Information concerning graduate and summer school programs may be obtained in supplementary bulletins.

The University reserves the right to change the fees, rules and calendar regulating admission and registration, instruction in, and graduation from the University and its various divisions and to change any other regulations affecting the student body. Changes go into effect whenever the proper authorities so determine and apply not only to prospective students but also to those who at that time are matriculated in the University. The University also reserves the right to discontinue courses at any time.

As a general rule, students follow the academic programs contained in the Bulletin of Information in effect at the time of their matriculation. However, students from the School of Business, School of Nursing, and School of

Science and Engineering who withdraw from the University for one calendar year or more are subject to the requirements for the major which are in effect at the time that they are readmitted.

Seattle University is an affirmative action, equal opportunity employer. The University does not discriminate on the basis of race, color, religion, sex, age, handicap or national origin, in admission or access to its programs and activities, or in its employment policies or practices.

STATEMENT OF OWNERSHIP MANAGEMENT AND CIRCULATION

1. Title of publication: Seattle University Bulletin of Information. 1A. Publication No. USPS 487-780. 2. Date of filing: October, 1987. 3. Frequency of issue: quarterly. 3A. Number of issues published annually: 4. 3B. Annual subscription price: none. 4. Location of known office of publication: Publications Office, Seattle University, Seattle, WA 98122. 5. Location of the headquarters or general business offices of the publishers: Seattle University Publications Office. 6. Names and complete addresses of publisher, editor, and managing editor: Publisher: Seattle University, Seattle, WA 98122. Editor: Jean Merlino, Publications Director, Seattle University. Managing Editor: none. 7. Owner: Seattle University, Seattle, WA 98122. 8. Known bondholders, mortgagees, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages or other securities: none. 9. The purpose, function, and nonprofit status of this organization and the exempt status for Federal income tax purposes have not changed during preceding 12 months. 10. Average number of copies each issue during preceding 12 months: A. Total number of copies printed: 10,150. B. Paid circulation: 1. Sales through dealers and carriers, street vendors and counter sales: none. 2. Mail subscription: none. C. Total paid circulation: none. D. Free distributions by mail, carrier or other means, samples, complimentary, and other free copies: 8,750. E. Total distribution: 8,750. F. Copies not distributed: 1. Office use, left over, unaccounted, spoiled after printing: 1,400. 2. Returns from news agents: none. G. Total: 10,150. 11. I certify that the statements made by me above are correct and complete: Jean Merlino, Publications Director.

Purpose and Scope

Seattle University, an institution of higher learning, has for its object and purpose:

- the conservation, interpretation and transmission of knowledge, ideas and values;
- the extension of the frontiers of knowledge by critical and exhaustive investigation or experimentation;
- the preparation for some of the professions by thorough and intelligent training in the theory and principles underlying those professions.

As a University, it attains its end not only through the sciences and humanities, including philosophy and theology, but also through its professional schools.

As a University conducted under the auspices of the Jesuits:

- it affirms its belief in a support of Christian ideals and values;
- it affirms its belief in the unity and totality of all human knowledge, whether experimental, speculative, or divinely revealed;
- it seeks, by a faculty inspired with the Spirit of Christ and by the creation of a liberal atmosphere inside and outside the classroom, to develop an unbiased, truly liberated and enlightened intelligence in its faculty and student body.

History

Seattle University's development as one of the Pacific Northwest's leading centers of higher education is closely interwoven with the history of Seattle and the Puget Sound area. It is also a story of a relentless effort on the part of the University to serve the educational needs of a growing metropolitan community.

Like most universities whose roots go back a century or so, Seattle University had a humble and unpretentious beginning. In 1890, Bishop Aegidius Junger of the then Nisqually Diocese, concerned over the lack of educational opportunity for Catholic youth in the Seattle area, sent repeated requests to the Jesuits of the Rocky Mountain Mission territory to establish both a parish and a school in the young city. In response to the intrepid Bishop's appeals, Fathers Victor Garrand and Adrian Sweere arrived from the Yakima station in the spring of 1891.

The two Jesuits immediately leased St. Francis Hall, a building that had been constructed at 6th and Spring in downtown Seattle the previous year by Fr. Francis X. Prefontaine, the area's first resident priest. Rededicating the building as the parish and school of the Immaculate Conception, and aided by two Holy Names sisters serving as full-time teachers, the good Fathers began their modest educational effort.

With the advice and assistance of Father Prefontaine, the mission procurator purchased property at the same time

which ultimately became the Broadway campus, and in 1893, the cornerstone of its first building was laid, and the new parish and school was opened for classes for the "older boys" in September, 1894.

Growth continued with the introduction of the first "Academic" or high school level class in 1898 and the filing of articles of incorporation changing the parish school for boys into Seattle College, but these were also years of struggle and disappointment. Nevertheless, overcoming the still prevailing frontier mentality that saw little need for higher education other than in the professions, a college department in "Humanities" was instituted in 1900, and in 1909, the first three graduates were awarded bachelor of arts degrees.

A temporary casualty of World War I, college classes were suspended from 1918 to 1922, but in 1919, the successful high school department moved to a new seven acre campus on Interlaken Boulevard, a gift of Mr. Thomas C. McHugh that included two highly suitable buildings. On its reinstatement in 1922, the college department was also housed at the new campus.

In 1931, with an enrollment of less than 50 students, the College returned to a partially renovated building at the Broadway campus, a move that was to prove beneficial to both levels. Within two years, women were enrolled in credit courses, and in 1936, the first women received their degrees. Just prior to that, the first professional degree program was established with the introduction of the School of Education, and in 1937, the College was fully accredited by the Northwest Association of Secondary and Higher Schools. The School of Nursing was officially opened in 1940, and the School of Engineering followed in 1941.

Returning World War II veterans in 1945 discovered the newly established School of Commerce and Finance, the College's fifth major academic unit, and by 1948, the enrollment in all programs was nearing 3,000 students. Appropriately that year, an amendment to the articles of incorporation changed the institutional name officially to Seattle University.

Rapid expansion of both the physical boundaries and educational facilities of the University marked the decades of the 1950's and 1960's. With just three permanent buildings and three war surplus structures in 1950, the University added or converted twelve major buildings over the next 20 years, most of the development taking place under the direction of Fr. A. A. Lemieux, S.J., president of the University from 1948 to 1965.

Extensive curriculum expansion highlighted the 1970's with innovative new schools and programs. Chief among these additions were the School of Science and Engineering (1972), and Matteo Ricci College (1977). The Doctorate in Educational Leadership, the University's first doctoral degree program, was instituted in 1976.

The list of recent academic innovations includes master level programs in software engineering and in therapeutic psychology, along with a baccalaureate program in computer science. The latest academic division, the Institute for Theological Studies, was initiated in 1985.

Facility development continues, as well, with the Gene E. Lynn Building, home of the School of Nursing; the outdoor intramural and recreational field, the Marguerite M. Casey Building for Arts and Sciences faculty, the Engineering Building and the redesigned University Services Building.

Organization

As an independent, coeducational institution, Seattle University is incorporated under the laws of the State of Washington and operated by its own Board of Trustees. The University, administered under the auspices of the Society of Jesus, is one of 28 Jesuit institutions of higher education, which derives its tradition and objectives from the academic experience and educational ideals of the Society of Jesus and the Christian tradition.

The University is composed of eight major academic units:

The College of Arts and Sciences comprises 11 departments. These are English, fine arts, foreign languages, history, communication/journalism, military science, philosophy, political science/public administration, psychology, sociology, and theology and religious studies. Program divisions are: alcohol studies, criminal justice, general studies, global studies, honors and prelaw.

The Albers School of Business offers programs in accounting, economics, finance, general business, international business, management and marketing.

The School of Education offers programs which qualify its students for teaching certificates, principals' credentials and counselors' certificates issued by the State Department of Public Instruction. In addition the School of Education offers a degree program in rehabilitation.

The Institute for Theological Studies is a collaborative effort between the University and the Seattle Archdiocese, which offers degree programs in Ministry.

Matteo Ricci College is a six year combined high school college program leading to a baccalaureate degree.

The School of Nursing offers a baccalaureate program in professional nursing which qualifies students for registration through state licensure. Registered Nurse students wishing to complete requirements for the Bachelor of Science degree are admitted to the program.

The School of Science and Engineering comprises the departments of allied health technology, biology, chemistry, computer science, general science, health information administration, mathematics, physics and civil, electrical, mechanical and software engineering.

The Graduate School has programs leading to master's degrees in business, education, ministry, psychology, public administration, rehabilitation counseling, religious education, and software engineering. An Educational Specialist degree can be earned in Administration or Educational Diagnostics/School Psychology. A Doctor of Education degree with a major in Educational Leadership is also offered.

Accreditation

Seattle University enjoys the highest accreditation and its students are accepted for graduate and advanced study by leading colleges and universities in all parts of the country.

The University is accredited by:

- Northwest Association of Schools and Colleges
- Accreditation Board for Engineering and Technology (Civil Engineering, Electrical Engineering and Mechanical Engineering)
- American Assembly of Collegiate Schools of Business
- American Chemical Society (Chemistry)
- Committee on Allied Health Education and Accreditation (Diagnostic Ultrasound, Health Information Administration, Nuclear Medicine Technology)
- Council on Rehabilitation Education
- National Council for Accreditation of Teacher Education
- National League for Nursing

is approved by:

- Washington State Board of Education
- Washington State Board of Nursing

The University is a member of:

- American Association of Colleges of Nursing, American Association of Colleges for Teacher Education, American Association of Collegiate Registrars and Admissions Officers, American Council on Education, Association of Higher Education, Association of Jesuit Colleges and Universities, Council of Baccalaureate and Higher Degree Programs, Independent Colleges of Washington, National Commission on Accrediting, National League for Nursing, Northwest Association of Colleges, Western Interstate Commission for Higher Education.

Campus

On a 52-acre campus on Seattle's historic First Hill, Seattle University is within walking distance of the city's major cultural and recreational facilities, business and shopping centers and the Elliott Bay waterfront.

As part of a student population of approximately 4,300, you will enjoy a modern campus of 24 buildings, including contemporary classrooms, student residences and service units.

Your on-campus facilities are extensive, with seating for 1,100 students in the A. A. Lemieux Library (1967), the major study and resource center. A variety of student areas, including individual carrels, study lounges and conference rooms will add to your comfort and convenience. On-campus housing is provided in Bellarmine Hall, Xavier Hall and Campion Tower, all coed.

You'll make good use of the Connolly Center (1969), the indoor sports and recreation facility, which has two swimming pools, basketball, badminton, tennis and racquetball courts and a weight room and dance area.

The office of the Vice President for Student Life is located in the Student Union Building (1953), the Chieftain, where you will also find student offices, dining, lounge and meeting areas. You may also take advantage of a wide variety of films, lectures, meetings and musical presentations in the many auditoriums, including the A. A. Lemieux Library and the William Pigott (1957), Thomas J. Bannan (1961) and Gene E. Lynn (1979) buildings.

The McGoldrick Student Development Center, opened in 1976, presents further opportunities. Here you will find the Career Development Center, the Counseling Center, the Minority Student Affairs office, and the Campus Ministry office.

Other major campus structures that will soon become familiar are the Liberal Arts Building (1941), and Loyola Hall (1955), the Jesuit faculty residence.

The new Marguerite M. Casey Building for Arts and Sciences Faculty, the Engineering Building and redesigned University Services Building opened in the fall of 1987.

Seattle University is located in a seaport city surrounded by unsurpassed natural beauty. Seattle, the largest city in the Pacific Northwest and one of the 25 largest in the United States, has all the scenic and cultural variety of a metropolitan city with the unique advantage of mountains and water at its back door.

Within city boundaries, Lake Union and Lake Washington provide the opportunity for sailing, boating, water skiing and swimming.

Ski areas are within an hour's drive of the city, with night and weekend skiing during winter months. Easy hikes, with trails marked and guide books available, are popular in the spring and summer months, as well as more difficult hikes for seasoned enthusiasts.

Bicycling has become increasingly popular and trails are set aside in various areas of the city.

Golf courses, tennis courts, and indoor and outdoor pools for year-round swimming are available in addition to fishing and hunting opportunities.

Student Life

Student Life

One of the primary aims of the educational mission at Seattle University is the total development of students. This holistic growth process is enhanced by integrating opportunities for social, emotional, cultural, physical and spiritual development, in addition to intellectual growth. The Division of Student Life is committed to providing programs and services conducive to fostering an educational environment which will assist students in achieving their full potential.

Located in the McGoldrick Student Development Center, the Student Union, the Connolly Center, the Child Development Center, the International Student Center, and the three University residence halls, the professionals who comprise the Student Life staff are committed to meeting the developmental needs of Seattle University's diverse student population.

The Office of the Vice President for Student Life provides the administrative leadership for the Division of Student Life and serves as a source of information and help for many of the student's non-academic needs.

The Office for Student Leadership supervises orientation, student activities, clubs and organizations, Student Union programs, including the Campus Assistance Center and the Volunteer Center and student government (ASSU). This office provides leadership opportunities and leadership development programs for all students.

The Campus Ministry team is committed to the mission of the University, particularly in the areas of personal and spiritual growth. The Campus Ministers endeavor to promote collaboration among Jesuits, lay faculty, staff and students through liturgical celebrations, retreats, volunteer programs and education for peace and justice. The Search Program is specifically for students and provides a unique experience of Christian community, service and the opportunity for leadership training.

The Counseling Center offers opportunities for personal counseling for students focused on developing self-awareness, improving individual communication skills and interpersonal relationships. Vocational counseling is available on a personal basis, using interest inventory testing as a guide for individual planning. The Center also sponsors various workshops offered throughout the school year on subjects such as stress management, assertion training, weight control, and test anxiety.

The Career Development Center office makes available career counseling, job referral services, and workshops on resume writing, interviewing, and job-seeking skills to students. Coordination of the part-time work-study student employment program is also accomplished through this office as is the development of employment opportunities throughout the Puget Sound area.

The International Student Center is the campus gathering place for all students from abroad, including those who transfer to Seattle University from other American colleges. The center provides a "home base" for these students, facilitating the assimilation of the international students into the University community.

The Minority Student Affairs Office promotes an understanding and appreciation of the cultural diversity in the University community. It is an advocate for the personal, academic, and social success of American ethnic students. On going programs include Asian Pacific Heritage Week, Martin Luther King Week, Black History Month, Pow-Wow, and counseling.

The Child Development Center is open to children from families of students and employees of Seattle University, and supplements the University's community program by also serving children from families within the surrounding Central City community.

The Book Store is the source of all required textbooks and course-related supplies. In addition, it offers a selection of apparel and gift items with Seattle University imprinting. Other sections include greeting cards, snack foods and sundries. Any book not in stock may be special ordered, film may be left for processing, and, at the end of each quarter, used books may be sold back for cash.

Disabled Student Resources enables students with disabilities to fulfill their academic, career and personal goals. Coordination of support services, counseling and community referrals are available. Seattle University has a continuing commitment to improve campus accessibility.

The Learning Center is a program for the academic enhancement of all SU students. The focus is to provide opportunities to increase and refine learning strategies so that students may monitor and enrich their educational experience. Tutoring is available on a limited basis.

The Student Union Building is considered the hub of campus activities. It offers the Chieftain dining area and student lounges. Student Life administrative offices, the Student Government (ASSU), the Spectator, (student newspaper), various club and organization offices. The Campus Assistance Center and Volunteer Center are also located in the Student Union.

The Campus Assistance Center is a one-stop information, resource, and referral service available for all students. This Center, in cooperation with the Admissions Office, coordinates campus tours for prospective students.

Orientation programs are sponsored each summer and fall by the Office for Student Leadership to facilitate social and academic adjustment of new freshmen and transfer students. A transfer student orientation is also held during winter and spring quarters.

Academic Honoraries

Alpha Sigma Nu—national Jesuit honorary recognizing outstanding scholastic attainment, loyalty and service.
Alpha Epsilon Delta—international premedical honorary.
Beta Alpha Psi—national accounting honorary.
Beta Gamma Sigma—national business honorary.
Beta Beta Beta—national biology honorary.
Kappa Delta Phi—national education honorary.
Omicron Delta Epsilon—national economics honorary.
Psi Chi—national psychology honorary.
Sigma Theta Tau—national nursing honorary.
Tau Beta Pi—national engineering honorary.

Student Clubs and Organizations provide Seattle University students with opportunities to develop leadership skills, broaden their social and professional backgrounds, and make a significant contribution to both the University and the community. Student government (ASSU), student publications, preprofessional organizations, service clubs, scholastic honoraries, and community outreach are among the varied groups in which students may choose to participate.

Safety and Security Services provide 24 hour security for the University campus community and its facilities. Security personnel are available to assist students in a variety of ways including first aid, escort services, crime prevention, lost and found, and assistance with vehicles with dead batteries or keys locked inside. Security persons are uniformed and easily recognizable should assistance be needed. For service or information call 296-5970 (24 hours). Emergency only, 296-5911 (24 hours).

Other Student Services

Academic Advisement is coordinated through the various schools within the University by the deans and department chairpersons in a student's major area. Adviser assignments are normally made during the fall orientation period.

The Student Health Center is open to all regularly-enrolled students. Full-time students and their dependents are also eligible to participate in the University's health insurance program.

University Sports

Seattle University is a member of the National Association of Intercollegiate Athletics. The University competes in soccer, basketball, tennis, sailing and skiing for men and women. The University places a high priority on its intramural and recreation programs, and provides a wide variety of activities indoor, outdoor and off-campus activities. The Connolly Center serves as the major sports facility for intercollegiate athletics, intramurals, and recreation activities. A three acre field complex provides outdoor facilities for soccer, flag football, softball and jogging. University Sports offers opportunities for students of all ages and skill levels.

University Food Service

Food service is provided in the Marketplace - variety foods located in Bellarmine Hall; Chieftain - located on the first floor of the Student Union; The Cave - coffee shop -deli located in Campion Tower.

Resident students, except those residing in Campion Tower, are required to purchase food credits on the University Vali-Dine system. Credits are good at any campus food service. Off-campus students may also purchase Vali-Dine food credits. Further information may be obtained from the Marriott business office, Bellarmine Hall, room 115.

Housing

Seattle University requires full-time freshman students under 21 years of age to live in University housing unless they are married, living with parents or have been granted an advance waiver by the Director for Resident Student Services.

Residence Halls

Three coeducational residence halls offer convenient living accommodations, lounges and facilities for study and recreation. Bellarmine Hall, a seven-story residence-hall with 400 students, provides the main dining room for resident students. The largest residence hall is twelve-story Campion Tower, although only the top six floors are used for student occupancy. Xavier Hall, the third campus residence, has a 200 student capacity. Residence halls are supervised by residence hall directors, Jesuit floor moderators and student resident assistants.

Application for Housing

Requests for on campus student housing are made through the Director for Resident Student Services. An eighty-five dollar (\$85.00) deposit is required for reservations. See page 16 for housing cost information. Cancellation of reservations must be received by the Director for Resident Student Services no later than August 1, or the deposit will be forfeited. Residents who terminate their stay in University residence halls before the end of the quarter will suffer a financial loss.

Admission Policy

Regulations in this Bulletin are supplemented by policy memoranda that set forth policy in greater detail. References to applicable policy statements are noted parenthetically. Copies of these policy memoranda may be obtained from the Registrar's Office.

Seattle University selects for admission those students who have demonstrated in their prior studies an ability to achieve a level of academic performance necessary to earn a degree. The University admission policy is administered by the Vice President for Academic Affairs through the Dean of Admission. All academic documents submitted by applicants become the property of Seattle University. In addition to the requirements for admission set forth in this section of the Bulletin, reference must be made to additional or distinctive requirements in the individual Colleges or Schools of the University. Such information will be found in the section of the Bulletin pertaining to a specific College or School.

Admission may be granted to qualified applicants for any of the four quarters of the academic year. All applicants for admission must remit a \$15 application fee to the University. Inquiries concerning admission should be addressed to the OFFICE OF ADMISSIONS, SEATTLE UNIVERSITY, SEATTLE, WASHINGTON 98122.

Special Consideration

Students who show exceptional promise may be admitted without rigid adherence to minimum unit requirements, even if they have not graduated from high school or have graduated from a non-accredited high school. All admissions decisions in these cases are made by the Vice President for Academic Affairs and the University's Board of Admissions.

Seattle University offers the opportunities and experiences of higher education to all students without regard to race, religion, age, sex, handicap or national origin. It does so in keeping with the guidelines and requirements of laws and regulations as promulgated by state and federal agencies.

Seattle University does not discriminate on the basis of handicap in conformity with section 504 of the Rehabilitation Act of 1973 in admission or access to its programs and activities, or in its employment policies or practices.

Dennis Ransmeier, M.B.A., is the responsible employee designated by Seattle University to coordinate its effort to comply with section 504 of the Rehabilitation Act of 1973.

This constitutes the official notice called for in Section 504, No. 84.8, Paragraph a.

Admission From Secondary Schools

To be considered for admission to the University as an undergraduate student, you must meet the following entrance requirements:

Have graduated or will graduate from an accredited high school.

Have a high school grade point average in the 16 college preparatory units noted below of 2.50 or above as measured on the 4.00 scale, or rank in the upper 50 per cent of the senior class.

Have completed 16 units of college preparatory courses.

Have submitted scores from one (1) of the following examinations: Washington Pre-College Test (WPCT) or Scholastic Aptitude Test (SAT) or American College Test (ACT).

Applicants with a grade point average below 2.50 as computed by the University Admissions Office will be reviewed by a special board. Applicants with a grade point average below 2.00 will not be admitted to the University on either a regular or probationary status.

Unit Requirements

Admission is granted subject to graduation from an accredited high school, with a minimum of 16 academic units, distributed as follows (one unit equals one year of study):

English	3
Mathematics (Algebra, Geometry)*	2
History	1
Laboratory Science*	1
Academic Electives (approved)*	9

*Applicants for most science and engineering degrees must have completed 3 units of mathematics, 2 units of laboratory science, and 7 academic electives.

Effective fall quarter 1989 all applicants for admission to the College of Arts and Sciences must have completed two years of high school foreign language study with a grade of 2.0 (C) or higher.

If you lack one of the above required units, you may be permitted by way of exception, to enter with provisional standing.

Application

In the State of Washington, application forms for those wishing to enter as freshmen may be obtained by writing Office of Admissions, Seattle University, Seattle, Washington 98122 or from any high school counseling office in the state. Out of state applicants may obtain forms by writing to the Office of Admissions.

To apply for admission, follow these procedures after completion of at least the sixth semester of high school.

1. Complete Section I of the Application for Undergraduate Admission and leave the entire form with your counselor to have the back page completed and forwarded directly to the Office of Admissions.
2. Submit a non-refundable application fee of \$15 to the Office of Admissions, payable to Seattle University.
3. Have your high school transcript and transcripts of any post-secondary course work you have completed sent to the Admissions Office. **ONLY OFFICIAL TRANSCRIPTS ARE ACCEPTABLE.** Official transcripts must arrive in the Admissions Office in a sealed envelope from the issuing institution.
4. Have your scores from one of the following examinations sent to the Admissions Office:
 - Washington Pre-College Test (WPCT)
 - Scholastic Aptitude Test (SAT)
 - American College Testing Program (ACT)

Notification of acceptance or refusal for Fall quarters will begin December 1 of the previous year and continue as files are completed. However, students whose records do not give sufficient evidence of the ability to pursue college level work will be notified that a final decision will not be made until the specified information is received.

High school students are encouraged to apply before May 1. All applications for admission and supporting documents should be received no later than one month before the beginning of each quarter.

Advanced Placement (Policies 75-16 and 75-17)

Entering students who may qualify for advanced placement in subject matter other than unit requirement should plan to take the Advanced Placement (AP) Tests of the College Board. You can find out more about these tests from your high school counselor or by writing to the Educational Testing Service. The Educational Testing Service will forward test results directly to Seattle University. A score of 3 or better on an AP examination may earn college credit. Advanced placement or credit may also be granted on the basis of the subject examinations of the College Level Examination Program (CLEP) of the College Board. To receive course credit through CLEP, you must submit your test results one month before the quarter you plan to enroll.

Early Admission

High school students with a grade point average of 3.3 or above on the 4.0 scale, who are recommended by their high school principal and their high school counselor, may be considered for enrollment after completing their junior year in high school.

Early Decision Plan

Students who select Seattle University as their first-choice college, and who have clearly demonstrated a high level of scholastic ability, are eligible to apply for admission under this plan. Complete admission credentials should be submitted as soon as possible after the close of the sixth semester, but no later than November 1 of the senior year. Notification will be sent as soon as all credentials are received.

Placement Examinations

Placement tests in chemistry, mathematics and foreign languages are administered by these departments during Orientation. These examinations offer entering freshmen the opportunity to show the extent of their preparation,

while simultaneously allowing departments to determine the level at which entering freshmen begin college work.

Probation

Students admitted on probation will be placed in the General Studies Program under the guidance of the General Studies Director. Probation students must achieve regular status by the end of the freshman year or be subject to dismissal from the University.

Admission From Other Postsecondary Institutions

A student who has established a satisfactory record in another accredited college or university may apply for admission with advanced standing at Seattle University. An applicant for transfer admission must:

1. Submit to the Office of Admissions an Application for Undergraduate Admission, a \$15 application fee (make remittances payable to Seattle University) and one (1) official copy of a transcript from each postsecondary institution previously attended. Failure to furnish previous postsecondary records when applying for freshman standing, or to supply complete postsecondary credentials when applying for advanced standing, places students under penalty of immediate dismissal. The University has the option to declare all credit not presented at the time of application as non-transferable.
2. Present a minimum 2.00 academic grade point average or the minimum required by a school/college; (see appropriate sections of this Bulletin) for postsecondary work attempted transfer. Courses completed at the lowest passing grade are acceptable for transfer, but the dean or department chairman may require that such courses in the major field be repeated. No transfer applicant will be admitted with a grade point average below 2.00.
3. Transfer applicants who have completed less than one full year (45 quarter or 30 semester hours of transferable credit) at another postsecondary institution must fulfill secondary school unit requirements for admission to the freshman class. In such cases, an official copy of the high school transcript must also be submitted.

Transfer students who have been suspended or dismissed will not be eligible for admission unless one calendar year has elapsed since the dismissal or suspension. At the end of this period, admission may be granted only by the Board of Admissions. In such cases, two letters of recommendation are required.

In assessing the student's record for admission, grades in non-credit courses will not be counted. For work done in postsecondary institutions whose academic standing is unknown/or for work with private teachers, admission and advanced credit will be granted only upon examination. Examinations to establish credit for such work may be taken only after the completion of 15 credits in residence. (See Credit by Examination on page 18.)

(Policies 77-1 and 79-1)

For the purpose of guidance and registration, the Academic Evaluation Unit in the Registrars Office will make a tentative evaluation of transfer credits at the time of admission to Seattle University. All evaluations are subject to the approval of the Academic Vice President and the Dean of the appropriate school. (See Transfer of Credit from Other Institutions on page 23 for additional information.)

Audit Students

Admission as an auditor must be approved by the instructor of the course. An auditor will not be required to participate in class discussion or laboratory work. Assignments may be made at the discretion of the instructor.

International Students

(Policy 76-6)

Specific admission requirements and procedures for all international students are listed on the University's international student application form. These criteria differ from those applied to United States citizens. International applicants should read carefully the International Student application.

Permanent Resident Students

Students whose official immigration status is that of permanent resident must submit Test of English as a Foreign Language (TOEFL) scores.

Special Students

(Policy 75-25)

Special students may take such undergraduate courses with the approval of the Dean of the school or college. Special students are not eligible for a degree until they have met all requirements for admission to that school and have been granted regular status.

Transitional Students

Admission as a transitional student is granted to a student in good standing at any recognized college or university who meets Seattle University's admission standards and who is not enrolled in a degree program at Seattle University.

By special arrangement, superior high school students may be admitted to specific courses with transitional student status.

University credit will be awarded for successful completion of courses taken as a transitional student. Such credit may be applied toward a degree from Seattle University only after you have been admitted to a degree program.

FINANCIAL AID

Financing Your Education

Seattle University offers a variety of strategies and resources to lower the cost of a University education. All families are urged to complete a Financial Aid Form regardless of their income level. Our financial aid professionals will then have the information necessary to discuss all options available for parents and students. The Financial Aid Form is the common form with which students may apply for all campus-based programs (Perkins Loans [NDSL], Supplementary Educational Opportunity Grants, College Work-Study) and at the same time apply for the Pell Grant, the Washington State Need Grant and the Guaranteed Student Loan. After filing the Financial Aid Form the student will receive an acknowledgement from the College Scholarship Service and later a Student Aid Report for the Pell Grant Program. When the Student Aid Report is received it should be forwarded to the Financial Aid Office. The Financial Aid Office will help you to uncover sources of financing your education. These sources include but are not limited to family, student, state government, federal government and private sources.

Although you must be admitted as a regular degree seeking student to receive an award, you should apply for financial aid as soon after January 1 as possible.

You are expected to arrive on registration day with sufficient funds to cover any portion of tuition, room and board and other fees not covered by financial aid. If you were late in applying for a Guaranteed Student Loan, or if for some other reason, you foresee a shortage of funds at the time of registration, you should make arrangements to secure a short-term loan from a relative, employer or other funding source. All students should bring sufficient funds to allow them to eat and purchase classroom materials for the first week of school.

Payment of AWARDS

All awards, except work/study earnings, Guaranteed Student Loans, Washington State Need Grants and funds from outside agencies are disbursed to students by means of a direct credit to their account. Each quarter transfer is dependent upon the final approval of the Director of Financial Aid. Each student must acknowledge receipt of the awards before they are credited to a student's account. Only when a student's file is complete can aid be transferred to the account.

Types of Financial Aid

1. GRANT and SCHOLARSHIP — An award that does not require repayment.
2. LOAN — Low interest loans which allow liberal repayment periods.
3. WORK STUDY — An opportunity to work on or off campus while attending school.

Application Procedure

1. Apply for admission to Seattle University as a degree seeking student.
2. File a Financial Aid Form (FAF) as soon as possible in January but no later than May 1 indicating that Seattle University should receive a copy.
3. A Student Aid Report (SAR) will be generated from the information supplied on the Financial Aid Form. Upon receipt of the SAR for the Pell Grant program, send it to the Financial Aid Office.
4. Upon receipt of an official award letter, students must notify the Financial Aid Office of their plans for enrollment and reserve their space in the class by submitting their advance deposit.

The preferred date for receipt of all materials to the Financial Aid Office is March 1. Meeting this date maximizes your opportunity to receive the best possible financial aid package. Submitting your Financial Aid Form to the College Scholarship Service no later than January 31 will ensure prompt processing of your Seattle University financial aid application. However, we will continue processing on a rolling basis while funds are available.

Priority consideration is given to students who meet these preference dates. All new students applying for financial aid must be formally admitted to the University by March 1 to receive maximum consideration for financial aid. Transfer students should remember to submit financial aid transcripts to the Financial Aid Office by March 1.

All students applying for financial aid for Fall quarter, including students who are currently enrolled, are best served by having their applications complete by March 1. Students applying for other quarters should contact the Financial Aid Office to determine the deadline. Continuing students must reapply for financial aid each year.

Students and parents are advised to make a file for each application year and to retain copies of all materials submitted.

Scholarships and Grants

Seattle University offers special awards in recognition of outstanding achievement. Students need not apply for these scholarships. All applicants for financial aid are considered for these awards.

Aetna Casualty Scholarship Foundation

Alpac Corporation

Alpha Kappa Psi

Alphonse & Mary Brenner & John Brenner Grant Fund

A grant to a deserving Catholic student from the Yakima diocese

Alumni Scholarship

Associated Grocer's Scholarship

The Blume Family

The Boeing Company

A renewable grant awarded to students in engineering or business

Ben B. Cheney Foundation

Chevron

Woodrow Clevinger Scholarship

William J. Codd, S.J. Memorial Scholarship

Continental Mills Scholarship

Cook, Lovella Foundation

DiJulio-Naylor Scholarship

Emard Scholarship

John C. Erickson Memorial Scholarship

A renewable scholarship awarded to junior Civil Engineering Students.

Farmers Insurance Group

Renewable grants awarded to University students in business or mathematics

Friendly Sons of St. Patrick

Geneva Foundation Drama Scholarship

Seattle University Guild Endowment Scholarship Fund

A scholarship fund available to freshmen

Haas Foundation

Harold Lemon Scholarship

Richard and Kathie Ann Jones Charitable Trust

A partial grant awarded to upperclass students

Kokua Fund

Gene E. Lynn Rural Nursing Endowment Fund (See loans)

Joseph A. Maguire, S.J., Scholarship

Edmund Maxwell Scholarship

Rosemary McCone Memorial

James B. McGoldrick, S.J., Scholarship

Rev. Edmund B. McNulty, S.J., Memorial Fund

Michel's Family Scholarship for International Study

A partial scholarship designated by the Dean of the College of Arts and Sciences

Naef Scholarship Program**John and Margaret Nelson Trust****Pacific Coca-Cola****Rainier Bancorporation****ROTC (Army)****SAFECO Insurance****Senior Challenge****Alfred & Tillie Shemanski Fund**

Two scholarships awarded to students enrolled in the Corpus Program

Ellen B. Stephenson Scholarship Fund**H.H. Thibau Memorial Scholarships****Washington State Automobile Dealers****Western Gear Foundation**

Renewable grants awarded to students in engineering in honor of the late Philip L. Bannan, Sr. These grants are renewable if the student maintains a high scholastic standing

William R. Woods Business Grant

A \$1000 award to a deserving upperclass or graduate student. Contact the Dean of the Albers School of Business

Wright Schuchart Scholarship

A renewable scholarship awarded to a sophomore engineering student

Loans

Loans are an integral part of the financial aid award "package" offered to students. Some loans do not require payment of principal or interest until the student graduates or leaves school. At that time low interest payments, which may extend over a long period, begin. Loans are an excellent means for the student and family to assume part of the cost of education. Students must be United States citizens, a resident of a Trust Territory, or have permanent resident status, approved by the Immigration Department, to be eligible for loans which involve federal funds.

Perkins Loan (NDSL) is a long term loan based on financial need. Eligible students may borrow a total of \$9,000 for undergraduate education or \$18,000 for combined undergraduate and graduate education. Repayment begins six months after the student graduate, drops to less than half-time or leaves school. The annual interest fee is five percent and repayment may extend 10 years, but payments may not be less than \$30.00 per month. The Perkins Loan repayment program also includes limited deferment provisions and cancellation features.

Guaranteed Student Loan (GSL)

A Guaranteed Student Loan (GSL) is a long-term need-based loan arranged with a lender selected by the student. Commercial banks, credit unions, and savings and loan associations are possible lenders. Guaranteed Student Loans are guaranteed by the Washington Student Loan Guarantee Association, or equivalent agency.

Students applying for Guaranteed Student Loans must qualify on the basis of financial need and must be enrolled at least half-time. The student's financial need for the loan will be determined through the use of the College Scholarship Service's Financial Aid Form. The determination of financial need for the loan will be calculated by Seattle University and reported on the student's Guaranteed Student Loan Application form.

Annual loan limits are \$2,625-4,000 for undergraduate students and \$7,500 for graduate students. Students may borrow up to \$20,000 during their undergraduate years. Graduate and professional students may borrow \$54,750 for their undergraduate and graduate career.

All GSL's will be charged a 5% loan origination fee by the lender. An amount equal to 5% of the student's Guaranteed Student Loan will be withheld by the lender to offset the interest charged on the student's loan while the student is enrolled. With the exception of the 5% origination fee, the student does not have to pay any other interest charges while enrolled as a full-time student.

Repayment of the loan begins six months after the student ceases to be a half-time student. Repayment is quarterly, with interest at 8% per year on the unpaid balance beginning at the time of repayment.

Students are required to repay the loan at a minimum of at least \$50 per month. Early application for the Guaranteed Student Loan is advised, since processing of the loan paperwork may take from six to eight weeks.

Payment deferrals are available for students in military or Peace Corps service, Public Health Service Officers, and volunteers for non-profit organizations. Those enrolled in required professional internships are also eligible for deferrals.

Gene E. Lynn Rural Nursing Endowment Fund

The Gene E. Lynn Rural Nursing Endowment program provides financial support for eligible students entering the School of Nursing during the fall quarter of each academic year. Financial assistance under this program is provided through interest-free loans while recipients are enrolled at Seattle University. Normally such loans will be made within the guidelines established by the Guaranteed Student Loan Program. In determining the amount of such loans, all other forms of financial aid will be taken into consideration.

When recipients of these awards graduate and begin their nursing careers in appropriate and approved community health-care facilities, the Gene E. Lynn Rural Nursing Endowment of Seattle University will repay the balance at a rate of 25% per year for each year of service in a rural or small-town setting. Applications for this program are available from the Financial Aid Office.

Government Grants

Grants are non-repayable federal and state grants, as well as Seattle University tuition grants, which provide partial tuition. Need, rather than grade point average, is the primary consideration for eligibility.

The Supplemental Educational Opportunity Grant (SEOG) is a federally funded grant awarded to needy students. SEOG awards usually range from \$100 to \$4,000 in the initial year and may continue in subsequent years. SEOG awards do not require repayment. Students with baccalaureate degrees are not eligible for SEOG funds.

The Pell Grant Program is a federal aid program intended to be the floor in financial assistance. Eligibility is based upon a family's financial resources and a rationing formula published by the government. Eligible students received grants as large as \$2,100 last year.

Washington State Need Grant (WSNG)

A grant designed to assist needy and/or disadvantaged Washington state residents in obtaining postsecondary education. Selection is made by the Council for Post-secondary Education from nominations submitted by the University. Theology majors are not eligible. Students with baccalaureate degrees are not eligible to receive WSNG funds.

ROTC Grants Army/Air Force

United States Army awards are made to selected high school seniors and college freshmen, sophomores and juniors who enroll in the Army Reserve Officer Training Corps. These are two or three year merit scholarships covering tuition, fees, textbook allowance, and a \$1,000 yearly tax-free subsistence allowance. Room and board grants are also available to scholarship students. An annual subsistence stipend of \$1,000 is paid to all advanced course students. Write to the Seattle University Professor of Military Science for information on application procedures.

The United States Air Force awards scholarships to selected students enrolled in the Air Force ROTC pro-

grams. Write to the professor of Aerospace Studies, University of Washington, Seattle, Washington 98195.

Veterans, Widows & War Orphans Educational Assistance

Veterans (or spouses of deceased veterans) may receive up to 45 months of educational assistance under terms of the GI Bill. War orphans and dependents of disabled veterans may also receive up to 45 months of educational assistance. Contact the Seattle University Veterans Office.

Student Employment

A financial aid award frequently includes work-study eligibility along with a loan and/or a grant. Work-study eligible students earn funds by being employed under the work-study program. This earned income is used to pay either tuition or living costs. It is important to note that funds earned during the academic year under the work-study program are not yet available at the time of Fall quarter registration.

Work-Study eligible students are not required to work nor is employment guaranteed. The Seattle University Career Development Office assists students in obtaining employment on or off campus.

Federal College Work-Study Program provides part-time employment in on-campus positions for students with established financial need.

Washington State Work-Study Program provides part-time employment in positions with employers other than Seattle University for students who qualify under a state established need formula.

Student Placement Center

The Career Development Center maintains a listing of employment available on campus and with Seattle area employers. Literature and instruction in job-seeking skills are provided for students and alumni.

COSTS — GENERAL INFORMATION

TUITION RATES 1988-89

Regular Courses (Fall, Winter, Spring) 179.00 per credit hour

Full Time Student —
Annual Tuition \$8,055.00
45 credit hours per year (15 credit hours per quarter)

Certificate Programs

Alcohol/Drug Studies	\$156.00 per credit hour
Applied Social Research/	
Corrections	\$179.00 per credit hour
Health Information	\$179.00 per credit hour
Human Resources (I.P.S.)	\$179.00 per credit hour
Rehabilitation	\$179.00 per credit hour
Military Science 311, 312, 313,	
412, 413, 419	\$179.00 per credit hour
Auditors Tuition	\$ 57.00 per credit hour

A tuition prepayment of \$100.00 is required of all new undergraduate students admitted for Fall quarter. This prepayment will apply toward tuition and is not refundable if the student decides after May 1 not to enroll at the University.

Laboratory Fees 1988-89 (Usually per course)

Private Music Lessons	\$ 42
Computer Laboratory Courses	\$ 39
Science and Engineering Laboratory Courses	\$ 39
Psychology 385, 401, 402	\$ 39
Education 460	\$ 29
Nursing 312	\$ 29
Psychology 382	\$ 29
Physical Education and Recreation 120, 124,	
131, 135, 146, 155	\$ 18
Nursing 302, 335, 337, 341, 409, 433	
(per credit hour)	\$ 17

Fees — Other (Non-Refundable) 1988-89

Application — undergraduate and graduate	\$ 25
Application — transitional students	\$ 25
Late registration/Payment (See next column)	
Matriculation — undergraduate and graduate	\$ 50
Credit by Examination — per credit hour	\$ 50
Validation of Field Experience — per credit hour	\$ 50
Removal of Incomplete — per course	\$ 20
Graduation — undergraduate and graduate	\$ 55
Certificate fee	\$ 35

Graduate tuition and fee rates are published in the Graduate Bulletin.

RESIDENCE CHARGES 1988-89

Double Occupancy	\$2,301.00 for academic year
	\$ 767.00 per quarter
Single Occupancy	\$3,051.00 for academic year
	\$1,017.00 per quarter
Deposit	\$ 85.00

BOARD

Alternate a la carte meal plans are available, ranging in price from \$866-\$1260. All residence hall students, except those living in Campion are required to purchase a plan. Campion students can use existing kitchen facilities and choose not to purchase a plan. For information contact the Director of Resident Student Services, 296-6274.

TUITION PAYMENT

Payment of tuition and fees includes library and health service fees, student newspaper, student organization allotments, building fund, and admission to athletic events. International students will automatically be charged insurance. An insurance waiver can be obtained from the International Student Center upon proof of insurance coverage. After a student registers for a course, the University has committed a space in each course for each student. It is the student's responsibility to pay for all fees in full whether the student attended the course(s) or not. Fees are due and payable on or before the "classes begin" date of the calendar published on page two of this bulletin unless the student has formally withdrawn prior to that date. Payments made after that date are subject to the late registration/payment and refund policies.

Failure to pay in full all tuition and fees of any quarter or session may result in a hold on the student's transcript and may prevent registration in subsequent quarters.

Seattle University reserves the right to change its charges at any time without previous notice.

Late Registration/Late Payment

A one time handling fee of \$40 and a charge of 1.5 percent on any balance due at the end of the month will be charged if tuition and fees are not paid in full as of the date classes begin, noted on the calendar on page two of this Bulletin. Late fees will apply to all checks not honored by banks and returned to Seattle University.

Family Tuition Plan

Two or more members of a family living in the same household and dependent upon a common support and attending the University concurrently may apply for a tuition discount. Further information on the Family Tuition Plan can be obtained from the Financial Aid Office.

Refunds

Withdrawals (full or partial)	
2- 5 class days ..	100 percent
6-10 class days ..	75 percent
11-15 class days ..	60 percent
16-20 class days ..	40 percent
Thereafter	No refund

Refunds are based on the number of consecutive days from the first class day of the term until the official date of withdrawal or reduction in class load occurs. The official date is considered to be the date the student submits the withdrawal or change form to the Registrar. A refund to a financial aid recipient is applied first to the student's financial aid source(s) and the balance, if any, is remitted to the student. Financial aid recipients will, therefore, in all likelihood, not receive refunds.

If the tuition and/or fees have not yet been paid, the portion normally not refunded is due and payable together with late fees. Failure to pay the non-refundable tuition and fees may result in transcript holds and may prevent registration in subsequent quarters.

Academics

Academic Regulations

Program of Study

A student's program of study must be approved by a member of the faculty at registration. However, such approval neither gives official sanction to any failure to meet University requirements nor does it free the student of responsibility for intelligent personal choice.

Students should not rely on oral representations of degree requirements or waivers thereof; they should obtain information from the designated level of authority and see that all agreements are entered in writing in their official academic file in the Office of the Registrar.

The Academic Council has discretionary powers for all cases not covered by the rules and regulations listed in this section.

The enrollment and graduation of each student, the awarding of academic credits, and the granting of any award or degree are strictly subject to the disciplinary power of the University.

The University reserves the right to cancel any class that does not meet the required minimum enrollment.

The University reserves the right to change any requirement and to ask a student to withdraw at any time.

Regulations in this Bulletin are supplemented by policy memoranda that set forth policy in greater detail. References to applicable policy statements are noted parenthetically. Copies of these policy memoranda may be obtained from the Registrar's office.

Academic Conduct

There are two documents which govern student academic conduct: the Academic Honesty Code, and the Academic Grievance Procedure. Both are published in the "Student Handbook" and the student is responsible for knowing them. Individual schools may have policies which further specify the Academic Honesty Code, and so the student should consult his or her school policy as well.

Academic Terms

ACCREDITED — Certified as fulfilling standards set by regional or professional accrediting agencies. Indicates that course work is generally transferable to other colleges and universities. The University's accreditation appears on page 5.

ADVANCED PLACEMENT — The University encourages advanced placement of students entering from high school through approved departmental examinations or by the Advanced Placement Examination of the College Entrance Examination Board.

ADVISER — A member of the faculty designated to assist a student in planning a program of study.

AUDITOR — A student who is permitted to register for courses without obtaining college credit. Auditors must be admitted and must obtain permission from the faculty. (The Alumni Audit program is available to alumni through the Office of Alumni Relations).

CERTIFICATE — A document awarded by the University upon completion of a series of courses in a professional specialty.

COLLEGE — An academic division within the University in which academic departments reside.

CORE CURRICULUM — A program of liberal study which is the foundation of Seattle University's undergraduate program.

COREQUISITE — A course which must be taken in the same quarter with another specified course.

CREDIT BY EXAMINATION — Examination for advanced credit in courses offered by the University for work done in private study or work not transferable to the University. Forms for approval of Credit By Examination are available in the Office of the Registrar.

CREDIT HOUR — The unit by which the University measures course work. One credit hour is awarded for a class meeting fifty minutes a week over the period of a quarter; in laboratory and activity courses, two or more hours a week over a period of a quarter are required.

CURRICULUM — An established program of study leading to a degree in a particular subject field.

DEGREE — An award by the University upon completion of a program of study.

DEPARTMENT — An instructional or administrative division of a school or college within the University which concentrates on a specific subject field.

ELECTIVE — A course chosen by a student which is not a requirement in the program of study.

FIFTH YEAR STUDENT — A student who has completed a baccalaureate degree and is admitted for further undergraduate study toward a second baccalaureate degree, teacher certification, or no specific objective.

FULL-TIME — For academic reporting purposes, 12 credits is full-time for undergraduate students, and 8 credits is full-time for graduate students.

GRADE POINT AVERAGE — An average computed on the basis of numerical values assigned to grades; the grade point average is equal to quality points (numerical point value x credit value for each course) divided by credits attempted.

Cumulative g.p.a. is the average based on all Seattle University work. Transfer credit is not included in the cumulative g.p.a.

Major g.p.a. is the average based on all Seattle University work used to complete course and credit requirements of the major as well as the supporting courses in allied fields specifically required by the program.

GRADUATE STUDENT — One who has been admitted to the Graduate School to pursue an advanced degree.

MAJOR — A principal field of study. Majors are described in the school and college sections of this Bulletin.

MATRICULATE — Enrollment at the University for the first time to pursue a degree or professional or fifth year program.

MINOR — A secondary field of study. Minors are described in the school and college sections of this Bulletin.

PART-TIME — For academic reporting purposes, a program of fewer than 12 credits is considered part-time for undergraduate students; half-time is 6 credits. For graduate students, 8 credits is a full-time load, 4 credits is half-time.

PLACEMENT TESTS — Tests in specific fields such as mathematics, chemistry, and foreign languages given to entering students to determine their level of achievement for placement in college courses.

PREREQUISITE — A course which must be completed before a student may register for a more advanced course.

PROBATION — Status resulting from academic performance below the minimum University requirement.

PROVISIONAL STUDENT — One who is admitted by special action with an entrance requirement unsatisfied. Enrollment beyond the first quarter is contingent upon the satisfaction of that requirement.

QUARTER — The term of instruction at Seattle University. There are three quarters in the regular academic year, Fall, Winter and Spring. Summer quarter extends from June through mid-August.

READMISSION — Procedure whereby a student who has not been registered for one or more quarters requests permission to re-enroll.

REGISTRATION — Official enrollment in the University in which a student sees an adviser, selects courses, and secures spaces in those courses each quarter.

REGULAR STUDENT — A matriculated student pursuing a degree.

SPECIAL STUDENT — A student who is admitted to a temporary status without transfer credit. Student will be reevaluated after two full-time quarters or the equivalent per policy 75-25.

SCHOOL — An academic division within the University in which academic departments reside.

TRANSCRIPT — A copy of the student's permanent record at Seattle University.

TRANSFER CREDIT — Credit awarded to a student for work completed at another accredited college or university.

TRANSFER STUDENT — One who is admitted to Seattle University having previously completed work at another college or university.

TRANSITIONAL STUDENT — A non-matriculated student admitted for one quarter only to take undergraduate course work. Transitional students who wish to continue enrollment after one quarter must apply for regular status.

WITHDRAWAL — Official notification to the University by a student that he or she will not complete a course. Withdrawals are filed with the Registrar.

Attendance Requirement

Attendance may be an essential and intrinsic element of the educative process. In any course in which attendance is necessary to the achievement of a clearly defined set of course objectives, it may be a valid consideration in determining the student's grade. While there is no all-University regulation requiring class attendance, it is the responsibility of the instructor to state the relevance of attendance at the beginning of each course.

Change of Major

To transfer from one school of the University to another, or from one major to another, a student must obtain a change of major form from the Registrar, notify the former department by obtaining the chairman's signature and present the change of major form to the new department chairman for approval. The approved form is returned to the Registrar by the department and the student's record will be corrected to show the new major.

Classification of Students (Policy 82-2)

Regular undergraduate students are classified as follows:

Freshman —	0-44 credits completed
Sophomore —	45-89 credits completed
Junior —	90-134 credits completed
Senior —	135 or more credits completed

Other students are classified as follows:

5th year —	post baccalaureate students not seeking an advanced degree but seeking a second bachelor's or a certificate
Graduate —	post baccalaureate students admitted to Graduate School for a master's or doctorate degree program
Special —	an undergraduate student awaiting approval for regular status
Transitional —	non-matriculated students registering for one or two quarters only
Auditors —	non-matriculated students registering for audit only.

Commencement With Deficiencies (Policy 83-1)

Undergraduate students who have not completed all degree requirements may participate in commencement exercises under the following conditions:

1. Students must be 10 or fewer credits short of degree requirements, with all minimum grade point average requirements satisfied.
2. Students commencing with deficiencies are not eligible for honors until they complete all degree requirements.
3. All degree requirements must be met within 12 months after commencing with deficiencies.
4. Applications for commencement with deficiencies must be filed in the Registrar's Office on or before the closing date for regular graduation applications (February 1).

Concurrent Enrollment at Two Colleges (Policy 75-6)

University regulations require students to seek written permission to be enrolled at another institution simultaneously with enrollment here. Credits completed at a second institution are not transferable unless, prior to enrolling elsewhere, an academic action authorizing dual enrollment is approved by the Dean and Registrar.

Course Numbering System

The course numbering system at Seattle University is as follows:

- 100 to 199 are freshman courses
- 200 to 299 are sophomore courses
- 300 to 399 are junior courses
- 400 to 499 are senior courses
- 500 and above are graduate courses — graduate standing required to register for courses numbered 500 or above.

Credit by Examination

Examinations for advanced credit in courses offered by the University may be taken by a student for work done in private study or on subject matter taken at a non-accredited college or university, with the following restrictions:

1. Student must be currently registered at Seattle University.
2. No student may take an advanced credit examination in a course in which he/she has already been registered.
3. The maximum number of credits obtainable by advanced credit examination is 30, not more than 15 of which may be obtained in one subject matter field. All credits obtained by examination will be counted as extension credit and included in the maximum 45 extension credits allowed.
4. No credit will be granted unless the applicant has earned a minimum of 15 resident credits with a minimum grade point average of 2.50.
5. No student within a given field of study may receive advanced credit in subject matter more elementary than that for which he has previously received credit.
6. No student will be permitted to repeat an examination for advanced credit.
7. No student may take examinations for more than 15 advanced credits in any one quarter.
8. No student may receive advanced credit for examination for lower division foreign language courses in his/her native language or from earlier schooling.
9. Students who wish to qualify for credit by examination must apply to the Dean, Registrar and Controller for approval.
10. No graduate credit is given by examination.
11. Nursing students who are graduates of hospital diploma programs may, under special circumstances, earn credit by examination for courses specified in Policy 85-1.
12. The grade will be posted CR (credit) or NC (no credit) and will have no effect on the grade point average. The minimum achievement level for receiving credit will be 'C'.

Credit Load

The normal load for undergraduates is 15 credits per quarter. No student may carry excess credit hours without permission from the dean of the school.

Students on academic probation may be required by the dean of their school to carry less than the normal credit load.

Dismissal

(Policies 75-14, 75-3, 81-2, 81-3, 81-4 and 84-2)

Students who have three quarters at Seattle University with a cumulative grade point average below 2.0, or who fail to maintain standards in a professional school, or those who receive failing grades in 10 or more credits in one quarter, or those with an excessive number of I or NC grades, are subject to dismissal. Students dismissed for academic reasons, may request reconsideration through the appropriate dean in accordance with the policy of the individual college.

A student withdrawing voluntarily from the University is entitled to a statement of honorable dismissal if he/she is

not liable to dismissal on account of scholarship, absence, breach of discipline, or financial indebtedness to the University.

Examinations

Examinations in all courses are regularly held at the middle and end of each quarter, and at such other times as the instructor may determine. Absence from an announced written examination is excusable at the discretion of the instructor and subject to review by the dean. Students absenting themselves from a scheduled examination without justifiable cause will receive a failing grade for the examination.

Forgiveness Policy (Policy 77-6)

Former SU students with poor academic records may resume their studies without the encumbrance of previously earned poor grades. After being absent from school for at least 8 years, former SU undergraduate students may apply for forgiveness at the time of readmission or during the first quarter resumed at SU. For further information consult the Office of the Registrar.

Full-Time Student

For academic reporting purposes, 12 credits per quarter is considered full-time for undergraduate students, while eight credits per quarter is full-time for graduate students.

Grade Changes

Once a grade is recorded it can be changed only through a request of grade change form which should be completed by the instructor and countersigned by the department chairman and dean of the school. Errors in grades must be reported within six months of date of issue of grade reports.

Grading System

Effective Fall 1988 the University began using the following system of grading to indicate the level of individual student achievement. Each letter grade has a quality point value assigned for the grade achieved. The quality point value is assigned to each letter grade as follows:

- A 4.0 Superior performance
- A- 3.7
- B+ 3.3
- B 3.0 Good performance
- B- 2.7
- C+ 2.3
- C 2.0 Adequate performance
- C- 1.7
- D+ 1.3
- D 1.0 Poor performance
- D- 0.7
- E 0.0 Failing

The grades of CR, I, M, N, NC, P, Q, R, S, W, Y or YW have no negative quality point value.

CR Credit — grade assigned in a course which is designated by the department to be only graded CR/E. Minimum acceptable performance is D-. Failure to meet that minimum results in a grade of E which is reflected in the grade point average. Satisfactory performance results in credit completion but does not affect the grade point average.

— grade assigned in a course through Credit By Examination. Students who pass the exam with an achievement level of C or better will have a CR posted to the record and credit is granted. Performance below the level of C results in an NC and no credit is granted. Neither CR nor NC will affect the grade point average.

Incomplete — A temporary grade indicating that work in the course was acceptable, although some portion of it was not completed because of illness or other serious circumstances beyond the student's control. When the instructor assigns an I grade, a NOTICE OF INCOMPLETE GRADE FORM must be filed with the Dean, Registrar, student and instructor. This form will state what work remains to be completed to obtain a final grade. The student has six weeks after the beginning of the next quarter to complete the specified work. If the specified work has been completed, the student must file an official Incomplete Removal Form and pay the required fee to have the final grade posted to the transcript. However, if the grade is an E the final grade will be posted without student payment (I grades assigned spring quarter must be removed by six weeks after the beginning of the fall quarter).

Prior to the end of the I-removal period, the dean may notify the Registrar of serious reasons that require an extension of this deadline to a certain time, but under no circumstances may this be extended beyond one calendar year from the date of initial posting of the I. All I grades must be removed within six months of date of issue or extended deadline.

While on the transcript, I grades will carry no penalty; i.e., they will not be counted in credit or grade point average computations.

M Missing — symbol used on grade reports to inform student that grade has not been received from instructor.

N No Grade — a suspended grade for courses in which work is not scheduled for completion until after the quarter closes, i.e., thesis or research courses at the graduate level. It is the responsibility of the student to arrange with the supervising instructor to remove the N within one calendar year of the quarter the grade is assigned, per the schedule given below. Once the closing date has passed, re-registration and payment of regular tuition is required in order to obtain credit for the work completed.

N Grades Received

Must be Removed Before

Summer term	August 1 of the following calendar year
Fall term	December 1 of the following calendar year
Winter term	March 1 of the following calendar year
Spring term	May 1 of the following calendar year

NC No Credit — grade assigned when Credit-By-Examination has been attempted and student did not achieve acceptable performance level of at least C. There is no effect on the grade point average.

P Pass — grade assigned when student has elected the Pass/Fail grading option. A maximum of ten credits may be selected for this option and the P grade has no effect on the grade point average. Failure to achieve at the minimum D- level results in a grade of E which will affect the grade point average.

Q A suspended grade — for courses at the 600 level only in which work is not scheduled for completion until after the quarter closes. Because of the nature of these courses which often extend beyond a year, no four quarter time limit is required.

R Research in Progress — doctoral programs only.

S Satisfactory — a satisfactory grade that may be given for thesis, research, independent study, off-campus courses, field experience type courses and in non-credit courses.

W Withdrawal — official withdrawal.

Y Audit — course for which no credit is given.

YW Audit Withdrawal — registered but did not attend through end of course.

Grading — Alternative Modes Pass/Fail Option (P/E)

Undergraduate students may elect a pass/fail option in free elective courses only, and under the following conditions:

1. Student must include P/E on the registration form and may change to or from P/E only during the drop/add period.
2. Ten quarter credits graded P/E, regardless of number of courses, is the maximum acceptable toward a bachelor's degree.
3. The P/E grading option is not allowed for major requirements or university core. Should the student elect a course P/E and then change major so that the course would be required, the student's Dean will make final determination as to applicability of the credit toward graduation.
4. Only one P/E course may be selected in a given quarter.
5. No graduate courses (500-699) are open to P/E grading.

Courses elected as P/E will appear on the student's permanent record and will be graded:

P (Pass) — minimum passing grade equivalent to D-
E (Fail)

Courses in which a P grade is given will be counted as completed credits but will be excluded from computation of the grade point average. An E, or failing grade, will be reflected in the grade point average and the course will not be counted as completed.

A minimum of 90 credits graded A through D- must be completed at Seattle University to qualify for graduation with honors. Courses graded P/E do not count toward this total of 90.

Mandatory Credit/Fail (CR/E)

Music practice courses, some field experiences and other courses so designated by individual departments are only graded credit (CR) or fail (E). When passed with the minimum acceptable standard of D- or above, the course will be graded CR and credit will be granted. There will be no effect on the grade point average. Should the student fail to satisfy the instructor's minimal expectations, the course will be graded E and will be included in the computation of the grade point. To qualify for graduation with honors, a minimum of 90 credits must be completed at Seattle University graded A through D-. Credits from mandatory CR/E courses will not count toward the 90 minimum.

Credit/No Credit (CR/NC)

The CR/NC grading mode is reserved for Credit-By-Examination. Minimum achievement level for receiving credit is C. Neither CR nor NC affects the grade point average. See Credit-By-Examination section.

Grade Point Average (Policy 75-2)

Seattle University requires that undergraduate students maintain a C average, which is equivalent to a cumulative 2.00 grade point average on a 4.00 scale. Requirements of professional schools may be higher and individual programs may have special grade requirements.

The grade point average is computed by dividing the total number of quality points achieved by the total number of credit hours attempted in which the student earns a letter grade.

Graduate students must maintain a B average, which is equivalent to a cumulative 3.00 grade point average on a 4.00 scale.

Grade Reports

Student quarterly grade reports are mailed at the end of each quarter. The University does not hold itself responsible for grade report errors unless the Registrar is notified of the error within six months after the date of issue of a grade point.

Majors

Major requirements within each Department or School are outlined in this Bulletin under "Departmental Requirements" or "Degree Requirements."

Minors (Policy 84-1)

Departments or Schools offering undergraduate minors outline specific requirements in this Bulletin under "Departmental Requirements" or "Degree Requirements." Minors are granted with the following conditions:

1. Minors will be posted to a student's record concurrent only with a first undergraduate degree.
2. Minors cannot be earned within the 135 credit MRC II program.
3. A minor cannot be earned using courses which comprise the major in one of the general studies degrees.
4. The Bulletin under which the student receives an undergraduate degree will stipulate course work for a minor.
5. Minors must include at least 30 quarter credits, including a minimum of 6 courses.
6. A maximum of 15 quarter credits of course work graded C (2.0) or better may be transferred from other regionally accredited post-secondary institutions.
7. No more than 5 quarter credits in a minor can be graded CR/NC. Additionally, the cumulative grade

point average for all courses used in the minor can be no less than that applied to majors within the department sponsoring the minor.

Part-Time Student

For academic reporting purposes, fewer than 12 credits per quarter is considered part-time for undergraduate students, while fewer than eight credits per quarter is part-time for graduate students.

Probation

If a student falls below the standard required for graduation, he/she may be placed on probation and given the opportunity to improve the quality of work before final dismissal. A student will be placed on probation if the cumulative grade point average falls below 2.00 or the minimum required by a professional school.

Readmission (Policy 76-10)

Students who have been absent from Seattle University for one or more quarters are required to fill out an application for readmission. A re-entering student who has attended another postsecondary institution since withdrawing from Seattle University must submit an official transcript to the Registrar before application for readmission can be considered. Credit for courses completed elsewhere may be transferred under the conditions listed under "Transfer of Credit from Other Institutions."

Records (Policy 76-9)

As required by federal legislation, Seattle University has a policy on the rights of students to privacy of their educational records and access to the information on file. Student directory information will be published by the University unless a student requests in writing that it not be released. Such requests must be filed with the Registrar by the fifth day of any term. Records policy includes the right of the University to place a hold against the transcript of a student with a financial obligation and to deny re-registration until all debts owed the University have been paid. The full policy statement including right of appeal may be obtained from the Registrar.

Registration

All students must register on the dates published.

No registrations are permitted after the fifth class day. A late registration fee is assessed after the first official class day of the quarter. Students registering late are held responsible for absences thus incurred.

No person may attend any University course unless officially registered.

Registration Changes

Students are held accountable for completing every course entered on their registration forms. If it is necessary to drop or add a course, the student must obtain a change form from the Registrar, obtain an adviser's approval and return the signed form to the Registrar by 4:00 p.m. on the fifth class day of each term.

Repeating a Course (Policy 77-2)

An undergraduate student who receives a grade of C- or below in a course may repeat the course. Some schools and major departments require that students repeat a required course under some conditions. The grade

earned the second time will be posted to the permanent record. The grade earned the second time will be used in computing the cumulative grade point average, although course credits will be counted only once toward a degree. The original grade will remain on the record. No student will be allowed to register for any single required course more than three times including registrations resulting in grades of NC, I and W.

If credit has been granted for a course taken at another institution and then the course is repeated at Seattle University, the transfer credit is revoked and the Seattle U credit and grade are granted. A transfer student who has registered three or more times for a course at another institution without successfully completing it will be allowed to register for the course at Seattle University only once.

A graduate student must repeat a required graduate course graded D+ or below and may repeat a graduate course graded C+ or below only once. The grade earned the second time will be used in computing the grade point average. The original grade will remain on the record.

Transcripts (Policy 76-3)

Students may obtain official transcripts from the Registrar's office. No official transcript will be released for students with a financial obligation to the University.

Transcripts and other enrollment certifications should be requested at least one week before they are required. Transcripts cannot be issued during the period of registration, examinations, or commencement.

The University is not responsible for any error on a transcript that is not brought to the attention of the Registrar within six months of the closing date of the quarter in which the error occurred.

Transfer of Credit From Other Institutions (Policies 77-1, 79-1, 75-16, 75-17 and 75-26)

Regular undergraduate students who have attended other colleges may have credits transferred to Seattle University under the following conditions:

1. An official transcript must be filed with the Registrar. Deadlines are as follows:

Courses completed Summer Term	December 1
Courses completed Fall Term	March 1
Courses completed Winter Term	May 1
Courses completed Spring Term	August 1
2. Work graded "D" (1.0) or higher will be allowed for transfer except for departmental requirements in the Schools of Arts and Sciences, Business, Engineering, and Nursing where "C" (2.0) is the minimum.
3. Credit transferred from two-year colleges may be applied to University freshman and sophomore years only. Transfer of such credit may not exceed 90 quarter credits.
4. No credit is transferable from a community college after junior level (90 quarter credits).
5. For admission with advanced standing, no more than 135 quarter credits will be accepted toward a bachelor's degree requiring four years of college study. All transfer students must take at least two courses in their major field of study at Seattle University and meet philosophy and theology requirements. Consult pages 26-28 for a listing of required courses in philosophy and religious studies.

6. The final 45 credits of the degree must be completed at Seattle University.
7. Credit earned through extension courses may be accepted if the institution offering such work is a member of the National University Extension Association. No more than 45 quarter credits of extension credit will be accepted. Credit earned through correspondence shall not exceed 12 quarter credits and must be included in the extension credit total of 45 quarter credits.
8. Credits over 10 years old will be reviewed (Policy 77-1) to determine transferability.
9. Since the SU grade point reflects only work done at this University, the grade point average cannot be improved by repeating elsewhere a course failed at SU.
10. Credits from unaccredited and newly accredited schools and non-traditional programs are subject to additional review prior to being transferred. See Policy 79-1 for additional information.
11. Credits and degrees from branches of degree-granting institutions which reside outside of their regional accrediting bodies are subject to review per Policy 79-1.
12. Credits may be granted for appropriate military training in accordance with Policy 75-26.

Withdrawal

The Registrar's office must be officially notified when a student withdraws from one or more of his/her courses. The withdrawal form is obtained from the Registrar and presented to the adviser, instructor, dean and Registrar in that order for approval and signature. In an emergency, notification of withdrawal may be made by telephoning the dean of the school or Registrar.

The official withdrawal is completed only when the approved card is presented to the Registrar within the specified time limit. A grade of W will be allowed until the eighth class day from the end of the quarter.

Degrees

Official Commencement Exercises are held once a year in June. All responsibility for fulfilling the requirements for graduation rests with the individual student.

Application for a Degree

Application for a degree must be made at the Registrar's Office within the period indicated in the University calendar or other official publications. Candidates for a degree normally file applications during the quarter preceding their final registration. A receipt for the graduation fee must be presented to obtain the necessary application forms.

Application For a Certificate

Application for a certificate must be made at the Registrar's Office within the first four weeks of the student's last quarter in a certificate program. A receipt for the certificate fee must be presented to obtain the necessary application forms.

Degree Requirements—Bachelor's (Policies 75-1 and 76-2)

Students are held to degree requirements in effect at the time of first enrollment. Students who are readmitted after an absence of one calendar year or who change their majors are held to degree requirements in effect at the time of readmission or change of major. Students may, by academic action, elect to graduate under degree requirements specified in subsequent **Bulletins of Information**; under no circumstances will the requirements from earlier **Bulletins of Information** be applied.

Candidates for an undergraduate degree must meet the requirements listed below:

1. Core curriculum requirements and specific requirements of the college or school from which the student expects to graduate must be fulfilled. A minimum overall grade point average of 2.00 must be achieved and a gpa of 2.00 is required in departmental requirements of the students major. Higher grade point average requirements pertain in certain programs. See individual program section for requirements.
2. A minimum of 180 credits is required for the baccalaureate degree, except for graduates of Matteo Ricci, where 135 credits is the minimum. However, only students matriculating as freshmen beginning September 1963 or later, and transfer students matriculating January 1966 or later, are eligible to graduate with 180 credits. Students who matriculated before these dates will be required to meet minimum requirements in effect at the time they were last enrolled as full time students.
3. A minimum of 15 credits in philosophy and 10 credits in theology and religious studies are required in all degree programs. See page 26 for specific requirements.
4. The senior year must be spent in residence at the University, which shall be understood to mean the final 45 credits of degree requirements. Such work is to be taken in the University under the direction of members of the faculty. In the case of Seattle University students enrolled in AFROTC at the University of Washington this requirement may be waived for Aerospace studies.
5. All degree requirements must be computed within 10 years of the date on which the college work was begun.
6. Financial obligations toward the University must be satisfied.
7. Students working for a second baccalaureate degree, either consecutively or concurrently, must complete a minimum of 45 credits beyond the requirements of the first baccalaureate degree and complete all specific requirements of the new program. These 45 credits must be completed in residence at Seattle University.

A minimum of one course (5 credits) in philosophy and one course in theology and religious studies (5 credits) is required. Students who complete this minimum of 10 credits in philosophy and theology and religious studies at Seattle University or elsewhere as part of a first bachelor's degree have fulfilled this requirement.

Honors at Graduation (Policies 75-12 and 75-21)

Graduation with honors requires completion of a minimum of 90 credits in residence at Seattle University in courses graded A through D. Should a student elect the CR/NC option for any one course as part of the 90 credit

minimum, honors eligibility is forfeited. In programs where CR/NC grades are mandatory for required courses, such courses may be allowed toward the minimum 90 credits, but no student may be considered for honors with less than 80 graded credits. Petitions for honors under this condition must be filed with the Dean and the Registrar by May 1.

For students graduating through June 1988:

Cum Laude	3.40
Magna Cum Laude	3.65
Summa Cum Laude	3.90

For students graduating August 1988 or later:

Cum Laude	3.50 and at least 90 SU graded credits
Magna Cum Laude	3.70 and at least 115 SU graded credits
Summa Cum Laude	3.90 and at least 135 SU graded credits

Special Awards

The President's Award — Awarded to the graduating senior who has maintained the highest scholarship throughout four years of college work, as determined by grades and the judgment of the academic deans.

Core Curriculum

A New Model Core Curriculum For Seattle University

"A Jesuit Liberal arts education assumes that you become what you desire. All the courses in art and literature, in mathematics and science, in history, economics or business, in philosophy or theology aim at helping you clarify, broaden and deepen your most important question in life: 'What do you REALLY want?' When that question is deepened, most of us discover that what we really want is the knowledge, skills, and power to build a world of justice and love."

John Topel, S.J., Vice President for Academic Affairs

The New Model Core Curriculum introduces all Seattle University students to the unique tradition of Jesuit liberal education. The curriculum results from four years of discussion and work by over 100 faculty and administrators in response to a call by students and teachers for a more integrated way of learning. In accord with Seattle University's Mission Statement, the New Model Core Curriculum has three aims:

1. To develop the whole person for a life of service.
2. To provide a foundation for questioning and learning in any major or profession throughout one's entire life.
3. To give a common intellectual experience to all Seattle University students.

This New Model Core Curriculum has several new characteristics:

- It provides an integrated freshman year and a special orientation for all students
- It gives order and sequence to student learning
- It provides experience in the methods and content of the range of liberal arts, sciences, philosophy, and theology
- It calls in all classes for active learning, for practice in writing and thinking, and for an awareness of values
- It encourages a global perspective and a sense of social and personal responsibility.

The New Model Core Curriculum provides this ordered experience in three phases.

PHASE ONE ('Foundations of Wisdom') gives a student the basis to move from experience to understanding and then to critical judgment and responsible choices. The goal of this first phase is to develop several foundations of liberal learning:

- A. Foundational habits — facility in asking the right questions, in critical and creative thinking, in writing and speaking skills, and in mathematical literacy.
- B. Foundations of culture — familiarity with the basic ways of knowing through a study of Western civilization, primarily in its history, literature, science, and fine arts.

PHASE TWO ('Person in Society') helps a student to expand horizons by confronting major modern issues. Here the student learns to interpret and to make judgments through the methods used in the human science, philosophy, and religious studies. Building on the foundational skills and awareness of literature, history, science, and fine arts (from Phase One), the student delves into the issues and questions raised by economics, political science, psychology, and sociology. Along with this study, he or she also discovers the philosophical and theological assumptions which underlie the patterns of human experience in society today.

PHASE THREE ('Responsibility and Service') has a new goal: to help the student prepare more directly for a life of service in the light of authentic human and Christian values. The first course in this phase is an ethics course, which is followed by a second theology course. In addition, the student takes one interdisciplinary course which addresses a major contemporary problem from a number of approaches. Finally, the student concludes his or her university education with a Senior Synthesis which ties together liberal learning with professional studies. What is special about Phase Three is its emphasis on evaluative activities which are an essential part of responsible service.

How do these parts of the core curriculum fit together? Since many of the courses are prepared by teams of teachers, the courses connect with one another and build in sequence so that the student gets a sense of putting things together. In Phase One, the courses in writing and critical thinking as well as the courses in history and literature are connected and taught to the same groups of students in 'clusters' or 'sequences' of ten credits each. The same connections are made in Phase Two between the Philosophy of the Person and the first Social Science course. Finally, the entire curriculum begins with an Orientation in the first quarter and ends with an Interdisciplinary course and a Senior Synthesis in the final year.

A special adaptation of the four-year core curriculum is being prepared to meet the needs of transfer students.

The NEW CORE CURRICULUM

Students at Seattle University take a basic program of liberal studies courses called the core curriculum. Additional requirements, exceptions, and stipulated courses are established by the schools and departments of the University and those sections of this Bulletin should be consulted before choosing core courses. Check course descriptions in the respective departmental sections for prerequisites. All courses fulfilling core requirements must be taken for a letter grade. For each student, no individual course may fulfill more than one core curriculum requirement.

The following three-phased core curriculum is required of all students entering as first year students in 1988-89. The two sequences in Phase One must normally be completed before a student may take courses in Phase Two. All of Phase Two must be completed before a student begins Phase Three. Exceptions to taking the core curriculum in sequence or in phases must have permission of the Dean of Arts and Sciences or the Director of the Core Curriculum. (Transfer students entering Seattle University in 1988-89 are to complete requirements of the previous Core Curriculum as outlined on page 28.)

Phase One: Foundations of Wisdom

WRITING/THINKING SEQUENCE 10 credits

EN 110	Freshman English: Effective Thinking and Writing	5 credits
PL 110	Introduction to Philosophy and Critical Thinking	5 credits
SU 100	Orientation to the University	0 credits

These two courses are to be taken in sequence in a 10 credit block during the Fall and Winter quarters of the freshman year. The non-credit seminar, Orientation to the University required of all first year students is available in workshop and seminar formats.

HISTORY/LITERATURE SEQUENCE 10 credits

HS 120	Introduction to Western Civilization	5 credits
EN 120	Masterpieces of Literature	5 credits

These two courses are to be taken in sequence or a cluster in a 10 credit correlated block during the Winter and Spring quarters of the freshman year. (Students in the School of Science and Engineering may take this sequence in Spring of the first year and Fall of the second year).

MATHEMATICS 5 credits

Any 5 credit course in mathematics on the 100 level (or above) for which the student is qualified.

SCIENCE 5 credits

Any 5 credit laboratory science course for which the student is qualified.

FINE ARTS 5 credits

FA 120	Exploration in the Arts	5 credits
--------	-------------------------	-----------

Phase Two: Studies of 'Person in Society'

STUDY OF PERSON SEQUENCE 10 credits

PL 220	Philosophy of the Human Person	5 credits
--------	--------------------------------	-----------

SOCIAL SCIENCE I 5 credits

Select one:

PSY 120, SC 120, EC 120, PLS 120, ISS 120

These two courses are normally to be taken in sequence or in a cluster in a 10 credit block.

SOCIAL SCIENCE II 5 credits

Any 5 credit course from among the following courses, as long as the discipline chosen is different from Social Science I taken in the preceding sequence:

EC 271	Principles of Economics: Macro	5 credits
PSY 210	Personality Adjustment	5 credits
SC 200	Social Psychology	5 credits
SC 210	American Society & Culture	5 credits
SC 285	Cultural Anthropology	5 credits
PLS 205	American National Government	5 credits
PLS 231	Diversity & Change	5 credits
PLS 253	Intro to Political Philosophy	5 credits
PLS 260	International Politics	5 credits

Students who major in one of the social science disciplines must take both the required core curriculum social science courses outside of their major department.

THEOLOGY AND RELIGIOUS STUDIES I 5 credits

Any approved 5 credit course selected from RS 200-299.

Phase Three: Responsibility and Service

ETHICS 5 credits

Students have the option to select one of the following:

PL 250	Ethics	5 credits
PL 252	Business Ethics	5 credits
PL 255	Medical Ethics	5 credits
PL 256	Engineering Ethics	5 credits
PL 257	Ethics and Criminal Justice	5 credits

THEOLOGY AND RELIGIOUS STUDIES II 5 credits

Any approved 5 credit courses selected from RS 300-399

INTERDISCIPLINARY COURSE 3 — 5 credits

Any 3-5 credits which deal with a contemporary issue from a multidisciplinary perspective. A list of approved interdisciplinary courses will be published each quarter.

SENIOR SYNTHESIS 3 credits

Any 3 credit course or project approved by the student's major department as fulfilling the objectives of the Senior Synthesis requirement.

The CORE CURRICULUM*

*This core curriculum applies only to transfer students and students enrolled prior to fall 1987.

Students at Seattle University take a basic program of liberal studies courses called the core curriculum. Additional requirements, exceptions and stipulated courses are established by the schools and departments of the University and those sections of this Bulletin should be consulted before choosing core courses. Check course descriptions in the respective departmental sections for prerequisites. All courses fulfilling core requirements must be taken for a letter grade.

Core Exceptions

Business, engineering, nursing and science students should consult individual program sections for their history, philosophy and social science requirements.

Required Sequences

ENGLISH SEQUENCE 10 credits

EN 110 Freshman English 5 credits

and any one of the following:

EN 132 Masterpieces of American Literature 5 credits
 EN 133 Masterpieces of World Literature 5 credits
 EN 175 Introduction to Literature 5 credits
 EN 230 Introduction to Fiction 5 credits
 EN 240 Introduction to Drama 5 credits
 EN 283 Classics of Black American Literature 5 credits

HISTORY SEQUENCE 10 credits

Students have the option to select one of the following:

Plan 1 — Hs 104: Western Civilization I and Hs 105: Western Civilization II

Plan 2 — Hs 104 and any of the following: Hs 231: Survey of the United States; Hs 241: Afro-American History; Hs 271: Survey of Russian History; Hs 281: Survey of the Far East since 1900.

Plan 3 — Hs 105 and any of the following: Hs 231: Survey of the United States; Hs 241: Afro-American History; Hs 271: Survey of Russian History; Hs 281: Survey of the Far East since 1900.

MATHEMATICS/SCIENCE SEQUENCE 10 credits

Any two 5-credit courses in mathematics, science or engineering for which the student is qualified. The following are recommended:

BL 101 Principles of Biology 5 credits
 BL 182 Elementary Human Anatomy and Biology 5 credits
 BL 185 Biology of Human Sexuality 5 credits
 BL 190 Principles of Physical Anthropology 5 credits
 CH 110 Fundamentals of Chemistry 5 credits
 CSC 113 Introductory Programming with BASIC 5 credits
 CSC 114 Introductory Programming with FORTRAN 5 credits
 ISC 110 Science, Technology and Society 5 credits
 ISC 201 To Feed the World 5 credits
 ISC 202 To See the Light 5 credits
 ISC 205 Biophysical Principles 5 credits
 ISC 207 Air and Water 5 credits
 ISC 208 Sun, Food and People 5 credits
 ISC 209 Energy and Mineral Resources 5 credits
 HI 230 Health Care Delivery System 5 credits

MT 107 Mathematics: A Practical Art 5 credits
 PH 110 Introduction to Astronomy of the Solar System 5 credits
 PH 111 Introductory Stellar Astronomy 5 credits

Business, nursing, mathematics, engineering and science majors should consult their departmental programs for mathematics/science requirements.

PHILOSOPHY SEQUENCE 15 credits

PL 110 Philosophical Problems — The World 5 credits
 PL 220 Philosophical Problems — The Human Person 5 credits

and any other 5-credit course in philosophy for which the student is qualified. Consult the course listing in the Philosophy department section of this Bulletin for third course options.

Transfer students with junior or senior standing (90 or more credits) are usually required to take two philosophy courses after transferring. Transfer students with freshman or sophomore standing (89 or fewer credits) are usually required to take three philosophy courses.

SOCIAL SCIENCE SEQUENCE 10 credits

Any two 5-credit courses in economics, political science, psychology and/or sociology for which the student is qualified, excluding courses in statistics or research methods or design. Students who major in one of the social science disciplines must select two courses outside of their major department. The following are recommended:

EC 120 Introduction to Economic Society 5 credits
 EC 271 Principles of Economics — Macro 5 credits
 EC 272 Principles of Economics — Micro 5 credits
 EC 371 History of Economic Thought 5 credits
 PLS 202 Government and the Economy 5 credits
 PLS 205 American National Government 5 credits
 PLS 208 The Judicial Process 5 credits
 PLS 210 Introduction to Local/State Politics 5 credits
 PLS 230 Industrial Democracies 5 credits
 PLS 260 Introduction to International Politics 5 credits
 PLS 253 Introduction to Political Philosophy 5 credits
 PSY 100 Introductory Psychology 5 credits
 PSY 210 Personality Adjustment 5 credits
 PSY 315 Abnormal Psychology 5 credits
 PSY 322 Psychology of Growth and Development 5 credits
 SC 101 Fundamentals of Sociology I 5 credits
 SC 200 Perspectives in Social Psychology 5 credits
 SC 210 American Society and Culture 5 credits
 SC 362 Deviant Behavior 5 credits

THEOLOGY AND RELIGIOUS STUDIES SEQUENCE 10 credits

Students must take in sequence one 5-credit course from Level 1 (200 numbers in the Bulletin listings) and one from Level 2 (300 numbers). Numbers in the 400s are for majors, minors and for those desiring electives beyond the core.

Students should begin their theology sequence in the Sophomore Year or later and should have taken some philosophy courses.

Transfer students with junior or senior standing (90 or more credits) must take one theology course from Level 1 or the level their background fits them for (consult the Chairperson). Transfer students with freshman or sophomore standing (89 or fewer credits) must take two theology courses, one from Level 1 and one from Level 2, in sequence.

College of Arts and Sciences

College of Arts and Sciences

G. David Pollick, Ph.D., Dean

Objectives

The College of Arts and Sciences, the largest undergraduate division of Seattle University, is dedicated to the ideal that a liberal education in the arts and sciences best prepares a student for a rich and fruitful life. The philosophy upon which the College is based is one which recognizes not only that its students must be prepared to make a living, but live fully, in a rapidly moving and complex world. All undergraduate students in the University take core courses in the College, for in them are found the intellectual, social, cultural and spiritual riches of Western civilization.

The College aims at developing not only depth in some one area of knowledge, but also the breadth of learning, understanding and truth which is essential to a rich human life. The student is led, by means of the various academic disciplines, to see the world in its major aspects of reality. Students are helped to discover the interrelationships of the physical, social, and artistic dimensions of the world, along with their own relationship to the world—especially their power and responsibility to shape it for their future.

Organization

The College comprises 18 administrative subdivisions, of which 11 are departments in a specific academic subject. The departments are English, Fine Arts, Foreign Languages, History, Communication/Journalism, Military Science, Philosophy, Political Science/Public Administration, Psychology, Sociology, Theology and Religious Studies.

The program divisions are Criminal Justice, General Studies, Global Studies, Honors and Prelaw.

Certificate programs are offered in Alcohol Studies, and Sociology.

Each department chairperson or program director, in collaboration with proper or assigned faculty, arranges study programs and counsels individual students. All programs are coordinated and supervised by the Dean of the College. Students wishing to inquire about programs in detail should consult either the Dean or the respective department chairperson or program director.

Admission Requirements

Students entering the College must satisfy all entrance requirements for the University as outlined in the Admission section in this bulletin. Some departments list further requirements for admission into certain major programs. Concerning these the respective departmental sections in this bulletin should be consulted.

Effective Fall quarter 1989 all applicants for admission to the College of Arts and Sciences must have completed two years of high school foreign language study with a grade of 2.0 (C) or higher. Applicants from another regionally accredited college or university must have completed two quarters of college foreign language study (normally 102) if they have not previously completed two years of high school foreign language study. Students who have not completed two years of high school foreign language study or its equivalent, will be required to make up this deficiency during their first year in the University.

Bachelor of Arts with a major in: Art, Communication/Journalism, Criminal Justice, Drama, English, Foreign Languages, General Studies, History, Humanities, Music, Philosophy, Political Science/Public Administration, Psychology, Social Sciences, Sociology and Theology and Religious Studies.

General Program Requirements

Students in the College of Arts and Sciences must satisfy the core curriculum requirements of the University given on pages 26-28 of this bulletin. An additional requirement of a second five unit course in history chosen from either HS 221 or 231 is also required of all students.

Additional specific requirements are set by the department or program division in which the student's major program is pursued. For these requirements consult the respective sections in this bulletin.

Subject Majors

In all programs having a specific subject major, the number of required courses and hours varies according to the department or program division. The minimal number required in any subject major is 40 hours; majors in departments having core sequences must consist of 35 hours beyond the core sequence.

Alcohol Studies Programs

Linda Roise, M.A., Director

Objectives

This program is designed to provide a strong background for work in alcoholism and drug abuse treatment and rehabilitation, in education and prevention, in social services agencies, in industry or in referral centers.

It also supplements the training of degreed professionals as well as students preparing to work in psychiatry or psychology, nursing, social work, rehabilitation, criminal justice, community services or allied fields.

Degree Programs

The B.A. in Social Science with a Specialty in Alcohol Studies includes both the Certificate in Alcohol/Drug Studies and the Advanced Certificate (minimum of 41 credits of the 65 beyond the core, as in General Studies Program). The Certificate in Alcohol/Drug Studies may also be a part of the B.A. in Rehabilitation, Psychology, or Criminal Justice.

Master's degrees with a Specialty in Alcohol Studies may be earned in Rehabilitation or Counseling; field experiences must be done under the appropriate graduate programs instead of ALC 407-408, but will also count for the Certificate.

Certificate in Alcohol/Drug Studies

A Certificate in Alcohol/Drug Studies will be granted upon successful completion of 25 credits, which must include the following courses: Alc 400 (or Psy 490), 401, 402, 403, 405, 407, 408, 424, 425, with a 2.50 minimum g.p.a.

Certificate candidates may register as transient students. The Certificate in Alcohol/Drug Studies is a combination of classroom instruction (19 credits) and supervised field experience (6 credits) under experienced counselors. One of the field experiences must be taken in an approved alcoholism agency, and the other in an approved drug abuse agency. A Certificate program should be completed within three years.

Advanced Certificate in Alcohol/Drug Studies

An Advanced Certificate in Alcohol/Drug Studies is granted upon completion of 16 credits in approved alcohol-related courses with a minimum g.p.a. of 3.00, beyond the 25 credits applied to the above certificate. A new application must be submitted and only those who earned the Certificate in Alcohol/Drug Studies with a minimum g.p.a. of 3.00 will be considered as candidates for the Advanced Certificate.

Alcoholism and Drug Abuse Courses

- | | | |
|----------------|--|------------------|
| ALC 400 | Survey of Alcoholism (Symposium)
(PSY 490) History, scope, physiological, social, psychological and family aspects of alcohol problems. Drunk driving. Progression, symptoms, types of alcoholics. Nature of the addiction: disease concept, causality, treatment, prevention. | 3 credits |
| ALC 401 | Pharmacology and Physiology of Alcohol Use
Ingestion, absorption, metabolism. Effects of different blood alcohol levels. Psychiatric complications: damage to brain, liver and other organs. Evaluation of results. Prerequisite: Alc 400. | 2 credits |
| ALC 402 | Counseling Principles and Techniques
Interview techniques. Intake and intervention vs. long-range therapy. Supportive, motivational, directive vs. non-directive counseling. Confrontation, role-playing, video-tape playback. Prerequisite: Alc 400. | 4 credits |
| ALC 403 | Personal and Social Rehabilitation
Motivation and personality reconstruction in the recovering alcoholic. Post-detoxication, long-range sobriety; relapses, dry drunk. Spiritual aspects. Family and social adjustments. Prerequisite: Alc 400. | 2 credits |
| ALC 404 | Agency Administration
Personnel policies, budgeting, financing, office management, public relations, ethics. Informational and educational policies. Relations with school systems, courts, professions and agencies, clergy. Prerequisite: Alc 400. | 2 credits |
| ALC 405 | The Law and Alcohol
Legal implications and consequences of alcohol-related offenses. Deferred prosecution. Uniform Alcoholism and Intoxication Act. Impaired driving laws. Court structure and jurisdictions. Prerequisite: Alc 400. | 2 credits |
| ALC 406 | Cross-Cultural Counseling
Special problems and techniques, understanding of cultural background and instruction by members of minority groups. Prerequisite: Alc 400 and 402. | 2 credits |

ALC 407 Field Experience I **3 credits**
Supervised work in an agency, clinic, rehabilitation center, referral center. Oral and written reports by student required. Prerequisite: Alc 400 and 402. Mandatory CR/NC

ALC 408 Field Experience II **3 credits**
Prerequisite: Alc 407. Mandatory CR/NC

ALC 410 Individual Research **1-3 credits**
Open only to students with sufficient academic background to pursue independent study. Permission of director required.

ALC 411 Advanced Counseling **2 credits**
Instruction and supervised practice in counseling techniques of special value in counseling alcoholics. Play-back video tape equipment used. Two and one-half hours per week. Prerequisite: Alc 402.

ALC 412 Group Dynamics in Treatment **2 credits**
Role playing as a means to development of self awareness; dynamics of group interaction; introduction to psychodrama. Two and one-half hours per week. Prerequisites: Alc 402, 403 and 407.

ALC 413 Alcoholism Schools Workshop **2 credits**
Goals, methods, and skills in teaching Alcohol Information Schools (AIS) and follow-up classes, and court referral schools for those driving while intoxicated (DWI). Problems with defensive and hostile clients. Prerequisite: Alc 400 or equivalent.

ALC 414 Case Management and Assessment **2 credits**
Procedures and skills used in alcoholism referral and treatment agencies. Intake interview, client evaluation, case-writing, pre-sentence report, record-keeping and confidentiality. Prerequisite: Alc 402.

ALC 415 Modes of Therapy in Treatment **2 credits**
Overview of various therapies commonly used with recovered alcoholics and their spouses. Theory, principles

and application of techniques. Individual and group practice. Prerequisites: Alc 403 and Alc 407.

ALC 416 Alcohol and Youth: Education, Problems, Prevention **2 credits**
Alcohol-related problems among young people, stressing education and prevention. Teen-age alcoholics, children of alcoholics, polydrug abuse and the young drinking driver.

ALC 417 Employee Assistance Programs **2 credits**
EAP's offer assistance via assessment and referral services to all employees troubled by alcoholism, other forms of drug abuse, emotional distress, family crises or other problems. The course will include: formulating and promulgating a company-wide policy; implementing programs; training supervisors; and evaluating success and cost-effectiveness. Prerequisites: Alc 400.

ALC 418 Alcoholism and The Family **2 credits**
Alcohol-related problems in the family, including alcoholic, spouse, children and significant others. Individual and group counseling. Married couples and team approach as alternatives. Prerequisite: Alc 402 and 403.

ALC 419 Advanced Physiology and Pharmacology of Alcohol and Other Drugs **2 credits**
Current research and thought regarding the effects of alcohol on all body tissues, with implications for treatment. Fetal alcohol syndrome, brain, liver, endocrine and other damage. Prerequisite: Alc 401.

ALC 420 Alcoholism and Drug Abuse Seminar **2 credits**
An advanced seminar on selected current topics in alcoholism and alcohol-related problems. Prerequisite: 10 credits in Alcohol Studies, and permission of Director.

ALC 421 Advanced Project or Research **2-5 credits**
Replication, original research, or scholarly investigation which demonstrates mastery of basic fact-finding, experimental design, evaluation and presentation of results. A graduate project or master's thesis will substitute. Prerequisite: Basic Certificate in Alcohol Studies, and permission.

ALC 422 Alcoholics Anonymous as a Resource **1-2 credits**
History, structure, traditions and program of A.A. Psychology of the 12 Steps. Use of A.A. as a treatment resource; cooperation without affiliation.

ALC 424 Drug Abuse: Social Aspects **2 credits**
History, scope, classification of drugs, legal aspects. Patterns of use, abuse, and addiction. Treatment, recovery and rehabilitation methods and strategies. Prerequisite: Alc 400.

ALC 425 Drug Abuse: Physiological Aspects **2 credits**
Pharmacology and physiology of drug action. Prescription and non-prescription drugs. Interactions among drugs, polydrug abuse. Actions of drugs on the central nervous system. Recovery from addiction. Prerequisites: Alc 401 and 424.

ALC 491 Special Topics **1-5 credits**
ALC 492 Special Topics **1-5 credits**
ALC 493 Special Topics **1-5 credits**

Communication

Gary L. Atkins, M.A., Co-Chairperson
Sharon James, Ph.D., Co-Chairperson

Objectives

To the University's liberal studies program, the Communication Department adds courses designed to give students an awareness of the role of communication in human society, as well as practical experience in developing their own talents in oral, written, and visual communication.

The department offers two majors, both leading to a Bachelor of Arts degree. One major is in Communication Studies. The other is in Journalism and Mass Communication. Within the Journalism/Mass Communication major, students may specialize in either of two areas: News-Editorial Journalism (for print and broadcast media) or Public Relations. The department also offers minors in either Communication Studies or Journalism/Mass Communication.

The Communication Studies courses aim to provide student with a heightened awareness of oral and visual communication as they occur in a variety of contexts, including interpersonal communication, small group communication, and organizational communication. The courses offer a blend of theoretical understanding and practical experience.

The Journalism/Mass Communication courses aim at developing a student's competence in gathering and disseminating stories through the mass media, using reporting, writing, and graphics skills. JMC majors can emphasize preparation for either journalistic careers in the print or broadcast media, or public relations careers for government or organizations.

General Program Requirements

Students majoring in either Communication Studies or Journalism/Mass Communication must satisfy the Core Curriculum requirements of the University.

All majors must receive a minimum grade of C (2.0) in any Communication Studies or Journalism/Mass Communication courses to be applied toward their major.

Students majoring in Journalism/Mass Communication should acquire sufficient background in political science and economics, such as is provided by the Core offerings in Phase Two (PLS 120-9 or 220-9, EC 120-9 or 220-9). Students selecting the Public Relations track within the Journalism/Mass Communication major are also encouraged to take a mathematics for business course for which they are qualified (Mt 118 or Mt 130) to fulfill their Mathematics requirement during Phase One of the Core. Students lacking the recommended Core background should consult with the Journalism/Mass Communications adviser before enrolling in advanced JMC courses (300- or 400-level). Preparatory work may be required as a condition for admission to advance JMC courses. In addition to completing the necessary course work, majors who intend to pursue careers in Journalism or Public Relations are expected to gain actual experience and to build a portfolio of work by participating in student media and in off-campus internships.

Majors in both Communication Studies and Journalism/Mass Communications are urged to use their electives and adjunct course requirements to establish minors or substantial depth in other fields. Particularly recommended for Communication Studies majors are: English, Psychology, Sociology, Global Studies, Journalism/Mass Communication, Business, and Education. Especially recommended for Journalism/Mass Communication majors are: Political Science, Economics, History, Global Studies, Business, or one of the Sciences. Students pursuing minors should plan their course schedules with their adviser as early as possible to insure that all necessary requirements can be met.

Departmental Requirements

Bachelor of Arts, Communication Studies — 60 credits, of which 8 also count toward requirements fulfilling the University Core (PL 258, Communication Ethics, and COM 490, Images & Choices, senior synthesis).

COM 200	Media, Society & the Individual	5 credits
COM 230	Public Speaking	5 credits
COM 260	Interpersonal Communication	5 credits
COM 290	Dynamics of Communication	5 credits
COM 361/2	Small Group Communication	5 credits
COM 383	Organizational Communication	5 credits
PL 258	Communication Ethics	5 credits
COM 490	Images and Choices	5 credits
COM	300- and 400-level electives	15 credits
Advanced Writing Elective: JMC or English course		5 credits

Note: The degree program in Communication Studies is being introduced over a period of two years. Additional credits will be required in courses to be specified at a later date. Required and elective courses will be developed in the areas of rhetoric and argumentation, and communication and the social sciences. The entire Communication Studies curriculum will be in place by 1989-1990.

Bachelor of Arts, Journalism & Mass Communication — 65 credits, of which 8 also count toward requirements fulfilling the University Core (PL 258, Communication Ethics, and COM 490, Images & Choices, senior synthesis).

COM 200	Media, Society & the Individual	5 credits
JMC 210	Media Writing I	5 credits
JMC 220	Media Writing II	5 credits
JMC 280-2	Practicum I, II, III	5 credits
+ at least 2 additional credits of practice either in JMC 380-2 or in an internship (JMC 496-8)		
COM 290	Dynamics of Communication	5 credits
Three advanced writing courses chosen from:		
JMC 300, 305, 310, 315, 320		15 credits
One advanced editing course chosen from:		
JMC 330 or 335		5 credits
JMC 360	Communication Rights & Law	5 credits
PL 258	Communication Ethics	5 credits
COM 490	Images & Choices (Senior Synthesis)	5 credits
JMC Electives	300/400 level	5 credits

Journalism Track

Students concentrating in News-Editorial Journalism, print or electronic, **must** take JMC 300 to meet one of their three advanced writing requirements. Students emphasizing electronic Journalism **must** also complete at least one approved course in public speaking; this course does not count as JMC credit but may count toward fulfillment of the student's conjunct course requirements or university electives.

Public Relations Track

Students concentrating in Public Relations **must** take JMC 310 to meet one of their three advance writing requirements as well as JMC 370 as their elective within the major. Students in Public Relations **must** also complete at least one approved course in public speaking and at least one approved course in marketing. These courses do not count as JMC credit but may count toward fulfillment of the student's conjunct course requirements or University electives.

Requirements for Minors

The Department of Communication offers two minors, one in Communication Studies and one in Journalism and Mass Communication. Each requires the completion of 30 credits.

The Minor in Communication Studies

COM 200	Media, Society & the Individual	5 credits
COM 230	Public Speaking	5 credits
COM 260	Interpersonal Communication	5 credits
COM 290	Dynamics of Communication	5 credits
COM 361/2	Small Group Communication	5 credits
Course to be developed: Communication & Motives: Advanced Rhetorical Theory		

The Minor in Journalism/Mass Communications

COM 200	Media, Society & the Individual	5 credits
JMC 210	Media Writing I	5 credits
JMC 220	Media Writing II	5 credits
At least one advanced writing course, chosen from:		
JMC 300, 305, 310, 315, or 320		5 credits
JMC 360	Communication Rights & Law	5 credits
JMC 300 or 400 level elective		5 credits

Conjunct Courses Required of All Majors

The Department of Communication requires all majors to complete 35 credits of courses in certain areas beyond

those required by the University Core or the major. Twenty of these credits must be in communication-related courses outside the major and 15 credits must be in humanities/social science/science classes. Of the 35 credits, at least 20 must be in 300- or 400-level courses. The 35 credits may count toward the establishment of a minor. Students majoring in Communication Studies may select courses from the Journalism/Mass Communication program to fulfill portions of the requirement but are also encouraged to take communication-related classes outside the department. Likewise, students in the Journalism/Mass Communication program may select courses in Communication Studies to fulfill the requirement, but are encouraged to select communication-related classes outside the department. A list of approved classes can be obtained from the department.

Communication Studies

COM 200	Media, Society & the Individual	5 credits
Examination of the relationship between media and the individual in society; impact of mass communications upon interpersonal communications; development of the mass media and theories of its role; issues raised by the creation of "information societies."		
COM 230	Public Speaking	5 credits
Theory and practice of constructing, presenting and analyzing speeches. Emphasis on audience adaptation and the development of critical listening skills. Performance-oriented course.		
COM 260	Interpersonal Communication	5 credits
Communication theory and its application between two or more people. Development of knowledge, skills, and insights into interpersonal communication effectiveness.		
COM 290	Dynamics of Communication	5 credits
Theoretical approaches to understanding the process of communication as it occurs in both interpersonal and media settings. Models and methodologies of communication. Overview of the communication discipline and rhetorical tradition. Prerequisite: One lower division course in Communication Studies.		
COM 291	Special Topics	1-5 credits
COM 292	Special Topics	1-5 credits
COM 293	Special Topics	1-5 credits
COM 361/2	Small Group Communication	5 credits
Experiential-based course designed to improve communication skills and increase awareness of various communication styles in a variety of small group settings. Small group theory, problem solving group behavior, individual communication styles, listening skills, nonverbal behavior, congruent messages. Prerequisite: Junior or senior standing and Com 290 or equivalent as approved by department chair.		
COM 383	Organizational Communication	5 credits
Theories and processes of communication in organizations, including analysis of communication styles and modes in organizations, communication		

variables and strategies, coping with organizational situations. Prerequisite: Com 290 or equivalent as approved by department chair.

COM 490	Images & Choices	5 credits
Develops the students' understanding and skill in interpreting and using visual images. Demonstrates how our society communicates, persuades, informs, identifies and bonds through the use of visual images. Prerequisite: Com 200, Com 290, and senior level standing.		
COM 491	Special Topics	1-5 credits
COM 492	Special Topics	1-5 credits
COM 493	Special Topics	1-5 credits
COM 496	Independent Study	1-5 credits
COM 497	Independent Study	1-5 credits
COM 498	Independent Study	1-5 credits

In addition to the courses listed above, the major in Communication Studies will develop courses covering the following areas:

Argumentation

Principles of effective argumentation and their relation to responsible decision making in a democratic society.

Persuasion

Principles of effective persuasion including the formation and changing of attitudes and belief systems in individuals, organizations and society. Attitude and self belief systems theory, persuasion theory, attribution theory, propaganda and the use of persuasive strategies in individual, organizational and social change.

Communication & Motives: Advanced Rhetorical Theory

Advanced study of communications and rhetorical theory, focusing on the purposes of communication and language. Emphasis placed on communication as symbolic action and on rhetorical criticism.

Communication & Social Behavior

Advanced study of communication theory and its relation to the formation of self and society. Emphasis placed on symbolic interaction, psycholinguistics, and the influence of communication on behavior.

Conflict Resolution

Theory and techniques of conflict resolution and the application of theory to various situational contexts. Styles of resolving conflicts, situational appropriateness and effectiveness of styles, mediation theory, games theory.

Additionally, PL 258 Communication Ethics will be developed in cooperation with the Philosophy Department, to be offered as part of the University CORE.

PL 258	Communication Ethics	5 credits
Ethical responsibilities of the communicator, in both interpersonal and media settings. Critical examination of ethical codes in establishing relationships and conducting communication in a democratic society. Topics covered include: lying, withholding information, conflicts of interest, objectivity, service to audiences. Prerequisites: At least one of the following: COM 200, JMC 210, COM 260 or COM 290.		

Journalism/Mass Communications

JMC 210	Media Writing I	5 credits
Narrative choices and styles common to the non-fiction mass media; using description and dialogue to effectively convey news and information; targeting stories for media audiences; writing with computers and on deadline; basic information gathering using interviewing and library sources.		
JMC 220	Media Writing II	5 credits
Techniques of writing and editing news and feature stories for the print media. Practice in writing, source development, and coverage of beats. Prerequisite: JMC 210.		
JMC 240	Introduction to Still Photography	5 credits
Introduction to the basic theory and techniques of black-and-white still photography. Emphasis on use of the camera and of the darkroom. Students must have use of adjustable 35 mm camera. Lab fee.		
JMC 280-2	Practicum I, II, III	1,1,1 credit
Supervised on-campus practice in writing and editing stories for media audiences.		
JMC 291	Special Topics	1-5 credits
JMC 292	Special Topics	1-5 credits
JMC 293	Special Topics	1-5 credits
JMC 300	Reporting Public Affairs	5 credits
Reporting methods used to gather information as well as monitor power and decision-making in American society, including document research, power structure research, and survey methods; the role of the journalist and ethical responsibilities; examination of specialties within media reporting, including business, environmental and legal reporting. Advanced writing techniques for in-depth stories. Prerequisite: JMC 220.		
JMC 305	Broadcast Writing	5 credits
Techniques of writing news and features for the electronic media. Writing for sound and pictures. Broadcast media style considerations. Prerequisite: JMC 210.		
JMC 310	Public Relations Writing & Research	5 credits
Introduction to research for public relations, including data base use, survey methods, marketing research. Techniques of special project writing: annual reports, media packages. Prerequisite: JMC 210 and JMC 370.		
JMC 315	Magazine & Feature Writing	5 credits
Techniques of writing non-fiction articles for magazines; shaping stories for particular magazine markets and audiences; differences in writing for newspapers and magazines; aspects of freelancing. Prerequisite: For JMC majors, JMC 220. For non-JMC majors, EN 110 and permission of instructor.		
JMC 320	Persuasive & Critical Writing	5 credits
Principles of persuasive writing for a media audience; constructing editorials, opinion columns and critical reviews; study of classical and contemporary models. Prerequisite: EN 110, Junior standing.		
JMC 325	Broadcast Announcing	5 credits
Theory and practice of constructing and presenting information, news and opinion through the electronic media. Rhetorical effects of selecting particular medium, such as audio-only media (e.g. radio) or audio-visual media (e.g. television). Prerequisite: JMC 305.		

JMC 330	Graphics & Editing: Print Media 5 credits Techniques of communicating visually in the print media of newspapers, magazines, and newsletters. Fundamentals of visual literacy, typography, layout and design. Ethical issues facing the visual communicator. Prerequisite: Junior or senior standing.
JMC 335	Production & Editing: Electronic Media 5 credits Production and editing techniques for video. Ethical issues facing the electronic media editor as technical choices are made. This course provides a general knowledge of production equipment and techniques for the communication student, not a detailed training of production technicians. Prerequisite: JMC 305.
JMC 340	Advanced Still Photography 5 credits Photographic composition and editing. Individual projects emphasizing advanced topics in black-and-white photography. Ethical issues confronting photographers. Students must have use of adjustable 35 mm camera. Lab fee. Prerequisite: JMC 240 or equivalent.
JMC 360	Communication Rights & Law 5 credits Philosophy and law of freedom of expression in the United States; judicial and legislative approaches defining the right to communicate. The impact of technology on legal freedoms. Study of specific legal issues such as libel, the right to privacy, regulation of pornography, the right to gather information. Prerequisite: Junior or senior standing.
JMC 370	Public Relations: Cases & Strategies 5 credits Public relations as a management function; policies, procedures and problems; program analysis and case study. Ethical issues confronting public relations professionals. Prerequisite: Junior or senior standing.
JMC 380-382	Practicum IV, V, VI 1,1,1 credit Supervised work in writing, editing or graphics on campus media. Prerequisite: JMC 280-2.
JMC 391-393	Communications and Justice 1-5 credits Special Topics Special courses examining the role of mass communications, journalism and the news media in promoting or hindering peace and the empowerment of people. Offerings vary, but may include: The Mass Media, War and Peace; Journalism and Empowerment; Terrorism, Media and the Law; Communications and International Development.
JMC 425	History of Mass Communications 5 credits Examination of the history of mass communications with an emphasis on the relationship of communication to the manner in which societies construe reality and channel power. The evolution of the concept of "news" and its changing structure; significant historical figures and institutions in the development of mass media. Prerequisite: Junior or senior standing.
JMC 430	Advanced Graphic Communication 5 credits Designing graphic strategies for projects and organizations; advanced layout principles and techniques. Prerequisite: JMC 330.
JMC 491	Special Topics 1-5 credits
JMC 492	Special Topics 1-5 credits
JMC 493	Special Topics 1-5 credits
JMC 497	Independent Study/Internships 1-5 credits
JMC 498	Supervised research or special projects in mass communications. Internships in the mass media. For senior majors only. Permission of instructor and department chair required. Internships require three credits of JMC 280-2 or 380-2 as prerequisite.

Criminal Justice

Michael M. Kelliher, S.J., D.Crim., Director

Objectives

The objective of the Criminal Justice Program is to give the student an overview of the entire system, and then to consider the component parts of that system. Course clusters are offered in the areas of research and planning, criminal law, enforcement, the offender, the victim, and corrections. Field placements crown this effort by placing senior students in an agency related to their special interests in order that they might test their acquired knowledge in a professional setting and situation.

The Criminal Justice Program is designed to accommodate entering freshmen, transfer students, and professionals. For professionals, especially corrections and police officers, we offer courses which may not have been covered in their academy training.

The driving spirit and philosophy of the Criminal Justice Program is one which reflects the basic foundation of Jesuit education—reflection and action. The program seeks to develop a spirit of inquiry in students which asks why not of things not tried, and a facility for thinking critically and reflectively about the issues of justice and law, and the systems that deal with the offender and victim in our complex and ever-evolving society.

Graduates of the program may qualify for careers in public and private law enforcement, crime prevention, juvenile justice facilities and programs, corrections, law enforcement training, education and planning, and other components of the criminal justice system including law school and the subsequent practice of law.

Degree Offered

Bachelor of Criminal Justice

General Program Requirements

Candidates must satisfy the core curriculum requirements of the University as given on pages 26-28 of this bulletin.

Degree Requirements

Bachelor of Criminal Justice

60 credits in CJP, which must include CJP 110 as a prerequisite and the required CJP courses 200, 218, 300, 312 and 318. Majors must also complete an elective block of 25 social science credits.

A minor in Criminal Justice

Consists of 35 credits in CJP, which must include CJP 110 as a prerequisite, and CJP 200 and 318.

Criminal Justice Courses

CJP 110	Introduction to Criminal Justice 5 credits A survey of criminal justice processes from arrest through release, the relationships of police, prosecutor, defense, the courts and prison, as each integrates into a system. CJP 110 or equivalent is required for all majors.
CJP 200	Deviant Behavior 5 credits An overview of what American society generally regards as deviant behavior. Emphasis is placed on the results of stigmatization and the acceptance of low self-esteem. Biological, psychological and sociological models of deviancy will be discussed. CJP 200 is required for all majors.

- CJP 211 Juvenile Offenders 5 credits**
An examination of the contemporary continuum of juvenile offenses, ranging from truancy to the drug scene. Juvenile crime as distinguished from adult crime will be discussed, as well as the interaction between the two.
- CJP 213 Juvenile Corrections 5 credits**
An explanation of the complex problems involved in juvenile corrections, including probation, institutional care, and aftercare.
- CJP 215 Career Women in Criminal Justice 5 credits**
A study of the varied opportunities for American women to develop careers in the professions of law, its enforcement and corrections. Profiles of distinguished women who have excelled in these roles will be offered for discussion.
- CJP 218 Criminal Justice Research Methods 5 credits**
A review of statistical procedures and an introduction to the use of the computer in research. Introductory students will acquire knowledge of the basics of criminal justice research, as well as learn how to evaluate and think critically about the techniques of data collection, analysis, and presentation. CJP 218 is required for all majors.
- CJP 291 Special Topics 1-5 credits**
CJP 292 Special Topics 1-5 credits
CJP 293 Special Topics 1-5 credits
- CJP 300 Society and Justice 5 credits**
An analysis of the meaning of justice in western culture, and its relationship to the criminal justice system. CJP 300 is required for all majors.
- CJP 303 Juvenile Justice Systems 5 credits**
Examination and study of contemporary police-juvenile operations. Theory and examination of the Juvenile Justice System. Relationship between the juvenile officer, crime prevention, and community relations.
- CJP 306 Police and the Community 5 credits**
The role of the police in the community, relationships with individuals, groups, and community organizations. Analysis of ethnic, cultural, and economic differences as factors in the administration of justice.
- CJP 309 Community Corrections 5 credits**
A study of community reintegration, community treatment centers, graduated release, and the use of volunteers and offenders as manpower sources, including current models of probation and parole.
- CJP 312 Criminal Law 5 credits**
Study of criminal law processes from detention to appeal. State and Federal rules of criminal procedure. Understanding of policies, due process, self-incrimination, right to counsel, and other Constitutional issues. CJP 312 is required for all majors.
- CJP 315 Criminal Procedure 5 credits**
A review of U.S. Supreme Court rulings on search and seizure, due process, self-incrimination, right to counsel, and other Constitutional issues.
- CJP 318 The Punishment Response 5 credits**
A social history of the punishment response to the phenomenon of crime, considering the origins, principles, science, and society's justification for punishment. CJP 318 is required for all majors.
- CJP 321 Polygraph 5 credits**
An introduction to the science of polygraph—including the history, validity and reliability, use in courts, techniques, and ethics.
- CJP 324 Comparative Criminal Justice Systems 5 credits**
Comparative analysis of criminal justice systems in the U.S. and selected foreign countries; emphasis on the organizational aspects and processes.
- CJP 391 Special Topics 1-5 credits**
CJP 392 Special Topics 1-5 credits
CJP 393 Special Topics 1-5 credits
- CJP 400 Victimology 5 credits**
A survey of the victim-offender relationship, including the origin and scope of victimology, the victim and society, the victim and the administration of justice and the social reaction to victimization.
- CJP 402 White Collar Crime 5 credits**
A comprehensive overview of criminal activity in the upper echelons of the American society; e.g., corporate offenses, consumer fraud, misuse of computers, illegal practice in the professions, and political deviance.
- CJP 404 Career Offenders 5 credits**
An analysis of professional crime, and organized crime, from the viewpoint of the sociology of work; the criminal's utilization of technological change and the response of the criminal justice system.
- CJP 406 Female Offenders 5 credits**
A study of the classical and contemporary accounts of the etiology of female crime, patterns of female criminal behavior, and the role and treatment of women in the criminal justice system.
- CJP 408 Violent Offenders 5 credits**
A study of the history and the theory of violence, including profiles of the violent offenders in the U.S. An analysis of the violent mind and legal implications.
- CJP 410 Sexual Deviance and the Law 5 credits**
Analysis of definition, problems, formal, legal and social constraints, and the criminal justice system's reaction to deviants.
- CJP 412 Adult Corrections 5 credits**
A study of the post-arrest treatment methods applied to adult offenders. An in-depth look at the history, philosophy and detention practices of adult prisons.
- CJP 451 Criminal Justice Administration 5 credits**
A focus on leadership and management models as they interface with the problems of budget, personnel, population, and the current philosophies existing in the criminal justice system.
- CJP 452 Criminal Justice System Planning 5 credits**
Methodology of systems planning, theories of analysis and problems of program evaluation with special attention to the criminal justice system.
- CJP 454 Criminal Justice Public Policies 5 credits**
Criminal justice policy formulation, implementation, and assessment. Focus is placed on competing values implicit in current critical criminal justice policy issues.
- CJP 456 The Computer and the Criminal Justice System 5 credits**
A specialized field placement with a criminal justice agency, to apply computer skills. Prerequisite: An introductory course with CSC, or an equivalent, and upper division standing and permission.
- CJP 458 Field Experience I 5 credits**
CJP 459 Field Experience II 5 credits
Direct observation, supervised practical experience and academic study in a selected law enforcement agency or enforcement agency or organization in the criminal justice system. Prerequisite: Upper division standing and permission.

CJP 461 Senior Seminar	3-5 credits
CJP 491 Special Topics	1-5 credits
CJP 492 Special Topics	1-5 credits
CJP 493 Special Topics	1-5 credits
Prerequisite: Upper division standing and permission.	

CJP 496 Independent Study	1-5 credits
CJP 497 Independent Study	1-5 credits
CJP 498 Independent Study	1-5 credits
Prerequisite: Upper division standing and permission.	

Economics

Hildegard R. Hendrickson, Ph.D., Chairperson

Objectives

The courses in economics are designed to acquaint students with the economy in which they live and to relate these courses to all other social sciences. The analytical approach in the economics courses provides the students with the tools of analysis necessary to solve problems and make decisions in the government and private sectors. The major courses cover topics such as economic fluctuations, income distribution, domestic and international finance, urban problems, labor relations, and economic systems.

Students who prove especially able in economics courses are encouraged to pursue graduate work in preparation for professional status as economists in government, industry or the academic world.

Degree Offered

Bachelor of Arts in Economics
(See page 77 for detailed information.)

English

Emmett Carroll, S.J., D.A., Chairperson

Objectives

The English Department offers courses in three areas: English language, writing/rhetoric, and literature. In language courses the student learns the morphology, vocabulary, syntax, and development of English. From the writing/rhetoric courses the student learns to analyze and use the language of exposition, argumentation, and persuasion; to write with effectiveness and assurance; to write with creativity and imagination in factual, fictional, and poetical modes. By the literature courses a student lives the vicarious lives of imaginatively created characters; the student thus grows in understanding of self and of human nature, in a knowledge of the culture inherited from the Western and Eastern worlds.

In the practical order an undergraduate concentration in English affords the student training in skills which will be crucial in such fields as law, social work, business, foreign service, health professions, teaching, mass communications, politics, journalism, library science, technical writing, and editing.

Degree Offered

Bachelor of Arts

General Program Requirements

Students majoring in English must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin. English majors may petition to fulfill the core's literature requirement by taking one of these courses En 250, 264, 265 or 266. Students who plan eventually to enter graduate school in English should take 10 credits of either French or German to achieve a foreign language reading proficiency.

Departmental Requirements

Bachelor of Arts (English concentration) — 60 credits of English which must include the following courses: En 110 (or 200), 250, 264, 265, 266, 310, 314, 315 and 330. The remaining credits must be taken in courses in the 300 and 400 series. The nature of the courses is to be determined by the student in consultation with an adviser.

Bachelor of Arts (Comparative Literature Concentration) — 60 credits of English and Comparative Literature which must include the following courses: En 110 (or 200), 250, 264, 265, 266, 314, 315; 415, 416 or appropriate special topic substitution. The remaining credits must be taken in the 300 and 400 series. The student must take one five-hour course of a foreign literature in the original language.

Teaching Major (School of Education) — 60 credits of English which must include En 110 (or 200), 250, 264, 314, 330 or 430; En 301 or 307 or 401 or other upper level pedagogy, writing or rhetoric course; En 310 or 407 or upper level grammar or linguistics course; one 300-400 level American literature course; 20 credits of electives which may include En 265, 266, but otherwise only 300-400 level courses.

Undergraduate Minor — 25 credits beyond En 110 or En 200. One of the following background courses is required: En 250, En 264, or En 314. The remaining credits must be taken in courses in the 300 and 400 series.

Undergraduate Minor in Written and Oral Communication — 30 credits beyond En 110 or En 200. Required: En 307 or 401, and COM 230, DR 404 or JMC 315 or JMC 320. The remaining electives: a) in writing — En 203, 204, 250, 305, 306, 401, 407, and appropriate special topics, b) in oral communication — COM 260, approved Communication courses in argumentation and in persuasion.

Bachelor of Arts

Freshman year

English 110/Philosophy 110 Sequence	10 credits
English 250	5 credits
Fine Arts 120	5 credits
Foreign Language (Recommended for comparative literature concentration)	15 credits
History 120	5 credits
Mathematics Core	5 credits
Electives (Recommended for English concentration)	15 credits

Sophomore year

English 264, 265, 266	15 credits
Lab Science Core	5 credits
Philosophy 220/Social Science I Sequence ...	10 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits
Electives	5 credits

Junior year

English 310, 314, 315, 330 (English concentration)	20 credits
or	
English 314, 315, 415, 416 (Comparative Literature concentration)	20 credits
(French or German reading course)	10 credits
Ethics	5 credits
Theology and Religious Studies II	5 credits
Electives	15 credits

Senior year

English 300 and 400 series courses	15 credits
Interdisciplinary Course	5 credits
Senior Synthesis	3 credits
Electives	22 credits
Total	180 credits

English Courses

EN 103	Composition Skills I	3 credits
EN 104	Composition Skills II	2 credits
A two quarter sequence of freshman composition designed in terms of student development and enabling student to concentrate on reading and writing skills. En 103 focuses on grammar, En 104 on rhetoric. This sequence fulfills the En 110 core requirement which cannot be taken as an elective upon completion of En 103 and 104.		
EN 105	Composition: International Students I	3 credits
EN 106	Composition: International Students II	2 credits
This sequence fulfills the composition core requirement and is designed for international students whose language preparedness indicates a need for intensive and prolonged focus on English language skills in writing, reading, and communication. En 105 focuses on grammar and idiom; En 106 develops composition skills. After completion of the sequence students cannot take En 110 as an elective.		

- EN 110 Freshman English: Effective Thinking and Writing** 5 credits
Includes a review of basic grammar as needed. Main stress on study and practice in rhetoric, emphasizing expository writing and mastery of style.
- EN 120-129 Masterpieces of Literature** 5 credits
Close reading and analysis of literary classics in relation to historical background: novels, plays, poetry, and essays. Correlated courses: History 120-129.
- EN 132 Masterpieces of American Literature** 5 credits
Close reading and analysis of American literary classics: novels, plays, poetry and essays.
- EN 133 Masterpieces of World Literature** 5 credits
Close reading and analysis of world literary classics: novels, plays, poetry and essays.
- EN 175 Introduction to Literature** 5 credits
Introduction to the study of novels, plays, poetry and essays.
- EN 200 Advanced Composition** 5 credits
Advanced study and practice in expository writing.
- EN 203 Vocabulary** 5 credits
A practical course in vocabulary building. Emphasis on etymology, Latin and Greek roots, prefixes and suffixes.
- EN 204 Imaginative Writing** 5 credits
A course designed to be individually centered in the student's choice of genre: prose fiction, poetry, personal narrative, essay, autobiographical writing. A combination of full-class participation and workshop activity.
- EN 230 Introduction to Fiction** 5 credits
Introduction to the study of fiction with special emphasis on appreciation, form and technique.
- EN 240 Introduction to Drama** 5 credits
Introduction to the study of drama with special emphasis on appreciation, form and technique.
- EN 250 Practical Criticism** 5 credits
Introduction to the terminology and techniques of literary analysis. Required of English major core.
- EN 264 Great English Authors I** 5 credits
EN 265 Great English Authors II 5 credits
EN 266 Great English Authors III 5 credits
I. Study of major British writers from the Medieval period through the Renaissance (1640). II. Study of major British writers from the Puritan period through the Eighteenth Century (1640-1798). III. Study of major British writers from the Romantic period to the present. Required of English major core.
- EN 283 Classics of Black American Literature** 5 credits
A literary and historical survey of works written by Black Americans with emphasis on DuBois, Wright, Ellison, Morrison, Brooks and other modern writers.
- EN 291 Special Topics** 1-5 credits
EN 292 Special Topics 1-5 credits
EN 293 Special Topics 1-5 credits
- EN 301 Rhetoric and Literary Concepts in Teaching** 5 credits
A course designed primarily for teachers. A study of writing techniques and literary terms, themes, and concepts, with application to the strategies of teaching.
- EN 305 Writing Fiction** 5 credits
Study and practice in the forms and methods of short story writing, with subsidiary attention to other types of narrative writing.
- EN 306 Writing Poetry** 5 credits
Study of and practice in the modes and techniques of poetic composition.
- EN 307 Advanced Writing Skills** 5 credits
A course for upgrading writing style, critical sense, and vocabulary. Especially helpful as preparation for entrance into professional schools or graduate school. Addresses significant parts of major admission tests.
- EN 310 Introduction to Chaucer** 5 credits
Study of Chaucer's "Canterbury Tales." Required of English majors.
- EN 311 Introduction to Medieval Literature** 5 credits
Literary selections, in modern English, representative of the life and thought of the European Middle Ages.

EN 312 Classics in Children's Literature 5 credits
In-depth humanistic and interdisciplinary analysis of basic texts in children's literature: folk tales, L. Carroll, C.S. Lewis, outstanding 20th century works.

EN 313 Mythology 5 credits
A comparative study of the structure and symbols, the cultural and psychological meanings of selected mythologies, including Greek mythology.

EN 314 Backgrounds of Western Literature I 5 credits

EN 315 Backgrounds of Western Literature II 5 credits
I. From the beginnings through the Renaissance. II. From 17th Century to the Moderns. Required of English majors.

EN 330 Introduction to Shakespeare 5 credits
Readings in the comedies, tragedies and histories. Required of English majors.

EN 382 Major American Novelists 5 credits
American fiction from its beginning to modern times: Cooper, Melville, Twain, James, Hemingway, Faulkner and others.

EN 391 Special Topics 1-5 credits

EN 392 Special Topics 1-5 credits

EN 393 Special Topics 1-5 credits

EN 394 Modern Tradition: Fiction 5 credits

EN 395 Modern Tradition: Poetry 5 credits

EN 398 Modern Tradition: Drama 5 credits

EN 401 Rhetoric, Argument and Persuasion 5 credits
The principles of persuasive writing as found in models both classical and contemporary, with attention to the techniques of argumentation and propaganda.

EN 407 History of the English Language 5 credits
Study of the historical development of English.

EN 415 Russian Literature 5 credits

EN 416 Eastern Literature 5 credits

EN 420 Renaissance Literature 5 credits

EN 430 Shakespeare 5 credits

EN 445 Seventeenth Century Literature 5 credits

EN 450 Restoration and Eighteenth Century Literature 5 credits

EN 460 Romantic Literature 5 credits

EN 475 Victorian Literature 5 credits

EN 477 Nineteenth Century English Novel 5 credits

EN 482 American Literature to 1900 5 credits

EN 484 Twentieth Century American Literature 5 credits

EN 487 Contemporary Literature 5 credits

EN 488 Film and Literature 5 credits

EN 490 Literary Criticism 5 credits

EN 491 Special Topics 1-5 credits

EN 492 Special Topics 1-5 credits

EN 493 Special Topics 1-5 credits

EN 496 Independent Study 1-5 credits

EN 497 Independent Study 1-5 credits

EN 498 Independent Study 1-5 credits

Fine Arts

Kate C. Duncan, Ph.D., Chairperson

Objectives

Through its degree programs and its service to the University, the Fine Arts Department provides a unique "living out" of the central values of a liberal education. Its students, through individual courses and major curricula, receive a significant training in both the theory and practice of the arts. Consciously avoiding the one-dimensional formation of either a strictly conservatory or an exclusively academic model of arts education, each major offers students a distinctive opportunity to integrate serious reflections and intense participation, providing a well-rounded experience of each discipline.

In conjunction with the School of Education, students may take courses leading to certification as elementary art, drama, or music teachers.

Degree Offered

Bachelor of Arts

General Program Requirements

Students majoring in Fine Arts must satisfy the core curriculum requirements of the University, as given on pages 26-28 of this bulletin.

Departmental Requirements

Bachelor of Arts — Major in Art — 60 credits which must include FA 101, Art 221, 222, 223, 231, 232, 233, 311, 312, 321, 334, 346, 351, 499; plus 11 credits of art electives. In addition, majors choose a concentration (track) totalling 10 credits in printing - Art 335, 336, 434, and 435; or painting - Art 347, 348, 446, and 447; or sculpture - Art 351, 353, 451, and 452.

Non Major Students — As elective choices, courses through the 300 level open to students in other fields. Many complement the work in other majors (e.g. Art History on and of the following: English, history, philosophy, or religious studies) and the department cordially welcomes all members of the school community. Prerequisites, however, should be noted where they exist.

Teaching Subject, Elementary, Art (School of Education) — 25 credits which must include FA 101, Art 221, 231, 312, 334, 346, 361 totalling 20 credits, plus 5 additional art credits as electives.

Teaching Subject, Elementary, Drama (School of Education) — 25 credits which must include Dr 100, 210, 221, 264, 420, plus 8 additional credits in Drama (electives).

Teaching Subject, Elementary, Music (School of Education) — See adviser.

Undergraduate Minor in Studio Art — 30 credits which include FA 101, Art 311 or Art 312, and 20 credits in consultation with an Art adviser.

Undergraduate Minor in Art History — 30 hours of art history including Art 311, 312 and 5 credits of independent study/methods.

Undergraduate Minor in Drama Production or Performance — 30 credits which include FA 102, DR 210, and 20 credits in consultation with a Drama adviser.

Undergraduate Minor in Musical Theatre — 30 credits: DR 210 and 222; 3 credits of History American Musical Theatre, 2 of ensemble, 3 of voice lessons, 4 of Musical Theatre Workshop, 10 credits in consultation with a Drama adviser.

Undergraduate Minor in Music — 30 credits: MU 101, 102, 103, 201, 202, 203, plus 6 credits in music ensemble and 6 credits in music lessons in any combination of lessons.

Fine Arts Sequence

- | | | |
|---------------|--|------------------|
| FA 101 | Fine Arts — Art
A humanistic approach to the creative arts: painting, sculpture, architecture. An examination of the great leaps of imagination. | 5 credits |
| FA 102 | Fine Arts — Drama
Introduction to drama as an art form. An historical approach with emphasis on major periods, plays and philosophies. | 5 credits |
| FA 103 | Fine Arts — Music
Introduction to music as an art and as a literature, with emphasis upon historical and cultural correlations. | 5 credits |
| FA 120 | Exploration in the Arts
Aesthetics-based exploration of the arts, focused on enhancing ability to experience and make decisions about aesthetic qualities in man-made and natural objects and events in the environment. Interdisciplinary in Art, Music and Drama. Lectures and practical experience. Core requirements for freshmen. | 5 credits |

Art Courses

Some art courses are designed for the student to progress in competence and skill over three terms. Instruction is individualized and students may enter the sequence in any term, registering for the course three times to obtain the maximum credit. Courses which may be taken more than once are indicated with an asterisk (*) next to the credits.

ART 221	Drawing (Emphasis - Line)	2 credits
ART 222	Drawing (Emphasis - Value)	2 credits
ART 223	Drawing (Emphasis - Composition)	2 credits
ART 231	Design (Emphasis - Value)	2 credits
ART 232	Design (Emphasis - Color Theory)	2 credits
ART 233	Design (Emphasis - Three-Dimensions)	2 credits
ART 291	Special Topics	1-5 credits
ART 292	Special Topics	1-5 credits
ART 293	Special Topics	1-5 credits
ART 311	Art History (Ancient through Gothic)	5 credits
ART 312	Art History (Renaissance through 20th Century)	5 credits
ART 313	Art History (Non-Western Art)	5 credits
ART 321	Advanced Drawing	3 credits
Study of the human form, special problems in group composition. ART 221, 222, 223, or permission of instructor. Maximum: 9 credits.		
ART 334	Printmaking (Emphasis - Relief)	2 credits
Prerequisites: ART 221 and 231 or permission of instructor.		
ART 335	Printmaking (Emphasis - Stencil)	2 credits
Prerequisite: ART 334 or permission of instructor.		
ART 336	Printmaking (Emphasis - Planographic)	2 credits
Prerequisite: ART 335 or permission of instructor.		
ART 346	Painting	2 credits
Prerequisites: ART 221 and 231 or permission of instructor.		
ART 347	Painting	2 credits
Prerequisite: ART 346 or permission of instructor.		
ART 348	Painting	2 credits
Prerequisite: ART 347 or permission of instructor.		
ART 351	Sculpture	2 credits
Prerequisites: ART 221 and 233, or permission of instructor.		
ART 352	Sculpture	2 credits
Prerequisite: ART 351 or permission of instructor.		
ART 353	Sculpture	2 credits
Prerequisite: ART 352 or permission of instructor.		
ART 391	Special Topics	1-5 credits
ART 392	Special Topics	1-5 credits
ART 393	Special Topics	1-5 credits
ART 434	Advanced Printmaking	3 credits
The principles and practices of rendering in graphic media; complex composition; advanced problems. Prerequisite: ART 336 or permission of instructor.		
ART 435	Advanced Printmaking	3 credits
Prerequisite: ART 434		
ART 436	Advanced Printmaking	3 credits
Prerequisite: ART 435		
ART 446	Advanced Painting	3 credits
Experimental research toward the development of a creative and personalized idiom. Synthesis and research. Prerequisite: ART 348 or permission of instructor.		
ART 447	Advanced Painting	3 credits
Prerequisite: ART 446		
ART 448	Advanced Painting	3 credits
Prerequisite: ART 447		
ART 451	Advanced Sculpture	3 credits
Prerequisite: ART 353 or permission of instructor.		
ART 452	Advanced Sculpture	3 credits
Prerequisite: ART 451		
ART 453	Advanced Sculpture	3 credits
Prerequisite: ART 452		

ART 491	Special Topics	1-5 credits
ART 492	Special Topics	1-5 credits
ART 493	Special Topics	1-5 credits

ART 496	Independent Study	1-5 credits
ART 497	Independent Study	1-5 credits
ART 498	Independent Study	1-5 credits

Prerequisite: Advanced standing in Art and permission of instructor.

ART 499	Senior Thesis and Exhibit	3 credits
Designed for the graduating Art Major, a summation of a body of work accomplished during their studies, evaluation through discussion. Public exhibition of work. Compilation of a professional portfolio and resume.		

Drama Courses

DR 100	Voice and Diction	3 credits
Development of the speaking voice as an instrument of communication on or off stage. Exercises in relaxation, breathing, breath control, voice production, phonetics. Offered every other year.		

DR 210	Pantomime	5 credits
Instruction in mime to express inner and outer worlds through the body. Exercises for development of imagination, coordination, body awareness.		

DR 215	Auditioning Techniques	2 credits
The theory and practice of auditioning in various situations and how to handle them. Preparing and performing audition pieces. Offered every other year.		

DR 221	Improvisation	3 credits
Living in free form under imaginary circumstances. Group exercise and improvisations for development of sensory perception and imagination.		

DR 222	Acting	3 credits
Study and practice in modern realistic acting: preparation, presentation and criticism.		

DR 230	Video Profiles	5 credits
Theory and practice in the use of video before and behind the camera. Exercises in group discussions, panels, demonstrations, interviews. Editing.		

DR 264	Stage Craft	3 credits
Exposure to contemporary materials and techniques in the design, construction, and painting of scene art. Lab and lecture.		

DR 265	Lighting	3 credits
Exposure to contemporary materials, equipment and practices in the design and execution of lighting. Lab and lecture. Offered every other year.		

DR 266	Stage Costuming	3 credits
Exposure to contemporary materials, procedures and techniques in design and construction of costumes for theatre. Lab and lecture. Offered every other year.		

DR 267	Makeup	2 credits
Exposure to contemporary materials and techniques in the design and execution of makeup for theatre; work in specialized techniques. Lab and lecture. Offered every other year.		

DR 280	Stage Management	2 credits
A comprehensive study of the role and functions of the stage manager in the theatrical production process, including the preparation of prompt scripts, pre-production conferences, the rehearsal process and the running of the show. Offered every other year.		

DR 291	Special Topics	1-5 credits
DR 292	Special Topics	1-5 credits
DR 293	Special Topics	1-5 credits

DR 330	Theatre History I	2 credits
DR 331	Theatre History II	2 credits
DR 332	Theatre History III	2 credits
	A study of historical events and ideas which formed the theatre in all its aspects. History I — Primitive to Elizabethan; History II — 17th to 19th Century; History III — 19th and 20th Century. Offered every other year.	
DR 354	Representative Plays I	3 credits
DR 355	Representative Plays II	3 credits
DR 356	Representative Plays III	3 credits
	A study of the theatre literature focusing on the production of the written material. Plays I — Primitive to Elizabethan; Plays II — 17th to 19th Century; Plays III — 19th and 20th Century. Offered every other year.	
DR 364	Scene Design	3 credits
	An introduction to the art of scene design including visual thinking, script analysis, working the production team, and presentation techniques.	
DR 366	Costume History	3 credits
	A study of fashion, costume and garments and their relationship to the social history of civilization from the ancients to the present. Offered every other year.	
DR 391	Special Topics	1-5 credits
DR 392	Special Topics	1-5 credits
DR 393	Special Topics	1-5 credits
DR 400	Ensemble	1-5 credits
DR 401	Ensemble	1-5 credits
DR 402	Ensemble	1-5 credits
DR 404	Playwriting	5 credits
	Study and practice in the form and method of script construction.	
DR 420	Directing	3 credits
	Theory and practice in principles of directing various styles of drama. Offered every other year.	
DR 422	Advanced Acting	3 credits
	Study and practice in classical styles of comedy and tragedy; preparation, presentation, and criticism. Prerequisite: DR 100 and DR 222 or permission of the instructor. Offered every other year.	
DR 425	Drama Internship	1-12 credits
	Apprenticeship in specific area of study in the community. Drama majors only. Permission.	
DR 455	Theatre: Spacial and Visual	5 credits
	Development of the stage in Western Culture from the Greeks to the present; emphasis on evolution of theatre buildings and physical elements of theatre production. Offered every other year.	
DR 480	Theatre Organization and Management	2 credits
	Establishing and operating a theatre, including planning, budgeting, and accounting, staffing, production selection, promotion, ticket sales, fund raising. Offered every other year.	
DR 491	Special Topics	1-5 credits
DR 492	Special Topics	1-5 credits
DR 493	Special Topics	1-5 credits
DR 496	Independent Study	1-5 credits
DR 497	Independent Study	1-5 credits
DR 498	Independent Study	1-5 credits

Music Courses

This program offers to Seattle University students an opportunity to gain insights and skills in four aspects of the field: the experience of ensemble participation, the achievement of performance skills, the knowledge of pathways in music history, and the application of creativity in composition and arranging. There is a private music lesson fee of \$39.00 per credit hour. All courses which may be taken more than once are indicated with an asterisk (*) next to the credits.

MU 101	Music Basics 1	3 credits
	Examination of the elements of music. The study of melody and creative writing. No prerequisites. Fall quarter only.	
MU 102	Music Basics 2	3 credits
	Chording and accompaniment. The study of chord types and progressions used in songs. Applicable to both popular and classical music. Winter quarter only.	
MU 103	Music Basics 3	3 credits
	A practical approach to arranging harmonized melodies for various vocal and instrumental ensembles. Spring quarter only.	
MU 110	Piano Lessons	*1-2 credits
	Mandatory CR/NC; maximum 12 credits	

MU 111	Voice Lessons Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 118	String Instrument Lessons Violin, viola, cello, contrabass. Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 119	Wind Instrument Lessons Flute, clarinet, saxophone, oboe, bassoon. Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 123	Classical Guitar Lessons Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 124	Brass Instrument Lessons Trumpet, french horn, trombone. Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 125	Organ Lessons Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 129	Percussion Lessons Mandatory CR/NC; maximum 12 credits	*1-2 credits
MU 130	University Chorale Maximum 12 credits	*1 credit
MU 131	Chamber singers Maximum 12 credits	*1 credit
MU 135	Instrumental Ensemble Maximum 12 credits	*1 credit
MU 140	Beginning Voice Class	1 credit
MU 141	Beginning Guitar Class Maximum 3 credits	*1 credit
MU 201	Music History 1	3 credits
MU 202	Music History 2	3 credits
MU 203	Music History 3 Topical studies in music history announced on a yearly basis. Quarterly topics will range from History of Jazz, "Amadeus", Beethoven Symphonies, Opera, to History of Popular Music.	3 credits
MU 291	Special Topics	1-5 credits
MU 292	Special Topics	1-5 credits
MU 293	Special Topics	1-5 credits
MU 310	Piano Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 311	Voice Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 318	String Instrument Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 319	Wind Instrument Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 323	Classical Guitar Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 324	Brass Instrument Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 325	Organ Lessons Mandatory CR/NC, maximum 12 credits.	*1-2 credits
MU 374	World Music Cultures A socio-cultural survey and analysis of the music of Africa, the Middle East, Asia, Oceania, and Latin America.	5 credits
MU 391	Special Topics	1-5 credits
MU 392	Special Topics	1-5 credits
MU 393	Special Topics	1-5 credits
MU 491	Special Topics	1-5 credits
MU 492	Special Topics	1-5 credits
MU 493	Special Topics	1-5 credits
MU 496	Independent Study	1-5 credits
MU 497	Independent Study	1-5 credits
MU 498	Independent Study	1-5 credits

Foreign Languages

Paul B. Milan, Ph.D., Chairperson

Objectives

The foreign language programs in French, German, Spanish, Latin and Greek all recognize academic, cultural, and practical purposes:

Academic — Foreign language study aims at broadening the scope of the student's intellectual development by affording both a facility in foreign languages and a background in other cultures. This end is achieved through the major programs in foreign languages or double majors which couple a major or minor in a foreign language with a major in another field.

Cultural — Learning about another culture and civilization — its history, geography, literature and art — through the medium of its language leads to a better understanding of one's self and the world in which we live. To achieve this goal all foreign languages are taught in their cultural context. Courses in French, German, and Spanish are taught in the vernacular with the exception of the following: Fr 105, 106.

Practical — Career opportunities involving foreign languages are expanding. For the university student with a specialization in a particular field and with proficiency in foreign languages, openings exist in the following fields: teaching, social work, transportation, military, foreign service, international law, engineering, librarianship, foreign trade and international business.

To meet these objectives, the Foreign Languages department offers regular, intensive, specialized and multi-disciplinary courses and programs.

Degree Offered

Bachelor of Arts

General Program Requirements

Students majoring in a foreign language must satisfy the core curriculum requirements of the University, as given on pages 26-28 of this bulletin.

Departmental Requirements

Bachelor of Arts (modern languages) — 55 credits which include 115, 125, 135, 215, 225, 235, 315, 325 and three courses at the 400 level. Students who waive elementary language courses may meet the 55 credit requirement by substituting approved courses in other disciplines which relate to their foreign language studies.

Teaching Major (School of Education) — 55 credits which include 115, 125, 135, 215, 225, 235, 315, and 325 and three courses at the 400 level. French, German, and Spanish only. Students who waive elementary language courses may meet the 55 credit requirement by substituting approved courses in other disciplines which relate to their foreign language studies.

Undergraduate Minor (modern languages) — 35 credits which include 115, 125, 135, 215, 225, 235, and 315. Students who waive elementary language courses may meet the 35 credit requirement by substituting approved courses in other disciplines which relate to their foreign language studies.

Programs Abroad

The Foreign Languages department offers the following programs abroad: the French-in-France Program in Grenoble, France and the German-in-Austria Program in Graz, Austria. These programs offer a full academic year of study (45 credits) of language, culture, and civilization under the direction of Seattle University faculty. There are no language prerequisites, and the programs are open to all students of the University.

The Reading Program (sequence of two courses: FR 105, FR 106) prepares the student to translate the written text with accuracy and comprehension for scholarly purposes. It fulfills the foreign language requirements of various departments within the University and helps the student gain the facility needed to pass graduate language examinations.

The reading language requirements may not be satisfied by examination in a student's native language, since the intent of such a requirement is mastery of a language new to the student.

Intensive Programs offered during the summer allow the student to complete the first year basic language course (15 credits) in one quarter.

Credit by examination and waiver — The Foreign Languages department reserves the right to waive specific courses for students who demonstrate, by examination, achievement at the college level. Courses may be waived, allowing substitution of electives, or credit may be obtained by meeting the University's requirements for credit by examination.

Honors Work and Foreign Languages

For superior students who wish to integrate foreign languages with other fields of study, the department encourages honors work consisting of a minimum of twenty credits of additional study or independent study related to the student's major. The student may choose from among the following areas of concentration: literature, history and fine arts, philosophy, or global studies. Honors work is, in addition to the regular course requirements for the Bachelor of Arts in Foreign Languages. Although no special distinction will be made in the degree earned, students who complete the program will receive a certificate of recognition from the Department of Foreign Languages.

Bachelor of Arts — Foreign Languages

Recommended Study Program

Freshman Year

English 110/Philosophy 110 Sequence	10 credits
History 120/English 120 Sequence	10 credits
Fine Arts Core	5 credits
Mathematics Core	5 credits
Major Language	15 credits

Sophomore Year

Philosophy 220/Social Science I Sequence ...	10 credits
Lab Science Core	5 credits
Social Science Core II	5 credits
Theology and Religious Studies Core I	5 credits
Major Language 215, 225, 235	15 credits
Electives	5 credits

Junior Year

Ethics	5 credits
Theology and Religious Studies Core II	5 credits
Interdisciplinary Core	3-5 credits
Major Language	15 credits
Minor Language (optional) 115, 125, 135	15 credits

Senior Year

Senior Synthesis	3 credits
Major Language	10 credits
Minor Language (optional)	15 credits
Electives	17 credits

Total 180 credits

Modern Language Courses

French Courses

FR 105	Reading French	5 credits
FR 106	Reading French	5 credits
An intensive two-course program of study of written French for reading and translation with accuracy and comprehension.		
FR 115	French Language I	5 credits
FR 125	French Language II	5 credits
FR 135	French Language III	5 credits
FR 215	French Language IV	5 credits
FR 225	French Language V	5 credits
FR 235	French Language VI	5 credits
An intuitive approach to understanding, speaking, reading and writing French. These courses constitute a systematic, programmed study of the French language. All of the French Language courses are taught in French.		
FR 315	French Culture and Civilization	5 credits
An introduction to French culture and civilization with emphasis on the basic traditions and structures of French society.		
FR 325	Introduction to French Literature	5 credits
A general study of literary French done in the context of a survey of the major texts, authors, and movements in French literature with emphasis placed on the theories and techniques of literary analysis.		
FR 415	French Literature and Culture, 19th Century	5 credits
A study of the literary movements in 19th century French literature based on an historical approach to representative authors and works.		
FR 425	French Literature and Culture, 17th Century	5 credits
A study of the development of 17th century French Classicism as it is reflected in the major works of the period.		

- FR 435 French Literature and Culture, 18th Century 5 credits**
A survey of the major works of the French Enlightenment as it manifests itself in the scientific, philosophic, political, and ethical thinking in the 18th century.
- FR 445 French Literature and Culture, 20th Century 5 credits**
A survey of 20th century French literature and culture which reflects the social and intellectual trends in modern France.
- FR 450 Methodology of Teaching French 5 credits**
An overview of the various methods and approaches currently being used to teach French.
- FR 452 Language Development/Modern French 5 credits**
An in-depth study of the various levels of modern French with emphasis on the transformations brought about by current social, political, and cultural changes.
- FR 463 Contemporary France 5 credits**
A study of contemporary French culture involving a survey of texts in French which reflect the issues and changes currently being discussed and debated in modern France.

German Courses

- GR 115 German Language I 5 credits**
GR 125 German Language II 5 credits
GR 135 German Language III 5 credits
GR 215 German Language IV 5 credits
GR 225 German Language V 5 credits
GR 235 German Language VI 5 credits
An intuitive approach to understanding, speaking, reading, and writing in German. These courses constitute a systematic, programmed study of the German language. All German Language courses are taught in German.
- GR 315 German Culture and Civilization 5 credits**
An introduction to the culture and civilization of German speaking countries with emphasis placed on the importance of geographical, political, and historical factors in their development.

- GR 325 Introduction to German Literature 5 credits**
A general introduction to the major themes of German literature presented from an historical point of view. Reading and analysis of various representative literary genres.
- GR 416 German Literature and Culture, Beginnings to the 18th Century 5 credits**
A study of the German tradition from the earliest writings up to the 18th century.
- GR 426 German Literature and Culture, 18th Century 5 credits**
An analysis of the major works of German literature integrated with the historical trends and philosophical currents of 18th century Germany.
- GR 431 German Literature and Culture, 19th Century 5 credits**
An integrative study of the historical, philosophical, and literary diversity of the German-speaking world as it manifests itself in the major literary works of the 19th century.
- GR 436 German Literature and Culture, 20th Century 5 credits**
A survey of 20th century German literature and culture which reflects the social, political, and intellectual trends of modern Germany.
- GR 440 German Classicism and Romanticism 5 credits**
A study of the origins, characteristics, and major literary expressions of these two important German literary movements.
- GR 446 Literary Trends of Modern Austria, West and East Germany 5 credits**
A study of the current trends in modern literature in German-speaking countries.
- GR 450 Methodology of Teaching German 5 credits**
An overview of the various methods and approaches currently being used to teach German.
- GR 452 Language Development/Modern German 5 credits**
An in-depth study of modern German with emphasis on advanced vocabulary and grammar concepts. Analysis of contemporary works which reflect the changes taking place in modern Germany.

Spanish Courses

- SP 115 Spanish Language I 5 credits**
SP 125 Spanish Language II 5 credits
SP 135 Spanish Language III 5 credits
SP 215 Spanish Language IV 5 credits
SP 225 Spanish Language V 5 credits
SP 235 Spanish Language VI 5 credits
An intuitive approach to understanding, speaking, reading, and writing Spanish. These courses constitute a systematic, programmed study of the Spanish language. All of the Spanish Language courses are taught in Spanish.
- SP 315 Spanish Culture and Civilization 5 credits**
An introduction to Spanish culture and civilization with emphasis on the historical evolution of modern Spain.
- SP 325 Introduction to Spanish Literature 5 credits**
A general study of literary Spanish done in the context of a survey of representative authors and works.
- SP 416 Spanish Literature and Culture, 19th Century 5 credits**
A study of the literary movements in Spanish literature of the 19th century based on an historical approach to major authors and works.

- SP 426 Spanish Literature and Culture, 20th Century 5 credits**
A survey of 20th century Spanish literature and culture which reflects the social, political, and intellectual trends in modern Spain.
- SP 450 Methodology of Teaching Spanish 5 credits**
An overview of the various methods and approaches currently being used to teach Spanish.
- SP 452 Language Development/Modern Spanish 5 credits**
An in-depth study of the various levels of modern Spanish with emphasis on advanced vocabulary and grammar concepts.
- SP 463 Contemporary Spain 5 credits**
A study of contemporary Spanish culture involving a survey of texts in Spanish which reflect the issues and changes currently being discussed and debated in contemporary Spanish society.

Classical Language Courses

Greek Courses

- GK 101 Greek Language I 5 credits**
GK 102 Greek Language II 5 credits
GK 103 Greek Language III 5 credits
Intensive study of Attic grammar with elementary reading and composition. Greek 103 includes reading selections from classical Attic and Koine (New Testament) authors.

Latin Courses

- LT 101 Latin Language I 5 credits**
LT 102 Latin Language II 5 credits
LT 103 Latin Language III 5 credits
Intensive study of grammar with elementary reading and composition. Latin 103 includes selections from classical authors.

General Studies Program

Mary Margaret Ridge, B.A., Director

Objectives

Students who have a wide range of interests and want a broad liberal arts education, AS WELL AS THOSE WHO HAVE NOT YET DECIDED UPON A MAJOR, may enroll in the General Studies Program. Such students begin their University work by taking core curriculum subjects required for all majors. They may then select courses from two or three related fields, and formulate a program that will best suit the needs of their long-range goals.

The thrust of the program looks to constructing in-depth combinations of a variety of disciplines such as fine arts, humanities, social sciences, or any other atypical interdisciplinary synthesis.

A student admitted to the General Studies Program may also transfer to one of the traditional majors of the College of Arts and Sciences, or to one of the professional schools, such as Business, Education, Nursing, Science and Engineering. A student may change at any time as long as academic qualifications for the intended program are met.

Degrees Offered

Bachelor of Arts in Humanities
Bachelor of Arts in Social Science

General Program Requirements

Requirements of a General Studies degree are 65 credits beyond the core, of which 45 credits must be taken in courses designated 300 or 400 level.

Suggested combinations are: 45 hours in one subject and 20 in another; or 35 hours in one, 15 in a second, and 15 in a third; or 25, 20 and 20. THE SELECTION OF SUBJECTS AND THEIR MEANINGFUL COMBINATION IS THE RESPONSIBILITY OF THE STUDENTS IN CONSULTATION WITH THE PROGRAM DIRECTOR OR AN ASSIGNED ACADEMIC ADVISER.

Global Studies

David Leigh, S.J., Ph.D., Adviser
C. Fred DeKay, Ph.D., Adviser

Objectives

The program of courses which makes up the Minor in Global Studies enables the student to understand the major processes, structures, and issues involved in our global community; to develop the ability to live and work effectively in an interdependent, multi-cultural world; and, to apply specific disciplinary skills within a global context.

The Minor is designed to complement the student's Major by study of selected case studies in which disciplinary knowledge and skills are applied in the contexts of cross-cultural and global issues.

General Program Requirements

The Minor requires completion of 30 credits of coursework, including a five credit course from each of the following areas: I. Global Politics: PLS 260, II. Global Economics: EC 292, III. Cultural Encounter: HUM 280, IV. Global Issues, V. Non-West Studies, VI. Global Studies Elective. In consultation with a Global Studies Adviser, the student will select courses appropriate to areas IV, V, VI, drawing from offerings in such disciplines as political science, economics, fine arts, history, literature, and interdisciplinary science. Students are strongly recommended to complete one year of a foreign language.

Courses selected for the Minor may include those which fulfill University core or elective requirements, and may include those taken to fulfill a Major. Not more than ten credits may be taken in any one discipline. At least ten credits must be upper division. At least three courses must be taken at Seattle University. No more than one course may be taken under the CR/NC option.

Advising

A faculty adviser will assist the student in fulfilling the requirements of the Global Studies Minor. The student will be expected to meet with the adviser on a regular and timely basis.

History

James E. Parry, M.A., Chairperson

Objectives

Defying classification as either humanity or social science, history functions as both. It focuses on the values as well as the ideas, personalities and institutions that existed in the past and shaped the present. As concerned with perceptions of reality as with historic reality itself, it attempts to exploit all forms of information concerning the past — myth, folklore, legend and works of art, as well as conventional manuscript and published sources. And, while the department attempts to assist all students in acquiring that knowledge of the past which is essential to the educated person, it is especially concerned with developing the methods and techniques unique to historical inquiry. By consistently raising questions regarding "how we know" as well as "what we know" the department aims at the development of fundamental intellectual skills that will be of lifelong utility.

Degrees Offered

Bachelor of Arts

General Program Requirements

Students in history must satisfy the core curriculum requirements of the University as given on pages 26-28 of this bulletin.

Departmental Requirements

Bachelor of Arts — 60 credits including Hs 120 and 221 (or equivalent), Hs 300, 339 or 349 and Hs 400. Of the remaining 35 credits, 25 are to be taken in a specific area (Western Europe, United States, Russia-China-Japan) and must include 5 credits of 400 level seminar. Study of a modern foreign language is highly recommended.

Undergraduate Minor — The department offers two approaches to a minor in history.

General Minor — 35 credits of history of which Hs 120, 221 and Hs 300 are required. The remaining 20 hours to be taken with the approval of the student's adviser from either one or two areas of concentration.

Minor in 20th Century historical studies — 35 credits of history of which Hs 120, 221 and Hs 300 are required. The remaining 20 hours to be taken in history courses directly focused upon the 20th century and/or in those courses directly related to 20th century history.

Teaching Major (School of Education) — 60 credits of history including Hs 120, 221, 231, 300, 341, 339 or 349 and six upper division division courses chosen with approval of the student's history adviser. At least one course must be in a non-western area.

History Courses

- | | | | |
|---------------|--|--------------------|--|
| HS 104 | Western Civilization I | 5 credits | |
| | A study of the ideas, values and institutions that comprised Western Civilization, through the 17th century. | | |
| HS 105 | Western Civilization II | 5 credits | |
| | The development of Western civilization from the 18th through the 20th centuries and its impact on the non-Western World. | | |
| HS 120 | Introduction to Western Civilization | 5 credits | |
| | Survey of the traditional societies of the Western World, their values, institutions, and historical development from the ancient world to the 18th century. | | |
| HS 221 | Modern Western Civilization | 5 credits | |
| | An analysis of the modernizing Western World of the 19th and 20th centuries, the spread of modernization to the non-west and the tension between traditional and modernizing societies as a global problem of the 20th century. | | |
| HS 231 | Survey of the United States | 5 credits | |
| | A topical survey focusing on the United States as a model of the "modern" society and an analysis of the conflicts generated by competing traditional and modern values systems in American society. | | |
| HS 271 | Survey of Russian History | 5 credits | |
| | An introduction to the history and culture of Russia and the Soviet Union. | | |
| HS 281 | Survey of the Far East since 1900 | 5 credits | |
| | Domestic and international development of China, Japan and the states of Southeast Asia. | | |
| HS 291 | Special Topics | 1-5 credits | |
| HS 292 | Special Topics | 1-5 credits | |
| HS 293 | Special Topics | 1-5 credits | |
| HS 300 | Methodology | 5 credits | |
| | Techniques of historical research, criticism and writing. | | |
| HS 303 | Foundations of European Civilization | 5 credits | |
| | The emergence of the Carolingian Empire and Anglo-Saxon England. Western European relations with the Byzantine and Arab-Mohammedan states. | | |
| HS 306 | Europe of the High Middle Ages | 5 credits | |
| | Analysis of the cultural, political and social institutions of Medieval Europe. | | |
| HS 307 | Europe in the Renaissance Era | 5 credits | |
| | A study and interpretation of the many facets of change which brought the Middle Ages to an end and began the distinctive modern developments in the West, 1350-1550. | | |
| HS 309 | Europe in the Reformation Era | 5 credits | |
| | Study of the political responses by the "new Monarchies" and the religious responses of the Christian churches to the new socio-economic conditions and cultural transformations of Western modernity, 1500-1660. | | |
| HS 311 | Europe of the 18th Century | 5 credits | |
| | Cultural and political ferment of Western civilization in the century of the Enlightenment and the French Revolution. | | |
| HS 313 | Europe of the 19th Century | 5 credits | |
| | The era of revolutions in ideas and societies, from the Napoleonic wars to the beginning of World War I. | | |
| HS 315 | Europe of the 20th Century | 5 credits | |
| | Contemporary movements and institutions. | | |
| HS 317 | Peace and War in Western Civilization | 5 credits | |
| | Examination of major concepts regarding the nature of peace and war from classical times to the present. A review of efforts to define, achieve and insure peace in the western tradition, social, political and philosophical-theological opposition to, or support for, war. | | |
| HS 319 | World Wars One and Two | 5 credits | |
| | An examination of the causes, course, and inter-relationship of these two wars and their bitter legacy to the 20th century. Social, economic and political factors are examined, as are diplomatic and military leadership. | | |
| HS 321 | Modern France | 5 credits | |
| | Development of cultural and political France from the 17th century to the present. | | |
| HS 323 | Tutor-Stuart England, 1450-1715 | 5 credits | |
| | A study, of a traditional society whose monarchs guided the nation through modernizing and reforming political and religious changes in the 16th century only to be challenged and defeated by the aristocracy, a capitalist economy and the House of Commons in the 17th century. | | |
| HS 325 | Modern England, 1715-Present | 5 credits | |
| | The growth of England as a democratic, industrial state with the subsequent growth of imperialism and its decline. The crisis of wars and the emergence of socialism in the twentieth century. | | |
| HS 327 | Modern Germany | 5 credits | |
| | Studies in German history and culture. | | |
| HS 331 | Colonial America | 5 credits | |
| | European discoveries, explorations and settlements from the 16th through the late 18th centuries. | | |
| HS 333 | The Beginnings of the United States | 5 credits | |
| | The Revolution, Confederation and Constitution. Continental expansion; domestic and international development to the Age of Jackson. | | |
| HS 335 | Expansion and the Crisis of the Union | 5 credits | |
| | The Age of Jackson, territorial expansion, slavery and abolition, civil war and reconstruction. | | |
| HS 337 | The United States in the Progressive Era | 5 credits | |
| | Industrialization, immigration, urbanization and their effects on American society and politics. | | |
| HS 339 | Recent United States | 5 credits | |
| | The culture of the 1920's, the Great Depression, the Second World War, contemporary American society. | | |
| HS 341 | The Pacific Northwest | 5 credits | |
| | Past development and present problems of the states comprising the Pacific Northwest with emphasis on Washington state. | | |
| HS 342 | American Ethnic Minorities | 5 credits | |
| | A study of the reciprocal relationships between the dominant majority in the United States and some of its ethnic minorities; the experiences of those minorities; racist and ethnocentric thought and policies in select periods of United States history. | | |

HS 343	American Society and Culture	5 credits
	Social and intellectual history of the United States, with emphasis on the 19th and 20th centuries.	
HS 345	American Urban History	5 credits
	The rise of the American city, its role in American culture, and reactions to it.	
HS 347	U.S. Diplomatic History	5 credits
	The development of the United States as a world power from the 1890's to the present with emphasis on the history of foreign relations.	
HS 349	Contemporary U.S. since 1945	5 credits
	An examination of the major changes in the period after the Second World War, with special emphasis on the development of American pluralism.	
HS 381	Chinese Civilization	5 credits
	The development of Chinese culture, thought, and institutions down to the late 19th century.	
HS 383	China-20th Century	5 credits
	The western impact and the Chinese revolutions from the Opium War to the People's Republic.	
HS 385	Traditional Japan	5 credits
	The development of Japanese culture, thought and institutions to 1867.	
HS 387	Modern Japan	5 credits
	The transformation of Japan from feudalism to imperial power and industrial giant, 1867 to present.	
HS 391	Special Topics	1-5 credits
HS 392	Special Topics	1-5 credits
HS 393	Special Topics	1-5 credits
	Private work by arrangement, with the approval of department chairman.	
HS 400	Historiography	5 credits
	Historical study and writing and the philosophy of history from the earliest times to the present.	
HS 412	The French Revolution and Napoleon	5 credits
	Studies in the institutions and events which led to the fall of old France.	
HS 419	Great Historical Figures	5 credits
	An analysis of a major historical figure in the context of his or her times. Considers the impact of an individual upon events as well as that of events upon the individual.	
HS 431	The Westward Movement	5 credits
	American frontier history from colonial times to the end of the 19th century.	
HS 434	American Revolution and Confederation	5 credits
	Events and interpretations in the history of the Atlantic seaboard provinces from the end of the Great War for Europe through independence and Confederated United States.	
HS 435	American Civil War and Reconstruction	5 credits
	Political, social and economic aspects of the American civil war and reconstruction.	
HS 481	Modern Asia Revolutions	5 credits
	Problems and forces in selected Asian nations in the 20th century, especially of circumstances, leaders, tactics, and doctrines of revolutionary groups in China.	
HS 491	Special Topics	1-5 credits
HS 492	Special Topics	1-5 credits
HS 493	Special Topics	1-5 credits
HS 497	Independent Study	1-5 credits
HS 498	Independent Study	1-5 credits

Honors Program

David J. Leigh, S.J., Ph.D., Director

Objectives

The Honors Program is a two-year program designed to develop students who can think, read, write and speak integratively across various university disciplines. The courses are historically arranged, beginning with the Ancient Near East and proceeding through the civilizations of the Hebrews, Greeks, Romans and Medieval Europeans to modern and contemporary times. The various disciplines — literature, thought, history, fine arts and science — are correlated to provide the student with the greatest possible depth in each period under examination. The program is conducted according to the dialogue method in seminars. In addition, each quarter the student must write at least one paper in each course and be prepared to defend this written work in a tutorial session of five or six students and the instructor. Examinations are normally oral and are given at the end of each quarter.

Scholarships/Applications

Scholarships are granted on a one-year basis, renewable on proof of competence. Applicants are chosen on the basis of their previous record and evidence that they are willing to make the effort necessary to achieve genuine superiority in the intellectual pursuits. In addition to application to Seattle University, candidates must apply directly to the Honors Program.

Program Requirements

When accepted in the Program, students complete each of the course sequences numbered Hu 101 through 243. Completion of the Honors Program satisfies University core requirements in philosophy, mathematics/science, English, history, theology/religious studies and fine arts. Students may elect to take Hu 398 or 499 while completing their major.

Degree Major

Honors students, on completion of their two-year program, transfer into one of the departments of the University to fulfill the requirements for their major. Degree majors are usually completed in two years.

Honors Program Courses

HU 101	Humanities Seminar — Thought	5 credits
HU 102	Humanities Seminar — Thought	5 credits

- HU 103 Humanities Seminar — Thought 5 credits**
Three quarters of critical reading and discussion of the works which have most deeply influenced the development of the Western world, including the Old Testament, Pre-Socratics, Plato, Aristotle, New Testament, St. Augustine, St. Thomas, Duns Scotus, William of Ockham.
- HU 111 Humanities Seminar — Literature 4 credits**
HU 112 Humanities Seminar — Literature 4 credits
HU 113 Humanities Seminar — Literature 4 credits
Critical examination of those literary works which have most deeply influenced the development of the Western world, including the dramatic books of the Old Testament, Homer and the Greek playwrights, Virgil, The Cid, Song of Roland, Dante and Chaucer.
- HU 121 Humanities Seminar — History 4 credits**
HU 122 Humanities Seminar — History 4 credits
HU 123 Humanities Seminar — History 4 credits
Historical survey which also furnishes a background discipline for humanities-thought and humanities-literature, covering Hebrew, Greek, Roman and Medieval Christian history.
- HU 131 Humanities Seminar — Science 2 credits**
HU 132 Humanities Seminar — Science 2 credits
The history and nature of the physical and biological sciences.
- HU 142 Humanities Seminar — Art 2 credits**
Synoptic view of art history; period and national styles; principles and implication of design.
- HU 191 Interdisciplinary Seminar 1-10 credits**
HU 192 Interdisciplinary Seminar 1-10 credits
- HU 201 Humanities Seminar — Thought 4 credits**
HU 202 Humanities Seminar — Thought 4 credits
HU 203 Humanities Seminar — Thought 5 credits
Three quarters of critical reading and discussion, including Descartes, Hobbes, Locke, Spinoza, Leibniz, Rousseau, Hume, Kant, Hegel, J.S. Mill, Nietzsche, Marx, Sartre, Heidegger, Merleau-Ponty, Ricoeur.
- HU 211 Humanities Seminar — Literature 4 credits**
HU 212 Humanities Seminar — Literature 4 credits
HU 213 Humanities Seminar — Literature 4 credits
Shakespeare, Donne, Moliere, Milton, Dryden, Pope, Goethe, the Romantics, Victorians, Russian novelists and modern plays through the Existentialists.
- HU 221 Humanities Seminar — History 4 credits**
HU 222 Humanities Seminar — History 4 credits
HU 223 Humanities Seminar — History 4 credits
The Reformation to the present.
- HU 231 Humanities Seminar — Science 3 credits**
HU 232 Humanities Seminar — Science 3 credits
A study of some contemporary problems in the physical and biological sciences.
- HU 243 Humanities Seminar — Music 2 credits**
Twentieth century music with emphasis upon historical and cultural correlations.
- HU 291 Special Topics 1-5 credits**
HU 292 Special Topics 1-5 credits
HU 293 Special Topics 1-5 credits
- HU 398 Independent Study 1-5 credits**
Private work by arrangement. Prerequisite: Approval of program director.
- HU 499 Humanities Senior Seminar 5 credits**
Reading and discussion of major synthetic literature in the humanities on selected topics. Prerequisite: Approval of instructor.

Interdisciplinary Studies — Social Science

Bradley Scharf, Ph.D., Interim Coordinator

Objectives

Contemporary society is marked by many changes and controversies about how major institutions can best respond to emergent problems. Public engagement begins with moral awareness, but the path to effective action runs through systematic analysis of aggregate human behavior.

Interdisciplinary Social Science courses take students "beyond common sense" to the point where value choices meet studies of general causation. Students become involved in the definition of important issues, as well as in the actual practice of using empirical data to sort out alternative modes of action.

Interdisciplinary Social Science Courses

- ISS 120 Social Science Inquiry 5 credits**
Major issues of contemporary societal life are explored with the resources of economics, political science, and sociology. Focus on the constructive interplay of normative and empirical analysis. Correlates with philosophy 220.

Military Science

Lt. Col. Ron Culver, M.A., Chairperson

Objectives

To prepare academically and physically qualified college women and men for the rigor and challenge of serving as an officer in the United States Army — Active, National Guard, or Reserve. To that end, the program stresses service to country and community through an enhancement of leadership competencies which support and build on the concept of "servant leadership."

The Program

The program has been designed to produce liberally educated officers for the United States Army. It is therefore, multifaceted with distinctive sub-elements to meet individual needs and requirements. For example, ROTC is traditionally a four-year program, but individuals with prior service, members of reserve or National Guard units, participants of JROTC in high school, and summer basic camp attendees may complete the program in only two years. Normally, all students participate in one class day per week (two-three hours), three workshops (leadership labs) per quarter, and one overnight field exercise per quarter. Physical fitness of all cadets is closely monitored.

The program allows for scholarship assistance for selected students, a monthly stipend for all scholarship and third and fourth year students, and attendance at confidence building courses during the summer: Air Assault School, Airborne School, Ranger School, Flight Orienta-

tion, and cadet troop leadership training. For specifics about the program please contact the Professor of Military Science for additional information. High school seniors interested in applying for a four-year scholarship must submit application by December 1 of their senior year.

Financial Aid

Cadets receive financial aid in two forms: two (2), three (3), and four (4) year scholarships are awarded annually to cover school expenses. The scholarships pay tuition and fees and provide a book allowance as well as a monthly allowance of \$100. The second type of assistance provides a \$100 per month allowance to all non-scholarship cadets in the Advanced Course.

Commissioning Requirements

To be commissioned in the United States Army a student must complete the military science curriculum, including successful completion of the six-week advanced camp the summer prior to the senior year.

Basic Course:

Freshman year

MS 111, 112, and 119 or special topics 6 credits
PME: English 110 or equivalent 5 credits
Foreign Language 191, 192 and 193 5 credits
(Scholarship Cadets Only)

Sophomore year

MS 213, 214, 218 or special topics 6 credits
PME: Course in either psychology, sociology,
anthropology or ethics 5 credits

Advanced Course:

Junior year

MS 311, 312 and 313 9 credits
MS 314 or 315 (Advanced Camp) 4 credits

Senior year

MS 412, 413 and 419 or Independent Study ... 11 credits

Special topics or independent study courses may be substituted for courses listed above with the approval of the Professor of Military Science.

The Curriculum

The curriculum is designed to prepare students to become future leaders of the U.S. Army by developing their ability to demonstrate acceptable behavior in each of the following leadership dimensions: Initiative, Oral and Written Communications, Judgment, Decisiveness, Sensitivity, Technical Competence, Planning and Organizing, Administrative Control, Delegation, and Problem Analysis. Behavioral development occurs through course work in the areas of Professional Military Education (PME), Military Knowledge (MK), and Military Skills (MS).

PME courses are designed to develop the students' ability to communicate appropriately in writing, understand the human aspects of command and to become acquainted with the evolution of warfare, and military theory with a particular emphasis on the place of military institutions in society.

Military knowledge courses provide a foundation in such areas as leadership theory, ethics, roles and responsibilities of the officer and military operations. Military skills are developed during the conduct of leadership workshops and quarterly Field Training Exercises.

Leadership development occurs both in and out of the classroom by placing students in a variety of leadership positions. Oral presentations and writing requirements are incorporated in all classes as another means of developing desired leadership behavior.

Military Science Basic Courses

- | | | |
|-------------------------|--|------------------|
| MS 111
(101) | Basic Officership I
An introduction to the officership environment, military science, key legislation, roles of active and reserve component units, and special programs associated with ROTC. Includes three leadership labs and one Field Training Exercise. (fall) | 2 credits |
| MS 112
(102) | Military Communication Skills
Development of written and oral communication skills for the military leader. Practical application through student participation, presentations and writing projects. Includes three leadership labs and one Field Training Exercise. (winter) | 2 credits |
| MS 119 | Introduction to Military Operations
An introduction to the air and land warfare. Course will concentrate on the skills of the individual soldier and the squad. To include weapons and fighting techniques in the offense and defense. Includes three leadership labs and one Field Training Exercise. (spring) | 2 credits |
| MS 213
(203) | Leadership Assessment
Through a series of classroom simulations, participants are evaluated on their potential as leaders and managers. Includes organizational behavior, leadership theories, management competencies, communication skills, physical fitness and the leadership assessment program (LAP). Includes three leadership labs and one field Training Exercise. (spring) | 2 credits |
| MS 214 | Military Ethics and Values
Through a series of films, books, essays, and discussions the student is introduced to, and explores, military value sets and the ethics practiced within the profession of arms. Includes three leadership labs and one Field Training Exercise. (fall) | 2 credits |
| MS 217
(208) | Army Conditioning
A remedial physical fitness program for selected students to bring them up to the Army standard of physical fitness. Required prior to attendance at camps, air assault, airborne or Ranger schools. (spring) | 1 credit |

- | | | |
|---------------|---|--------------------|
| MS 218 | Map Reading
An introduction to Military Map Reading. Includes discussion of coordinates, Azimuths, conversion, intersection/resection, interpretation of symbols and relief. Includes three leadership labs and one Field Training Exercise. (winter) | 2 credits |
| MS 291 | Special Topics | 1-5 credits |
| MS 292 | Special Topics | 1-5 credits |
| MS 293 | Special Topics | 1-5 credits |
| MS 296 | Independent Study | 1-5 credits |

Military Science Advanced Courses

- | | | |
|-------------------------|---|------------------|
| MS 311
(302) | Advanced Officership III
An orientation on the competencies required of the small unit leader, manager. Includes lower-echelon organizations, tactics, deployment and communications. Permission of instructor. Includes three leadership labs and one Field Training Exercise. (spring) | 3 credits |
| MS 312
(301) | Land Navigation Competencies
Principles of land navigation using terrain analysis, map reading, aerial photograph interpretation, and the basics of orienteering. Permission of instructor. Includes three leadership labs and one Field Training Exercise. (winter) | 3 credits |
| MS 313
(303) | Officership/Leadership/Management
A survey course of leadership/management and motivational theories required of the small unit leader. Includes ethics and professionalism, human behavior and the decisionmaking process. Permission of instructor. Includes three leadership labs and one Field Training Exercise. (fall) | 3 credits |
| MS 314
(304) | Advanced Camp
Successful completion is a prerequisite to commissioning. During six weeks at Ft. Lewis, students are placed in a variety of roles and situations and practice their leadership and management competencies in the broader context of officership. Prerequisite: MS 311, 312, and 313. (summer) | 4 credits |
| MS 315 | Advanced Camp - Nursing
Successful completion is a prerequisite to commissioning. During six weeks at Madigan Army Medical Center, nursing students are placed in a variety of roles as an Army nurse to develop their professional competencies - both as a nurse and as an officer. Prerequisite: MS 311, 312, and 313. (summer) | 4 credits |
| MS 412
(401) | Professionalism and Responsibility
A survey course which assists the student to come to grips with the concept of officership. Covers Army values, ethics, professionalism, responsibilities to self, subordinates and country, law of land warfare, and the resolution of ethical/value dilemmas. Permission of instructor. Includes three leadership labs and one Field Training Exercise. (fall) | 3 credits |
| MS 413
(403) | Contemporary Political and Social Issues
The capstone course prior to commissioning, discusses the role of the officer and the institution in a rapidly changing world environment. Covers topics from national security. Third World Nationalism, to the Soviet Includes three leadership labs and one Field Training. (spring) | 3 credits |

MS 419 Military History 5 credits

A survey course intended to improve the student's understanding of the nature of war and the place of military institutions in society. Develops impact of leaders on the conduct of the battle. Major emphasis on the battles of the Revolutionary War, Civil War, WWI, WWII and Vietnam. Includes three leadership labs and one Field Training Exercise. (winter).

MS 496 Independent Study 1-5 credits

Aerospace Studies (Air Force ROTC)

Col. Robert J. Roetcisoender, P.A.S., Chairman

Objectives

Air Force ROTC is offered to SU students through an agreement with the University of Washington. The objectives of Air Force ROTC are to motivate, educate, and commission highly qualified students for active duty as officers in the United States Air Force. The curriculum is designed to develop the skills and attitudes an Air Force officer will need to comprehend and cope with the scientific and technological developments of the 80s.

General Program Requirements

All classes are taught at the University of Washington, Clark Hall, Rm 220. The basic freshman and sophomore courses are open to all students and require two hours of student participation per week. Junior and Senior classes are open to selected qualified students who have received credit for the basic courses. For further information contact the Recruiting Officer at (206) 543-2360 or write Recruiting Officer, AFROTC Det 910 (DU-30) University of Washington, Seattle, WA 98195-0001.

Commissioning Requirements

Students who successfully complete the Air Force ROTC program and receive an academic degree from Seattle University will be offered commissions as Second Lieutenants in the U.S. Air Force.

General Military Course (GMC)

The basic division courses are open to all students. No military commitment is required to take these courses. Sophomore level students may take the freshman and sophomore level courses concurrently. Uniforms and textbooks are furnished. A four week Field Training course taken during the summer between the sophomore and junior years is required for entry into the Professional Officer Courses.

Professional Officer Course (POC)

Cadets selected for enrollment in POC are enlisted in Air Force Reserve and receive subsistence pay of \$100 per month. Students who are qualified for Air Force pilot training will receive up to 21 and one half hours of flight instruction.

Scholarship

Four, 3½, 3, 2½, and 2-year scholarships are available for engineering and certain scientific majors. In addition, selected scholarships are available for pre-health profession majors, pilot, navigator, and missile launch officer candidates. Air Force ROTC scholarships pay for tuition, books, fees, and uniforms. In addition, scholarship winners receive \$100 subsistence per month. To take advantage of these scholarships students should apply directly to AFROTC Det 910, University of Washington, (DU-30) Seattle, WA 98195-0001, or call (206) 543-2360.

Two-Year Program

To provide for those students who are unable to take the general military courses, a two-year professional officer course is available on a highly competitive basis. The two-year program is open to graduate students and other students who have two years remaining until graduation. Students in this program are required to attend a six-week field training course at an Air Force base during the summer preceding program entry. The student is paid during the six-week period.

General Military Courses

AS 101 Aerospace Studies 100 1 credits
102 Examines the role of United States military force in the contemporary world, with particular attention to the United States Air Force, its organization and mission. The functions of strategic offensive and defensive forces, general purpose forces and aerospace support forces are covered. One classroom hour and one hour of leadership laboratory per week.
103

AS 211 Aerospace Studies 200 2 credits
212 Introduction to the study of air power. The course is developed from a historical perspective starting before the Wright brothers and continuing through the early 1980s. The development and employment of air power in military and nonmilitary operations to support national objectives is covered. One classroom hour and one hour of leadership laboratory per week. Prerequisites: 103 or equivalent for 211; 211 for 212; 212 for 213 or permission of department.
213

Professional Officer Courses

AS 331 Aerospace Studies 300 3 credits
332 Study of Air Force leadership and management includes professional responsibilities, leadership theory functions and practices, management principles and functions, and problem solving. Three classroom hours and one hour of leadership laboratory per week. Prerequisites: permission of department.
333

AS 431 Aerospace Studies 400 3 credits
432 Study of United States defense policy with respect to those political, economic, and social constraints involved in its formulation and implementation. Includes an examination of the military professional, his/her role and civil-military relationship in a democratic society. Three classroom hours and one hour of leadership laboratory per week. Prerequisite: permission of department.
433

Philosophy

Andrew G. Bjelland, Ph.D., Chairperson

Objectives

The task of philosophy is to study the world and the person in terms of that which constitutes their inner-most unity and meaning. It seeks to discover those all-pervasive factors in the world which refuse to yield to the segregating tendencies of a fragmentary approach to knowledge and truth. It strives to introduce students to the language of universal communication whereby they might translate the complex manifold of human experience into relevant and creative meaning for themselves and for society. It raises such searching questions as: What is the meaning of human existence? What is the scope of human freedom? What is the basis of personal responsibility? Are values relative? How is truth established? How is knowledge distinguished from belief and mere opinion? What is the nature of rational argument? Can God's existence be rationally determined? What is the nature and origin of evil? What is the nature of reality?

The philosophy taught at Seattle University strives to raise these and similarly significant questions in an atmosphere conducive to facilitating the student's search for truth. It unashamedly recognizes its debt to the past, particularly to those philosophers who have presented a realist view of the person and the world compatible with the Judaeo-Christian vision of the universe. At the same time it realizes that to remain dynamically relevant to the contemporary age it must advance and grow and be ever open to new problems, new ideas, new contributions and new perspectives.

Degree Offered

Bachelor of Arts

General Program Requirements

Students in philosophy must satisfy the core curriculum requirements of the University as given on pages 26-28 of this bulletin. In addition, students in philosophy must take 10 credits of foreign language or demonstrate an equivalent mastery of a foreign language.

Departmental Requirements

Bachelor of Arts — 55 credits of philosophy to be distributed as follows:

- I Foundations: PI 110, 220, and 260 or 261
- II Ethics: PI 250
- III History and Traditions: PI 233, 441, 442, 449
- IV Topics and Controversies: One course at the 300 level or above, plus any two courses at the 300 level or above from III or IV. Consult department brochure for rationale and description of categories I, II, III, IV.

Honors Program students who have successfully completed their work at Seattle University are exempted from PI 220. They are credited with the following equivalents: Hu 101=PI 110; Hu 102/3=PI 442; Hu 201=PI 233; Hu 202=PI 355; Hu 203=PI 365.

Undergraduate Minor — 35 credits of philosophy which must include PI 110, 220, 250, and 260 or 261. The remaining 15 credits are elective courses in philosophy. For students who wish to pursue a special "track" in the philosophy minor, at least 10 of the 15 elective credits will consist of courses designed to complement the student's major field.

Bachelor of Arts

Freshman year

Writing/Thinking Sequence (English 110 and Philosophy 110)	10 credits
History/Literature Sequence (History 120/English 120)	10 credits
Philosophy 260 or 261	5 credits
Fine Arts 120	5 credits
Mathematics core option	5 credits
Lab Science core option	5 credits
Elective	5 credits

Sophomore year

Study of Person Sequence (Philosophy 220 and Social Science I)	10 credits
Philosophy 233 and 250	10 credits
Philosophy course in fulfillment of "Topics and Controversies" requirement	5 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits
Electives	10 credits

Junior year

Modern language 105 and 106	10 credits
Philosophy seminars and upper division courses	15 credits
Interdisciplinary course	5 credits
Electives	15 credits

Senior year

Philosophy seminars and upper division courses	10 credits
Theology and Religious Studies II	5 credits
Senior Synthesis	3 credits
Electives	27 credits
Total	180 credits

Philosophy Courses

- PL 110 Introduction to Philosophy and Critical Thinking** 5 credits
A combined historical and problematic approach to the nature of philosophical inquiry. Reflection upon fundamental philosophical problems provides the context for mastering basic tools of critical interpretation, logical reasoning, argumentative writing and responsible cognitive communication.
- PL 220 Philosophical Problems: The Human Person** 5 credits
Critical examination of the nature and powers of the human person. Special emphasis on the human knowing process and the problems of human freedom and personal responsibility. Prerequisite: PL 110.
- PL 231 Introduction to Ancient Greek Philosophy** 5 credits
Readings from source material of the philosophy of the ancient Greeks. Investigation of the topics, problems and doctrines of the pre-Socratics, Plato and Aristotle. Prerequisite: PI 220.
- PL 232 Introduction to Medieval Philosophy** 5 credits
Synthesis of medieval philosophy in its historical perspective with a particular examination of the themes of Arabic, Scholastic and Nominalist metaphysics. Prerequisite: PI 220.
- PL 233 Introduction to Modern Philosophy** 5 credits
Investigation of topics, problems and doctrines of selected authors from the 17th and 18th centuries. Prerequisite: PI 220.
- PL 250 Ethics** 5 credits
General theory of moral behavior, ethics as a science, the purpose of human life and the means of attaining this goal. Applications of general ethical theory in specific instances. Prerequisite: PI 220.
- PL 252 Business Ethics** 5 credits
Application of general ethical theory to those problems directly related to the business world; employment practices, wages, advertising, honesty, strikes. Prerequisites: PI 220; Ec 271.

- PL 255 Medical Ethics** 5 credits
Application of general ethical theory to basic problems encountered in the medical profession; fees, professional secrecy, rights of patients, abortion, transplants, drugs. Prerequisite: PI 220.
- PL 256 Engineering Ethics** 5 credits
Application of ethical theories to problems faced by engineers: conflicts between responsibilities to employer and consumer; impact of engineering work on society; weapons, biomedical, and nuclear engineering. Prerequisite: PI 220.
- PL 257 Ethics and Criminal Justice** 5 credits
Critical analysis of the ethical issues facing criminal justice practitioners such as the use of deadly force, conformity to the rules of one's office, the decision to prosecute, participation in plea bargaining, representation of the guilty, and the imposition of punishment. Prerequisite: PI 220.
- PL 258 Communication Ethics** 5 credits
Ethical responsibilities of the communicator, in both interpersonal and media settings. Critical examination of ethical codes in establishing relationships and conducting communication in a democratic society. Topics covered include: lying, withholding information, conflicts of interest, objectivity, service to audiences. Prerequisites: At least one of the following: COM 200, JMC 210, COM 260 or COM 290.
- PL 260 Logic I** 5 credits
Systematic treatment of traditional logic. The themes of communication and language, division and definition, propositions, syllogisms and the nature of science will be examined.
- PL 261 Logic II** 5 credits
Introduction to symbolic or mathematical logic from both an intuitive and formal standpoint. Elementary calculus of classes and relations and introduction to axiomatic set theory and Boolean algebra. Prerequisite: PI 220.
- PL 300 Philosophy of Nature** 5 credits
Philosophical appraisal of the material universe, its nature, causes and activities, incorporating the mathematical and experimental findings into the philosophical account of the cosmos. Prerequisite: PI 220.
- PL 301 Philosophy and the Imagination** 5 credits
Examination of the theories of imagination from Hume to Heidegger and its significance for aesthetics, epistemology, and psychology. Prerequisite: PI 220.
- PL 302 Approaches to Knowledge and Reality** 5 credits
Examination of the interrelations between theories of knowledge and metaphysics, with emphasis on: the nature and scope of human knowledge; the relations of perception to understanding; change and causality; the possible and the real. Prerequisite: PI 220.
- PL 303 Philosophy of Natural Sciences** 5 credits
Philosophical reflections on the historical development of the scientific view of the cosmos. Readings from significant sources. Prerequisite: PI 220.
- PL 305 Philosophy of Social and Behavioral Sciences** 5 credits
Study of the philosophical implications and presuppositions of the methodology and conceptual framework of the social and behavioral sciences: sociology, economics and/or psychology. Prerequisite: PI 220.

- PL 306 Philosophy and Psychology 5 credits**
A study of the interrelationships between philosophical methods and contents, and the method and contents of psychology, with special focus on the psychoanalytic and phenomenological-existential developments of psychological theory. Prerequisite: PI 220.
- PL 310 Contemporary Ethical Theory 5 credits**
This course will concern itself with the moral problems facing contemporary persons as manifest in such contemporaries as Hare, Heelter, McCormick as well as the developmental theories of Kohlberg. Prerequisite: PI 220.
- PL 312 Social Ethics 5 credits**
Moral problems raised by the relation between individuals and their societies: the common good, the justification of authority, rights and responsibilities of individuals and societies. Prerequisite: PI 220.
- PL 315 Buddhist Ethics 5 credits**
Study of the path of right living as expressed in the mystical and religious philosophy of Buddha. Prerequisite: PI 220.
- PL 324 Philosophy of Religion 5 credits**
A philosophical study of religious consciousness in terms of the relationships between religious consciousness and human authenticity, in both its individual and social dimensions. Prerequisite: PI 220.
- PL 325 Philosophy of Art 5 credits**
Philosophical reflection on the nature of art and its reality; beauty as a transcendental property of being and its relationship to art and the artist. Prerequisite: PI 220.
- PL 326 Philosophy of Law 5 credits**
An investigation into the nature of law, the relation between law and morality, the limits of law and the nature of justice and rights. Prerequisite: PI 220.
- PL 335 The Philosophy of History 5 credits**
Consideration of the aim and scope of history, the meaning of the historical event, the nature of historical explanation and the criterion for historical truth from the points of view of leading representatives of both the speculative and analytical schools. Prerequisite: PI 220.
- PL 336 Philosophical Impact of Scientific Revolutions 5 credits**
Critical examination of one or more major scientific revolutions — e.g., the Copernican, Galilean-Newtonian, Darwinian, or Einsteinian revolutions — and of philosophical responses to such emergent scientific views. Prerequisite: PI 220.
- PL 337 Social and Political Philosophy 5 credits**
General overview of major thinkers or focus on particular theme(s) in the history of Western social-political theory, from the ancients to the present-day. Prerequisite: PI 220.
- PL 341 Issues in Contemporary Philosophy 5 credits**
A selected examination of some of the current debates within philosophy, e.g., hermeneutics, deconstruction and critical theory. Prerequisite: PI 220.

- PL 355 19th Century Philosophy 5 credits**
Readings from source material of the 19th Century philosophers. Investigation of central topics, problems and teachings of selected authors from Hegel to Nietzsche. Prerequisite: PI 220.
- PL 360 20th Century Philosophy — The Analytic Tradition 5 credits**
Readings from source material of 20th Century analytic philosophers. Investigation of contemporary schools of logical positivism and linguistic analysis from Russell to Wittgenstein. Prerequisite: PI 220.
- PL 361 Phenomenology 5 credits**
Study of the historical roots of this contemporary movement, which seeks to elucidate the fundamental structures of human experience. Focus on the "pure" phenomenology of Edmund Husserl and Merleau-Ponty's phenomenology of the lived-body. Prerequisite: PI 220.
- PL 362 Existentialism 5 credits**
(489) The themes of anxiety, despair, guilt, and freedom in the writings of Kierkegaard, Nietzsche, Sartre, Camus, Jaspers and others. Prerequisite: PI 220.
- PL 364 American Philosophy 5 credits**
Offers, at the discretion of the instructor, either a general overview of the history of the American philosophical tradition from Puritanism to the present or a focused study of a particular movement (e.g., Pragmatism) or theme (e.g., community) in that tradition. Prerequisite: PI 220.

- PL 365 20th Century Philosophy — The Speculative Tradition 5 credits**
Readings from source material of 20th Century process philosophers from Bergson to Whitehead and of the phenomenological tradition from Husserl to Sartre. Prerequisite: PI 220.
- PL 366 Process Philosophy 5 credits (478)**
Critical reflection on the philosophies of such thinkers as Bergson, Peirce, Whitehead, and Hartshorne. Prerequisite: PI 220.
- PL 439 Seminar on Ethics and Value Studies 5 credits**
Intensive examination of an author or theme in the areas of ethics, aesthetics, social and political values. Prerequisite: PI 220.
- PL 441 The Greek Experience: Plato/Aristotle 5 credits**
A seminar study of the ancient Greek philosophical experience, with particular focus on the works of Plato and Aristotle. Prerequisite: PI 220.
- PL 442 The Medieval Synthesis: Augustine/Aquinas 5 credits**
A seminar study of the Christian philosophies of St. Augustine and St. Thomas Aquinas. Prerequisite: PI 220.
- PL 443 German Idealism 5 credits**
Seminar investigation of writings by such thinkers as Kant, Fichte, Schelling and Hegel. Prerequisite: PI 220.
- PL 449 Major Figures in the Traditions 5 credits**
Intensive, seminar examination of the work of a major philosopher. Prerequisite: PI 220.
- PL 491 Special Topics 1-5 credits**
PL 492 Special Topics 1-5 credits
PL 493 Special Topics 1-5 credits
- PL 497 Independent Study 1-5 credits**
PL 498 Independent Study 1-5 credits
- PL 499 Thesis 1-5 credits**
Original philosophical investigation under the direction of a faculty member appointed by the chairman of the department. Prerequisite: PI 220.

Political Science/ Public Administration

C. Bradley Scharf, Ph.D., Chairperson
James B. Hogan, Ph.D., BPA., Coordinator

Objectives

The curriculum in political science introduces the student to political values, trains in political analysis and informs of government processes at the international, state and local level. It prepares students for graduate study or for careers in government, research, teaching or private enterprise where either a knowledge of political science or a broad liberal arts background is required.

Degrees Offered

Bachelor of Arts
Bachelor of Public Administration

General Program Requirements

Students in political science must satisfy the core curriculum requirements of the University as given on pages 26-28 of this bulletin. Macro-economics is required as partial fulfillment of this social science core. Political science majors are strongly encouraged to take additional courses in history, economics, and languages. Advisers may recommend electives in business, sociology, philosophy, and writing. Students who plan to attend law school should consult the prelaw section of this bulletin and see a prelaw adviser.

Transfer students must take a minimum of four political science classes regardless of number of credits and these courses must be from each of the four subdivisions of the department.

Departmental Requirements

Bachelor of Arts — 60 credits of political science which must include PLS 205 and at least 30 upper division credits (300- and 400-level). Majors must select at least two courses in each of the four fields below:

American Government and Politics — PLS 208, 210, 301, 302, 304, 310, 390, 406, 407.

Comparative Foreign Governments — PLS 230, 231, 330, 335.

Political Thought and Theory — PLS 253, 353, 354, 355, 358.

International Politics — PLS 260, 358, 361, 363, 365, 460.

Each field also includes Special Topics.

Undergraduate Minor — 30 credits which must include PLS 205 and at least one course from each of the four major subdivisions of the department.

Bachelor of Arts

Freshman year

English 110/Philosophy 110 Sequence	10 credits
Fine Arts 120	5 credits
History 120/English 120 Sequence	10 credits
Mathematics	5 credits
Social Science I (Psych, Soc, Iss)	5 credits
Political Science	10 credits

Sophomore year

Lab Science core option	5 credits
Social Science II (Ec 271)	5 credits
Philosophy 220	5 credits
Political Science	15 credits
Philosophy: Ethics	5 credits
Religious Studies I	5 credits
Electives	5 credits

Junior and Senior years

Religious Studies II, interdisciplinary course, senior synthesis and recommended electives in the Junior and Senior years vary widely, according to the student's career aspirations. Students who plan to attend law school should take accounting. All students should consider foreign languages, computer skills and business electives

Total 180 credits

Political Science Courses

PLS 120 Politics and Society 5 credits
Politics as human conflict and cooperation. The social, economic, ideological and moral dimensions of politics. Politics as intellectual analysis and social action. Not for major credit.

PLS 205 American National Government 5 credits
Constitutional and historical foundations of the Federal government. Processes and structures of American politics from conservative, radical, and reformist perspectives. Power, class and culture as elements affecting citizen participation and as shapers of economic and social policy.

PLS 208 The Judicial Process 5 credits
Overview of the role of law and the judiciary in American political life; the powers and limitations of the judiciary; individual rights in legal conflicts; study of selected key cases. Designed especially for non-majors.

PLS 210 Introduction to Local and State Politics 5 credits
Examination of structures and functions of political institutions at local, state, county and special district levels, especially legislative, executive and judicial systems.

PLS 230 Industrial Democracies 5 credits
Social divisions, participation, policy processes in West Europe, North America, and Japan. Popular values, power distribution, and the future of democracy.

PLS 231 Diversity and Change 5 credits
Political diversity among contemporary nations. Methods of comparison. Testing theories of change in political economy and political sociology. Examples from capitalist, socialist, and developing nations.

PLS 253 Introduction to Political Philosophy 5 credits
An overview of political ideas from East to West, from Plato to present, application of these ideas to contemporary society.

PLS 260 Introduction to International Politics 5 credits
Analysis of the dynamic forces in international relations; power, nationalism, sovereignty, colonialism, imperialism, underdevelopment and hunger from various national and theoretical perspectives.

PLS 291 Special Topics 1-5 credits
PLS 292 Special Topics 1-5 credits
PLS 293 Special Topics 1-5 credits

PLS 301 The American Presidency 5 credits
Analysis of powers of American presidents: relationship with Congress, bureaucracy, judiciary, private sector and with foreign governments.

PLS 302 Government and the Economy 5 credits
Appropriate roles of government in the economy, including regulatory, spending, and taxing policies, and economic and social planning.

PLS 304 Political Parties and Interest Groups 5 credits
Theories, organization, strategy and leadership of American political parties, campaigns and party leadership. Role of interest groups in the American political process.

PLS 310 Urban Politics and Public Policy 5 credits
Problems of large American cities with special emphasis on transportation, housing, public safety and planning. Fiscal problems of American cities; public school politics.

PLS 330 Soviet Union 5 credits
Goals, structures, and processes of Soviet oligarchic rule. Social changes, economic dilemmas, ethnic conflict, law, dissent, and welfare.

PLS 335 Welfare States 5 credits
Politics of social planning in Sweden, Britain, US, and other welfare states. Health care, pensions, urban planning, economic regulation. Public goods and private choices. Empirical methods in comparative research.

PLS 353 Topics in Political Philosophy	5 credits
Enduring problems in political philosophy will be critically examined through the systematic thought of great theorists from Plato through Hegel.	
PLS 354 Western Marxism	5 credits
Critical examination of the political and social philosophy of Karl Marx and selected interpretations of his philosophy.	
PLS 355 Contemporary Political Thought	5 credits
A critical examination of selected contemporary political ideas and theories.	
PLS 358 Global Scarcity	5 credits
Examination of data on resource depletion and degradation of earth's ecosystems. Economic, political, and moral implications of a sustainable society under conditions of scarcity.	
PLS 361 International Law	5 credits
Fundamentals of international law, states and international law; the individual in international law; creation, application and enforcement of international law.	
PLS 363 Human Rights and World Order	5 credits
Examination of revolutions and ideas on human rights. Study of evolving civil, political, economic, social concepts of human rights in relation to a new world order of justice and peace.	
PLS 365 United States Foreign Policy	5 credits
Constitutional framework; major factors in formulation and execution of foreign policy; American policy in Europe, the Near East, Africa, the Far East and in Latin American historically and currently.	
PLS 390 Research Methods and Design	5 credits
Techniques of social science disciplines applied to analysis and implementation of policy; research design, data acquisition and index construction.	
PLS 391 Special Topics	1-5 credits
PLS 392 Special Topics	1-5 credits
PLS 393 Special Topics	1-5 credits
PLS 406 Constitutional Law	5 credits
Growth, philosophy and development of the United States Constitution as reflected in decisions of the Supreme Court with emphasis on the role of the Court in contemporary America. Prerequisite: Junior or senior standing.	
PLS 407 The Supreme Court and the Bill of Rights	5 credits
Interpretation of the Bill of Rights by the Supreme Court and the impact on the individual and the States. Prerequisite: Junior or senior standing.	
PLS 460 Contemporary World Politics	5 credits
An examination of dominant political forces on today's international scene and effects of these forces on international relations, international law and international organizations.	
PLS 488 Internship	2-15 credits
On-the-job experience with appropriate governmental agency. Students may register for no more than 15 total intern credits. Mandatory CR/NC.	
PLS 494 Seminars	2-5 credits
PLS 495 Seminars	2-5 credits
PLS 496 Seminars	2-5 credits
PLS 497 Independent Study	1-5 credits
PLS 498 Independent Study	1-5 credits
PLS 499 Independent Study	1-5 credits

Public Administration

The Bachelor of Public Administration (BPA) degree introduces students to public service — to governmental and private non-profit organizations which address critical questions of public policy. The curriculum is designed for preservice students who desire a broad general understanding of the ways in which public business is transacted, and who seek to comprehend the interplay of public management and public policy.

The program emphasizes theory and practice, both in its course work and in its internship opportunities. Both core and elective classes pay particular attention to the critical role of human resources in public affairs and public policy. These considerations make the BPA degree particularly appropriate for students who wish to combine a broad liberal arts background with an introduction to a professional field.

Degree Requirements

1. The 65 credit major consists of two components: 50 credits are earned in BPA core, and 15 credits are earned in emphasis courses.
2. 2.3 (C+) g.p.a. required in the major
3. No PUB major courses may be taken CR/NC
4. The required internship is ungraded
5. Ec 271 is required as partial fulfillment of the social science core.

Public Administration minor; 30 credits comprised of PUB 280, 281, 282, 480, 481, 482.

1. BPA Core Requirements — 50 credits

PLS 205	American National Government
PLS 210	Introduction to Local and State Politics
PLS 390	Research Methods and Design

PUB 280	Introduction to Public Administration
PUB 281	Working in Public Organizations
PUB 282	Origins of Public Policy
PUB 480	Management Control
PUB 481	Policy Process
PUB 482	Issues Seminar
PUB 495	Internship

2. Emphasis Courses — 15 credits, 5 from each category

Public Administration Courses

PUB 280 Introduction to Public Administration 5 credits

Tour of the multi-disciplinary nature of public administration. Role of public organizations in the American polity at the federal, state, and local levels. Constitutional definition of administration. Exposure to daily workings of public agencies. Role of independent sector organizations.

PUB 281 Working in Public Organizations 5 credits

Daily life in public and nonprofit organizations, examining the relationship between the worker and working

environment. Focus on the human resource in organizations, emphasizing training and development, employee relations, motivation, productivity, and group behavior.

- PUB 282 Origins of Public Policy** **5 credits**
Introduction to public policy analysis within the framework of contemporary public issues. Includes historical and philosophical origins of the rationale for public action and traces the development of method in social science.
- PUB 291 Special Topics** **1-5 credits**
PUB 292 Special Topics **1-5 credits**
PUB 293 Special Topics **1-5 credits**
- PUB 349 Collective Bargaining** **5 credits**
History of statutory requirements, dynamics and strategies of labor-management relations. Simulation of a realistic collective bargaining situation. Not available to MPA students for credit.
- PUB 444 Training and Development** **5 credits**
Application of behavioral science concepts in human resource development, including adult learning theory and roles and competencies of the training and development professional. Instructional methods include lecture, group discussion, information interviewing, simulation and action research.
- PUB 480 Management Control** **5 credits**
Characteristics of the control structure in public and nonprofit organizations, including financial reporting, output measurement, programming, budget preparation, performance monitoring and evaluation. Prerequisite: Upper division standing.
- PUB 481 Policy Process** **5 credits**
An inquiry into the nature of the public policy process. How problems originate and alternative solutions are formulated; the influence of information and advice on policy choice; and an examination of intergovernmental and organizational factors that shape policy as it is being implemented. Prerequisite: Upper division standing.
- PUB 482 Issues in Public Administration** **5 credits**
A seminar focusing on one or more current issues in public policy or public management. Emphasis is on integrating and applying knowledge from previously completed course work. Prerequisites: Completion of core or permission.
- PUB 491 Special Topics** **1-5 credits**
PUB 492 Special Topics **1-5 credits**
PUB 493 Special Topics **1-5 credits**
- PUB 494 Practica** **1-5 credits**
Short courses to integrate theory and practice in human resources, public and non-profit management. Topics vary with contemporary student interest. Courses are offered on Friday evenings and Saturdays.
- PUB 495 Internship (Ungraded)** **2-5 credits**
Supervised work with seminars on job expectations, organizational setting, client relationships and performance.
- PUB 496 Independent Study** **1-5 credits**
PUB 497 Independent Study **1-5 credits**
PUB 498 Independent Study (Graded) **1-5 credits**

Prelaw

David Arnesen, J.D., Adviser
Sr. Christopher Querin, SP, Ph.D., Adviser

Program

The best preparation and a requirement for entrance to many law schools is the completion of a four-year program for the bachelor's degree.

In advising prelaw students, Seattle University follows the recommendations of the Association of American Law Schools. These stress comprehension and expression in words, critical understanding of institutions and values with which the law deals, and creative power in thinking. These capacities may be developed through study in any of a number of departmental majors.

Entering students interested in law must declare a major in the field in which they are most interested and for which they are best suited. Those unable to make such a determination upon entrance will be enrolled in the General Studies program. The program of study of each prelaw student must be approved by the departmental adviser and the prelaw adviser should be consulted quarterly. During their junior year, students must acquaint themselves with the entrance requirements of the law school they plan to attend and make arrangements to take the Law School Aptitude Test (L.S.A.T.). The application form and the instruction booklet for this test may be obtained from the prelaw adviser.

Psychology

Steen Halling, Ph.D., Chairperson

Objectives

The curriculum is designed for students who plan to work as professional psychologists and thus need a sound preparation for graduate study; for students who plan a career in any field dealing primarily with people, such as nursing, teaching, social work, guidance and personnel; or for those who desire a well-rounded education and thus need a basic knowledge and understanding of human experience and behavior. The specific and unique role of the Psychology department is to provide a knowledge of psychology as a human science and as a natural science, both founded on a solid philosophical reflection on values of the human person.

Degrees Offered

Bachelor of Arts
Bachelor of Science
Master of Arts in Psychology — See Graduate Bulletin

General Program Requirements

Students in psychology must satisfy the core curriculum requirements of the University as given on pages 26-28 of this bulletin. See programs of study for additional requirements.

Psychology majors may choose any minor. For social work, the recommended curriculum is a major in psychology and a minor in sociology. Premedical students may take a Bachelor of Science in psychology. Psychology majors may not register for CR/NC in the courses listed under departmental requirements; they must obtain a grade of C or higher in all those required courses; and they must maintain a 2.00 grade point average in all other psychology courses.

The psychology major may be combined with a specialty in Alcohol Studies (see Alcohol Studies section of this Bulletin.) Students taking this specialty may count Alc 402 towards their psychology requirements.

Departmental Requirements

Bachelor of Arts — 50 credits of psychology which must include Psy 120, 201, 301, 401, and 487-488.

Bachelor of Science — 50 credits of psychology which must include Psy 120, 201, 202, 301, 330, 401, 402, 487-488 and a minimum of 40 credits of mathematics and physical science, which may include Psy 385, but which must **not** include the math and science courses recommended for the core curriculum on pages 26-28 of this Bulletin. Students must obtain a grade of C or higher in each of the science and mathematics courses which are part of the required 40 credits.

Undergraduate Minor — 30 credits of psychology which must include Psy 120.

Typical Program

The courses listed below pertain to the major only. Entering Freshmen will find the sequence of courses for the Core Curriculum outlined on pages 26—27 of this Bulletin. Transfer students entering Seattle University in 1987-88 should consult page 28 of this bulletin for an outline of Core requirements applying to them, and page 60 of the 1986-87 bulletin for a description of typical programs, including Core courses, for psychology majors.

Psychology Courses

PSY 120 Introductory Psychology 5 credits

(PSY 100) General introduction to the modes of inquiry of scientific, psychology, including its nature, scope and method; organic, environmental and personal factors that influence human experience and behavior. Correlates with Philosophy 220. (fall, winter, spring)

PSY 201 Statistics I 5 credits

PSY 202 Statistics II 5 credits

I. Basic descriptive and inferential statistics; central tendency, variability, correlation and regression, probability, z and t tests, one way analysis of variance. II. Multiple classification analysis of variance; repeated measurement designs; introduction to multiple regression analysis; non parametric statistics. Prerequisite: At least high school algebra for Psy 201, Psy 201 for 202, and neither is a core option course. (I. fall, winter, spring, II - winter, even numbered years)

PSY 210 Personality Adjustment 5 credits

The normal personality; self-knowledge and self-actualization; personality adjustment problems; various inadequate reactions, escape and defense mechanisms; positive mental health. (spring)

PSY 291 Special Topics 1-5 credits

PSY 292 Special Topics 1-5 credits

PSY 293 Special Topics 1-5 credits

PSY 296 Independent Study 1-5 credits

PSY 301 History and Schools of Psychology 5 credits

Survey of the history of psychology, including the classic periods of structuralism, functionalism, behaviorism, psychoanalytic schools and Gestalt. Prerequisite: Psy 120. (fall)

PSY 302 Contemporary Theories 5 credits

Critical examination of the major theories, issues and methodology in psychology since 1935. Prerequisite: Third year standing or permission.

PSY 315 Abnormal Psychology 5 credits

Survey of abnormal mental and emotional life; symptoms, nature and causes of psychological disorders; abnormalities of specific functions; theories of etiology. Prerequisite: Psy 120. (fall, winter, spring)

PSY 322 Psychology of Growth and Development 5 credits

Life Span Development from infancy through childhood, adolescence, young adulthood, middle age, old age and death and dying. Cognitive, personality, social, and emotional development. Optional field work placement in settings related to different age periods. Prerequisite: Psy 120 or equivalent (fall, winter, spring). Credit will not be allowed for both Psy 322 and Ed 322.

PSY 330 Physiological Psychology 5 credits

Biological basis of behavior, cerebrospinal, autonomic and sensory systems; endocrine glands, relation of the brain to behavior. Prerequisites: Psy 120 and human physiology. (winter)

PSY 350 Theories of Personality 5 credits

Study of the assumptions, basic principles and implications for psychotherapy and everyday life of selected personality theorists representing the psychoanalytic, social psychological, social learning, humanistic and existential approaches to psychology. Prerequisite: Third year standing and Psy 120 or equivalent. (fall; alternate years)

PSY 375 Psychology of Death and Dying 5 credits

Topics include the experience of dying, death anxiety, death denial, pain, near-death experiences, bereavement, disasters, rituals cross-culturally, funerals, the death of the child and the child's perception of death, and the relationship of death to life. Prerequisite: Psy 120 or equivalent. (winter)

- PSY 385 Computer Research Methods** 5 credits
This non-programming course uses existing computer programs or program "packages" to solve statistical problems. The course consists of both lectures and laboratory experience at a computer terminal. Prerequisites: Psy 201 or any other elementary course in statistics. (winter; even numbered years)
- PSY 401 Experimental Laboratory Psychology** 5 credits
Introduction to the methods of natural sciences with an emphasis on the experimental method. Course includes psychophysics, perception, learning and memory and thinking and problem solving. Laboratory projects including one student-designed project and prepare written laboratory reports. Three lecture and four laboratory hours per week. Prerequisites: Psy 100 and 201. (fall, spring)
- PSY 402 Experimental Psychology-Learning** 5 credits
Principles of conditioning, instrumental learning, reinforcement, discrimination, punishment and fear. Human verbal learning, memory and forgetting. Biological aspects of human and animal learning addressed in the context of learning theory. Four lecture hours per week and an arranged lab in either human or animal learning depending on choice of student. Prerequisite: Psy 401. (winter; odd numbered years)
- PSY 427 Introduction to Counseling** 5 credits
Basic theory, principles and dynamics of the counselor-client relationship and the counseling process. Prerequisite: Permission. (spring)
- PSY 461 Theory of Group Dynamics** 2 credits
Survey of theories and empirical studies of the dynamics of group behavior; emphasis on means of more effective and productive group performance. Prerequisite: Psy 210 or equivalent. (fall, winter)
- PSY 462 Experience of Group Dynamics** 3 credits
Experience of group dynamics through participation in a group; emphasis on experiencing interpersonal communication. Prerequisite: Psy 461. Mandatory C/NC. (fall, winter)
- PSY 487 Senior Seminar I** 1 credit
PSY 488 Senior Seminar II 4 credits
Reading and discussion of current issues with respect to psychology as a mental health profession, and as a discipline with a particular content and diverse methodologies. Prerequisite: Permission. (I-winter, II-spring; must be taken in same year)
- PSY 490 Symposium on Alcoholism** 2-5 credits
(Alc 400) Psychological, educational, physiological, social, industrial, psychiatric, therapeutic and rehabilitation aspects of the problem of alcoholism. Prerequisite: Junior or senior standing in psychology, sociology, premedicine or nursing, or permission. (fall, winter, spring)
- PSY 491 Special Topics in Psychology** 2-5 credits
PSY 492 Special Topics in Psychology 2-5 credits
PSY 493 Special Topics in Psychology 2-5 credits
By arrangement. Prerequisite: Permission.
- PSY 496 Independent Study** 1-5 credits
PSY 497 Independent Study 1-5 credits
PSY 498 Independent Study 1-5 credits

Sociology

J. Robert Larson, Ph.D., Chairperson

Objectives

Sociology has the dual capacity of satisfying the need of students for a humane and liberalizing discipline and of providing a sound basis for careers of teaching and research in the science of sociology or careers in social service. Courses are designed to provide a systematic inquiry into the complex structures of modern society and their many functions. They also investigate the interactions between persons, their groups and the ways in which their culture affects and is affected by this interaction.

Students may choose sociology for various reasons. Some are interested in making a career of teaching sociology or of doing social research. Others study sociology in preparation for careers in applied sociological settings or in social work. Still others seek in sociology a broader and deeper understanding of man and his works. With a view to unique interests of individuals, different combinations of courses are recommended to students. In separate brochures, required and recommended elective courses are outlined for three applied tracks: Applied Social Research, Corrections and Social Work. Common to each of the tracks are required courses which provide the conceptual foundation and methodological tools of sociological analysis.

Degree Offered

Bachelor of Arts

General Program Requirements

Entering freshmen in sociology must satisfy the core curriculum requirements of the University as given on pages 26-28 of this bulletin. Transfer students who are sociology majors must complete at least 20 hours in sociology at Seattle University and meet the core curriculum requirements as outlined on pages 26-28 of this bulletin.

Departmental Requirements

Bachelor of Arts, Sociology — 60 credits are required for a major in sociology of which 25 credits are in basic courses, including Sc 101, 200, Sc 201, 380, and 495 plus 25 additional credits in upper division courses. Selected in consultation with an adviser. The remaining credits in sociology are elective.

Bachelor of Arts, Applied Sociology — Students may elect one of three tracks in Applied Sociology: (A) Applied Social Research, (B) Corrections or (C) Social Work. Each track requires 60 credits for the B.A. degree. In addition to the five courses required of all sociology majors, those majoring in (A) will take Sc 381, 382, 488, and Psy 385; those majoring in (B) must take Sc 362, and 488; CJP 213 or CJP 412, those majoring in (C) must take Sc 300, 374, 376 and 488. The remaining hours in each track are elective with the adviser's consent.

Certificate in Applied Sociology — Students not seeking a degree but who wish to be certified in one of the tracks and who meet the University's entrance requirements must complete 30 credits. The requirements for certification in Corrections are the same as for the Minor below. For Applied Social Research and Social Work the requirements can be met by courses approved by the track adviser.

Undergraduate Minor — 30 credits which will include Sc 101 and 380 for all students. Additionally, students minoring in (A) must take Sc 200 and 201; those minoring in (B) must take Sc 362 and CJP 213 or CJP 412; those minoring in (C) must take Sc 300, 374 and 488. The remainder of the 30 credits must be taken in upper division courses.

Bachelor of Arts and Bachelor of Arts, Applied Sociology

Freshman year

English 110/Philosophy 120 sequence	10 credits
Fine Arts 120	5 credits
History 120/English 120 sequence	10 credits
Lab Science	5 credits
Mathematics	5 credits
Sociology 120, 201	10 credits

Sophomore year

Philosophy 220/Social Science I sequence	10 credits
Psychology 120	5 credits
Social Science II	5 credits
Sociology 200, 380	10 credits
Theology and Religious Studies I	5 credits
Electives	10 credits

Junior year

Ethics	5 credits
Sociology Track and/or electives	20 credits
Theology and Religious Studies II	5 credits
Electives	15 credits

Senior year

Interdisciplinary course	3-5 credits
Senior Synthesis	3 credits
Sociology 495	5 credits
Sociology Track and/or electives	15 credits
Electives	17-19 credits

Total..... 180 credits

Sociology Courses

SC 120	Introductory Sociology	5 credits
(SC 101)	A description of the science of sociology; an analysis of interpersonal relations, of associations and social institutions, and of the way these affect one another and are affected by culture correlates with PL 220.	
SC 200	Perspectives in Social Psychology	5 credits
	Consideration of theories and methods in contemporary explanations of the behavior of individuals in social contexts and social situations. Prerequisites: Sc 101 and Psy 100 recommended. Exceptions with permission of professor.	
SC 201	Social Statistics	5 credits
(Psy 201)	Review of basic statistical principles, processes and computations in social science research.	
SC 210	American Society and Culture	5 credits
	Analysis of selected institutions and the social structure; dominant values and the American character; basic changes in contemporary American society and culture.	
SC 256	Criminology	5 credits
	A review of the theories of the causes of criminal behavior; sociological explanations of criminal interactions, criminal systems and their functions.	

- SC 257 Juvenile Delinquency 5 credits**
Analysis of the offenses of juveniles as distinct from those of adult offenders, and sociological explanations of these behaviors within contemporary conceptual models.
- SC 260 Sociology of the Family 5 credits**
The structure and functions of the family as a social system; the use of sociological perspectives to interpret the position of the American family in an era of social change.
- SC 266 Interracial and Interethnic Relations 5 credits**
Analysis of the factors involved in intergroup relations.
- SC 280 Urban Community 5 credits**
Urban community structures and institutions; historic city types; the process of urbanization; world cities; aspects of American urban communities.
- SC 285 Cultural Anthropology 5 credits**
Studies the environment, social, material, and symbolic lives of human beings in an holistic way. In addition to being a discipline of considerable breadth, depth and power, anthropology provides a valuable window into the lives of people in other cultures and helps us to understand ourselves.
- SC 300 Introduction to Social Work 5 credits**
Historical development, structure and function of social welfare services and institutions with emphasis upon the philosophy and methods utilized by professional social work in meeting human needs.
- SC 305 Introduction to Community Action 5 credits**
Studies methods by which community groups and organizers can intervene in the political and social processes of a community on the neighborhood, city, county and state levels, to initiate social change.
- SC 310 Sociology of American Sport 5 credits**
Inquiry into social structure of sports organizations; impact of industrialization and urbanization; the culture of sports including values; how sport integrates with education, economics, government and religion; stratification, racism and sexism in sports.

- SC 311 Social Work with Families 5 credits**
Behavioral dynamics of interpersonal relationships in the family; reciprocal nature of relationships, conceptual frameworks for individual and family therapy through study of treatment of modalities. (spring)
- SC 315 Social Work with Children 5 credits**
This is a practice-oriented course focusing on methods and techniques of working with children in social and interpersonal conflict situations at home, at school and in the community.
- SC 320 Sociology of Medicine and Health Care 5 credits**
Analysis of the structure and problems of medicine and health care systems, the changing nature of illness and health, and critical review of alternatives for the future.
- SC 325 Community Systems and the Aged 5 credits**
This course examines the history and current status of services to the aged, focusing on key trends; in medical technology, in labor market characteristics, and in demographics. Current concepts about the aging process, and theoretical frameworks which attempt to explain or resolve the social problems of aging are presented.
- SC 350 Close-Knit Groups 5 credits**
Sociological models and methods for analyzing small, interpersonal systems of interaction, their dynamics and structures, as well as their potentials for change and growth.
- SC 351 Police and the Community 5 credits**
(CJP 306)
Roles of police in the community; relationships with individuals, groups and community organizations. Analysis of ethnic, cultural and economic differences as factors in the administration of justice.
- SC 352 Society and Justice 5 credits**
(CJP 300)
The criminal justice process from arrest through release; the relationships of the police, the prosecutor, the defense, the courts, the prisons and corrections, as each integrates into a system.
- SC 360 Complex Organizations 5 credits**
Sociological analysis of large, complex social organizations, the kinds of modern organizations and the relationships among organizations and to the larger social environment both historically and currently.
- SC 362 Deviant Behavior 5 credits**
(CJP 200)
An overview of what American society generally regards as deviant behavior. Emphasis is placed on the results of stigmatization and the acceptance of low self-esteem.
- SC 363 Population Problems 5 credits**
Analysis of population trends, problems and policies. Explanations of relationships demonstrated to exist between demographic and sociological variables. Prerequisite: Upper division standing.
- SC 365 Probation and Parole 5 credits**
(CJP 365)
Examination of current trends and issues in probation and parole supervision, personnel qualifications, legal aspects, and research on results and prediction of outcome.
- SC 374 Intervention Skills 5 credits**
Provides students with the basic principles and processes involved in giving help to individuals, groups and communities in the human services field, focuses on some of the basic methods, techniques and strategies. (fall)

SC 376 Factors of Interviewing 5 credits
The interview as one of the major methods of helping people; study of the knowledge and skills needed for proficient interviewing to provide a basis for future development. Prerequisite: Sc 300 or permission.

SC 377 Supervised Field Experience 5 credits
Direct observation and academic study in a selected community agency with stress placed upon the agency's clientele, its services and its function in the community. Prerequisite: Sc 300 and 376. Mandatory CR/NC.

SC 380 Methods of Sociological Research I 5 credits

SC 381 Methods of Sociological Research II 2 credits
I. Logical structure of science and procedures of data gathering and analysis. II. Practicum: student research project. Prerequisites: Sc 101 and 201 for 380; 380 for 381.

SC 382 Evaluation Research 5 credits
Application of basic research design and logic to programs for the purpose of evaluation of performance. Also, the techniques for making social, economic and environmental impact assessment. Prerequisites: Sc 201, 380, 381.

SC 385 Values and the Future of Society 5 credits
Focus on the problem of identifying social values, considering ways of measuring and predicting value system changes in the future. In what way do value systems and technology interplay.

SC 391 Special Topics in Sociology 1-5 credits

SC 392 Special Topics in Sociology 1-5 credits

SC 393 Special Topics in Sociology 1-5 credits

SC 405 White-Collar Crime 5 credits
A comprehensive overview of criminal activity in the upper and middle echelons of American society; e.g. corporate offenses, consumer fraud, misuse of computers, illegal practices in professions, political corruption.

SC 412 Juvenile Justice Systems 5 credits
(CJP 303) Examination and study of contemporary police-juvenile operations. Theory and examination of the juvenile justice system. Relationship between the juvenile officer, crime prevention and community relations.

SC 415 Victimology 5 credits
(CJP 400) A survey of the victim-offender relationship; including the origin and scope of victimology, a victim and his society, the victim and the administration of justice, and the social reaction to victimization.

SC 416 Management and Politics in Social Welfare 5 credits
Examination of the fundamentals of program management and evaluation, with emphasis on competing objectives and power as the context in which social service programs and policies are carried out.

SC 420 The History of Punishment 5 credits
A social history of the punishment response to the phenomenon of crime, considering the origins, principles, science and society's justification for punishment.

SC 425 History and Survey of Drug Abuse 5 credits
Scope of problems arising from drug abuse. Psychology of drug addiction; patterns of progression, early symptoms and diagnosis; types of drug addicts. Theories of etiology.

SC 440 Crisis Intervention 5 credits
Theory and practice of crisis intervention strategies. Schools, criminal justice agencies, family service agencies, public welfare agencies and crisis centers.

SC 445 The Crisis of Suicide 5 credits
This course will focus on identifying, recognizing and understanding suicidal behaviors, and responding in ways that expand options and make the choice of life more likely.

SC 488 Internship 1-15 credits
On-the-job experience in a selected organization. May be taken up to a maximum of 15 credits.

SC 491 Special Topics in Sociology 1-5 credits

SC 492 Special Topics in Sociology 1-5 credits

SC 493 Special Topics in Sociology 1-5 credits

SC 495 Sociological Theory 5 credits
Presentation of several theoretical perspectives operational in today's sociological enterprise with criticism and evaluation of each. Prerequisite: Upper division standing or permission of instructor.

SC 496 Independent Study 1-5 credits

SC 497 Individual Research 3-5 credits
Design and execution of a research project supervised by a faculty member.

SC 498 Directed Reading in Sociology I 1-5 credits

SC 499 Directed Reading in Sociology II 1-5 credits
Sociological reading at an advanced undergraduate level in a tutorial relationship with one professor. Prerequisite: Upper division standing.

Theology and Religious Studies

Gary L. Chamberlain, Ph.D., Chairperson

Objectives

Theology and religious studies contribute to the fostering and formation of students' human and personal growth by helping them develop attitudes, skills, and knowledge that will enable them to deal perceptively, intelligently, and critically with the religious dimension of human life, especially with the beliefs, practices, and values of the Catholic Christian tradition. To this end the department supplies two levels of courses for the Core Curriculum. Level 1 courses (200 numbers on the Bulletin course listings) aim at recognition and appreciation of the existence and function of God's presence in human experience and history; Level 2 courses (300 numbers in the course listings) aim at enabling students to learn how to make a religious tradition their own, carefully and critically.

The Department also offers a program of courses, some from courses designed for the Core Curriculum, some special for majors and minors (400 numbers in the listings), leading to a Bachelor of Arts degree in Theology and Religious Studies.

Degrees Offered

Bachelor of Arts

Master of Divinity (Institute for Theological Studies) — See Graduate Bulletin

Master of Theological Studies (Institute for Theological Studies) — See Graduate Bulletin

Master of Pastoral Ministry (Institute for Theological Studies — CORPUS) — See Graduate Bulletin

Master of Religious Education (Institute for Theological Studies — SUMORE) — See Graduate Bulletin

Master of Ministry (Institute for Theological Studies — SUMORE) — See Graduate Bulletin

Program Requirements

Students who major in theology and religious studies must satisfy core curriculum requirements of the University as given on pages 26-28 of this bulletin. In addition majors must take an added five credits in social science and five credits in philosophy.

Departmental Requirements

Bachelor of Arts — 50 credits in theology and religious studies beyond core requirements. Students are required to fulfill the following program of courses: 1) Judaeo-Christian Origins (RS 200); one New Testament course (RS 211, 217, 221); one additional scripture course on any level; one course from RS 230, 243, 252) Two courses from RS 300, 303 or 307, 310, 317, 321; one course from RS 325, 334, 338, 341) one religious studies course (RS 263, 267, 271, 275, 371); the sequence RS 425, 426, 427; and RS 460, the senior seminar.

Undergraduate minor — 30 credits in theology and religious studies which must include RS 200 and one New Testament course; two courses from RS 300, 303, 310, 312, 317, 321; one course from RS 325, 334, 338, 341 and one from RS 263, 267, 271, 275.

- RS 211 The Gospel of Jesus Christ 5 credits**
Examination of some New Testament writings in their religious and cultural context and in their literary provenance in an effort to discover something of the Christian community's experience of the message and person of Jesus as guide for and object of present-day Christian believing.
- RS 217 The Message of Paul 5 credits**
Description of the Christian experience given to us in the Pauline letters; Paul's experience of Christ; development of his thought in some dominant themes or perspectives; the influence of the believing community and of contemporary history and culture on his experience and development; relation of his message to all times and people.
- RS 221 John: What I Have Seen and Heard 5 credits**
The message of faith in the Gospel and letters of John; the roots of John's message, its relation to the community's experience of Jesus Christ present in the Spirit; Johannine themes and perspectives on the "world," on Christ and the salvation he brings, on the function of faith and love in Christian living; the universality of the message.

- RS 230 Foundations of Believing 5 credits**
The human activity and structures of believing; the inevitability of believing; problems and obstacles to believing in God in today's world; the validity and invalidity of modern critiques of religion; the development of an authentic notion of God.
- RS 243 The Christian in Action: Moral Decision-Making 5 credits**
The contemporary Christian as decision-maker in present society; reflection on dilemmas and situations in which students are engaged to develop an awareness of self as moral agent; the basis of a theory of the person as empowered by the Spirit of God for action in love and justice.
- RS 252 Prayer for Life 5 credits**
Introduction to the phenomenon of authentic religion as it is expressed in prayer and paths of spiritual growth and renewal; the relationship between personal and community prayer in life and faith processes; methods and models of West and East.
- RS 263 Religious Experience East and West 5 credits**
The phenomenon of religious experience and mysticism as it has been described in spiritual classics of both eastern and western religions; the nature and meaning of these phenomena.
- RS 267 History of Religions 5 credits**
Exploration of the basic human drive in religious experience; investigation of the why-where-when-how of the Holy and mysterious in Eastern religions and in Christianity; historical data and sources for the experience at the root of various traditions.
- RS 275 Jewish History and Theology 5 credits**
Survey of Jewish history, going back to biblical times, to discover the religious force expressed in developing beliefs, practices, and ways of understanding.
- RS 291 Special Topics 2-5 credits**
RS 292 Special Topics 2-5 credits
RS 293 Special Topics 2-5 credits
- RS 300 Fundamental Themes in Theology 5 credits**
Origins, traditional formulations, relevance to present life-experiences of some basic affirmations of Christian belief: faith, revelation, incarnation, redemption; investigation of the reasonableness and inter-connection of the truths affirmed; how these truths function as the core of a personal faith-synthesis.
- RS 303 A Theology of the Human 5 credits**
Investigation of human persons in their relation to God, to other humans, to the world; questions and Christian responses to questions about human structures, purpose, meaning, fulfillment, self-identity, and function in a world marked by suffering and sin — and by the salvation brought by Christ.
- RS 307 A Theology of the Feminine 5 credits**
Investigation of what has been communicated to women historically about who and what they are, what their role is in Church and society; a look at the changing understanding of what it is to be human generated by a rising consciousness of the equality of women; attempt to show what still needs to be said and done to improve our Christian consciousness of the human and the feminine.

RS 310 Christ for Our Times 5 credits

The historico-cultural context of questions about who Jesus Christ is; exploration of past and present foundations and content of Christians' affirmation of Jesus as the Christ; development in understanding the mystery of Jesus; the effects on Christian life of making Jesus Christ the center and focus of believing.

RS 312 God in the Christian Tradition 5 credits

Study of formulations in the Bible and in later times that express and guide the experience and growth in understanding of who God is in the living tradition of Christians; formulations that have or are causing problems in understanding; contemporary approaches to an understanding of who God is, how God acts, when and where God is encountered.

RS 317 The Community That Is Church 5 credits

Central biblical themes bearing on the origin and nature of the Christian community; models for understanding the community in its dynamic growth-process and self-structuring in history; elements in the dynamic: authority and freedom, tradition and change.

RS 321 Christian Sacraments 5 credits

Biblical investigation of the origin of the sacraments in Christ and the Church; nature of symbolism as evocative and healing; the doctrinal, liturgical, and moral aspects of the sacraments within a community's on-going life and worship.

RS 325 Society, Justice, and Theology 5 credits

Reflection on the relationship between Christian faith and justice in society; relation of justice and faith in Scripture and tradition; a theology of the social focused on the revelation of God through God's activity in the structures of contemporary society; Christian social teachings as an expression of the theology of the social; the inter-relation of Christian community and the society in which it exists.

RS 334 Liberation and Theology 5 credits

Discovery of situations and structures (social, political, economic), experienced as oppressive, that cry out for liberation; themes from the biblical and Christian tradition that speak to the issues of liberation, justice, and peace; contemporary models for analyzing, interpreting and applying the Christian message.

RS 338 Christian Views of Love, Sexuality, and Marriage 5 credits

The meaning of love experiences and their expression in human sexuality in light of God's loving relation with each person; examination of moral/spiritual dimensions of sexuality; relationship of human sexuality and marriage; marriage as a symbol and sacramental expression of God's love.

RS 341 Contemporary Issues in Christian Ethics 5 credits

An examination and analysis of such important contemporary issues as nuclear disarmament, war and peace, world hunger, medical ethics, revolution and violence, the criminal justice system; focus on one such issue in light of the Christian traditions of social teachings and contemporary Christian viewpoints; principles and rules for evaluating particular issues.

- RS 371 Dialogue, East and West** **5 credits**
Comparative study of Western and Eastern religious traditions; common categories for understanding what people seek in any religion — knowledge of the holy, harmony with the real world, significant moral value, and what differentiates one tradition from another; principles for inter-faith dialogue that avoid obstacles to development within traditions and obstacles to dialogue between traditions.
- RS 391 Special Topics** **2-5 credits**
RS 392 Special Topics **2-5 credits**
RS 393 Special Topics **2-5 credits**
- RS 396 Independent Study** **1-5 credits**
RS 397 Independent Study **1-5 credits**
RS 398 Independent Study **1-5 credits**
- RS 405 The Songs of the Community of Israel** **5 credits**
Analysis of the literary form and types of the Psalms; Psalm I as showing why the Psalms rank as the major book in the Wisdom Literature: how meditation/reflection differs from prayer; how prayer constitutes the community of Israel; how community constitutes the essential condition for prayer.
- RS 414 The Synoptics: Matthew, Mark and Luke** **5 credits**
Investigation of the oral traditions of the Gospels by form criticism; study of the theology of Matthew, Mark and Luke by means of source criticism and redaction criticism.

- RS 425 Early Christian Theology** **5 credits**
Theological, historical and literary analysis of writings of some of the leading early and later Fathers of the Church; e.g., Justin, Irenaeus, Tertullian, Origen, Augustine. Majors and minors or permission by chairperson.
- RS 426 Scholastic Theology** **5 credits**
Seminar: the origin and main lines of scholastic theology, its spirit and aim formulated by St. Anselm, Abelard, St. Bernard, Alexander of Hales, St. Albert, St. Bonaventure, Duns Scotus, William of Occam, St. Thomas Aquinas. Prerequisite: RS 425.
- RS 427 Reformation Theology** **5 credits**
The theological dispute of the Reformation on justification by faith alone; controversies among Catholics, Lutherans, Calvinists and Jansenists; the Enlightenment and Vatican Council I. Prerequisite: RS 426.
- RS 431 Modern Protestant Theology** **5 credits**
Theological position, history and trends of some major Protestant denominations; principle leaders of modern Protestant thought and their tenets: Bultmann, Tillich and Niebuhr.
- RS 460 Trinity, Grace, and Life in the Spirit** **5 credits**
Study of God's life as Trinity and as shared with us (grace); theological method and relation to spiritual theology. Seminar for majors, minors.
- RS 491 Special Topics** **2-5 credits**
RS 492 Special Topics **2-5 credits**
RS 493 Special Topics **2-5 credits**
- RS 496 Independent Study** **1-5 credits**
RS 497 Independent Study **1-5 credits**
RS 498 Independent Study **1-5 credits**

Albers School of Business

Albers School of Business

Harriet Stephenson, Ph.D., Interim Dean

Sharon K. James, Ph.D., Assistant Dean

Rainier National Bank Professor of Finance:

Hildegard R. Hendrickson, Ph.D.

Thomas Gleed Professor of Business:

David Lee Kurtz, Ph.D.

Robert D. O'Brien Chair in Business:

C. Patrick Fleenor, Ph.D.

Department Chairpersons

Accounting and Legal Environment:

William Weis, Ph.D., Chairperson

Administration: Harriet Stephenson, Ph.D., Chairperson

Economics: Hildegard Hendrickson, Ph.D., Chairperson

Objectives

Collegiate education for business should prepare students for business careers, not simply for job-finding. A broad, liberal education, comparable to university studies in other professional fields, will not replace practical business experience, but will provide a sound base for development of managerial talents.

The programs of the Albers School of Business implement the purpose of the University by providing professional guidance and instruction for developing those qualities which lead to competent leadership and service in the various fields of economic endeavor. The School seeks to prepare graduates capable of assuming responsible roles in the economic development of the Pacific Northwest, as well as national and international sectors, and in both private enterprise and government.

Accreditation of Bachelor of Arts in Business Administration

American Assembly of Collegiate Schools of Business — graduate and undergraduate levels.

Organization

The Albers School of Business has two principal divisions, undergraduate and graduate studies. Undergraduate

majors are offered in six business fields: accounting, finance, general business, international business, management and marketing. In addition, the School contains the Economics department which offers a bachelor's degree program and an undergraduate minor.

Admission Requirements

All entering Freshmen and undergraduate transfer students who meet the University's regular admission standards may be admitted to the Albers School of Business for lower division courses and all courses in Economics.

Admission to Junior Status in the Business Majors

No student will be permitted to take Business courses numbered 300 or above prior to being admitted to Junior status in the Business major. (Students who are Juniors or Seniors in other majors may request permission to take 300 or 400 level business courses.) To be admitted to Junior status in the Business major, a student must have at least 90 quarter credit hours and a cumulative grade point average of no less than 2.25. The student must have completed Mt 118 and Mt 130, or their equivalents, and at least four of the seven other required lower division courses in Business, Mathematics, Economics and Computer Science (Bus 230, 231, 260, 270, Ec 271, 272, and CSC 103). The grade point average in the lower division required Business, Economics, Mathematics and Computer Science courses must be no less than 2.25.

Students with 90 or more quarter credit hours who do not meet these standards will be subject to dismissal from the School of Business. A Business student who has completed more than 120 quarter hours of degree requirements, and been dismissed, ordinarily will not be considered for readmission.

To be granted the BABA degree, a student must achieve a cumulative gpa of 2.25 overall and in all required coursework in Business, Mathematics, Economics and Computer Science.

Degrees Offered

Bachelor of Arts in Business Administration

Bachelor of Arts in Economics

Master of Business Administration (evening classes only)

— See Graduate Bulletin

Curriculum

The program of required study for the bachelor's degree in business has three principal components: the arts and sciences, the business core and area of specialization. All students in the baccalaureate degree program fulfill requirements in English, mathematics, philosophy, a natural science, social sciences and theology and religious studies. The business core includes courses in accounting, administrative processes, economics, finance, information systems, legal environment, management, marketing and statistics. Specialization in one of the six major fields is required. No course in the area of specialization may be taken through independent study.

General Program Requirements

A minimum of 180 credits is required for bachelor degrees in business or economics, including 75 hours of core curriculum courses. See the degree requirements for specific course requirements.

Students transferring from another institution normally must earn at least 40 hours of upper division credits in Business and/or Economics at Seattle University.

Students transferring within the University from other majors to Business must meet the requirements of the Business major applicable at the time they enter the Albers School of Business.

Business students who withdraw from the University for one calendar year or more are subject to the requirements for the Business major at the time they are readmitted.

No transfer credit is granted for courses in which the grade earned is less than C or 2.00 for the required courses in Business, Mathematics, Economics and Computer Science. The CR/NC option may not be applied to courses in the Business core, University core and Business major.

(The only course in the business curriculum that can be taken CR/NC is Business 498, Internship.)

Degree Requirements

Bachelor of Arts in Business Administration (all majors except accounting) — Students seeking this degree complete a program with the following components:

1. Requirements in Arts and Sciences 75 credits
Students in Business must satisfy the University Core requirements as described on pages 26-27 with the exception of the requirement of an Interdisciplinary course. Mt 118 may satisfy the mathematics requirement of the Core. In addition, Business students must complete Mt 130 and Csc 103. Economics courses may not be used to satisfy the Core Social Science requirement.
 2. Business core requirements 60 credits
Business 230, 231, 260, 270, 310, 340, 350, 360, 380, 482; Economics 271, 272.
 3. Specialization in a major area of concentration 20 credits
Finance, general business, management, marketing, or international business.
 4. Electives from any undergraduate offerings of the University 25 credits
- Total 180 credits

Transfer students and students enrolled prior to Fall 1987 follow the old Core Curriculum described on page 28 of this bulletin, with the following modifications:

1. The requirement of 10 credits of History may be replaced by 10 credits of Arts and Sciences electives.
2. The Mathematics/Science requirement is fulfilled by MT 118, MT 130, and a natural science.
3. Accounting majors must take a five-credit speech course.

Bachelor of Arts in Business Administration

(All majors except accounting and international business.)

Freshman year

English 110/Philosophy 110 sequence	10 credits
Fine Arts 120	5 credits
CSC 103	5 credits
History 120/English 120 sequence	10 credits
Laboratory Science	5 credits
Mathematics 118, 130	10 credits

Sophomore year

Business 230, 231, 260, 270	20 credits
Economics 271, 272	10 credits
Philosophy 220/Social Science I sequence ...	10 credits
Social Science II	5 credits

Junior year

Business 310, 340, 350, 360, 380	25 credits
Business major (300-499)	5 credits
Theology and religious studies I	5 credits
Electives	10 credits

Senior year

Business 482/Senior Synthesis	5 credits
Business major (300-499)	15 credits
Ethics	5 credits
Theology and religious studies II	5 credits
Electives	15 credits
Total	180 credits

Finance

Objectives

The finance curriculum is designed to afford an understanding of the financial functions in business and the management of assets for financial institutions and individuals.

Requirements for the finance major are: Bus 441, Ec 372 and 10 credits from Bus 341, 343, and 345. Ec 471, 472 and 473 are strongly recommended.

General Business

Objectives

The general business major provides the opportunity for a broad survey of business subjects. It is designed for students who intend to operate their own business enterprises, those who expect to attain greater specialization through on-the-job programs, or those who plan later to study in a specific area.

General Business majors must complete at least 20 credits of upper division work in Business and/or Economics selected with the approval of his or her adviser. The courses selected must be from at least three different areas.

International Business

Objectives

The international business major prepares students for careers with firms engaged in international business. Emphasis is placed on perceiving the problems and opportunities of operating in an international environment.

Requirements for the major are Business 386, three courses from BUS 446, 456, Economics 472, 473, and two supplemental activities from the following four:

1. 15 credits of a **single** foreign language. Latin and other languages not in use, will not be accepted.
2. Internship with a company involved in international business in the Seattle area.
3. A minimum of one quarter (15 credits) of related studies abroad in an acceptable program. The coursework must be approved prior to study abroad by the School of Business and Seattle University.
4. Global Studies Minor.

Management

Objectives

The general area of management is concerned with the administration of private business or public enterprise. It includes relating the goals of an enterprise with the goals of those individuals and groups of individuals who make the enterprise a continuing process. The management major is designed for students seeking careers in administration, personnel or industrial relations in business or government.

Requirements for the management major are: Bus 383, 385 and at least 10 credits from Bus 481, 483, Ec 476, and Psy 461 and 462.

Marketing

Objectives

Marketing is the study of the flow of goods and services to ultimate consumers and users. Career opportunities in marketing are found in manufacturing, wholesaling and retailing, marketing research and in the promotional areas of advertising and personal selling.

The requirements for the marketing major are: Bus 451, 452 and 10 credits from Bus 351, 352, and 353. Ec 374, 472 and 473 are strongly recommended.

Accounting

Objectives

Professionally trained accountants serve in diverse roles in private business, government, non-profit organizations, and other entities. After meeting the state requirements, many accounting graduates pursue careers as certified public accountants.

Students seeking the Bachelor of Arts in Business Administration with an accounting major must complete the following requirements:

1. Requirements in Arts and Sciences 80 credits
In addition to the requirements specified above for the Bachelor of Arts in Business Administration, the accounting program requires Speech 200.

2. Business core — as listed for B.A. in Business Administration 60 credits
 3. Accounting major: 35 credits
Business 330, 332, 333, 334, 336, 431, 435
 4. Electives 5 credits
- Total! 180 credits

Bachelor of Arts in Business Administration Accounting Major

Freshman year

- English 110/Philosophy 110 sequence 10 credits
CSC 103 5 credits
Fine Arts 120 5 credits
History 120/English 120 sequence 10 credits
Laboratory Science 5 credits
Mathematics 118, 130 10 credits

Sophomore year

- Business 230, 231, 260, 270 20 credits
Economics 271, 272 10 credits
Philosophy 220/Social Science I sequence ... 10 credits
Social Science II 5 credits

Junior year

- Business 340, 350 10 credits
Accounting major:
Business 330, 332, 333, 334, 336 25 credits
Speech 200 5 credits
Theology and religious studies I 5 credits

Senior year

- Business 310, 360, 380, 482 20 credits
Accounting major:
Business 431, 435 10 credits
Ethics 5 credits
Theology and religious studies II 5 credits
Electives 5 credits
- Total 180 credits

Business Courses

- BUS 230 Principles of Accounting I (Financial) 5 credits**
Introduction to financial accounting concepts with emphasis on the development of the student's ability to understand and interpret financial statements of business entities. Prerequisite: Sophomore standing. (fall, winter, spring).
- BUS 231 Principles of Accounting II (Managerial) 5 credits**
Introduction to the use of accounting information for decision-making in planning and controlling the operation of business organizations. Prerequisite: Bus 230 and Sophomore standing. (fall, winter, spring).
- BUS 260 Business Statistics 5 credits (211)**
Business application of basic statistics, probability concepts, probability distributions, expectation, sampling, estimation, hypothesis testing, index numbers, time-series analysis and introduction to simple linear models. Prerequisite: Mt 130 and Sophomore standing. (fall, winter, spring).

BUS 270 Law & Business 5 credits
Nature and development of law; structure and functions of the court; civil and criminal procedure; role of attorneys and an introduction to the law of contracts. Prerequisite: Sophomore standing. (fall, winter, spring).

BUS 291 Special Topics 1-5 credits
BUS 292 Special Topics 1-5 credits
BUS 293 Special Topics 1-5 credits

BUS 310 Information Systems Management (460) in Business 5 credits
Introduction to managerial aspects related to information processing systems and microcomputer applications. Topics include an overview of fundamental business computer systems, information processing, software and hardware selection, the management of information systems, distributed processing, data security, and hands-on equipment time with microcomputers. Prerequisites: Junior standing and CSC 103 and Bus 340.

BUS 311 Information Systems Analysis and Design 5 credits
Survey of systems analysis and design in organizations. Topics include conceptual foundations for systems development, systems specification, operational frameworks, and applied systems analysis. Emphasis is placed on understanding user information requirements and modeling prototyping techniques. Prerequisites: CSC 113 or 114 and Bus 310.

BUS 312 Database Management for Business Applications 5 credits
Fundamentals, design, and implementation of database management systems. Topics include the database development process, file organization, data structures, logical and relational database design, database implementation and administration. A hands-on project using microcomputers will be assigned. Prerequisites: CSC 113 or 114, Bus 310, CSC 250

BUS 330 Cost Accounting 5 credits
Determination of manufacturing costs in job order, process and standard cost systems; introduction to methods of cost control. Prerequisite: Bus 231 and Junior standing.

BUS 332 Intermediate Accounting I 5 credits
Theory and development of accounting principles; evolution of theory as relates to the current state of accounting for the assets of the entity and the measurement and reporting of periodic income. Prerequisite: Bus 231, and Junior standing.

BUS 333 Intermediate Accounting II 5 credits
Theory and development of accounting principles; evolution of theory as relates to the current state of accounting for liabilities and owners' equities. Prerequisite: Bus 332.

BUS 334 Intermediate Accounting III 5 credits
Study of advanced topics in accounting theory and practice with emphasis upon financial reporting. Selected areas include: accounting for income taxes, inflation accounting, accounting changes, interim and segment reporting, statement of changes in financial position, disclosure requirements and contemporary issues. Prerequisite: Bus 333.

BUS 336 Federal Income Tax I 5 credits
Tax returns of individuals; gross income and deductions; use of tax service and research in tax problems. Prerequisite: Bus 231, and Junior standing.

BUS 340 Business Finance 5 credits
Study of the financial policies and practices of business firms; planning, control and acquisition of short-term and long-term funds; management of assets; evaluation of alternative uses of funds; capital structure of the firm; cost of capital; financing growth and expansion of business firms. Prerequisites: Ec 271, Bus 231 and Junior standing. (fall, winter, spring)

BUS 341 Investment and Security Analysis 5 credits
Principles, policies and practices of investing. Analysis of public and private industries and securities, individual and institutional viewpoints. Prerequisite: Bus 340.

BUS 343 Financial Institution and Markets 5 credits
Nature and function of bank and non-bank financial institutions and markets and their relationships and interdependence. Prerequisites: Ec 271.

BUS 345 Risk Analysis 5 credits
Analysis of how risk and uncertainty affect the financial decision making processes of individuals and financial institutions. Topics covered include insurance theory, portfolio theory and options. Prerequisite: Bus 340.

BUS 350 Introduction to Marketing 5 credits
Survey of institutions and essential functions in the marketing system. Analysis of the marketing mix; product, place, promotion and price strategies. Prerequisites: Junior standing, permission, (fall, winter, spring)

BUS 351 Consumer Behavior 5 credits
Application of behavioral sciences to explore consumer decision-making processes. Characteristics of goods, shopper behavior, opinion leadership, market segmentation, concepts relevant personal selling. Prerequisite: Bus 350.

BUS 352 Marketing Communication 5 credits
Business firms' methods of communications to their markets and publics. Analysis of the promotional mix; personal selling, advertising, sales promotion and publicity. Promotion strategies. Prerequisite: Bus 350.

BUS 353 Sales Management 5 credits
Sales Management deals with the personal selling function and its related administration and managerial activities. The course covers the development of the selling function, sales process, sales management planning, recruiting, training, sales force organization, supervision and motivation, compensation and evaluation. Prerequisite: Bus 350.

BUS 360 Production and Operations Management (480) 5 credits
Survey of the system analysis, design and operating techniques for manufacturing and service organizations, including topics in facility location, linear programming, inventory control, work measurement, forecasting techniques, scheduling and quality control. Prerequisites: Bus 260, and CSC 103. (fall, winter, spring).

BUS 370 Advanced Law and Business 5 credits
Commercial law, including contracts, business structures and property relationships; legal aspects of government and business, including credit and environmental legislation. Prerequisite: Bus 270 and Junior standing.

BUS 380 Organization Behavior 5 credits
Develops understanding of organizational behavior, with focus on basic processes, methods involved in diagnosing human situations. Experiential exercises and analysis of concepts. Prerequisite: Junior standing. (fall, winter, spring).

BUS 383 Personnel 5 credits
Inducting personnel into the organizational structure; maintenance of the personnel system; utilization of human resources: compensation, evaluation, recruitment, selection, affirmative action, equal opportunity legislation, career planning, training and employee relations. Prerequisite: Bus 380.

BUS 385 Principles of Management 5 credits
Develops managerial functions of planning, controlling, reporting, budgeting and decision making. Studies strategy, macro-organizational environment, and structural design options. Prerequisite: Bus 380.

BUS 386 International Business 5 credits
Addresses the differences in finance, accounting, marketing, and management in an international environment. Specific attention is given to the cultural dimensions of these differences and the changes occurring in the international environment. Analyzes forms of business organization, roles of multinational corporations, methods of serving foreign markets, political risk assessment and other topics. Prerequisite BUS 380 and junior standing.

BUS 413 Seminar in Decision Support Systems for Information Management 5 credits
The design and use of computerized models to assist in managerial decision making. Hands-on experience with mainframe or microcomputers may include, but not be limited to, financial modeling, accounting information systems, econometrics, sales forecasting, or production models. Prerequisites: CSC 113 or 114, Bus 310, 311, and 312

BUS 431 Advanced Accounting I 5 credits
Special accounting problems associated with partnerships and business combinations. Particular emphasis on consolidated financial statements and price-level adjusted financial statements. Prerequisite: Bus 333.

BUS 433 Seminar in Accounting Theory 5 credits
Critical examination of accounting theories; concepts, postulates and principles related to income measurement, assets, liabilities and equities. Prerequisite: Bus 333.

BUS 435 Auditing 5 credits
Purpose, scope, concepts and methods used in examining and attesting to financial statements. Current issues concerning professionalism, and role of the public accountant. Prerequisite: Bus 333.

BUS 436 Federal Income Tax II 3 credits
Tax returns of partnerships and corporations; problems related to installment sales, cash basis and accrual basis. Prerequisite: Bus 336.

BUS 441 Case Problems in Finance 5 credits
Variables relevant to financial problems; skill, techniques and judgment necessary to make financial decisions. Prerequisite: Bus 340.

BUS 446 International Corporate and Trade Finance 5 credits
Investigates techniques used to manage the financial activities of a corporation operating in an international environment. Addresses economic exposure of a firm to exchange rate changes, hedging techniques, capital budgeting, international financial markets, techniques of accessing blocked funds, foreign currency options, and other topics. Offered every other year. Prerequisite: BUS 340 and junior standing.

BUS 451 Marketing Research 5 credits
Purpose, methods and techniques of marketing research. Prerequisites: Bus 260, and 350.

BUS 452 Marketing Management 5 credits
Case studies of corporate problems, decision-making. Student participation in various roles of marketing. Organization planning, execution and control of marketing problems. Prerequisite: Bus 231 and 350. Seniors only.

BUS 456 International Marketing 5 credits

Analyzes issues important in marketing in multiple foreign environments. Addresses market segmentation, product design, promotional strategies, pricing strategies in the face of changing exchange rates, media choice, and the importance of cultural differences. Prerequisite: Junior standing and BUS 350. Offered every other year.

BUS 481 Small Business Management 5 credits

Procedures and problems in starting and operating a successful small business enterprise. Prerequisite: Senior standing.

BUS 482 Business Policy and Organization 5 credits

Case studies of policy and administration of business; intellectual discipline which permits understanding a problem, planning a program of action, progression to execution and constant review; original work in analysis and policy decisions. Prerequisite: All Business Core; Senior standing. (fall, winter, spring)

BUS 483 Mangement Seminar 5 credits

Development of a specific area of management. Various approaches to study of organizations, conceptual and analytical methods, research methodologies and trends in management. Prerequisite: Bus 380. Senior standing.

BUS 491 Special Topics 2-5 credits

BUS 496 Independent Study 1-5 credits

BUS 497 Independent Study 1-5 credits

BUS 498 Independent Study 1-5 credits

Supervised individual research. Open to senior business majors with the approval of the student's adviser.

Economics

Objectives

The courses in economics are designed to acquaint the students with the economy in which they live and to provide for the application of these courses to all other social sciences. The tools of analysis necessary to solve

such problems as income distribution, domestic and international finance, economic fluctuations and business organizations are acquired and opportunity is given to apply the various methods of solution. Graduates are prepared for a wide range of positions where analytical skills are required in business, government and the non-profit sector. Economics is also excellent preparation for students going to law school. Students who prove especially able in economics courses are encouraged to pursue graduate work in preparation for professional status as economists in government, industry or the academic world.

Degree Offered

Bachelor of Arts in Economics

General Program Requirements

Students in economics must satisfy the core curriculum of the University on pages 26-28 of this bulletin. Mt 118 may satisfy Mathematics requirement of the core. In addition, Economics students must complete Mt 130 and CSC 103. To be granted the Bachelor of Arts in Economics degree, a student must achieve a 2.00 cumulative gpa in all required course work in Economics. Economics courses may not be used to satisfy the core social science requirement. Students must complete 20 hours of upper division economics at Seattle University.

Departmental Requirements

Bachelor of Arts — 55 credits of economics which must include Ec 271, 272, 372, 374 and seven additional economics courses not including Ec 100, 375 (Bus 343 may be substituted for one); Bus 260, 230 and CSC 103.

Undergraduate Minor — 30 credits of economics which must include: Ec 271, 272, 372, 374 or 375 and any two courses in economics selected with the assistance of an adviser.

Bachelor of Arts in Economics

Freshman year

English 110/Philosophy 110 sequence 10 credits
Fine Arts 120 5 credits
History 120/English 120 sequence 10 credits
Laboratory Science 5 credits
Mathematics 118, 130 10 credits
Computer Science 103 5 credits

Sophomore year

Business 230, 260 10 credits
Economics 271, 272 10 credits
Philosophy 220/Social Science I sequence ... 10 credits
Social Science II course 5 credits
Theology and Religious Studies I 5 credits
Electives 5 credits

Junior year

Economics 372, 374 and electives	20 credits
Ethics	5 credits
Interdisciplinary course	5 credits
Theology and Religious Studies II	5 credits
Electives	10 credits

Senior year

Economics electives	25 credits
Senior Synthesis	5 credits
Electives	15 credits

Total 180 credits

Economics Courses

EC 120	Introduction to Economic Society	5 credits
	Development of the conventional economic model, including its philosophical assumptions. Implications for contemporary economic performance. Applications to issues of social justice. Correlates with Philosophy 220.	
EC 271	Principles of Economics — Macro	5 credits
	Organization, operation and control of the American economy in its historical and socio-political settings; problems of inflation, unemployment, taxation, the public debt, money and banking, growth. Prerequisite: Sophomore standing. (fall, winter, spring).	
EC 272	Principles of Economics — Micro	5 credits
	Operation of the American economy with emphasis on prices, wages, production and distribution of income and wealth; problems of the world economy. Prerequisite: Sophomore standing. (fall, winter, spring).	
EC 291	Special Topics	1-5 credits
EC 292	Special Topics	1-5 credits
EC 293	Special Topics	1-5 credits
EC 371	History of Economic Thought	5 credits
	Major historical developments in economic thought, ancient to contemporary, Christian influence, mercantilism, laissez faire; German and Austrian schools, Marx and socialists; Keynes and neo-Keynesian analysis.	
EC 372	National Income Analysis	5 credits
	Determination of levels of national income, employment and prices. Problems of unemployment and inflation. Policies for stabilization and growth. Prerequisite: Ec 271.	
EC 374	Intermediate Price Theory	5 credits
	Demand, supply, costs and market prices under competitive and imperfectly competitive market conditions. Relationships between price and costs; income and its functional distributions in a capitalistic society. Prerequisite: Ec 272.	
EC 375	Managerial Economics	5 credits
	Theory of the consumer, the firm, the industry; with special emphasis on using the analytical tools of microeconomics for managerial decision-making within the firm. Prerequisite: Ec 272. This course does not satisfy a major requirement.	
EC 377	Government and Business	5 credits
	Development in the United States of public policy. Government regulation of industry and commerce and	

application to mergers, business concentration and restrictive business practices, regulation of public utilities. Prerequisite: Ec 272.

EC 378	Urban Economics	5 credits
	The causes and consequences of the interdependencies of firms, individuals, households and governmental units within the constrained space of urban areas. Problems of land, housing, transportation, labor and public services.	
EC 471	Government Finance	5 credits
	Revenues, expenditures and debts of federal, state and local governments; economic theories; constitutional limitations; government finance as means for social reform; shifting and incidence of taxes. Prerequisites: Ec 271, 272.	
EC 472	International Trade and Development	5 credits
	Pattern, organization and promotion of U.S. and world trade. Trade theories. Exchange rates. Foreign prices and payments. Protection and free trade. G.A.T.T. European Community Multinationals in foreign trade. Prerequisite: Ec 271, 272.	
EC 473	International Finance and Investment	5 credits
	Foreign Exchange Market. Balance of Payments. Gold standard and developments. Bretton Woods system, the I.M.F. and current problems. Oil prices and inflation. Post-war international investment. Eurodollars. Prerequisite: Ec 271, 272.	
EC 474	Forecasting Business Conditions	5 credits
	Introduction to casual and ad hoc time series methods of forecasting utilized by business firms. Regression, exponential smoothing, decomposition and Box Jenkins methods are included. Prerequisites: Ec 271: Bus 260.	
EC 476	Labor Economics	5 credits
	Survey of the economics of industrial relations; effects of industrial changes on labor; hours and wages; employment and unemployment; trade unionism and labor legislation. Prerequisite: Ec 272.	
EC 477	Economic Development	5 credits
	Developing nations and agriculture, industry, population, education, technology, exports, imports, capital and savings, unemployment. Commodity agreements. Special preferences. Foreign aid. U.N.C.T.A.D. Prospects and limits. Prerequisite: Ec 271, 272.	
EC 478	Comparative Economic Systems	5 credits
	Economic systems in theory and practice. Classical, Marxian, Neoclassical, Keynesian, post-Keynesian theories. Soviet agricultural and industrial organization and operation. Market socialism. Future trends. Prerequisites: Ec 271 and 272.	
EC 479	Senior Research	5 credits
	An advanced course providing the opportunity for students to pursue topics in breadth and depth, and apply the tools of economic analysis to current issues in national and international economic policy. Prerequisite: Permission.	
EC 491	Special Topics	2-5 credits
EC 496	Independent Study	1-5 credits
EC 497	Independent Study	1-5 credits
EC 498	Independent Study	1-5 credits
EC 499	Independent Study	1-5 credits
	Supervised individual research. Open to senior economics majors with approval of adviser.	

School of Education

School of Education

John J. Gilroy, Ph.D., Dean

Department Chairpersons

Counselor Preparation:

R. Michael O'Connor, Ph.D.

Curriculum and Instruction:

Kristin E. Guest, Ph.D.

Educational Leadership:

John A. Morford, Ed.D.

Rehabilitation (Undergraduate):

John Thompson, Ph.D.

Teacher Education:

Margit McGuire, Ph.D.

Objectives

Within the framework of the Jesuit tradition of a liberal education and guided by Seattle University's tripartite mission emphasizing teaching, growth of persons and preparation for service, the School of Education has as its objectives the preparation of men and women who:

1. are dedicated to their profession and knowledgeable of its underlying theory and research;
2. understand the importance of continuing their personal and professional growth throughout their lives;
3. have the competency and commitment to contribute to the welfare of others through their work;
4. reflect actively upon and develop their personal value system;
5. reflect the humanistic philosophy of Jesuit educational tradition.

The School offers programs leading to Washington initial and continuing teaching certificates in elementary education and in a variety of secondary school subjects. Also available are programs to prepare teachers in the areas of early education, developmentally disabled, learning disabled and gifted. An undergraduate program in rehabilitation is also part of the School of Education.

Through reciprocal agreements School of Education graduates also qualify for certification in many other states.

Accreditation

The School is accredited by the National Council for Accreditation of Teacher Education and approved by the Washington State Board of Education. The department of Rehabilitation is accredited by the Council on Rehabilitation Education.

Organization

The School of Education is organized into five departments: Teacher Education, Curriculum and Instruction, Counselor Preparation, Educational Leadership and Rehabilitation. Close cooperation exists among all departments, schools and colleges of the University in working out a program of preparation for the individual student.

Degrees Offered

Bachelor of Arts in Education

Bachelor of Education

Bachelor of Arts in Rehabilitation

Master of Arts in Education — See Graduate Bulletin

Master of Arts in Rehabilitation Counseling

Master of Education — See Graduate Bulletin

Master of Counseling — See Graduate Bulletin

Educational Specialist — See Graduate Bulletin

Doctor of Education — See Graduate Bulletin

Undergraduate Programs

Teacher Education

Admission Requirements

1. All students seeking admission to the School of Education must submit their test scores on the WPCT, SAT or ACT.
2. All entering freshmen may be admitted to the School of Education if they meet the University's regular admission standards.
3. Students transferring into Seattle University who seek admission to the School of Education must have a g.p.a. of 2.5, either cumulative or based on most recent 90 credits hours and, if applying for the secondary education program, a g.p.a. of 2.75 in the intended major teaching field.
4. Students already attending Seattle University who wish to transfer to the School of Education must have a cumulative g.p.a. of 2.5 based on a minimum of 25 credit hours taken at Seattle University and, if applying for the secondary education programs, a g.p.a. of 2.75 in the intended major teaching field.

Criteria for Admission into Upper-Division Candidacy in the Teacher Education Programs

Requirements for entrance into upper-division courses in the Teacher Education Program are higher than those for graduation. Before registering for Ed. 323, 325, 326 or 432 the student must:

- have completed a minimum of 90 hours of college level course work
- have a cumulative g.p.a. of 2.5
- have a g.p.a. of 2.75 in the major teaching field (if in a secondary education program)

Before registering for ED 330, 336, 337, 340, 352, 420, 430 or 460 the student must:

- have a cumulative g.p.a. of 2.5
- have a g.p.a. of 2.75 in the major teaching field (if in a secondary education program)

Before student teaching, the student must:

- have met all of the above criteria
- have a g.p.a. of 2.75 in professional education courses
- have passed the required basic skills tests
- have been recommended by the student's major academic department (if in a secondary education program)

Transfer students must also meet the criteria listed above. All grade point averages may be either cumulative or based on most recent 90 credit hours.

Admission to Student Teaching

Acceptance into upper division candidacy in the teacher education program and completion of prerequisite courses does not guarantee admittance into student teaching. An application must be submitted to the Chairperson of the Department of Teacher Education by the end of the fourth week of the quarter prior to the one in which the student wishes to fulfill the student teaching requirement. Specific dates during which forms may be obtained and submitted are announced each quarter.

Note: International students cannot be recommended for certification in Washington State unless they have filed an Intent of Citizenship.

Special Non-Degree Programs

Student entering initially as post-bachelor students who are seeking initial certification must:

- possess a Bachelor's degree from an accredited institution
- have a cumulative g.p.a. of 2.5
- have a g.p.a. of 2.75 in the major teaching field (if entering a secondary education program)
- secure from the academic department at Seattle University written verification of the appropriateness of course work in the teaching major or an approved plan to meet department requirements.

Cumulative grade point averages may be based either on total academic record or on most recent 90 credit hours.

1. At the discretion of the Chairperson, applicants whose coursework is more than seven years old and who do not meet the g.p.a. criteria may be admitted conditionally. Such students will be required to take appropriate coursework and maintain the required g.p.a. in such coursework before admission to Education courses.

2. Students whose coursework is more than seven years old and do meet admissions criteria may, nevertheless, be required to take additional coursework. Such persons should consult with the chairperson of the Teacher Education Program before registering.

Curriculum

The liberal arts core comprises approximately one third of the prospective teacher's course of study. This strong liberal arts background is a distinctive feature of the Seattle University graduate and serves as a lifelong tool to assist the individual to solve problems and think critically.

The second component of the curriculum is the academic specialization which provides the student with in-depth knowledge of the subjects which she/he may teach in the elementary or secondary school. For the secondary teacher, this is the teaching major; for the elementary teacher it is two areas of specialization.

Courses in professional education comprise the remainder of the student's course of study. The nature of the teaching profession, generic and specialized teaching skills, developmental psychology, theories of learning and evaluation techniques are included here. This coursework is taken in conjunction with closely supervised field experiences which culminate in the student teaching experience.

General Program Requirements

Bachelor of Arts in Education

Secondary

Bachelor of Arts in Education (middle school, junior high school, or senior high school teaching) — 1) All University core requirements as found on pages 26—28: 71 credits. Of these 71, the five credit requirement in Social Science II may be met by Ed 325 ;and either Ed 322 or Ed 363. 2) A teaching major of at least 55 credits in any subject commonly taught in secondary schools. (See departmental sections of the bulletin for exact requirements in each major. 3) Professional education courses: 41 credits. 4) Electives: 23 credits. Students are advised to use electives to complete additional teaching fields.

For recommendation to Comprehensive Social Studies the following are required: 1) a major in **one** of the social studies fields, 2) at least 25 hours in history, including American, Western, non-Western and Pacific Northwest and 3) a minimum total of 70 quarter credits in the social studies, including courses in at least three social studies areas in addition to history.

For recommendation in Business Education the following must be completed: 1) Mt 130; 2) Ec 271 and 272; 3) Bus 230, 231, 260, 270, 340, 380, 460; 4) CSC 103; 5) Ed 430 and 6) proficiency must be demonstrated in **two** of these skills — typing, word processing, office machines.

Typical Program

Freshman year

English 110/Philosophy 110 sequence	10 credits
History 120/English 120 sequence	10 credits
Fine Arts 120	5 credits
History Elective	5 credits
Mathematics	5 credits
Major or electives	10 credits

Sophomore year

Education 363	3 credits
Ethics	5 credits
Philosophy 220/Social Science I sequence	10 credits
Laboratory Science	5 credits
Theology and Religious Studies I	5 credits
Major or electives	15 credits

Junior year

Education 323, 325, 326, 353	10 credits
Major or electives (including course in teaching of major)	30 credits
Theology and Religious Studies II	5 credits

Senior year

Education 330, 337, 354, 430, 432, 460 and 439	22 credits
Student Teaching	12 credits
Major and electives	23 credits
Total	190 credits

Bachelor of Education

Elementary

Bachelor of Education (elementary or middle school teaching) — 1) All University core requirements: 71 credits. Of these 71, the five credit requirement in Social Science II may be met by Ed 325 and either Ed 322 or Ed 363. The B.Ed. requires certain specific core courses as shown in the program outline. See pages 26-28 for remaining core requirements. 2) a fine arts methodology class. 3) A teaching major of at least 25 credits in a single subject and a teaching minor of at least 20 credits in subjects or areas commonly taught in elementary or junior high schools. Junior high candidates must take the 25 hour teaching major in a specific subject taught at the junior high level. 4) Professional education courses: 59 credits 5) 12 hours of electives.

Students interested in special education should confer with their Program Coordinator early in their studies.

Senior Year

Education 355, 420, 422, 423, 426, 427, 460	23 credits
Student Teaching: Ed 440, Ed 446	18 credits
Teaching Subjects	10 credits
Total	196 credits

Education Courses

ED 322	Child Development	3 credits
	Developmental changes in the normal human being with emphasis on application to the school age years. Includes observations in the field. Credit will not be allowed for both Ed 322 and Psy 322. (fall, winter)	
ED 323	Introduction to the Teaching Profession	2 credits
	An examination of the nature of the teaching profession, forces affecting the profession and current issues facing schools and teachers. Prerequisites: Ed 322 or Ed 363. (fall, winter)	
ED 325	Psychology of Learning	3 credits
	Study of learning in classroom; theories of learning; organization and retention of knowledge; evaluation of mental processes; factors in the economy of learning. Prerequisite: Ed 322 or 363 (fall, winter)	
ED 326	Measurement and Evaluation in the Classroom	3 credits
	Concentrated practice in the planning and construction of classroom tests based on instructional objectives, and an overview of standardized tests commonly used in schools. (fall, winter)	
ED 330	Strategies for Instructional Effectiveness	4 credits
	Application of principles of learning and development to preparing, organizing and presenting learning units. Prerequisites: Ed 323, 325; corequisites: Ed 340 and 336 or 337. (winter, spring)	
ED 336	Fundamentals of Reading Instruction — Elementary	4 credits
	Nature of the reading process, sequence of skills K-6, recommended practices, materials, methods of diagnosis and evaluation. Includes field experience. Prerequisites: Ed 322, 325; corequisite: Ed 330. (winter, spring)	
ED 337	Fundamentals of Reading Instruction—Secondary	4 credits
	Development of reading and study skills; reading in content areas; diagnosis and evaluation, special reading programs. Prerequisites: Ed 323, 325; corequisite: Ed 330. (winter, spring)	
ED 340	Fundamentals of Mathematics Instruction — Elementary	4 credits
	Study of number systems including basic operations and properties of numbers; principles of teaching these concepts K-6. Prerequisite: Mt 200. (winter, spring)	
ED 352	Health and Physical Education in the Elementary School	3 credits
	Curriculum and methods of teaching Health and Physical Education. Legal issues included. (spring)	
ED 353	Field Experience I	2 credits
	Observation in selected K-12 schools. To be taken concurrently with Ed 323, 325, 326.	
ED 354	Field Experience II	2 credits
	Practical experience in selected K-12 schools. To be taken concurrently with Ed 330, 336, 337.	
ED 355	Field Experience III	2 credits
	Practical experience in selected K-12 schools. To be taken concurrently with Ed 420.	
ED 363	Adolescent Development	3 credits
	Developmental changes in the person during the adolescent years. Problems, issues confronting the adolescent. (fall, spring)	

ED 391	Special Topics	1-5 credits	ED 432	Mainstreaming the Exceptional Student	3 credits
ED 392	Special Topics	1-5 credits		Issues surrounding mainstreaming; methods for working with exceptional students in the regular classroom. (fall, winter)	
ED 393	Special Topics	1-5 credits	ED 438	Laboratory Experience — Elementary	1-6 credits
ED 411	Early Education and Child Development	3 credits		Mandatory CR/NC. (fall, winter, spring)	
	Current issues and trends in early childhood education — birth through eight years. Emphasis on recent research including that carried out by teachers in their own classrooms.		ED 439	Laboratory Experience — Secondary	1-6 credits
ED 412	Early Education Practicum	3 credits		Mandatory CR/NC. (fall, winter, spring)	
	Supervised field experience in an early education setting.		ED 440	Student Teaching — Elementary	12 credits
ED 413	Programs in Early Childhood Education	3 credits		One quarter of full-day supervised teaching experience on the elementary school level. Prerequisite: Ed 330 and permission of the Dean. (fall, winter, spring)	
	Comparative study of current models in early education, including public and private kindergartens, infant centers, Montessori schools, and programs for special children. (spring)		ED 445	Student Teaching — Secondary	12 credits
ED 420	Curriculum and Materials in the Elementary School	6 credits		One quarter of full-day supervised teaching experience on the secondary school level. Prerequisite: Ed 330 and permission of the Dean. (fall, winter, spring)	
	Methods of teaching in specific subject areas and levels of the elementary school. Prerequisite: Ed 330. (fall, spring)		ED 446	Student Teaching — Supplementary	5-15 credits
ED 421	Teaching the Arts in the Elementary School	3 credits	ED 450	Introduction to Gifted Education	3 credits
	Methods of teaching the arts in elementary schools; integration of the arts with other curricular offerings will be emphasized. (fall, spring).			An introduction to gifted education, including definition and identification of areas of giftedness, curriculum modes, program organization, awareness of and attitudes toward giftedness and evaluation of student performance. Language Arts, humanities and the arts will be considered.	
ED 422	Working with Parents and Professionals	3 credits	ED 451	Gifted Education: Mathematics	3 credits
	This course will focus on skills necessary for teachers to have in order to work with parents and professionals. Included are techniques for involving parents in the educational process, counseling approaches and conferencing practices. Emphasis is placed on working with the parents of exceptional students.			Current research exploring the relationship of brain development to the types of giftedness will be studied. Implications of this research and its application to mathematics lessons for gifted students will be identified and examined.	
ED 423	Introduction to Classroom Management	3 credits	ED 452	Gifted Education: Science	3 credits
	Provides theory and strategies for managing the K-12 classroom. While a variety of theories will be studied, the systematic use of applied behavior analysis techniques will be a major emphasis of the course.			Rationale for and methods of science instruction for gifted students. Emphasis will be placed on the implications of Piaget in cognitive development for curriculum design.	
ED 424	Introduction to Learning Disabilities	3 credits	ED 460	Computers and Instructional Technology in the Classroom	3 credits
	History and current practices in diagnosis and remediation of students who are learning disabled and mildly handicapped.			An examination of the uses of computers and other forms of media in the classroom. (winter, spring)	
ED 425	Introduction to Special Education	3 credits	ED 470	Manual Language	3 credits
	Survey of characteristics of exceptional students served by special educators. A review of special ed. practices and federal and state laws guiding special education. Writing Individual Education Programs which lead to effective instruction is also included.			The use of manual English for the developmentally handicapped. Includes the deaf fingerspelling alphabet and a 600-800 word vocabulary. Emphasis is on understanding of alternative methods of communication.	
ED 426	Introduction to Mental Retardation	3 credits	ED 472	Literature for Early Education	3 credits
	Examination of characteristics of students with developmental disabilities; emphasis on current trends and practices in their education.			Examination of distinguished books for young children. Includes discussion of the literary and artistic merit as well as the human values represented in early childhood literature.	
ED 427	Methods in Special Education	3 credits	ED 477	Multicultural Literature	3 credits
	An examination of methods of teaching exceptional students in varied settings. Prerequisite: Ed 425 or permission of the instructor.			Analysis of multicultural literature written for children for use by the teacher in assisting children to appreciate cultural diversity. Discussion of racism, sexism and other dehumanizing influences expressed in literature and ways educators can bring about positive change.	
ED 428	Language Development	3 credits	ED 491	Special Topics	1-5 credits
	An introduction to critical features of the developmental processes of receptive and expressive language with consideration of diagnosis, curriculum and method.		ED 492	Special Topics	1-5 credits
ED 430	Teaching Secondary School Subjects	3 credits	ED 493	Special Topics	1-5 credits
	General methods of teaching in specific subjects, areas and levels of the secondary school. (winter, spring)		ED 496	Independent Study	1-5 credits
			ED 497	Independent Study	1-5 credits
			ED 498	Independent Study	1-5 credits

Rehabilitation

Objectives

The Rehabilitation Program is designed to educate students to become vocational rehabilitation professionals who work with persons who have physical and/or mental disabilities. As rehabilitation professionals, their goal will be to assist individuals to move from a status of dependence to the level of maximum functioning of which they are capable. Accordingly, rehabilitation professionals deal with clients, primarily on a one-to-one basis, who have disabilities preventing them from obtaining or retaining employment. Based on the level of rehabilitative readiness, some of the disability groups rehabilitation professionals might work with include physically disabled, alcoholics, blind, deaf and hard-of-hearing, drug addicts, industrially injured, mentally ill, mentally retarded and parolees, to name a few.

The program prepares the student who, upon graduation, might become employed in public and private human service settings such as state vocational rehabilitation agencies, federally sponsored human service agencies, county agencies, social welfare agencies, prisons, evaluation centers, and health-related associations, as well as private agencies such as transitional workshops, rehabilitation centers, hospitals, speech and hearing centers, work activity centers (adult development centers) and others.

Emphasis is placed on supervised field experiences in a variety of rehabilitation related agencies (25 credits), in addition to giving the student knowledge in medical and psychological aspects of disability, the world of work or occupational information and community resources in rehabilitation.

Certificate Program

The Rehabilitation Certificate is a 45 credit program that is offered late afternoons and evenings and has the following components: 10 credits of field experience; 15 credits of foundation courses (Rhb 100, Rhb 201, Rhb 301); 20 credits to be selected by the student and the adviser. The Rehabilitation Certificate program is open to all persons, with or without a degree, who meet the University's entrance requirements. Certificate credits are applicable toward a B.A. degree. A certificate program should be completed within three years.

General Program Requirements

Students in rehabilitation must satisfy the core curriculum requirements of the University as indicated on pages 26-28 of this bulletin plus additional credits in social science as outlined below. In addition to an overall gpa of 2.0 for all rehabilitation courses, rehabilitation majors must have a C- or above in each rehabilitation course.

Degree Requirements

Bachelor of Arts — 60 credits in rehabilitation including Rhb 100, 201, 203, 210, 301, 305, 310, 402, 405, 410; 15 credits in Psychology (Psy 100, 201, 315), Soc 101, and 10 credits of Social Science or Rehabilitative elective.

Bachelor of Arts

Freshman year

English 110/Philosophy 110 sequence	10 credits
History 120/English 120 sequence	10 credits
Mathematics	5 credits
Lab science	5 credits
Fine Arts 120	5 credits
Rehabilitation 100	5 credits
Social Science or Rehabilitation elective	5 credits

Sophomore year

Philosophy 220/Social Science I sequence	10 credits
Rehabilitation 201, 203, 210, 301	20 credits
Social Science or Rehabilitation elective	5 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits

Junior year

Ethics	5 credits
Psychology 201	5 credits
Psychology 315	5 credits
Theology and Religious Studies II	5 credits
Rehabilitation 305, 310, 402	15 credits
Electives	10 credits

Senior year

Interdisciplinary course	3-5 credits
Rehabilitation 405	5 credits
Rehabilitation 410	15 credits
Senior Synthesis	3 credits
Electives	17-19 credits

Total..... 180 credits

Rehabilitation Courses

- RHB 100 Introduction to Rehabilitation** 5 credits
Principles of vocational rehabilitation, the historical background, various community rehabilitation resources, the rehabilitation process, and the role and functions of the rehabilitation professional within this process.
- RHB 201 Helping Skills in the Human Services** 5 credits
Using group and interpersonal communication techniques, the course emphasizes the interaction dynamics between the rehabilitation professional and the client with disability.
- RHB 203 Tests and Measurement in Rehabilitation** 5 credits
Analyzes various methods of testing and evaluating people with disabilities and how the methods relate to the rehabilitation process.
- RHB 210 Field Experience in Rehabilitation** 5 credits
Actual experience in an agency or institutional setting within a rehabilitation framework. Coordinating seminars are an integral part of each field experience course. Prerequisite: Rhb 100, 201. Mandatory CR/NC.
- RHB 291 Special Topics** 1-5 credits
RHB 292 Special Topics 1-5 credits
RHB 293 Special Topics 1-5 credits
- RHB 301 Environmental Impact of Disability** 5 credits
The impact of mental, physical, and social disabilities as related to the individual, social environment, the culture and its values, economic situations and vocational opportunities.
- RHB 305 Medical Aspects of Disability** 5 credits
Study of medical terminology and various disabling diseases and conditions for a basic understanding of general medical and specialist examinations; how disabling conditions affect a client's vocational life.

- RHB 310 Field Experience in Rehabilitation** 5 credits
Actual experience in an agency or institutional setting within a rehabilitation framework. Coordinating seminars are an integral part of each field experience course. Prerequisite: Rhb 100, 201. Mandatory CR/NC.
- RHB 391 Special Topics** 1-5 credits
RHB 392 Special Topics 1-5 credits
RHB 393 Special Topics 1-5 credits
By arrangement with the approval of department chairman.
- RHB 402 Human Service Systems** 5 credits
An analysis of various human service delivery systems; methods of locating and using community-based referrals and resources, techniques in case and caseload management.
- RHB 405 Job Placement and Development** 5 credits
Occupational information as applied to job characteristics, job development, job seeking skills, vocational theories and practical experience.
- RHB 410 Field Experience in Rehabilitation** 5-20 credits
Actual experience in an agency or institutional setting within a rehabilitation framework. Coordinating seminars are an integral part of each field experience course. Prerequisite: Rhb 100, 201. Mandatory CR/NC.
- RHB 420 Law and the Disabled** 3 credits
A survey of laws and litigation affecting persons with disabilities.
- RHB 491 Special Topics** 1-5 credits
RHB 492 Special Topics 1-5 credits
RHB 493 Special Topics 1-5 credits
- RHB 497 Independent Study** 1-5 credits
RHB 498 Independent Study 1-5 credits
Individualized studies by arrangement with the approval of department chairman.

Matteo Ricci College-II

Matteo Ricci College — II

Bernard M. Steckler, Ph.D., Dean

Jodi Kelly, M.R.E., Assistant Dean

Matteo Ricci College is a coordinated and integrated six year program which begins with the traditional freshman year of secondary school and concludes with the granting of a baccalaureate degree by Seattle University. Form One, the first three years of the program, operates out of the Interlaken Campus of Seattle Preparatory School. Form Two, the subsequent three years, is an academic division of Seattle University on the Seattle University campus.

Objectives

Matteo Ricci College seeks to develop students who shape their personal and social futures through responsible choices. The objectives of the Form II program are to continue the harmonious development of the student's cognitive, affective, and valuative potential; bring the student to a reflective consciousness of "how" he or she learns; and foster an inquiring, caring community of learners and teachers. Focusing on the student's intellectual, aesthetic, emotional, ethical, and religious life, the curriculum is designed to sharpen and test generalizable learning skills; exercise and develop verbal and non-verbal communication skills; develop specific skills, both in a broad range of traditional disciplines and in an area of specialization; expose a variety of values clarifying themes and problems for interdisciplinary investigation; and encourage prescriptive self-assessment.

While the Matteo Ricci College program does not attempt to advance the student in only six years to the level of vocation-oriented specialization sometimes acquired in eight, it does provide a foundation for, and initiation into, professional training, effectively preparing the student to pursue either a second baccalaureate or graduate degree.

Admission Requirements

Only students who have successfully completed the academic program of Matteo Ricci College-I will be admitted to the academic program of Matteo Ricci College-II at Seattle University.

Degree Offered

Bachelor of Arts

General Program Requirements

MRC-II students are expected to make normal progress toward completing the required courses in sequence. They must maintain a cumulative academic grade point average of 2.0 during the year/4 course of study and 2.25 or above during the remainder of the program. Students failing to meet these expectations will be placed on probation for two quarters, and thereafter are subject to dismissal from the MRC program.

The MRC-II peer advisers members serve as the principal advisers to all MRC-II students on academic and academically-related matters. Consequently, an MRC-II student may not register for any Seattle University course, either in the summer session or during the regular academic year, without first consulting and receiving the written permission of a peer adviser.

Degree Requirements

135 credits which must include: 60 credits in MRC/HUMANITIES courses; 4-5 credits in Fine Arts; 5 credits in Science and Technology; an Area of Concentration consisting of 45 credits in a single discipline OR 55 credits in a pre-professional discipline, OR a minimum of 50 credits and a maximum of 55 credits in general studies; and the remaining credits in courses approved by the student's MRC-II adviser.

MRC-II students who have successfully completed an area of concentration may apply the credits earned toward a second baccalaureate degree in certain major fields of study, subject to the approval of the appropriate school, and the University regulation of 45 minimum additional credits for a second baccalaureate degree.

Typical Schedule

Year/4

HUM 100, 200 series courses 30 credits
 Fine Arts course 4-5 credits
 Area of Concentration and
 Approved Courses 10-11 credits

Year/5

HUM 280 and 300 series 15 credits
 Science and Technology course 5 credits
 Area of Concentration and
 Approved Courses 25 credits

Year/6

HUM 400 series 15 credits
 Area of Concentration and
 Approved Courses 30 credits
 Total 135 credits

Matteo Ricci College/HUM Courses

HUM 150 Composition: Language and Thought 5 credits
 Study and practice in informal logic and argumentation, with emphasis upon the composition of clear, persuasive writing.

HUM 151 Composition: Language and the Arts 5 credits
 Interdisciplinary study of artistic composition in a variety of art forms, with emphasis upon, and practice in, literary composition.

- HUM 180 Socio-Cultural Transformations I** 5 credits
HUM 181 Socio-Cultural Transformations II 5 credits
HUM 182 Socio-Cultural Transformations III 5 credits

A three quarter, interdisciplinary study of the evolution of major systems of meaning and value in Western Civilization and the social expressions of these systems; emphasis on analysis of social and cultural phenomena and on interpretation of the personal and communal significance of cultural change in the past, present and future.

- HUM 260 Modes of Inquiry** 5 credits

Inquiry into the dynamic of human knowing, especially in the context of content and methods characteristic of the natural and human sciences; focus on increasing awareness of processes of understanding, of the dependence of knowing on interpretive frameworks, and their dependence on social and cultural forces shaping human existence, and on rigorous interrogation of these frameworks.

- HUM 280 Cultural Interface** 5 credits

Interdisciplinary study of the elements of human behavior which define culture, and the processes of interaction between European culture and cultures of Asia and Africa.

- HUM 291 Special Topics** 1-5 credits
HUM 292 Special Topics 1-5 credits
HUM 293 Special Topics 1-5 credits

- HUM 301 Perspectives on the Person I** 5 credits
HUM 302 Perspectives on the Person II 5 credits

Reflective and critical examination of the structures of experience which define and shape human reality from philosophical, theological, psychological and literary perspectives; emphasis on understanding of self and on appropriation of a religiously-grounded sense of care and responsibility at both individual and social levels.

- HUM 400 MRC Seminar** 5 credits
HUM 401 MRC Seminar 5 credits
HUM 402 MRC Seminar 5 credits

Several seminars each quarter which challenge students to apply knowledge and skills already acquired to complex social and cultural issues of the contemporary world; emphasis on searching for the normative and the ideal in economic, political, scientific, technological, religious and aesthetic contexts and on integrating the academic and the "real" world.

School of Nursing

School of Nursing

Kathleen E. Korthuis, Ph.D., R.N., Dean

Objectives

The aim of the School of Nursing is to provide educational preparation for professional practice. There are four major goals for the nursing programs:

- 1) Provide educational experiences for knowledge, skills and values essential to the professional degree of Bachelor of Science in Nursing.
- 2) Prepare students in the Jesuit tradition of service to others as a basis for meeting health needs in society.
- 3) Provide for flexibility in program planning to meet the needs of the nontraditional student, and
- 4) Provide the foundation for graduate study in nursing.

Accreditation

National League for Nursing
Washington State Board for Nursing

Organization

The School of Nursing offers an undergraduate program in nursing for generic students with no previous education in nursing and for the Registered Nurse student seeking the B.S.N. degree.

Admission Requirements

All entering freshmen students from accredited institutions of higher learning and registered nurses who wish to complete requirements for the Bachelor of Science degree in Nursing must meet University entrance requirements described in the admissions section of this

bulletin. A cumulative grade point average of 2.75 or above from another college or university is required for transfer students seeking admission into the School of Nursing. Additional requirements for registered nurses are:

- Graduation from an accredited school of nursing
- Current nursing licensure in the State of Washington
- Report of complete physical examination within six months before entrance
- Recommendation from the Director of the Nursing Program and from employer

Degree Offered

Bachelor of Science in Nursing

General Program Requirements

A student in the School of Nursing must have achieved a cumulative grade point average of 2.50 or above by the end of the sophomore year, and a grade of 2.00 or above in the nursing, chemistry, biology courses, and psychology courses for approval to proceed into the upper division nursing courses. The academic and clinical performances of each nursing student are evaluated at the end of each year to determine progression in the program. Specific requirements for progression may be obtained from a faculty adviser.

Students must meet the School of Nursing/Clinical Agency requirements for annual health screening and C.P.R. certification, immunization protection, and evidence of medical insurance coverage. Students are responsible for these expenses as well as uniforms and transportation costs to, from, and while in cooperating teaching units. A current driver's license and car covered by insurance as prescribed by state law are recommended for all clinical courses. Professional liability insurance is strongly recommended for clinical nursing courses. Students are referred to the School of Nursing Student Handbook for a more detailed overview of requirements and expectations.

Clinical Experiences

Clinical experience is provided through cooperating agencies which include Children's Hospital and Medical Center, Group Health Cooperative Hospital and Clinics, Harborview Medical Center, Northwest Hospital, Providence Medical Center, Seattle King County Health Department, Swedish Hospital Medical Center, Veterans Administration Medical Center, Virginia Mason Hospital, and other selected health care agencies.

Degree Requirements

Basic Students (without previous education in nursing)

Requirements for the Bachelor of Science in Nursing total 180 credit hours:

- 1) 66 credit hours of the new core curriculum (pages 26-27). Students choose either Fine Arts or Social Science II and take Chemistry 101 for the lab science requirement.
- 2) 25 credit hours in courses prerequisite to the nursing major:
Ch 102, BL 200, BL 210, BL 220, and PSY 322.
- 3) 87 credit hours in the nursing major.

4) 2 (or more) credit hours free elective.

*Core requirements for the entering transfer student are as stated on page 28, requiring CH 101 and 102 (math/science), PL 250 or 255 (for last 5 hours, Philosophy sequence), PSY 100 (social science I).

Typical Program of Studies for the Basic Student

Freshman year

Chemistry 101, 102	10 credits
English 110/Philosophy 110 sequence	10 credits
Fine Arts 120 (or Social Science II)	5 credits
History 120/English 120 sequence	10 credits
Mathematics 107	5 credits
Psychology 120	5 credits

Sophomore year

Biology 200, 210, 220	15 credits
Nursing 200, 301, 302	15 credits
Philosophy 220	5 credits
Psychology 322	5 credits
Religious Studies I	5 credits

Junior year

Nursing 303, 304, 305, 306, 320, 321, 322, 323, 324	40 credits
Philosophy 255	5 credits

Senior year

Interdisciplinary course	3 credits
Nursing 400, 401, 402, 421, 422, 423	35 credits
Religious Studies II	5 credits
Elective	2 credits

Registered Nurse Students

A total of 180 credit hours of course work is required. Core requirements for the entering transfer student are as stated on page 28, requiring CH 101 and 102 (math/science), PL 250 or 255 (for last 5 hours, Philosophy sequence), PSY 100 and PSY 322 (social science).

RN's transferring from associate degree programs in Washington State community colleges which have signed transfer agreements with Seattle University may transfer a maximum of 90 credits, as determined by the University's Registrar. RN's transferring from other programs will have all previous education evaluated on a course by course basis by the University's Registrar.

To complete degree requirements, diploma graduates may opt to earn nursing credits by either successful achievement on examinations for credit or by taking the following courses: N334, 335, 336, 337, 340, 341, = 30 credits.

Required nursing courses total 45 credit hours: N 300, N 301, N 316, N 345, N408, N 409, N432, N 433.

Nursing Courses

N 200	Concepts in Professional Nursing	5 credits
The development of nursing and nursing theory in an historical context; the relationship of nursing process to professional nursing practices; assertive communication skills. Prerequisite: phase I core courses. (spring)		

N 300 Pathophysiology 5 credits
Study of the functional changes of the body which accompany illness and form the basis for nursing intervention. Prerequisites: Ch 101, Ch 102, BI 200, BI 210, BI 220, (fall)

N 301 Health Promotion Across the Lifespan 5 credits
Concepts of health, protection and promotion, and teaching-learning principles. Assessment of factors influencing health status of individuals across the lifespan; strategies to develop and modify health behavior. Prerequisites: PSY 322, PL 220. Prerequisite or concurrent: N 200. (spring)

N 302 Health Assessment 5 credits
History-taking, physical examination, and documentation skills. Assessment of healthy individuals includes physical, psychosocial, developmental, cultural, and spiritual aspects. Theory (3), laboratory/clinical (2). Prerequisites: BL 200, BL 210. Corequisite: N 301 or RN. (spring)

N 303 Basic Nursing Interventions 3 credits
Skills related to basic needs, aseptic technique, wound healing, and medication administration. Simulated lab practice and selected agency supervised experience. Concurrent: N 304 (fall)

N 304 Nursing Care of Ill Adults I 7 credits
A nursing process approach to care of the ill adult. Risk factors and common, uncomplicated physiological alterations in health states. Theory (3) and clinical (4). Prerequisites: BL 220, N 301; Prerequisites or concurrent: N 320, N 321; Concurrent: N 303. (fall)

N 305 Nursing Care of Ill Adults II 10 credits
A nursing process approach to care of the ill adults. Nursing theory related to physiological alterations in oxygenation, tissue perfusion, cellular metabolism and growth, and reproduction function. Theory (4) and clinical (6). Prerequisites: N 303, N 304, N 320, N 321. Prerequisite or concurrent: N 322. (winter, spring)

N 306 Nursing Care of Ill Children 7 credits
The nursing process for the care of hospitalized infants, children, and adolescents with acute and/or chronic health problems. The focus is the child within a family. Theory (3) and clinical (4). Prerequisites: N 303, N 304, N 320, N 321. Prerequisite or concurrent: N 322. (winter, spring)

N 314 Mental Health Concepts 5 credits
Concepts basic to assisting self and others to maintain wellness and cope with reactions to the stress of illness. Organized around behavioral science principles which promote the nursing skills necessary for developing the inherent capabilities of the student and the patient. Prerequisites: BL 200, BL 210, BL 271 and BL 220, N 205, N 206, N 300 and Psy 322; concurrent with either N 335, N 337 or N 341.

N 316 Research and Trends in Nursing 5 credits
Legal, ethical and professional issues are studied in relation to concepts of power, authority, responsibility in present and emerging health care patterns. The research process is stressed. Prerequisites: BL 200, BL 210, BL 271, and BL 220; N 205, N 206, N 300 and PSY 322, concurrent with either N 335, N 337 or N 341, or RN student. (spring)

N 320 Pharmacological Principles Basic To Nursing Practice 2 credits
Professional nursing responsibilities in assessing, planning, and evaluating pharmacological interventions. Prerequisites: N 200, N 201, N 301. (fall)

N 321 Pathophysiology I 3 credits
Alterations in structure and function resulting from stressors on the human body. A conceptual approach to pathophysiological mechanisms: physical, laboratory, diagnostic findings. Areas of study include stress, adaptation, and alterations in defense mechanisms: fluid, electrolyte, and acid-base imbalances; responses to cell and tissue injury; altered immune response, nutrition, elimination, and neuro-muscular-sensory response. Open to non-majors. Prerequisites: BL 200, BL 210.

N 322 Pathophysiology II 3 credits
This course builds on the concepts and areas of study from Pathophysiology I. Body responses addressed include alteration in tissue perfusion-oxygenation and hormonal regulatory function: complex alterations in cellular and immune responses, resulting in multisystem and general body dysfunction. Prerequisite: N 321. (winter)

N 323 Concepts in Gerontological Nursing 2 credits
Health-derived and health-related concerns of older persons with emphasis on attitudes, adjustments in aging, environmental considerations, chronic illness, death and dying, and ethical/legal aspects of nursing care. Prerequisite: N 301 (winter)

N 324 Research in Nursing Practice 3 credits
The research process as an integral part of nursing practice. Evaluation and application of research findings. Instructional methods emphasize use of group process to foster team work. Prerequisite: (spring)

N 334 Nursing Care of Children Theory 4 credits
Nursing care of children from infancy through adolescence with acute and chronic health problems. Nursing process related to alterations in fluid-electrolyte, oxygenation, hematology, cardiovascular function, immunity, mobility, and neurosensory function. Prerequisites: N 206, N 300, and PSY 322; Concurrent with N 335. (fall, winter, spring.)

N 335 Nursing Care of Children - Clinical 6 credits
Experiences are arranged in a variety of settings selected to provide opportunities to apply concepts and principles from concurrent theory courses. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316.

N 336 Nursing Care of Adults - Theory 4 credits
The conceptual framework for the course is based upon the nursing process related to fluid-electrolyte/acid-base/elimination, oxygenation, nutrition disorders, neuro-sensory, endocrine, musculoskeletal, impaired immune response, cardiovascular problems and neoplastic disorders. Prerequisites: N 206, N 300; Concurrent with N 337. (fall, winter, spring.)

N 337 Nursing Care of Adults - Clinical 6 credits
Experiences are arranged in a variety of settings, selected to provide opportunities to apply concepts and principles from concurrent theory courses. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316.

N 340 Maternal-Child Nursing: Family and Community 4 credits
Assessment of family dynamics and parental roles; family system and its use of community resources; current concepts in women's health care. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316 and N 341.

N 341 Maternal-Child Nursing Practice: Family and Community 6 credits
Clinical practice to promote application of concepts from N 340; supervised experience with childbearing families in a range of community settings. Prerequisites: N 205, N 206, N 300; concurrent with N 312, N 314 or N 316 and N 340.

N 345 The Childbearing Family: Current Perspectives 5 credits
Combined theory and clinical practice individualized to broaden experiential base, focused on health supervision during reproductive cycle. A transition course for Registered Nurse students only.

N 400 Nursing Care of the Childbearing Family 7 credits
Application of the nursing process to the childbearing family. Health promotion in a variety of community settings. Analyze contemporary issues relating to the childbearing family. Prerequisites: N 304, N 305. Prerequisite or concurrent: N 421. (fall, winter)

N 401 Psychiatric Mental Health Nursing 7 credits
Psychodynamics and psychopathology as a basis for interpersonal nursing interventions within a holistic framework. Promotion of mental health; facilitation of growth and constructive problem-solving with individuals and groups at risk for or having psychiatric disabilities. Prerequisites: N 304, N 305 (fall, winter)

- N 402 Community Health Nursing 7 credits**
Complex, chronic health-illness problems of diverse cultural groups of all ages in community settings. Design and evaluate nursing care for specific populations. Prerequisites: N 304, N 305. Prerequisite or concurrent: N 421 (fall, winter)
- N 408 Psychiatric-Mental Health Nursing 4 credits**
Psychodynamics, psychopathology, and group interaction in psychiatric nursing care; use of behavioral science principles to promote mental health and provide care for individuals with emotional problems. Prerequisites: All N 300 courses; concurrent with N 409.
- N 409 Psychiatric-Mental Health Nursing Practice and Assertiveness Training 6 credits**
Clinical practice to promote application of concepts from N 408 in a manner that facilitates growth and constructive problem solving in client, family and student. An assertiveness training component includes the theory and practice of assertive communication skills. Prerequisites: All N 300 courses; concurrent with N 408.
- N 421 The Family: A Systems Approach 3 credits**
Synthesis of family systems theories. Design care for healthy, high-risk, and multicultural families. All stages of the lifespan. Intervention strategies to promote optimal family functioning. Open to non-majors. Prerequisites: N 304, N 305, or permission of instructor. (fall)
- N 422 Senior Synthesis in Nursing 3 credits**
Synthesis of social sciences, humanities, theories of organizations and professionalism in nursing practice. Critically examines ethical, economic, legal, political, and technological forces influencing issues in professional nursing. Prerequisites: all other nursing theory courses. (spring)

- N 423 Transition To Professional Nursing Practice 8 credits**
Synthesis of previous clinical and management theory. Management of care for groups of clients and families with complex health care needs; use of clinical judgment. Students will select a setting according to individual interests. Prerequisites: all clinical nursing courses. (spring)
- N 432 Community/Advanced Nursing 5 credits**
Interrelated health-illness problems examined in a framework of the decision making process; concepts of family and family systems are studied. Relies on concepts and principles from previous nursing courses. Prerequisites: All N 300 numbered courses; concurrent with N 433.
- N 433 Community/Advanced Nursing Practice 10 credits**
Clinical practice to promote application of concepts, principles and processes from N 432; experiences in hospitals, clinics and other community agencies with individual clients, groups of clients/patients and families. Prerequisites: All N 300 courses; concurrent with N 432.
- N 491 Special Topics 1-5 credits**
N 492 Special Topics 1-5 credits
N 493 Special Topics 1-5 credits
- N 496 Independent Study 2-5 credits**
N 497 Independent Study 2-5 credits
N 498 Independent Study 2-5 credits

School of Science and Engineering

School of Science and Engineering

Terry J. van der Werff, D.Phil., Dean

Objectives

Rooted in the Jesuit tradition of liberal education, the School of Science and Engineering at Seattle University seeks to provide dynamic, integrated, and challenging academic programs in science, engineering, and health for promising students preparing themselves for responsible roles in their chosen professions and for practicing professionals seeking to advance their educational qualifications; to foster among all students an understanding of scientific inquiry and a critical appreciation of technological change; and to inspire them to lifelong intellectual, professional, and humane growth.

Accreditation

Individual programs within the school are accredited by the following professional bodies:

American Chemical Society (Chemistry)

Accreditation Board for Engineering and Technology (Civil Engineering, Electrical Engineering, Mechanical Engineering)

Council on Allied Health Education and Accreditation (Diagnostic Ultrasound, Health Information Administration)

Organization

The School of Science and Engineering offers degrees in Biology, Chemistry, Clinical Chemistry, Computer Science, Cytotechnology, Diagnostic Ultrasound, General Science, Health Information Administration, Mathematics, Medical Technology, Physics, and Civil, Electrical, Mechanical, and Software Engineering.

Students interested in other scientific, technical, and health-related careers, such as medicine or dentistry, may either pursue a disciplinary degree and use elective courses to suit their needs or tailor their complete curriculum within the General Science Department.

Admission Requirements

In addition to the requirements for admission to Seattle University, freshmen applicants for admission to the School of Science and Engineering (except for health information administration) must have completed at least three years of high school mathematics, preferably including trigonometry, and at least two years of laboratory science for all majors except mathematics and computer science.

Transfer applicants will be considered when their overall college GPA is at least 2.50 on a 4.00 scale and when their cumulative GPA in all engineering, mathematics, or science courses is also at least 2.50. Transfer admission is on the basis of space available, with academic performance being the prime consideration. A history of withdrawals, incompletes and repeated courses lessens the chances for admission. To be accepted for transfer credit, required engineering, mathematics, or science courses must be graded C (2.00) or above. No technology courses will be accepted as transfer credit.

Degrees Offered

Bachelor of Arts with a major in Chemistry, Computer Science, Mathematics or Physics.

Bachelor of Science with a major in Mathematics.

Bachelor of Science in Biology, Chemistry, Civil Engineering, Clinical Chemistry, Computer Science, Cytotechnology, Diagnostic Ultrasound, Electrical Engineering, General Science, Health Information Administration, Mathematics, Mechanical Engineering, Medical Technology, and Physics.

Master of Software Engineering — See Graduate Bulletin

General Program Requirements

Students seeking the Bachelor's degree in the School of Science and Engineering must complete 180 credits, including the University core requirements shown on pages 26-28 of this Bulletin. The three engineering degrees require 192 credits. The core requirements have been modified for several of the degree programs, as described in the individual departmental sections of this Bulletin. Students also must complete the specific departmental requirements for their particular degree.

For transfer students and students enrolled prior to fall 1987, the core curriculum requirements for history and social science as given on page 28 of the Bulletin have been modified for the following degrees. The Bachelor of Science in Biology, Computer Science, Cytotechnology, Diagnostic Ultrasound, Health Information Administration, Mathematics, Medical Technology, and Physics and the Bachelor of Science with a major in Mathematics require 15 credits of history or social science. The Bachelor of Science in Chemistry, Clinical Chemistry, Civil Engineering, Electrical Engineering, and Mechanical Engineering require 10 credits of history or social science.

No course may be taken without the indicated prerequisites. Only the Dean may waive this policy.

Allied Health Technology

Vicky M. Brautigan, Ph.D., Chairperson
Andrea C. Skelly, BS, RDMS,
Director, Diagnostic Ultrasound Program

Objectives

The Allied Health Technology programs are designed to prepare students for professional careers as technologists in several medical laboratory disciplines or as laboratory assistants in biological research laboratories. Founded on a concentration in basic sciences, the programs afford simultaneous opportunities for receiving a liberal arts education and practical exposure to the medical laboratory environment.

Degrees Offered

Bachelor of Science in Cytotechnology
Bachelor of Science in Diagnostic Ultrasound
Bachelor of Science in Medical Technology

Accreditation

The Diagnostic Ultrasound program is accredited by the Committee on Allied Health Education and Accreditation (CAHEA). Only CAHEA-accredited internship sites are used in our Cytotechnology and Medical Technology programs.

General Program Requirements

Students in the Allied Health Technology programs must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin except for the requirement in Fine Arts.

Departmental Requirements

Bachelor of Science in Cytotechnology — 50 credits of biology including BL 165, 166 and 167; CH 101 and 102 or CH 121, 122, 131 and 132; MT 111; and 45 credits of AH 310, 311 and 312, which must be completed in an accredited cytotechnology internship site. AH 415, HI 322 and N 300 (or BL 305) are recommended. Biology electives recommended are BL 200, 210 (or 270, 271), 220 (or 300), 310, 330, 350, 351, and 485.

Bachelor of Science in Diagnostic Ultrasound — 20 credits of biology, including BL 165, 200 and 210 (or BL 270 and 271); N 300 (or BL 305); PH 105 and 106 and 350; MT 131; CSC 103, 113 or 114; AH 330, 331, 332, 333, 334, 355, 370, 375, 473, 474 (three times), 483 (four times), 484 (twice). A calendar year internship is necessary for entry into professional employment and certification. This internship is a part of the degree and follows after the academic course requirements are met. Students must provide verification (from physician) of good health prior to ultrasound specific courses.

Bachelor of Science in Medical Technology — 45 credits of biology, including 10 credits of BL 165, 166, 167; BL 200 and 210 (or BL 270 and 271), 300, 350, 360, and 485; 47 credits in chemistry, including CH 121, 122, 131, 132, 219, 470, 471, 472; MT 131; CSC 113 or 114; PH 105, 106; and AH 410, 415 and 420. Professional certification requires one year of internship in an accredited laboratory training program after completion of the degree.

Bachelor of Science in Cytotechnology

Freshman year

Biology 165, 166, 167	15 credits
English 110/Philosophy 110 sequence	10 credits
History 120/English 120 sequence	10 credits
Mathematics	5 credits
Elective	5 credits

Sophomore year

Biology 200, 210 (or 270, 271) 220 (or 300), 485	20 credits
Chemistry 101, 102 (or 121, 122 and 131, 132)	10 credits
Philosophy 220/Social Science I sequence ...	10 credits
Theology and Religious Studies I	5 credits

Junior year

Allied Health 415	3 credits
Biology 310, 330, 350, 351	15 credits
Ethics	5 credits
Health Information 322	3 credits
Nursing 300 (or BL 305)	5 credits
Social Science II	5 credits
Theology and Religious Studies II	5 credits
Elective	4 credits

Senior year

Allied Health 310, 311, 312	45 credits
Total	180 credits

Bachelor of Science in Diagnostic Ultrasound

Freshman year

Biology 165	5 credits
Biology Elective	5 credits
Computer Science 113 or 103	5 credits
English 110/Philosophy 110 sequence	10 credits
History 120/English 120 sequence	10 credits
Mathematics 131	5 credits
Elective	5 credits

Sophomore year

Biology 200, 210 (or 270, 271)	10 credits
Nursing 300	5 credits
Philosophy 220/Social Science I sequence ..	10 credits
Physics 105, 106	10 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits

Junior year

Allied Health 330, 331, 332, 333, 334, 355, 370, 375	31 credits
Philosophy 255	5 credits
Physics 350	3 credits
Theology and Religious Studies II	5 credits

Senior year

Allied Health 473, 474 (3 times)	34 credits
Allied Health 483 (4 times), 484 (2 times)	12 credits
Total	180 credits

Bachelor of Science in Medical Technology

Freshman year

Biology 160 series	10 credits
Chemistry 121, 122, 131, 132	10 credits
English 110/Philosophy 110 sequence	10 credits
History 120	5 credits
Mathematics 111, 115, 131	12 credits

Sophomore year

Biology 200, 210 (or 270, 271)	10 credits
Chemistry 123, 133, 231, 232, 233, 234	15 credits
English 120	5 credits
Philosophy 220/Social Science I sequence ..	10 credits
Social Science II	5 credits

Junior year

Allied Health 410, 420	6 credits
Biology 300, 350, 360 and Elective	15 credits
Chemistry 219	5 credits
Computer Science 113	5 credits
Physics 105, 106	10 credits
Theology Religious Studies I	5 credits

Senior year

Allied Health 415	3 credits
Biology 485	5 credits
Chemistry 455, 470, 471, 472	14 credits
Philosophy 255	5 credits
Theology and Religious Studies II	5 credits
Electives	10 credits
Total	180 credits

Allied Health Courses

AH 310	Cytotechnology Internship I	15 credits
AH 311	Cytotechnology Internship II	15 credits
AH 312	Cytotechnology Internship III	15 credits

AH 330	Diagnostic Ultrasound I	5 credits
AH 331	Diagnostic Ultrasound II	5 credits

Review of acoustical physics, modes of display, introduction to equipment. Pathophysiology of organ systems visualized by ultrasound and their ultrasonic appearance. Prerequisites: AH 355, PH 350. (330 winter, 331 spring)

AH 332	Echocardiography	5 credits
--------	------------------	-----------

Anatomy, physiology and pathological conditions of the adult and pediatric heart, their visualization and evaluation with real-time imaging, Doppler and M-mode echocardiography. Prerequisites: BL 200, 210; AH 355; PH 350. (winter)

AH 333	Methods of Cardiac Evaluation	2 credits
--------	-------------------------------	-----------

Integration of various modes of cardiac evaluation with echocardiography. Cardiac catheterization, ECG, auscultation and phonocardiography are covered in addition to other pertinent topics. The course serves to expand the student's knowledge of cardiac physiology and pathophysiology. Prerequisite: AH 332 (spring)

AH 334	Vascular Evaluation and Doppler	2 credits
--------	---------------------------------	-----------

Introduction to applications of Doppler ultrasound for the detection and evaluation of vascular disease. Vascular anatomy, physiology, and pathology. Additional methods of evaluating vascular disease which complement Doppler data. Prerequisites: AH 355, PH 350. (winter)

AH 355	Human Cross Section Anatomy	5 credits
--------	-----------------------------	-----------

Survey of cross section anatomy with emphasis on organs of body amenable to ultrasound diagnostic techniques. Prerequisites: BL 200 and 210 (or 270 and 271). (fall)

AH 370	Management and Professionalism	3 credits
--------	--------------------------------	-----------

Methods of budgeting, hiring and firing, and departmental administration. The technologist's role in relation to the patient, physician and staff and the study of medical ethics. (fall)

- AH 375 Ultrasound Instrumentation 4 credits**
Understanding the operation of diagnostic ultrasound equipment, including 'A' and B-mode, M mode and 2D scanners of the heart and real-time systems. Doppler principles and knobology. Prerequisite: PH 350. (spring)
- AH 391 Special Topics 1-5 credits**
AH 392 Special Topics 1-5 credits
AH 393 Special Topics 1-5 credits
- AH 396 Independent Study 1-5 credits**
AH 397 Independent Study 1-5 credits
AH 398 Independent Study 1-5 credits
- AH 410 Clinical Hematology 3 credits**
Automated and manual cell counting; cellular morphology; testing procedures related to red and white cell disorders. Prerequisite: permission (winter-odd numbered years)
- AH 415 Fundamentals of Immunology 3 credits**
Properties and occurrence of antigens and haptens; nature of antibodies, blood groups, and autoimmune response; transfusions; tumor specialties. Prerequisites: BL 200, 210 or 270, 271; CH 123, 133 and organic. AH 410 recommended. (spring-even numbered years)
- AH 420 Clinical Virology and Mycology 3 credits**
Medically important viruses, classification, tissue culture and serological methods of identification, viral immunology and chemotherapy. Terminology, taxonomy, laboratory diagnosis of pathogenic dermatophytes and systemic fungi. Prerequisites: BL 165, 166; CH 123, 133; BL 300 or 220. (fall-even numbered years)
- AH 473 Clinical Orientation to Ultrasound 10 credits**
Five days per week spent in a hospital environment, learning patient care, practical medical ethics, observing and performing ultrasound procedures and other diagnostic modalities. Prerequisite: permission. Corequisite: AH 483.
- AH 474 Clinical Experience in Ultrasound I 8 credits**
Five 8-hour days per week in an approved ultrasound department of a hospital. Prerequisite: permission. Program requires this course be taken three times for a maximum of 24 credits. Corequisite: AH 483.
- AH 483 Ultrasound Seminar I 2 credits**
Seminar to review and discuss cases performed by students. Seattle based students meet one day every other week. Students based outside Seattle area have projects assigned by correspondence, by the faculty and staff. Prerequisite: permission. Program requires this course be taken four times for a maximum of eight credits. Corequisite: 473 or 474.
- AH 484 Basic Science of Ultrasound 2 credits**
Project of professional interest assigned by faculty involving critical examination of current literature. Prerequisite: permission. Program requires this course be taken for a maximum of four credits. Corequisite with second and third quarter internship, AH 474.

Biology

David Brubaker, Ph.D., Chairperson

Objectives

Biology is not only a disciplined study of the sciences of life, but it is also a vital part of liberal education. A knowledge of biology contributes directly to an understanding of contemporary life and appreciation of human values. The study of biology provides insights into the nature of the human body, human social structure and behavior, as well as the ecological interrelationships, genetics and evolution, physiological functions, cellular and subcellular processes of all living things.

The Bachelor of Science in Biology degree offers students breadth and depth of experiences across the entire field of biology along with solid training in the supporting sciences. It is designed for preparation for graduate work in basic and applied fields of biology and for professional careers in fields such as medicine, dentistry, veterinary medicine, and careers in technical areas with biological applications. Students interested in premedical, predental, or preveterinary medicine should consult the Premed section of this bulletin. Those interested in a more interdisciplinary approach to the life sciences should consider a Bachelor of Science degree in General Science.

Majors interested in high school teaching may elect to complete a sequence of education courses leading to a secondary teacher certification. 190 credits are required for certification. Additional details are contained in the School of Education listing in this Bulletin of Information.

Degree Offered

Bachelor of Science in Biology

General Program Requirements

Students in biology must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin.

Departmental Requirements

Bachelor of Science in Biology — 60 credits of biology which must include BL 165, 166, 167, BL 350, 351, BL 370, BL 485, BL 235 or 252, BL 385 or 388, and BL 310, 325, or 330; at least one but no more than three credits of Seminar; and at least 5 credits of plant science beyond that included in BL 165, 166, 167. Also required are 30 credits in Chemistry, which must include CH 121, 122, 123, 131, 132, 133, 241, 242, 243, 251, 252; PH 105, 106, 107 or PH 200, 201, 202; and MT 131, or 134 and 135; 10 credits of either a foreign language (FR 105, 106 or the equivalent in another language) or statistics (PSY 201, 202).

Teaching Major (School of Education)

Secondary — 45 credits in biology which must include BL 165, 166, 167; BL 350, 351; BL 370; BL 252 or 235; and BL 200, 210 or BL 270, 271 or BL 385, 388; 5 credits of biology electives. Also required are at least 10 credits of chemistry (CH 101, 102 or the equivalent).

Elementary — 25 credits in biology which must include BL 165, 166, 167. 10 credits of biology electives.

Biology Supporting Area: 25 credits in biology, which must include BL 165, 166, 167; BL 370; and BL 252 or 235.

Undergraduate Minor — 30 credits in biology which must include BL 165, 166, 167; 15 credits of biology electives of which 10 credits must be in courses numbered 200 or above.

Bachelor of Science in Biology (suggested program sequence)

Freshman year

Biology 165, 166, 167 15 credits
Chemistry 121/131, 122/132, 123/133 15 credits
English 110/Philosophy 110 sequence 10 credits
Mathematics 131 5 credits

Sophomore year

Biology elective 5 credits
Chemistry 241/251, 242/252, 243 15 credits
Foreign Language or Statistics 10 credits
History 120/English 120 sequence 10 credits
Systematics choice (BL 235 or 252) 5 credits

Junior year

General Ecology 5 credits
Philosophy 220/Social Science I sequence ... 10 credits
Social Science II 5 credits
Physics 105, 106, 107 15 credits
Physiology choice (BL385 or 388) 5 credits
Theology and Religious Studies I 5 credits

Senior year

Biological Structure choice
(BL 310, 325 or 330) 5 credits
Biology Electives 9 credits
Cell Physiology 5 credits
Genetics plus Genetics Lab 5 credits
Fine Arts 120 5 credits
Interdisciplinary course 3 credits
Philosophy 255 5 credits
Senior Synthesis 3 credits
Theology and Religious Studies II 5 credits
Total 180 credits

Biology Courses

- BL 101 Principles of Biology** 5 credits
Important areas of biology, beginning at the cellular level and culminating with a consideration of interactions and changes in natural populations. Four lecture and three laboratory hours per week. (spring)
- BL 165 General Biology I** 5 credits
BL 166 General Biology II 5 credits
BL 167 General Biology III 5 credits
Survey of the biological world, concepts and principles. 1—cell biology, metabolism, respiration, photosynthesis, genetics. 2—evolution, diversity and comparisons of groups of living organisms. 3—development and differentiation; comparative functions of tissues and organ systems; animal behavior; ecology. Four lecture and three laboratory hours per week. Prerequisite: High School Algebra and Chemistry. BL 165 prerequisite to BL 166 and 167. (I—fall, winter, II—winter, III—spring.)
- BL 182 Elementary Human Anatomy and Physiology** 5 credits
A one-quarter survey of structure and function of the human body. Two three-hour lecture-laboratory sessions per week. (fall)
- BL 185 Biology of Human Sexuality** 5 credits
The development of sexuality of the human being from in utero to old age. Emphases are on family relationships, bonding, healthy modeling for younger persons,

biological aspects of conception, intrauterine development, and birthing. Practical problems are considered in each of these areas. (winter)

- BL 190 Principles of Physical Anthropology 5 credits**
Evidence for primate evolution from the fossil record and from the morphological, physiological, genetic and behavioral variability of living primates. Two 3 hour lecture-laboratory sessions per week. (fall)
- BL 200 Anatomy and Physiology I 5 credits**
Major structural and functional systems of the human body. Cells, tissue, bone, muscle and nervous system. Laboratory emphasis on microscopic and gross anatomy. Credits not applicable for biology major. Three lecture and four laboratory hours per week. (fall)
- BL 210 Anatomy and Physiology II 5 credits**
Major structural and functional systems of the human body. Digestive, circulatory, respiratory, endocrine, urinary and reproductive systems. Physiological interactions among systems. Laboratory emphasis on physiology. Credits not applicable for biology major. Three lecture and four laboratory hours per week. Prerequisite: BL 200. (winter)
- BL 220 Microbiology 5 credits**
Introduction to medical microbiology. Four lecture and three laboratory hours per week. Credits not applicable for biology major. Prerequisite: BL 210. (winter)
- BL 235 Invertebrate Zoology 5 credits**
Survey of invertebrate phyla including their anatomy, morphology, taxonomy and ecology. Four hours lecture and three hours laboratory per week. One weekend field trip. Prerequisites: BL 165, 166, 167. (spring)
- BL 241 Vertebrate Zoology 5 credits**
Structure, physiology, ecology and behavior of Hemichordata and Chordata. Three lectures and four laboratory hours per week. Prerequisites: BL 165, 166, 167. (fall, even years.)
- BL 252 Taxonomy of Flowering Plants 5 credits**
Native flora as an introduction to taxonomy, involving the principal orders and families of flowering plants. Three lecture and four laboratory hours per week. Prerequisites: BL 165, 166. (spring, odd years)
- BL 270 Human Structure and Function I 5 credits**
BL 271 Human Structure and Function II 5 credits
I. Integrated study of microscopic and gross structure and the functions of the human organism; basic tissues, skeletal, muscular, nervous, circulatory and respiratory systems. II. Digestion and metabolism, the excretory, endocrine and reproductive systems. Introduction to regional anatomy. Three lectures and four laboratory hours per week. Prerequisites: BL 165, 166, 167, CH 101, 102 for 270; 270 for 271. (I-winter, II-spring)
- BL 291 Special Topics 1-5 credits**
BL 292 Special Topics 1-5 credits
BL 293 Special Topics 1-5 credits
- BL 296 Independent Study 1-5 credits**
BL 297 Independent Study 1-5 credits
BL 298 Independent Study 1-5 credits
- BL 300 Microbiology 5 credits**
Morphology, physiology and distribution of microorganisms. Three lecture and four laboratory hours

per week. Prerequisite: BL 210 or 275 or 388 or 485. (winter)

- BL 305 Pathophysiology 5 credits**
A conceptual study of the derangements of the physiologic mechanisms and the compensatory responses involved in the disease process. Special attention is given to correlations between physiological changes and signs, symptoms and the development of basic pathology at the cellular, molecular and systemic levels. Forms the basis for the rationale of medical and nursing intervention. Three lecture and three laboratory hours per week. Prerequisites: BL 200 and 210, or BL 270 and 271. Recommended: BL 310, 330. (winter)
- BL 310 Comparative Vertebrate Embryology 5 credits**
Early development of the frog and chick with consideration of the early development of the human. Three lecture and four laboratory hours per week. Prerequisites: BL 165, 166, 167. (fall)
- BL 321 Vertebrate Natural History 5 credits**
Ecology, behavior, life history and taxonomy of vertebrate animals, with emphasis on those in the Pacific Northwest. Three lecture and four laboratory hours per week. Prerequisites: BL 165, 166, 167. (spring)
- BL 325 Comparative Anatomy of the Vertebrates 5 credits**
Comparative study of the structures of the integumentary, muscular, skeletal, digestive, respiratory, excretory, reproductive, circulatory, and nervous systems of selected vertebrates with emphasis on evolutionary relationships between organisms and development of structures within individuals. Prerequisites: BL 165, 166, 167. Recommended: BL 310. (winter)
- BL 330 Comparative Vertebrate Histology 5 credits**
Study of the fundamental body tissues. Three lecture and four laboratory hours per week. Prerequisite: BL 271; Recommended BL 310 or 325. (winter)
- BL 350 Genetics 3 credits**
Classical and molecular principles of the transfer of hereditary information. Three lecture hours per week. Prerequisites: BL 165, 166, 167. (winter)
- BL 351 Genetics Laboratory 2 credits**
Experience in genetic experimentation. Four laboratory hours per week. Prerequisite: BL 350 or taken concurrently. (winter)
- BL 360 Parasitology 5 credits**
Study of parasitic protozoa, helminths and arthropods. Three lecture and four laboratory hours per week. Prerequisites: BL 165, 166, 167; Recommended: BL 235. (spring)
- BL 370 General Ecology 5 credits**
Study of the interactions between organisms in biological communities, and the relationship of biological communities to the environment. Topics include: population growth and regulation, competition and predation, community energetics and nutrient cycling, comparative ecosystem analysis, and the evolution of ecosystems. Laboratory exercises include: field sampling techniques, experimental population manipulations, and ecosystem modeling. Four lecture and three laboratory hours per week. One weekend field trip. Prerequisites: BL 235 or 252; MT 111. (fall)

BL 371 Field Ecology **3 credits**
Field studies including techniques used in ecological research and analysis. Two hours of lecture and three hours of laboratory per week, and one weekend field trip. Prerequisites: BL 165, 166, 167; Recommended: BL 252, 370. (spring)

BL 375 Marine Biology
Study of the marine environment and the animals and plants inhabiting it. Four lecture and three laboratory hours per week and one weekend field trip. Prerequisites: BL 165, 166, 167, 235. (spring, even years)

BL 385 Plant Physiology **5 credits**
Study of the function of plants, with emphasis on the wide range of physiological process that may contribute to success and survival of plants in their environment. Transport mechanisms; water and mineral management; responses to light, including photosynthesis, photoperiodism, and photomorphogenesis; functions of plant hormones; responses to environmental stresses; events in development. Four lecture and three laboratory hours per week. Individual project. Prerequisites: BL 165, 166, 167; CH 241/251. (spring)

BL 388 Animal Physiology **5 credits**
Study of the function of animals, particularly vertebrates, with emphasis on a wide variety of functional processes that contribute to the success and survival of animals in their respective environments. The course is centered about control theory: the precise mechanisms of internal control, and how these systems interact to sustain the animal in a wide range of environments. Three lecture and four laboratory hours per week. Prerequisites: BL 165, 166, 167, CH 241, 251. (fall)

BL 430 Endocrinology **5 credits**
Structure and function of the glands of internal secretion of vertebrates. Prerequisite: Advanced standing in biology and CH 242/252. (fall, odd years)

BL 440 Neurobiology **5 credits**
Pathways of the vertebrate nervous system, gross and microscopic study of the human brain and spinal cord. Three lecture and four laboratory hours per week. Prerequisites: BL 200, 210 or 270, 271 or 310, 325. (fall, even years)

BL 460 Limnology **5 credits**
Study of freshwater systems and the plants and animals inhabiting them, with emphasis on the invertebrate animals. Four lecture and three laboratory hours per week, one weekend field trip. Prerequisites: BL 235, CH 123, 133. Recommended: 370. (spring)

BL 465 Population Biology: Evolution **5 credits**
Causes and mechanisms of genetic adaptation of organisms. Five lectures per week. Prerequisite: BL 350. (spring)

BL 470 Entomology **5 credits**
Structure, function, classification, ecology, behavior and economic importance of insects. Three lecture and four laboratory hours per week. Prerequisite: BL 235. (spring, odd years)

BL 485 Cell Physiology **5 credits**
Advanced treatment of cellular structure and function from a molecular approach. Topics include fundamental cellular processes: membrane transport, bioenergetics, cell division, protein synthesis and secretion, gene regulation, and cell mortality. Emphasis on biochemical laboratory techniques. Four lecture and three laboratory hours per week. Prerequisites: BL 165, 166, 167; CH 243. Recommended: CH 455; MT 111. (winter)

BL 486 Seminar **1 credit**

BL 487 Seminar **1 credit**

BL 488 Seminar **1 credit**

Problems in modern biology. Prerequisite: Junior or Senior standing. (fall, winter, spring)

BL 491 Special Topics **1-5 credits**

BL 492 Special Topics **1-5 credits**

BL 493 Special Topics **1-5 credits**

BL 496 Independent Study **1-5 credits**

BL 497 Independent Study **1-5 credits**

BL 498 Independent Study **1-5 credits**

BL 499 Undergraduate Research **1-5 credits**

Literature and laboratory investigation of a basic research problem. Preparation of a written report. Prerequisite: permission of chairperson (fall, winter, spring)

Chemistry

David L. Thorsell, Ph.D., Chairperson

Objectives

Programs offered by the Chemistry department are designed to prepare the student for professional work in the various fields of basic and applied chemistry. The Bachelor of Science in Chemistry degree program is recommended to students who wish to prepare themselves for graduate studies in chemistry, or for medical school. By completion of CH 415 and nine additional approved credits in chemistry, beyond the minimum requirements for this degree, the student is eligible for certification of the degree by the Committee on Professional Training of the American Chemical Society.

The Clinical Chemistry degree program is suited to those students interested in a career in the important field of clinical chemistry. The degree also provides preparation for graduate studies in clinical chemistry, biochemistry, or (with additional biology) medicine or dentistry.

The Bachelor of Arts degree is recommended for those desiring a solid foundation in chemistry along with greater freedom of choice for elective courses from programs such as education, business, engineering or other fields within the University.

Majors interested in high school teaching may elect to complete a sequence of education courses leading to secondary teacher certification. 190 credits are required for certification. Additional details are contained in the School of Education listing in this Bulletin of Information.

Degrees Offered

Bachelor of Arts
Bachelor of Science in Chemistry
Bachelor of Science in Clinical Chemistry

General Program Requirements

Students in chemistry must satisfy the core curriculum requirements of the University given on pages 26-28 of this Bulletin.

Departmental Requirements

Bachelor of Arts — 45 credits of chemistry which must include CH 121, 122, 123, 131, 132, 133, 219, 231, 232, 233, 234, 361 and 363, plus electives from the following: CH 243, 260, 360, 362, 364, 415, 436, 455, 461, 499, and special topics or independent study courses; 15 credits of mathematics including two quarters of calculus and 15 credits of physics.

Bachelor of Science in Chemistry — 60 credits in chemistry which must include CH 121, 122, 123, 131, 132, 133, 219, 326, 335, 336, 337, 345, 346, 347, 360, 361, 362, 363, 364; MT 134, 135, 136; PH 200, 201, 202; and CSC 113 or 114. A student is eligible for certification of the degree by the American Chemical Society if CH 415 and nine additional credits of approved advanced work in chemistry are taken. For students planning graduate work. MT 232, 233, 234 and PH 204, 205 are strongly recommended as electives.

Bachelor of Science in Clinical Chemistry — 67 credits in chemistry which must include CH 121, 122, 123, 131, 132, 133, 219, 231, 232, 233, 234, 326, 361, 362, 363, 364, 455, 470, 471, 472, 475, 476, 481, 482, 483; MT 134, 135, 136; CSC 113 or 114; and one year of introductory physics. Recommended electives: CH 360; BL 300, 330 and 350.

Teaching Major (School of Education) - Secondary — 45 credits of chemistry are required which must include CH 121, 122, 123, 131, 132, 133, 219, 260, 231, 232, 233, 234, one quarter of physical chemistry (CH 361, 363) or biochemistry (CH 455), also one year of physics (PH 105, 106, 107 or 200, 201, 202) and mathematics including calculus (MT 111, 115, 134, 135 or MT 111, 115, 131 and CSC 113 or 114). Courses in biology are also recommended.

Teaching Minor (School of Education) - Secondary — 31 credits in chemistry consisting of CH 121, 122, 123, 131, 132, 133, 219, 231, 232, 233, 234, and 260. PH 105 and MT 111 are also required. PH 106, 107 and CSC 113 or 114 are recommended.

Undergraduate Minor — 35 credits in chemistry which must include CH 121, 122, 123, 131, 132, 133, 219, 231, 232, 233, 234.

Bachelor of Arts

Freshman year

Chemistry 121, 122, 123, 131, 132, 133	15 credits
English 110/Philosophy 110 sequence	10 credits
History 120/English 120 sequence	10 credits
Electives	10 credits

Sophomore year

Chemistry 231, 232, 233, 234	10 credits
Fine Arts 120	5 credits
Mathematics 111, 115, 134, 135	17 credits
Philosophy 220/Social Science I sequence ...	10 credits
Electives	3 credits

Junior year

Chemistry 219	5 credits
Ethics	5 credits
Physics 105, 106, 107	15 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits
Electives	10 credits

Senior year

Chemistry 361 and 363	5 credits
Chemistry Electives	10 credits
Interdisciplinary course	5 credits
Senior Synthesis	3 credits
Theology and Religious Studies II	5 credits
Electives	17 credits
Total	180 credits

Bachelor of Science in Chemistry

Freshman year

Chemistry 121, 122, 123, 131, 132, 133	15 credits
English 110/Philosophy 110 sequence	10 credits
Mathematics 134, 135, 136	15 credits
Physics 200	5 credits

Sophomore year

Chemistry 335, 336, 337, 345, 346, 347	15 credits
Computer Science 113 or 114	5 credits
Fine Arts 120	5 credits
History 120/English 120 sequence	10 credits
Physics 201, 202	10 credits

Junior year

Chemistry 219, 360, 361, 362, 363, 364	18 credits
Ethics	5 credits
Philosophy 220/Social Science I sequence ...	10 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits
Electives	2 credits

Senior year

Chemistry 326	5 credits
Chemistry Electives	7 credits
Interdisciplinary course	5 credits

Senior Synthesis	3 credits
Theology and Religious Studies II	5 credits
Electives	20 credits
Total	180 credits

Bachelor of Science in Clinical Chemistry

Freshman year

Chemistry 121, 122, 123, 131, 132, 133	15 credits
English 110/Philosophy 110 sequence	10 credits
Fine Arts 120	5 credits
Mathematics 134, 135, 136	15 credits

Sophomore year

Chemistry 219, 231, 232, 233, 234	15 credits
Computer Science 113 or 114	5 credits
History 120/English 120 sequence	10 credits
Physics 105, 106, 107	15 credits

Junior year

Chemistry 326, 361, 362, 363, 364, 455	20 credits
Ethics	5 credits
Philosophy 220/Social Science I sequence ...	10 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits

Senior year

Chemistry 470, 471, 472, 475, 476, 481, 482, 483	17 credits
Interdisciplinary course	5 credits
Senior Synthesis	3 credits
Theology and Religious Studies II	5 credits
Electives	15 credits
Total	180 credits

Chemistry Courses

Credit may be received for only one of each of the following pairs of courses: CH 231/335; 232/336; 233/345; 234/346. A student who completes CH 231 with a grade of B or better may enroll in CH 336 with the permission of the instructor.

CH 101	Introduction General Chemistry	5 credits
	Survey of inorganic chemistry treating the basic principles and descriptive material relevant to the health sciences. Four lecture and three laboratory hours per week. (fall, winter)	
CH 102	Introductory Organic and Biochemistry	5 credits
	Organic chemistry and introduction to biochemistry with application to the health sciences. Four lecture and three laboratory hours per week. Prerequisite: CH 101 or equivalent. (winter, spring)	
CH 110	Fundamentals of Chemistry	5 credits
	An introduction to chemistry designed for students with little or no preparation in science. Also for students desiring a review of high school chemistry prior to enrolling in CH 101 or CH 121. (fall, spring)	

- CH 121 **General Chemistry 1** 4 credits
 CH 122 **General Chemistry 2** 4 credits
 CH 123 **General Chemistry 3** 4 credits

1. Atomic and molecular structure, weight relationships, states of matter, thermodynamics, periodic properties. 2. Solutions, kinetics, chemical equilibrium, acids, bases, solubility equilibria, thermodynamics, hydrogen, oxygen and water. 3. Transition metals, kinetics, oxidation, reduction, electrochemistry, chemistry of the nonmetals, the metallic state, nuclear chemistry. Four lecture hours per week. Prerequisites: CH 110 or high school chemistry for CH 121; 121 for 122; 122 for 123; corequisites: 131 for 121; 132 for 122; 133 for 123. (121, fall, winter; 122, winter, spring; 123, fall, spring).

- CH 131 **General Chemistry Lab 1** 1 credit
 CH 132 **General Chemistry Lab 2** 1 credit

Introduction to basic laboratory procedures and safety, practice in modes of scientific inquiry, including observation, measurement, data collection, interpretation and evaluation of results and reporting. Three hours per week. Prerequisite: CH 131 for 132. Corequisites: CH 121 for 131; 122 for 132. (131, fall, winter; 132, winter, spring).

- CH 133 **General Chemistry Lab 3** 1 credit

Introduction to qualitative chemical analysis on a semi-micro scale. Experimentation in the chemistry of ionic systems and basic quantitative analytical methods. Four hours per week. Corequisite: CH 123; Prerequisite: CH 132. (spring, fall)

- CH 219 **Quantitative Analysis** 5 credits

Theory, methods and techniques of gravimetric, volumetric, electro-analytical and chromatographic procedures in quantitative analysis; introductory statistics. Two lecture and eight laboratory hours per week. Prerequisites: CH 123 and 133. (fall)

- CH 231 **Fundamental Organic Chemistry 1** 4 credits
 CH 232 **Fundamental Organic Chemistry 2** 4 credits

Structure, bonding, nomenclature, reactions and synthesis of organic compounds: 1) alkanes, alkenes,

alkynes, alkyl halides, aromatic and heteroaromatic compounds; 2) alcohols, ethers, phenol, thiols, aldehydes, ketones, carboxylic acids and derivatives, amines, carbohydrates, amino acids and proteins. Spectroscopic applications. Each is four lecture hours per week. Prerequisites: CH 123, 133 for 231; 231 for 232. (231 winter; 232 spring) (Not recommended for premed students).

- CH 233 **Fundamental Organic Chemistry Lab 1** 1 credit
 CH 234 **Fundamental Organic Chemistry Lab 2** 1 credit

Techniques used in synthesis, isolation and identification of organic compounds. Each is three laboratory hours per week. CH 231 corequisite for 233; CH 232 corequisite for 234; CH 233 prerequisite for 234. (233 winter; 234 spring)

- CH 260 **Laboratory Safety** 1 credit

Important aspects of hazardous chemicals and laboratory safety including pertinent laws and regulations. Establishing and maintaining a safe working environment in the laboratory. Prerequisite: One quarter of organic chemistry.

- CH 291 **Special Topics** 1-5 credits
 CH 292 **Special Topics** 1-5 credits
 CH 293 **Special Topics** 1-5 credits

- CH 326 **Instrumental Analysis** 5 credits

Theory and techniques of instrumental methods representative of spectrophotometric electroanalytical and chromatographic techniques. Two four-hour laboratory periods per week including discussion of principles. Prerequisites: CH 219, 361, 363.

- CH 335 **Organic Chemistry 1** 3 credits

- CH 336 **Organic Chemistry 2** 3 credits

- CH 337 **Organic Chemistry 3** 3 credits

Structural theory; functional groups; nomenclature; properties, applications, reactions and syntheses of organic compounds; stereochemistry; reaction mechanisms; kinetic and thermodynamic properties of reactions. 1. Hydrocarbon compounds; 2. Oxygen-containing compounds; 3. Nitrogen containing compounds and biomolecules. Three lecture hours per week. Prerequisites: CH 123 for 335, 335 for 336, 336 for 337. (335 fall, 336 winter, 337 spring)

- CH 345 **Organic Chemistry Lab 1** 2 credits

Theory and practice of laboratory techniques; experimental study of properties of organic compounds; introduction to organic synthesis. Four hours per week. Corequisite: CH 335 (fall)

- CH 346 **Organic Chemistry Lab 2** 2 credits

Application of laboratory techniques in simple and multistep syntheses; qualitative and quantitative measurements of properties of organic compounds; determination of kinetic and thermodynamic parameters. Four hours per week. Prerequisite: CH 345; Corequisite: CH 336. (winter)

- CH 347 **Organic Chemistry Lab 3** 2 credit

Instrumental and classical qualitative techniques applied to the identification of organic compounds. Prerequisite: CH 346 (or 234) Corequisite: CH 337 (or prerequisite 232)

CH 360	Physical Chemistry 1	3 credits
CH 361	Physical Chemistry 2	3 credits
CH 362	Physical Chemistry 3	3 credits
	1. Quantum chemistry, spectroscopy, photochemistry. 2. States of matter, thermodynamics, equilibrium, kinetics. 3. Theory of reaction rates, thermodynamics of solutions, phase equilibrium, electrochemistry, statistical thermodynamics. Three lectures per week. 1. may be taken either before or after 2 and 3. Prerequisites: CH 123, 133, MT 136 and one year of physics for 360 and 361; 361 for 362. (1-fall, 2-winter, 3-spring)	
CH 363	Physical Chemistry Laboratory 1	2 credits
CH 364	Physical Chemistry Laboratory 2	2 credits
	Quantitative measurements of physical chemical phenomena, detailed data analysis, evaluation. Four laboratory hours per week. Prerequisites: CH 219 for 363; 363 for 364. CH 361 is pre-or co-requisite for 363; CH 362 is a pre- or co-requisite for 364. (1-winter; 2-spring)	
CH 391	Special Topics	1-5 credits
CH 392	Special Topics	1-5 credits
CH 393	Special Topics	1-5 credits
CH 396	Independent Study	1-5 credits
CH 397	Independent Study	1-5 credits
CH 398	Independent Study	1-5 credits
CH 415	Advanced Inorganic Chemistry	3 credits
	Advanced topics in inorganic chemistry with particular attention to the transition metals and their compounds. Prerequisites: CH 360 and 361. (Alternate years with CH 436)	

CH 436	Advanced Organic Chemistry	3 credits
	Advanced topics in organic chemistry. Directed reading and/or lectures. Prerequisite: One year of physical and one year organic chemistry. (Alternate years with CH 415)	
CH 455	Biochemistry	5 credits
	Composition and metabolism of carbohydrates, lipids, proteins, enzymes and nucleic acids. Four lecture and three laboratory hours per week. Prerequisites: CH 232, 234 or 337, 347. (fall)	
CH 460	Advanced Physical Chemistry	3 credits
	Quantum chemistry, vibrational and rotational energies, absorption and emission of radiation, molecular symmetry, group theory, electronic spectra. Prerequisite: One year of physical chemistry.	
CH 470	Clinical Chemistry 1	3 credits
CH 471	Clinical Chemistry 2	3 credits
CH 472	Clinical Chemistry 3	3 credits
	1. Theory and techniques of spectrophotometry, atomic absorption spectroscopy, flame photometry, fluorimetry and infrared analysis; electrophoretic techniques and densitometry; specific ion electrodes; automated analysis in clinical laboratory use. 2. Critical comparison of analytical methodologies for carbohydrates, lipids, electrolytes, enzymes, hemoglobins and porphyrins; emphasis on biosynthesis, metabolism, analytical methods of importance, normal ranges, and pathological conditions leading to abnormalities, statistics and normal values. 3. Toxicology, steroids, catecholamines, gas chromatographic and radioimmunoassay techniques, renal and hepatic function assessment. Two lectures per week. Prerequisites: CH 219, 455. (Offered in sequence: fall, winter, spring)	
CH 475	Clinical Chemistry Laboratory 1	1 credit
CH 476	Clinical Chemistry Laboratory 2	1 credit
	Practical experience in instrumental techniques and analytical methodologies of importance to the clinical chemist, including colorimetry, atomic absorption, gas chromatography, infrared, enzymatic assays and statistical treatment of data. Three laboratory hours per week. Prerequisite: Simultaneous enrollment in CH 470 or CH 471. (Offered in sequence: fall, winter)	
CH 481	Clinical Practice	2 credits
CH 482	Clinical Practice	2 credits
CH 483	Clinical Practice	2 credits
	Practical experience in approved hospital clinical laboratory. Six laboratory hours per week. Mandatory CR/NC. Prerequisite: Permission.	
CH 491	Special Topics	1-5 credits
CH 492	Special Topics	1-5 credits
CH 493	Special Topics	1-5 credits
	Directed reading and/or lecture at an advanced level.	
CH 496	Independent Study	1-5 credits
CH 497	Independent Study	1-5 credits
CH 498	Independent Study	1-5 credits
CH 499	Undergraduate Research	1-6 credits
	Literature and laboratory investigation of a basic research problem. Four laboratory hours per week per credit.	

Civil Engineering

Dale A. Carlson, Ph.D., Chairperson

Objectives

Civil Engineering is the profession in which a knowledge of the mathematical and physical sciences gained by study, experience and practice is applied with judgment to develop ways to utilize economically the materials and forces of nature for the progressive well-being of mankind in creating, improving and protecting the environment, in providing facilities for community living, industry and transportation, and in providing structures for the use of mankind.

The Civil Engineering Department is concerned with the education of those who wish to be professional Civil Engineers. The Civil Engineering profession is a calling in which special knowledge and skills are used in the service of mankind, and in which the successful expression of creative ability and the application of professional knowledge are primary rewards. This implies the application of the highest standards of excellence in education, in performance of services and in ethical conduct. It also implies that specialization in engineering subjects is integrative with courses which speak to the arts and culture of civilization and to the study of natural systems.

To accomplish these ends, analysis and design courses in the fields of hydraulic, structural, transportation and sanitary engineering are offered in addition to preparatory courses in sciences and basic mechanics. A broad base of theory is provided along with sufficient quantity of current practices of the profession.

Degrees Offered

Bachelor of Science in Civil Engineering

General Program Requirements

Students in Civil Engineering must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin, except for the requirement in Fine Arts. Civil Engineering students take CE 402 to substitute for the requirement in Social Science II.

Departmental Requirements

Bachelor of Science in Civil Engineering — 75 credits in civil engineering which must include CE 221, 222, 311, 323, 324, 331, 335, 337, 351, 353, 371, 402, 445, 473, 487, 488, and 489. Also required are MT 134, 135, 136, 232, 233 and 234; ME 105, 107, 210, 230, and 321; PH 200, 201, and 202; CH 121, 131, CSC 230 and a 5 credit approved science elective. Departmental Candidacy must be achieved prior to being granted entry into CE 323. Candidacy is achieved by successfully completing all required 100 and 200 level CE, CH, CSC, ME, MT, and PH courses with a combined grade point average of at least 2.50, as well as EN 110. Only courses graded C (2.0) or better may be transferred into the department to offset degree requirements. 300 and 400 level courses have Departmental Candidacy in one of the engineering departments as well as the specified courses as prerequisites. Taking the Washington State Engineer-in-Training examination is required for the degree. This degree is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

Bachelor of Science in Civil Engineering

Freshman year

English 110/Philosophy 110 sequence	10 credits
History 120	5 credits
Mathematics 134, 135, 136	15 credits
Mechanical Engineering 105, 107	5 credits
Physics 200, 201	10 credits

Sophomore year

Chemistry 121, 131	5 credits
Civil Engineering 221, 222	6 credits
English 120	5 credits
Mathematics 232, 233, 234	10 credits
Mechanical Engineering 210, 230	10 credits
Philosophy 220	5 credits
Physics 202	5 credits
Science Elective	5 credits

Junior year

Civil Engineering 311, 323, 324, 331, 335, 337, 351, 353, 371	30 credits
Computer Science 230	3 credits
Mechanical Engineering 321	4 credits
Social Science I	5 credits
Theology and Religious Studies I	5 credits

Senior year

Civil Engineering 402, 445, 473, 487, 488, 489 and electives	39 credits
Ethics	5 credits
Theology and Religious Studies II	5 credits
Engineer-in-Training Examination	0 credits
Total	192 credits

Civil Engineering Courses

CE 221 Strength of Materials I 4 credits
Mechanics of solid deformable bodies; relationships between the external forces acting on elastic bodies and the stresses and deformations produced. Members subjected to tension, compression, flexure and torsion. Four lecture hours per week. Prerequisites: ME 230, MT 232, 233. (fall, spring)

CE 222 Strength of Materials Laboratory I 2 credits
Laboratory experiments on the mechanics of solid deformable bodies and the relationships between tension, compression, flexure and torsion. Four hours per week. Pre- or corequisite: CE 221. (fall, spring)

CE 291 Special Topics 1-5 credits

CE 292 Special Topics 1-5 credits

CE 293 Special Topics 1-5 credits

CE 311 Engineering Measurements 5 credits
Engineering measurements as applied to civil engineering. Planning for surveys, introduction to photogrammetry. Public Land and State Plane Coordinate Systems. Four lecture and one laboratory period per week. Prerequisites: MT 111, 115, ME 105. (spring)

CE 323 Strength of Materials II 4 credits
Continuation of the mechanics of solid deformable bodies. Beam topics, stability of columns, combined stresses and strains, fatigue and energy relationships. Prerequisites: CE 221, 222, MT 234. (fall)

CE 324 Strength of Materials Laboratory II 2 credits
Laboratory experiments on the mechanics of solid deformable bodies and the stresses and deformations produced. Members under tension, compression, torsion, flexure and buckling. Composite structures. Fatigue. One lecture and four laboratory hours per week. Pre- or co-requisite: CE 323. (fall, winter)

CE 331 Fluid Mechanics 4 credits
Fluid statics and dynamics. Topics include fluid properties, continuity equation, Euler's equation; laminar and turbulent flow regimes. Prerequisites: ME 230, MT 234. (fall, winter)

CE 335 Applied Hydraulics 4 credits
Weekly student projects in the field of incompressible flow; pump design, hydrographic studies, graphical analysis of overflow or spillway design, model studies, open channel flow. Prerequisite: CE 331. (winter)

CE 337 Fluids Laboratory 2 credits
Experimental calibration of various flow meters, loss coefficients and pipe friction factors. Experimental verification of various principles of fluid mechanics. One lecture and one four-hour laboratory per week. Prerequisite: CE 331. (winter, spring)

CE 351 Engineering Geology 3 credits
Elementary study of the material structure and internal condition of the earth and of the physical and chemical processes at work upon and within it. Three lecture hours per week. (fall)

CE 353 Soil Mechanics and Foundations 3 credits
Engineering properties of soils; consolidation, shear strength, permeability. Fundamentals of slope stability and earth pressure theories. Fundamentals of foundation design. Two lecture and one laboratory session per week. Prerequisites: CE 221, 222, 351. (winter)

CE 371 Water Resources I 3 credits
Conception, planning, design, construction, and operation of facilities to control and utilize water. Stream and flood analysis. Prerequisite: CE 331. (spring)

CE 391 Special Topics 1-5 credits

CE 392 Special Topics 1-5 credits

CE 393 Special Topics 1-5 credits

CE 402 Engineering Economy 3 credits
Elements of immediate and long-term economy of facility design, construction, and maintenance; interest rates, present worth and prospective return on investment; depreciation and replacement studies. Prerequisite: Senior standing. (fall, winter)

CE 403 Project and Systems Management 5 credits
Introduction to project and construction management. How to plan and organize these services. Network scheduling, contracting procedures, risk analysis and estimating. Prerequisite: Senior standing. (spring)

CE 445 Structural Mechanics 5 credits
Classical and matrix methods in structural mechanics. Basic structural theory in both classical and matrix notation. Introduction to structural computer programs. Prerequisites: CE 323, 324. (fall)

CE 447 Structural Design I 5 credits

CE 449 Structural Design II 5 credits
Design of basic structural members and connections. Specific structural design building codes. I. Steel design. II. Reinforced and prestressed concrete design. Prerequisites: CE 445 for I, 447 for II. (I. winter, II. spring)

- CE 461 Introduction to Urban Transportation Engineering** **4 credits**
Presentation of urban modes. Introduction to planning. Environmental issues and citizen participation. Three lectures and three engineering design laboratory hours per week. Prerequisite: Senior standing. (fall)
- CE 463 Transportation Planning** **4 credits**
Historical background. The planning process. Goals and objectives. Models. Impact of transportation decisions. Benefit/cost. Legal and political issues. Three lectures and three engineering design laboratory hours per week. Prerequisite: CE 461 (winter)
- CE 465 Fundamentals of Traffic Engineering** **3 credits**
Terminology. Traffic control studies. Traffic control concepts on urban street systems. Surveillance. Detectors. Local controllers. Design plans and specifications. Three lectures per week. Prerequisite: CE 463. (spring)

- CE 466 Traffic Engineering Laboratory** **2 credits**
Experiments with the 15 Eagle Signal Traffic Controllers mounted on a frame to control the traffic flow in street system. The present street system is Waycross, Georgia. One four hour laboratory per week. Corequisite: CE 465. (spring)
- CE 472 Water Resources II** **4 credits**
Geologic and hydrologic occurrence of ground water, underground flow, and ground water supply. Other selected related topics. Prerequisite: CE 371. (fall)
- CE 473 Sanitary Engineering I** **5 credits**
CE 474 Sanitary Engineering II **5 credits**
I. Examination of water and waste. Physical treatment processes. Laboratory experiments in microbial, and chemical examination of water and wastes. Chemical and biological treatment, sludge disposal, disinfection, reuse of water, comprehensive planning. Four lectures and one laboratory per week. II. Stream pollution and self-purification. Analysis of water and waste water. Four lectures per week plus one laboratory field trip each week. Prerequisites: CH 121, 131 for 473; CE 473 for 474. (I. fall, II. winter)
- CE 475 Industrial and Hazardous Waste Treatment** **5 credits**
Design of waste treatment systems for industrial processes, especially as related to the Northwest industries. Four lectures and one laboratory per week. (spring)
- CE 481 Cold Regions Engineering** **4 credits**
Engineering considerations in design of structures, utilities, and other facilities under cold climate conditions. Prerequisite: Senior Civil Engineering standing. (fall)
- CE 487 Engineering Design I** **4 credits**
Design process, problem solving and decision making, modeling and simulation, optimization, economics, forecasting, reliability. Four lecture hours per week. Prerequisite: Senior standing. Corequisite: CE 402. (fall)
- CE 488 Engineering Design II** **4 credits**
CE 489 Engineering Design III **4 credits**
Group design project focusing on the integrative aspects of engineering subject matter. The project should focus on: (1) philosophy of design, a creative approach, and a comprehensive design project; planning, organizing and leading an engineering project, exercising judgment and considering economic factors; and (2) integrated aspects of creative design and analysis; case studies; design of a novel device or system. Two lecture and four design hours per week. Prerequisite: CE 487 for 488; 488 for 489. (488, winter; 489, spring)
- CE 491 Special Topics** **1-5 credits**
CE 492 Special Topics **1-5 credits**
CE 493 Special Topics **1-5 credits**
- CE 496 Independent Study** **1-5 credits**
CE 497 Independent Study **1-5 credits**
CE 498 Independent Study **1-5 credits**

Computer Science

Everald E. Mills, Ph.D., Director

Objectives

The Computer Science Program provides four major functions. A rigorous Bachelor of Science in Computer Science degree prepares students for graduate study or professional careers involving computers and their applications in scientific and technical areas. A more flexible Bachelor of Arts degree prepares students for professional careers involving computer applications in less technical areas such as business or education. A minor in Computer Science provides students pursuing degrees in other areas with a solid background in the fundamental concepts and elementary applications of computer science. Finally, a suite of Computer Science courses caters to computer literacy for the general student population.

Majors interested in high school teaching may elect to complete a sequence of education courses leading to secondary teacher certification. 190 credits are required for certification. Additional details are contained in the School of Education listing in this Bulletin of Information.

Degrees Offered

Bachelor of Arts
Bachelor of Science in Computer Science
Master of Software Engineering — See Graduate Bulletin

General Program Requirements

Students in Computer Science must generally satisfy the core curriculum requirements of the University, as given on pages 26-28 of this Bulletin.

Advanced Placement Credit

Students who have taken the Advanced Placement Test in Computer Science may petition the Department for advance credit on the basis of their test results. Advanced placement credit may be granted to students whose test scores are 3 or above.

Departmental Requirements

Bachelor of Arts — 45 credits in Computer Science which must include CSC 151, 152, 250, 251, 310, 380, 450 and 10 additional credits from computer science courses numbered 300 or above. Also required are MT 134, 135, 222 and 244. In addition, BA students must complete a coordinated group of Application Area Courses. The Application Area Courses must include at least 30 credits of courses in an area of proposed application of computer science. These 30 credits may be those prescribed for a minor in another department, but may not include any credits already required by the Computer Science Department for the BA degree. In areas of application where a minor is not prescribed, the Computer Science Department will define the acceptable Application Area Courses, with the assistance of the appropriate departments.

Bachelor of Science in Computer Science — 65 credits in Computer Science which must include CSC 151, 152, 250, 251, 252, 310, 340, 360, 380 and 450, plus at least 15 additional credits in computer science courses numbered 400 or above. Also required are MT 134, 135, 136, 222, 233, 244; PH 200, 201, 202; and EE 304 and 361. Students in this program must maintain a cumulative grade point average and a computer science grade point average of 2.50 or above.

Teaching Major (School of Education) — 45 credits in Computer Science and Mathematics which must include CSC 151, 152, 250 and 310; MT 134, 135 and 222; and 10 additional credits in computer science courses numbered 200 or above.

Undergraduate Minor — 30 credits in Computer Science which must include CSC 151, 152 and at least 20 additional credits in computer science courses numbered 200 or above, with no more than 5 of these 20 credits in courses numbered 240 or below.

Note: For all of the above programs, computer science courses numbered 300 or above require that all pre-requisite computer science courses be completed with a grade of C or better.

Bachelor of Arts

Freshman year

Computer Science 151, 152	10 credits
English 110/Philosophy 110 sequence	10 credits
Fine Arts 120	5 credits
History 120	5 credits
Mathematics 134, 135	10 credits
Electives	5 credits

Sophomore year

Computer Science 250, 251	10 credits
Mathematics 222, 244	10 credits
English 120	5 credits
Lab Science (core req.)	5 credits
Application Area Electives	10 credits
Electives	5 credits

Junior year

Computer Science 310, 380, elective	15 credits
Philosophy 220/Social Science I	10 credits
Application Area Electives	5 credits
Social Science II	5 credits
Electives	5 credits
Theology/Religious Studies I	5 credits

Senior year

Computer Science 450, elective	10 credits
Ethics	5 credits
Application Area Electives	15 credits
Electives	10 credits
Theology/Religious Studies II	5 credits
Total	180 credits

Bachelor of Science in Computer Science

Freshman year

Computer Science 151, 152	10 credits
English 110/Philosophy 110 sequence	10 credits
Fine Arts 120	5 credits
History 120	5 credits
Mathematics 134, 135, 136	15 credits

Sophomore year

Computer Science 250, 251, 252	10 credits
English 120	5 credits
Mathematics 222, 233, 244	13 credits
Physics 200, 201	10 credits
Electives	2 credits

Junior year

Computer Science 310, 340, 360, 380	20 credits
Electrical Engineering 304, 361	8 credits
Philosophy 220/Social Science I	10 credits
Physics 202	5 credits
Electives	2 credits

Senior year

Computer Science 450, electives	20 credits
Theology/Religious Studies I & II	10 credits
Social Science II	5 credits
Electives	5 credits
Ethics	5 credits
Total	180 credits

Computer Science Courses

Note: CSC 103, 113, 114, 151, 152, 170, 180, 232, 233, 250, 251, 252, 310, 420 and 465 have four lectures and one laboratory per week.

CSC 103 Introduction to Computers and Applications 5 credits

An introduction to computers. No prior experience with computers is assumed or required. The course includes an overview of computers and their applications to information processing. Students are introduced to the use of computers in word processing, spreadsheets and data base systems, and to elementary concepts of computer programming. (fall, winter, spring)

CSC 113 Introductory Programming with BASIC 5 credits

An introductory course in computer programming using the BASIC language. Emphasis on developing programming style to solve representative problems on the computer.

CSC 114 Introductory Programming with FORTRAN 5 credits

An introductory course in computer programming using the FORTRAN language. Emphasis on developing programming style to solve example problems of various types. Programs will be developed and run on the computer as laboratory projects. Prerequisite: MT 101.

CSC 151 Fundamentals of Computer Science I 5 credits

Introduction to the fundamentals of computer science, including programming in a structured, modular language, with emphasis on programming design and style. Algorithm development, stepwise refinement, elementary searching and sorting algorithms. Brief history of computer hardware and software; discussion of the social implications of computers. Pre- or co-requisite: MT 134, 131, or 130. (fall, winter)

CSC 152 Fundamentals of Computer Science II 5 credits

Continuation of the introduction to the fundamentals of computer science, including string processing, recursion, internal searching and sorting, simple data structures such as stacks, queues and linked lists, and binary trees. Prerequisite: CSC 151. (winter, spring)

CSC 170 Intermediate Programming with PASCAL 5 credits

Continued development of programming skills through the writing, debugging and testing of a number of intermediate level programs in PASCAL. Basic aspects of string processing, recursion, search/sort methods and elementary data structures. Prerequisites: CSC 151, or MT 134/131/130 plus previous programming experience.

CSC 180 Intermediate Programming with COBOL 5 credits

Continued development of programming skills through the writing, debugging and testing of a number of intermediate level programs in COBOL. COBOL programming and data processing. Prerequisites: CSC 151 or previous programming experience.

CSC 230 FORTRAN for Engineers 3 credits

FORTRAN language including flowcharting, debugging, input/output, loops, arrays, and sub-programs. Introduction to numerical techniques. Laboratory programming assignments will be drawn primarily from the fields of engineering. Prerequisites: ME 215 or 230; MT 232 and MT 233. (fall, spring)

CSC 232 Business Applications Programming 5 credits

Programming business applications, utilizing the COBOL language, including data and file structures, report generation, and the use of structured programming concepts. Other topics may include fourth gener-

ation languages (4GL), business applications software packages, database systems, query languages and communication facilities. Prerequisite: CSC 152.

CSC 233 Scientific/Systems Applications Programming

5 credits

Programming in the C language, with emphasis on the use of structures, functions, pointers and the UNIX C library. Laboratory assignments will be drawn from applications in computer systems programming and the natural sciences. Prerequisite: CSC 152.

CSC 250 File Processing and Database Concepts

5 credits

File processing environments, sequential and random accessing techniques, tree, list and ring structured file organizations, related data structure concepts and file control systems. Additional topics may include database systems, query processing and concepts of normalization. Prerequisite: CSC 152. (fall)

CSC 251 Introduction to Computer Organization

5 credits

Basic concepts of computer architecture and digital logic design. Coding of information, number representations, and computer arithmetic. Computer architecture concepts, including CPU, memory and I/O organization. Control unit implementation and microprogramming. Laboratory projects include the design and construction of a simple computer using integrated circuit chips. Prerequisites: CSC 152, MT 222. (winter)

CSC 252 Computer Systems and Assembler Language

5 credits

Elementary computer structure, machine languages, assembly language programming. Programming will be done in assembly language. Addressing techniques, macros, linkers, loaders and assemblers. Prerequisite: CSC 251. (spring)

CSC 291 Special Topics

1-5 credits

CSC 292 Special Topics

1-5 credits

CSC 293 Special Topics

1-5 credits

CSC 296 Independent Study

1-5 credits

CSC 297 Independent Study

1-5 credits

CSC 298 Independent Study

1-5 credits

CSC 310 Data Structures and Analysis of Algorithms

5 credits

Concepts of data structures and analysis of their utilization in algorithm design. Graphs and applications of graphs, memory management, algorithm and system design and analysis. Prerequisites: CSC 250, MT 222. (fall)

CSC 340 Operating Systems

5 credits

Basic concepts of operating systems, including machine structures, dynamic processes, system structures, memory management, I/O control, process management, file systems, security issues and recovery techniques. Prerequisites: CSC 310, MT 244. (winter)

CSC 360 Introduction to Software Engineering

5 credits

Technical and managerial aspects of software development and maintenance. The software life cycle. Selected methodologies, techniques, and tools for software requirement specification, design, coding and testing. Prerequisite: CSC 250. (spring)

CSC 380 Organization of Programming Languages

5 credits

Introduction to the structure and organization of programming languages; syntax and semantics; data and control structures; implementation and translation considerations. The course will include programming assignments in different languages. Prerequisite: CSC 310. (spring)

CSC 420 Introduction to Database Systems

5 credits

Introduction to database concepts, the need for database management systems, survey of DBMS systems and their use. Elementary concepts of DBMS architecture and design. Prerequisite: CSC 310. (winter)

CSC 444 Concurrent Systems

5 credits

Concurrency in software and hardware. From sequential to concurrent programming. Correctness of concurrent programs. Semaphores. Mutual exclusion. The producer-consumer problem. Monitors. Rendezvous and distributed processing. Object-oriented approaches to concurrency. Hardware support for parallel processing, including pipeline computers, array processors, and dataflow computers. Prerequisites: CSC 252, 340.

CSC 450 Automata, Computability and Formal Languages

5 credits

Formal mathematical basis of computer science. Topics include set theory, recursive functions, automata, regular sets, formal languages, Turing machines and concepts of computability and computational complexity. Prerequisites: CSC 310; MT 244. (fall)

CSC 465 Computer Graphics and Image Processing

5 credits

Fundamentals of computer graphics. Drawing two-dimensional shapes. Processing of gray scale images, segmentation, contour filling, thinning algorithms, algorithms for curve-fitting and display. Creating three-dimensional graphic displays, shading and shadowing algorithms. Prerequisite: CSC 310, MT 233.

CSC 470 Artificial Intelligence

5 credits

Topics include representations of data, knowledge and algorithms, search strategies, processing considerations, classical problems in AI, and applications. Prerequisite: CSC 310. (spring)

CSC 485 Translation of Programming Languages

5 credits

Formal language definitions and descriptions. Syntax, semantics, parsing and translating techniques. Prerequisites: CSC 380.

CSC 490 Senior Project

5 credits

This course is to be an integrative project for the CSC major. It should involve application of many of the concepts taught in previous courses to some significant current problem in computer science or its applications. As such, it may also involve significant interdisciplinary considerations. Prerequisites: Two of the courses CSC 340, 360, 380.

CSC 491 Special Topics

1-5 credits

CSC 492 Special Topics

1-5 credits

CSC 493 Special Topics

1-5 credits

CSC 496 Independent Study

1-5 credits

CSC 497 Independent Study

1-5 credits

CSC 498 Independent Study

1-5 credits

Electrical Engineering

Patricia D. Daniels, Ph.D., Chairperson

Objectives

Electrical engineering is concerned with the utilization of electrical energy and electronic signals for the benefit of society. The profession of electrical engineering is scientifically based and design oriented rather than technological in character. As such, its practice draws heavily from the areas of mathematics, physics, and the other natural sciences as well as other branches of engineering.

The Electrical Engineering program strives to provide a broad foundation based upon mathematical and scientific principles that will prepare the graduate for a productive lifelong career in any of the various sub-fields of the engineering profession. The Electrical Engineering Department is teaching-oriented and offers an undergraduate program that focuses on an integrated, traditional perspective of the electrical engineering profession.

The curriculum spans the subspecialties of electrical engineering with courses in communications and control theory, digital systems and microprocessors, electronic circuits, electromagnetic fields and waves, engineering design, networks, power generation and distribution, signal processing, and solid state devices. The student interested in a career in any specialty within the broad confines of electrical engineering is given sufficient preparation in a well balanced program of study. The hallmark of the senior year is the capstone engineering design experience where student design teams propose and implement multi-disciplinary engineering design projects.

The electrical engineering program provides an integrated base for those graduates who choose to enter professional practice in electrical engineering directly upon graduation and a rigorous preparation for those who choose to go on to graduate study in electrical engineer.

Degree Offered

Bachelor of Science in Electrical Engineering

General Program Requirements

Students in Electrical Engineering must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin, except for the requirement in Fine Arts. Electrical Engineering students take CE 402 to substitute for the requirement in Social Science II.

Departmental Requirements

Bachelor of Science in Electrical Engineering — 78 credits in electrical engineering which must include EE 201, 210, 304, 311, 312, 320, 321, 327, 328, 331, 360, 403, 450, 457, 467, 487, 488, and 489. Also required are CE 402; CH 121 and 131; CSC 230; ME 105, 107, and 215; MT 134, 135, 136, 232, 233, and 234; Ph 200, 201, 202, 205, and 330. Departmental candidacy must be achieved prior to being granted entry into EE 311, 320, and 327. Candidacy is achieved by successfully completing all required 100 and 200 level CSC, EE, ME, MT, and PH courses and EN 110 with a combined grade point average of at least 2.50. Only courses graded 2.0 (C) or better may be transferred into the Department to offset degree requirements; only 100 and 200 level courses will be transferred except for EE 210 which may not be satisfied by a transferred course. Required 300 and 400 level courses

have Departmental Candidacy in one of the engineering departments as well as the specific courses as prerequisites. Taking the Washington State Engineer-in-Training (EIT) examination is required for the degree. This degree is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

Bachelor of Science in Electrical Engineering

The Electrical Engineering Student Handbook contains scheduling information.

Freshman Year

English 110/Philosophy 110 sequence	10 credits
History 120	5 credits
Mathematics 134, 135, 135	15 credits
Mechanical Engineering 105, 107	5 credits
Physics 200, 201	10 credits

Sophomore Year

Chemistry 121, 131	5 credits
Computer Science 230	3 credits
Electrical Engineering 201, 210	9 credits
English 120	5 credits
Mathematics 232, 233, 234	10 credits
Mechanical Engineering 215	5 credits
Physics 202, 205	8 credits
Philosophy 220	5 credits

Junior Year

Electrical Engineering 304, 311, 312, 320, 321, 327, 328, 331, 360	33 credits
Physics 330	5 credits
Social Science I	5 credits
Theology and Religious Studies I	5 credits

Senior Year

Civil Engineering 402	3 credits
Electrical Engineering 403, 450, 457, 467, 487, 488, 489	24 credits
Electrical Engineering Electives	12 credits

Theology and Religious Studies II	5 credits
Engineer-in-Training Examination	0 credits
Total	192 credits

Electrical Engineering Curricular Blocks

Courses taken to fulfill requirements toward the BSEE degree are grouped together into four interrelated curriculum blocks. The Engineering Common Studies Program is essentially standard across the Departments of Civil, Electrical, and Mechanical Engineering; the capstone design sequence is multi-disciplinary in character and thus cuts across interdepartmental lines. The Electrical Engineering Core Curriculum forms the scientific foundation upon which all advanced Electrical Engineering courses are built. The Electrical Engineering Advanced Requirements extend the Electrical Engineering Core in specific technical directions of departmental strength. The Electrical Engineering Advanced Electives make available technical knowledge when sufficient interests exists in the student body to warrant a course offering; topics not listed by course may be offered as Special Topics.

Engineering Common Studies Program — 118 credits. University Core Curriculum; CH 121, 131; CSC 230; EE 487, 488, 489; MT 134, 135, 136, 232, 233, 234; PH 200, 201 202; ME 105, 107, 215.

Electrical Engineering Core Curriculum — 39 credits. EE 201, 210, 311, 312, 320, 321, 327, 328, PH 205, 330. Prerequisite Block: CSC 230; ME 105, 107, 215; MT 134, 135, 136, 232, 233, 234. Offered twice annually.

Electrical Engineering Advanced Requirements — 33 credits. EE 304, 331, 360, 403, 450, 457, 467. Prerequisite Block: EE Core Curriculum plus designed courses. Offered twice annually.

Electrical Engineering Advanced Electives — 12 credits. Three 400 level engineering and/or natural science courses at least two of which must be from the following: EE 414, 432, 440, 451, 462, 470, 491(2)(3), 496(7)(8). Prerequisite Block: EE Core Curriculum plus designed courses.

Electrical Engineering Courses

All courses are numbered under a logical system which relates the technical content of lecture and laboratory courses to sub-fields of the electrical engineering profession. The hundreds digit indicates the nominal year in which the course is scheduled. The tens digit denotes the technical topic area according to the following listing. The units digit specifies the course uniquely and identifies lecture and laboratory courses as well.

Left Digit

1	Freshmen
2	Sophomore
3	Junior
4	Senior

Middle Digit

0	Digital/Computer	5	Power/Energy
1	Circuits	6	Communications
2	Electronics	7	Measurements
3	E/M Fields	8	Design
4	Controls	9	Independent Study/ Special Topics

Right Digit

0 — 6	Lecture and lecture/laboratory
7 — 9	Laboratory

EE 201 Digital Operations and Computation 4 credits
Digital processing of information and data, number systems, Boolean algebra; design of hardware for registers, counting and arithmetic operations; organization of computers, storage and input/output. Introduction to simple logic circuits. Elementary concepts of programming and assembly language. No prerequisites. (fall, spring)

EE 210 Electrical Circuits I 5 credits
Fundamental concepts and units, Kirchoff's laws, mesh nodal analysis, equivalent circuits, linearity and superposition; first and second order circuits; natural and forced responses, initial condition; Laplace transformation techniques. Prerequisites: MT 233, PH 201. Corequisite: MT 234. (fall, spring)

EE 296 Independent Study 1-5 credits

EE 297 Independent Study 1-5 credits

EE 298 Independent Study 1-5 credits

EE 302 Computer Logic Design 5 credits
Basic concepts of design and analysis of digital computer systems — including binary systems, coding, Boolean algebra, logic gates, combination logic, sequential logic, register and control concepts. Four lecture and one laboratory per week. An introductory

course for computer science majors; may not be taken for credit toward the BSEE degree. Prerequisites: CSC 240, MT 233, PH 202. (winter)

EE 304 Microprocessor Design 4 credits
Design of electrical digital components and systems which employ microprocessors. Assembly language programming, peripheral access memory, interfacing the microprocessor to the external system. Three lectures and one four-hour laboratory. Prerequisites: EE Core Curriculum; or EE 302. (fall, spring)

EE 311 Electrical Circuits II 4 credits
The sinusoidal steady-state; phasors and impedance; system functions and the s-plane; analytical and graphical techniques of frequency response description, Bode diagrams; two-port analysis; AC power; introduction of the digital computer in circuit analysis and design. Prerequisite: EE 210 and departmental candidacy. (fall, winter)

EE 312 Linear System Analysis 4 credits
Continuous and discrete time signals. Mathematical representation of systems by differential and difference methods. Fourier series and Fourier transforms. Introduction to filtering, sampling and Z-transforms. Prerequisite: EE 311. (winter, spring)

EE 315 Elements of Electrical Engineering 5 credits
An introductory course to subjects of electrical engineering. Basic circuit theory; linear systems; steady-state solutions; Laplace transform and transient analysis; Boolean algebra, logic gates, combinational and sequential logic; magnetic fields, transformers, and energy conversion. An introductory course for engineering and natural science students not majoring in electrical engineering. Prerequisites: MT 234 and PH 201. (fall, winter)

EE 320 Electronics I 5 credits
Analysis and design of elementary electronic circuits including linear circuits, operational amplifiers, non-linear circuits, and digital circuits. Introduction to bipolar and field effect devices and characteristics. Prerequisite: EE 210. Corequisite: EE 311. (fall, winter)

EE 321 Electronics II 5 credits
Continuation of EE 320. Field effect and bipolar devices. Transistor amplifiers, frequency response, feedback, analog integrated circuits, introduction to oscillators, logic families, introduction to memory circuits. Prerequisite: EE 320. (winter, spring)

EE 327 Electrical Circuits Laboratory 2 credits
A laboratory covering the principles of electrical and electronic circuits. Electronic instrumentation and general practice. Principles of technical communication. One hour lecture and one four-hour laboratory per week. Prerequisite: EE 210. Corequisites: EE 311 and EE 320. (fall, winter)

EE 328 Electronic Circuits Laboratory 2 credits
Continuation of EE 327. Emphasis on solid-state circuits, both analog and digital. Prerequisite: EE 327. Corequisite: EE 321. (winter, spring)

EE 331 Distributed Systems 4 credits
Analysis of distributed systems; steady-state and transient analysis of loss-less lines, lossy lines; waveguides. Prerequisite: EE Core Curriculum. (fall, spring)

EE 360 Communication Systems 3 credits
Analysis and design of signal transmission systems that include amplitude, phase, frequency and pulse modulation. Subsystem synthesis and design with comparative analysis. Communication in the presence of noise. Prerequisites: EE Core Curriculum. (fall, spring)

EE 361	Data Communications	2 credits
An introduction to computer network concepts and problems of data communication in distributed computer systems. Two lectures per week. For computer science majors; may not be taken for credit toward the BSEE degree. Prerequisite: EE 302. (spring)		
EE 391	Special Topics	1-5 credits
EE 392	Special Topics	1-5 credits
EE 393	Special Topics	1-5 credits
EE 396	Independent Studies	1-5 credits
EE 397	Independent Studies	1-5 credits
EE 398	Independent Studies	1-5 credits
EE 403 (EEL 433)	Digital Signal Processing	4 credits
Linear, time invariant, discrete systems; finite moving average and recursive digital filters; Z-transform; discrete Fourier transform; fast Fourier transform. Prerequisite: EE Core Curriculum. (fall, winter)		
EE 414	Active Networks and Filters	4 credits
Design of active filters. Operational amplifier circuits. Approximation of frequency response characteristics. Sensitivity. Frequency transformations. Active two-port networks. Simulations of passive elements. Switched capacitor filters Prerequisite: EE Core Curriculum.		
EE 432	Microwave Systems	4 credits
Propagation of electromagnetic waves and interaction with materials, guided waves, and passive and active devices, microstrip and integrated circuits. Prerequisite: EE Core Curriculum. Corequisite: EE 331.		
EE 440	Control Systems	4 credits
Fundamentals of classical and modern system theory; analysis and design of closed-loop systems with emphasis on stability and transient response using Nyquist, Bode, root-locus, and state-space techniques. Prerequisites: EE Core Curriculum, EE 403 and 450.		
EE 450	Electromechanical Energy Conversion	4 credits
Electromechanical energy conversion principles and design. Application and details of electromechanical devices such as relays, transformers, rotating machinery and special devices. Prerequisites: EE Core Curriculum EE 331. (fall, winter)		
EE 451	Power Systems	4 credits
Analysis of power systems: symmetrical components, power system parameters, steady-state operation, faults, economic operation. Prerequisites: EE Core Curriculum, EE 450. Corequisite: EE 331.		
EE 457	Electromechanical Energy Conversion Laboratory	2 credits
A laboratory covering the principles and practice of electromechanical energy conversion devices. Prerequisite: EE Core Curriculum, EE 450. (winter, spring)		
EE 462	Modern Optics	4 credits
An introduction to modern optics consisting of Huygens principle, diffraction, Fourier optics and image processing, optical cavities, interferometry, planar waveguides, integrated optics and fibers. Prerequisites: EE Core Curriculum; or PH 331. Corequisite: EE 331 or PH 331.		
EE 467	Communications Laboratory	2 credits
A laboratory covering basic principles of encoding, modulation, and transmission of electronic signals. Principles of technical communications will be		

stressed. One hour lecture and one four-hour laboratory per week. Prerequisites: EE Core Curriculum, EE 331. Corequisite: EE 360. (fall, winter)

EE 470	Automated Testing	4 credits
Theory and application of General Purpose Interface Bus (GPIB) systems. Description of the IEEE-488/1980 standard. Emphasis on logical organization of the system and its application to representative test situations. Two lectures and one four-hour laboratory per week. Prerequisites: EE Core Curriculum, or EE 315.		
EE 487	Engineering Design I	4 credits
Design process, problem solving and decision making, modeling and simulation, optimization, economics, costing, reliability. Four lectures per week. Prerequisites: Senior standing; EE Core Curriculum. Corequisite: CE 402. (fall)		
EE 488	Engineering Design II	4 credits
EE 489	Engineering Design III	4 credits
Group design project focusing on the integrative aspects of engineering subject matter. The project should focus on: (1) philosophy of design, a creative approach, and a comprehensive design project; planning, organizing and leading an engineering project; exercising judgment and considering economic factors; and (2) integrated aspects of creative design and analysis; case studies; design of a novel device or system. Two lecture and four design hours per week. Prerequisite: EE 487 for 488; 488 for 489. (488, winter; 489, spring)		
EE 491	Special Topics	1-5 credits
EE 492	Special Topics	1-5 credits
EE 493	Special Topics	1-5 credits
EE 496	Independent Studies	1-5 credits
EE 497	Independent Studies	1-5 credits
EE 498	Independent Studies	1-5 credits
Independent study by student of mutual interest to student and an instructor. Enrollment is limited and open only to students who have discussed a proposed topic or course of study in considerable depth with both instructor and chairman. May be used as an Advanced Elective with departmental permission.		

General Science

Vicky M. Brautigan, Ph.D., Director

Objectives

The General Science program provides special opportunities to students interested in interdisciplinary fields such as ecology, environmental science, global studies, and premedical or pre dental studies; or in special programs of study which differ significantly from the established programs in other departments. The program provides a broad background in the basic sciences. Judicious use of electives permits the student to specialize in other technical areas such as computer science or in business. Each student's curriculum is tailor-made in consultation with the Director of the Program.

A prime objective is to provide students with a better understanding of the human ramifications of science and technology and to help them think realistically and creatively about intellectual, moral, and social issues related to science and technology.

Degree Offered

Bachelor of Science in General Science

General Program Requirements

Students in General Science must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin.

Departmental Requirements

Bachelor of Science in General Science — 90 credits chosen from the following fields; allied health technology, biology, chemistry, computer science, health information administration, interdisciplinary science, mathematics, physics, psychology, and engineering. For this purpose all engineering courses are considered as being in one field. (Only Psy 201, 330 and 401 can be counted toward an interdisciplinary science degree.) At least 30 credits must be in one of these fields, 20 credits in a second field, 10 credits each in biology, chemistry, mathematics, and physics (chosen from the following allowed combinations of courses), and 5 credits in computer science.

Biology:	BL 165, 166, 167, 190, 200, 210
Chemistry:	CH 101 and 102; 121, 122, 131 and 132
Mathematics:	MT 111 and 131; 118 and 130; 134 and 135.
Physics:	PH 105 and 106; 200 and 201

At least 10 credits must be from 300 or 400 level courses. A further 15 hours must be from 300, 400, or approved 200 level courses. This may require prerequisites beyond the minimal degree requirements. The approved 200 level courses are CH 219, 241, 242, 243, 251, 252; MT 232, 233, 234; and PH 202, 204 and 205.

Majors interested in high school teaching may elect to complete a sequence of education courses leading to secondary teacher certification. 190 credits are required for certification. Additional details are contained in the School of Education listing in this Bulletin of Information.

Interdisciplinary Science Courses

- ISC 110 Science, Technology and Society** 5 credits
The study of the nature and structure of science and technology, the interactions of science and technology on society. Four hours lecture/discussion and two laboratory hours per week.
- ISC 201 To Feed the World** 5 credits
The history, production, and distribution of food from the perspectives of paleontology, archaeology, anthropology, ecology, biology and chemistry; modes of scientific examination and interpretation; interrelationships of science, technology and human needs. Team taught. Active participation by students: lectures, discussions, student projects.
- ISC 202 To See The Light** 5 credits
A hands-on approach to the nature and uses of light: the many faces of light as seen by philosophers, artists and scientists; theories of color; physiology and psychology of perception, light and color in art; laser optics; camera systems; current optical technology; "light" student projects. Three hours lecture/discussion and one four-hour laboratory/field trip per week.

- ISC 205 Biophysical Principles** 5 credits
Inter-relationships between biology, earth science and physical science as applied to the teaching of elementary level science. Credits not applicable for biology major. Three lecture and four laboratory hours per week.
- ISC 207 Air and Water** 5 credits
A consideration of the causes and control of air pollution. Water resources, present and future. The pollution of water. Water treatment. Desalting of water. The role of technology in the deterioration of the environment and its restoration. (fall)
- ISC 208 Sun, Food and People** 5 credits
Introduction to ecology. The flow of solar energy through the ecosystem and the effect of this on food production. The food chain. The supply and demand of food. Pesticides and fertilizers. Past, present and future trends in human population. (winter)
- ISC 209 Energy and Mineral Resources** 5 credits
The supply, demand and resources of energy and minerals. Patterns of energy use. Fossil fuels, water power, atomic energy, their use and abuse. Renewable forms of energy. Conservation. Program for the future. Mineral resource depletion, an embryonic crisis. Solid waste and recycling. (spring)
- ISC 296 Independent Study** 1-5 credits
ISC 297 Independent Study 1-5 credits
ISC 298 Independent Study 1-5 credits
- ISC 310 Evolution: Development of a Theory** 5 credits
Basic statements and ideas of evolutionary theories from an interdisciplinary perspective. This will include both an historical perspective and a consideration of modern debates. Prerequisites: ISC 110 and one laboratory science course; or two science courses, one with laboratory experience.
- ISC 320 Geology and Mineralogy of the Pacific Northwest** 2 credits
The general geologic setting and basic mineralogy of the Northwest. Weekend field trips are in conjunction with the Field Biology course. Prerequisites: Two laboratory science courses.
- ISC 330 Field Biology of Washington** 2 credits
Life zones, habitats, and plants and animals of special interest in the State. Weekend field trips are in conjunction with the Geology and Mineralogy course. Prerequisites: Two laboratory science courses.
- ISC 401 The Human Response to Science and Technology** 5 credits
A comparative-historical approach to the scientization of culture and its contemporary and projected consequences; critical evaluation of competing claims about science and technology as enlightening allies of human progress; a personal search for appropriate intellectual and ethical perspectives on science as a way of knowing and on technology as a way of living. Seminar format; guest lectures; small group paper conferences; student-led seminars. Prerequisites: Junior standing or higher, PL 220; HS 104 or 105.
- ISC 496 Independent Study** 1-5 credits
ISC 497 Independent Study 1-5 credits
ISC 498 Independent Study 1-5 credits

Health Information Administration

Mary Alice Hanken, M.Ed., Chairperson

Objectives

The Health Information Administration program offers a contemporary curriculum designed to prepare graduates for a career in an administrative health care profession. The profession focuses on the management of information and people; the analysis of systems in health care settings; and the organization and presentation of patient and disease specific information using current computer technology. Liberal arts, science and management courses provide the foundation for the professional coursework and life in today's world. The program is open to students seeking a baccalaureate degree and to fifth year post baccalaureate students. Students who complete the program are eligible for registration with the American Medical Record Association.

Degree Offered

Bachelor of Science in Health Information Administration

General Program Requirements

Baccalaureate degree students in Health Information Administration must satisfy the core curriculum requirements as given on page 26-28 of this Bulletin.

Certificate Program

Students with a baccalaureate degree are eligible for the Certificate in Health Information Administration. Certificate coursework can be fulfilled in 9-12 months.

Prerequisites to the Certificate program are human anatomy and physiology (lab course), introduction to computers and applications or introductory programming, principles of management, statistics, medical terminology, and pathophysiology.

Departmental Requirements

Bachelor of Science in Health Information Administration — 56 credits in health information administration which must include HI 222, 310, 311, 370, 380, 410, 420, 421, 454, 455, 456, 460, 461, 462; 20 credits in biology or chemistry which must include BL 210 and 220; CSC 103 or 113 or 114; BUS 380; PSY 201; SPH 200 or 201.

Certificate in Health Information Administration — 49 credits in health information administration which must include HI 310, 311, 370, 380, 410, 420, 421, 454, 455, 456, 460, 461, and 462.

Students who have completed an approved program for medical record technicians may be eligible for advanced placement in Health Information Administration courses.

Bachelor of Science in Health Information Administration

Freshman year

Biology or Chemistry elective 10 credits
English 110/Philosophy 110 sequence 10 credits
Fine Arts 120 5 credits
History 120/English 120 sequence 10 credits
Mathematics 5 credits
Elective 5 credits

Sophomore year

Biology 200, 210 10 credits
Speech 200 or 201 5 credits
Health Information 222 3 credits
Computer Science 103 or 113 or 114 5 credits
Philosophy 220/Social Science I sequence ... 10 credits
Psychology 201 5 credits
Theology and Religious Studies I 5 credits
Electives 5 credits

Junior year

Nursing 300 5 credits
Business 380 5 credits
Ethics 5 credits
Health Information 310, 311, 370, 380 12 credits
Social Science II 5 credits
Theology/Religious Studies II 5 credits
Electives 5 credits

Senior year

Health Information 410, 420, 421, 454, 455,
456, 460, 461, 462 37 credits
Health Information electives 4 credits
Elective 4 credits
Total 180 credits

Certificate in Health Information Administration

Fall

HI 310, 311, 370, 380, 410 17 credits

Winter

HI 420, 454, 460, 461 15 credits

Spring

HI 421, 455, 456, 462 17 credits
Total 49 credits

Health Information Courses

HI 222 Medical Terminology 3 credits
(HI 322) Basic medical word structure. The role of medical terminology as a language in medicine. Correct spelling, pronunciation, and use of medical terms related to each body system.

HI 230 Health Care Delivery System 5 credits
An overview of the health care system in the United States. Facilities, organization and personnel with emphasis on current issues and trends; marketing of health care, distribution of services, cost containment, rise of the consumer, impact of the wellness movement. (fall)

HI 310 Introduction to Health Care Systems and Health Data Systems 5 credits
The organizational structure, functions and financing of the health care system. Relationship of the health care system to health information systems. Current issues in health care. Accreditation, licensure, and professional standards. (fall)

HI 311 Health Data Systems Lab 2 credits
Health record analysis, application of professional standards to health records and record management systems; health facility statistics; retrieval, tracking and retention systems; data linkage; resource allocation. Prerequisite or corequisite: HI 310. (fall)

HI 370 (HI 470)	Legal Concepts for Health Fields Principles of law as applied to the health field, with particular reference to all phases of medical record practice. (fall)	3 credits
HI 380 (HI 480)	Problem Solving and Decision Making — Seminar	2 credits
HI 410	Organization Theory in Health Care Facilities and Health Information Management Role of the HI manager in health care facilities. Functions of patient data and medical record departments. Facility wide systems. Use of information in facility management. Prerequisites or corequisites: HI 310, BUS 380. (fall)	5 credits
HI 420	Computer Systems in Health Care Analysis and evaluation of current computer applications in health care. Use of mainframes, micros and minis. Custom designed systems and generic packages used in hospitals, ambulatory care, home health and long term care. Prerequisite: HI 310 (winter)	5 credits
HI 421	Health Information Systems Analysis Analysis of health information systems. Assessment of applications of computer resources in patient/health information management. Prerequisite: HI 420. (spring)	5 credits
HI 454	Finance Concepts for Health Care Managers Finance concepts applied to today's health care environment. Prospective payment systems. Diagnosis related groups. Budgeting. Regulatory impact-PROs, hospital commission, HCFA. (winter)	5 credits
HI 455	Professionalism and Leadership Professional development, ethics, interpersonal skills, leadership assessment, human resource management, unionization, effective communications, in-service techniques. (spring)	5 credits
HI 456	Quality Assurance and Research in Health Care Quality assessment, risk management, utilization management in health care. Design and analysis of QA systems. Data quality. Use of coding and classification systems in QA and research. Data retrieval, analysis and presentation. (spring)	5 credits
HI 460	Management Internship Development of management skills and competencies in a seminar and in health care facilities. Participation in professional practice activities with campus and clinical faculty. Prerequisites: HI 310, 311, 410. (fall, winter, spring, summer)	4-6 credits
HI 461	Management Project Design	1 credit
HI 462	Management Project Action research, management problems in health information systems. Campus and clinical faculty participate in projects submitted by health related facilities. Prerequisites: HI 310, 311, 410 for 461; 461 for 462. (winter, spring, summer)	2 credits
HI 491	Special Topics	2-5 credits
HI 492	Special Topics	2-5 credits
HI 493	Special Topics	2-5 credits
HI 496	Independent Study	1-5 credits
HI 497	Independent Study	1-5 credits
HI 498	Independent Study	1-5 credits

Mathematics

Mary B. Ehlers, Ph.D., Chairperson

Objectives

The Mathematics Department offers training in three distinct programs. The first, leading to the Bachelor of Science in Mathematics, prepares the student for advanced study and professional work in mathematics. The others are more flexible programs which provide for work in a secondary field and lead to either the Bachelor of Arts or the Bachelor of Science degree.

Majors interested in high school teaching may elect to complete a sequence of education courses leading to secondary teacher certification. 190 credits are required for certification. Additional details are contained in the School of Education listing in this Bulletin of Information.

Degrees Offered

Bachelor of Arts
Bachelor of Science
Bachelor of Science in Mathematics

General Program Requirements

Students in Mathematics must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin.

Advanced Placement in Calculus

Students who have completed a college level course in calculus in high school and have taken the Advanced Placement test in calculus of the College Entrance Examination Board may petition the department for placement on the basis of their test results. Advanced placement and credit may be granted to students whose test scores are 3 or above. Advanced placement may also be obtained through departmental testing.

Departmental Requirements

Bachelor of Arts — 45 credit in mathematics which must include MT 134, 135, 136, 232, 233, 234, 222 or 310, 411 or 431, and 10 additional credits of approved upper division mathematics; CSC 113 or 114; and 15 credits in physical or life science, psychology or economics.

Bachelor of Science — 55 credits in mathematics which must include MT 134, 135, 136, 232, 233, 234, 222 or 310, 351 or 371, 10 credits from MT 411, 412, 431 and 432 and 10 additional credits of upper division mathematics; CSC 113 or 114; and 30 credits of physical or life science, psychology or economics.

Bachelor of Science in Mathematics — 68 credits in mathematics which must include MT 134, 135, 136, 232, 233, 234, 222 or 310, 351 or 371, 411, 412, 413, 431, 432, 433, 481 and five additional credits in mathematics numbered 222 or higher; and 15 credits of sequence electives in physics, economics, or computer science. In certain circumstances, with approval of the chairman, 15 credits of upper division work in a physical science may be substituted for 15 credits in mathematics. Students in this program must maintain a cumulative grade point average and a mathematics grade point average of 2.50.

Teaching Major (School of Education) — 45 credits in mathematics or computer science which must include MT 134, 135, 136, 232, 233, 321 or 322, 351, CSC 113 or 114, one of MT 222, 310, 315, 381, 411, and 4 credits of approved mathematics or computer science electives beyond college algebra. In addition, MT 200 is recommended for those who are considering middle school or junior high school teaching.

Undergraduate Minor — 30 credits in mathematics which must include MT 134, 135, 136 and 15 credits or approved mathematics numbered 222 or higher.

NOTE: For all of the above programs, courses numbered 300 or above require that all prerequisite Mathematics courses be completed with a grade of C or better.

Bachelor of Arts

Freshman year

English 110/Philosophy 110 sequence 10 credits
Fine Arts 120 5 credits
History 120/English 120 sequence 10 credits
Mathematics 134, 135, 136 15 credits
Laboratory Science 5 credits

Sophomore year

Computer Science 113 or 114 5 credits

Interdisciplinary course	3 credits
Mathematics 351 or 371, 431, 432, 433 or 411, 412, 413, 481 and electives	25 credits
Senior Synthesis	3 credits
Electives	14 credits
Total	180 credits

Proper Sequence for Taking Courses

The normal sequence of elementary mathematics courses is MT 101; MT 111 or MT 118; MT 130, MT 131 or MT 134; MT 135; and MT 136. A student, who has received a C or better in any course of this sequence or its equivalent, cannot subsequently receive credit for a course which appears before it in the sequence. A student may not receive credit for more than two courses among MT 101, MT 107, and MT 200. A student may not receive credit for more than one course from each of the following groups: MT 111 and 118; MT 130, MT 131 and MT 134. A student who has taken MT 130 or MT 131 and is required due to a change of major to take MT 134 as preparation for MT 135 will receive credit for both MT 130 (or MT 131) and MT 134. Credit for MT 134 will be contingent on successful completion of MT 135.

Mathematics Courses

MT 101	Intermediate Algebra	5 credits
Sets and numbers, polynomials, fractions, linear equations and inequalities, exponents, quadratic equations and inequalities; systems of equations; functions and graphing. Prerequisite: One year each of high school algebra and geometry. (fall, winter, spring)		
MT 107	Mathematics: A Practical Art	5 credits
General introduction to logic, sets, probability, statistics, algorithmic processes and other selected topics. Hands-on experience with microcomputers. Emphasis on development of quantitative skills. Prerequisite: One year each of high school algebra and geometry. (fall, winter)		
MT 111	College Algebra	5 credits
Inequalities, algebra of functions, graphs, exponential and logarithmic functions, theory of equations, mathematical induction. Prerequisite: MT 101 or qualifying examination. Credit not granted for both MT 111 and MT 118. (fall, winter)		
MT 115	Trigonometry	2 credits
Radian measure, trigonometric functions and their graphs, identities, trigonometric equations, inverse trigonometric functions, complex numbers. Prerequisite: MT 111 or 118 or qualifying examination. (fall, winter, spring)		
MT 118	College Algebra for Business	5 credits
Sets; relations and functions, graphing; linear, quadratic, exponential, logarithmic functions; systems of linear equations; inequalities; linear programming; applications to business. Prerequisite: MT 101 or equivalent. Credit not granted for both MT 111 and MT 118. (fall, winter, spring)		
MT 130	Elements of Calculus for Business	5 credits
Rate of change; derivative, basic differentiation formulas, extrema; area under a curve; limits of sequences;		

the definite integral and applications. Prerequisite: MT 111 or 118. (fall, winter, spring)

MT 131	Calculus for Life Sciences	5 credits
Limits; rate of change; derivatives, basic differentiation formulas, extrema; the definite integral. Applications to the Life and Social Sciences. Prerequisite: MT 115 or equivalent. (spring)		
MT 134	Calculus and Analytic Geometry I	5 credits
MT 135	Calculus and Analytic Geometry II	5 credits
MT 136	Calculus and Analytic Geometry III	5 credits
I. Review of precalculus subjects; limits and derivatives; applications of limits and derivatives. II. Theory, technique, and applications of integration; differentiation and integration of trigonometric, exponential and logarithmic functions. III. Indeterminate forms; improper integrals; infinite series; Taylor's theorem; vectors, polar coordinates; solid analytic geometry. Prerequisites: MT 111 or qualifying examination for 134; 115 and 134 for 135; 135 for 136. (All three offered fall, winter, spring)		
MT 200	Mathematics for K-8 Teachers	5 credits
Systems of numeration; elementary logic; sets; relations, equivalence classes; number systems and the integration of these concepts. Prerequisite: Mt 101 or 107, or equivalent. (fall, winter)		
MT 222	Discrete Structures	5 credits
Logic; set theory; equivalence relations and partitions; algebraic structures, including Boolean algebras; combinatorics; graph theory; applications to computer science. Prerequisites: MT 135, CSC 113, 114 or 151. (fall)		
MT 232	Multivariable Calculus	3 credits
Partial derivatives, multiple integration, and applications. Prerequisite: MT 136. (fall, winter, spring)		
MT 233	Linear Algebra	3 credits
Matrices, determinants, vector spaces, linear transformations, eigenvalues. Prerequisite: MT 136. (fall, winter, spring)		
MT 234	Differential Equations	4 credits
First and second order differential equations; linear differential equations; systems of differential equations; power series solutions. Prerequisites: MT 232 and 233. (fall, winter, spring)		
MT 244	Fundamentals of Probability and Statistics	5 credits
Probability models. Discrete and continuous random variables, basic concepts of descriptive and statistical inference. Queueing theory. Applications. The course will include use of computer software. Prerequisite: MT 135. (winter)		
MT 291	Special Topics	1-5 credits
MT 292	Special Topics	1-5 credits
MT 293	Special Topics	1-5 credits
MT 296	Independent Study	1-5 credits
MT 297	Independent Study	1-5 credits
MT 298	Independent Study	1-5 credits
MT 310	Introduction to Advanced Mathematics	5 credits
Logic and proofs; quantifiers; basic notions of set theory; induction, cartesian products and relations; equivalence relations; functions; cardinality. Prerequisite: MT 136. (spring of alternate years)		
MT 315	Number Theory	5 credits
Divisibility and the Euclidean algorithm; congruences;		

quadratic reciprocity law; numerical functions; the Moebius inversion formula. Prerequisite: MT 135.

MT 321	Foundations of Euclidean Geometry	5 credits
Axiomatic foundations of Euclidean geometry; ruler and compass constructions; problems of antiquity; the 5th postulate and non-Euclidean geometries. Prerequisite: MT 135.		
MT 322	Topics in Geometry	5 credits
Selected topics in Advanced Geometry. May be repeated for credit with permission. Prerequisite: MT 233 or permission.		
MT 351	Probability	5 credits
Basic concepts and theorems in probability theory; the binomial, Poisson, normal and other fundamental probability distributions; moments; limit theorems. Prerequisite: MT 232.		
MT 371	Introduction to Numerical Methods	5 credits
Approximation and errors; solution of equations and systems of linear equations; numerical integration. Four lecture hours and one computer laboratory hour per week. Prerequisites: MT 233, CSC 113 or 114.		
MT 381	Elementary Topology	5 credits
Set theory; topology of the real line; topological spaces; compactness; connectedness; product spaces; metric spaces. Prerequisite: Mt 233. (spring of alternate years)		
MT 411	Introduction to Abstract Algebra I	5 credits
MT 412	Introduction to Abstract Algebra II	5 credits
MT 413	Introduction to Abstract Algebra III	3 credits
Theory of groups, rings, fields and field extensions; vector spaces and linear transformations; special topics. Prerequisites: Permission for 411; 411 for 412; 412 for 413. (offered in sequence: fall, winter, spring of alternate years)		
MT 431	Introduction to Real Analysis I	5 credits
MT 432	Introduction to Real Analysis II	5 credits
MT 433	Introduction to Real Analysis III	3 credits
The real number system; continuity; point set theory; partial differentiation; vector fields; linear transformations; Riemann-Stieltjes integrals; implicit function theorem; infinite series; power series; uniform convergence. Prerequisites: Permission for 431; 431 for 432; 432 for 433. (offered in sequence: fall, winter, spring of alternate years)		
MT 437	Introduction to Complex Variables	5 credits
The complex number system, analytic functions, integration, series, residues, conformal mapping. Prerequisite: MT 234.		
MT 481	Senior Seminar	2 credits
Problems in modern mathematics. Each student will make an oral presentation to the class. Prerequisite: Permission. (spring)		
MT 491	Special Topics	2-5 credits
MT 492	Special Topics	2-5 credits
MT 493	Special Topics	2-5 credits
MT 497	Independent Study	1-5 credits
MT 498	Independent Study	1-5 credits
MT 499	Independent Study	1-5 credits

Mechanical Engineering

Lewis Filler, D. Eng. Sci., Chairperson

Objectives

The goal of the mechanical engineering program is to prepare students for a career in the mechanical engineering profession in design, development, research or other areas such as engineering sales and management.

The program offers a coherent series of courses in each of three broad categories; energy conversion, machine design, and dynamic systems. Creative engineering design, based on a firm theoretical and experimental foundation, is emphasized throughout the program.

Degree Offered

Bachelor of Science in Mechanical Engineering

General Program Requirements

Students in mechanical engineering must satisfy core curriculum requirements of the University as given on pages 26-28 of this Bulletin, except for the requirement in Fine Arts. Students take CE 402 to substitute for the requirement in Social Science II.

Departmental Requirements

Bachelor of Science in Mechanical Engineering — 64 credits in mechanical engineering which must include ME 105, 107, 210, 230, 304, 321, 323, 350, 370, 372, 425, 434, 436, 487, 488, and 489 and 10 credits of approved engineering electives. Also required are MT 134, 135, 136, 232, 233, and 234; CE 221, 222, 331, 337, and 402; EE 315; CH 121, 131; CSC 230; PH 200, 201, 202; and 5 credit approved science elective. Departmental Candidacy must be achieved prior to being granted entry into ME 350. Candidacy is achieved by successfully completing all required 100 and 200 level CE, CH, CSC, ME, MT, and PH courses with a combined grade point average of at least 2.50, as well as EN 110. Only courses graded C (2.0) or better may be transferred into the department to offset degree requirements. 300 and 400 level courses have Departmental

Candidacy in one of the engineering departments as well as the specified courses as prerequisites. Taking the Washington State Engineers-in-Training examination is required for the degree. This degree is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

Bachelor of Science in Mechanical Engineering

Freshman year

Chemistry 121, 131	5 credits
English 110/Philosophy 110 sequence	10 credits
History 120	5 credits
Mathematics 134, 135, 136	15 credits
Mechanical Engineering 105, 107	5 credits
Physics 200	5 credits

Sophomore year

Civil Engineering 221	4 credits
Computer Science 230	3 credits
English 120	5 credits
Mathematics 232, 233, 234	10 credits
Mechanical Engineering 210, 230	10 credits
Philosophy 220	5 credits
Physics 201, 202	10 credits
Science elective	5 credits

Junior year

Civil Engineering 222, 331, 337	8 credits
Electrical Engineering 315	5 credits
Mechanical Engineering 304, 321, 323, 350, 370, 372	26 credits
Social Science I	5 credits
Theology and Religious Studies I	5 credits

Senior year

Civil Engineering 402	3 credits
Ethics	5 credits
Mechanical Engineering 425, 434, 436, 487, 488, 489 and electives	33 credits
Theology and Religious Studies II	5 credits
Engineer-in-Training Examination	0 credits

Total 192 credits

Mechanical Engineering Courses

ME 105	Engineering Graphics and Design	3 credits
Orthographics, isometrics, technical sketching, auxiliary and sectional views, dimensioning and tolerancing. True length of lines, true size of planes, intersections, development of surfaces. Introduction to engineering design. Design project requiring graphics skills. Three two-hour sessions per week. (fall, winter)		
ME 107	Introduction to Microcomputer Applications	2 credits
Introduction to the use of microcomputers for engineering. Microcomputer hardware and useful software packages in mathematics and text processing, intro-		

duction to computer controlled data acquisition and measurement. Laboratory programming assignments. Laboratory programming. Two lecture hours per week. Corequisite: ME 105. (fall, winter)

ME 210	Statics	5 credits
Vector algebra. Equilibrium of forces and moments, distributed forces, hydrostatics, friction, virtual work; all applied to simple bodies. Five lectures per week. Prerequisites: MT 135, PH 200. (fall, winter)		

ME 215	Statics/Dynamics	5 credits
Vector algebra. Forces, resultants. Equilibrium. Free body diagrams. Equilibrium of rigid bodies. Centroids. Forces in cables. Method of virtual work. Rectilinear and curvilinear motions. Newton's second law. Energy and momentum methods. Systems of particles. Rigid bodies. Plane motion. Vibrations. Five lecture hours per week. Students must pass a qualifying examination before proceeding to dynamics. Not open to ME and CE students. Prerequisites: PH 200 and MT 136. (fall)		

ME 230	Dynamics	5 credits
Vectors applied to kinematics and kinetics. Particle, system of particles, and rigid bodies related to translation, rotation, plane motion, relative motion, forces, impulse-momentum, work-energy. Five lectures per week. Prerequisites: ME 210, MT 136. (winter, spring)		

ME 291	Special Topics	1-5 credits
ME 292	Special Topics	1-5 credits
ME 293	Special Topics	1-5 credits

ME 296	Independent Study	1-5 credits
ME 297	Independent Study	1-5 credits
ME 298	Independent Study	1-5 credits

ME 304	Basics of Computer Aided Engineering	4 credits
Introduction to microcomputer structure. Basics of interfacing microprocessors with the real world. Applications; graphics, control, robotics. Two lectures and one four-hour laboratory per week. Prerequisite: CSC 230. (fall, spring)		

ME 321	Thermodynamics	4 credits
Thermal properties of ideal and real gases, liquids, vapors, and mixtures. Conservation of energy. Conversion of thermal energy to work. Power, efficiency, cycles, compressible gas flow. Prerequisite: CE 331. (winter, spring)		

ME 323	Heat Transfer	5 credits
Heat transfer - conduction, convection, and radiation. Conduction in one and two dimensions, steady state and transient. Forced and natural convection with phase change. Applications. Four lecture hours, one three-hour laboratory per week. Prerequisite: ME 321. (fall, spring)		

ME 350	Materials Science	5 credits
Atomic structure. Metallic bond. Structure of metals and non-metals. Equilibrium diagrams. Time-dependent transformations. Relation of structure to properties. Elastic and plastic deformation. Four lectures, one three-hour laboratory per week. Prerequisites: CE 221, 222. (fall, winter)		

- ME 370 Machine Elements I 4 credits**
Study of beams and columns. Failure theories. Impact, fatigue, corrosion, and wear. Four lecture hours per week. Prerequisites: CE 221, 222. (winter, spring)
- ME 372 Machine Elements II 4 credits**
Continuation of ME 370. Fasteners, welds, springs, bearings, gears, clutches, and brakes. Four lectures per week. Prerequisite: ME 370. (fall, spring)
- ME 391 Special Topics 1-5 credits**
ME 392 Special Topics 1-5 credits
ME 393 Special Topics 1-5 credits
- ME 396 Independent Study 1-5 credits**
ME 397 Independent Study 1-5 credits
ME 398 Independent Study 1-5 credits
- ME 401 Principles of Instrumentation 2 credits**
Review of the elements of instrumentation systems: sensors; cables; penditimers; filters; and display devices. Further study of each system element to find sources of unwanted signals and/or noise. Study of methods to eliminate or minimize unwanted signals and noise. One lecture and one three-hour laboratory per week. Prerequisite: ME 434.
- ME 425 Applied Thermodynamics 5 credits**
Thermodynamics applied to ideal and real cycles, internal and external combustion engines, fans, blowers, compressors, nozzles, refrigeration, air conditioning, liquefaction of gases. Four lectures, one three-hour laboratory per week. Prerequisite: ME 321. (fall, winter)

- ME 427 Steam Power Plants 4 credits**
Thermodynamics, heat transfer, fluid mechanics applied to design of modern thermal power stations and auxiliaries with economic and ecologic integration into regional power systems. Four lectures per week. Prerequisites: ME 323, 425.
- ME 429 Internal Combustion Engines 4 credits**
Thermodynamic cycle review. Actual otto and diesel engines. Fuels and combustion, carburetion, efficiency, alternate engines. Four lectures per week. Prerequisite: ME 425.
- ME 434 Dynamic Systems 4 credits**
System modeling. System analysis based on transform calculus methods. Introduction to digital computer methods of analysis for non-linear systems. Topics include: Laplace transform, transfer functions, block diagram manipulation. Bode diagrams, root locus, system stability analysis, algorithms for computer system analysis. Four lectures per week. Prerequisites: EE 315; MT 234. (fall, winter)
- ME 436 Dynamic Systems Laboratory 2 credits**
Laboratory experiments which augment the lecture material in ME 434. Characteristics and relevant constraints for a variety of system elements and assemblies. Design, construction, and testing of a servo-system. One lecture and one three-hour laboratory per week. Prerequisite: ME 434. (spring)
- ME 438 Control Systems 4 credits**
Feedback control system analysis. Proportional, integral and derivative control. Control system design, compensation. Root locus, Nyquist and Bode plots. Analog and digital simulation. Four lectures per week. Prerequisite: ME 434.
- ME 441 Heat/Ventilation/Refrigeration 4 credits**
Psychrometry; space heating and cooling loads; air conditioning; fans and ducts; heat exchangers; solar systems; refrigeration. Four lectures per week. Prerequisites: ME 323, 425.
- ME 452 Heat Treatment of Ferrous and Non-Ferrous Materials 2 credits**
Heat treatment of various metallic alloys, particularly steel. Two lectures per week. Prerequisite: ME 350.
- ME 454 Fracture Mechanics 2 credits**
Modern fracture theory — stress intensity functions, crack driving forces. Fast fracture. Impact fracture. Two lectures per week. Prerequisites: CE 221, 222; ME 350, 370.
- ME 461 Compressible Flow 4 credits**
One-dimensional gas dynamics. Flow in nozzles and diffusers, normal shocks, frictional flows and flows with heat transfer and energy release. Four lectures per week. Prerequisite: ME 321.
- ME 463 Gas Turbines 4 credits**
Basic gas dynamics, Brayton cycle, design principles of compressors, turbines, and compressors. Four lectures per week. Prerequisite: ME 425.
- ME 465 Turbomachinery 4 credits**
Design operation of turbines and compressors, principles of turbine/compressor types, off-design operation, pumps, cavitation, two-phase flow. Four lectures per week. Prerequisite: ME 425.

ME 487 Engineering Design I **4 credits**
Design process, problem solving and decision making, modeling and simulation, optimization, economics, costing, reliability. Four lecture hours per week. Prerequisites: ME 304, 372. Corequisite: CE 402. (fall)

ME 488 Engineering Design II **4 credits**

ME 489 Engineering Design III **4 credits**
Group design project focusing on the integrative aspects of engineering subject matter. The project should focus on: (1) philosophy of design, a creative approach, and a comprehensive design project; planning, organizing and leading an engineering project; exercising judgment and considering economic factors; and (2) integrated aspects of creative design and analysis; case studies; design of a novel device or system. Two lecture and four design hours per week. Prerequisite: ME 487 for 488; 488 for 489. (488, winter; 489, spring).

ME 491 Special Topics **2-5 credits**

ME 492 Special Topics **2-5 credits**

ME 493 Special Topics **2-5 credits**

ME 496 Independent Study **1-5 credits**

ME 497 Independent Study **1-5 credits**

ME 498 Independent Study **1-5 credits**

Physics

Reed A. Guy, Ph.D., Chairperson

Objectives

The Physics department offers two degree programs. For those who wish a career in physics, the Bachelor of Science in Physics program takes the student from classical mechanics through quantum mechanics, including advanced laboratory courses emphasizing nuclear and nuclear reactor physics. The curriculum is designed to prepare students for advanced work in pure and applied physics or for graduate study. The Bachelor of Arts program is ideal for those who desire a solid background in physics but who also want the flexibility to specialize in another area, such as computer science.

Majors interested in high school teaching may elect to complete a sequence of education courses leading to secondary teacher certification. 190 credits are required for certification. Additional details are contained in the School of Education listing in this Bulletin of Information.

Degrees Offered

Bachelor of Arts
Bachelor of Science in Physics

General Program Requirements

Students in physics must satisfy the core curriculum requirements of the University as given on pages 26-28 of this Bulletin.

Departmental Requirements

Bachelor of Arts — 45 credits in physics which must include PH 200, 201, 202, 204, 205, 310, 330 and 375. A minimum of 15 additional credits in a related science, such as computer science, is required.

Bachelor of Science in Physics — 60 credits in physics, which must include PH 200, 201, 202, 204, 205, 310, 311, 330, 331, 481, and 485. Ten credits, approved by the

student's adviser, in related science are required. Mathematics 134, 135, 136, 232, 233, and 234 are required. PH 110 and 111 may not be counted toward the 60 credits.

Teaching Major (School of Education) — 45 credits in physics and mathematics; 30 credits in physics which must include PH 105, 106, 107, 110 and 10 elective credits. PH 200, 201, 202 may be taken in place of 105, 106, 107 for those students who desire a more rigorous background in general physics. The required 15 credits in mathematics must include 10 credits in calculus and computers. (MT 134, 135, CSC 114).

Undergraduate Minor — 30 credits in physics which must include either PH 200, 201, 202, and 205. 100 level courses may not be counted toward the minor.

Bachelor of Science in Physics

Freshman year

English 110/Philosophy 110 sequence	10 credits
History 120/English 120 sequence	10 credits
Mathematics 134, 135, 136	15 credits
Physics 200	5 credits
Electives	5 credits

Sophomore year

Fine Arts 120	5 credits
Mathematics 232, 233, 234	10 credits
Physics 201, 202, 204, 205	15 credits
Philosophy 220/Social Science I sequence ...	10 credits
Electives	5 credits

Junior year

Physics 310, 330; 311 or 331; 481 or 485	18 credits
Physics elective	5 credits
Related Science Elective	5 credits
Social Science II	5 credits
Theology and Religious Studies I	5 credits
Electives	7 credits

Senior year

Ethics	5 credits
Interdisciplinary course	3-5 credits
Physics 311 or 331; 481 or 485	8 credits
Physics Electives	9 credits
Related Science Elective	5 credits
Senior Synthesis	3 credits
Theology and Religious Studies II	5 credits
Electives	5-7 credits
Total	180 credits

Physics Courses

Note: PH 105, 106, 107, 110, 111, 200, 201, 202, 375, and 475 have four lectures and one laboratory per week.

PH 105 Mechanics and Sound 5 credits
Non-calculus survey of classical mechanics. Statics, kinematics, and dynamics of particles and systems; fluids; harmonic motion, waves, and sound. Prerequisites: MT 111, 115 or equivalent. (fall)

PH 106 Electricity, Magnetism and Thermodynamics 5 credits
Survey of electromagnetism. Electrostatics, magnetostatics, electromagnetic fields, dc and ac circuits, introduction to thermodynamics. Prerequisite: PH 105. (winter)

PH 107 Survey of Modern Physics 5 credits
Optics, including reflection, refraction, interference, diffraction and polarization. Introduction to atomic and nuclear physics. Prerequisite: PH 106 (spring)

PH 110 Introduction to Astronomy of the Solar System 5 credits
Apparent motions of heavenly bodies. Real motions and physical properties of the sun, moon, planets, and minor bodies of the solar system; telescopic observation available. Core science option.

PH 111 Introductory Stellar Astronomy 5 credits
Survey of the nature and evolution of the stars; neutron stars, pulsars, black holes; nebulae, galaxies, quasars; the origin and evolution of the universe; telescopic observation available. Core science option.

PH 200 Mechanics 5 credits
Vector mathematics; kinematics; conservation of momentum and collisions; relative motion and reference frames; force and Newton's laws; work, energy, and power; rotational dynamics; rigid body motion, gravitation. Prerequisites: MT 115, 134. (winter, spring)

PH 201 Electricity and Magnetism 5 credits
Electric charge, forces, field, flux; Gauss' law; electric potential; conductors, dielectrics, capacitance; current and resistance; DC circuits; magnetic forces, fields; inductance. Prerequisites: PH 200, MT 135. (fall, spring)

PH 202 Waves, Optics and Thermodynamics 5 credits
Harmonic motion; mechanical and electromagnetic waves; reflection, refraction, dispersion, interference, diffraction and polarization. Temperature, ideal gases, kinetic theory, second law of thermodynamics. Prerequisites: PH 201, MT 136 (fall, winter)

PH 204 Relativity 2 credits
An introduction to special relativity. The Lorentz transformation; relativistic kinematics and dynamics. Prerequisite: PH 202. (spring)

PH 205 Introduction to Quantum Physics 3 credits
Evidence for the quantization of light, matter, and energy; the nuclear atom; wave-particle duality; the uncertainty principle; the Schrodinger equation and its applications. Prerequisites: PH 202; MT 232. (fall, spring)

PH 291 Special Topics 1-5 credits
PH 291 Special Topics 1-5 credits
PH 291 Special Topics 1-5 credits

PH 296 Independent Study 1-5 credits
PH 296 Independent Study 1-5 credits
PH 296 Independent Study 1-5 credits

PH 310 Intermediate Mechanics I 5 credits
Vector calculus; kinematics of a particle; one-dimensional motion of a particle; two and three dimensional dynamics of a particle; moving reference systems; central forces and celestial mechanics. Prerequisites: PH 200, MT 232. (winter)

PH 311 Intermediate Mechanics II 3 credits
General motion of a rigid body; Lagrange's equations; small vibrations. Prerequisites: PH 310, MT 234. (spring)

- PH 330 Electromagnetic Field Theory 5 credits**
Static electric fields in vacuum and material media; solutions of Laplace's and Poisson's equations in curvilinear coordinates; static magnetic fields; timevarying fields and Maxwell's equations. Prerequisites: Ph 201, MT 234. (fall, winter)
- PH 331 Electromagnetic Waves 3 credits**
Derivations and solutions of wave equations; plane waves in vacuum and material media; reflection, refraction, polarization; radiation of electromagnetic waves. Prerequisite: Ph 330. (spring)
- PH 350 Physics of Diagnostic Ultrasound 3 credits**
The physics of pulsed ultrasound, including its production and detection by transducers, characteristics of pulses and sound beams, interaction of ultrasound with tissue including attenuation, impedance, reflection, refraction, scattering, ranging, and Doppler effect; introduction to ultrasonic instrumentation. Prerequisites: PH 106 or equivalent; MT 131 or 134; enrollment in Allied Health Technology or permission. (fall)
- PH 361 Solid State Physics and Devices 5 credits**
Crystal structure and defects; interatomic binding; thermal and electrical properties; energy bands, carrier statistics and carrier transport phenomena. Semiconductor devices. Prerequisite: PH 205.
- PH 375 Nuclear Instrumentation 5 credits**
Ionizing radiation. Nuclear decay processes, interaction of radiation with matter, instrumentation for the detection of photons, charged particles, and neutrons. Prerequisite: PH 205.
- PH 396 Independent Study 1-5 credits**
PH 397 Independent Study 1-5 credits
PH 398 Independent Study 1-5 credits
- PH 470 Nuclear Physics 5 credits**
Structure and properties of nuclei and elementary particles; symmetries and conservation laws; electromagnetic, weak, and hadronic interactions; nuclear models. Prerequisites: PH 205, MT 234.
- PH 475 Basic Physics of Nuclear Fission Reactors 5 credits**
Brief historical sketch, discussion of pertinent nuclear reactions, cross-sections, moderation, equation of continuity, diffusion area, Fermi age, criticality and Fermi criticality equation, simple spherical reactor. Kinetic aspects are considered such as the role of delayed neutrons and reactor period. The laboratory experiments deal with diffusion area, Fermi age, multiplication factor, buckling, and control rod action. Prerequisites: PH 205; MT 234.
- PH 481 Theoretical Physics 5 credits**
Topics in theoretical physics selected from statistical thermal, and modern physics. Prerequisites: PH 205, MT 234. (fall)
- PH 485 Quantum Mechanics 5 credits**
Wave-particle duality, the state function, the Schrodinger equation, one-dimensional problems, the operator formalism, matrices, central forces, angular momentum, spin, identical particles. Prerequisites: PH 205, MT 234. (fall)
- PH 491 Special Topics 1-5 credits**
PH 492 Special Topics 1-5 credits
PH 492 Special Topics 1-5 credits
PH 496 Independent Study 1-5 credits
PH 497 Independent Study 1-5 credits
PH 498 Independent Study 1-5 credits

Premedical and Predental

Thomas W. Cunningham, Ph.D., Adviser

Students wishing to enter professional schools of medicine, dentistry, or veterinary medicine, or graduate schools in biomedical studies, should matriculate in a program of studies leading to a bachelor's degree in any academic field which will give a broad training in the liberal arts and fulfill the proper requirements in the physical and biological sciences. Students may choose any academic major; most elect biology, chemistry, physics, general science or psychology. With the framework of any one of the degree programs, students obtain strong backgrounds in the liberal arts through the core curriculum. For further clarification of degree requirements and the core curriculum, see pages 26-28 of this bulletin.

Most medical, dental or veterinary schools require the following undergraduate science sequences: Chemistry 121, 122, 123, 131, 132, 133, 241, 242, 243, 251, 252; Biology 165, 166, 167, 270, 271 or 310, 326; and Physics 105, 106, 107. Professional schools also recommend calculus, biochemistry, or physical chemistry. Students are advised to consult the bulletins of the professional schools to which they wish to apply to acquaint themselves with specific requirements other than those listed. Students should plan to complete preprofessional requirements by the end of their junior year, at which time they should take the MCAT, DAT, VAT tests. Application for admittance to professional schools should be made during the summer or fall of the senior year.

Because of the necessity for required science courses to be completed by the end of the junior year, students in these programs will complete the core curriculum in a different sequence than that shown on pages 26-28 of this Bulletin. The courses to be taken and the sequence for taking them will be developed by the student's academic adviser.

Graduate School

Graduate School

Edward J. Jennerich, Ph.D., Dean

Graduate studies directed toward the master's degree were first offered at Seattle University in 1910 in a division of its College of Arts and Sciences. In 1935, graduate courses became an integral part of the University's teacher education program. As the demand for specialization increased, additional graduate programs were developed. In 1976, the first doctoral program was implemented, in 1980 the educational specialist degree was approved, and the Institute for Theological Studies was launched in 1985.

Objectives

Graduate programs endeavor to offer advanced in-depth education to individuals seeking specialized knowledge and skills in a particular field. Graduate students are encouraged to develop high level thinking abilities including application and synthesis which, in turn, can be translated into effective speaking and writing. Expertise in the examination of the ethical and value-laden issues in various fields is an important component of graduate education at Seattle University.

Efforts are made to stimulate participants' curiosity while at the same time providing the investigative skills needed to seek answers to challenging questions. It is hoped that individuals who complete graduate programs will have developed personal and professional competencies that will contribute to the improvement of their field and to the betterment of those whom they serve.

Organization

The Dean of the Graduate School and the Graduate Council are responsible for administration of the Graduate School and supervision of all programs leading to the master's, educational specialist and doctoral degrees. The Dean of the Graduate School and the Council establish and maintain requirements for degrees according to the recommendations of the graduate committee of each school of the University.

The component schools and various departments provide courses of instruction for graduate schools, direct their studies, conduct examinations, maintain requirements and make recommendations. Academic transactions involving admission, registration and awarding of degrees are supervised by the University's Registrar. Actual admission to graduate study is granted through the Dean of the Graduate School in consultation with the appropriate graduate program director.

Most programs offer courses in the late afternoon and evening for working professionals.

Degrees Offered

For admission and program requirements see the Seattle University Graduate Bulletin.

Graduate Degrees offered by the University are:

ARTS AND SCIENCES

Master of Arts—Psychology
Master of Public Administration

BUSINESS

Master of Business Administration

EDUCATION

Master of Arts in Education
Master of Arts
Master of Education

These three degrees may be earned with specialization in the following areas: administration, counseling, curriculum and instruction, and rehabilitation counseling.

Master of Counseling

Educational Specialist

This degree may be earned in Administration or Educational Diagnostics/School Psychology.

Doctor of Education

INSTITUTE FOR THEOLOGICAL STUDIES

Master of Ministry (summer only)
Master of Religious Education (summer only)
Master of Pastoral Ministry
Master of Theological Studies
Master of Divinity

SCIENCE AND ENGINEERING

Master of Software Engineering

Board of Trustees

Robert D. O'Brien, Chairman
Seattle, Washington

Genevieve Albers
Seattle, Washington

John K. Blume
President, University Enterprises, Inc.

Emmett H. Carroll, S.J.
Assistant Professor of English, Seattle University

William J. Clancy
Pacific First Federal Bank

John D. Durbin
Durbin Corporation

John Ellis
President and Chief Executive Officer,
Puget Sound Power & Light Company

Patrick Fahey
Chairman and Chief Executive Officer,
Pacific Northwest Bank (in formation)

Rhoady Lee, Jr.
Lakeside Industries

Paul L. Locatelli, S.J.,
Rector, Loyola Marymount University

Thomas H. O'Leary
Vice Chairman, Burlington Northern Inc.

Lammert B. Otten, S.J.
Assistant Professor of Electrical Engineering,
Seattle University

Donald Phelps
Chancellor, Seattle Community College District

James C. Pigott
President, M R & S, Inc.

Rosanne Royer
Seattle, Washington

William D. Ruckelshaus
William D. Ruckelshaus Associates

Robert L. Sheeran, Senior Resident Vice President,
Merrill, Lynch, Pierce, Fenner & Smith

Andrew Smith
President, Pacific Northwest Bell

William J. Sullivan, S.J.
President, Seattle University

Joseph A. Tetlow, S.J.
St. Louis, Missouri

Daniel C. Weber, S.J.
President, Bellarmine Preparatory School

T. A. Wilson
Chairman of the Board, The Boeing Company

Francis P. Wood, S.J.
Professor Emeritus, Electrical Engineering,
Seattle University

Ann Wyckoff
Seattle, Washington

Board of Regents

John McMillan, Chairman
Executive Vice President, Nordstrom

Joseph K. Abel
Executive Vice President, KIRO Newsradio 71

Thomas J. Bannan (Emeritus)
Indian Wells, California

John A. Beyer, Sr.
Bellevue, Washington

Peter Bigelow
Administrator, Providence Medical Center

William E. Boeing, Jr.
Chairman, Tri-Land Corporation

Eugene Brenner
Janin, Morgan & Brenner

Cliff Burglin
Fairbanks, Alaska

Dennis M. Colleran
President, Tree Top, Inc.

Dorothy Cordova
Director, Demonstration Project for Asian Americans

Joseph R. Curtis
Poulsbo, Washington

Ralph M. Davis
Chairman, Puget Sound Power & Light Company

Michael E. Dennehy
Regional Manager, E. F. Hutton & Company

Brian Ducey
Senior Vice President & Chairman of Senior Credit
Committee, Seattle-First National Bank

James D. Dwyer
Executive Director, Port of Seattle

Ann Farrell
President, Seattle Foundation

Virgil Fassio
Publisher, The Seattle Post-Intelligencer

Carlos Flohr (Emeritus)
Seattle, Washington

Joseph M. Gaffney
Foster, Pepper & Shefelman

Vincent Gervais
Crow, Gervais Company

Leo J. Hindery, Jr.
San Francisco, California

John D. Hough
Senior Vice President, Marketing, Advertising and
Bank Relations, First Interstate Bank

Walter T. Hubbard
Seattle, Washington

James T. Hughes
Bainbridge Island, Washington

D. John Jolly
Sullivan Payne Company

Rhoady Lee, Sr.
Lakeside Industries

Dorothy Lynch
Seabeck, Washington

Mary Malarkey
Seattle, Washington

Gordon A. McHenry, Jr.
Perkins Coie

Michael McHugh
Restaurant Services, Inc.

David L. Moberly
Seattle, Washington

John A. Moga
Office Managing Partner, Arthur Andersen & Company

William G. Moran, Sr.
Chairman, First Bank Ketchikan, Alaska

Dan W. Murphy
Executive Vice President
Central Pre-Mix Concrete Company

Paul T. Nolan
President, General Telephone Company of the Northwest, Inc.

Steve Norman
President, Seattle University Alumni Board of Governors

Robert D. O'Brien
Chairman, Seattle University Board of Trustees

Thomas O'Connell
Seattle, Washington

Charles Riley
Vice Chairman, Peoples Bancorporation

Thomas W. Roach
Campbell, Johnston & Roach, PS

Celeste Rogge
Seattle, Washington

Millie Russell
Special Assistant to the Vice President for
Minority Affairs, University of Washington

Valerie Ryan
Seattle, Washington

Mary Ann Sauvage
Seattle, Washington

Michael Schreck
Coldwell Banker Commercial Real Estate

S. Josef Selak
Seattle, Washington

Boyd Sharp
Sirach, Flinn Elvins Management

Lois Spellman
Seattle, Washington

William J. Sullivan, S.J.
President, Seattle University

John R. Walsh, Jr.,
Partner, Price Waterhouse

Robert Weber
Mercer Island, Washington

William Weisfield
President, Northwest Building Corporation

Frederic S. Weiss, Vice President & Manager,
Coldwell Banker Commercial Real Estate Services

James Williams
Bellevue, Washington

William P. Woods (Emeritus)
Bellevue, Washington

Carol Wright
Seattle, Washington

University Administration

William J. Sullivan, S.J., Ph.D., D.D., President

John D. Eshelman, Ph.D., Executive Vice President

L. John Topel, S.J., Ph.D.
Vice President for Academic Affairs

Gregory F. Lucey, S.J., Ph.D.
Vice President for University Relations

Denis S. Ransmeier, M.B.A.
Vice President for Finance and Administration

George A. Pierce, Ph.D.
Vice President for University Planning

Jeremy Stringer, Ph.D.
Vice President for Student Life

Academic Affairs

G. David Pollick, Ph.D.
Dean, College of Arts and Sciences

Harriet B. Stephenson, Ph.D.
Interim Dean, Albers School of Business

John J. Gilroy, Ph.D., Dean, School of Education

Kathleen E. Korthuis, Ph.D., Dean, School of Nursing

Terry J. van der Werff, D.Phil.
Dean, School of Science and Engineering

Edward J. Jennerich, Ph.D., Dean, Graduate School

Bernard M. Steckler, Ph.D., Dean, Matteo Ricci II

Thomas McCarthy, M.B.A.
Director, Institute of Public Service

Leo P. Stanford, Ph.D.
Director, Institute for Theological Studies

April F. Snyder, Ph.D.
Assistant Vice President for Academic Affairs

Shelia M. Hood, M.A.
Associate Vice President for Enrollment Services

Dannette Sullivan, M.Ed., Registrar

Fred M. Carter, M.Ed., Director, Financial Aid

Leon Gerig, M.S., Dean of Admission

William Blanchard, Ph.D., Director, Enrollment Research

Lawrence E. Thomas, M.A.L.S., University Librarian

Joseph B. Monda, Ph.D., Director, Summer School

Marie Hudgins, M.A.
Director, Learning Center/Disabled Student Resources

Mary Margaret Ridge, B.A., Director, General Studies

David Carrithers, M.B.A., Director, Continuing Education

Administrative Services

James I. Adolphson, B.A.B.A.
Assistant Vice President for Finance

Anna E. Dillon, Director, Personnel Services

Robert W. Fenn, M.P.A., Director, Plant and Public Safety

David King, B.A.B.A., Controller

Jerome C. Pederson, M.B.A., Director, General Services

Student Life

Rick Bird, M.B.A., Director, Auxiliary Services

Nancy Gerou, Ph.D., Director, University Sports

William J. Grace, M.S., Director, Office for Student Leadership

Sally B. Hull, Ph.D., Director,
McGoldrick Center and Career Development Center

Diane Jamieson, Ph.D., Director, Counseling Center

Judith Lee Sharpe, M.A., Director, Resident Student Services

Frederick B. Smith, M.D., Director, Health Center

Erin Swezey, B.A., Director Campus Ministry

University Relations

William F. LeRoux, S.J., M.A., S.T.D.
Assistant to the Vice President for University Relations

Mark Burnett, M.P.A.
Director of Alumni Relations and Communications

Joseph A. Maguire, S.J., M.A., Chaplain to the Alumni

Jean Merlino, B.A., Director of University Publications

Kate Vogt, M.B.A., Director of Development

FACULTY

The year following faculty names indicates initial full-time appointment to the University faculty. Asterisks preceding names denote faculty members on leave of absence.

Clarence L. Abello, B.Econ. (1953)

Professor Emeritus
B.Econ., 1933, University of London; Contrador Publico Nacional, 1937, Universidad Nacional de Buenos Aires, Facultad de Ciencias Economicas.

Josef C. Afanador, Ed.D. (1975)

Associate Professor of Rehabilitation in Education
B.A., 1963, Butler University; M.S., 1967, Purdue University; Ed.D., 1971, University of Arizona.

Richard H. Ahler, S.J., S.T.D. (1977)

Associate Professor of Theology and Religious Studies
A.B., 1954, Ph.L., 1956, St. Louis University; M.A., 1957, Marquette University; S.T.L., 1963, St. Louis University; S.T.D., 1975, Gregorian University.

Mary A. Alberg, Ph.D. (1979)

Associate Professor of Physics
B.A., 1963, Wellesley College; M.S., 1970, Ph.D., 1974, University of Washington.

Kathryn L. Anderson, M.N. (1986)

Instructor in Nursing
B.S.N., 1976, University of Virginia, Charlottesville; M.N., 1981, University of Washington.

Richard B. Anderson, CPT, B.S. (1985)

Assistant Professor of Military Science
B.S., 1975, United States Military Academy.

Abdolhossein Ansari, Ph.D. (1985)

Assistant Professor of Business
B.S., 1976, Tehran College of Insurance; M.B.A., 1979, University of Detroit; M.A., 1981, Ph.D., 1984, University of Nebraska, Lincoln.

Richard E. Arvey, Ph.D. (1984)

Assistant Professor of Business
A.B., 1968, Washington University; M.A.T., 1970, University of Chicago; M.B.A., 1981, Ph.D., 1983, University of Washington.

Gary L. Atkins, M.A. (1978)

Co-Chairperson, Communication Department
Associate Professor of Journalism
A.B., 1971, Loyola University; M.A., 1972, Stanford University.

Engelbert M. Axer, S.J., Ph.D. (1941)

Professor Emeritus
A.B., 1930, Valkenburg, Holland; S.T.L., 1940, St. Louis University; M.A., 1941, Gonzaga University; Ph.D., 1949, Georgetown University.

James E. Backus, MAJ, B.A. (1986)

Assistant Professor of Military Science
B.A., 1964, University of Washington

Sandra L. Barker, Ph.D. (1985)

Assistant Professor of Education
B.A., 1963, University of Oregon; M.A.T., 1968, University of Portland; Ph.D., 1983, University of Oregon.

Karen A. Barta, Ph.D. (1983)

Assistant Professor of Theology and Religious Studies
B.S., 1964, Marian College of Fond du Lac; M.A., 1972, Ph.D., 1979, Marquette University.

Mary C. Bartholet, M.S. (1958)

Associate Professor of Nursing
B.S., 1949, College of St. Teresa; M.S., 1958, St. Louis University.

John C. Bean, Ph.D. (1986)

Associate Professor of English/Director of Writing
B.A., 1965, Stanford University; Ph.D., 1972, University of Washington.

Gregory L. Berry, CPT, B.S. (1987)

Professor of Military Science
B.S., 1979, United States Military Academy.

Ernest P. Bertin, S.J., Ph.D. (1957)

Professor Emeritus
A.B., 1944, M.A., 1945, Gonzaga University; S.T.L., 1947, St. Louis University; M.A., 1952, Fordham University.

Francis X. Bisciglia, S.J., M.A. (1963)

Professor Emeritus
A.B., 1938, M.A., 1939, Gonzaga University; S.T.L., 1947, St. Louis University; M.A., 1952, Fordham University.

Andrew G. Bjelland, Ph.D. (1982)

Chairperson, Philosophy Department
Associate Professor of Philosophy
A.B., 1961, Immaculate Conception Seminary; Ph.D., 1970, St. Louis University.

Hamida H. Bosmajian, Ph.D. (1966)

Professor of English
B.A., 1961, University of Idaho; M.A., 1962, Ph.D., 1968, University of Connecticut.

Vicky M. Brautigan, Ph.D. (1980)

Chairperson, Allied Health Technology Department
Assistant Professor of Chemistry/Allied Health
B.S., 1972, Kalamazoo College; M.S., 1975, Ph.D., 1977, Northwestern University.

Karen A. Brown, Ph.D. (1983)

Assistant Professor of Business
B.S., 1971, M.B.A., 1979, Ph.D., 1983, University of Washington.

David Brubaker, Ph.D. (1980)

Chairperson, Biology Department
Assistant Professor of Biology
B.S., 1966, University of Redlands; M.S. and Ph.D., 1972, University of Michigan.

Carol Bruton, Ph.D. (1987)

Visiting Assistant Professor of Business
B.A., 1978, Washington State University; M.A., 1982, University of Washington; Ph.D., 1987, University of Washington.

Chauncey A. Burke, Ph.D. (1978)

Assistant Professor of Business
B.S.B.A., 1970, Mt. St. Mary's College; M.B.A., 1978, Ph.D., 1987 University of Washington.

J. Patrick Burke, Ph.D. (1967)

Associate Professor of Philosophy
B.A., 1965, Gonzaga University; M.A., 1967, St. Louis University; Ph.D., 1978, University of Louvain.

Norma Jean Bushman, M.N. (1960)

Associate Professor of Nursing
B.S.N., 1959, M.N., 1960, University of Washington.

Robert E. Callahan, Ph.D. (1977)

Associate Professor of Business
B.S., 1967, M.B.A., 1969, Drexel University; Ph.D., 1977, Case Western Reserve University.

Dale A. Carlson, Ph.D. (1983)

Chairperson, Civil Engineering Department
Professor of Civil Engineering
B.S.C.E., 1950, M.S.C.E., 1951, University of Washington; Ph.D., 1960, University of Wisconsin.

Emmett H. Carroll, S.J., D.A. (1973)

Chairperson, English Department
Assistant Professor of English
B.A., 1955, Gonzaga University; S.T.L., 1963, Gregorian University; M.A., 1966, Rutgers University; D.A., 1980, Carnegie-Mellon University.

Gary L. Chamberlain, Ph.D. (1979)

Director, SUMORE
Chair, Theology and Religious Studies
Associate Professor of Theology and Religious Studies
B.A., 1962, Ph.L., 1963, St. Louis University; M.A., 1967, University of Chicago; Ph.D., 1973, Graduate Theological Union.

Chu Chiu Chang, M.A. (1956)

Professor Emeritus
A.B., 1942, Central Political Institute, Chungking, China; M.A., 1956, University of Washington.

John P. Chattin-McNichols, Ph.D. (1979)

Associate Professor of Education
A.B., 1973, University of California at Los Angeles; Ph.D., 1979, Stanford University.

Xusheng Chen, M.S.E.E. (1988)

Visiting Instructor of Electrical Engineering
B.S.E.E., 1967, Institute of Power Engineering; M.S.E.E., 1982, Jiao Tong University; M.S.E.E., 1984, Louisiana State University.

Percy H. Chien, Ph.D., (1976)

Associate Professor of Civil Engineering
B.S.C.E., 1962, National Taiwan University; M.S.C.E., 1967, University of Houston; Ph.D., 1972, Clemson University.

Louis K. Christensen, Ph.D. (1965)

Professor of Music
B.A., 1954, M.A. (Mus.) 1956, Ph.D., 1961, University of Washington.

Carol Wolfe Clay, M.F.A. (1987)

Assistant Professor of Drama
B.A., 1977, California State University; M.F.A., 1985, University of California, Davis.

Janet M. Claypool, M.N. (1966)

Professor of Nursing
B.S.N., 1959, M.N., 1960, University of Washington.

Gerald L. Cleveland, Ph.D. (1967)

Professor of Business
B.S.B.A., 1953, University of South Dakota; M.B.A., 1957, University of Minnesota; Ph.D., 1965, University of Washington.

Mary Cobelens, M.L. (1971)

Assistant Librarian
B.A., 1959, Central Washington State; M.L., 1971, University of Washington.

Robert H. Cousineau, S.J., Docteur (1975)

Professor of Philosophy
B.A., 1953, M.A., 1954, Boston College; Ph.L., 1954, Weston College; S.T.L., Woodstock College; Docteur, 1969, University of Paris.

Ronald Culver, LTC, M.A. (1987)

Professor of Military Science
B.S., 1967, Utah State University; M.A., 1973, Pacific Lutheran University.

Thomas W. Cunningham, Ph.D. (1959)

Professor of Psychology
B.A., 1956, Seattle University; M.S., 1959, Ph.D., 1966, University of Portland.

Nikolas J. Damascus, M.F.A. (1951)

Professor of Art
B.F.A., 1944, M.F.A., 1947, Art Institute of Chicago.

Patricia D. Daniels, Ph.D. (1986)

Chairperson, Electrical Engineering
Professor of Electrical Engineering
B.S., 1968, Ph.D., 1974, University of California, Berkeley.
Registered Professional Engineer.

Margaret Mary Davies, Ph.D. (1955)

Professor Emeritus
A.B., 1938, Ph.D., 1960, University of Washington.

Pat DeCaro, M.F.A. (1986)

Assistant Professor of Art
B.A., 1973, Temple University; M.F.A., 1982, University of Washington

Verelle M. Davis, M.S. (1972)

Assistant Professor of Nursing
B.S., 1959, University of Washington; M.S., 1970, Catholic University.

Don T. DeCoster, Ph.D. (1986)

Professor of Accounting
BBA, 1954, West Texas State University; MBA, 1958, The University of Texas; Ph.D., 1961, The University of Texas; Ph.D., 1970, University of Oregon.

Rosario T. DeGracia, M.S. (1963)

Associate Professor of Nursing
B.S.N., 1954, University of the Philippines; M.S., 1959, Western Reserve University.

C. Frederick DeKay, Ph.D. (1980)

Associate Professor of Economics
B.A., 1972, University of Washington; Ph.D., 1979, Johns Hopkins University.

Robert J. Deltete, Ph.D. (1978)

Assistant Professor of Philosophy
B.A., 1969, Seattle University; M.A., 1976, Ph.D., 1983, Yale University.

Bonnie Jean Denoon, Ph.D. (1975)

Associate Professor of Education
B.A., 1961, M.Ed., 1966, Wichita State University; Ph.D., 1975, Peabody College.

Khalil (Charles) Dibee, Ph.D. (1964)

Professor of Business
B.S., 1956, University of Detroit; M.B.A., 1958, Ph.D., 1962, University of Texas.

Joseph P. Donovan, S.J., Ph.D. (1948)

Professor Emeritus
A.B., 1938, Gonzaga University; M.A., 1940, Georgetown University; Ph.D., 1948, University of Pennsylvania.

William J. Dore, Jr., M.A. (1963)

Professor of Drama
B.A., 1954, M.A., 1957, University of Washington.

Kate C. Duncan, Ph.D. (1985)

Chairperson, Fine Arts Department
Assistant Professor of Art History
B.A., 1964, M.A., 1967, University of New Mexico; Ph.D., 1982, University of Washington.

Diane M. Durnam, Ph.D. (1985)

Research Assistant Professor of Chemistry
B.S., 1976, University of California; Ph.D., 1981, University of Washington.

Robert J. Egan, S.J., Ph.D. (1964)

Associate Professor of Theology and Religious Studies
B.A., 1955, Gonzaga University; S.T.L., M.A., 1963, St. Mary's University; Ph.D., 1973, Fordham University.

Mary B. Ehlers, Ph.D. (1974)

Chairperson, Mathematics Department
Associate Professor of Mathematics
B.A., B.A. in Ed., 1964, Western Washington State College; M.A., 1966, Ph.D., 1969, Washington State University.

Gary J. Erickson, Ph.D. (1985)

Associate Professor of Electrical Engineering
B.S., 1964, Portland State University; M.S., 1967, Ph.D., 1977, University of Wyoming.

Suzanne M. Erickson, Ph.D. (1986)

Assistant Professor of Business
BABA, 1975, University of Washington; MBA, 1981, Seattle University; Ph.D., 1987, University of Washington.

John D. Eshelman, Ph.D. (1969)

Executive Vice President
Professor of Economics
B.S., 1963, Harding College; M.A., 1967, Ph.D., 1971, University of Washington.

Gerald T. Favero, CPT, B.S. (1985)

Assistant Professor of Military Science
B.A., 1979, Seattle University.

Edward S. Favilla, S.J., Ph.D. (1986)

Associate Professor of Business
B.S., 1959, M.S., 1969, Seattle University; Ph.D., 1975, Arizona State University; Ph.D., 1985, North Texas State University.

Patricia Ann Ferris, Ph.D. (1967)

Professor of Nursing
B.S., 1951, St. Mary's College, Indiana; M.S., 1958, Western Reserve University; Ph.D., 1972, University of Washington.

Lewis Filler, D. Eng. Sci. (1962)

Chairperson, Mechanical Engineering Department
Professor of Mechanical Engineering
B. Aero. Eng., 1953, M. Aero. Eng., 1954, D. Eng. Sci., 1958, New York University.

Alice L. Fisher, M.S.P.H. (1950)

Professor Emeritus
B.S.N., 1930, University of Minnesota; M.S.P.H., 1936, University of Michigan.

C. Patrick Fleenor, Ph.D. (1973)

Robert D. O'Brien Chair in Business
Professor of Business
B.A., 1969, Boise State College; M.B.A., 1970, Ph.D., 1975, University of Washington.

Beverly A. Forbes, Ed.D. (1983)

Associate Professor of Education
B.S., 1958, Washington State University; M.Ed., 1969, Ed.D., 1977, University of Washington.

Winfield S. Fountain, Ed.D. (1957)

Professor Emeritus
B.A., 1939, North Idaho College of Education; M.Ed., 1953, Ed.D., 1956, University of Washington.

Eric C. Frankel, Ph.D. (1980)

Assistant Professor of Software Engineering
B.A., 1968, Cornell University; M.S., 1968, Purdue University; Ph.D., 1972, University of Maryland.

Louis Gaffney, S.J., Ph.D. (1956)

Professor of Psychology
A.B., 1942, M.A., 1943, Gonzaga University; S.T.L., 1950, Alma College; Ph.D., 1956, University of Minnesota.

Sharon Galbraith, Ph.D. (1986)

Assistant Professor of Business
B.Comm. 1980, University of Calgary; MBA, 1982, Ph.D., 1987, University of Washington.

Franz J. Gebert, M.A. (1983)

Director, German-in-Austria Program
Instructor in German
M.A., 1955, University of Portland.

Pierre C. Gehlen, Ph.D. (1982)

Associate Professor of Mechanical Engineering
B.S., 1961, Université de l'Etat a. Liege; Ph.D., 1966, Northwestern University.

Lane A. Gerber, Ph.D. (1980)

Professor of Psychology
B.S., 1960, Franklin and Marshall College; Ph.D., 1968, University of Chicago.

Jorge Gilbert, Ph.D. (1987)

Assistant Professor of Sociology
M.A., 1971, University of Chile; M.A., 1975, University of Toronto; Ph.D., 1980, University of Toronto.

Karen A. Gilles, M.L.S. (1981)

Assistant Librarian
B.A., 1968, University of Illinois; M.L.S., 1978, University of Washington.

Roger Gillis, S.J., M.F.A. (1987)

Assistant Professor of Drama
B.A., 1969; M.A., 1973, Gonzaga University; M.F.A., 1986, Catholic University.

John J. Gilroy, Ph.D. (1982)

Dean, School of Education
Associate Professor of Education
B.A., 1957, M.A., 1958, LaSalle College; M.A., 1967, Middlebury College; Ph.D., 1972, University of Pittsburgh.

James P. Goodwin, S.J., M.A. (1950)

Professor Emeritus
B.A., 1937, M.A., 1938, Gonzaga University; M.A., 1950, Harvard University.

Robert B. Grimm, S.J., Ph.D. (1986)

Assistant Professor of Business
AB, 1971, Gonzaga University; M.Div., 1976, Weston School of Theology; MBA, 1978, New York University; Ph.D., 1986, University of Colorado.

Kathy Jean Grisham, M.N. (1976)

Assistant Professor of Nursing
B.A., 1965, University of Wisconsin; M.N., 1967, University of Washington.

Kristin E. Guest, Ph.D. (1981)

Associate Professor of Education
B.A., B.S., 1965, University of Minnesota; M.A., 1967, Ph.D., 1970, University of Wisconsin.

William A. Guppy, Ph.D. (1952)

Professor of Psychology
Ph.B., 1950, Seattle University; M.A., 1953, Ph.D., 1959, Loyola University, Chicago.

Reed A. Guy, Ph.D. (1975)

Chairperson, Physics Department
Associate Professor of Physics
B.S., 1966, University of Alabama; Ph.D., 1970, University of Virginia.

Wynne A. Guy, M.A. (1979)

Assistant Professor of Mathematics
B.A., 1966, University of Alabama; M.A., 1969, University of Virginia.

Karen G. Guyot, M.S.L.S. (1969)

Associate Librarian
B.A., 1966, State University of New York, Harpur College; M.S.L.S., 1968, University of North Carolina.

Margaret M. Haggerty, Ph.D. (1971)

Professor of Education
B.S., 1957, College of St. Teresa; M.A., 1964, Ph.D., 1967, Catholic University.

Steen Halling, Ph.D. (1976)

Chairperson, Psychology Department
Associate Professor of Psychology
B.A., 1967, York University; M.A., 1970, Ph.D., 1976, Duquesne University.

J. Hutchinson Haney, M.S. (1974)

Assistant Professor of Rehabilitation in Education
B.A., 1966, University of Denver; M.S., 1968, University of Arizona.

Mary Alice Hanken, M.Ed. (1972)

Chairperson, Health Information Administration
Assistant Professor of Health Information Administration
B.S., 1963, M.Ed., 1973, Seattle University.

Thomas M. Hansen, M.N. (1987)

Instructor in Nursing
B.A., 1982, Augustana College; M.N., 1987, University of Washington.

John M. Harding, J.D. (1975)

Associate Professor of Business
B.A., 1942, Yale University; J.D., 1948, Yale Law School.

Charles R. Harmon, M.A. (1953)

Professor of History
B.S.S., 1950, Seattle University; M.A., 1957, University of Washington.

Mark Hart, Ph.D. (1987)

Assistant Professor of Theology
B.A., 1978, Seattle University; Ph.D., 1987, Boston College.

Robert G. Heeren, Ph.D. (1983)

Professor of Electrical Engineering
B.S., 1960, Purdue University; M.S., 1962, Ph.D., 1968, University of Illinois.

Hildegard R. Hendrickson, Ph.D. (1967)

Rainier National Bank Professor of Finance
Professor of Economics and Business
B.A., 1958, M.B.A., 1959, Ph.D., 1966, University of Washington.

Marvin T. Herard, M.F.A. (1960)

Professor of Art
B.A., 1954, University of Washington; M.F.A. 1960, Cranbrook Academy of Art.

Helen E. Hewitt, M.N. (1965)

Professor Emeritus
B.S., 1959, University of Washington; M.N., 1961, University of Washington.

Alan L. Hilton, Ed.D. (1985)

Associate Professor of Education
B.A., 1966, California State University, Sacramento; M.S., 1974, Santa Clara University; Ed.D., 1980, University of Southern California.

James B. Hogan, Ph.D. (1976)

Associate Professor of Political Science
A.B., 1957, Long Beach State; M.A., 1958, University of California at Los Angeles; Ph.D., 1970, Cornell University.

Ray W. Howard, Ph.D. (1967)

Professor Emeritus
B.A., 1931, M.A., 1940, Ph.D., 1949, University of Washington.

Patrick Howell, S.J., D. Min. (1986)

Assistant Professor of Theological Studies and Theology/Religious Studies
B.S., 1961, Gonzaga University; M.A., 1966, Boston College; D. Min., 1985, Catholic University of America.

Margaret L. Hudson, Ph.D. (1974)

Associate Professor of Biology
B.S., 1968, Ph.D., 1974, University of Washington.

Jeanette A. Hulburt, M.L. (1964)

Associate Librarian
B.A., 1950, Seattle University; M.L., 1964, University of Washington.

Dolly Ito, D.N.S. (1959)

Professor Emeritus
B.S., 1951, Gonzaga University; M.A., 1958, University of Washington;
D.N.S., 1970, University of California at San Francisco.

Sharon James, Ph.D. (1982)

Assistant Dean, Albers School of Business
Assistant Professor of Business
B.S., 1970; M.A., 1973; Ph.D., 1981, University of Kansas.

Edward J. Jennerich, Ph.D. (1987)

Dean, Graduate School
B.A., 1967, Trenton State College; B.S., 1970, Drexel University; Ph.D.,
1974, University of Pittsburgh.

Dolores M. Johnson, Ph.D. (1964)

Associate Professor of English
B.A., 1960, M.A., 1964, Ph.D., 1971, University of Washington.

Warren B. Johnson, Ph.D. (1962)

Associate Professor of History
B.A., 1947, M.A., 1952, Ph.D., 1962, University of Washington.

Andrew J. Judd, Ph.D. (1976)

Assistant Professor of Business
B.A., 1972; M.B.A., 1976, University of Washington; Ph.D., 1985, University
of Florida.

Garry R. Kampen, Ph.D. (1985)

Assistant Professor of Software Engineering
B.A., 1963, Carleton College; M.A., 1964, University of Michigan; Ph.D.,
1973, University of Washington.

Clarence R.M. Kastama, Ed.D. (1986)

B.A., 1960, Western Washington University; M.A., 1971, Pacific Lutheran
University; Ed.D., 1983, Seattle University.

Michael M. Kelliher, S.J., D. Crim. (1972)

Director, Criminal Justice Program
Associate Professor of Sociology
A.B., 1960, Gonzaga University; S.T.B., 1968, University of Santa Clara;
M. Crim., 1969, D. Crim., 1972, University of California at Berkeley.

James W. King, S.J., S.T.D. (1959)

Associate Professor of Sociology
Diploma, Voice, 1942, Sherwood Music School, Chicago; M.A., 1952, Gon-
zaga University; S.T.B., 1957, Alma College; Diploma, 1958, Institut Gregorien
de Paris; S.T.D., 1971, San Francisco Theological Seminary.

John L. Kite, Ph.D. (1974)

Associate Professor of Rehabilitation in Education
B.S., 1966, M.Ed., 1968, Trinity University; Ph.D., 1974, University of Arizona.

David R. Knowles, Ph.D. (1978)

Associate Professor of Economics
B.A., 1969, M.A., 1973, Ph.D., 1978, Washington State University.

Harry H. Kohls, S.J., Ph.D. (1966)

Associate Professor of Philosophy (Ret.)
A.B., 1935, M.A., 1936, Gonzaga University; Ph.D., 1952, Georgetown
University.

Kathleen E. Korthuis, Ph.D. (1986)

Dean, School of Nursing
Associate Professor of Nursing
B.S.N., 1971, M.S.N., 1973, Wayne State University; Ph.D., 1982, University
of Toledo.

Ursel S. Krumme, M.A. (1977)

Associate Professor of Nursing
B.S., 1961, M.A., 1962, New York University.

Georg D. Kunz, Ph.D. (1971)

Associate Professor of Psychology
A.B., 1960, Ph.L., 1961, Gonzaga University; M.A., 1964, Marquette University;
Ph.D., 1975, Duquesne University.

David Lee Kurtz, Ph.D. (1980)

Thomas F. Gleed Professor of Business
B.A., 1963, Davis and Elkins College; M.B.A., 1965, Ph.D., 1969, University
of Arkansas.

Marianne LaBarre, S.N.J.M., M.A. (1987)

Field Coordinator, CORPUS Program
Assistant Professor of Theology
B.A., 1969, Marylhurst College; M.A., 1981, St. Mary's College of California.

Charles S. LaCugna, Ph.D. (1947)

Professor Emeritus
A.B., 1937, Manhattan College; M.A., 1944, Fordham University; Ph.D.,
1960, University of Washington.

Jane P. LaFargue, Ph.D. (1969)

Professor of Nursing
B.S., 1968, Boston University; M.N., 1969, Ph.D., 1981, University of Wash-
ington.

Val M. Laigo, M.F.A. (1965)

Associate Professor of Art
B.Ed., 1954, Seattle University; M.F.A., 1964, University of Washington.

James Robert Larson, Ph.D. (1952)

Chairperson, Sociology Department
Professor of Sociology
A.B., 1949, Seattle University; M.A., 1952, Fordham University; Ph.D., 1958,
University of Washington.

David J. Leigh, S.J., Ph.D. (1983)

Director, Honors Program
Associate Professor of English
B.A., 1961, M.A., 1963, Gonzaga University; M.A., 1969, Regis College,
Toronto; Ph.D., 1972, Yale University.

William F. LeRoux, S.J., M.A., S.T.D. (1958)

Assistant to the Vice President for University Relations
Professor of Theology and Religious Studies
B.A., 1946, M.A., 1947, Gonzaga University; S.T.L., 1954, Alma College;
S.T.D., 1959, Gregorian.

Diane L. Lockwood, Ph.D. (1981)

Assistant Professor of Business
B.S., 1972, M.A., 1974, Ph.D., 1981, University of Nebraska.

Francis A. Logan, S.J., M.A. (1939)

Professor Emeritus
A.B., 1925, M.A., 1926, Gonzaga University; Diplome, 1955, de l'Institut de
Phonetique de l'Universite de Paris.

Kim Lohse, M.L.S. (1985)

Assistant Librarian
B.A., 1969, University of California, Davis; M.L.S., 1977, University of British
Columbia.

Reba Y. Lucey, M.Ed. (1969)

Associate Professor of Education
B.S., 1949, M.Ed., 1957, Sam Houston State Teachers College.

Kenneth D. MacLean, Ph.D. (1961)

Associate Professor of English
B.A., 1952, M.A., 1957, University of Washington; Ph.D., 1984, Indiana
University, Penn.

David W. Madsen, Ph.D. (1981)

Assistant Professor of History
B.A., 1969, Seattle University; Ph.D., 1981, University of Washington.

Harry Majors, Jr., M.S. (1958)

Professor Emeritus
B.S., 1935, University of California; M.S., 1939, California Institute of Tech-
nology; Registered Professional Engineer

Donald C. Malins, Ph.D. (1971)

Research Professor of Chemistry
B.A., 1953, University of Washington; B.S., 1956, Seattle University; Ph.D.,
1967, University of Aberdeen.

Leonard B. Mandelbaum, Ph.D. (1973)

Professor of Business
B.A., 1954, Washington Square College; J.D., 1957, Yale Law School; M.A.,
1966, Ph.D., 1974, American University.

Albert B. Mann, M.A. (1960)

Professor of History
A.B., 1951, Gonzaga University; M.A., 1957, University of Washington.

R. Maxime Marinoni, Ph.D. (1964)

Professor of French
Licence, 1961, Universite de Grenoble; M.A., 1965, Ph.D., 1975, University
of Washington.

Daniel B. Matlock, Ph.D. (1984)

Associate Professor of Biology
B.S., 1969, University of California; M.S., 1974, Ph.D., 1978, Oregon State
University.

Thomas G. McCarthy, M.B.A. (1987)

Director, Institute of Public Service
Assistant Professor in Public Administration
B.S.S., 1950, St. Peter's College; M.B.A., 1957, Rutgers University.

David D. McCloskey, Ph.D. (1971)

Associate Professor of Sociology
B.S., 1968, University of Oregon; M.A., 1970, The New School For Social Research; Ph.D., 1978, University of Oregon.

Alexander F. McDonald, S.J., M.A. (Oxon) (1969)

Professor Emeritus
A.B., 1940; M.A., 1941, Gonzaga University; M.A., 1942, University of Detroit; S.T.L., 1948, Alma College; M.A., 1952, Oxford University.

James T. McGuigan, S.J., M.A., S.T.L. (1946)

Professor Emeritus
A.B., 1929, M.A., 1930, Gonzaga University; S.T.L., 1937, Alma College.

Margit McGuire, Ph.D. (1987)

Professor of Education
B.A., 1968, Washington State University; M.Ed., 1972, Central Washington State College; Ph.D., 1975, University of Oregon.

J.W. McLelland, M.A. (1947)

Professor Emeritus
B.S., 1941, Seattle College, M.A., 1949, University of Washington.

Sister Mary Roberta McMahon, O.P., Ph.D. (1962)

Professor Emeritus
B.A., 1936, M.Ed., 1953, University of Washington; Ph.D. 1963, St. Louis University.

Sharon C. McNamara, M.N. (1986)

Instructor in Nursing
B.S., 1975, University of San Francisco; M.N., 1985, University of Washington.

Arthur L. McNeil, S.J., Ph.D. (1970)

Professor Emeritus
A.B., 1931, M.A., 1932, Gonzaga University; Ph.D., 1936, Catholic University of America; S.T.B., 1946, Alma College.

Thomas J. McPartland, Ph.D. (1987)

Visiting Assistant Professor of Philosophy
B.A., 1967, University of Santa Clara; M.A., 1969, University of Washington; Ph.D., 1976, University of Washington.

John E. Meany, Ph.D. (1983)

Professor of Chemistry
B.S., 1962, Seattle University; Ph.D., 1966, University of Washington.

Anita M. Mikasa, M.N. (1979)

Assistant Professor of Nursing
B.S.N., 1972, Mount Marty College; M.N., 1979, University of Washington

Paul B. Milan, Ph.D. (1966)

Chairperson, Foreign Languages Department
Associate Professor of French
B.A., 1964, Seattle University; M.A., 1966, Ph.D., 1972, University of Washington.

Esther Rae Mills, Ph.D. (1980)

Assistant Professor of Public Service
B.A., 1962, Whitworth College; M.A., 1966, Ph.D., 1976, University of Washington.

Everaldo E. Mills, Ph.D. (1983)

Director, Software Engineering and Computer Science
Associate Professor of Software Engineering
B.S., 1962, University of Nebraska; M.S., 1968, Ph.D., 1972, Washington State University.

Janet E. Mills, Ph.D. (1984)

Professor of Mathematics
B.A., 1965, Western Washington State College; Ph.D., 1970, Pennsylvania State University.

Ahmad Mirbagheri, Ph.D. (1983)

Associate Professor of Mathematics
B.S., 1959, Tehran University; M.A., 1963, Ph.D., 1965, Indiana University.

Batoul Modaress, Ph.D. (1986)

Assistant Professor of Business
B.S., 1976, RCD International School of Insurance (Tehran); M.B.A., 1979, University of Detroit; M.S., 1982, Ph.D., 1985, University of Nebraska.

Joseph B. Monda, Ph.D. (1955)

Director, of Summer School
Professor of English
A.B., 1949, St. Martin's College; M.A., 1950, Marquette University; Ph.D., 1968, University of Colorado.

John A. Morford, Ed.D. (1973)

Professor of Education
B.Ed., 1955, Gonzaga University; M.Ed., 1961, Ed.D., 1963, University of Idaho.

Michael A. Morgan, Ph.D. (1984)

Assistant Professor of Physics
B.S., 1975, M.S., 1980, Ph.D., 1984, University of Washington.

Jeff B. Murray, Ph.D. (1986)

Assistant Professor of Business
B.A., 1978, University of Northern Colorado; M.A., 1981, University of Northern Colorado; Ph.D., 1987, Virginia Polytechnic Institute and State University.

Constance F. Nakao, Ph.D. (1987)

Assistant Professor of Nursing
B.S.N., 1966, University of Washington; M.N., 1974, University of Washington; Ph.D., 1987, University of Washington.

Paul O. Neudorfer, Ph.D. (1980)

Associate Professor of Electrical Engineering
B.S.E.E., 1970, M.S.E.E., 1973, Ph.D., 1979, University of Washington.

Peter H. Nickerson, Ph.D. (1984)

Assistant Professor of Business
B.A., 1975, Washington State University; M.A., 1977, Ph.D., 1985, University of Washington.

Maureen Niland, Ph.D. (1986)

Assistant Professor of Nursing
B.S., 1968, Arizona State University; M.S., 1970, University of California, San Francisco; Ph.D., 1986, University of Washington.

Robert H. Novak, M.L.S. (1981)

Assistant Librarian
B.A., 1971, M.A., 1973, State University of New York at Albany; M.L.S., 1976, University of Oregon.

R. Michael O'Connor, Ph.D. (1974)

Associate Professor of Education
B.A., 1962, M.Ed., 1969, University of Washington; Ph.D., 1974, University of Minnesota.

Cornelius J. O'Leary, S.J., M.A., S.T.B. (1953)

Associate Professor of Theology and Religious Studies
A.B., 1943, M.A., 1944, Gonzaga University; S.T.B., 1951, Alma College.

Lammert B. Otten, S.J., Ph.D. (1983)

Assistant Professor of Electrical Engineering
A.B., 1958, Ph.L., 1959, B.S., 1960, St. Louis University; M.E.E., 1963, The Catholic University of America; S.T.L., 1967, St. Louis University; Ph.D., 1973, University of Missouri. Registered Professional Engineer.

Yvonne J. Owen, Ph.D. (1980)

Associate Professor of Education
B.S., 1967, Ph.D., 1978, University of Washington.

Joseph T. Page, Ph.D. (1955)

Professor Emeritus
B.A., 1950, M.S., 1951, Springfield College, Mass.; Ph.D., 1965, University of Oregon.

Gary D. Palmer, CPT, B.S. (1986)

Assistant Professor of Military Science
B.S., 1977, University of Wisconsin, La Crosse.

Virginia L. Parks, Ph.D. (1972)

Professor of Accounting and Economics
B.B.A., 1961, University of Texas; M.B.A., 1966, Ph.D., 1971, University of Houston.

James E. Parry, M.A. (1961)

Chairperson, History Department
Associate Professor of History
B.A., 1960, Seattle University; M.A., 1963, University of Washington.

C. Denise Pauley, M.L. (1967)

Associate Librarian
B.A., 1966, M.L., 1967, University of Washington.

- Ronald A. Peterson, J.D. (1950)**
Professor Emeritus
A.B., 1943, University of Omaha; J.D., 1948, Creighton University; Member, Nebraska and Washington Bar.
- Ihsin T. Phillips, Ph.D. (1985)**
Assistant Professor of Computer Science
B.S., 1979, M.S., 1981, Ph.D., 1984, University of Maryland.
- Sixto Plaza, Ph.D. (1985)**
Assistant Professor of Spanish
Licentiate, 1976, University of Buenos Aires; Ph.D., 1985, Georgetown University.
- Vincent S. Podbielancik, Ph.D. (1947)**
Professor Emeritus
B.S., 1938, Seattle University; M.S., 1958, Ph.D., 1966, University of Washington.
- G. David Pollick, Ph.D. (1984)**
Dean, College of Arts and Sciences
Associate Professor of Philosophy
B.A., 1971, University of San Diego; M.A., 1972, University of Ottawa; Ph.L., 1972, St. Paul's University; Ph.D., 1982, University of Ottawa.
- Sister Christopher Querin, S.P., Ph.D. (1960)**
Professor of Political Science
B.S.S., 1950, Seattle University; Ph.D., 1961, St. Louis University.
- David H. Read, Ph.D. (1948)**
Research Professor of Chemistry
B.S., 1942, Seattle University; M.S., 1944, University of Illinois; Ph.D., 1949, University of Notre Dame.
- James B. Reichmann, S.J., Ph.D. (1955)**
Professor of Philosophy
B.A., 1946, M.A., 1948, Gonzaga University; S.T.L., 1954, Ph.D., 1960, Gregorian.
- Deborah Richter, M.S. (1986)**
Instructor in Software Engineering
B.A., 1972, California State University, Chico; M.S., 1973, California State University, Chico.
- Peter R. Rimbey, Ph.D. (1984)**
Assistant Professor of Physics
B.A., 1969, Eastern Oregon State College; M.S., 1971, Ph.D., 1974, University of Oregon.
- James C. Risser, Ph.D. (1979)**
Associate Professor of Philosophy
B.A., 1971, California State University, Long Beach; M.A., 1973, Ph.D., 1978, Duquesne University.
- Mary Jean Rivers, Ph.D. (1978)**
Associate Professor of Economics and Business
B.A., 1965, M.A., 1974, Ph.D., 1982, University of Pittsburgh.
- Stephen B. Robel, M.S. (1948)**
Professor of Mechanical Engineering
B.S., 1948, Seattle University; M.S., 1951, University of Notre Dame.
- J. Fiona Robertson, M.A. (1987)**
Assistant Professor of Business
B.A., 1981, Brock University; M.A., 1982, Queen's University.
- Linda Roise, M.A. (1987)**
Director of Alcohol Studies
Assistant Professor of Alcohol Studies
B.A., 1967, Lewis and Clark College; M.A., 1969, Lewis and Clark College.
- Theodore J. Ross, M.B.A., C.P.A. (1947)**
Professor Emeritus
B.S., 1932, University of California; M.B.A., 1946, University of Chicago.
- Rev. Stephen C. Rowan, Ph.D. (1986)**
Assistant Professor of English
B.A., 1966, Fairfield University; S.T.B., 1968, St. Mary's Seminary and University; M.A., 1975; Ph.D., 1985, University of British Columbia.
- Jan O. Rowe, Ph.D. (1982)**
Assistant Professor of Psychology
B.A., 1971, M.Ed., 1974, Ph.D., 1982, Georgia State University.
- James E. Royce, S.J., Ph.D. (1948)**
Professor Emeritus
A.B., 1939, M.A., 1940, Gonzaga University; S.T.L., 1948, Alma College; Ph.D., 1945, Loyola University, Chicago.
- Erlinda F. Rustia, Litt.D. (1972)**
Associate Professor of English
Litt.B., 1941, M.A., 1948, Litt.D., 1969, University of Santo Tomas.
- Robert D. Saltvig, Ph.D. (1962)**
Professor of History
A.B., 1954, University of Portland; M.A., 1959, Ph.D., 1966, University of Washington.
- George A. Santisteban, Ph.D. (1964)**
Professor of Biology
B.A., 1945, Montana State University; M.A., 1949, Ph.D., 1951, University of Utah.
- Louis A. Sauvain, S.J., M.A., S.T.B. (1955)**
Associate Professor of Theology and Religious Studies
A.B., 1940, Seattle University; M.A., 1948, Gonzaga University; S.T.B., 1953, Alma College.
- Joan K. Savarese, Ph.D. (1983)**
Adjunct Assistant Professor of Psychology
A.B., 1968, Trinity College; M.A., 1971, Ph.D., 1974, George Peabody College.
- James E. Sawyer, Ph.D. (1977)**
Associate Professor of Public Service
B.S., 1967, Weber State College; Ph.D., 1975, University of Utah.
- C. Bradley Scharf, Ph.D. (1979)**
Chairperson, Political Science Department
Associate Professor of Political Science
B.A., 1966, Colorado College; M.A., 1969, Ph.D., 1974, Stanford University.
- Katherine Schlick Noe, Ph.D. (1986)**
Assistant Professor of Education
B.A., 1975; M.Ed., 1981, Ph.D., 1985, University of Washington.
- Leo A. Schmid, S.J., Ph.D. (1934)**
Professor Emeritus
A.B., 1932, M.A., 1933, Gonzaga University; S.T.B., 1941, Alma College; M.S., 1942, Marquette University; Ph.D., 1947, Fordham University.
- David W. Schroeder, Ph.D. (1958)**
Research Professor
B.Ch.E., 1944, University of Detroit; M.S., 1949, Ph.D., 1953, Carnegie Institute of Technology.
- Brigitte H. Schulz, Ph.D. (1985)**
Assistant Professor of Political Science
B.S., 1976, University of Maryland; M.S., 1978, London School of Economics; Ph.D., 1985, Boston University.
- Richard T. Schwaegler, Ph.D. (1959)**
Professor of Civil Engineering
B.S., 1957, M.S., 1958, Massachusetts Institute of Technology; Ph.D., 1968, University of Washington. Registered Professional Engineer.
- John S. Schwarz, S.J., M.A. (1970)**
Assistant Professor of History
B.A., 1951, M.A., 1958, Gonzaga University; M.A., 1964, University of Santa Clara.
- Walter G. Scott, MAJ, M.B.A. (1985)**
Assistant Professor of Military Science
B.A., 1974, University of Washington; M.B.A., 1984, Florida Institute of Technology.
- Mary L. Sepulveda, M.L. (1973)**
Assistant Librarian
B.A., 1972, M.L., 1973, University of Washington.
- Roupen Shakarian, M.M. (1985)**
Instructor in Music/Choral Director
B.A./B.M., 1973; M.M., 1976, University of Washington.
- Judson R. Shaver, Ph.D. (1985)**
Assistant Professor of Theology and Religious Studies
B.A., 1975, Southern California College; M.A., 1979, Ph.D., 1984, University of Notre Dame.
- Terrence S. Shea, S.J., Ph.D. (1985)**
Assistant Professor of Business
B.A., 1960, Gonzaga University; M.A., 1969, University of Santa Clara; M.B.A., 1971, New York University; Ph.D., 1985, University of Maryland.

Anita Shelton, Ph.D. (1987)

Visiting Assistant Professor of History
B.A., 1975, University of Washington; M.A., 1978, University of Washington;
Ph.D., 1986, University of Washington.

Richard F. Sherburne, S.J., Ph.D. (1977)

Associate Professor of Theology and Religious Studies
B.A., 1949, M.A., 1950, Ph.D., 1950, S.T.B., 1958, Saint Louis University;
Ph.D., 1976, University of Washington.

Andrea C. Skelly, B.S. (1981)

Director, Diagnostic Ultrasound Program
Assistant Professor of Allied Health Technology
B.S., 1980, Seattle University.

Rolf T. Skrinde, Ph.D. (1984)

Director, Engineering Design Center
Professor of Civil Engineering
B.S., 1950, Washington State University; M.S., 1952, Ph.D., 1958, Massachusetts Institute of Technology. Registered Professional Engineer.

Francis J. Smedley, B.S. (1949)

Associate Professor Emeritus
B.S., 1933, U.S. Naval Academy

Sally G. Smith, M.L. (1980)

Assistant Librarian
B.A., 1969, St. Mary's College; M.L., 1977, University of Washington.

Mitchell Spector, Ph.D. (1986)

Associate Professor of Computer Science
B.S., 1974, John Carroll University; Ph.D., 1976, Massachusetts Institute of Technology.

Edward H. Spiers, M.A. (1949)

Professor of English
Ph.B., 1948, Seattle University; M.A., 1949, University of Washington.

Leo P. Stanford, Ph.D. (1976)

Director, Institute for Theological Studies
Associate Professor of Theology and Religious Studies
B.S., 1964, University of San Francisco; Ph.D., 1969, Marquette University.

James L. Stark, D.A. (1972)

Associate Professor of German
B.A., 1964, University of Portland; M.A., 1968, D.A., 1972, University of Washington.

Bernard M. Steckler, Ph.D. (1961)

Dean, Matteo Ricci College II
Professor of Chemistry
B.S., 1953, St. Martin's College; Ph.D., 1957, University of Washington.

Pat Steffes, O.S.F., M.Div. (1986)

Director, CORPUS Program, Institute for Theological Studies
B.S., 1967, College of St. Teresa; M. Div., 1984, Catholic Theological Union.

Harriet B. Stephenson, Ph.D. (1967)

Interim Dean, Albers School of Business
Chairman of Administration
Professor of Management
B.A., 1961, M.B.A., 1962, Ph.D., 1966, University of Washington.

Kenneth W. Slikkers, Ph.D. (1981)

Associate Professor of Philosophy
B.A., 1972, M.A., 1975, Ph.D., 1982, DePaul University.

Kathleen Sullivan, R.S.C.J., Ph.D. (1987)

Associate Professor of Mathematics and Computer Science
B.S., 1965, Duchesne College; M.A., 1968, Catholic University of America;
M.S., 1987, University of Iowa; Ph.D., 1974, University of Wisconsin.

William J. Sullivan, S.J., Ph.D. (1975)

President
A.B., 1954, Ph.D., 1956, A.M., 1956, Saint Louis University; S.T.L., 1962, Faculte de Theologie; M.A., 1967, M. Phil., 1967, Ph.D., 1971, Yale University; D.D., 1977, Concordia Seminary in Exile.

Stephen V. Sundborg, S.J., S.T.D. (1984)

Assistant Professor of Theology
A.B., 1967, M.A., 1968, Gonzaga University; S.T.B., 1974, S.T.L., 1982, S.T.D., 1984, Gregorian University.

Carl E. Swenson, Ph.D. (1976)

Associate Professor of Mathematics
B.Ed., 1966, Pacific Lutheran University; M.A., 1970, Ph.D., 1972, Washington State University.

Andrew A. Tadie, Ph.D. (1979)

Associate Professor of English
A.B.Cl., 1966, John Carroll University; M.A., 1967, Bradley University; Ph.D., 1972, St. Louis University.

John Talevich, M.A. (1955)

Professor Emeritus
A.B., 1949, Seattle University; M.A., 1952, Marquette University.

Michael J. Taylor, S.J., S.T.D. (1961)

Professor of Theology and Religious Studies
A.B., 1947, M.A., 1949, Gonzaga University; S.T.L., 1955, Alma College;
S.T.D., 1961, Woodstock College, Lilly Post-Doctoral Fellowship, 1964-65.

William Taylor, M.A. (1963)

Associate Professor of English
B.A., 1956, Seattle University; M.A., 1966, University of Washington.

Lawrence C. Thomas, Ph.D. (1985)

Assistant Professor of Chemistry
B.A., 1970, Ph.D., 1975, University of Washington.

Lawrence E. Thomas, M.A.L.S. (1980)

University Librarian
B.S., 1954, Julliard School of Music; M.F.A., 1957, Brandeis University;
M.A.L.S., 1961, Indiana University.

John K. Thompson, Ph.D. (1973)

Associate Professor of Rehabilitation in Education
B.A., 1966, Muskingum College; M.S., 1970, San Diego State College;
Ph.D., 1972, University of Arizona.

David L. Thorsell, Ph.D. (1974)

Chairperson, Chemistry Department
Associate Professor of Chemistry
B.A., 1964, University of Minnesota; Ph.D., 1971, Ohio State University.

David E. Tinius, Ph.D., C.P.A. (1970)

Professor of Business
B.S.M.E., 1960, M.B.A., 1964, Ph.D., 1977, University of Washington.

Rex Swee-Kee Toh, Ph.D. (1980)

Professor of Business
B.E., 1970, University of Malaya; M.S., 1972, Ph.D., 1975, University of Minnesota.

Henrietta B. Tolson, M.S.W. (1971)

Associate Professor of Sociology
B.A., 1960, Seattle University; M.S.W., 1962, University of Washington.

L. John Topel, S.J., Ph.D. (1971)

Vice President for Academic Affairs
Professor of Theology and Religious Studies
B.A., 1958, M.A., 1959, Gonzaga University; S.T.M., 1966, Santa Clara University; S.S.L., 1969, Pontifical Biblical Institute; Ph.D., 1973, Marquette University.

Burnett R. Toskey, Ph.D. (1958)

Professor of Mathematics
B.S., 1952, M.A., 1958, Ph.D., 1959, University of Washington.

John P. Toutonghi, Ph.D. (1963)

Professor of Physics
B.S., 1957, Seattle University; Ph.D., 1963, University of Washington.

Sister Rosaleen Trainor, C.S.J., Ph.D. (1965)

Professor of Philosophy
B.Ed., 1958, Seattle University; M.A., 1963, Ph.D., 1966, St. John's University.

Kathleen M. Treseler, M.N. (1968)

Associate Professor of Nursing
B.S., 1946, Seattle College; M.N., 1965, University of Washington.

Sidney Trowbridge, Ph.D. (1986)

Assistant Professor of Biology
B.A., 1968, University of Texas, Austin; Ph.D., 1972, Baylor College of Medicine.

Alan Troy, Ph.D. (1970)

Associate Professor of Mathematics
B.A., 1950, B.S., 1953, University of Chicago; M.A., 1956, Ph.D., 1961, University of Illinois.

Richard L. Turner, Ph.D. (1963)

Professor of Electrical Engineering
B.S.E.E., 1946, M.S.E.E., 1952, Drexel University; Ph.D., 1962, University of Washington. Registered Professional Engineer.

Terry J. van der Werff, D.Phil. (1981)

Dean, School of Science and Engineering
S.B., S.M., 1968, Massachusetts Institute of Technology; D.Phil., 1972, Oxford.
Registered Professional Engineer.

Mohan Vanmane, M.S. (1986)

Instructor in Computer Sciences
B.S.E., 1982, Bangalore University; M.S., 1986, New Jersey Institute of Technology.

Usha S. Varanasi, Ph.D. (1971)

Research Professor of Chemistry
B.Sc., 1961, Bombay University; M.S., 1963, California Institute of Technology; Ph.D., 1967, University of Washington.

Robert F. Viggers, M.S. (1949)

Professor of Mechanical Engineering
B.A., 1944, University of Washington; M.S., 1950, Oregon State College.
Registered Professional Engineer.

Roy P. Wahle, Ed.D. (1977)

Associate Professor of Education
B.A., 1946, Central Washington State College; M.A., 1947, Ed.D., 1956, University of North Colorado.

Kathleen A. Waters, M.Ed. (1969)

Associate Professor of Health Information Administration
B.S., 1958, M.Ed., 1973, Seattle University.

Edwin H. Weihe, Ph.D. (1972)

Associate Professor of English
B.A., 1963, Brown University; M.A., 1965, M.F.A., 1966, Ph.D., 1972, University of Iowa.

Kristina Weir, M.A. (1987)

B.A., 1962, University of Missouri; M.A., 1963, University of Missouri.

William L. Weis, Ph.D. (1973)

Professor of Business
B.S.B.A., 1969, M.B.A., 1971, Bowling Green State University; Ph.D., 1979, University of Washington.

Richard R. Weiss, Ph.D. (1982)

Associate Professor of Electrical Engineering
B.S.E., 1952, University of Maryland; M.S.E., 1958, University of Michigan; Ph.D., 1967, University of Washington.

Dennis W. Wiedemeier, Ph.D. (1985)

Assistant Professor of Mechanical Engineering
B.S., 1964, United States Air Force Academy; M.S., 1971, Ph.D., 1976, University of Washington.

Delight C. Willing, Ed. D. (1987)

Associate Professor of Education
B.A., 1965, Carleton University; M.A., 1975, Seattle University; Ed.D., 1980, Seattle University.

Francis P. Wood, S.J., M.S. (1952)

Professor Emeritus
A.B., 1940, Gonzaga University; S.T.L., 1948, Alma College; M.S., 1952, Stanford University.

Marylou Wyse, Ph.D. (1965)

Professor of Education
B.A., 1953, M.Ed., 1965, Seattle University; Ph.D., 1969, Case Western Reserve University.

Andre L. Yandl, Ph.D., (1956)

Professor of Mathematics
B.S., 1954, M.A., 1956, Ph.D., 1965, University of Washington.

Barbara M. Yates, Ph.D. (1970)

Professor of Economics
B.A., 1962, College of Wooster; M.S., 1963, Ph.D., 1969, University of Michigan.

Neil Young, Ph.D. (1984)

Assistant Professor of Psychology
B.A., 1969, Queens College; Ph.D., 1981, University of California, Santa Cruz.

Richard Young, Ph.D. (1987)

Assistant Professor of Political Science
B.A., 1963, Lawrence University; M.A.T., 1963, Northwestern University; Ph.D., 1979, Stanford University.

Anita Younglich, Ph.D. (1946)

Professor of Sociology
B.S., 1945, Seattle University; M.A., 1948, St. Louis University; Ph.D., 1961, University of Oregon.

Tamer Yuntun, Ph.D. (1985)

Assistant Professor of Computer Science
B.S., 1971, M.S., 1973, Bosphorous University (Istanbul); Ph.D., 1985, Virginia Polytechnic Institute and University.

Gary H. Zarter, Ph.D. (1973)

Associate Professor of Education
B.A., 1960, St. Norbert College; M.A., 1969, San Francisco State; Ph.D., 1973, University of Washington.

Mary T. Ziebell, Ph.D. (1976)

Associate Professor of Accounting
B.A., 1973, M.B.A., 1975, Ph.D., 1978, University of Washington.

Casimir E. Zielinski, Ed.D. (1979)

Associate Professor of Education
B.Ph., 1948, Mt. Carmel College; B.A., 1953, St. Bonaventure; A.M., 1956, University of Chicago; Ed.D., 1973, University of Houston.

Where to Write or Call

There is a central mail room on the campus. Information on specific items may be obtained by writing to the offices listed below and adding: Seattle University/Seattle, Washington 98122 or, by calling the main switchboard at (206) 296-6000. Mail for student residence halls must be addressed to their respective locations.

ADMISSION

296-5800

ALUMNI

Alumni Association

296-6100

BULLETINS AND CATALOGS

296-5800

CAMPUS MINISTRY

Director of Campus Ministry
