Gala Fall Informal, Nov. 18

VOL. VIII .- No. 6

SEATTLE, WASHINGTON, FRIDAY, NOVEMBER 3, 1939

Fall Informal Coming;

Seattle, Washington

Gavel Gliders Will Skate At Bowl

Tradition will again hold sway next Tuesday night when the Gavel Club presents the 1939 edition of it's annual skate-fest, the Gavel Glide. The locale of the party will be the Roller Bowl — Seattle's newest skating rink located at 90th and Aurora. A caravan is leaving the College at 7 o'clock to go to the Bowl, where skating will begin at 7:30, and continue through the regular session till 11:00.

"Skate your way to the Fall Informal" might well be the slogan used by the Gamboling Gaveleers to entice S. C. Eds and Coeds out for an evening of rolling fun, as tickets to the big dance will be offered as door-prizes.

A special variety of professional skating acts will be another feature attraction of the evenings entertainment.

As has been the custom in the past, transportation will be provided for all those without cars who come to the college before 7 o'clock. However, co-chairmen urge all those with cars to stop by the college and join the carafun," says Miss McKinnon.

Committee Named

Others on the committee are: Ruth Butler, Joe Eberharter, Stanley Conroy, John Strickland, Abner de Felice, Mary Doherty, Joe McMurray, Wally MacKay, Kay Leonard, Don Wood, Al Plachta and Ruth Brock.

Al Plachta, president of the Gavel Club says, "You will not only have fun but will also help to further the best interests of Seattle College. You will help to finance the Annual Catholic High School Speech Tournament, one of S. C.'s chief gestures of publicity and friendship."

National Catholic College Poll; Results Of S. C. Survey Given

What are the opinions of American Catholic College students on the question war?

A recent survey conducted by the National Catholic Review, the American Magazine, on this vital point, shows a variety of opinions.

The total results of the ballots of all the Catholic Colleges will be published in the Magazine on Armistice Day, Nov. 11; but for the interest of Seattle College students the total of the opinions of just the Seattle College ballots has been taken, showing the general trend of feeling on the question in this school.

Two Weeks Away Barn Dance Big Social Success

Amid rustic farmyard decoraoff by hundreds of flashy orange and black streamers, collegians in their hick outfits danced away the evening of October 27. This was the occasion of the third annual Frosh-Soph Barn Dance spectacle.

Joe English, Casinova of the barn yard, was awarded the men's prize. Joe wore the upper portion of tuxedo with a fancy hula skirt showing beneath the suit coat. A classy trench hat donned the head of the winner and far below the hem of the skirt we saw evidence of our so-called ape-descendency.

Five Judges

Mr. and Mrs. T. R. Leonard, Mr. and Mrs. G. D. Runnels and "Cec" Smith, orchestra leader, acted as members of the judging Committee. Other costumes which furnished many a laugh were those worn by Phil Austin, Bud Bader, Biff Fallon, Joe LeGrand, Bill Kelly, Ellen McHugh and Tom Ward.

Who Said Journalists Don't Work? Statistics Prove Different!

In a recent survey conducted wholly within the confines of The Spectator room, it has been determined that at least 15 man-hours go into each issue of the Seattle College paper. This survey was made upon the request of Editor Bill Kelly, who wished to demonstrate to all College students that The Spectator is the largest single extra-curricular activity in the school

The amazing total of 175 man-hours for each edition of the paper was compiled by estimating conservatively the amount of time each individual member of The Spectator puts in on official business, and then adding all editors combined, the most hours put in per week is split evenly between the editor, the associate editor and the news editor. These three positions are estimated to consist in about twenty hours for each issue. The feature editor turns in at least fifteen hours every week as does the sports editor. The heads writer and his assistant work approximately six and two hours respectively, and proof readers do their part to the extent of six hours for every edition.

A Matter of Example

The trite and often mis-used term, "school spirit" should, we think, be substituted by another phrase here at Seattle College. "School spirit" gives one an idea of rah-rah excitement and coonskin coats; it has an aura of adolescence that our enlightened collegian shies away from violently. The two-word phrase that we would use in place of "school spirit" is "Catholic Action.

In a Catholic College, everything that a student does for his school is directly or indirectly Catholic Action. When your school holds a Sodality meeting or a Gavel Club meeting, or any other kind of affair, your active attendance advances, in its own way, the Cause of Christ. And the advancement of Christ's Cause is Catholic Action.

When Seattle College gives a dance and you are present, you are representing a Catholic school and chatter and more from our friend all that it stands for. Your behavior constitutes participation in Catholic Action—or the lack of participation in the same ideal.

It is often hard for the new students (and for many old students) to realize the tremendous effect his my aunts and I wanted an audience actions as a Seattle College student have on outsiders. Other Catholics watch the College student to see what he will do; non-Catholics watch him even closer. It seems logical, then, to say that if you conduct the Pope returns to Rome in September." That was a severe blow yourselves correctly you are giving a good example to my aunts so we attempted the to Catholic and non-Catholic alike. Example is one usual channels to learn if that was of the basic qualities of Catholic Action. We would Father from California in charge of suggest that all S. C. practice a lot of Catholic Action St. Sussana's Church (for Americans) was beginned with Associated wit from here on in . . .

'No Foreign Entanglements'

One of man's innate characteristics is self-preservation. All of us shun the possibility of getting hurt needlessly. When we see a situation wherein we are liable to be injured without sufficient reason, we either try to rectify it or we flee it. That is entirely the Vatican. My aunts couldn't do natural; it isn't being cowardly—it's merely showing good sense. Thus, when we see two men fighting on the other side of the street, we don't cross the street and try to get between them: no matter what the purpose may be. Like as not, the blows of both men would strike us-we had no business being there.

When our country got in the last war we were walking between two men who were fighting. Ours should going to be received by the Pope have been only a vicarious interest. Instead we rushed in—and we were hurt needlessly.

There are movements on foot today to repeat that foolish move of twenty years ago. Man's instinct of self-preservation tells him not to; let's, just for a change, heed our instincts and stay out of this whole teresting an Italian woman in her sordid foreign mess.

Do You Care Enough?

Your Community Fund needs your help: this idea has been repeated in many ways and under many banners. The quota of this year's Community Fund has not been reached in the collegiate division. Seattle College students should cooperate in this drive.

He, on their behalf made an appeal to the Vatican but the answer was still negative, so he said there was nothing that could be done except to wait in Rome until the Pope returned to that. Well, we learned at our hotel that there was a pilgrimage from a town in Italy which comes to Rome every year. I.t is in honor of Pius X and is composed of people from his native town, I believe. National Apple Drive To Raise Market Lowered By Conflict

Apples, apples and more apples Apples seem to be playing a very important role in the newspapers, advretisements and show windows that are seen in all the different localities of the Pacific Northwest It would seem improbable that any one that reads a daily paper or listens to a radio could be ignorant of the fact that there is a terrific drive on to dispose of all the apples ...produced in the ...Pacific Northwest this past season. Never before have we witnessed such a drive, probably due to the fact that never before in the history of the apple industry has there arisen a more peculiar situation than at the present time. All of this refers only to the Northwest apple producing territory.

No doubt we have all heard that there is a war on in Europe that stops our markets. Most of us realize that any form of food is considered contraband material by the opponents in all wars in the modern era. So naturally enough our markets are cut out because it is impossible to send our ships over to the warring nations safely

Last spring the A.W.S.S.C. announced that one of their committees would publish, this fall, a booklet on general etiquette. With bated breath we await this manual. We also note that S.C. students can well use the book.

Only this morning we saw Phil Austin actually submerging his morning cruellers in his morning coffee. To make matters worse, Mr. Austin's little finger projected awkwardly into space. (Latest etiquette rules outlaw the mid-air suspension of the little finger).

The Hi-Yu Coolee Club needs to learn that it is not only impolite, but rude to sponsor lynching parties. Furthermore Emily Post frowns fiercely on such affairs.

Then there is the unthinking fellow who consistenly walks on the inside of the sidewalk, leaving his lady friend to the mercy of kicking horses.

Miss Peggy McGowan says that the horses are gone, but the custom is a wonderful thing.

There still stands the old rule "When a boy and girl meet in the hall, on the street, etc., the girl speaks first." We know of a boy who is stubborn and a girl who knows not. Consequently, they have not spoken for two years.

(The following story is old, but it has grown stronger with age -like limburger cheese. Editor's Note).

The little group of autoists was tired; in fact they were exhausted. Furthermore, they were hungry. Eagerly they scrutinized each town in an effort to find an attractive looking restaurant. Finally, from the back seat of the automobile, one Addison Smith cried joyously, "Gee fellas, stop here and eat. This is Wilbur. I spent my pay check here every Saturday night last summer."

In respect for Mr. Smith's old haunts, the weary group settled down in the local eatery and enjoyed sumptuous 40c meals for only 75c. Somewhat revived, if not fed, they proceeded to "get out of town." In heavy silence they noted a large sign on the edge of the village-"Ritzville - Come Again."

Reviews & Previews

By Margaret Scheubert

Believe it or not, fellow students, there are some very fine things to be said about the Seattle College library. And one of them is a very swell novel called "The Abbey of Evolayne," written by a Frenchman, Paule Regnier. This book was published in 1935 and created quite a stir at that time.

Some of us go in for plots, some of us go in for characterization, and some of us must have both in order to be happy about it all. But whichever way you lean, this story will more than fill the bill.

We've never come across a plot quite like it before and as for the We accept these facts without development of the characters, of Adelaide and Michel Adrian,-well, to be trite, it's very cleverly done. These two young people are happily married. Michel is a doctor and very much in love with his wife. Adelaide lives for no one but Michel. During his vacation they visit cessation of a market an evil. About ten minutes after class had started entered Mr. S. from N. dressed like a fugitive from a barn dance. He had a few words with the prof., then nonchalantly tramped over to the nearest window and climbed out. That was all right, but when he climbed back in again, and proceeded to go out the remaining windows, then the professor had to call the class to a halt. Logicians weren't the same for the rest of the hour.

The subject of our little discussion today has been harped upon so many times that I imagine by this time, you are all pretty tired of the subject, however, in the past week, a new angle has been pointed out to me so I thought I might pass

There is still a lagging in interest in the intramural sport Washington finally won and as program. Sure, I know what you're thinking, the basketball mis-predicted, Fordham wiped up league is the best the school has ever had, and you're correct, but the interest is lacking in other sports. Remember, besides basketball, there is handball, badminton, volley ball, and a complete sports program for girls.

Now, some of you show no interest in athletics at all. Why? Is it because you can't take it? I don't mean not Why? Is it because you can't take it? I don't mean not being able to take the hard physical knocks, but the other kicked a field goal for Cornell). knocks that competitive sports dish out. In other words, are you a good sport, can you show real sportsmanship?

It can be proven by statistics that those who engage in some kind of competitive athletics have a better chance of succeeding in later life. You learn to win like a lady or gentleman, or lose like a sportsman should lose, without any excuses or blaming the loss on the other fellow. In no other field of activity is this lesson so well driven home as in the me Shorty! Ef'n it ain't Slippery field of competitive sports.

Here's an interesting bit of statistics, for the girls who shun athletics. In a survey of the graduates of Vassar College of the year 1912, the girls who had taken part in competitive athletics had an eighty percent better chance of becoming married than those who did not take part in

So the cry goes out again, it's not too late to sign up for of the game, except OSC's pass defense, which has been weak. A intramural athletics, and remember in signing up, you are cold wet field will bend the odds preparing yourself for a better and happier life both now and after graduation.

WIGWAM WANDERINGS

There is still plenty of room for spectators at the intramural basketball games, and they're plenty good . . . Last Wednesday's hike resulted in another success being chalked up for the hiking club . . . Notre Dame is still rambling, let's home they aren't kicked by that Army Mule tomorrow . . . It's Cornell or Oklahoma to the Rose Bowl, and either one will give O. S. C. or U. S. C. a plenty good game . There is still a shortage of girls for that badminton team . . FLASH!!! Phelan wins his usual one game, signed for another five years . . . Joe English and Jack Kearney have already been skiing, they didn't dare fall, they would scrape off the snow and ruin the hill . . . When Washington had winning teams, the student body didn't like the teams, the first season they lose four straight, they're the best team out. You try and figure it out . . . If the U of W students put on another performance like last Saturday, Washington teams will be instructed to lose, with the measley crowds, the school can't afford two new goal posts per win .

QUESTION

One of the first things a person usually looks for after reading the score of a game is the summary or the "yardstick." If you have been following Washington at all this season, you will note that the scores and summaries do not agree. The only exception to the observance is the Pitt- Sees One-Sided Washington game in which Pitt both outscored and outgained their opponents. However, in the following games, which Washington lost, they outgained their opponents. Then, comes the Stanford game, Washington wins, but is outgained by Stanford.

This brings up the very interesting question is the present day, to the tune of 33-9. The game system of scoring a football game correct?

One of the greatest coaches and authority on football in the country, Pop Warner, believes that the present system is wrong. Mr. Warner would have a game scored by giving one point to a team for each first down made. Also lessen the credit given for a touchdown. His reasons are that a lucky break, a long pass or a freak play may defeat a better team that has gained ground and played better football during the game.

If a game were scored by this method, Washington would be leading the parade now, not fighting to keep out of the

I have no desire to try to solve the problem, but it is food for thought.

COMMENT

Washington 8, Stanford 5.

Well, Washington is one place nearer the top. Jimmy Phelan is the tops, and everybody is happy, everybody but the poor managers, who must put up the goal posts.

U. S. C. 26, Cal. 0.

Poor Cal — poor Cal. U. S. C. could loan out its third team for the day, and they would still be able to out-substitute any team on the coast.

O. S. C. 13, W. S. C. 0.

Ah, what the Heck, W. S. C. beat Washington. Their season is a success.

Notre Dame 7, Carnegie Tech 6.

Whew, close followers of Notre Dame can't listen to a game without placing on a table near at hand, (1, a bottle of aspirin, (2) container, full of water, (3) a glass, (4) smelling salts. It is also recommended that you strap yourself to your chair just for safe keeping.

Well whaddya know? Fordham and Washington must have been stung by the same bee. They sure got up in a hurry. As predicted, the floor with Pitt in more ways than one. The closest I came to picking a perfect game was the Cornell-Ohio State fracas. According to "The Scourge of the Bookies", the score was Cornell 20, and Ohio State 0. Lounge Lizards Trounce Stork

Disaster met the championshipaiming Storks Monday afternoon on the warring Knights of Columbue floor.

The underestimated Lounge Lizards (actually not) finished on the good end of the 23-22 score, after having fought their way to a hardfelt victory, in which they sustained three injuries at the hands of the taller team.

The two stalwart fives walked onto the "maple battleground" with the Storks a slight favorite; but the first few minutes of the skirmish changed the opinions of all on-lookers. The Lounge Lizards started with the first whistle to get their share of the ball, which became very elusive with the deceptive handling of the pre-game favorite. The highlight of the first quarter arrived when the guard of the Lounge Lizards, Wally Mac-Kay, came charging into the keyhole and jumped high to take an unlucky shot off the back-board; at the same instant, Capt. Dick Harris of the Storks collided with MacKay knocking the guard's feet from under him in such a manner that he landed on his chin. Time was called for MacKay to regain consciousness. The injury had little effect (or maybe it did), for in the ensuing minutes of the conflict the injured player rallied to score eight points and be high-point man on the winning team. The Storks fought a "never say die" game the whole time, keeping their score just beyond the reach of the underdog until half time, when the score was 12 to 12.

The tide was turned in favor of the smaller team, however, from the mid-game rest until the end, when John Strickland, forward, came weaving and dribbling, carving his way through a wall of opposition to earn the winning point for the Lizards in the last two seconds of the contest.

The Loungers have played three games to date, bearing one loss which was administered by the Krazy Kats under the tutorship of John Katica.

The lineup: Lounge Lizards Tamborini 4 Armstrong 7 Nelson MacKay 8 Harris 9 Strickland 2 Riley 10 Fujiwara 2 Harry 0 Substitutes: Lounger Lizards, McHugh; Storks, Henry.

Eligible Bachelors Beat Elevators, 42-11

It was the second straight time for McNamee's Eligible Bachelors as they were soundly trounced by the Otis Elevators in a game at the K. C. Gym, Oct. 25. The final did the loyal football fans score read: Elevators 42, Bachelors 11. Highly touted before the season's opening, the Bachelors have been unable to find that winning spark and this last setback has immersed them in the cellar of the broken teams. The Elevators, on the other hand, showed potential champion caliber as they piled up points to coast in by a wide margin. Sudmeir, ace of the Otis hoopers, cashed in with 18 points to take high-scoring honors. Larson, Lackie and Ray flashed as the Elevators sunk the unhappy Bachelors. The game remained fairly tight for the first quarter, but then developed into a romp. At the half the count was: Otis 19; Bachelors 4.

This defeat sadly deflates the championship hopes of the Bachelors, while it puts a rosy hue on those of the once-btaten Elevators. They have three more contests to play during the first half and On the other hand, the McNamee boys are desperately seeking material to bolster their hapless squad

Oliver's wisecrack about warm-up games against U.S. C., California and Stanford to prepare the Ducks for their crucial game with Gonzaga. Among otehr things the article stated that should Stanford lose to an Oregon team, it should From that day hot ashes have been poured on his head in copious quantities. Stanford has met three teams from the North and the Indians have yet to hit the win column. Now along comes Portland U., a cypher in big time football and sends Slip and his boys retreating to the Moragan hills. Perhaps the remarks of Connolly irritated the coaches and players as much as they about Portland. With Stanford at the bottom of the conference and with California not far behind, we hope that the North will be spared those envenomed darts in the future.

We should assist in this drive in order to avert financial ruin to the apple grower because his success also means success to the railroads, a huge number of apple harvesters, a large number of longshoremen, and success to a number of freighters hauling across the Great Pond. Thus success to apple grower means economic security to all these people as well as a number of ware-housemen and grocers. Just as the success to the apple grower means success to all these people so does the failure of the apple grower mean failure to all these people and hence it behooves us to assist in this drive in order to bring about a secure financial condition to all concerned.

Adele Campbell who has ridden with Alberta Grieves several times nominates Alberta as a candidate for the thrill-driver of the week. It is not Alberta's driving alone which prompts such a nomination; rather it is the vehicle she drives. It seems that each particular device requires complete attention. Hence to release the emergency brake requires two hands—to place the shift in low, second and high requires two hands and obviously, while all this is taking place, the steering wheel takes care of itself -more or less And that isn't all -the clutch is quite tempermental, rious intervals. Then, too, the driver has no way of knowing how much gas said vehicle contains, because the gauge is out of order and a safety screen prevents the usual "stick" measuring system being

But please, no aspersions were intended toward said vehicle, we would merely like to say: "come around sometime, Alberta — but don't take us literally!"

No need for a bashful "May I?" at the fall informal. Beautiful Flower Theme programs will arrange it all.
