### Spectator Will **Present Waring's Band To Studes**

Vol. VIII.-No. 16.

Spectator staff stars again! For due to the untiring efforts of Spectator members, Fred Waring and his Pennsylvanians will play an exclusive engagement for the College students this afternoon at K. C. Building.

Under direction of Eberharter and Mitchell, these self-appointed press agents of Fred have gone to great pains to assure curious collegians that, regardless of party connections, ASCAP and BMI tunes will get . . . and give . . the flavoring that is strictly Waring style. "Now is the time," said the two

enthusiasts, "to get your fill of long lost, smooth, slithery tunes." "They're just the thing to satisfy those itchy toes," added syncopation-addict Mitchell.

In conjunction with the showing turn on the 6:30 ferry. of Fred Waring, students will be treated to the highly praised "Tobaccoland" written and directed by the industrial division of "March of Time." This cinema shows in detail the intricate process of growing, curing, and selling this typically American product, tobac-co. "The color scenes in the picture Fr. Robinson, S.J. are without rival, and from start to finish it is highly enthralling," confidentially stated the two scribes. Moreover, the entire affair is free and all are cordially urged to come."

The dance (and Mr. Washington) will escape the Lenten deadline by but four short days. So since Lent is danceless and the social calendar relentlessly relentless, prepare for the forty days of non-frivolty by making this gala dance even more gala-er. Ginnie (Martha) Gemmill, and

All students not social isolationists, will certainly hate to miss the Hiyu Cole's Big Anniversary Hike this Sunday, February 16. The purpose of the hike is to provide informal, inexpensive entertainment in celebrating the club's second anniversary.

The party will leave the Colman Dock at 8:00. Mass will be held at Suquamish and an easy three mile walk from there will bring them to Edgewater. The "hikers' may play ping-pong, badminton, baseball, or may swim, dance, or lounge in the club-rooms, eat or even hike. The celebrants will re-

It is with sorrow we report the death of Mrs. B. Hermann, mother of Bill Hermann, Seattle College Freshman. Mrs. Hermann was a member of the Seattle College Mothers' Club. Funeral services are being held this morning at 10:00 a.m. at St. Benedict's Church.

The prayers of the students of Seattle College follow Mrs. Hermann; may her soul rest in peace.

Resolved: That college students should be exempted from the draft, was the timely subject upheld on a debate last night, at the Gavel Club meeting, by Mary Anne Schneider, and Tony Buhr; while Ruth Brock and Abner DeFelice argued for the negative.

An important issue was the question of whether graduation from college was an asset to a draftee in regards to his position in the army.

STUDENTS and TEACHERS, lend me your time. Do you know that we have completed half of the fiscal school year of 1940-41? Here is a survey of what some students have accomplished.

In Psychology they were taught that the imagination was given the student to compensate him for what he is not and a sense of humor of the world is so inferior that was provided him for what he is .- SANTA CLARA.

They learned in Composition class that as English theme is just like a beautiful girl. It has form, background, a neat appearance, but always gives a fellow a hopeless feeling .- EXCHANGE.

The Psychiatry students have discovered that the human brain is a wonderful organ. It starts as son as you wake up in the morning and never stops 'til you get to school .- BULL DOG.

In Oratory class, the students tabulated the vocabualry of the girls. It was discovered that the average girl student has a vocabulary of only eight hundred words. "It's a small stock, but think of the turnover."-W. W. COLLEGIAN.

Illusions or Realities! The United States-IsIt in Europe or Asia, or in the Western Hemisphere? The Incomparable Pos tion of the U.S. in the World.

In a spirit of humility, the writer outlines briefly and inadequately the simple foundations of American national policy with the hope that their understanding will add light rather than heat to the current controversies. ### Economically

Economically the U.S. enjoys the position of a balanced power, an advantage possessed actually by no other single nation in the world. It possesses the highest degree of self-sufficiency in industrial raw materials and complete self-sufficiency in food stuffs and industrial products. An analysis of American imports in a normal year reveals that less than one-fifth of American imports were virtually impossible to produce at home. This unrivalled position is in sharp contrast to the economic situation of such great powers as Great Britain, which possesses self-sufficiency only in coal, has insuffici ent iron, lacks almost all the essential raw materials of industry and must import 50% of its foodstuffs. The economic position of the "sub-great power" countries comparison with the U.S. is ludicrous. Only Russia may be com-

To finish a matter which has been carried on long enough, I would like to answer the letter written to me last week. First of all, Mr. Bill Moeller, not Paul Kelly, wrote the letter. To close this argument, I hope for good, I would like to say just one thing.

Paderewski is a famous pianist. He is famous because he has a wonderful sense of music which is transferred to his fingers when playing a piece. But what good would be his ear for music if he didn't have any hands?

If the college had kept basketball as a major sport could we have gotten into the Winco league. I think it is an up and coming league. Woody Borg, ex-college student.

Mr. Borg. Yes, we were offered a place in the Winco league when it was first formed. In fact, we were offered entrance before St. Martins but had to turn it down because of the uncertainty of our position in the basketball league. I agree with you in that it is rapidly arriving as a tight, smooth little league with a big future.

## **ON SPORTS Over Frosh**

Paced by the brilliant playing of Mike Hardiman and Joe Janikula the Frosh basketball team defeated the Sophs last Thursday, 34 to 24. It was a close battle until half time, with the Sophs leading at that time 15 to 12. But in the second half the Freshmen started to click. Janikula would "pot" one, Hardiman would "pot" one, then MacArthur would "dump" one. They drove ahead until at the end

Mr. F. L. The American Association is ranked about the same as the Pacific Coast league. There are some who say it is a little stronger while others claim that the Coast league is the faster.

Which all goes to show that Joe Merrick has his job cut out for him if he wants to stick in that league.

Mr. Berridge:

In regard to that letter which Mr. Kiely wrote you last week, I would like to say that I believe he is wrong. I don't think that you should quit "harping" on the subject of basketball. If you keep yelling, and at the top of your lungs, you will keep the students aroused so that they will be able and willing to take advantage of the break when the time comes. John McKay.

Father Nichols also emphatically stated that he did not wish to see Hitler win. That would be the go-ahead signal for complete destruction of the remaining Christian element in Germany. "But", he concluded with, "there

is no reason for us to commit suicide to see either side win. If necessary, we will start over again as the one democracy in the world and again prove that ours is the better form of life."
