Excess Profits Tax?

One of the foremost questions on the campus today is the excess profits tax. A committee, appointed by the Advisory Board, is now canvassing the student body for their ideas on the tax. The Spectator now presents the issue pro and con. Read it and then formulate your ideas.

0 PRO . . .

-John Powers

I have been . asked to write a few words in favor of an excess profits tax, to be levied upon the various organizations at Seattle College. So far this quarter, we have all seen the income that has been reaped by the various organizations sponsoring the various activities which have taken place. With the increased student body at Seattle College, it is pretty CON. . . hard to "go in the red" on affairs such as these, and in most It has come to my attention cases, a pretty good profit is atthat certain members of the stutained. These profits will proceed dent body are proposing a system to go into the treasuries of the by which the ASSC treasury various organizations, there to rewould be given the power to assmain idle, except for a few small ess the various organizations in expenditures. The purpose of the the college a certain amount of the excess profits tax is to divert this profit derived from the activities money into profitable channels. sponsored by these organizations. By profitable channels, I do not It is known as the excess profits mean channels which will favor tax law. Under this law, a certain one group or organization. I mean percentage of the money taken in that this money should be put by each organization, over and into the treasury of the A. S. S. C. above expenses, would be diverted Under the present system, the A. into profitable channels, namely, S. S. C. has no means of income the student body treasury.

other than the student fees, which under the present constitutional restrictions, it is forced to share with the Athletic Department, the Aegis, and the Spectator; and the income it receives from its dances. These dances, such as the Homecoming dance, the Fall informal, the Spring informal, are not profit tivities: the Fall informal, the making activities, but are striving Homecoming, and the Spring in-

Month of November . . .

"It is therefore a holy and wholesome thought to pray for the dead, that they may be loosed from sin."-2 Machabees 12:46.

With this thought in mind, Catholics of the Church Militant set aside te month of November and pray for the suffering members of the Mystical Body of Christ. Throughout November, Catholics all over the world offer their "thoughts, words, and sufferings" for their beloved dead, and in particular their "War Dead." The most democratic means which is prayer, is employed for the help of the most democratic people-the "Holy Souls." Let us, as students, join our offerings with millions of others for the deliverance of our suffering dead to the realms of eternal happiness.

A Good Start . . .

A new door has been opened. A past-due sports program, worthy of Seattle College, has at last been added to development plans! In taking this step, the college made a fine choice in selecting Bill Fenton as assistant athletic director to Father Logan.

Mr. Fenton proved his ability as an organizer and a planner during his udergraduate days at S.C. Now he is in a position where he can put his talents to work for the betterment of S.C. In scheduling some of the big name coast colleges for basketball competition, the athletic department has indicated the patr Seattle College intends to play in the postwar boom

THE SPECTATOR The Art

Of Skiing

-John Gucker Some people look upon skiing as a sport; these are the athletes. Some look upon skiing as a profitable business; these

are the doctors and morticians. I have found that skiing on snow is much simpler than over rocks, crags, or heavy timber. This may be traced to the fact that the ski was originated on the Scandinavian snows-not on the sand slopes of California, the grass slopes of the Hawaiian Islands, or speeding over the water behind a swift runabout. On the Norwegian slopes, Olaf or Carl would strap on his winged wooden staves (quote the sports writer) and speed down the incline to the village to woo

his love, or break his neck, or maybe both. Skiing, with the making of cheeses and watches, also progressed to the Alps of Switzerland, where we see today some of the world's best skiing.

Throughout the Alps of France, Germany, Italy, Switzerland, and Yugoslavia, we have snow. Splendid! From a beer barrel in Munich we take two staves and off we go for the skiing. It is also a good idea to take another full keg of beer in case

our staves break. .One of the first things to learn about skiing is how to climb a hill with skiis on This is very important, as walking in deep snow without skiis or snowshoes is not the most rapid form of travel. There are two distinct forms of climbing, the herring-bone and the side-step. The herring-bone does not specify that the skier is pickled, but that his finished tracks resemble that fish's skeleton. The side step is like a child going down steps; one foot catches the oth-

er, but never passes it. Now that we have mastered the climb, it is wise to learn how to stop with the skiis on. Some novices believe they know how to stop once they can make consistent headers into the nearest snow-bank without injury. This is, true, one way to stop; going through the wind-

shield of a car is another. The beginner will find the snowplow one of the best methods of stopping. This maneuver consists of pointing the skiis together at the tips, and, in most cases, sitting down. This sitting down is frowned upon by the experienced skiers, who spend most of their time in wheelchairs at the bar.

Now that we can climb and stop, we can make our way to the top of the slope (some people call it a cliff). Take a deep

Who's a Wheel?

—Dick Shanks

Are you a wheel? Are you sure? What is a wheel? A wheel is an individual who is considered by all to be an indispensable element of an institution's curriculum. Still here? What do you think now?

There are two distinctive types of wheels. First, we have the more common and best known wheel. This person is always to be seen at every social event. Whenever anyone mentions wheel they are certain to respond. If it is a dance they are constantly to be observed skirting the outer fringe of the dance floor, a look of mingled sadness and despair enveloping their countenance. At a party they are loud, boisterous ,the life (they think) of the affair. Around the halls, in the classromm, in the cafeteria, they are always interrupting the conversation to say something which they consider more important. In their mind the secretly think, "Oh, what a wheel am I!!!"

But let us not dwell on the common wheel. Let us now consider the opposite variety. These individuals are constantly endeavoring to aid their school and fellow students. They are studious, energetic, capable, young men and women. He is a connoisseur of the campus. She is the belle of the halls. Cordiality is their outstanding characteristic. Their friendship is desired by all.

But alas, all of us cannot be a wheel. As on any vehicle, which phraseology we shall observe for a demonstrtive purpose, there can be only a limited number of wheels; so, too, on our fair campus there are necessarily those who are not of the wheel category. Therefore, to those individuals who are not considered as being a wheel, we concede the following definitions: Tires; Rims; Hubcaps and Spokes.

A tire is a senior who is near the top and trying hard, a rim is a junior who wants to be a tire but lacks experience. A hubcap is a sophomore, going strong and destined for success in his college career. And lastly, very important, and not to be overlooked are our freshmen, the spokes, undoubtedly the most essential parts of any wheel. With, their enthusiasm and eagerness they make college life a continual thing of gaiety.

So if you are not a wheel, do not be sad. With a little effort and ear-banging nothing is impossible. The tire may overnight become a wheel. The rim is very close to the tire. And the hubcap is so well known to the spokes that becoming a rim is only a matter of time. And all of us spokes, let us try hard to further the well being and good name of our school; and perhaps one day in the not too distant future we may find ourselves elevated from the ranks of spokes to the more dignified positions of hubcaps, rims and tires. Perhaps some day we too shall be a "WHEEL."

REVIEW...

-Jack Harris

"Two Years Before the Mast," a recent Paramount release, is the newest Holly ood attempt at a sea epic to arrive at this fair city of Seattle. It is an extravagant picture, which proposes to convey a worthwhile message. That, from this writer's point of view, is very nearly the extent or it.

But no one must forget that handsome "tough guy" of Veronica Lake fame (Alan Ladd) featured in the role of a foppish loser-of - racing - bets profligate changing abruptly to a virile commend attempts to make a specimen of sailorhood. Alan is half-freed epic - love - adventurea fine actor in his own line. blah story of such a book as which sea epics definitely are Richard Dana's classic document. not. The fine supporting cast does superb work, considering this picture is at least an enthe absence of any tangible plot to go on. William Bendix, as the first mate, and the "Cookie," (Barry Fitzgerald), along with Brian Donlevy as Richard Dana himself, struggle through one of the most awkward scripts in many a picture. However, Barry and William Bendix have injected a few bright spots into an otherwise slow plot. The usual "discovery star" in this particular picture is Esther Fernandez, as a Spanish belle femme with an impotent duenna. She needs more self-confidence, one or two real lines. and a year or two of drama school before she will become of high enough caliber to play such roles as hers. On the other hand, there is no real place for a woman in the story, but that regrettably does not stop Paramount. At any rate, it would seem that the droves of writers on the Paramount lot might have done a better job of "dubbing" in her part.

Congratulations to Fr. Logan and Bill on their efficient handling of a big job. The student body is behind you in this venture, so you can't lose.

If I Were Only ...

One of the most disgusting problems at Seattle College is that group of people who continually include in their conversation the phrase "Now if I were only" Those people who are sure, beyond a shadow of a doubt, that they could manage almost 100% better than the present persons in charge.

First question in our minds is what prompts these people to make such statements. Is the school government being run inefficiently - are the present officers incapable of holding their offices - are the clubs functioning properly? These and many more questions might arise in any other American college or university. If there is occasion to criticize then people should criticize.

For the purpose of arriving at the point let's say that something is objectionable at school. Now for the second question . . . What do these people who criticize do about the situation?

And the answer is NOTHING. They criticize, criticize, and still criticize. And yet with all the energy exerted, said people do nothing. If they spent even 25% of the time that they spend in finding fault with someone by working with these people, then we daresay that this would be a very successful year.

Main objection of the Spectator is the Friday afternoon "tearing apart the Spec" people. Those people who claim the staff is "all wet" and don't know what's going on. Let's be a little more considerate. If you have a suggestion, or a complaint, turn it in, but don't go around circulating your ideas to everybody and then not letting the people concerned hear of it.

breath, a double shot of brandy, rum, or whiskey, and start down. The speed will give you confidence, and also multiply fractures.

By the time the skier has progressed so far that it is possible to stand erect on skiis with the minimum of injuries, the snows have left the Alps and spring is here. We don't look forward to spring, but to when the doctor will let us go home.

Once more able to navigate, we go into the stem turn, a form of turn that is swifter than the snowplow turn, which we have eliminated for being too slow. The stem turn is simple and merely consists of stemming with one foot, shifting the weight to the other foot and swinging around to pick yourself out of a beautiful sitzmark. If, by now, you can ski, drink the beer in the extra keg we

brought from Munich; if you can't ski, put the beer on ice and celebrate on the day the hospital gives you your discharge.

TEN YEARS AGO IN THE SPEC

The Drama Guild names William Thoreson president and Lucille Volkey vice prseident.

Jeanne Testu, John Peter, Angelo Magnao and Stephen Le-Daine are S. C. representatives in three-way debate tournament at Seattle Pacific College. The A. W. S. S. C. candy sale

is managed by Freshman Ellen McHugh and Betty Tobin.

Eldon Davis, in a heated article urges adoption of team name to replace the present "Maroons". "Maroon" means Davis says "fugitive slave". "It is even more ridiculous", he gose on, "when the natural incentive of an opponent changes 'Marcons' to 'macaroons' and thence to 'cookies'-Seattle College Cookies! Should S. C. be left to compete under this handicap?'

Far and away the best piece of acting in the picture was turned in by the veteran Howard De Sylva as the efficient, fanatical, and cold-blooded captain. He carries off his role of "villain" in fine style with just the correct amount of hateful glares.

Even if the crude adaptation of the book for the screen did have a nautical scent (that of ripe fish), the unsung prop men did an excellent job. The writer had an opportunity to visit the set while this picture was in production, and the authentic appearance as well as minute detail observed in the construction of props, especially the brig, "Pilgrim" is nothing short of astounding to the eye of a layman.

"Two Years Before the Mast" is worthy of patronage as a sea spectacle at any rate, and also for the pariseworthy message it takes to the silver screen. However, most of the adventure

tirely clean one in every way. which is hardly characteristic of some of the more recent Hollywood productions.

It can be said, though, that

episodes fall flat and the "love

LETTERS TO THE EDITOR

DEAR EDITOR:

This year's barn dance was another example of much ado about getting nothing done. Committees for publicity, entertainment, tickets, decorations, programs, etc, worked diligently, but accomplished little. The barn dance, as so many other recent dances, flopped. No matter how much of a financial success it may have been-the dance was a flop.

The publicity committee provided enough publicity so that half of Dick Parker's pavillion was filled with high school and University of Wash. students. The ticket committee sold lots of tickets-it would have been nice if the program committee had cooperated and provided souvenirs for the countless "programless" couples who had been promised an exchange at the door. Entertainment, if such it can be called, evidently was not planned at all. A few on stage had fun, the rest wondered what was happening. I will congratulate Leon Cram, who did a fine one man job on decorations, and Jerry Gray, who did swell job handling the "hay ride."

If stags and outsiders cannot be kept out of the dances, then perhaps we ought not to have any dances. However such regrettable affairs can be avoided, and it is not to the credit of those in charge of the barn dance for not benefitting by past experience. For the benefit of those students and other students who will face the prob-(Continued on page 4)

he remembered the golden rule. He drifted over and extended the kind word. Now and again he fell into conversation with the boy and found his fresh, eager outlook charming and he was pleased to find that others, too, liked his friend. This quarter Dave kept an eye out for his friend and he found him. He is pleased to report that his friend, Fred Holt, is getting along just fine.

* * * *

Our seniors, while shrugging into cap and gown for the first time, prior to the Mass of The Holy Ghost, were pleased to learn that this year's class is of considerably higher stature than were the old grads. But we were less pleased to learn that we are of somewhat smaller head size.

* * * *

Uninteresting as men's clothes may seem, after the AWSSC style show, we beg to report that a tempest is raging among our sartorially smarter males. The question is whether or not those surrealistic bow ties worn by Morgan the Philosopher Sorney, Mike Allen and Sylvester Heinke should be worn as they are, with striped shirts, with solid color, or with rare old white broadcloth. Maintaining that they have the Jean Razen seal of approval, the three intend to go on wearing stripes, let the Rinso fall where it may. No comment.

Roll call is a dull business at best and we expect a revolution someday. We think the prophetic note is sounding in Father Reidy's ethics class where the roll goes something like this: "O'Neil, Floyd, Kelzinski, Morales, has anybody here seen Kelly?"

. . . .

. . . .

The question of what happens when the conscious wits get together has always intrigued us and so we are happy to sit in on the Homecoming Musical Comedy writers' first conference. There were this page's Lou Flynn and Joe Schneider, the Drama Guild's bad boy, Don Wood and the general chairman in charge of keepin' people happy, Mary Ellen Moore. In the course of a long, hilarious evening at the Chieftain, they wrote three plays, all for one reason or another unusable and none for Seattle College. But they had a report from Bossman Bill Moeller when he looked in at ten o'clock. "Cheer up, Bill, we've just decided to throw out the music." Then they left the chagrined musician and went off, guffawing, into the night.

We predict that Father Peronteau will ask his Soc. I class that old midquarter question about the phenotypical elimination of genes.

. . . .

Much as we disapprove of gambling, we must say the girls are being offered the chance of a lifetime by Don Whinahan and Warren Epps. It's a pool, but no ordinary pool. The prize is twenty dollars for tolo night but that's only the start. The girl then has the choice of taking either Mister Whinahan, Mister Epps or the dashing Hugh McLane, in which case the man will bring the car. The girl could do the inconceivable thing and take someone else, but it would only prove again that women ain't gentlemen.

A radio has been added to the equipment of the Spec tower but we shall not protest. Our position is that we have got to learn to live with the twentieth cenury somteime and we may as well start now.

. . . .

Perusing the sport page of the San Franciscan Foghorn, I found corroboration for the opinion ventured in this column last week. . . That football squads nowadays lack plenty of the collegiate fire of former years. The Dons have been a great disappointment this year. Commenting on the reason for the poor showing of the team, the Sports Writer has this to offer. "The men of our starting lineup have been playing the game for many years, on service teams and the like. They just don't have that old sophomore fight . . . While they may say themselves, 'I'm going to get in there and do-or-die', they are only kidding themselves. No pep talk by any coach in the world can convince a senior that he should get out there and fight as he did when he was a sophomore."

Perhaps the collegian columnist has something there. In the meantime Clipper Smith continues to cry in his beer. . . . It is said that a college is a reservoir of erudition-the frosh always bring in a little learning; the seniors never take any away.

Our college dances would be more sociable and generally more pleasant could we eliminate these fellows who barge in without a "date." Whether for reasons of economy or others less valid, these "stags" turn up when the doorman has relaxed his vigilance. They then proceed to make their presence felt in a very unpleasant way. Truly, times have not changed since a poet wrote, "The stag at eve had drunk his fill."

Looks like Seattle Prep will have a busy afternoon on the 9th, when the Panthers meet Boys' Town. The outlook is far from promising for the local eleven. However, we must not despair. When the teams line up for the kickoff, one of the Beasley clan will occupy a very strategic spot out there on the greensward. You will recognize him by his long, effortless, ground-eating stride.

The thought has occurred to me that a Student Observer point failed, and the game remight with profit tackle the subject of Mixers. I refer, of course, to these lugubrious meetings of students at dance halls in the vicinity. In my years at SC I have had occasion to be present at many. Due to a painful case of fallaround rgiht end for the T.D., giving arches I have, perforce, played the role of spectator. ing the Rangers a six point lead, With each Mixer my wonder grows that I should have so many companions along the sidelines. Did I say along the the afternoon. sidelines? They spill over the dance floor as ink creeps along a blotter; they monopolize so much of the floor that the six dancing couples must retire to the lobby to trip Dick Coe the light fantastic. The orchestra plays away with great Tom Sheehan C gusto; a vocalist makes the night hideous with her tonsils Ed LaFortune RE Geo. Anderson Q but these young men just stay put. All this I had witnessed John Moran LH each time I attended a Mixer. Finally I determined to add Jack Flood some data to my History essay, "The Mores of Modern Bob Brown College Youth"-A dissertation on What Makes Them That Sub. Jack Tangney, Al Bowles Way which I hope will cancel a deficiency in History 137. Specs I tackle a husky youth, an intrepid skier who is daunted Rangers Official: Joe Budnick by no danger of slalom, straight-away or sitzmark. He is nibbling nervously on plaster pilfered from a well worn **Hiyu Coolies Foxed** column which supports him. To allay his suspicions I lead up to the fatal question with small talk about the nice Unusual Weather -turnout and the current trend in Spanish I. Then, pointing to the 176 girls standing about in the hall, I pop the question. "Say, Pal, a Mixer would be more fun if you danced. Why not ask one of the gals?"

I had declared myself. I was the enemy. I was more fearful than any icy incline or slithering slalom run. A startled

Bowlers Win

Vets Begin To Click; Well Trained Team Wins Easily From Specs, 26 to 7

Tuesday was a beautiful day for a football game and those who witnessed the Vets vs Spec tussle saw two teams who really made the best of the weather. The passing and "razzle-dazzle" play provided a thrill a minute as the Vets, for the first time this season, came through and displayed their prowess as ball handlers. They dominated the entire

first half, scoring three touchdowns by passes and via the line for two successful conversions. Ed Graisy, Bob Holland and Woody Sedgwick proved themselves able receivers and dent body. It was a good team and with the realization that combined with Jim Jaspere's acurate passing they proved a powerful offensive machine.

Goebeal and Pepper Schedule Talent Show; Lettermen Offer Prizes

Something new in the way of entertainment has been scheduled by the Lettermen's Club - it's a talent show. Date set for thise activity is at 7:30 p.m., November 21, at the Women's Century Club, Harvard North and E. Roy.

As was announced by Co-chairmen Don "Dutch" Goebel and Vince Pepper the purpose of the show is to "uncover the many hidden talents our students possess." The two further stated, "As has been seen in the past elections, student body meetings, and other functions student talent plays an important part. We hope

through this talent show to be able to uncover this talent which we do have at this school, so that we will be able to call on it for future occasions when needed. We also plan that this will be the first The first issue will feature an

> With the student body treasury, at the club's disposal, there would be no necessity for the push that has always been prevalent in any activity sponsored by any organization at Seattle College. In conclusion, I would like to say this; the loyalty of any student is equally divided among the clubs he belongs to and his student body association. In my own opinion this is not a case of loyalty, it is rather a question of choosing the best way to benefit the college as a whole. If we allow the association to have complete control of the funds brought in by the various organizations of the school, and that is what the whole thing boils down to, we will destroy the spirit of competition, the "espirit de corps" of the students who have made this college what it is today.

be maintained in their treasury.

This limit would be determined by a board composed of three members of the Advisory Board, the President and Treasurer of the ride of the fall quarter last Fristudent body, and moderator of day at Gay's Riding Academy. the A. S. S. C., and would vary with the different organizations.

Another objection that is liable to arise is the idea that the organization concerned will not strive for success if they do not hole. receive the full profits of their venture. If this is the case, the

organization is not working for the betterment of the school, but rather, is working selfishly to satisfy its individual interest. The thing to decide here is, what comes first, the individual organization or the A. S. S. C.

Another objection that may be brought forth is: the students may lose interest if personal gain is not attained. To this objection, I ask a question. Do you readers believe that there is enough interest shown in the A. S. S. C. at vember 14th at 7:30 p.m., room the present time? I do not. Some 137 Science Building.
