided" students; 2) academic record; 3) physical qualifications; 4) emotional health; and 5) evidence of interest in teaching as a professional career.

The School will place each applicant into one of four categories:

- Accepted may begin upper-division work toward teaching certificate. Criteria are: Unconditional recommendation from major department or adviser; Cumulative grade point average of 2.5, and for secondary candidates a 2.5 grade point average in the major or teaching field; physical ability and appearance necessary for teaching; good moral character and evidence of interest in teaching as a professional career.
- Accepted conditionally may begin work toward teaching certification provided the conditions set forth are met. Conditions most commonly, but not always, relate to the achievement or maintenance of certain grades or grade point averages. The faculty and Dean retain the right to refuse to accept conditional students in teaching fields in which an extreme surplus of teachers exists.

Criteria are: (Any one is sufficient reason for conditional acceptance.)

Conditional recommendation from major department or adviser; grade point averages below 2.5 but above 2.0 in both cases; a physical defect that makes a teaching career questionable, but not impossible; symptoms of emotional problems or immaturity which make a career in teaching questionable but are currently of a minor nature; evidence of insufficient interest in a career in teaching.

 Deferred without prejudice — may not begin or continue upper division professional work toward teaching certification but may apply at a later date if certain conditions set forth in the deferral are met.

Criteria are: (Any one is sufficient cause for deferral.)

A recommendation that this be done from the major department or adviser; a grade point average below 2.0 overall or in teaching major; a physical defect which currently would make a teaching career impossible but which is correctable; evidence of an emotional problem or immaturity which may be overcome by time.

 Rejected — may not begin or continue work toward teaching certification. Ordinarily, rejected applicants will not be reconsidered at a later date.

Criteria are: (Any one is sufficient cause for rejection.)

A recommendation that this be done from the major department or adviser; physical defect making a career in teaching impossible; evidence of lack of the moral character needed for teaching; evidence of emotional and/or mental immaturity or disorder of a type which is not likely to be changed by time and which makes the applicant unsuited for teaching.

Applicants may appeal the classification by the Chairperson of Teacher Education to the Dean. Appeals must be made in writing within one week of notification of classification.

The status of any student is reviewed automatically if the student receives a grade of D or lower in a professional course, drops below the required grade point average or the adviser so recommends.

Admission to Student Teaching

Acceptance into upper-division candidacy in the teacher education program and completion of prerequisite courses does not guarantee admittance into student teaching. An application must be submitted to the Chairperson of the Department of Teacher Education by the end of the fifth week of the quarter prior to the one in which the student wishes to fulfill the student teaching requirement. Specific dates during which forms may be obtained and submitted are announced each quarter.

Categories and criteria for acceptance are the same as those listed above except, recommendation from the faculty in the School of Education is also considered, and the student must have a grade point average of 2.5 in three areas: cumulative, in the teaching field (secondary), and in professional education courses.

Curriculum

The teacher preparation curriculum at Seattle University encompasses three components:

The liberal core of arts and sciences offered at Seattle University comprises about 35 per cent of the prospective teacher's curriculum. Forty per cent of the program is utilized in gaining a depth of knowledge in a teaching major for the secondary school teacher or two teaching areas for the elementary school teacher. The remaining 25 per cent of the 190 quarter hour basic teaching preparation is received in professional courses in foundations of education, psychology of child and adolescent development and learning, the principles, materials and technology of teaching, and closely supervised and assisted student teaching and appropriate laboratory experience in schools throughout the area. At least one course having primary emphasis on multi-cultural or ethnic heritage must be included.

General Program Requirements

Bachelor of Arts in Education Secondary

Bachelor of Arts in Education (middle school, junior high school, or senior high school teaching) — 1) All University core requirements as found on page 18: 60 credits, 2) A teaching major of at least 45 credits in any subject commonly taught in secondary schools. (See departmental sections of the bulletin for exact requirements in each teaching major. Where no requirements are shown in a departmental section, an individualized program must be developed jointly).

3) Professional education courses: 45 credits. 4) Electives: 40 credits. Students are advised to use electives to complete additional teaching fields.

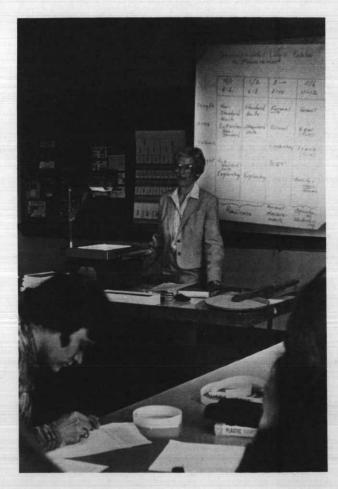

For recommendation to Comprehensive Social Studies the following are required: 1) a major in **one** of the social studies fields, 2) at least 25 hours in history, including American, Western, non-Western and Pacific Northwest and 3) a minimum total of 70 quarter credits in the social studies, including courses in at least three social studies areas in addition to history.

For recommendation in Business Education the following must be completed: 1) Bus 230, 231, 270, 340, and 380; 2) Econ. 271 and 272; 3) Ed 430, Teaching Secondary Subjects: Business: 4) proficiency must be demonstrated in **two** of these skills — typing, shorthand, office machines.

Ten of the 190 credits required for the degree and initial certification also count toward the continuing certificate teachers must earn once they begin teaching.

Bachelor of Education Elementary

Bachelor of Education (elementary, middle school, junior high school or Montessori school teaching —

1) All University core requirements: 60 credits.

1) All University core requirements: 60 credits. The B.Ed. requires certain specific core courses as shown in the program outline. See page 18 for remaining core requirements. 2) Common courses: 25 credits. Includes work in art, music, geography, literature, speech and physical education needed by all elementary and middle school teachers. 3) A teaching major of at least 25 credits and a teaching minor of at least 20 credits in subjects or areas commonly taught in elementary or junior high schools. Junior high candidates must take the 25 hour teaching major in a specific subject taught at the junior high level.
4) Professional education courses: 50 credits. 5) Electives: 10 credits. These vary slightly for students seeking either special education or Montessori training.

Ten of the 190 credits required for the degree and initial certification also count toward the continuing certificate teachers must earn once they begin teaching.

Students interested in Montessori teaching should confer with the Montessori Program Coordinator early in their studies.

Special Non-Degree Programs

A number of programs may be taken in addition to or separately from degree requirements:

For bachelor's degree holders without teacher training: (at least 30 hours must be completed at Seattle University in these programs to receive our recommendation.)

- a) Elementary teaching initial certification,
- b) Secondary teaching initial certification,
- c) Montessori teaching certification.

For bachelor's or master's degree holders with teacher certification or its equivalent:

- Continuing certification (fifth-year); may be either a non-degree program or combined with a master's degree.
- b) Initial principal's credential.
- c) Continuing principal's credential.
- d) School counselor's certification.
- e) Initial program administrator's credential.
- f) Continuing program administrator's credential.
- g) Montessori Teaching Certification.

See Graduate Bulletin for further details.

Education Courses

Ed 101 Developmental Reading/Writing 3-5 credits
Designed to help students apply the structure of the
English language to reading and writing and overcome weaknesses in basic skills. Mandatory CR/NC.
(fall, winter, spring).

Ed 102 College Study Skills

Course to develop skills in note-taking, test taking, outlining, effective textbook reading and time management. Mandatory CR/NC.

Ed 103	Essay Development/Reading		
	and Writing	2-3	credits
	Emphasis on reading comprehension	and	writing
	scholarly papers. Mandatory CR/NC.		

Ed 104 Developmental Mathematics 1-6 credits
An individualized program for the student needing to
develop a mathematics background in preparation
for Math. 100. Mandatory CR/NC. (fall and winter).

Ed 291	Special Topics	1-5 credits
Ed 292	Special Topics	1-5 credits
Ed 293	Special Topics	1-5 credits

Ed 322 Psychology of Development 5 credits

Developmental changes in the normal human being with emphasis on application to the school age years. Includes observations in the field. (fall, winter, spring)

Ed 324 Foundations of American Education 3 credits
Foundation study of the philosophy, sociology and
history of public, private and Catholic education in
the United States; field experience to support
classroom theory and laboratory work. Prerequisite: Ed 322; corequisite: Ed 325 and 326. (fall,
winter).

Ed 325

Psychology of Learning

Study of learning in classroom; theories of learning; organization and retention of knowledge; evaluation of mental processes; factors in the economy of learning. Includes field experience. Prerequisite: Ed 322; corequisite: Ed 324 and 326. (fall, winter)

Ed 326 Measurement and Evaluation
in the Classroom 3 credits
Concentrated practice in the planning and construction of classroom tests based on instructional objectives, and an overview of standardized tests commonly used in schools.

Ed 328 Montessori Orientation 5 credits

Basic philosophy, principles and procedures of environmental learning within a "prepared environment." Perceptual-motor education as utilized by everyday living and learning experiences of the young child. (fall)

Ed 329 Sensorial Education 5 credits

Experience with the education of the senses in isolation. Also a study of the acquisition of practical skills within the child through his absorptive and imitative tendencies which lead gradually to abstraction. (fall)

Ed 330 General Methods, Media and Materials 5 credits
Application of principles of learning and development to preparing, organizing and presenting learning units. Field experience. Prerequisites: Ed 324, 325; corequisites: Ed 340 and 336 or 337. (winter, spring)

Ed 336 Fundamentals of Reading Instruction —
Elementary 5 credits

Nature of the reading process, sequence of skills K6, recommended practices, materials, methods of
diagnosis and evaluation. Includes field experience.
Prerequisites: Ed 322, 325; corequisite: Ed 330. (fall,
winter, spring)

Ed 337 Fundamentals of Reading Instruction— Secondary 5 credits Development of reading and study skills; reading in content areas; diagnosis and evaluation, special reading programs. Includes field experience. Pre-

requisite: Ed 325; corequisite: Ed 330. (winter, spring)

Fundamentals of Mathematics Instruction -Ed 340 Study of number systems including basic operations and properties of numbers; principles of teaching these concepts K-6; includes field experience. Prerequisite: Mt 200. (winter, spring)

5 credits Literature for Children Ed 374 Selection, introduction and student use of literature for preschool, kindergarten, primary and intermediate grades. (winter)

Ed 391 **Special Topics** 1-5 credits Ed 392 **Special Topics** 1-5 credits **Special Topics** Ed 393 1-5 credits

Ed 401 Workshop in Elementary School Methods (summer) 3 credits

Teaching Elementary School Subjects Ed 420 5 credits Methods of teaching in specific subject areas and levels of the elementary school. Required concurrently with student teaching. Prerequisite: Ed 330. (fall, winter, spring)

Ed 424 **Introduction to Learning Disabilities** 3 credits History and current practices in diagnosis and remediation of learning disabilities.

Ed 425 Psychology of the Exceptional Child Study of the atypical child who deviates from the normal to well above or below the average; tests for evaluation; consideration of remedial techniques. Prerequisite: Ed 322 or permission of instructor.

Ed 426 Special Education—Introduction to **Mental Retardation** 3 credits Study of the syndromes and behavioral characteristics of the mentally retarded and survey of the current trends in the field.

Special Education—Methods in Ed 427 **Mental Retardation** Application of principles of learning and development in designing instructional programs for the mentally retarded. Prerequisite: Ed 426.

Ed 428 Language Development 3 credits An introduction to critical features of the developmental processes of receptive and expressive language with consideration of diagnosis, curriculum and method.

Ed 430 **Teaching Secondary School Subjects** General methods of teaching in specific subjects, areas and levels of the secondary school. Prerequisite: Ed 330; corequisite: Ed 445.

Ed 431 **Early Education and Child Development** 3 credits Current issues and trends in early childhood education - birth through eight years. Emphasis on preschool and kindergarten. Topics will include infant programs, management of learning centers, and parent participation in early education.

Ed 434 Montessori Language Arts **Methods & Materials** 5 credits Development of language and communication skills in young children, readiness for reading and writing, ma-

terials and methods for teaching language arts. Supervised practice. (winter).

Ed 435 **Montessori Mathematics Methods & Materials** 5 credits Development of logico-mathematical processes in the young child, introduction to number and its properties, basic operations leading to abstraction. Supervised practice. (winter).

Early Education Practicum Supervised field experience in an early education set-

Ed 437 **Montessori Mathematics Methods & Materials** 5 credits Theory and practice of observation; comparative study of current models in early education, including public and private kindergartens, infant centers, Montessori schools, and programs for special children. (spring).

Laboratory Experience—Elementary 1-6 credits Ed 438 Mandatory CR/NC. (fall, winter, spring)

Laboratory Experience—Secondary Ed 439 1-6 credits Mandatory CR/NC. (fall, winter, spring)

Ed 440 Student Teaching — Elementary 12 credits One quarter of full-day supervised teaching experience on the elementary school level. Prerequisite: Ed 330 and permission of the Dean. Corequisite: Ed 420. (fall, winter, spring)

Ed 441 **Montessori Student Teaching** 3-18 credits Supervised teaching within Montessori preschool. A half day (daily) session in an approved or credentialed school under a Montessori teacher. (8 credits in fall; 5 credits in other quarters.) Mandatory C/NC

Ed 442 Montessori Geography and Science 5 credits Study of the world, flora, fauna and people through concrete materials, supervised practice. (spring).

Ed 445 Student Teaching — Secondary 12 credits One guarter of full-day supervised teaching experience on the secondary school level. Prerequisite: Ed 330 and permission of the Dean. (fall, winter, spring)

Ed 446 Student Teaching — Supplementary 5-15 credits

Ed 450 Gifted Education: Introduction 3 credits An introduction to gifted education including definition of areas of giftedness, identification, curriculum modes, program organization, parent involvement, attitudes concerning giftedness, evaluation of student perform-

Ed 451 Gifted Education: Workshop I 3 credits Current issues in gifted education including, identification procedures, right brain/left brain research, evaluation of the gifted student and a sharing forum on giftedness. Prerequisite: Ed 450.

Ed 452 Gifted Education: Workshop II Curriculum for the gifted including differentiating the curriculum, gifted student and the arts, counseling the gifted student and a sharing forum on giftedness. Prerequisite: Ed 450.

Ed 491 **Special Topics** 1-5 credits 1-5 credits Ed 492 **Special Topics** Ed 493 **Special Topics** 1-5 credits 1-5 credits Ed 496 Independent Study 1-5 credits Ed 497 **Independent Study** Independent Study 1-5 credits Ed 498

Physical Education and Recreation

Joseph T. Page, Ph.D., Chairman

Objectives

The Physical Education and Recreation department has as its prime objectives the physical and neuromuscular skill development and the recreational welfare of all students. The department fulfills two major functions at Seattle University. These are:

To prepare young men and women to assume professional careers in the field of physical education.

To provide a broad range of instructional and recreational activities designed to meet the physical needs of college men and women.

Degrees Offered

Bachelor of Arts in Education

Master of Education — See Graduate Bulletin

Master of Arts in Education — See Graduate Bulletin

General Degree Requirements

Students in the fields of physical education and recreation must satisfy University core curriculum requirements as given on page 18 of this bulletin and those of the School of Education.

All students planning to receive a teaching certificate must be accepted by the School of Education but such acceptance does not imply that the student will be permitted to pursue this teaching field. Students may in-

dicate their interest in this area at the time of application for admission to the School of Education. During the succeeding months their aptitude and promise for the field of physical education will be evaluated.

Counseling, designed to assist the student to develop in ways requisite for successful teaching and leadership in the field, will be offered. Candidates must demonstrate superior physical skills, intellectual competency, and desirable personality and character traits before they will be accepted.

Candidates for teaching certificates will complete the required courses in teacher education. Upon graduation, certified teachers will have, in addition to the general and professional education requirements, a total major area of 55 credits or for the minor, 25 credits in physical education course areas.

Departmental Requirements

Bachelor of Arts in Education (Physical Education and Recreation) — 55 credits in physical education and recreation courses which must include: PE 200, 205, 215, 220, 230, 350, 460; 15 credits in selected major activities and 12 credits of approved area electives.

Undergraduate Teaching Minor (Physical Education and Recreation) — 25 credits which must include PE 220, 230, 350, 460 and 7 credits in approved activities.

Minor in Athletic Coaching — 27 credits which must include PE 205 and PE 215, PE 220, PE 320, 5 credits of approved Major Activities and 8 credits selected from coaching theory classes which must include PE 408 or PE 409. This sequence is recommended for teachers of any subject matter with an interest in assuming coaching responsibilities in elementary or secondary schools.

Master's Degree in Educational Administration — Emphasis in the administration of physical education and recreational organizations. — See Graduate Bulletin.

PE 200 Personal and Community Health 5 credits Comprehensive course covering all basic aspects of health education; personal health problems; school health programs; community health agencies and problems. (spring)

PE 205 Human Anatomy 3 credits

Anatomical foundations of physical education and sports' activities including skeletal, muscular and circulo-respiratory structures and systems.

PE 215 Kinesiology 3 credits
The study of human movement with emphasis on the analysis of physical education and sports skills.

PE 220 Physiology of Exercise 5 credits
Study of physical changes as the result of muscular
activity; the muscular, circulatory and cardiorespiratory systems. Prerequisite: BI 200. (winter)

PE 230 Standard First Aid and Personal Safety

2 credits

Skills, knowledge, teaching methods. American Red Cross standards and certification. (winter)

Major Activities: Concentrated study of skills, techniques, and teaching methodologies pertinent to elementary and secondary physical education activities.

PE 250	Major Activities I Badminton, Volleyball, Golf and Tennis	5 credits
PE 251	Major Activities II Movement Exploration, Gymnastics	5 credits

PE 330	Test and Measurements in Physical	

PE 330 Test and Measurements in Physical Education 3 credits Utilization of available testing procedures in physical

Utilization of available testing procedures in physical education; evaluation of student achievement in terms of objectives. Includes statistical analysis of data. (winter)

PE 350 Principles and Practices in Physical Education 5 credits Concentrated analysis and study of the foundational principles of physical education. Application of these principles to problems in curriculum, methodology, administration and evaluation. (fall)

PE 352 Orientation to Physical Education and Recreation — Elementary 3 credits Curriculum purposes, procedures and techniques, includes legal liability, evaluation. Required of all elementary education majors. (fall, winter, spring, summer)

PE 353 Orientation to Physical Education and Recreation — Secondary 3 credits Objectives, content services and relationship to the total school program. Required of secondary education majors. (fall, winter, spring)

PE 380 Camp Counseling and Administration 5 credits

The educational significance and social impact of
camping, organization and practical application of
activities, and problems of administration and
leadership.

PE 409 Psychology of Coaching 5 credits
Principles and practices applicable to the coaching
of sports on any level of learning. Empirical theories
resulting from observations of coaches in the handling of youth who are qualifying for school teams.
(fall, summer)

PE 410 Perceptual Motor Development 3 credits
Principles of perceptual motor development and
their application in the education of the exceptional
child. (spring)

PE 420 Elementary Physical Education
Workshop 5 credits
Improving the classroom teacher's background in
physical education through basic movement skills
and rhythmic activities. (summer)

PE 460 Organization and Administration
of Physical Education 5 credits
Summary professional course in physical education;
includes service, intramural and inter-scholastic
programs; stresses curriculum, scheduling,
facilities. Prerequisites: Upper division standing and
departmental approval. (fall)

PE 465 Program Development in Recreation 3 credits
Organization and administration of recreation programs to include the practical aspects of: staffing, budgeting, funding, activities and public relations.

Coaching Courses: Concentrated study of the philosophy, practice, organization, theory and techniques of coaching interscholastic athletics.

PE 470 Football Coaching 2 credits
PE 471 Basketball Coaching 2 credits
PE 472 Baseball Coaching 2 credits
PE 473 Track and Field Coaching 2 credits
PE 474 Gymnastics Coaching 2 credits

PE 480 Current Issues in Physical Education 3 credits

Trends and factors influencing physical education
and other movement-oriented programs; implications for meeting student and community needs
in implementing relevant programs in schools and
colleges.

PE 482 Historical Foundations of
Physical Education 3 credits
Traces the historical development of physical education and athletics from the early societies to modern culture. Emphasis on current applications.

PE 484 The Drug Scene 3 credits
A survey of the misuse and abuse of licit and illicit drugs. Scientific information for concerned school personnel presented by professional people working with drug problems and users.

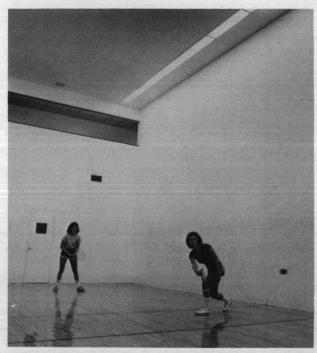

PE 485 Philosophy of Recreation 3 credits
Social impact of recreation: city-county, institution, industry, agency; special groups—handicapped, geriatrics; issues.

PE 486 Women in Sport 3 credits
A historical, sociological and biophysical approach
to women in sport with emphasis on concepts, impacts and implications related to American and
World culture, past, present, and future.

PE 488 Seminar: Sports and American Culture 3 credits
Reviews development and purposes of intercollegiate, interscholastic and professional sports.
Focuses on issues, problems, opportunities and
challenges, particularly for minorities.

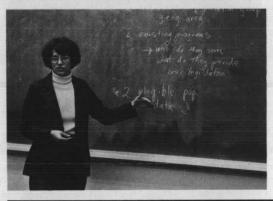

PE 491 Special Topics 1-5 credits (fall, winter, spring, summer)

PE 498 Independent Study 1-5 credits

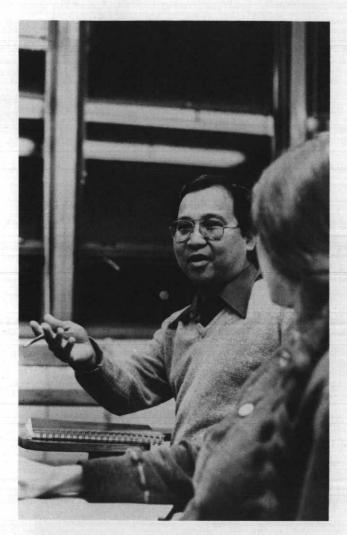

INSTITUTE OF PUBLIC SERVICE

Institute of Public Service Esther Ray Mills, Ph.D., Acting Director

Public Administration

Objectives

The Bachelor of Public Administration degree prepares individuals for careers in public management. The program emphasizes the development and implementation of public policy as well. The BPA curriculum is interdisciplinary and draws upon the knowledge base of diverse disciplines, including political science, economics, philosophy, business and mathematics. Through a field work internship, the relationship between theory and practice is encouraged and demonstrated.

Human Resources is a significant component of the BPA curriculum. It is concerned with the effective development and utilization of individuals in organizations. It investigates the interaction between organizational needs for productivity and individual needs for self-fulfillment and employment. The growing complexity of work and the environment in which it is performed require high levels of human resource skill and knowledge on the part of public managers, as well as of managers in the private profit and non-profit sectors.

Organization

The Institute of Public Service is an interdisciplinary center offering both undergraduate and graduate studies. Academic programs are oriented to the needs of working professionals as well as full-time students. Most courses are scheduled in the late afternoon, in the evening, and on the weekends.

The Institute's approach to education includes substantial opportunities for applying new knowledge and skills through case study analysis, practica and internships. In addition, the Institute is involved in activities to cultivate professional development in the fields of public administration and human resources, including conferences, seminars, research and technical assistance.

Degrees Offered

Bachelor of Public Administration
Certificate in Human Resources
Master of Public Administration — See Graduate Bulletin

General Program Requirements

Degree students must satisfy the core curriculum requirements for entering or transferring students as explained on page 18 of this bulletin.

Degree Requirements

The 65 credit major consists of two components. 40 credits are earned in core requirements, and 25 credits are earned in emphasis courses.

1. BPA Core Requirements — 40 credits

Pls 160	American National Government

ment.

Institute of Public Service Courses

PUB 280 Introduction to Public Administration 5 credits

The scope and origins of public administration. The role of administration in policy formation; intergovernmental and implementation contexts. Implications of administrative practice for democratic theory; problems of ethics and political control.

PUB 291	Special Topics	1-5 credits
PUB 292	Special Topics	1-5 credits
PUB 293	Special Topics	1-5 credits

PUB 340 Issues in Human Resources 5 credits

Examination of the relationship between the worker and the working environment, including factors affecting human development and employability. Investigation of the fields of personnel, training and development, employment and training, and labor and industrial relations.

PUB 341 Employment Policy 5 credits
Legislative and regulatory evolution of employment policy. Review and analysis of current labor market institutions and policies, including employment and training programs, and the role of federal, state and local government in their implementation.

PUB 349 Collective Bargaining 5 credits
Basic statutory requirements, dynamics and strategies
of labor-management relations. Simulation of a realistic
collective bargaining situation.

PUB 372 Fiscal Management 5 credits

The role of financial management in the public sector, including statement interpretation, financial administration, audit, sources of credit, and sources and structure of long-term capital.

PUB 380 Management in Public Organizations 5 credits
Public sector/private sector distinctions. Influence of
scientific management, human relations, and bureaucracy upon managerial behavior. The manager's role in
decision-making, conflict regulation, and employee relations.

PUB 410 Administrative Process and Advocacy 5 credits
Administrative law, due process, interpretation of statutes and regulations; advocacy. Emphasis on public

PUB 416 Policy Analysis and Public Planning 5 credits

Examination of alternative theories and methods of policy analysis, including politive, normative and quantitative models, and how the nature of the political and institutional environment affects choice of method.

PUB 431 Independent Sector Management 5 credits

Managerial processes and administrative behavior in
the private non-profit sector. Community based organizations, volunteer administration, roles of board and
staff. Emphasis on historic contributions and present
challenges.

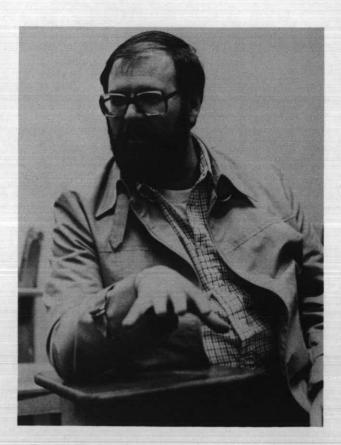

PUB 444 Training and Development 5 credits
Application of behavioral science concepts in human resource development, including adult learning theory and roles and competencies of the training and development professional. Instructional methods include lecture, group discussion, information interviewing, simulation and action research.

PUB 452 Human Services Planning 5 credits
User- or client-oriented approach to planning by addressing human needs from a holistic perspective.
Needs assessment, client analysis, alternative program design and client involvement.

PUB 491 Practica 1 credit
Short courses to integrate theory and practice in human
resources, public and non-profit management. Topics
vary with contemporary student interest. Courses are
offered on Friday evenings and Saturdays.

PUB 491 Special Topics 1-5 credits
PUB 492 Special Topics 1-5 credits
PUB 493 Special Topics 1-5 credits

PUB 498 Independent Study 1-5 credits

MATTEO RICCI COLLEGE - II

Matteo Ricci College — II Edwin H. Weihe, Ph.D., Dean Thomas J. Trebon, Ph.D., Assistant Dean

Matteo Ricci College is a coordinated and integrated six year program which begins with the traditional freshman year of secondary school and concludes with the granting of a baccalaureate degree by Seattle University. Form One, the first three years of the program, operates out of the Interlaken Campus of Seattle Preparatory School. Form Two, the subsequent three years, is an academic division of Seattle University on the Seattle University campus.

Objectives

Matteo Ricci College seeks to develop students who shape their personal and social futures through responsible choices. The objectives of the Form II program are to continue the harmonious development of

the student's cognitive, affective, and valuative potential; bring the student to a reflective consciousness of "how" he or she learns; and foster an inquiring, caring community of learners and teachers. Focusing on the student's intellectual, aesthetic, emotional, ethical, and religious life, the curriculum is designed to sharpen and test generalizable learning skills; exercise and develop verbal and non-verbal communication skills; develop specific skills, both in a broad range of traditional disciplines and in an area of specialization; expose a variety of values clarifying themes and problems for interdisciplinary investigation; and encourage prescriptive self-assessment.

While the Matteo Ricci College program does not attempt to advance the student in only six years to the level of vocation-oriented specialization sometimes acquired in eight, it does provide a foundation for, and initiation into, professional training, effectively preparing the student to pursue either a second baccalaureate or graduate degree.

Admission Requirements

Only students who have successfully completed the academic program of Matteo Ricci College-I will be admitted to the academic program of Matteo Ricci College-II at Seattle University.

Degree Offered Bachelor of Arts

General Program Requirements

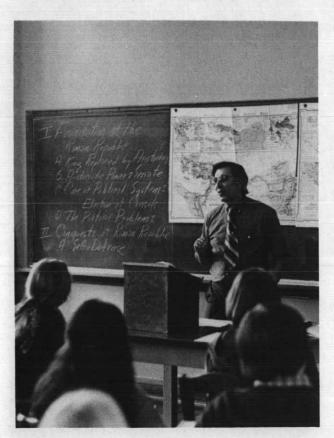

The MRC-II Advisory Panel members serve as the principal advisers to all MRC-II students on academic and academically-related matters. Consequently, an MRC-II student may not register for any Seattle University course, either in the summer session or during the regular academic year, without first consulting and receiving the written permission of an Advisory Panel member.

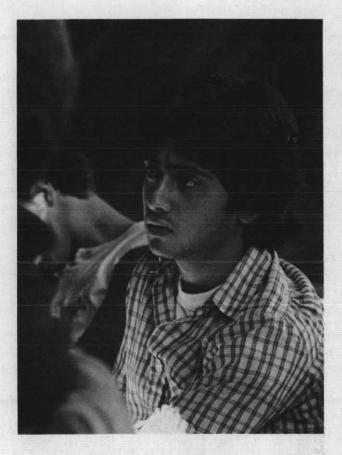

An MRC-II student is expected to maintain a cumulative academic grade point average of 2.5 or above, and to make normal progress toward completing the required courses in sequence. Students failing to meet these expectations will be placed on probation for two quarters, and thereafter are subject to dismissal from the MRC program.

Degree Requirements

135 credits which must include: 60 credits in MRC/HUManities courses; 4-5 credits in Fine Arts; 5 credits in Science and Technology; a maximum of 45 credits in either a General Studies/Humanities area or a single discipline focused in the College of Arts and Sciences, or a maximum of 55 credits in a General Studies/Science area, in Pre-Professional Studies, or in a single discipline focused in one of the University's professional schools; and the remaining credits in courses approved by the student's MRC-II adviser.

MRC-II students who have successfully completed a Pre-Professional course of study may apply these 55 credits toward a second baccalaureate degree, subject to the approval of the appropriate professional school, and the University regulation of 45 minimum additional credits for a second baccalaureate degree.

Typical Schedule

Year/4
HUM 100, 200 series courses 30 credits
Fine Arts course4-5 credits
Major and Approved Courses 10-11 credits
Year/5
HUM 280 and 300 series
Science and Technology course 5 credits
Major and Approved Courses
Year/6
HUM 400 series
Major and Approved Courses30 credits
Total 135 credits

Matteo Ricci College/HUM Courses

HUM 150 Composition: Language and Thought

Study and practice in informal logic and argumentation, with emphasis upon the composition of clear, persuasive writing.

HUM 151 Composition: Language and the Arts 5 credits
Interdisciplinary study of artistic composition in a
variety of art forms, with emphasis upon, and practice in, literary composition.

HUM 170Social Ecology 5 credits

Experiential inquiry into the political, social, and economic environment; emphasis on interrelated aspects of a particular social problem and on gathering and interpreting data.

HUM 180 Western Cultural Traditions I 5 credits
HUM 181 Western Cultural Traditions II 5 credits
A two-quarter, interdisciplinary study of the evolu-

A two-quarter, interdisciplinary study of the evolution of major systems of meaning and value in Western Civilization; emphasis on understanding and evaluating criteria for judging claims to truth and morality as basis for action.

HUM 260 Modes of Inquiry: Humanistic 5 credits

Study and practice in the data gathering and interpretive methods in the social sciences; comparison of these methods with those in the natural sciences and the arts.

HUM 280 Cultural Interface

5 credits

Interdisciplinary study of the elements of human behavior which define culture, and the processes of interaction between European culture and cultures of Asia and Africa.

HUM 291 Special Topics	1-5 credits
HUM 292 Special Topics	1-5 credits
HUM 293 Special Topics	1-5 credits

HUM 301 Perspectives on the Human Person I 5 credits
HUM 302 Perspectives on the Human Person II 5 credits

Study of the relationships between individuals, and between individuals, society, the world, and God through the history of philosophical and theological questions and their answers from Plato to the present day.

HUM 400 MRC Seminar	5 credits
HUM 401 MRC Seminar	5 credits
HUM 402 MRC Seminar	5 credits
D. J. J. S. Brander B. L. Brander	d

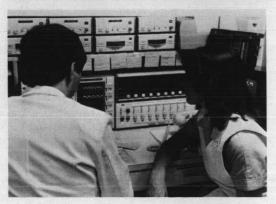

Required seminars, which include a research and writing project; focus on the development of grounds for a human ethic, interdisciplinary problems and transdisciplinary modes of thinking, on "valuing," and on integrating the academic and the "real world."

SCHOOL OF NURSING

School of Nursing Patricia A. Ferris, Ph.D., Dean

Objectives

The aim of the School of Nursing is to provide educational preparation for professional practice that reflects an appreciation of the heritage and responsibilities of nursing. The philosophy of the University is expressed through educational opportunities that are broadly based in the humanities, social and biological sciences and in nursing. The school seeks to prepare graduates capable of applying their knowledge and skills in the promotion, maintenance and restoration of health and who are able to assume responsible roles in a variety of health care settings.

Accreditation

National League for Nursing Washington State Board for Nursing

Organization

The School of Nursing is organized within the University structure under the direction of a dean, offering an undergraduate program in nursing.

Admission Requirements

All entering freshmen, transfer students from accredited institutions of higher learning and registered nurses who wish to complete requirements for the Bachelor of Science degree in Nursing must meet University entrance requirements described in the admissions section of this bulletin. Chemistry is the required laboratory science for entering freshmen. Additional requirements for registered nurses are:

- Graduation from an approved school of professional nursing.
- Current nursing licensure in the State of Washington
- Report of complete physical examination within six months before entrance
- Recommendation from the Director of the Nursing Program and from previous employer

Degree Offered

Bachelor of Science in Nursing

Curriculum

The baccalaureate degree program is designed for high school graduates, transfer students and registered nurses who wish to complete requirements for the degree. The program is planned to provide the student with a foundation in the liberal arts and nursing, to stimulate students to assume responsibility for self-directed learning and professional development, and to provide a basis for post baccalaureate education.

The professional portion of the curriculum includes study of man with a variety of health problems requiring different modalities of care with a focus on the individual, the family and the community.

Clinical experience is provided through cooperating teaching units which include Cherry Heights Villa Care Center, Children's Orthopedic Hospital and Medical Center; Group Health Cooperative Hospital and Clinics, Harborview Medical Center, the Mason Clinic, Northwest Hospital, Overlake Memorial Hospital, Providence Medical Center, Seattle King County Health Department, Seattle King County Visiting Nurse Service, United States Public Health Service Hospital, Swedish Hospital Medical Center, Veterans Administration Medical Center, Virginia Mason Hospital and other selected health agencies.

General Program Requirements

Students in the School of Nursing must satisfy core curriculum requirements of the University given on page 18 of this bulletin. For additional required sequences see the program of study which follows.

A cumulative academic grade point average of 2.50 or above from high school or another college or university is the minimum requirement for admission into the School of Nursing.

A student in the School of Nursing must have achieved a cumulative grade point average of 2.50 or above by the end of the sophomore year, and a grade of C or above in the Nursing, chemistry and biology courses, for approval to proceed into the upper division nursing courses. The academic and clinical performances of each nursing student are evaluated at the end of each year to determine progression in the program. Specific requirements for progression may be obtained from a faculty adviser.

Students are responsible for the expenses of the annual physical examination and health assessment, uniforms, and transportation costs to, from and while in cooperating teaching units. A current driver's license and car covered by insurance as prescribed by state law are recommended for all clinical courses. Professional liability insurance is recommended for clinical nursing courses. It is strongly recommended that students have adequate health insurance coverage.

Nursing Courses

N 205 Basic Nursing I 5 credits

Introduction to scope of practice and nursing roles; focus on nursing process, people's needs as consumer of health services, concepts and skills related to comfort and safety; simulated laboratory practice. Concurrent with BI 200 fall or BI 210 winter.

N 206 Basic Nursing II 5 credits

Theory and practice focused on concepts of anxiety, communications, immobility and nutrition, principles and skills related to pre- and post operative care and oxygenation. Supervised practice in direct patient care. Prerequisites: BI 200, 210 and N 205. Concurrent with BI 220 and N 300.

N 300 Pathophysiology 5 credits

Study of the functional changes of the body which accompany illness and form the basis for nursing intervention. Prerequisites: Ch 101, Ch 102, Bl 200, Bl 210, N 205. Concurrent with Bl 220, N 206 or RN student.

N 312 Health Appraisal

5 credits

Introduction to basic techniques and skills necessary to assess and describe a person's health state. Common behavioral, developmental and physiological parameters are assessed to form basis for making sound judgments. Variations and modifications for differences in age groups and ethnicity are included. Prerequisites: BI 200, BI 210, or BI 270-271; N 205, N 206, N 300 and Ed 322 or Psy 322. Concurrent with either N 335, N 337, or N 341 or RN student.

N 314 Mental Health Concepts

5 credits

Concepts basic to assisting self and others to maintain wellness and cope with reactions to the stress of illness. Organized around behavioral science principles which promote the nursing skills necessary for developing the inherent capabilities of the student and the patient. Prerequisites: BI 200, BI 210 or BI 270, BI 271 and BI 220, N 205, N 206, N 300 and Ed 322 or Psy 322; concurrent with either N 335, N 337 or N 341.

N 316 Research and Trends in Nursing

Legal, ethical and professional issues are studied in relation to concepts of power, authority, responsibility in present and emerging health care patterns. The research process is stressed. Prerequisites: BI 200, BI 210 or BI 270, BI 271 and BI 220; N 205, N 206, N 300 and Ed 332 or Psy 322; concurrent with either N 355, N 337 or N 341, or RN student.

N 330 Medical-Surgical Nursing I

4 credits

5 credits

Problems in various phases of illness; nursing process in assisting individuals to maintain-regain health or adapt to chronic illness; nursing care related to pulmonary, renal and gastro-intestinal problems and alterations in fluid and electrolyte and acid-base balance. Prerequisites: N 205, N 206, N 300; concurrent with N 312 or N 314 and N 335 or N 337.

N 332 Medical-Surgical Nursing II

4 credits

Further development of the nursing process; nursing care needs related to neuro-sensory, endocrine, musculo-skeletal and cardiovascular problems. Prerequisites: N 205, N 206, N 300; concurrent with N 312 or N 316 and N 335 or N 337.

N 335 Nursing Care of Children

6 credits

Experiences are arranged in a variety of settings selected to provide opportunities to apply concepts and principles from theory courses, N 330 and N 332. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316 and either N 330 or N 332.

N 337 Nursing Care of Adults

6 credits

Experiences are arranged in a variety of settings, selected to provide opportunities to apply concepts and principles from theory courses, N 330 and N 332. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316 and either N 330 or N 332.

N 340 Maternal-Child Nursing:

Family and Community

4 credits

Assessment of family dynamics and parental roles; family system and its use of community resources; current concepts in women's health care. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316 and N 341.

N 341 Maternal-Child Nursing Practice: Family and Community

6 credits

Clinical practice to promote application of concepts from N 340; supervised experience with childbearing families in a range of community settings. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316 and N 340.

N 345 The Childbearing Family: Current Perspectives

5 cred

Combined theory and clinical practice individualized to broaden experiential base, focused on health supervision during reproductive cycle. For Registered Nursing students only.

N 408 Psychiatric-Mental Health Nursing 4 credits

Psychodynamics, psychopathology, and group interaction in psychiatric nursing care; use of behavioral science principles to promote mental health and provide care for individuals with emotional problems. Prerequisites: All N 300 courses or RN student; concurrent with N 409.

N 409 Psychiatric-Mental Health Nursing Practice and Assertiveness Training 6 credits

Clinical practice to promote application of concepts from N 408 in a manner that facilitates growth and constructive problem solving in client, family and student. An assertiveness training component includes the theory and practice of assertive communication skills. Prerequisites: All N 300 courses or RN student; concurrent with N 408.

N 432 Community/Advanced Nursing

5 credits

Interrelated health-illness problems examined in a framework of the decision making process; concepts of family and family systems are studied. Relies on concepts and principles from previous nursing courses. Prerequisites: All N 300 numbered courses or RN student; concurrent with N 433.

N 433 Community/Advanced Nursing Practice

10 credits

Clinical practice to promote application of concepts, principles and processes from N 432; experiences in hospitals, clinics and other community agencies with individual clients, groups of clients/patients and families. Prerequisites: All N 300 courses or RN student; concurrent with N 432.

SCHOOL OF SCIENCE & ENGINEERING

School of Science and Engineering Terry J. van der Werff, D.Phil, Dean

Objectives

The programs of the School of Science and Engineering seek to combine a liberal education with preparation for a professional career or graduate school in one of the sciences, mathematics or engineering. More generalized programs are offered for those students who wish a strong scientific or engineering background as part of a liberal education.

Accreditation

American Chemical Society
Accreditation Board for Engineering and Technology
American Society of Clinical Pathologists
American Medical Record Association
Council on Allied Health Education and Accreditation

Organization

The School of Science and Engineering offers programs in Allied Health Technology, Biology, Chemistry, Clinical Chemistry, General Science, Health Information, Mathematics, Physics, and in Civil, Electrical, Mechanical, Software and Tranportation Engineering.

Students interested in other scientific, technical, and health-related careers, such as medicine or dentistry, may enroll for suitable pre-professional programs prior to transfer to the appropriate professional training center.

Admission Requirements

Students entering the School must satisfy all entrance requirements for the University as outlined in the Admissions Policy section of this Bulletin. In addition, applicants for admission to engineering programs must have completed at least three years of high school mathematics and two years of laboratory science. Transfer applicants into engineering must have college grade point averages of at least 2.50 in order to be considered. Transfer admission is on the basis of space available, with academic performance being the primary consideration.

Degrees Offered

Bachelor of Arts with a major in Biology, Chemistry, Mathematics or Physics

Bachelor of Science with a major in Biology or Mathematics.

Bachelor of Science in Biology, Chemistry, Clinical Chemistry, Cytotechnology, Diagnostic Ultrasound, General Science, Health Information, Mathematics, Medical Technology, Nuclear Medical Technology, Physics, and Radiation Therapy Technology.

Bachelor of Engineering

Bachelor of Civil Engineering

Bachelor of Electrical Engineering

Bachelor of Mechanical Engineering

Master of Software Engineering—See Graduate Bulletin

Master of Transportation Engineering — See Graduate Bulletin

General Program Requirements

Students seeking the Bachelor's degree in the School of Science and Engineering must complete 180 credits, including the University core requirements shown on page 18 of this bulletin. The history and social science core requirements have been modified for several of the more technical degrees, as described in the individual departmental sections of this bulletin. Students also must complete the specific departmental requirements for their particular degree.

Allied Health Technology

Joan P. Baker, RDMS, MSR, Program Director

Objectives

The Allied Health Technology program is designed to prepare students for professional careers as technologists in several medical laboratory disciplines or as laboratory assistants in biological research laboratories. Founded on a concentration in basic sciences, the program affords simultaneous opportunities for receiving a liberal arts education and a practical exposure to the medical laboratory environment. The student may concentrate studies in cytotechnology, diagnostic ultrasound, medical technology, or nuclear medicine technology, or radiation therapy technology.

Degrees Offered

Bachelor of Science in Cytotechnology Bachelor of Science in Diagnostic Ultrasound Bachelor of Science in Medical Technology Bachelor of Science in Nuclear Medical Technology Bachelor of Science in Radiation Therapy Technology

Departmental Requirements

Bachelor of Science in Cytotechnology — 50 credits of biology including Bl 165, 166, 167, 200, 210 (or 270, 271), 220 (or 300) 280, 310, 330, 350 and 351; Chemistry 101 and 102 or Ch 121, 122, 131 and 132; Mt112; and 45 credits of AH 310, 311 and 312, which must be completed in an American Medical Association accredited cytotechnology school. AH 415 and HI 422, 425, 426 and 450 are recommended.

Bachelor of Science in Diagnostic Ultrasound — 25 credits of biology, including BI 165 or 167, BI 200 and 210 (or BI 270 and 271), BI 305 (or HI 425, 426, 6 credits). 13 credits of Physics, including either Ph 106 or 201 and Ph 350, HI 422, 425 and 426 (or BI 305, 5 credits); Mt 112, 131; ECS 113 or 114, AH 370, 375, 455, 470, 471 and 472. A calendar year internship is necessary for entry into professional employment and certification. This internship is a part of the degree and follows after the academic course requirements are

Bachelor of Science in Medical Technology — 43 credits of biology, including 10 credits of Bl 165, 166, 167; Bl 200 and 210 (or Bl 270 and 271), Bl 280, 300, 350, 360. 47 credits in chemistry, including Ch 121, 122, 131, 132, 219, 470, 471, 472. Mt 131; ECS 113 or 114; 10 credits in physics; and AH 410, 415 and 420. Professional certification requires one year of internship in an approved laboratory training program after completion of the degree.

Bachelor of Science in Nuclear Medical Technology — 48 credits in allied health, including AH 370, 440, 441, 442, 447, 448, 449, 450, 451, 452, 453, 456, 457, 458, 459; 35 credits in computer science physics and mathematics, including either Ph 107 or 202, Ph 375 (or Ch 461), Mt 112, Mt 131; ECS 113 or 114; 15 credits in biology, including either Bl 200, 210 or 270, 271 and 305; Hl 422; and 25 credits in chemistry, including Ch 242 and 252. Hl 425 and 426 (6 credits) may be taken instead of Bl 305. Admission to internship requires an interview with the Nuclear Medicine admissions committee for all students with less

than 3.0 gpa. Interviews are held Spring quarter prior to a Fall internship. A minimum gpa of 2.5 must be achieved in the 44 credits of AH courses in the internship.

Bachelor of Science in Radiation Therapy Technology -20 credits of biology including BI 165, 200, 210 and 305 (or HI 425 and 426); 10 credits of chemistry including Ch 101 and 102; 10 credits of mathematics including Mt 112, 131; ECS 113 or 114; 20 credits of physics including Ph 105, 106 107 and 375; 23 credits of allied health including AH 361, 363, 365, 366, 367, 370 and 455. A calendar year of clinical internship is required for both the degree and the national certifying agency. This internship is based at Swedish Tumor Institute. Successful completion of the national certifying examination is required for the degree. The required internship courses, AH 460, 461, 462 and 463 are mandatory credit/noncredit. Unsuccessful completion of national certifying examinations requires re-registering in AH 463. Clinical internship requires registration at Seattle University and payment of a lab fee as outlined in this bulletin under "Costs". Tuition is also charged by Swedish Tumor Institute. Clinical internship requires three months of orientation in the summer between the sophomore and junior year at no tuition cost.

	Practical experience in static organ imaging,
	dynamic radionuclide studies, in-vivo and in-vitro
	testing, hematologic studies, gastro-intestinal ab-
	sorption, and radioassay procedures. Prerequisite:
	permission. (Offered in sequence: fall, winter, spr-
	ing, summer.)

AH 455	Human Cross Section Anatomy 5 credits
	Survey of cross section anatomy with emphasis on organs of body amenable to Ultrasound diagnostic techniques. Prerequisites: BI 200 and 210 (or 270 and 271).

AH 456	Nuclear Medicine Seminar I	1 credit
AH 457	Nuclear Medicine Seminar II	2 credits
AH 458	Nuclear Medicine Seminar III	2 credits
AH 459	Nuclear Medicine Seminar IV	2 credits
	Student and faculty discussions of to sional interest; critical examination of ture. Prerequisite: permission. (Offer fall, winter, spring, summer.)	of current litera-

AH 460	Radiation Therapy I	11 credits
AH 461	Radiation Therapy II	11 credits
AH 462	Radiation Therapy III	11 credits
	Five 8-hour days per week in Swedish Tumor Institute (or affiliated hospital) under the direction of Dr. Hibbs.	
	Prerequisites: Completion of the academic course requirements.	

AH 463 National Certifying Examination 7 credits Successful completion of national certifying examination.

AH 464 Radiation Therapy Seminar 1 credit
Seminar to review and discuss student's progress in
clinical internship. Program requires this course be
taken four times for a maximum of four credits.

AH 470 Diagnostic Ultrasound I Review of acoustical physics, modes of display, introduction to equipment, Pathophysiology of organ systems visualized by ultrasound and their ultrasonic appearance.

AH 472 Echocardiography 3 credits Anatomy, physiology and pathological conditions of the adult and pediatric heart, their visualization and evaluation with real-time imaging and M-mode echocardiography.

AH 473 Clinical Orientation to Ultrasound 10 credits Five days per week spent in a hospital environment, learning patient care, practical medical ethics, observing and performing ultrasound procedures and other diagnostic modalities. Prerequisite: permission.

AH 474 Clinical Experience in Ultrasound I 8 credits Five 8-hour days per week in an approved ultrasound department of a hospital. Prerequisite: permission. Program requires this course be taken 3 times for a maximum of 24 credits.

AH 483 Ultrasound Seminar I 2 credits Seminar to review and discuss cases performed by students. Seattle based students will meet one day every other week. Students based outside Seattle area will have projects assigned by correspondence, by the faculty and staff. Prerequisite: permission. Program requires this course be taken 4 times for a maximum of 8 credits.

Project of professional interest given by faculty involving critical examination of current literature. Prerequisite: permission. Program requires this course be taken for a maximum of 4 credits.

Biology

Margaret L. Hudson, Ph.D., Chairman

Objectives

The programs in the department are designed to provide a liberal education and to prepare a student for graduate studies or for professional work in basic and applied biology.

Degrees Offered

Bachelor of Arts Bachelor of Science Bachelor of Science in Biology

General Program Requirements

Students in biology must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy, and theology and religious studies. Core requirements for history and social science are as follows: for the Bachelor of Arts degree, 20 credits in history or social science, including Psychology 100; Bachelor of Science degree, 15 credits in history or social science; and Bachelor of Science in Biology degree, 15 credits in history or social science, including Psychology 100.

Departmental Requirements

Bachelor of Arts - 50 credits of biology which must include BI 165, 166 and 167 with additional credits, which must include at least one credit of Seminar (three credits is the maximum that can be applied toward the degree), selected in consultation with the biology adviser; and 25 credits of chemistry. A year of physics and a course in calculus are recommended.

Bachelor of Science - 60 credits of biology which must include BI 165, 166 and 167 and at least one seminar credit (three credits is the maximum that can be applied toward the degree); 30 credits of mathematics or science electives.

Bachelor of Science in Biology — 60 credits of biology which must include BI 165, 166, and 167; at least 30 credits of biology courses at the 300-499 level; additional credits in consultation with the biology adviser, which must include at least one credit of Seminar (three credits is the maximum that can be applied toward the degree). Also required are 25 credits of chemistry; 15 credits of physics; reading knowledge of a modern language (equivalent to 106, as determined by examination); Psy 100 and Mt 112. Additional courses in biology, calculus, biochemistry and statistics are recommended. Students with 3 units of high school chemistry may elect to begin their chemistry sequence during the freshman year.

Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

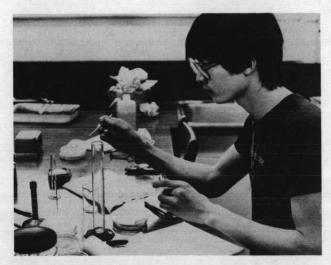

Teaching Major (School of Education) - Secondary: 45 credits in biology which must include BI 165, 166 and 167 and 30 credits of approved electives. Elementary: 25 credits in biology which must include BI 165, 166, 167, 275 and 370.

Undergraduate Minor - 30 credits of biology selected at direction of a biology adviser.

Biology Courses

BI 101 Life Science 5 credits
Important areas of biology, beginning at the cellular
level and culminating with a consideration of interactions and changes in natural populations. Five lecture hours per week. (spring)

BI 165	General Biology I	5 credits
BI 166	General Biology II	5 credits
BI 167	General Biology III	5 credits

Survey of the biological world, concepts and principles. 1—cell biology, metabolism, respiration, photosynthesis, genetics. 2—evolution, diversity and comparisons of groups of living organisms. 3—development and differentiation; comparative functions of tissues and organ systems; animal behavior; ecology. May be taken in any order. (1—fall, 2—winter, 3—spring.)

BI 190 Principles of Physical Anthropology 5 credits
Evidence for primate evolution from the fossil record and from the morphological, physiological, genetic and behavioral variability of living primates.
Two 3 hour lecture-laboratory sessions per week.

(fall)

BI 200 Anatomy 5 credits

Structure of the human organism. Credits not applicable for biology major. Three lecture and four laboratory hours per week. (fall)

Bl 205
Biophysical Principles
Inter-relationships between biology, earth science and physical science as applied to the teaching of elementary level science. Credits not applicable for biology major. Three lecture and four laboratory hours per week.

BI 210 Physiology 5 credits
Functions of the human organism. Three lecture and
four laboratory hours per week. Credits not
applicable for biology major. Prerequisite: BI 200.
(winter)

BI 220 Microbiology 5 credits
Introduction to medical microbiology. Three lecture
and four laboratory hours per week. Credits not
applicable for biology major. (spring)

BI 231 Invertebrate Zoology I 5 credits
Invertebrate Zoology II 5 credits
I. Integrated study of the anatomy, morphology, taxonomy, natural history and ecology of invertebrate phyla from protozoa through the pseudocoelomate minor phyla. II. The coelomate phyla. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166; 231 for 232. (I-fall, II-winter)

BI 241 Vertebrate Zoology 5 credits
Structure, physiology, ecology and behavior of
Hemichordata and Chordata. Three lecture and four
laboratory hours per week. Prerequisite: BI 165, 166,
167.

BI 251 Plant Morphology 5 credita
Study of plant form, structure and development.
Three lecture and four laboratory hours per week.
Prerequisite: BI 165, 166. (spring, 1982)

BI 252 Taxonomy of Flowering Plants 5 credits

Native flora as an introduction to taxonomy, involving the principal orders and families of flowering plants. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166. (spring, 1983)

BI 270

BI 271

Human Structure and Function I

Lintegrated study of microscopic and gross structure and the functions of the human organism; basic tissues, skeletal, muscular, nervous, circulatory and respiratory systems. II. Digestion and metabolism, the excretory, endocrine and reproductive systems. Introduction to regional anatomy. Prerequisites: BI 165, 166, 167, Ch 101, 102 for 270; 270 for 271. (I-winter, II-spring)

BI 275 General Physiology 5 credits
Chemical and physical processes inherent in living
organisms. Three lecture and four laboratory hours
per week. Prerequisite: BI 165, 166, 167, or permission. (fall)

BI 280 Cell Physiology 5 credits
Fundamental life processes in plant and animal cells. Three lecture and four laboratory hours per week. Prerequisite: BI 275. (winter)

BI 291 Special Topics in Biology 1-5 credits
BI 292 Special Topics in Biology 1-5 credits
Special Topics in Biology 1-5 credits
Courses offered on a one-time basis or experimental courses at the lower division level.

BI 296 Independent Study 1-5 credits
BI 297 Independent Study 1-5 credits
BI 298 Independent Study 1-5 credits
Prerequisite: permission of chairman.

BI 300 Microbiology 5 credits

Morphology, physiology and distribution of microorganisms. Three lecture and four laboratory hours
per week. Prerequisite: Permission of instructor.

(winter)

BI 305 Pathophysiology
A conceptual study of the derangements of the physiologic mechanisms and the compensatory responses involved in the disease process. Special attention is given to correlations between physiological changes and signs, symptoms and the development of basic pathology at the cellular, molecular and systemic levels. Forms the basis for the rationale of medical and nursing intervention.

sion of instructor.

BI 310 Comparative Vertebrate Embryology 5 credits
Early development of the frog and chick with consideration of the early development of the human.
Three lecture and four laboratory hours per week.

Prerequisite: BI 165, 166, 167. (fall)

Prerequisites: BI 200 and 210, or BI 270 and 271, or

BI 275 and 280. Recommended: BI 310, 330. Permis-

BI 315 Bioethics 5 credits
Indepth look at the problems created by a vast and highly complex technological society. Directed toward questions for which solutions are currently being sought. Lectures, discussions and directed readings.

BI 321 Vertebrate Natural History 5 credits
Ecology, behavior, life history and taxonomy of vertebrate animals, with emphasis on those in the Pacific Northwest. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166, 167. (spring)

- BI 326 Comparative Anatomy of the Vertebrates I 5 credits
 BI 327 Comparative Anatomy of the Vertebrates II 5 credits
 I. Comparative study of the skin, skeletal system and muscular systems of selected vertebrates. II. Comparative study of the digestive, respiratory, excretory and reproductive systems, circulatory and nervous systems and sense organs of selected vertebrates. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166, 167. (I-winter, II-spring)
- BI 330 Comparative Vertebrate Histology 5 credits
 Study of fundamental body tissues. Three lecture
 and four laboratory hours per week. Prerequsite:
 Permission of instructor.
- BI 350 Genetics 3 credits

 Classical and molecular principles of the transfer of hereditary information. Three lecture hours per week. Prerequisite: One year of biology. (winter)
- BI 351 Genetics Laboratory 2 credits
 Experience in genetic experimentation. Four laboratory hours per week. Prerequisite: BI 350 or taken concurrently. (winter)
- BI 352 Biophysical Chemistry 5 credits
 Introduction to physical chemistry. Principles of
 thermodynamics, kinetics, molecular structure and
 radioactivity applied to biology. Four lecture and
 three laboratory hours per week. Prerequisite: Ch
 219 or permission.
- BI 360 Parasitology 5 credits
 Study of parasitic protozoa, helminths and arthropods. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166, 167; Recommended: BI232.
- Bi 370 Population Biology: Ecology 5 credits

 The interrelationships of life forms with their physical and biotic environments. Five lectures per week.

 Prerequisite: One year of biology. (winter)
- BI 371 Field Ecology 2 credits
 Field studies including techniques used in ecological research and analysis. One lecture per week and three weekend field trips. Prerequisite: BI 165, 166, 167 and permission.
- BI 375 Marine Biology 5 credits
 Study of the marine environment and the animals and plants inhabiting it. Three lecture and four laboratory hours per week. Prerequisites: BI 232. (spring 1983)
- BI 430 Endocrinology 4 credits
 Structure and function of the glands of internal secretion of vertebrates. Prerequisite: Advanced standing in biology and Ch 236. (fall, 1981)
- BI 440 Neurobiology 5 credits
 Pathways of the vertebrate nervous system, gross
 and microscopic study of the human brain and spinal cord. Three lecture and four laboratory hours per
 week. Prerequisites: BI 200, 210 or 270, 271 or 310
 or 326. Permission. (fall, 1982)
- Bi 455

 Biochemistry

 Composition and metabolism of carbohydrates, lipids, proteins, enzymes and body fluids. Four lecture and three laboratory hours per week. Prerequisite: Ch 236. (fall)

- Study of freshwater systems and the plants and animals inhabiting them, with emphasis on the invertebrate animals. Three lecture and four laboratory hours per week. Prerequisite: BI 165, 166; recommended: BI 470 (spring, 1982)
- BI 465 Population Biology: Evolution 5 credits
 Causes and mechanisms of genetic adaptation of organisms. Five lectures per week. Prerequisite: BI 350 or permission. (spring)
- Structure, function, classification, ecology, behavior and economic importance of insects. Three lecture and four laboratory hours per week. Prerequisite: Bl 165, 166. (fall, 1981)
- BI 486 Seminar 1 credit
 BI 487 Seminar 1 credit
 BI 488 Seminar 1 credit
 Seminar 1 credit
 Problems in modern biology. Prerequisite: Junior or
 Senior standing. (fall, winter, spring)
- BI 491 Special Topics in Biology 1-5 credits
 BI 492 Special Topics in Biology 1-5 credits
 Special Topics in Biology 1-5 credits
 Courses offered on a one-time basis or experimental courses offered at the upper division level.
- BI 496 Independent Study 1-5 credits
 Independent Study 1-5 credits
 Independent Study 1-5 credits
 Independent Study 1-5 credits
 Prerequisite: permission of chairman and upper division standing.
- BI 499 Undergraduate Research
 Literature and laboratory investigation of a basic research problem. Preparation of a written report. Prerequisite: permission of chairman. (fall, winter, spring)

Chemistry

David L. Thorsell, Ph.D., Chairman

Objectives

Programs offered by the Chemistry department are designed to prepare the student for professional work in the various fields of basic and applied chemistry. The Bachelor of Science in Chemistry degree program is recommended to students who wish to prepare themselves for graduate studies in chemistry, beyond the minimum requirements for this degree, the student is eligible for certification of the degree by the Committee on Professional Training of the American Chemical Society.

The Clinical Chemistry degree program is suited to those students interested in a career in the important field of clinical chemistry. This degree provides preparation for graduate studies in clinical chemistry, biochemistry, or (with additional biology) medicine or dentistry.

The Bachelor of Arts degree is recommended for those desiring a solid foundation in chemistry along with greater freedom of choice for elective courses from programs such as education, business, engineering or other fields within the University.

Degrees Offered

Bachelor of Arts Bachelor of Science in Chemistry Bachelor of Science in Clinical Chemistry

General Program Requirements

Students in chemistry must satisfy the core requirements of the University given on page 18 of this Bulletin for English, philosophy and theology and religious studies. Core requirements for history and social science are as follows: Bachelor of Arts degree, 10 credits in history and 10 credits in social science; Bachelor of Science in Chemistry degree, 10 credits in history or social science; and Bachelor of Science in Clinical Chemistry, 10 credits in history or social science.

Departmental Requirements

Bachelor of Arts — 45 credits of chemistry which must include Ch 121, 122, 123, 131, 132, 133, 219, 241, 242, 251, 252 and either 352 or 361 and 363, plus electives from the following: Ch 243, 244, 360, 362, 364, 415, 436, 455, 461, 499, and special topics or independent study courses. Fifteen credits of mathematics including two quarters of calculus and 15 credits of physics.

Bachelor of Science in Chemistry — 60 credits in chemistry which must include Ch 121, 122, 123, 131, 132, 133, 219, 241, 242, 243, 251, 252, 326, 360, 361, 362, 363, 364, one year of calculus (Mt 134, 135, 136), computer programming, and one year of calculus-based physics. A student is eligible for certification of the degree by the American Chemical Society if 12 additional credits of approved advanced work in chemistry, physics or mathematics are taken. This certification is recommended for students planning graduate work. Mt 233, Mt 234 and Ph 203 are strongly recommended as electives. Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

Bachelor of Science in Clinical Chemistry — 72 credits in chemistry which must include Ch 121, 122, 123, 131, 132, 133, 219, 241, 242, 251, 252, 326, 361, 362, 363, 364, 455, 461, 470, 471, 472, 475, 476, 481, 482, 483; 20 credits in mathematics and computer science which must include two quarters of calculus and either ECS 113 or 114; and one year of introductory physics. Recommended electives: Ch 243, 244, 360; Bl 280, 300, 330 and 350.

Teaching major (School of Education) — Secondary: 45 hours of chemistry are required which must include Ch 121, 122, 123, 131, 132, 133, 219, 241, 242, 251, 252 and either 352 or 361 and 363. Additional courses in physics (Ph 105, 106, 107) a year of college mathematics and courses in biology are highly recommended.

Chemistry Courses

Ch 100 Science, Technology and the
Quality of Life 5 credits
Study of selected scientific information and the opportunities and responsibilities for its generation and application; scientific information and technologies that demonstrate the need for public involvement in the conduct of science and technology. (fall, spring, summer)

- Ch 101 Introductory General Chemistry

 Survey of inorganic and some organic chemistry treating the basic principles and descriptive material relevant to the health sciences. Four lecture and three laboratory hours per week. (fall, winter)
- Ch 102 Introductory Organic and Biochemistry 5 credits
 Continuation of organic chemistry and introduction
 to biochemistry with application to the health
 sciences. Four lecture and three laboratory hours
 per week. Prerequisite: Ch 101 or equivalent. (winter, spring)
- Ch 110 Fundamentals of Chemistry 5 credits

 An introduction to Chemistry designed for students with little or no preparation in science. Also for students desiring a review of high school chemistry prior to enrolling in Ch 101 or Ch 121. (fall, spring)

Ch 121	General Chemistry 1
Ch 122	General Chemistry 2
Ch 123	General Chemistry 3

4 credits 4 credits 4 credits

1. Atomic and molecular structure, weight relationships, states of matter, thermodynamics. 2. Solutions, kinetics, chemical equilibrium, electrochemistry, hydrogen, oxygen, water and the nontransition metals. 3. Transitions metals, carbon compounds and an introduction to the principles of reactions in ionized systems. Four lecture hours per week. Prerequisites: High school algebra for 121; 121 for 122; 122 for 123; corequisites: 131 for 121; 132 for 122; 133 for 123. (121, fall, winter; 122, winter, spring; 123, spring).

(spring).

Ch 252 Organic Chemistry Lab 2

2 credits

Application of laboratory techniques in simple and multi-step syntheses; qualitative and quantitative measurements of properties of organic compounds; determination of kinetic and thermodynamic parameters. Four hours per week. Prerequisite: Ch 251; Corequisite: Ch 242. (winter, summer).

Ch 131 **General Chemistry Lab 1** 1 credit Ch 132 **General Chemistry Lab 2**

1 credit Introduction to basic laboratory procedures and safety, practice in modes of scientific inquiry, including observation, measurement, data collection, interpretation and evaluation of results and reporting. Corequisites: 121 for 131; 122 for 132. (131, fall, winter; 132, winter, spring).

General Chemistry Lab 3 Ch 133

1 credit

Introduction to qualitative chemical analysis on a semimicro scale. Experimentation in the chemistry of ionic systems and (time permitting) some basic quantitative analytical methods. Corequisite: Ch 123; Prerequisite: 132. (spring).

Ch 241 **Organic Chemistry 1** Ch 242 **Organic Chemistry 2**

4 credits 4 credits

Structural theory; functional groups; nomenclature; properties, applications, reactions and syntheses of organic compounds; stereochemistry; reaction mechanisms; kinetic and thermodynamic properties of reactions. Compounds and reactions of biological interest. Four lecture hours per week. Prerequisite: Ch 122 for 241; 241 and 251 for 242. (241, fall and summer; 242, winter and summer).

CH 243 **Organic Chemistry 3**

Synthesis of organic compounds; ultraviolet, visible, infra-red and nuclear magnetic resonance spectra; laboratory work in problem-oriented investigations; practical applications of spectroscopy in laboratory work. Two lecture and three laboratory hours per week. Prerequisite: Ch 242, 252. (spring)

Ch 244

Qualitative Organic Analysis

Methods of identification of organic compounds through preparation of derivatives; and use of modern spectroscopic methods. Six laboratory hours per week, plus discussion of principles. Prerequisite: Ch 242.

3 credits

Ch 398 **Independent Study**

Special Topics

Ch 391

1-5 credits 1-5 credits

1-5 credits

2 credits

Ch 415 **Advanced Inorganic Chemistry** Advanced topics in inorganic chemistry with particular attention to bonding, thermodynamics, spec-

tral and magnetic properties of the transition metals and their compounds. Prerequisites: Ch 360 and 361 or permission. (Alternate years with Ch 436)

Ch 251 **Organic Chemistry Lab 1**

Theory and practice of laboratory techniques; experimental study of properties of organic synthesis; introduction to organic synthesis; Four hours per week. Corequisite: Ch 241. (fall, summer)

112

Ch 260 **Laboratory Safety** 1 credit Important aspects of hazardous chemicals and laboratory safety including pertinent laws and regulations. Establishing and maintaining a safe working environment in the laboratory. Prerequisite: Ch 241, 251.

1-5 credits Ch 291 **Special Topics** 1-5 credits Ch 292 **Special Topics** 1-5 credits Ch 293 **Special Topics**

Ch 326 **Instrumental Analysis** 5 credits

Theory and techniques of instrumental methods representative of spectrophotometric electroanalytical and chromatographic techniques. Two four-hour laboratory periods including discussion of principles. Prerequisite: One year of physical chemistry or permission. (spring).

Ch 352 **Biophysical Chemistry** 5 credits Introduction to physical chemistry. Principles of thermodynamics, kinetics, molecular structure and radioactivity applied to biology. Four lecture and four laboratory hours per week. Prerequisite: Ch 219 or permission of instructor.

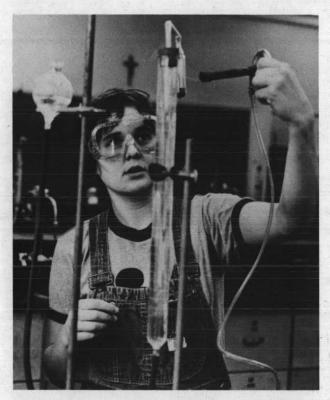

Ch 360 **Physical Chemistry 1** 3 credits **Physical Chemistry 2** Ch 361 3 credits Ch 362 **Physical Chemistry 3** 3 credits

1. Quantum chemistry, spectroscopy, photochemistry. 2. Gases, thermodynamics, changes of state, solutions. 3. Chemical equilibrium, electrochemistry, kinetic molecular theory, reaction kinetics. Three lectures per week. 1. may be taken either before or after 2 and 3. Prerequisites: Ch 123, 133, Mt 135 and one year of physics for 360 and 361; 361 for 362. (1.-fall, 2.-winter, 3.-spring).

Ch 363 **Physical Chemistry Laboratory 1** 2 credits Ch 364 Physical Chemistry Laboratory 2 2 credits

Quantitative measurements of physical chemical phenomena, detailed data analysis, evaluation. Four laboratory hours per week. Prerequisites: Ch 219 for 363; 363 for 364. Ch 361 is a pre- or co-requisite for 363; Ch 362 is a pre- or co-requisite for 364. (1.-winter; 2.-spring).

Ch 392 **Special Topics** Ch 393 **Special Topics** Ch 396 **Independent Study** 1-5 credits Ch 397 Independent Study 1-5 credits 1-5 credits

Ch 436 Advanced Organic Chemistry 3 credits
Spectrometric identification of organic compounds; mass spectrometry; nuclear magnetic resonance; infrared; ultraviolet and visible; thermodynamic variables and kinetic relationships.
Directed reading and/or lectures. Prerequisite: One year of physical and one year organic chemistry or permission. (Alternate years with Ch 415)

Ch 455 Biochemistry 5 credits

Composition and metabolism of carbohydrates, lipids, proteins, enzymes and body fluids. Four lecture and three laboratory hours per week. Prerequisite: Ch 242, 252 (fall).

Ch 460 Advanced Physical Chemistry 3 credits
Quantum chemistry, vibrational and rotational
energies, absorption and emission of radiation,
molecular symmetry, group theory, electronic spectra. Prerequisite: One year of physical chemistry.

Ch 461 Radiochemistry 3 credits
Theory of radioactivity, use of radioisotopes in studying chemical reactions and structure. Two lecture and four laboratory hours per week. Prerequisite: One year of physical chemistry or permission. (winter)

Ch 470 Clinical Chemistry 1 3 credits
Ch 471 Clinical Chemistry 2 3 credits
Ch 472 Clinical Chemistry 3 3 credits
1. Theory and techniques of spectrophotometry, atomic absorption spectroscopy, flame phôtometry,

atomic absorption spectroscopy, flame phôtometry, atomic absorption spectroscopy, flame phôtometry, fluorimetry and infrared analysis; electrophoretic techniques and densitometry; specific ion electrodes; automated analysis in clinical laboratory use. 2. Critical comparison of analytical methodologies for carbohydrates, lipids, electrolytes, enzymes, hemoglobins and prophyrins; emphasis on biosynthe-

sis, metabolism, analytical methods of importance, normal ranges, and pathological conditions leading to abnormalities. Statistics and normal values. 3. Toxicology, steroids, catecholamines, gas chromatographic and radioimmunoassay techniques, renal and hepatic function assessment. Two lectures per week. Prerequisites: Ch 362, 364 or permission. (Offered in sequence: fall, winter, spring)

Ch 475 Clinical Chemistry Laboratory 1 1 credit
Ch 476 Clinical Chemistry Laboratory 2 1 credit
Practical experience in instrumental techniques and
analytical methodologies of importance to the
clinical chemist, including colorimetry, atomic absorption, gas chromatography, infrared, enzymatic
assays and statistical treatment of data. Three
laboratory hours per week. Prerequisite:
Simultaneous enrollment in Ch 470 or Ch 471.
(Offered in sequence: fall, winter)

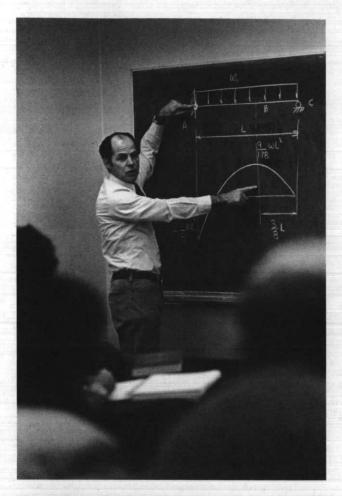

Ch 481	Clinical Practice 2 credits
	Clinical Practice 2 credits
Ch 483	Clinical Practice 2 credits
	Practical experience in approved hospital clinical laboratory. Six laboratory hours per week. Mandatory CR/NC. Prerequisite: Permission.

Ch 491	Special Topics					1-5 credits
	Special Topics					1-5 credits
	Special Topics					1-5 credits

	level Prerequisite:	Permis	sion.			

Ch 496	Independent Study	1-5 credits
	Independent Study	1-5 credits
	Independent Study	1-5 credits

Ch 499 Undergraduate Research
Literature and laboratory investigation of a basic research problem. Six laboratory hours per week.
Prerequisite: Permission.

Civil Engineering Richard T. Schwaegler, Ph.D., Chairman

Objectives

The principal objectives of the Civil Engineering department are to provide trained engineers to work in the various areas of the civil engineering profession and to provide a firm foundation for graduate study.

To accomplish these ends, analysis and design courses in the fields of hydraulic, structural, transportation and sanitary engineering are offered in addition to preparatory courses in sciences and basic mechanics. A broad base of theory is provided along with sufficient quantity of current practices of the profession.

Degrees Offered

Bachelor of Civil Engineering Bachelor of Engineering

General Program Requirements

Students in Civil Engineering must satisfy the core curriculum requirements of the University as given on page 18 of this Bulletin for English, philosophy and theology and religious studies. Ten credits of history or social science are required.

Departmental Requirements

Bachelor of Civil Engineering — 61 credits in civil engineering which must include ECL 211, 321, 323, 331, 335, 337, 351, 353, 371, 402, 403, 487, 488 and 489. Also required are Mt 134, 135, 136, 233, and 234; EML 105, 113, 281, and 321, Ph 200, 201; and 10 credits of additional electives in engineering or science, as approved by the department chairman. With approval, qualified students may substitute equivalent or more advanced courses for those listed. Required 300 level courses have junior civil engineering standing as a prerequisite. Required 400 level courses have senior civil engineering standing as a prerequisite, except for ECL 402.

Bachelor of Engineering — 55 credits in engineering, 25 credits in mathematics, and at least 10 credits in physics, chemistry, or biology. Not intended to be an entry-level degree into the engineering profession.

ECL 321 Strength of Materials I

5 credits Mechanics of solid deformable bodies; relationships between the external forces acting on elastic bodies and the stresses and deformations produced. Members subjected to tension, compression, flexure and torsion. Five lecture and one

laboratory period per week. Prerequisite: EML 113, Ph 200, Mt 136. (fall)

ECL 323 Strength of Materials II

5 credits

Continuation of the mechanics of solid deformable bodies. Beam topics, stability of columns, combined stresses and strains, fatigue and energy relationships. Five lecture and one laboratory period per week. Prerequisite: ECL 321, Mt 233. (winter)

ECL 331 Fluid Mechanics

Fluid static and dynamics. Topics include fluid properties, continuity equation, Euler's equation; laminar and turbulent flow regimes. Prerequisites: EML 281, Mt 135. (fall)

ECL 335 Applied Hydraulics

3 credits

Weekly student projects in the field of incompressible flow; pump design, hydrographic studies, graphical analysis of overflow or spillway design, model studies, open channel flow. Prerequisite: ECL 331. (winter)

ECL 337 Fluids Laboratory

2 credits

Experimental calibration of various flow meters, loss coefficients, and pipe friction factors. Experimental verification of various principles of fluid mechanics. One lecture and one four-hour laboratory per week. Prerequisite: ECL 331. (spring)

ECL 351 Engineering Geology

3 credits

Elementary study of the material structure and internal condition of the earth and of the physical and chemical processes at work upon and within it. Three lecture hours per week. Prerequisite: Junior standing. (winter)

ECL 353 Soil Mechanics and Foundations

5 credits

Engineering properties of soils; consolidation, shear strength, permeability. Fundamentals of slope stability and earth pressure theories. Fundamentals of foundation design. Four lecture and one laboratory session per week. Prerequisites: ECL 321, ECL 351. (spring)

ECL 371 Water Resources I

3 credits

Conception, planning, design, construction, and operation of facilities to control and utilize water. Stream and flood analysis. Prerequisite: ECL 331.

ECL 391 Special Topics ECL 392 Special Topics 1-5 credits 1-5 credits

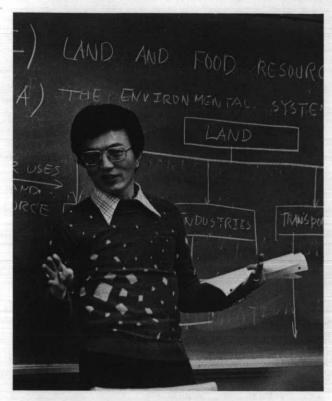

ECL 393 Special Topics

1-5 credits

ECL 402 Engineering Economy

Elements of immediate and long-term economy of design and maintenance; interest rates, present rates, present worth and prospective return on investment; depreciation and replacement studies. Prerequisite: Junior standing. (winter, spring)

ECL 403 Project/Construction Management 3 credits
Introduction to project and construction management.
How to plan and organize these services. Network
scheduling, contracting procedures, risk analysis and
estimating. Prerequisite: Junior standing. (spring)

ECL 445 Structural Mechanics 5 credits
Classical and matrix methods in structural mechanics. Basic structural theory in both classical and matrix notation. Prerequisite: ECL 323. (fall)

ECL 447 Structural Design I 5 credits
ECL 449 Structural Design II 5 credits

Design of basic structural members and connections. Specific structural design building codes. I. Steel design. II. Reinforced and prestressed concrete design. Prerequisites: ECL 445 for I, 447 for II. (I. winter, II. spring)

ECL 461 Transportation Systems 3 credits

Development of transportation systems and social and economic effects. Planning present and future systems.

Methods of public and private financing. Prerequisite: Senior standing. (fall)

ECL 485 Sanitary Engineering I 5 credits
ECL 486 Sanitary Engineering II 5 credits

I. Examination of water and waste. Physical treatment processes. Laboratory experiments in microbial, bacteriological and chemical examination of water and wastes. Chemical and biological treatment, sludge disposal, disinfection, reuse of water, comprehensive planning. Four lectures and one laboratory per week. II. Stream pollution and self-purification. Analysis of industrial wastes. Four lectures per week plus selected field trips. Prerequisites: Ch 121, 131 for 485; ECL 485 and 486. (l. fall, II. spring).

ECL 487 Seminar I 2 credits
ECL 488 Seminar II 2 credits
ECL 489 Seminar III 2 credits

Development of oral and written communication skills through preparation and presentation of a technical paper. Prerequisite: Senior standing (I. fall, II. winter, III. spring.)

ECL 491	Special Topics	1-5 credits
ECL 492	Special Topics	1-5 credits
ECL 493	Special Topics	1-5 credits

ECL 499 Undergraduate Research 2-5 credits
Research under the direction of a faculty member.

Electrical Engineering

Francis P. Wood, SJ, M.S., Chairman

Objectives

Electrical engineering deals with the applications of electricity to the generation, transmission, distribution and utilization of electric power, to measurement, to control, to computation and to communication by wire and electromagnetic waves.

The Electrical Engineering program strives to provide a broad foundation based on mathematical and scientific principles that will prepare the graduate to take his/her place in any of the various fields of study. It does not provide for undergraduate specialization in various fields.

The curriculum includes material in networks, electronics, radio, communication, and power apparatus and systems. Hence the student interested in electronics, in automatic control, or in any other specialty is given adequate scientific training in a well-balanced educational program.

Degrees Offered

Bachelor of Electrical Engineering Bachelor of Engineering

General Program Requirements

Students in electrical engineering must satisfy the specific core curriculum requirements of the University as given on page 18 of this Bulletin for English, philosophy and theology and religious studies. Ten credits of history or social science are required.

Departmental Requirements

Bachelor of Electrical Engineering — 65 credits in electrical engineering which must include EEL 105, 301, 303, 311, 341, 351, 411, 421, 433, 435, 443, 446, 448, 449, 455, 461, and 485. Also required are Mt 134, 135, 136, 233, and 234; EML 105, 113, and either EML 281 or Ph 310; and Ph 200, 201, 202, 203, 330 and 361. With approval, qualified students may substitute advanced courses in nuclear physics for electrical engineering courses. Required 300 level courses have junior electrical engineering standing as a prerequisite. Required 400 level courses have senior electrical engineering standing as a prerequisite. This degree is approved by the Accreditation Board for Engineering and Technology.

Bachelor of Engineering — 55 credits in engineering, 25 credits in mathematics, and at least 10 credits in physics, chemistry, or biology. Not intended to be an entry-level degree into the engineering profession.

Each student is required to prepare a technical paper
and to present it crally to the class Prerequisite: EEL

and to present it orally to the class. Prerequisite: EEL 311, Senior standing in electrical engineering. (winter, spring)

EEL 421 Linear Analysis and Synthesis 3 credits
Fourier and Laplace transforms; analytic functions; inversion methods; conformal mapping; introduction to network synthesis. Prerequisite: EEL 363 (fall, winter)

EEL 433 Digital Signal Processing 5 credits
Linear, time invariant, discrete systems; finite moving
average and recursive digital filters; Z-transform; discrete Fourier transform; fast Fourier transform. Prerequisite: EEL 421. (winter, spring)

EEL 435 Electromechnical Energy Conversion 5 credits
Electromechanical energy conversion principles; transformers and rotating machines, special devices. Prerequisite: EEL 421, EML 281. (winter, spring)

EEL 443 Semiconductor Circuits Design 5 credits
Linear power, push-pull, feedback, Class AB, B and C,
and tuned amplifiers; gain-frequency characteristics;
oscillators. Prerequisite: EEL 341. (fall, winter)

EEL 446 Electrical Engineering Laboratory 1 2 credits
EEL 448 Electrical Engineering Laboratory 2 2 credits
Laboratory problems in analysis and design for electronic communication and control for electrical engineering seniors; analog and digital systems. One hour lecture and one four-hour laboratory per week. Prerequisites: EEL 341 for EEL 446; EEL 443, 446, 449 for EEL 448. (1, fall, winter; 2, fall, spring)

EEL 449 Digital System Design 3 credits
Digital electronic circuits; logic types; small and medium
scale integrated circuits; A/D and D/A conversion;
computer architecture. Prerequisites: EEL 105, 341. (fall, winter)

EEL 455 Microwave Devices and Applications 2 credits
Microwave sources and amplifiers; tube and solid-state,
guided waves and free-space propagation, microwave
circuit components, fundamentals of antennas. Two
one-hour lectures per week. Prerequisites: EEL 351, Ph
330. (fall, winter)

EEL 461 Control Systems 5 credits
Fundamentals of classical and modern system theory;
analysis and design of closed-loop systems with
emphasis on stability and transient response using Nyquist, Bode, s-plane and state-space techniques. Prerequisites: EEL 433, 435 (fall, spring)

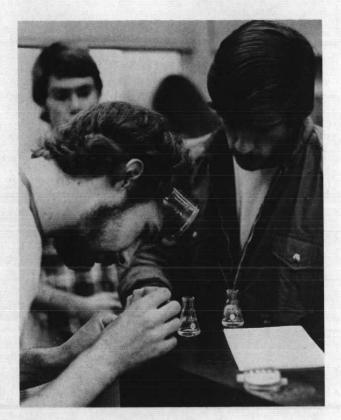

EEL 485 Communications Systems
Signal transmission through electrical networks; amplitude, phase, frequency modulation; sampling and pulse modulation; noise; comparative analysis of information transmission systems. Prerequisite: EEL 421. (winter, spring)

EEL 487 Microprocessors
Introduction to microprocessors, configuration of microprocessor controlled systems, elementary programming. Prerequisite: EEL 105, 449 or permission. (spring)

EEL 489 Power Systems 3 credits

Analysis of power systems, symmetrical components, faults on power systems, power system parameters, steady-state operation. Prerequisite: EEL 435. (spring)

EEL 491 Special Topics	1-5 credits
EEL 492 Special Topics	1-5 credits
EEL 493 Special Topics	1-5 credits
EEL 496 Independent Study	1-5 credits
EEL 497 Independent Study	1-5 credits
EEL 498 Independent Study	1-5 credits

General Science Reed A. Guy, Ph.D., Acting Chairman

Objective

The objective of the program is to provide a broad background in basic science for two groups of students: those whose interdisciplinary interests cannot be met by other programs; and those who plan to transfer to professional training programs in an allied health field — such as dental hygiene, occupational therapy, or physical therapy — or to preprofessional programs, such as premedical, predental, or preveterinary. Judicious use of elective hours permits the student to specialize in other technical areas or in business.

Degree Offered

Bachelor of Science in General Science

General Program Requirements

Students in general science must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. At least 15 credits in history or social science electives are required.

Degree Requirements

This degree requires 90 credits chosen from the following fields: allied health technology, biology, chemistry, computer science, health information, interdisciplinary science, mathematics, physics, psychology (Only Psy 201, 330 and 401 can be counted toward the General Science degree) and engineering. For this purpose, all engineering courses are considered as being in one field. At least 30 credits must be in one of these fields, 20 credits in a second field

and 10 credits each in mathematics, biology, chemistry and physics, chosen from the following allowed combinations of courses:

Mathematics: Mt 112 and 131; 118 and 130; 134 and

135; 130 or 131 and ECS 113 or 114

Physics: Ph 105 and 106; 200 and 201

Chemistry: Ch 101 and 102; or 110, 121, and 131,

122 and 132

Biology: 10 credits from Bl 165, 166, 167, 190

200 or 210

At least 15 credits must be from 300, 400 or approved 200 level courses. The approved 200 level courses are: Mt 233, 234; Ch 241, 242, 243, 244, 251, 252, Ph 202 and 203.

Interdisciplinary Science Courses

ISC 201 To Feed The World 5 credits

The history, production, and distribution of food from the perspectives of paleontology, archaeology, anthropology, ecology, biology and chemistry; modes of scientific examination and interpretation; interrelationships of science, technology and human needs. Team taught. Active participation by students: lectures, discussions, student projects.

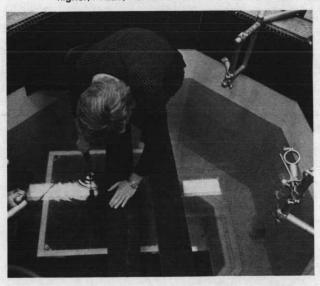

ISC 202 To See The Light 5 credits

A hands-on approach to the nature and uses of light the many faces of light as seen by philosophers, artists and scientists; theories of color; physiology and psychology of perception, light and color in art; laser optics; camera systems; current optical technology; "light" student projects. Three hours lecture/discussion and one four-hour laboratory/field trip per week.

ISC 401 Science and Technology:

The Human Response 5 credits

A comparative-historical approach to the scientization of culture and its contemporary and projected consequences; critical evaluation of competing claims about science and technology as enlightening allies of human progress; a personal search for appropriate intellectual and ethical perspectives on science as a way of knowing and on technology as a way of living. Seminar format; guest lecturers; small group paper conferences; student-led seminars. Prerequisites: Junior standing or higher; Pl 220; HS 104 or 105.

Health Information Kathleen A. Waters, M.Ed., R.R.A., Chairman

Objectives

The Health Information program is designed to prepare the student for a career in an administrative health care profession by providing a comprehensive four-year program of liberal arts and science. In the fourth year emphasis is on professional activities and interaction with the health care industry. Special attention is given to computerization of health information. Students who complete the program are eligible for registration with the American Medical Record Association.

Degree Offered

Bachelor of Science in Health Information

General Program Requirements

Degree candidates in health information must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy, and theology and religious studies. Additional core requirements are 15 credits in history or social science.

Certificate Program

Students who already possess a baccalaureate degree in any field may be eligible for the Certificate in Health Information Services Program, as fifth year students. Prerequisites for admission to the certificate program are acceptable college credits in human anatomy and physiology (with laboratory), principles of digital computers, statistics, and management practices.

Departmental Requirements

Bachelor of Science in Health Information — 55 credits in health information which must include HI 401, 402, 403, 422, 425, 426, 430, 440, 441, 455, 470, 475 (or Bus 410), 476, 477, and 480; 20 credits in biology or chemistry, which must include BI 200 and 210; Sph 200 or 201, ECS 113 or 114; Bus 380; Psy 201.

Students who have completed a program for medical record technicians, approved by the American Medical Association, may be placed in appropriate advanced Health Information courses.

Certificate in Health Information — 49 credits in Health Information, equivalent to HI 401, 402, 403, 422, 425, 426, 430, 440, 441, 455, 470, 475, (or Bus 410), 476, and 480.

Health Information 402, 403, 422, 425, 426,

.....5 credits

Health Information Courses

HI 401 Introduction to Health Records 5 credits

Development, present scope and future direction of the health record profession. Initial development of skills for record analysis and control, medical statistics, record retrieval and disease coding. Prerequisite: BI 200, 210 or permission. (fall, spring)

HI 402 Management of Health Information Systems I

5 credits

HI 403 Management of Health Information Systems II

5 credits

I. Coordination of record systems and information centers in health facilities. II. Use of standards designed by JCAH, AMA, DHEW, and other agencies to raise level of health care quality; effects of standards on health record administration. Prerequisites: HI 401 for I; I for II. (I-fall, winter; II-winter, spring)

HI 422 Medical Terminology 3 credits
Prerequisite BI 200, 210 or permission of instructor.

(fall, spring)

HI 425

3 credits

Medical Science I 3 credits
Systems approach introduction to general principles of disease and the disorders that affect the body as a whole. Genetic causes of disease, tissue damage, inflammation, infection, immune response, growth disorders, tumors, nutrition, metabolic disease, blood disorders, circulatory system. (fall, spring)

HI 426 Medical Science II 3 credits

Disorders that affect specific organ systems: heart, respiratory tract, digestive system, reproduction, liver, gall bladder, pancreas, endocrine glands, bones, joints and muscles, skin, special senses, mental illness, central nervous system. (winter)

HI 430 Health Care Delivery System 5 credits

Study of the organization, delivery and financing of health care in the United States. Interdisciplinary exploration of the relationships of personnel, facilities and organizations in the health field. (winter, spring)

HI 440 Practicum 2 credits
HI 441 Practicum 2 credits

Practicum is designed to help students develop themselves through utilizing opportunities to participate in current health information activities with professional medical record administrators and other professionals in the health field. Prerequisite to HI 440-HI 401. (fall, winter, spring, summer)

HI 450 Development of Management Resources

3 credits

Utilization of management methods and resources in the effective direction of a department, system or function with emphasis on budget, layout, work simplification, job analysis and equipment selection. (fall, winter)

HI 455 Comprehensive Communication Skills 3 credits

Development of skills needed to select and use communications media in effective leadership. Personnel selection and evaluation, educational and training programs, skill in relating information. (winter, spring)

HI 470 Legal Concepts for Health Fields 3 credits
Principles of law as applied to the health field, with
particular reference to all phases of medical record
practice. (fall, spring)

HI 475 Health Information Computer Systems 5 credits
Systems analysis in health information with stress on
computer resources in problem solving. Computerized patient information processes in clinical and
administrative health care settings.

HI 476 Health Information Computer
Applications

as 3 credits

Analysis and evaluation of current computer applications in health information. Hospital computer systems, ambulatory care systems, community health networks and data base management systems including role of minicomputers and microprocessors. Prerequisite: HI 475.

HI 477 Health Information Computer

Applications Laboratory 2 credits
Health information case analyses using computers and

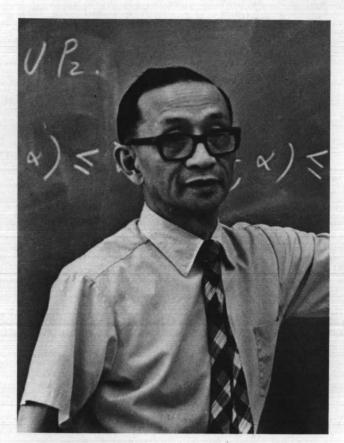

microprocessors. Corequisite: HI 476.

HI 480 Problem Solving and Decision
Making—Seminar 2 credits
(winter, spring)

HI 491 Special Topics 2-5 credits
HI 492 Special Topics 2-5 credits

HI 496 Independent Study 1-5 credits

HI 497 Independent Study
Prerequisites: Senior standing; permission. (fall, winter, spring)

Mathematics

Mary B. Ehlers, Ph.D., Chairman

Objectives

The Mathematics Department offers training in three distinct programs. The first, leading to the Bachelor of Science in Mathematics, prepares the student for advanced study and professional work in mathematics. The others are more flexible programs which provide for work in a secondary field and lead to either the Bachelor of Arts or the Bachelor of Science degree.

Degrees Offered

Bachelor of Arts Bachelor of Science Bachelor of Science in Mathematics

General Program Requirements

Students in mathematics must satisfy the core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. Additional core requirements are as follows: for the Bachelor of Arts degree, 10 credits in history, 10 credits in social science and 15 credits in physical or life science, psychology or economics; Bachelor of Science degree, 15 credits in history or social science; and Bachelor of Science in Mathematics degree, 15 credits in history or social science. French or German is recommended to students planning to pursue graduate work. A minimum grade of C is required in all mathematics courses applied toward the major. See programs of study for additional requirements.

Advanced Placement in Calculus

Students who have completed a college level course in calculus in high school and have taken the Advanced Placement test in calculus of the College Entrance Examination Board may petition the department for placement on the basis of their test results. Advanced placement and credit may be granted to students whose test scores are 3 or above. Advanced placement may also be obtained through departmental testing.

Honors Work in Mathematics

For superior students the department offers honors work consisting of a year of independent study under the supervision of a senior faculty member. Normally the work will be done during the senior year at a level beyond that of the regular undergraduate courses and will culminate in the writing of a term paper or senior thesis. Students who wish to undertake this program will be encouraged to take Mt 315 or 381 in the sophomore year and a 400-level series in their junior year in order to have the background sufficient to conduct their independent study. The independent study is an addition to the regular course requirements for the Bachelor of Science in Mathematics degree. No special distinction will be made in the degree earned by students completing the program.

Departmental Requirements

Bachelor of Arts — 45 credits in mathematics which must include Mt 134, 135, 136, 233, 234, 315 or 381, 411 or 431 and 10 additional credits of approved upper division mathematics; ECS 113 or 114. General physics is recommended.

Bachelor of Science — 60 credits of mathematics or computer science and 30 credits of physical science, psychology or economics.

Bachelor of Science in Mathematics — 70 credits in mathematics which must include Mt 134, 135, 136, 233, 234, 411, 412, 413, 431, 432, 433; 15 additional credits in upper division mathematics; and 15 credits of physics or economics. In certain circumstances, with the approval of the chairman, 15 credits of upper division work in a physical science may be substituted for 15 credits in mathematics. Students in this program must maintain a cumulative grade point average and a mathematics grade point average of 2.50

Students in this program may elect to complete a sequence leading to secondary teacher certification. For details contact the School of Education.

Undergraduate Minor — 30 credits in mathematics which must include MT 134, 135, 136 and 15 credits of approved mathematics electives beyond college algebra.

Teaching Major (School of Education) — 45 credits in mathematics which must include Mt 134, 135, 136, 233, 300, and 321 or 322, and 15 credits of approved mathematics or computer science electives beyond college algebra (ECS 114 is included among approved electives).

Computer Science Undergraduate minor — 30 credits in computer science which must include ECS 113 or 114; 201; 210 or 220; 310; 320; and 410.

Proper Sequence for Taking Courses

The normal sequence of elementary mathematics courses is Mt 100 or Mt 101; Mt 112 or Mt 118; Mt 130, Mt 131 or Mt 134; Mt 135; Mt 136; Mt 233; and Mt 234. A student, who has received a C or better in any course of this sequence or its equivalent, cannot receive credit for a course which appears before it in the sequence. A student may not receive credit for more than two courses among Mt 101, Mt 175, and Mt 200. A student may not receive credit for more than one course from each of the following groups: Mt 100 and Mt 101; Mt 112 and 118; Mt 130, Mt 131 and Mt 134.

Mathematics Courses

Mt 100	Intermediate Algebra 2-5 credits Sets and numbers, polynomials, fractions, linear
	equations and inequalities, exponents, quadratic equations and inequalities; systems of equations; functions and graphing. Prerequisite: One year each of high school algebra and geometry. The comple-
	tion of 5 credits of Mt 100 is equivalent to Mt 101. (winter: 3 credits, spring: 2 credits)

Mt 101	Intermediate Algebra 5 credits
	Introduction to logic and sets; laws of exponents; linear and quadratic equations; inequalities; systems
	of equations. Prerequisite: one year each of high school algebra and geometry. (fall, winter, spring)

Mt 112 College Algebra and Trigonometry 5 credits Sets; relations; algebra of functions; exponential, logarithmic, trigonometric, inverse trigonometric functions; equations; graphs. Prerequisite: Mt 101 or one-and-one-half years of high school algebra. (fall, winter, spring)

Mt 118 College Algebra for Business 5 credits
Sets; relations and functions, graphing; linear, quadratic, exponential, logarithmic functions; systems of linear equations; inequalities; linear programming; applications to business. Prerequisite: Mt 101 or equivalent. (fall, winter, spring)

Mt 130 Elements of Calculus for Business 5 credits
Rate of change; derivative, basic differentiation formulas, extrema; area under a curve; limits of sequences; the definite integral and applications. Prerequisite: Mt 118. (fall, winter, spring)

Mt 131 Calculus for Life Sciences 5 credits
Limits; rate of change; derivatives, basic differentiation formulas, extrema; the definite integral.
Applications to the Life and Social Sciences. Prerequisite: Mt 112 or equivalent. (Spring)

Mt 134	Calculus and Analytic Geometry I 5 credits
Mt 135	Calculus and Analytic Geometry II 5 credits
Mt 136	Calculus and Analytic Geometry III 5 credits I. Review of precalculus subjects; limits and derivatives; applications of limits and derivatives. II. Theory, technique, and applications of integration; differentiation and integration of trigonometric, exponential and logarithmic functions. III. Indeterminate forms; improper integrals; infinite series; Taylor's theorem; vectors, polar coordinates; solid analytic geometry. Prerequisites: Mt 112 or qualifying examination for 134; 134 for 135; 135 for 136. (All three offered fall, winter, spring)
Mt 175	Mathematics for the Liberal Arts Student 5 credits Elementary logic; sets, relations and functions; topics

Mt 175 Mathematics for the Liberal Arts Student 5 credits
Elementary logic; sets, relations and functions; topics
chosen from geometry, abstract algebra, linear algebra,
computer science, statistics and probability. (fall, winter,
spring)

Mt 200 Theory of Arithmetic 5 credits
Systems of numeration; elementary logic; sets; relations, equivalence classes; number systems and the integration of these concepts. Prerequisite: Mt 101 or 175, or equivalent. (fall, winter)

Mt 232 Multivariable Calculus 3 credits
Partial derivatives, multiple integration, and applications. Prerequisite: Mt 136. Credit not granted for both Mt 232 and Mt 233. (fall, winter)

Mt 233 Multivariable Calculus and
Linear Algebra 5 credits
Partial derivatives, multiple integration and applications; introduction to differential equations; matrices and determinants. Prerequisite: Mt 136. (fall, winter, spring)

Mt 234 Vector Calculus and
Differential Equations 5 credits
Vector spaces; linear transformations; eigenvalues;
linear differential equations; systems of differential
equations; power series solutions. Prerequisite: Mt
233 (fall, winter, spring)

Mt 291 Special Topics 1-5 credits
Mt 292 Special Topics 1-5 credits
Mt 293 Special Topics 1-5 credits

Mt 296 Independent Study 1-5 credits
Mt 300 Methods for Secondary 5 credits

School Mathematics

Special topics in mathematics relevant to the high school curriculum; emphasis on basic concepts and foundations. Prerequisite: Mt 136 or permission of instructor. Prerequisite: permission.

Mt 315 Number Theory 5 credits

Divisibility and the Euclidean algorithm; congruences; quadratic reciprocity law; numerical functions; the Mobius inversion formula. Prerequisite: Mt 135.

Mt 321 Foundations of Euclidean
Geometry 5 credits
Axiomatic foundations of Euclidean accomplish rules

Axiomatic foundations of Euclidean geometry; ruler and compass constructions; problems of antiquity; the 5th postulate and non-Euclidean geometries. Prerequisite: Mt 135.

Mt 322 Topics in Geometry 5 credits
Selected topics in Advanced Geometry. May be repeated for credit with permission. Prerequisite: Mt 233 or permission.

Mt 351 Probability 5 credits

Basic concepts and theorems in probability theory;
the binomial, Poisson, normal and other fundamental probability distributions; moments; limit theorems. Prerequisite: Mt 233.

Mt 371 Introduction to Numerical Methods 5 credits
Approximation and errors; finite differences, numerical
integration; numerical solution of differential equations.
Three lecture and two computer laboratory hours per
week. Prerequisites: Mt 136 and ECS 113 or 114.

Mt 381 Elementary Topology 5 credits
Set theory; topology of the real line; topological spaces; compactness; connectedness; product spaces; metric spaces. Prerequisite: Mt 233. (spring of alternate years)

Mt 411 Introduction to Abstract Algebra I 5 credits
Mt 412 Introduction to Abstract Algebra II 5 credits
Mt 413 Introduction to Abstract Algebra III 5 credits
Theory of groups, rings, fields and field extensions; vector spaces and linear transformations; special topics. Prerequisites: Permission for 411; 411 for 412; 412 for 413. (offered in sequence: fall, winter, spring of alternate years)

Mt 431 Introduction to Real Analysis I 5 credits Mt 432 Introduction to Real Analysis II 5 credits Mt 433 Introduction to Real Analysis III 5 credits Rigorous introduction to real analysis; limits, continuity, differentiation of real functions; functions on metric spaces; applications of compactness and connectedness; Riemann-Stieltjes integrals; sequences and series of functions; elements of Lebesque theory. Prerequisites: Permission for 431; 431 for 432; 432 for 433. (Offered in sequence: fall, winter, spring of alternate years)

Mt 437 Introduction to Complex Variables 5 credits
The complex number system, analytic functions, integration, series, residues, conformal mapping.
Prerequisite: Mt 234.

Mt 491 Special Topics in Mathematics 2-5 credits
Mt 492 Special Topics in Mathematics 2-5 credits
Mt 493 Special Topics in Mathematics 2-5 credits
May be repeated for a maximum of 12 credits.
Prerequisite: Permission.

Mt 497 Independent Study 1-5 credits
Mt 498 Independent Study 1-5 credits
Mt 499 Independent Study 1-5 credits
May be repeated for a maximum of 10 credits.
Prerequisite: Permission.

Computer Science Courses

ECS 113 Fundamentals of BASIC Programming 5 credits
Introduction to the BASIC language. Overview of data
management, hardware, languages, packaged programs, and trends in computer usage. Laboratory using
the computing center. (fall, winter, spring)

ECS 114 Fundamentals of FORTRAN Programming 5 credits FORTRAN language including flowcharting, debugging, input/output, loops, sub-programs. Laboratory programming assignments in a variety of disciplines. Prerequisite: Mt 101 or equivalent. (winter, spring)

ECS 201 Introduction to Computer Science 5 credits
Fundamentals of computing and computer science.
Algorithms, programs, information representation, and computer organization are introduced. Prerequisite:
ECS 113 or ECS 114.

ECS 210 Intermediate Programming 5 credits

More advanced concepts and techniques of programming are introduced. Students will use a high level language to write intermediate level programs. Lecture and laboratory. Prerequisite: ECS 120, Mt 135.

ECS 220 COBOL Programming 5 credits

Language designed for business application. Prerequisite: ECS 113 or ECS 114.

ECS 291 Special Topics in Computer Science 1-5 credits

ECS 310 Fundamentals of Data Structures 5 credits

Basic concepts of data, linear, lists, linked lists, and arrays, representation of tree's and graphs; storage systems and structures, storage allocation and collection

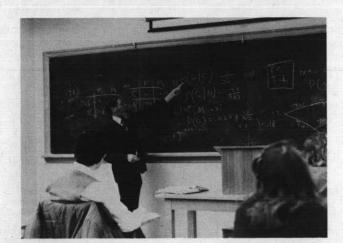

arrays, representation of trees and graphs; storage systems and structures, storage allocation and collection techniques. Applications to computing such as internal sorting and symbol table searching techniques. Prerequisite: ECS 210 or 220; Mt 136.

ECS 320 File Structures 5 credits
Record and file structures, characteristics of storage media, file manipulation techniques. Sequential, random, and indexed sequential files. Introduction to database systems. Lecture and laboratory. Prerequisite: ECS 310.

ECS 391 Special Topics in Computer Science 1-5 credits
ECS 396 Independent Study 1-5 credits
ECS 397 Independent Study 1-5 credits
ECS 398 Independent Study 1-5 credits
Prerequisite: Permission

ECS 420 Introduction to Database Systems 3 credits
Needs of database management systems (DBMS). Survey of DBMS and their use. Database architecture and design. Lecture and laboratory. Prerequisite: ECS 320

ECS 491 Special Topics in Computer Science 1-5 credits
ECS 496 Independent Study 1-5 credits
ECS 497 Independent Study 1-5 credits
ECS 498 Independent Study 1-5 credits
Prerequisite: Permission

Mechanical Engineering

Robert F. Viggers, M.S., Chairman

Objectives

The mechanical engineer is concerned with the fundamental properties of solids, liquids and gases related to the creative design and manufacture of machines, heat engines, electro-mechanical devices and control systems, and with the broad area of energy conversion as related to the design of machines. This requires working with the processes of combustion, nuclear and chemical reactions, solar radiation, propulsion systems for sea, land and space and all types of materials under a vast array of conditions.

A mechanical engineer may enter positions in research and development, design engineering, salesmanship, and, with experience, executive positions in industry.

The mechanical engineering program provides a broad engineering base, combining both theoretical and laboratory training.

Degrees Offered

Bachelor of Engineering
Bachelor of Mechanical Engineering
Certificate in Transportation Engineering — See Graduate
Bulletin
Master of Transportation Engineering — See Graduate
Bulletin

General Program Requirements

Students in mechanical engineering must satisfy core curriculum requirements of the University as given on page 18 of this bulletin for English, philosophy and theology and religious studies. Ten credits of history or social science are required.

Departmental Requirements

Bachelor of Mechanical Engineering — 65 credits in mechanical engineering which must include EML 105, 113, 281, 321 (or Ch 361, 363), 371, 380, 425, 426, 430, 472, 473, 484, 485, 487, 488 and 489. Also required are Mt 134, 135, 136, 233 and 234; ECL 321, 323, 331, 337 and 402; EEL 301; Ph 200, 201; and either Ph 202 or Ch 122, 132. With approval, qualified students may substitute equivalent or more advanced courses for those listed. This degree is approved by the Accreditation Board for Engineering and Technology. Required 300 level courses have Junior ME standing as a prerequisite except EML 430.

Bachelor of Engineering — 55 credits in engineering, 25 credits in mathematics, and at least 10 credits in physics, chemistry or biology. Not intended to be an entry-level degree into the engineering profession.

Bachelor of Mechanical Engineering

EML 292 Special Topics	1-5 credits
EML 293 Special Topics	1-5 credits

EML 321 Engineering Thermodynamics I

5 credits

Thermal properties of ideal and real gases, liquids, vapors and mixtures. Conservation of energy. Convesion of thermal energy to work. Power, efficiency, cycles, compressible gas flow. Prerequisite: ECL 331.

EML 371 Machine Design I

3 credits

Relation of engineering fundamentals and properties of materials to the design, layout and details of specific machines; computation techniques and use of digital and analogue computers. Prerequisites: ECL 323, 331.

EML 380 Heat Transfer I

5 credits

Heat transfer—conduction, convection, and radiation. Conduction in one and two dimensions, steady state and transient. Forced and natural convection with phase change. Applications. Four lecture hours, one four-hour laboratory per week. Prerequisite: EML 321. (spring)

EML 425 Power Plants I

Foredit

Thermodynamics applied to ideal and real cycles, internal and external combustion engines, fans, blowers, compressors, nozzles, refrigeration, air conditioning, liquifaction of gases. Four lectures, one four-hour laboratory per week. Prerequisite: EML 321.

EML 426 Power Plants II

5 credits

Thermodynamics, heat transfer, fluid mechanics applied to design of modern thermal power stations and auxiliaries with economic and ecologic integration into regional power systems. Four lectures, one four-hour laboratory per week. Prerequisite: EML 425.

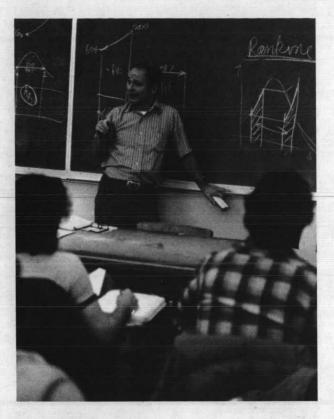

EML 428 Environmental Engineering

4 credits

Man-machine systems. Engineer's approach to multi-disciplinary aspects of environmental control. Psychological and physiological principles of one's interrelation with the surroundings. Three lectures, one four-hour laboratory per week. Prerequisite: EML 321.

EML 430 Principles of the Properties of Materials I 5 credits

Atomic structure. Metallic bond. Structure of metals and non-metals. Equilibrium diagrams. Time-dependent transformations. Relation of structure to properties. Elastic and plastic deformation. Three lectures, one four-hour laboratory per week. Prerequisite: Junior engineering standing.

EML 472 Machine Design II 3 credits
EML 473 Machine Design III 3 credits
EML 474 Machine Design IV 1-5 credits

II. Philosophy of design, a creative approach, and a comprehensive design project; planning, organizing and leading an engineering project; exercising judgment and considering economic factors. III. Integrated aspects of creative design and analysis; case studies; design of a novel device or system; electromechanical, hydraulic and pneumatic systems; energy conversion. IV. Project work. Prerequisites: EML 371 for 472; 472 for 473; 473 for 474.

EML 477 Experimental Mechanics 1-5 credits

Measurements by means of mechanical, electric, magnetic, optical sensing devices. Control systems. Vibration, shock and impact measurements. Interpretation of results. Prerequisites: ECL 337, EML 371.

EML 478 Compressible Flow I 5 credits

One-dimensional gas dynamics including flow in nozzles and diffusers, normal shocks, frictional flows and flows with heat transfer and energy release. Prerequisites: ECL 331, EML 321.

EML 479 Theoretical Hydrodynamics 5 credits

Ideal fluid motion. Euler's equation. Potential flow. LaPlace equation. Hydrodynamics singularities, two and three dimensional flow. Conformal transformation. Flow around objects. Prerequisite: Permission.

EML 481 Heat Transfer II 5 credits

Advanced topics in conduction, convection, and radiation. Mass transfer and diffusion. Four lectures, one four-hour laboratory per week. Prerequisite: EML 380.

EML 484 Linear Systems Analysis

5 credits

Dynamics of linear systems. Classical and transform methods of differential equation analysis. Experimental methods. Analog and digital computer methods. Four lectures, one four-hour laboratory per week. Prerequisite: Junior engineering standing.

EML 485 Control Systems I

5 credits

Feedback control system analysis. System elements and their transform functions. Criteria and plots. Analog and digital computer simulation. Four lectures, one four-hour laboratory per week. Prerequisite: EML 484 (spring)

EML 487	Seminar 1	2 credits
EML 488	Seminar 2	2 credits

EML 489 Seminar 3

Development of oral and written communication skills through preparation and presentation of a technical paper. Prerequisite: Senior ME standing.

EML 491	Special Studies	2-5	credits
	Special Studies	2-5	credits
	Special Studios	2-5	credite

EML 495 Thesis

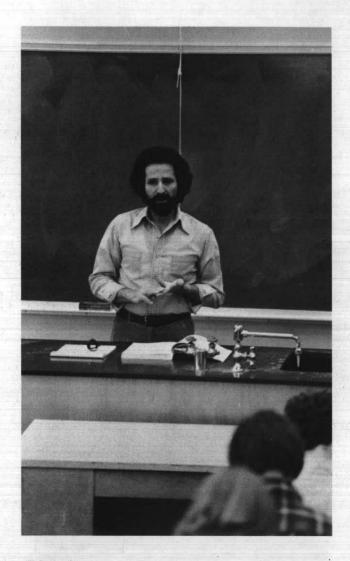

1-6 credits

In special cases a thesis may be substituted in place of seminar with the approval of the department chairman. Prerequisite: Senior ME standing.

EML 496 Independent Study	1-5 credits
EML 497 Independent Study	1-5 credits
EML 498 Independent Study	1-5 credits

Selected subjects of current interest in mechanical engineering; assigned reading and/or experiments on an individual basis in consultation with the instructor; written report and oral delivery required. Prerequisite: Senior ME standing.

Physics Reed A. Guy, Ph.D., Chairman

Objectives

The Physics department offers two degree programs. For those who wish a career in physics, the Bachelor of Science in Physics program takes the student from classical mechanics through quantum mechanics, including advanced laboratory courses emphasizing nuclear and nuclear reactor physics. This curriculum is designed to prepare students for advanced work in pure and applied physics or for graduate study. The Bachelor of Arts program is ideal for those who desire a solid background in physics along with a broad liberal arts education.

Degrees Offered

Bachelor of Arts Bachelor of Science in Physics

General Program Requirements

Students majoring in physics must satisfy the core curriculum requirements of the University as given on page 18 of this Bulletin, except that for the Bachelor of Science in Physics degree, 15 credits of history and/or social science are required.

Bachelor of Arts — 45 credits in physics which must include Ph 200, 201, 202, 203, 310, 330 and 375. A minimum of 15 additional credits in a related science is required.

Bachelor of Science in Physics — 60 credits in physics, which must include Ph 200, 201, 202, 203, 310, 311, 330, 481, and 485. Ten credits, approved by the student's adviser, in related science are required. Mathematics 134, 135, 136, 233, and 234 are required. Ph 110 and 111 may not be counted toward the 60 credits.

Teaching Major (School of Education) — 45 credits in physics and mathematics; 30 credits in physics which must include Ph 105, 106, 107, 110, and 10 elective credits. Ph 200, 201, 202 may be taken in place of 105, 106, 107 for those students who desire a more rigorous background in general physics. The required 15 credits in mathematics must include 10 credits in calculus and computer. (Mt 134, ECS 114).

Undergraduate Minor — 30 credits in physics which must include either Ph 105, 106, 107 or Ph 200, 201, 202, 203. Ph 110, and 111 may not be counted toward the minor.

Bachelor of Science in Physics

Freshman year Physics 200		5 credits
Core options		. 20 credits
Sophomore year Physics 201, 202, 203 Mathematics 233, 234 Core options Electives		. 10 credits . 15 credits
Junior year Physics 310, 311, 330, 331		5 credits 5 credits .10 credits
Senior year Physics 481, 485 Physics electives Related science elective Core options Electives		9 credits 5 credits 5 credits
	Total	180 credits

Physics Courses

Note: Ph 105, 106, 107, 200, 201, 202, 290, 375, and 475 have four lectures and one laboratory per week. All other physics courses have five lectures per week except as noted.

Ph 105 Mechanics and Sound 5 credits

Non-calculus survey of classical mechanics. Statics, kinematics, and dynamics of particles and systems; fluids; harmonic motion, waves, and sound. Prerequisite: Mt 112 or equivalent. (fall)

- Ph 106 Electricity and Magnetism 5 credits
 Survey of electromagnetism. Electrostatics,
 magnetostatics, electromagnetic fields, dc and ac
 circuits, introduction to thermodynamics. Prerequisite: Ph 105. (winter)
- Ph 107 Survey of Modern Physics 5 credits
 Optics, including reflection, refraction, interference, diffraction and polarization. Introduction to atomic and
 nuclear physics. Prerequisite: Ph 106 (spring).
- Ph 110 Introduction to Astronomy of the Solar System 5 credits

 Apparent motions of heavenly bodies. Real motions and physical properties of the sun, moon, planets, and minor bodies of the solar system; telescopic observation available. Core science option.
- Ph 111 Introductory Stellar Astronomy 5 credits
 Survey of the nature and evolution of the stars; neutron stars, pulsars, black holes; nebulae, galaxies, quasars; the origin and evolution of the universe; telescopic observation available. Core science option.
- Ph 200 Mechanics 5 credits

 Vector mathematics; kinematics; conservation of momentum and collisions; relative motion and reference frames; force and Newton's laws; work, energy, and power; rotational dynamics; rigid body motion, gravitation. Prerequisite: Mt 134. (spring)
- Ph 201 Electricity and Magnetism 5 credits
 Electric charge, forces, fields, flux; Gauss' law; electric
 potential; conductors, dielectrics, capacitance; current
 and resistance; DC circuits; magnetic forces, fields;
 inductance. Prerequisites: Ph 200 and Mt 135. (fall)
- Ph 202 Waves, Optics and Thermodynamics 5 credits
 Harmonic Motion; mechanical and electromagnetic
 waves; reflection, refraction, dispersion, interference, diffraction and polarization. Temperature, ideal gases, kinetic theory, second law of thermodynamics. Prerequisite: Ph 201. (winter)
- Ph 203 Modern Physics 5 credits
 Special relativity; Kinetic Theory; the nuclear atom;
 wave-particle duality; the uncertainty principle; the
 Schrodinger equation and its applications. Prerequisites: Ph 202, Mt 136 (spring).
- Ph 290 Measurement and Instrumentation
 Fundamentals 5 credits
 Measurement of quantities such as flow, position, strain, radiation, velocity, current, power, temperature, voltage. Conversion by transducers into electrical signals and processing for recording, observation or control. Prerequisites: Mt 134 and Ph 106 or 201.
- **Special Topics** Ph 291 1-5 credits Ph 292 **Special Topics** 1-5 credits Ph 293 **Special Topics** 1-5 credits Ph 296 **Independent Study** 1-5 credits Ph 297 **Independent Study** 1-5 credits Ph 298 Independent Study 1-5 credits

Directed reading and/or lectures at a lower division level. Prerequisite: Permission of instructor.

- Ph 310 Intermediate Mechanics I 5 credits

 Vector calculus; kinematics of a particle: one-dimensional motion of a particle; two and three dimensional dynamics of a particle; moving reference systems; central forces and celestial mechanics. Prerequisites: Ph 200, Mt 234.
- Ph 311 Intermediate Mechanics II 3 credits
 General motion of a rigid body; Lagrange's equations;
 small vibrations. Prerequisite: Ph 310.
- Ph 330 Electricity and Magnetism I 5 credits
 Static electric fields in vacuum and material media;
 solutions of Laplace's and Poisson's equations in
 curvilinear coordinates; static magnetic fields; timevarying fields and Maxwell's equations. Prerequisites: Ph 201, Mt 234. (winter)
- Ph 331 Electricity and Magnetism 3 credits

 Derivations and solutions of wave equations; plane waves in vacuum and material media; fields of a moving charge. Prerequisite: Ph 330.
- Ph 350 Acoustics 3 credits
 Oscillation; waves; relfection and refraction of sound waves; attenuation; superposition of acoustical waves; ultrasonics. Prerequisites: Ph 107 or equivalent, Mt 131 or 134, enrollment in Allied Health Technology or permission. (fall)
- Ph 361 Solid State Physics and Devices 5 credits
 Crystal structure and defects; interatomic binding;
 thermal and electrical properties; energy bands, carrier statistics and carrier transport phenomena.
 Semiconductor devices. Prerequisite: Ph 203. (fall)
- Ph 375 Nuclear Instrumentation 5 credits
 Ionizing radiation. Nuclear decay processes, interaction of radiation with matter, instrumentation for
 the detection of photons, charged particles, and
 neutrons. Prerequisite: Ph 107 or Ph 202.

Ph 391	Special Topics	1-5 credits
Ph 392	Special Topics	1-5 credits
Ph 393	Special Topics	1-5 credits
Ph 396	Independent Study	1-5 credits
Ph 397	Independent Study	1-5 credits
Ph 398	Independent Study	1-5 credits

Ph 470 Nuclear Physics 5 credits
Structure and properties of nuclei and elementary particles; symmetries and conservation laws; electromagnetic, weak, and hadronic interactions; nuclear models. Prerequisite: Ph 485. (spring)

Ph 475 Nuclear Fission and Fusion Reactors 5 credits
Physics of fission and fusion reactors; experiments
on operational parameters of fission reactors.
Discussion of environmental impact. Prerequisites:
Ph 203 and junior standing or permission.

Ph 481 Theoretical Physics 5 credits
Topics in theoretical physics selected from statistical,
thermal, and modern physics. Prerequisites: Ph 310
and 330.

Ph 485 Quantum Mechanics 5 credits
Wave-particle duality, the state function, the Schrodinger equation, one-dimensional problems, the operator
formalism, matrices, central forces, angular momentum,
spin, identical particles. Prerequisites: Ph 203 and Mt
234, or permission.

Ph 491	Special Topics	1-5 credits
Ph 492	Special Topics	1-5 credits
Ph 493	Special Topics	1-5 credits
Ph 496	Independent Study	1-5 credits
Ph 497	Independent Study	1-5 credits
Ph 498	Independent Study	1-5 credits

Premedical and Predental

Thomas W. Cunningham, Ph.D., Adviser

Students wishing to enter professional schools of human, dental, or veterinary medicine or graduate schools in biomedical studies, should matriculate in a program of studies leading to a bachelor's degree in any academic field which will give a broad training in the liberal arts and allow them to fulfill the proper requirements in the physical and biological sciences. Premedical students may choose any academic major; most students elect biology, chemistry, physics, general science or psychology. Within the framework of any one of the degree programs, students obtain strong backgrounds in the liberal arts through the core curriculum. For further clarification of degree requirements and the core curriculum, see page 18 of this bulletin.

Most medical, dental or veterinary schools require the following undergraduate science sequences: Chemistry 121, 122, 123, 131, 132, 133, 241, 242, 243, 251, 252; Biology 165, 166, 167, 310 and 326, 327 or 280, 330 (Bl 300 is required for pre-dental students); and Physics 105, 106, 107. Bl 270, 231 and 350 are highly recommended. Professional schools also recommend calculus, biochemistry, or physical chemistry. Students are advised to consult the bulletins of the professional schools to which they wish to apply to acquaint themselves with specific requirements other than those listed. Students should plan to complete preprofessional requirements by the end of their junior year, at which time they should take the MCAT or DAT tests. Application for admittance to professional schools should be made during the summer or fall of the senior year.

GRADUATE SCHOOL

Graduate School Marylou Wyse, Ph.D., Dean

Graduate studies directed toward the master's degree were first offered at Seattle University in 1910 in a division of its College of Arts and Sciences. In 1935, graduate courses became an integral part of the University's teacher education program. As the demand for specialization increased, additional graduate programs were devloped. In 1976, the first doctoral program was implemented, and in 1980 the educational specialist degree was approved.

Objectives

Graduate School programs endeavor to offer advanced in-depth education to individuals seeking specialized knowledge and skills in a particular field. Graduate students are encouraged to develop high level thinking abilities including application and synthesis which, in turn, can be translated into effective speaking and writing. Expertise in the examination of ethical and value-laden issues in various fields is an important component of graduate education at Seattle University.

Efforts are made to stimulate participants' curiosity while at the same time providing the investigative skills needed to seek answers to challenging questions. It is hoped that individuals who complete graduate programs will have developed personal and professional competencies that will contribute to the improvement of their field and to the betterment of those whom they serve.

Organization

The Dean of the Graduate School and the Graduate Council are responsible for administration of the Graduate School and supervision of all programs leading to the master's educational specialist and doctoral degrees. The Dean of the Graduate School and the Council establish and maintain requirements for degrees according to the recommendations of the graduate committee of each school of the University.

The component schools and various departments provide courses of instruction for graduate students, direct their studies, conduct examinations, maintain requirements and make recommendations. Academic transactions involving admission, registration and awarding of degrees are supervised by the University's Registrar. Actual admission to graduate study is granted through the Dean of the Graduate School in consultation with the appropriate graduate program director.

Degrees Offered

For admission and program requirements see the Seattle University Graduate Bulletin.

Graduate Degrees offered by the University are:

ARTS AND SCIENCES

Master of Arts—Psychology Master of Arts—Rehabilitation Master of Ministry (summer only) Master of Pastoral Ministry

Master of Religious Education (summer only)

BUSINESS

Master of Business Administration

EDUCATION

Master of Arts in Education Master of Education

These two degrees may be earned with specialization in the following areas: administration, adult education, counseling, curriculum and instruction.

Master of Counseling Educational Specialist Doctor of Education

PUBLIC SERVICE Master of Public Administration

SCIENCE AND ENGINEERING

Master of Software Engineering Master of Transportation Engineering

Board of Trustees

Robert D. O'Brien, Chairman Univar Corporation

Genevieve Albers Seattle, Washington

John K. Blume, President University Enterprises, Inc.

Emmett H. Carroll, S.J., Assistant Professor of English Seattle University

Michael M. Dorcy, S.J., Assistant Professor of History Seattle University

John Durbin, President Cummins Northwest Diesel, Inc.

John H. Gray, S.J., Academic Vice President St. Louis University

Thomas F. Healy, S.J.
President, Matteo Ricci College

Gene E. Lynn
The Careage Corporation

Harry Mullikin, Chairman and Chief Executive Officer, Westin Hotels

Nancy S. Nordhoff Bellevue, Washington

Robert L. Sheeran, Senior Resident Vice President Merrill, Lynch, Pierce, Fenner & Smith

Charles Z. Smith, Professor of Law University of Washington Law School

William J. Sullivan, S.J.
President, Seattle University

Joseph A. Tetlow, S.J., Scholar-in-Residence Jesuit House of Studies, New Orleans

G. Robert Truex, Jr., Chairman Rainier National Bank

J. Kevin Waters, S.J., Professor of Music Seattle University

Ann Wyckoff Seattle, Washington

Board of Regents

Joseph R. Curtis, Chairman
Vice Chairman, Seattle-First National Bank

Genevieve Albers Seattle, Washington

Thomas J. Bannan (Emeritus) Indian Wells, California

Sheldon Best, Vice President Northwest Region, United Air Lines

John A. Beyer, President The Beyer Corporation

Peter Bigelow, Administrator Providence Medical Center

William E. Boeing, Jr., Chairman Tri-Land Corporation

Eugene Brenner Janin, Morgan & Brenner

Cliff Burglin Fairbanks, Alaska

William Clancy, Senior Vice President First Interstate Bank Patrick S. Clark, Director of Education Archdiocese of Seattle

Dorothy Cordova, Director Demonstration Project for Asian Americans

Ralph M. Davis, Chairman Puget Sound Power & Light

Michael Dennehy, Resident Manager E. F. Hutton & Company

Brian Ducey, Vice President and Manager Loaned Services Divison, Seattle-First National Bank

Patrick Fahey, Regional Vice President Old National Bank

Virgil Fassio, Publisher
The Seattle Post-Intelligencer

Carlos Flohr (Emeritus) Seattle, Washington

Joseph M. Gaffney Foster, Pepper and Riviera

Walter T. Hubbard

Board of Prison Terms and Paroles

James T. Hughes Seattle, Washington

D. John Jolly John F. Sullivan Company

Rhoady Lee, Sr. Lakeside Industries

Jeanette Lowden, President Seattle University Guild

Dorothy Lynch Bremerton, Washington

Gene E. Lynn
The Careage Corporation

Mary Malarkey, Contributions Director Safeco Corporation

Frank McCord, Managing Partner Peat, Marwick, Mitchell and Company

Joseph McGavick, Director Deloitte, Haskins & Sells

John McMillan, Executive Vice President Nordstrom

David L. Moberly, Executive Director Seattle Foundation

John A. Moga Arthur Andersen & Company

Robert D. O'Brien, Chairman Univar Corporation

Thomas O'Connell Bellevue, Washington

Donald Phelps, President Seattle Central Community College

Charles Riley, Senior Vice President Peoples National Bank

Celeste Rogge Seattle, Washington

Rosanne Royer Seattle, Washington

William Ruckelshaus, Senior Vice President Weyerhaeuser Company Millie Russell, Director Pre-Professional Program for Minority Students in Health Sciences, University of Washington

Valerie Ryan Cannon Beach, Oregon

Mary Ann Sauvage Seattle, Washington

S. Josef Selak, President Prudential Mutual Savings

Robert L. Sheeran, Senior Resident Vice President Merrill, Lynch, Pierce, Fenner & Smith, Inc.

Joseph Silva, Senior Vice President Bank of California

Lois Spellman
Olympia, Washington

William J. Sullivan, S.J., President Seattle University

James Walsh, Senior Vice President Allied Stores

John Walsh, Jr. President Seattle University Alumni Board of Govenors

George Weigel
World Without War Council

William Weisfield, Vice President Schoenfeld Industries

Frederic S. Weiss, Vice President & Manager Coldwell Banker Commercial Real Estate Services

James Williams, Executive Director Seattle Opportunities Industrialization Center

William P. Woods (Emeritus) Seattle, Washington

University Administration

William J. Sullivan, S.J., Ph.D., D.D., President

Gary A. Zimmerman, Ph.D. Executive Vice President

Marylou Wyse, Ph.D.
Acting Vice President for Academic Affairs

William E. Hayes, S.J., M.A.
Vice President for Administration

Virginia L. Parks, Ph.D.
Vice President for Finance and Treasurer

Kenneth R. Nielsen, Ed.D. Vice President for Student Life

Gregory F. Lucey, S.J., Ph.D.
Vice President for University Relations and Planning

Academic Affairs

William F. LeRoux, S.J., M.A., S.T.D. Dean, College of Arts and Sciences

John D. Eshelman, Ph.D.
Dean, Albers School of Business

Gary H. Zarter, Ph.D.
Acting Dean, School of Education

Patricia A. Ferris, Ph.D., Dean, School of Nursing

Terry J. van der Werff, D.Phil.
Dean, School of Science and Engineering

Marylou Wyse, Ph.D. Dean, Graduate School Edwin H. Weihe, Ph.D. Dean, Matteo Ricci II

Esther Ray Mills, Ph.D.

Acting Director, Institute of Public Service

Timothy F. Cronin, S.J., M.Ed. Administrative Assistant to the Vice President for Academic Affairs

Michael V. Fox, M.A. Director of Admissions

Mary Alice Lee, B.A. Registrar

Joseph B. Monda, Ph.D.

Director, Continuing Education and Summer School

Mary Margaret Ridge, B.A. Director, General Studies

Lawrence E. Thomas, M.A.L.S. University Librarian

Administrative Services

James I. Adolphson, B.A.B.A. Budget Director

Janet R. Crombie Director, Financial Aid

Anna E. Dillon, Director of Personnel

Robert W. Fenn, B.A. Chief of Security

George C. Hsu, M.A. Director, Computer Systems

Jerome C. Pederson, B.A. Director, University Bookstore

Henry J. Sommer, Jr., B.A. Manager, Physical Plant

Neil A. Sullivan, B.A.B.A., Controller

Kip Toner, B.C.S., Business Manager

Student Life

Penny Aves, Ph.D. Director, Counseling Center
David W. Boisseau, M.D. Director, Health Center
Minnie A. Collins, M.A. Director, Minority Student Affairs
Curt DeVere, B.A. International Student Adviser
William Eddy, M.A. Director, Child Care Center

Lyle Geels, G.A. Director, Saga Food Service

Joan Harte, O.P., M.Ed., M.F.A., M.A. Director, Campus Ministry

R. Rees Hughes, M.A. Director of Student Activities Sara B. Hull, Ph.D.

Director, McGoldrick Center and Career Planning

Richard A. McDuffie, Ph.D. Director, University Sports Judith Lee Sharpe, M.A.

Director, Resident Student Services

Donna Vaudrin, M.A. Dean for Students

University Relations and Planning

Mark Burnett, B.A.

Director of Public Relations

Steven C. Kocharhook, Ph.D. Director for Planned Gifts

Jean Merlino, B.A.

Director of University Publications

Frank J. Palladino, M.S.
Director of Development

George A. Pierce, Ph.D. Director of Planning

Barbara Schneeman, M.A. Director of Alumni Relations

FACULTY

The dates following faculty names indicate initial and subsequent appointments or return from leave to the University faculty. Asterisks preceding names denote faculty members on leave of absence. Daggers (†) following names indicate Graduate School faculty members.

Clarence L. Abello, B.Econ. (1953)

Professor Emeritus

B.Econ., 1933, University of London; Contrador Publico Nacional, 1937, Universidad Nacional de Buenos Aires, Facultad de Ciencias Economicas.

Josef C. Afanador, Ed.D. (1975)†

Associate Professor of Rehabilitation B.A., 1963, Butler University; M.S., 1967, Purdue University; Ed.D., 1971, University of Arizona.

Richard H. Ahler, S.J., S.T.D. (1977)†

Chairman, Theology and Religious Studies Associate Professor of Theology and Religious Studies

A.B., 1954, Ph.L., 1956, St. Louis University; M.A., 1957, Marquette University; S.T.L., 1963, St. Louis University; S.T.D., 1975, Gregorian University.

Mary A. Alberg, Ph.D.. (1979)

Assistant Professor of Physics

B.A., 1963, Wellesley College; M.S., 1970, Ph.D., 1974, University of Washington.

Julian B. Andersen, Ph.D. (1970)† Associate Professor of Business

A.S., 1958, Weber State College; B.S., 1960, Ph.D., 1966, Utah State University.

Gary L. Atkins, M.A. (1978)

Chairman, Journalism Department Assistant Professor of Journalism

A.B., 1971, Loyola University; M.A., 1972, Stanford University.

Engelbert M. Axer, S.J., Ph.D. (1941; 1955; 1971)

Professor Emeritus

A.B., 1930, Valkenburg, Holland; S.T.L., 1940, St. Louis University; M.A., 1941, Gonzaga University; Ph.D., 1949, Georgetown University.

Joan P. Baker, M.S.R.-R.D.M.S. (1977) Director, Allied Health Technology

Assistant Professor of Allied Health Member Society Radiographers, England, 1960; American Registry Diagnostic Medical Sonographers, 1975.

Mary C. Bartholet, M.S. (1958; 1965) Associate Professor of Nursing B.S., 1949, College of St. Teresa; M.S., 1958, St. Louis University.

Ernest P. Bertin, S.J., Ph.D. (1957; 1964; 1971)

Professor of Chemistry

A.B., 1944, M.A., 1945, Gonzaga University; S.T.L., 1952, Alma College; Ph.D., 1957, University of Notre Dame.

Francis X. Bisciglia, S.J., M.A. (1963)

Professor Emeritus

A.B., 1938, M.A., 1939, Gonzaga University; S.T.L., 1947, St. Louis University; M.A., 1952, Fordham University.

*Roger E. Blanchette, S.J., M.A. (1966)†
Assistant Professor of Theology and Religious Studies
A.B., 1957, M.A., 1959, Gonzaga University; S.T.B., 1965, Alma College; M.A., 1965, University of Santa Clara.

Leslie A. Blide, B.A. (1979)

Instructor in Health Information B.A., 1950, Mount Holyoke College.

Dorothy G. Blystad, M.Ed. (1963)

Assistant Professor of Education

B.A., 1947, Colorado University; M.Ed., 1978, Seattle Pacific University.

Hamida H. Bosmajian, Ph.D. (1966; 1974)

Professor of English

B.A., 1961, University of Idaho; M.A., 1962, Ph.D., 1968, University of Connecticut.

David Brubaker, Ph.D. (1980)

Assistant Professor of Biology

B.S., 1966, University of Redlands; M.S. and Ph.D., 1972, University of

Susanne M. Bruyere, Ph.D. (1975)

Associate Professor of Rehabilitation

B.A., 1970, D'Youville College; M.S.Ed., 1972, University of Southern California; Ph.D., 1975, University of Wisconsin.

John P. Burke, Ph.D. (1967; 1977)†

Chairman, Philosophy Department

Associate Professor of Philosophy

B.A., 1965, Gonzaga University; M.A., 1967, St. Louis University; Ph.D., 1978, University of Louvain.

Norma Jean Bushman, M.N. (1960)

Associate Professor of Nursing

B.S.N, 1959, M.N., 1960, University of Washington.

J. Gerard Bussy, S.J., Ph.D. (1948)

Professor Emeritus L.Ph., 1933, S.T.L., 1937, Gregorian; M.A., 1952, Seattle University; Ph.D., 1957, University of Washington.

Robert E. Callahan, Ph.D. (1977)†

Assistant Professor of Business

B.S., 1967, M.B.A., 1969, Drexel University; Ph.D., 1977, Case Western Reserve University.

Eugene R. Carey, Ph.D. (1980)

Associate Professor of Business

B.A., 1959, M.A. 1963, Eastern Washington University; Ph.D., 1968, University of Iowa

Robert J. Carmody, S.J., Ph.D. (1943)

Professor Emeritus

A.B., 1931, M.A., 1932, Gonzaga University; S.T.L., 1939, Alma College: Ph.D., 1949, University of Washington.

Emmett H. Carroll, S.J., Ph.D. (1973; 1977)

Assistant Professor of English

B.A., 1955, Gonzaga University; M.A., 1963, Gregorian University; M.A., 1966, Rutgers University; Ph.D., 1980, Carnegie-Mellon University

Frank E. Case, S.J., Ph.D. (1975)†

Assistant Professor of Business

A.B., 1962, M.A., 1965, Ph.L., 1965, St. Louis University; S.T.M., 1970, University of Santa Clara; Ph.D., 1980, Washington University.

Ben Cashman, Ph.D. (1962; 1967) Professor of Political Science

B.A., 1949, University of Washington; M.A., 1950, Fletcher School of Law and Diplomacy; Ph.D., 1969, University of Washington.

Gary L. Chamberlain, Ph.D. (1979)†

Director, SUMORE Program

Associate Professor of Theology and Religious Studies B.A., 1962, Ph.L., 1963, St. Louis University; M.A., 1967, University of Chicago; Ph.D., 1973, Graduate Theological Union.

Chu Chiu Chang, M.A. (1956) Associate Professor of Mathematics

A.B., 1942, Central Political Institute, Chungking, China; M.A., 1956, University of Washington.

John P. Chattin-McNichols, Ph.D. (1979)†

Assistant Professor of Education

A.B., 1973, University of California at Los Angeles; Ph.D., 1979, Stanford University.

Percy H. Chien, Ph.D. (1976)

Associate Professor of Civil Engineering

B.S.C.E., 1962, National Taiwan University; M.S.C.E, 1967, University of Houston; Ph.D, 1972, Clemson University.

Louis K. Christensen, Ph.D. (1965)

Professor of Music

B.A., 1954, M.A. (Mus.) 1956, Ph.D., 1961, University of Washington.

Janet M. Claypool, M.N. (1966)

Professor of Nursing

B.S.N., 1959, M.N., 1960, University of Washington.

Gerald L. Cleveland, Ph.D. (1967; 1977)†

Professor of Accounting

B.S.B.A., 1953, University of South Dakota; M.B.A., 1957, University of Minnesota; Ph.D., 1965, University of Washington.

Mary Cobelens, M.L. (1971)

Assistant Librarian

B.A., 1959, Central Washington State; M.L., 1971, University of Washington.

Paul P. Cook, Jr., Ph.D. (1962)

Associate Professor of Biology

B.A., 1951, M.A., 1952, University of Kansas; Ph.D., 1962, University of California.

Constance D. Cooper, Ed.D. (1979)†

Assistant Professor of Education

B.A., 1953, University of Michigan; M.A., 1963, Ed.D., 1971, Wayne State University.

Robert H. Cousineau, S.J., Docteur (1975)†

Professor of Philosophy

B.A., 1953, M.A., 1954, Boston College; Ph.L., 1954, Weston College; S.T.L., Woodstock College; Docteur, 1969, University of Paris.

Thomas W. Cunningham, Ph.D. (1959; 1965)

Professor of Psychology

B.A., 1956, Seattle University; M.S., 1959, Ph.D., 1966, University of Portland

Nikolas J. Damascus, M.F.A. (1951)

Professor of Art

B.F.A., 1944, M.F.A., 1947, Art Institute of Chicago.

Margaret Mary Davies, Ph.D. (1955; 1971)

Professor Emeritus

A.B., 1938, Ph.D., 1960, University of Washington.

George D. Davis, M.S. (1969)

Associate Professor of Biology

B.S., 1956, M.S., 1960, University of Tulsa.

Verelle M. Davis, M.S. (1972)

Assistant Professor of Nursing

B.S., 1959, University of Washington; M.S., 1970, Catholic University.

Rosario T. DeGracia, M.S. (1963)

Associate Professor of Nursing

B.S.N., 1954, University of the Philippines; M.S., 1959, Western Reserve University.

C. Frederick DeKay, Ph.D. (1980)+

Assistant Professor of Business

B.A., 1972, University of Washington; Ph.D., 1979, Johns Hopkins University.

Robert J. Deltete, M.A. (1978)

Instructor in Philosophy

B.A., 1969, Seattle University; M.A., M.A., M. Phil., 1976, Yale University.

Bonnie Jean Denoon, Ph.D. (1975)†

Assistant Professor of Education

B.A., 1961, M.Ed., 1966, Wichita State University; Ph.D., 1975, Peabody College.

Khalil (Charles) Dibee, Ph.D. (1964)†

Professor of Finance

B.S., 1956, University of Detroit; M.B.A., 1958, Ph.D., 1962, University of Texas.

Joseph P. Donovan, S.J., Ph.D. (1948; 1966)

Professor Emeritus

A.B., 1938, Gonzaga University; M.A., 1940, Georgetown University; Ph.D., 1948, University of Pennsylvania.

Michael M. Dorcy, S.J., Ph.D. (1978)

Assistant Professor of History

A.B., 1962, M.A., 1967, Ph.L., 1969, St. Louis University; M. Div., 1970, St. Mary's University; S.T.B., 1970, College d'Immaculee Conception; Ph.D., 1978, University of Pennsylvania.

William J. Dore, Jr., M.A. (1963)

Professor of Drama

B.A., 1954, M.A., 1957, University of Washington.

Robert J. Egan, S.J., Ph.D. (1964; 1972)†

Associate Professor of Theology and Religious Studies

B.A., 1955, Gonzaga University; S.T.L., M.A., 1963, St. Mary's University; Ph.D., 1973, Fordham University.

Mary B. Ehlers, Ph.D. (1974)

Chairman, Mathematics

Associate Professor of Mathematics

B.A., B.A. in Ed., 1964, Western Washington State College; M.A., 1966. Ph.D., 1969, Washington State University.

John D. Eshelman, Ph.D. (1969)†

Dean, Albers School of Business

Professor of Economics

B.S., 1963, Harding College; M.A., 1967, Ph.D., 1971, University of Washington.

Patricia Ann Ferris, Ph.D. (1967)

Dean, School of Nursing

Professor of Nursing

B.S., 1951, St. Mary's College, Indiana; M.S., 1958, Western Reserve University; Ph.D., 1972, University of Washington.

Lewis Filler, D. Eng. Sci. (1962; 1978)†

Professor of Mechanical Engineering

B. Aero. Eng., 1953, M. Aero. Eng., 1954, D. Eng. Sci., 1958, New York University.

Alice L. Fisher, M.S.P.H. (1950)

Professor Emeritus

B.S.N., 1930, University of Minnesota; M.S.P.H., 1936, University of Michigan.

Linda C. Fitzpatrick, Ph.D. (1978)

Assistant Professor of Public Service

A.B., 1967, Radcliffe/Harvard; M. Urb. Plan., 1974, Ph.D., 1978, University of Washington.

C. Patrick Fleenor, Ph.D. (1973)†

Associate Professor of Business

B.A., 1969, Boise State College; M.B.A., 1970, Ph.D., 1975, University of Washington.

Winfield S. Fountain, Ed.D. (1957)

Professor Emeritus

B.A., 1939, North Idaho College of Education; M.Ed., 1953, Ed.D., 1956, University of Washington.

Eric C. Frankel, Ph.D. (1980)†

Assistant Professor of Software Engineering B.A., 1968, Cornell University; M.S., 1968, Purdue University; Ph.D., 1972, University of Maryland.

Kay A. Frey, M.N. (1980)

Instructor in Nursing

B.S., 1973, University of Oregon; M.N., 1976, University of Washington.

Louis Gaffney, S.J., Ph.D. (1956)

Professor of Psychology

A.B., 1942, M.A., 1943, Gonzaga University; S.T.L., 1950, Alma College; Ph.D., 1956, University of Minnesota.

Lane A. Gerber, Ph.D. (1980)†

Associate Professor of Psychology

B.S., 1960, Franklin and Marshall College; Ph.D., 1968, University of Chicago.

Karen A. Gilles, M.L.S. (1981)

Junior Librarian

B.A., 1968, University of Illinois; M.L.S., 1978, University of Washington.

James P. Goodwin, S.J., M.A. (1950; 1966)

Professor Emeritus

B.A., 1937, M.A., 1938, Gonzaga University; M.A., 1950, Harvard University.

Lynne D. Green, M.S.E.E. (1979)

Instructor in Electrical Engineering

B.A., 1974, Western Washington State College; M.S., 1975, M.S.E.E., 1978, University of Washington.

Kathye Jean Grisham M.N. (1976)

Assistant Professor of Nursing

B.S., 1965, University of Wisconsin; M.N., 1967, University of Washington.

Kristen E. Guest, Ph.D. (1981)†

Assistant Professor of Education

B.A., B.S., 1965, University of Minnesota; M.A., 1967, Ph.D., 1970, University of Wisconsin.

William A. Guppy, Ph.D. (1952)

Professor of Psychology

Ph.B., 1950, Seattle University; M.A., 1953, Ph.D, 1959, Loyola University, Chicago.

Reed A. Guy, Ph.D. (1975)

Chairman, Physics Department

Associate Professor of Physics

B.S., 1966, University of Alabama; Ph.D., 1970, University of Virginia.

Wynne A. Guy, M.A. (1979)

Assistant Professor of Mathematics

B.A., 1966, University of Alabama; M.A., 1969, University of Virginia.

Karen G. Guyot, M.S.L.S. (1969)

Associate Librarian

B.A., 1966, State University of New York, Harpur College; M.S.L.S., 1968, University of North Carolina.

Margaret M. Haggerty, Ph.D. (1971)†

Professor of Education

B.S., 1957, College of St. Teresa; M.A., 1964, Ph.D., 1967, Catholic University.

Steen Halling, Ph.D. (1976)†

Assistant Professor of Psychology

B.A., 1967, York University; M.A., 1970, Ph.D., 1976, Duquesne Uni-

Gerald Hampton, Ph.D. (1976)† Associate Professor of Marketing

B.A., 1962, University of Washington; M.B.A., 1967, Ohio State University; Ph.D., 1973, University of Washington.

J. Hutchinson Haney, M.S. (1974)†

Assistant Professor of Rehabilitation

B.A., 1966, University of Denver, M.S., 1968, University of Arizona.

Mary Alice Hanken, M.Ed. (1972)

Assistant Professor of Health Information

B.S., 1963, M.Ed., 1973, Seattle University.

John M. Harding, J.D. (1975)†

Associate Professor of Business

B.A., 1942, Yale University; J.D., 1948, Yale Law School.

Vernon J. Harkins, S.J., B.A., S.T.L. (1958; 1963)

Assistant Professor of Philosophy

B.A., 1951, Gonzaga University; S.T.L., 1957, Alma College.

Charles R. Harmon, M.A. (1953)

Professor of History

B.S.S., 1950, Seattle University; M.A., 1957, University of Washington.

Hildegard R. Hendrickson, Ph.D. (1967)†

Rainier National Bank, Professor of Finance

Professor of Economics and Finance B.A., 1958, M.B.A., 1959, Ph.D., 1966, University of Washington.

Kenny W. Hendrix, Capt., B.A. (1979)

Instructor in Military Science

B.A., 1972, Eastern Washington University.

William O. Henry, Capt., B.S. (1981)

Instructor in Military Science

B.S., 1973, Rose Polytechnic Institute.

Marvin T. Herard, M.F.A. (1960)

Professor of Art

B.A., 1954, University of Washington; M.F.A. 1960, Cranbrook Academy of Art.

Helon E. Hewitt, M.N. (1965)

Professor of Nursing

B.S., 1959, M.N., 1961, University of Washington.

James B. Hogan, Ph.D. (1976)

Associate Professor of Political Science A.B., 1957, Long Beach State; M.A., 1958, University of California at Los Angeles; Ph.D., 1970, Cornell University

Ray W. Howard, Ph.D. (1967)

Professor Emeritus

B.A., 1931, M.A., 1940, Ph.D., 1949, University of Washington.

Margaret L. Hudson, Ph.D. (1974)

Chairman, Biology Department

Associate Professor of Biology

B.S., 1968, Ph.D., 1974, University of Washington.

Jeanette A. Hulburt, M.L. (1964)

Associate Librarian

B.A., 1950, Seattle University; M.L., 1964, University of Washington.

Gladys M. Hunter, M.Ed. (1955)

Professor Emeritus

B.A., 1936, Valley City Teachers College; M.Ed., 1947, Teachers College, Columbia University.

Daniel L. Inman, M.A. (1981)

Instructor in French

B.A., 1975, Seattle University; M.A., 1981, University of Washington.

Dolly Ito, D.N.S. (1959; 1970; 1976)

Professor of Nursing

B.S., 1951, Gonzaga University; M.A., 1958, University of Washington; D.N.S., 1970, University of California at San Francisco.

Louis G. Jeannot, M.A. (1966)

Associate Professor of Theology and Religious Studies A.B., 1953, University of Portland; M.A., 1971, Marquette University.

Dolores M. Johnson, Ph.D. (1964; 1967; 1971)

Associate Professor of English B.A., 1960, M.A., 1964, Ph.D, 1971, University of Washington.

Stephen Johnson, Jr., M.S.E.E. (1979)

Assistant Professor of Electrical Engineering

B.S.E.E., 1961, Purdue University; M.S.E.E., 1966, U.S. Naval Postgraduate School

Warren B. Johnson, Ph.D. (1962)

Chairman, History Department

Associate Professor of History

B.A., 1947, M.A., 1952, Ph.D., 1962, University of Washington.

Michael G. Jordan, Maj., M.B.A. (1981)

Assistant Professor of Military Science

A.A., 1974, Suny at Albany; B.B.A., 1977, St. Leo College; M.B.A., 1980, Boston University.

Andrew J. Judd, M.B.A. (1976; 1981)

Instructor in Business

B.A., 1972; M.B.A., 1976, University of Washington.

Herbert M. Kagi, Ph.D. (1974)

Director, Community Services and Criminal Justice/Police Science Associate Professor of Community Services and Criminal Justice/Police Science A.B., 1955, M.A., 1963, Ph.D., 1963, Syracuse University.

Leo B. Kaufmann, S.J., Ph.D. (1967)

Professor of Philosophy

B.A., 1944, M.A., 1945, Gonzaga University; S.T.L., 1952, Alma College; Ph.D., 1957, St. Louis University.

Michael M. Kelliher, S.J., D. Crim. (1972)

Associate Professor of Sociology
A.B., 1960, Gonzaga University; S.T.B., 1968, University of Santa Clara;
M. Crim., 1969, D. Crim., 1972, University of California at Berkeley.

James W. King, S.J., S.T.D. (1959; 1972)

Associate Professor of Community Services
Diploma, Voice, 1942, Sherwood Music School, Chicago; M.A., 1952, Gonzaga University; S.T.B., 1957, Alma College; Diplome, 1958, Institut Gregorien de Paris; S.T.D., 1971, San Francisco Theological Seminary.

John L. Kite, Ph.D. (1974)

Associate Professor of Rehabilitation

B.S., 1966, M.Ed., 1968, Trinity University; Ph.D., 1974, University of Arizona.

David R. Knowles, Ph.D. (1978)†

Assistant Professor of Economics

B.A., 1969, B.A., 1973, Ph.D., 1978, Washington State University.

Harry H. Kohls, S.J., Ph.D. (1966)

Associate Professor of Philosophy (Ret.) A.B., 1935, M.A., 1936, Gonzaga University; Ph.D., 1952, Georgetown University.

Ursel S. Krumme, M.A. (1977)

Associate Professor of Nursing

B.S., 1961, M.A., 1962, New York University.

Robert W. Kugelmann, Ph.D. (1978)†

Assistant Professor of Psychology

B.S., 1970, Manhattan College; M.A., 1976, Ph.D., 1978, University of Dallas.

Georg D. Kunz, Ph.D. (1971)†

Chairman, Psychology Department

Associate Professor of Psychology

A.B., 1960, Ph.L., 1961, Gonzaga University; M.A., 1964, Marquette University; Ph.D., 1975, Duquesne University.

David Lee Kurtz, Ph.D. (1980)

Thomas F. Gleed Professor

B.A., 1963, Davis and Elkins College; M.B.A., 1965, Ph.D., 1969, University of Arkansas.

Charles S. LaCugna, Ph.D. (1947)

Professor Emeritus

A.B., 1937, Manhattan College; M.A., 1944, Fordham University; Ph.D., 1960, University of Washington.

Jane P. LaFargue, Ph.D. (1969; 1980)

Associate Professor of Nursing

B.S., 1968, Boston University; M.N., 1969, Ph.D., 1981, University of Washington.

Val M. Laigo, M.F.A. (1965)

Associate Professor of Art

B.Ed., 1954, Seattle University; M.F.A., 1964, University of Washington.

Richard M. Lang, M.A. (1981)†

Assistant Professor of Psychology

B.A., 1972, M.A., 1974, Sonoma State University; M.A., 1979, University of Dallas.

James Robert Larson, Ph.D. (1952)

Professor of Sociology

A.B., 1949, Seattle University; Ph.D., 1958, University of Washington.

Kyu Y. Lee, Ph.D. (1979)†

Director, Software Engineering

Associate Professor of Software Engineering

B.A., 1960, Seoul National University; M.S., 1964, University of Detroit; Ph.D., 1969, Indiana University.

William F. LeRoux, S.J., M.A., S.T.D. (1958) Dean, College of Arts and Sciences

Professor of Theology and Religious Studies B.A., 1946, M.A., 1947, Gonzaga University; S.T.L., 1954, Alma College; S.T.D., 1959, Gregorian.

Francis J. Lindekugel, S.J., M.A., S.T.L. (1946)†

Professor Emeritus

A.B., 1937, M.A., 1938, Gonzaga University; S.T.L., 1945, Alma College.

Robert E. Lowery, Ed.D. (1978)†

Associate Professor of Education

B.Sc., 1955, M.Sc., 1957, Montana State University; M.S. Ed., 1958, Indiana University; Ed.D., 1966, University of Montana.

Reba Y. Lucey, M.Ed. (1969)

Associate Professor of Physical Education and Recreation B.S., 1949, M.Ed., 1957, Sam Houston State Teachers College.

Kenneth D. MacLean, M.A. (1961)

Associate Professor of English

B.A., 1952, M.A., 1957, University of Washington.

Harry Majors, Jr., M.S. (1958)†

Director, Transportation Engineering

Professor Emeritus

B.S., 1935, University of California; M.S., 1939, California Institute of Technology; Registered Professional Engineer.

Badiul A. Majumdar, Ph.D. (1978; 1981)+

Assistant Professor of Business

B. Com., 1967, M. Com., 1968, University of Dacca; M.B.E., 1971, Claremont Graduate School; Ph.D., 1977, Case Western Reserve University.

Donald C. Malins, Ph.D. (1971)

Research Professor of Chemistry

B.A., 1953, University of Washington; B.S., 1956, Seattle University; Ph.D., 1967, University of Aberdeen.

Leonard B. Mandelbaum, Ph.D. (1973)†

Associate Professor of Business

B.A., 1954, Washington Square College; J.D., 1957, Yale Law School; M.A., 1966, Ph.D., 1974, American University.

Albert B. Mann, M.A. (1960)

Professor of History

A.B., 1951, Gonzaga University; M.A., 1957, University of Washington.

R. Maxime Marinoni, Ph.D. (1964)

Chairman, Foreign Languages

Professor of French

Licence, 1961, Universite de Grenoble; M.A., 1965, Ph.D., 1975, University of Washington.

David D. McCloskey, Ph.D. (1971; 1975; 1977)†

Chairman, Sociology Department

Assistant Professor of Sociology

B.S., 1968. University of Oregon; M.A., 1970, Ph.D., 1978, New School For Social Research; Ph.D., 1978, University of Oregon.

Alexander F. McDonald, S.J., M.A. (Oxon) (1969)

Chairman, English Department

Associate Professor of English

A.B., 1940; M.A., 1941, Gonzaga University; M.A., 1942, University of Detroit; S.T.L., 1948, Alma College; M.A., 1952, Oxford University.

James B. McGoldrick, S.J., Ph.D. (1931)

Professor Emeritus

A.B., 1923, M.A., 1924, Gonzaga University; S.T.D., 1931, Gregorian; Ph.D, 1935, University of Washington.

James T. McGuigan, S.J., M.A., S.T.L. (1946; 1965)

Professor Emeritus

A.B., 1929, M.A., 1930, Gonzaga University; S.T.L., 1937, Alma College.

J.W. McLelland, M.A. (1947)†

Professor Emeritus

B.S., 1941, Seattle College, M.A., 1949, University of Washington.

Sister Mary Roberta McMahon, O.P., Ph.D. (1962)

Professor Emeritus

B.A., 1936, M.Ed., 1953, University of Washington; Ph.D, 1963, St. Louis University.

Arthur L. McNeil, S.J., Ph.D. (1970)

Professor Emeritus

A.B., 1931, M.A., 1932, Gonzaga University; Ph.D., 1936, Catholic University of America; S.T.B., 1946, Alma College.

Anita M. Mikasa, M.N. (1979)

Instructor in Nursing

B.S.N., 1972, Mount Marty College; M.N., 1979, University of Washington.

Paul B. Milan, Ph.D. (1966)

Associate Professor of French

B.A., 1964, Seattle University; M.A., 1966, Ph.D., 1972, University of Washington.

Derek M. Mills, M.P.A. (1975)†

Assistant Professor of Public Service

B.A., 1973, M.P.A., 1976, University of Washington.

Joseph B. Monda, Ph.D. (1955; 1968)

Director, Continuing Education and Summer School

Professor of English

A.B., 1949, St. Martin's College; M.A., 1950, Marquette University; Ph.D., 1968, University of Colorado.

John A. Morford, Ed.D. (1973)†

Professor of Education

B.Ed., 1955, Gonzaga University; M.Ed., 1961, Ed.D., 1963, University of Idaho.

Gretchen C. Murphy, M.Ed. (1977)

Assistant Professor of Health Information

B.S., 1964, Seattle University; M.Ed., 1973, University of Washington.

Gail Nank, M.A. (1974; 1977; 1979)

Assistant Professor of Nursing

B.S., 1964, Columbia University; M.A., 1970, University of Washington.

Kenneth S. Nelson, M.A. (1981)

Instructor in Finance

B.A., 1973, St. Martin's College; M.A., 1980, University of California at Los Angeles.

Paul O. Neudorfer, Ph.D. (1980)

Assistant Professor of Electrical Engineering

B.S.E.E., 1970, M.S.E.E., 1973, Ph.D., 1979, University of Washington.

Robert H. Novak, M.L.S. (1981

Assistant Librarian

B.A., 1971, M.A., 1973, State University of New York at Albany; M.L.S., 1976, University of Oregon.

Ann M. Obourn, M.L. (1981)

Assistant Librarian

B.A., 1971, M.L., 1977, University of Washington.

Ralph K. O'Brien, Ed.D. (1953)

Professor Emeritus

B.S., 1939, Cortland State Teachers College; M.S.Ed., 1941, Syracuse University; Ed.D., 1954, University of Washington.

R. Michael O'Connor, Ph.D. (1974)†

Associate Professor of Education

B.A., 1962, M.Ed., 1969, University of Washington; Ph.D., 1974, University of Minnesota.

Cornelius J. O'Leary, S.J., M.A., S.T.B. (1953; 1971)
Associate Professor of Theology and Religious Studies
A.B., 1943, M.A., 1944, Gonzaga University; S.T.B., 1951, Alma College.

Donna M. Orange, Ph.D. (1978) Assistant Professor of Philosophy

B.A., 1967, Marylhurst College; M.A., 1973, Gonzaga University; Ph.D., 1979, Fordham University.

Yvonne J. Owen, Ph.D. (1980)†

Assistant Professor of Education

B.S., 1967, Ph.D., 1978, University of Washington.

Joseph T. Page, Ph.D. (1955) Chairman, Physical Education and Recreation Department Professor of Physical Education and Recreation B.A., 1950, M.S., 1951, Springfield College, Mass.; Ph.D., 1965, Univer-

sity of Oregon.

Virginia L. Parks, Ph.D. (1974)†

Vice President for Finance and Treasurer Professor of Accounting and Economics

B.B.A., 1961, University of Texas; M.B.A., 1966, Ph.D., 1971, University of Houston.

James E. Parry, M.A. (1961; 1968)

Associate Professor of History

B.A., 1960, Seattle University; M.A., 1963, University of Washington.

Giuseppe G. Patelli, D.C.S., C.P.A. (1950)

Professor Emeritus

D.C.S., 1925, Bocconi University, Milan, Italy.

C. Denise Pauley, M.L. (1967; 1977)

Assistant Librarian

B.A., 1966, M.L., 1967, University of Washington.

Ronald A. Peterson, J.D. (1950; 1963; 1973)†

Associate Professor of Business and Law

A.B., 1943, University of Omaha; J.D., 1948, Creighton University; Member, Nebraska and Washington Bar.

Kathleen S. Piggott, M.S. (1979)

Instructor in Nursing

B.S., 1974, M.S., 1979, University of Colorado.

Mary C. Pirrung, M.A. (1962)†

Professor of Education

B.A., 1947, Western Washington State College; M.A., 1953, Columbia University.

Vincent S. Podbielancik, Ph.D. (1947)

Professor Emeritus

B.S., 1938, Seattle University, M.S., 1958, Ph.D., 1966, University of Wash-

James G. Powers, S.J., Ph.D.. (1966)

Associate Professor of English

B.A., 1956, Ph.L., 1956, M.A., 1960, Gonzaga University; S.T.M., 1963, S.T.L., 1963, University of Santa Clara; Ph.D., 1966, University of Colorado.

Lilian E. Price, M.A. (1980)

Instructor in Foreign Languages

B.A., 1972, Seattle University; M.A., 1973, University of Washington.

Sister Christopher Querin, S.P., Ph.D. (1960)

Chairman, Political Science

Professor of Political Science

B.S.S., 1950, Seattle University; Ph.D., 1961, St. Louis University.

Shelby R. Rama, M.S. (1978)

Assistant Professor of Accounting

B.S., 1961, Arizona State University; M.S., 1975, California State University.

Sister Therese Randolph, R.S.M., M.A. (1979)†

Co-Director, CORPUS Program

Instructor in Theology and Religious Studies

B.S., 1963, College of St. Mary; M.A., 1972, University of Detroit.

David H. Read, Ph.D. (1948; 1954)

Professor of Chemistry

B.S., 1942, Seattle University; M.S., 1944, University of Illinois; Ph.D., 1949, University of Notre Dame.

James B. Reichmann, S.J., Ph.D. (1955; 1965)

Professor of Philosophy

B.A., 1946, M.A., 1948, Gonzaga University; S.T.L., 1954, Ph.D., 1960, Gregorian.

Barbara B. Richardson, M.N. (1980)

Instructor in Nursing

B.S.N., 1977, University of Colorado; M.N., 1981, University of Washington.

James C. Risser, Ph.D. (1979)

Assistant Professor of Philosophy

B.A., 1971, California State University, Long Beach; M.A., 1973, Ph.D., 1978, Duquesne University.

Mary Jean Rivers, M.A. (1978)†

Instructor in Business

B.A., 1965, M.A., 1974, University of Pittsburgh.

Stephen B. Robel, M.S. (1948)†

Professor of Mechanical Engineering B.S., 1948, Seattle University; M.S., 1951, University of Notre Dame.

Marilyn J. Robertson, M.A. (1976)

Assistant Professor of Nursing

B.Sc., 1970, M.A., 1973, University of Washington.

Floyd E. Rogers, Captain, B.S. (1980)

Instructor in Military Science

B.S., 1972, Murray State University.

Theodore J. Ross, M.B.A., C.P.A. (1947)

Professor Emeritus

B.S., 1932, University of California; M.B.A, 1946, University of Chicago.

James E. Royce, S.J., Ph.D. (1948)

Director, Alcohol Studies Program

Professor Emeritus

A.B., 1939, M.A., 1940, Gonzaga University; S.T.L., 1948, Alma College; Ph.D., 1945, Loyola University, Chicago.

Erlinda F. Rustia, Litt.D. (1972)

Associate Professor of English

Litt. B., 1941, M.A., 1948, Litt.D., 1969, University of Santo Tomas.

Robert D. Saltvig, Ph.D. (1962)

Professor of History

A.B., 1954, University of Portland; M.A., 1959, Ph.D., 1966, University of Washington.

George A. Santisteban, Ph.D. (1964)

Professor of Biology

B.A., 1945, Montana State University; M.A., 1949, Ph.D., 1951, University of Utah.

Louis A. Sauvain, S.J., M.A., S.T.B. (1955; 1965)

Campus Ministry

Associate Professor of Theology and Religious Studies A.B., 1940, Seattle University; M.A., 1948, Gonzaga University; S.T.B., 1953, Alma College.

James E. Sawyer, Ph.D. (1977)

Associate Professor of Public Service

B.S., 1967, Weber State College; Ph.D., 1975, University of Utah.

C. Bradley Scharf, Ph.D. (1979)

Assistant Professor of Political Science

B.A., 1966, Colorado College; M.A., 1969, Ph.D, 1974, Stanford Universitv.

Leo A. Schmid, S.J., Ph.D. (1934; 1947)

Professor Emeritus

A.B., 1932, M.A., 1933, Gonzaga University; S.T.B., 1941, Alma College; M.S., 1942, Marquette University; Ph.D., 1947, Fordham University.

Jerome V. Schnell, Ph.D. (1980)

Executive Director, Alcohol Studies Programs Associate Professor of Alcohol Studies

B.S., 1956, College of St. Thomas; M.S., 1959, Ph.D., 1963, University of Nebraska.

Richard T. Schwaegler, Ph.D. (1959; 1967)

Chairman, Civil Engineering

Professor of Civil Engineering B.S., 1957, M.S., 1958, Massachusetts Institute of Technology; Ph.D., 1968, University of Washington.

John S. Schwarz, S.J., M.A. (1970; 1972; 1974)

Assistant Professor of History

B.A., 1951, M.A., 1958, Gonzaga University; M.A., 1964, University of Santa

Richard F. Sherburne, S.J., Ph.D. (1977) Associate Professor of Theology and Religious Studies

B.A., 1949, M.A., 1950, Ph.L., 1950, S.T.B., 1958, Saint Louis University;

Ph.D., 1976, University of Washington.

Andrea C. Skelly, B.S. (1981)

Instructor in Allied Health Technology B.S., 1981, Seattle University.

Joseph F. Sladky, Jr., M.S. (1982)

Associate Professor of Mechanical Engineering B.S., 1968, M.S., 1969, West Virginia University.

H. Eugene Slape, M.S.W. (1978)

Instructor in Criminal Justice B.A., 1961, Texas Wesleyan College; M.S.W., 1971, University of Washington.

Francis J. Smedley, B.S. (1949)

Associate Professor Emeritus B.S., 1933, U.S. Naval Academy.

Sally G. Smith, M.L. (1980)

Assistant Librarian

B.A., 1969, St. Mary's College; M.L., 1977, University of Washington.

Edward H. Spiers, M.A. (1949)

Professor of English

Ph.B., 1948, Seattle University; M.A., 1949, University of Washington.

Leo P. Stanford, Ph.D. (1976)† Co-Director, CORPUS Programs

Associate Professor of Theology and Religious Studies B.S., 1964, University of San Francisco; Ph.D., 1969, Marquette Univer-

James L. Stark, D.A. (1972)

Associate Professor of German B.A., 1964, University of Portland; M.A., 1968, D.A., 1972, University of Washington.

Bernard M. Steckler, Ph.D. (1961)

Professor of Chemistry

B.S., 1953, St. Martin's College; Ph.D., 1957, University of Washington.

Harriet B. Stephenson, Ph.D. (1967)†

Professor of Management

B.A., 1961, M.B.A., 1962, Ph.D., 1966, University of Washington.

Kenneth W. Stikkers, M.A. (1981)

Assistant Professor of Philosophy B.A., 1972, M.A., 1975, DePaul University.

William J. Sullivan, S.J., Ph.D. (1975)

President

A.B., 1954, Ph.L., 1956, A.M., 1956, Saint Louis University; S.T.L., 1962, Faculte de Theologie; M.A., 1967, M. Phil., 1967, Ph.D., 1971, Yale University; D.D., 1977, Concordia Seminary in Exile.

William J. Summers, Ph.D. (1977)

Assistant Professor of Music

B.A., 1969, San Luis Rey College; M.A., 1973, California State University at Hayward; Ph.D., 1978, University of California at Santa Barbara.

Paul M. Swamidass, M.B.A. (1979)†

Instructor in Business B.E., 1966, Osmania University; M.B.A., 1975, Washington State University.

Carl E. Swenson, Ph.D. (1976)

Assistant Professor of Mathematics B.Ed., 1966, Pacific Lutheran University; M.A., 1970, Ph.D., 1972, Washington State University.

Andrew A. Tadie, Ph.D. (1979)

Associate Professor of English

A.B., 1966, John Carroll University; M.A., 1967, Bradley University; Ph.D., 1972, St. Louis University.

John R. Talevich, M.A. (1955)

Associate Professor of Journalism A.B., 1949, Seattle University; M.A., 1952, Marquette University. Michael J. Taylor, S.J., S.T.D. (1961; 1965; 1971; 1977)

Professor of Theology and Religious Studies A.B., 1947, M.A., 1949, Gonzaga University; S.T.L., 1955, Alma College; S.T.D., 1961, Woodstock College, Lilly Post-Doctoral Fellowship, 1964-65.

William Taylor, M.A. (1963; 1969)

Associate Professor of English

B.A., 1956, Seattle University; M.A., 1966, University of Washington.

Lawrence E. Thomas, M.A.L.S. (1980)

University Librarian

B.S., 1954, Juilliard School of Music; M.F.A., 1957, Brandeis University; M.A.L.S., 1961, Indiana University.

John K. Thompson, Ph.D. (1973)

Chairman, Rehabilitation

Associate Professor of Rehabilitation

B.A., 1966, Muskingum College; M.S., 1970, San Diego State College; Ph.D., 1972, University of Arizona.

David L. Thorsell, Ph.D. (1974)

Chairman, Chemistry Department

Associate Professor of Chemistry

B.A., 1964, University of Minnesota; Ph.D., 1971, Ohio State University.

David E. Tinius, Ph.D., C.P.A. (1970)†

Associate Professor of Accounting B.S.M.E., 1960, M.B.A., 1964, Ph.D., 1977, University of Washington.

Rex Swee-Kee Toh, Ph.D. (1980)

Associate Professor of Business

B.E., 1970, University of Malaya; M.S., 1972, Ph.D., 1975, University of Minnesota

Henrietta B. Tolson, M.S.W. (1971)

Associate Professor of Community Services

B.A., 1960, Seattle University; M.S.W., 1962, University of Washington.

L. John Topel, S.J., Ph.D. (1971)†

Associate Professor of Theology and Religious Studies

B.A., 1958, M.A., 1959, Gonzaga University; S.T.M., 1966, Santa Clara University; S.S.L., 1969, Pontifical Biblical Institute; Ph.D., 1973, Marquette University.

Burnett R. Toskey, Ph.D. (1958; 1968)

Professor of Mathematics

B.S., 1952, M.A., 1958, Ph.D., 1959, University of Washington.

John P. Toutonghi, Ph.D. (1963)

B.S., 1957, Seattle University; Ph.D., 1963, University of Washington.

Sister Rosaleen Trainor, C.S.J., Ph.D. (1965)

Director, Honors Program

Professor of Philosophy

B.Ed., 1958, Seattle University; M.A., 1963, Ph.D., 1966, St. John's University.

Thomas J. Trebon, Ph.D. (1969; 1976)

Assistant Dean, Matteo Ricci II

Associate Professor of Political Science

B.A., 1965, Seattle University; M.A., 1968, Ph.D., 1980, University of Denver.

Kathleen M. Treseler, M.N. (1968)

Associate Professor of Nursing B.S., 1946, Seattle College; M.N., 1965, University of Washington.

Alan Troy, Ph.D. (1970)

Associate Professor of Mathematics

B.A., 1950, B.S., 1953, University of Chicago; M.A., 1956, Ph.D., 1961, University of Illinois.

David G. Tucker, Lt. Col., M.P.A. (1979)

Professor of Military Science B.S., 1974, St. Martin's College; M.P.A., 1977, University of Alaska.

141

Richard L. Turner, Ph.D. (1963)

Professor of Electrical Engineering B.S.E.E., 1946, M.S.E.E., 1952, Drexel University; Ph.D., 1962, University of Washington, Registered Professional Engineer.

Frank A. Valente, Ph.D. (1966)

Professor Emeritus B.S., 1922, M.Sc., 1924, Ph.D., 1939, New York University.

Lawrence E. Vance, Ph.D. (1973)

Associate Professor of Physical Education and Recreation B.S., 1961, Bradley University; M.S., 1967, Indiana State University; Ph.D., 1979, University of Minnesota.

Terry J. van der Werff, D.Phil. (1981)

Dean, School of Science and Engineering
Associate Professor of Mechanical Engineering
S.B., S.M., 1968, Massachusetts Institute of Technology, D.Phil., 1972,
Oxford.

Usha S. Varanasi, Ph.D. (1971)

Research Professor of Chemistry B.Sc., 1961, Bombay University; M.S., 1963, California Institute of Technology; Ph.D., 1967, University of Washington.

Robert F. Viggers, M.S. (1949)†

Chairman, Mechanical Engineering
Professor of Mechanical Engineering
B.A., 1944, University of Washington; M.S., 1950, Oregon State College;
Registered Professional Engineer.

John E. Vinson, M.S. (1969)

Assistant Professor of Mathematics B.A., 1958, M.A., 1961, Oregon State University; M.S., 1965, Stanford University.

Roy P. Wahle, Ed.D. (1977)†

Associate Professor of Education B.A., 1946, Central Washington State College; M.A., 1947, Ed.D., 1956, University of North Colorado.

J. Kevin Waters, S.J., D. Mus. Arts (1969)

Chairman, Fine Arts Department Professor of Music

A.B., 1957, M.A., 1958, Gonzaga University; B.A., 1964, University of Washington; M.A., 1965, Santa Clara University; D. Mus. Arts, 1970, University of Washington.

Kathleen A. Waters, M.Ed. (1969)

Chairman, Health Information Associate Professor of Health Information B.S., 1958, M.Ed., 1973, Seattle University.

Edwin H. Weihe, Ph.D. (1972)

Dean, Matteo Ricci II Associate Professor of English B.A., 1963, Brown University; M.A., 1965, M.F.A., 1966, Ph.D., 1972, University of Iowa.

William L. Weis, Ph.D. (1973)†

Associate Professor of Business B.S.B.A., 1969, M.B.A., 1971, Bowling Green State University; Ph.D., 1979, University of Washington.

David C. Williams, B.M.E. (1980)

Instructor in Mechanical Engineering B.A., 1967, University of Washington; B.M.E., 1979, Seattle University.

Charles A. Wollesen, S.J., Ph.D. (1960; 1969)

Associate Professor of English
A.B., 1945, M.A., 1946, Gonzaga University; S.T.L., 1953, Alma College;
M.A., 1959, Fordham University; Ph.D., 1970, University of Washington.

Francis P. Wood, S.J., M.S. (1952)

Chairman, Electrical Engineering
Professor of Electrical Engineering
A.B., 1940, Gonzaga University; S.T.L., 1948, Alma College; M.S., 1952,
Stanford University.

Marylou Wyse, Ph.D. (1965; 1969)†

Acting Vice President for Academic Affairs

Dean, Graduate School Professor of Education B.A., 1953, M.Ed., 1965, Seattle University; Ph.D., 1969, Western Reserve University.

Charles A. Yackulic, M.A. (1964)†
Associate Professor of Education
B.Sc., 1948, B.Ed., 1950, University of Alberta; M.A., 1951, Eastern Washington College.

*William L. Yam, S.J., M.S.L.S. (1972)

Associate Librarian
A.B., 1963, Ateneo de Manila; M.S.L.S., 1968, Catholic University of America.

Andre L. Yandl, Ph.D. (1956; 1966)

Professor of Mathematics B.S., 1954, M.A., 1956, Ph.D., 1965, University of Washington.

Barbara M. Yates, Ph.D. (1970)†

Associate Professor of Economics B.A., 1962, College of Wooster; M.A., 1963, Ph.D., 1969, University of Michigan.

Anita Yourglich, Ph.D. (1946)

Professor of Sociology B.S., 1945, Seattle University; M.A., 1948, St. Louis University; Ph.D., 1961, University of Oregon.

Richard E. Zackrison, Ph.D. (1978)†

Assistant Professor of Business B.A., 1971, Seattle University; M.S., 1973, Utah State University; Ph.D., 1977, University of Minnesota.

Gary H. Zarter, Ph.D. (1973)†

Acting Dean, School of Education Associate Professor of Education B.A., 1960, St. Norbert College; M.A., 1969, San Francisco State; Ph.D., 1973, University of Washington.

Mary T. Ziebell, Ph.D. (1976)†

Assistant Professor of Accounting B.A., 1973, M.B.A., 1975, Ph.D., 1978, University of Washington.

Casimir E. Zielinski, Ed.D.. (1979)†

Assistant Professor of Education B.Ph., 1948, Mt. Carmel College; B.A., 1953, St. Bonaventure; A.M., 1956, University of Chicago; Ed.D., 1973, University of Houston.

Gary A. Zimmerman, Ph.D. (1964)

Executive Vice President Professor of Chemistry B.S., 1960, California Institute of Technology; Ph.D., 1965, University of Wisconsin.

Where To Write

There is a central mail room on the campus. Information on specific items may be obtained by writing to the offices listed below and adding:

Seattle University Seattle, Washington 98122

or, by calling the main switchboard at (206) 626-6200. Mail for student residence halls must be addressed to their respective locations.

Admission

Director of Admissions
